When it was proposed to make the Council of Public Instruction a partially representative body—when the new blood which was considered so necessary to its vitality had been infused into it, people somehow had possessed themselves of the idea that an era of reform and improvement was about to be inaugurated. That there was only too much need seems to have been admitted on all hands. The Council was a body composed of men standing high in their respective positions before the country, to whom probably no personal exception could be taken; but they were, nevertheless, men perfectly irresponsible to any authority in the land and they performed their work at the Council just as if they were not only aware of the fact, but were bound to work it out to its most absurd conclusions. They sat there not only oblivious to public opinion but in open defiance of it, and their duties were performed in that perfunctory manner, when performed at all, which made the management of the education of the Province a positive matter of one-man rule. That one man was the Chief Superintendent of Education, who, whatever he may have been in his earlier days as an educationist, is now fully a generation behind his time, and but for his venerable head and long services to the country, would inevitably have been sent to roost long ago. It is even surprising, considering the utter incompetence with which his administration has recently been marked, the inefficiency of the men with whom he has surrounded himself at the Education Office, and the scurrilous and abusive way in which he has treated some of the most prominent men in the Government of the day, that he has not himself been the means of compelling those in whose power it lay to do so to supplant him with one more fitted to perform his duties, and possessed of a little more discretion and better command of temper. However, our public men are blessed with a large measure of long suffering sometimes, and unfortunately the best interests of the Province have in this case had to suffer therefor.

We repeat that when new blood was proposed to be infused into the Council of Public Instruction, people hailed the proposition with considerable approval, hoping that it was a prelude to the inauguration of a new system and order of things, that the wings of the autocratic Chief Superintendent would be somewhat clipped, and that the education of a great Province like Ontario would be placed upon a footing consonant with its importance and somewhat consistent with the advancement and requirements of the age. The character of the men who have been elected by the respective bodies entitled by the new Act to representation in the Council gave hope that, so far as they were concerned, reform and improvement would not lack for advocates, and we have no doubt, were the means of verification placed within reach of their constituents, their every expectation would prove to have been fulfilled. The proceedings of the Council have hitherto been conducted on a principle not only inconsistent with the spirit of responsible government, but after a fashion which bears incompetency, jobbery, favouritism, and every species of irregular and corrupt management upon the very face of it. The Star Chamber system of legislation is naturally repugnant to the British mind, for it savours of a period in the history of British constitutional freedom and governmental responsibility which as a nation we are not accustomed to dwell upon with delight; and is but too characteristic of that evil-doing which shuns the day-light and courts the cover which is lent by the blackness of night. Responsible to neither Parliament nor people, conducting their business with a secrecy characteristic of a Ku Klux, pawning upon the public as proper manuals for the instruction of the young the maudlin productions of the Chief Superintendent and his puppets, perpetuating the abuses of the past generation, and stedfastly refusing to adopt the improvements of the present, it is not surprising that the people of Ontario have cried out, although as yet in vain, against the existing state of things. In view of all these matters we are bound to confess that the very first resolution of the regenerated Council has been to us a most painful surprise. One of the first acts we expected to hear of them performing was to have opened their meetings to the representatives of the press—to have let in upon the darkness of their deliberations the light of publicity—to have given the public an opportunity of learning how they did their business and what business they did—to have afforded the press and public a chance of discussing those things which so largely affect the future of the Province, and to have converted the Council, if not into a body responsible directly to the people, at least morally subject to the force of public sentiment. But instead of that, we are told that the Chief Superintendent asked whether reporters would be admitted, and the Council resolved that it is not expedient to give to the proceedings a larger measure of publicity than is required by law. Whether this was agreed to unanimously or not, and whether, if there was a division, who voted yea and who nay, we are not informed. In fact, it seems enough for the vulgar public to be allowed to know just what this high and exalted Council thinks fit to let it know. This first resolution dashes all our hopes of improvement to the ground at one fell blow. The new blood in the Council may throb as fiercely and feverishly as it pleases, its pulses will beat without any one being near to feel, and can therefore cause none to beat in sympathy with it outside of the walls of the Education Office. How long are the people of Ontario going to suffer themselves to be trampled upon in this manner? How long are the best interests of this great Province to be sacrificed and made subservient to the selfish purposes of a doited autocrat who, having been hoisted into a position of trust and responsibility, defies public sentiment openly and avowedly, and will continue to defy it to the end? Apparently so long as they are willing to suffer, the infliction will be continued without abatement. In a renewed Council, where hopes of improvement were centred, there is evidently no virtue. It then behoves us to cast about for something which has.

The Council in its condescension has resolved to give us just that publication of their proceedings which the law forces them to. How good of them—how kind of them! But if they lay so much store on the law, and if only the law will compel them to give the people their rights, let us see whether or not we cannot have that law altered to suit the circumstances. Happily for us, the law makers we have at present, and the people for whom they legislate are highly in sympathy. They have already done a good deal in the right direction, but now that the measure which they hoped would have the desired effect has so clearly fallen short of the mark, it becomes their duty to clean out the old house, and, rising above those personal and in some respects merciful considerations which have hitherto made them loth to initiate a measure of radical reform, proceed to re-furnish it from the smallest article to the greatest. As if Toronto were the whole Province, and as if there were not a newspaper outside of its boundaries, the Council have resolved, and put their resolution upon record, that the *Globe*, *Mail* and *Leader* shall be furnished with a copy of the minutes, in the form prepared for publication in the *Journal of Education*. What of Hamilton, St. Catharines, Brantford, Guelph, London, Brockville and Ottawa, each with its one, two and three daily papers, and each just as well entitled to be furnished with a report as the Toronto journals? Verily things have come to a pretty pass. Not content with continuing the star chamber system of conducting business, not content with shutting out the people and the press from witnessing their deliberations, they now go farther, and convert the Council into an institution for furnishing special news—of a questionable kind we must admit—to the Toronto newspapers—news from the possession of which on equal terms the press of the rest of the Dominion and even other papers in Toronto than those named, are thus openly and avowedly excluded. How long, our masters, how long?

OWNERS OF HORSES REJOICING.—And why not? and who knows but that their horses are rejoicing as well; who can prove the contrary? But their owners are rejoicing because of the astonishing and almost miraculous effects on their horses of "Darley's Condition Powders and Arabian Heave Remedy." Some were lean and poor having no appetite, others would devour their food ravenously, yet derive no benefit from it; some were hide-bound, with rough and shaggy hair; others had severe colds and coughs; many had the heaves and other complaints peculiar to horses; on all it operated as a charm, the disease or complaint was speedily removed, the appetite and digestive organs corrected, skin softened, and a sleek and shining appearance given to the coat all without any danger to, or preventing the horse being used.—Remember the name, and see that the signature of Hurd & Co. is on the package.—Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealers. 1m

PERRY DAVIS' PAIN-KILLER.—Its effects are almost instantaneous, affording relief from the most intense pain. It soothes the irritated or inflamed part, and gives rest and quiet to the sufferer. It is eminently the people's friend, and every one should have it with them, or where they can put their hands on it in the dark, if need be. 3668

TO SINGLE MEN ONLY.—Just drop into Radford & Geyer's sale to-night and buy a suitable present for your girl. 3557im2

Radford & Goyer's sale. This is continued each evening until the whole of Young's stock is cleared. Only genuine articles offered.

CITY AND VICINITY

PERSONAL.—The Rev. Robert Hare, B. A., of Coburg, will preach in the Ottawa West Wesleyan Church, Sept. 13th and Sept. 20th.

SOCIAL.—The Young Men's Christian Association will hold a social in the Metcalfe Street Church on Monday evening, the 14th inst. Tea served at 7.30. Delegates to Port Hope Convention, and others, will give short addresses, interspersed with music. Tickets, 25 cents. 3670-2

PERSONAL.—The Rev. Mr. Hall and family have returned from their trip to Europe. The rev. gentleman looks well after his extensive tour, and will doubtless receive a cordial greeting, as pastor of the King Street Wesleyan Methodist Church, to-morrow.

REFORMED CHURCH SERVICES.—Bishop Cummins, of New York, and the Rev. Mr. Reid, of Brooklyn, both connected with the Reformed Episcopal Church, remain in the city over Sunday. They will, therefore, take part in the services in connection with that Church in the Court House to-morrow.

AUCTION SALE.—Attention is directed to the Auction Sale by Mr. Rowe of the household effects of the Rev. E. J. W. Roberts, at the west end of Albert street, adjoining the residence of Mr. Hunton, to-day at one o'clock p m. There is a fine variety of furniture and other effects well adapted for those desirous of furnishing a house.

RECONSTRUCTION.—The work of demolition on the defective wall in the wholesale establishment of Messrs. Garland, Mutchmor & Co., has ceased. To-day the workmen begin rebuilding the East wall when it is to be hoped they will be more fortunate than in the previous endeavor. Had this misfortune not befallen the work, the building would have ere now been well-nigh completed.

CITY HALL CONTRACT.—The contract for the building of the new City Hall will be signed to-day. The different contractors, with their sureties, are ready to execute the necessary documents. This is at least promising, and ground for the work will doubtless be broken early next week. The old hall, which it is intended to still use, will be removed to another corner of the square until the completion of the new structure.

POLICE COURT. There was only one case before the bench yesterday, that of a man named John Jackson, who undertook to undermine the engineer on one of the locomotives of the Canada Central, while the same was in motion. It would seem that by the use of a stick of cordwood he succeeded in his object. P. C. Graves, who is in charge at the station, immediately arrested Jackson, who is pronounced to be hopelessly insane. The case was adjourned for a week.

WATER WORKS.—The hydrants are being located in the lower part of the city very fast. In Dalhousie street and other back streets, the work progresses rapidly. The Mains are being put down on Sandy Hill, and the service pipes are being put in all along Sussex Street. Every exertion is being put forth to be ready for letting on the water next month. Further protection than seems to exist will have to be provided for many of the house services ere the frost sets in. If these be not attended to there will be inevitably a bursting of pipes in all directions.

ODD FELLOWS' CELEBRATION.—At a meeting of the Metropolitan Lodge of Odd Fellows, last night, steps were taken towards getting up a grand pic-nic. In connection therewith it is proposed to have a quoiting tournament. The arrangements are, however, not entered upon yet, but ere many days further details will be had. Any entertainment got up under the auspices of the Odd Fellows will doubtless meet with the liberal patronage of the public, and consequently prove a success, though the last it will not be the least important celebration of the season.

CRICKET MATCH.—A scratch match between the Civil Service and Ottawa city clubs, will be played this afternoon on the Rideau Hall grounds. The band of the Governor General's Foot Guards will be in attendance from three o'clock and play the following programme:—

1. Quick March	"Victory"	Hamm.
2. Overture	"Nabuco"	Verdi.
3. Quadrille	"Cologne"	Coote.
4. Selection	"C[illegible] Fantasia"	Basquet.
5. Waltz	"Fenella"	C. Coote.
6. Selection	"Les Huguenots"	Donizetti.
7. Lancers	"Somebody's Luggage"	Tinney.
8. Galop	"Wings of Love"	Germain.

the Regimental Quick Step and National Anthem.

PUBLIC SCHOOLS' PIC-NIC.—Yesterday the children of the Public Schools enjoyed a pleasant time, it being the occasion of their annual pic nic. The Inspector, teachers and many adults accompanied the scholars on their trip down the river. The 'Queen Victoria' left the wharf about 9 o'clock a.m., and in less than an hour reached Gill's Wharf, the place of destination. Disembarking there, a pleasant day was spent by the pic-nic party until the arrival of the 'Peerless' in the evening, when all got aboard and reached the city safely about 7 o'clock p.m., well pleased with the holiday and the day's recreation.

RAISING OF AN IRON GIRDER.—Yesterday no little excitement was occasioned in the vicinity of the Sappers' Bridge at the hoisting of the first iron girder that is to span the Canal, in connection with the improvements of that structure. The girder was a very massive one; and speculation was rife as to the capacity of the gearing employed in raising it to its place. The ropes were seriously strained but withstood the tension well. It took nearly half a day to accomplish the work, the contractor no doubt acting on the wise maxim of "Slow but sure." There is another similar girder to raise, after which the work on the bridge will soon be a *fait accompli*.

ARNPRIOR AGRICULTURAL FAIR GAMES.—At the recent Agricultural Exhibition, held in Arnprior, the monotony of the show was somewhat dispelled by a number of games, foot races, &c., got up for the amusement of those present. Several young men from Ottawa participated in the sports most successfully. In the 150 yards dash, in heats, best two in three, P. M. Duffy took first prize; William Fraser, of Arnprior, second. In the hurdle race, quarter mile, the first prize was likewise awarded to Mr. Duffy; William Fraser second. In the hop, step and leap, Mr Duffy again took first place; A. McDougall second. The half mile race fell to Edward O'Brien, *alias* "Boston"; William Fraser second. Mr J. Hinds was pronounced the best dancer of an Irish jig and Mr. R. McDonald a Scotch reel. All the above gentlemen, with the exception of Mr. Fraser, are residents of Ottawa.

SABBATH SCHOOL CONVENTION.—A very successful meeting of the Sabbath School Association of Teachers, in the Ottawa Valley, was concluded at Arnprior on Thursday night after sitting three days. At the welcome meeting of Tuesday evening, there was a densely crowded audience. The proceedings were interesting and lively. The main feature of the meeting was an admirable address by the Rev. D. McVicar, of Montreal, on "The Teacher in his Study and Class." On Wednesday, the mass meeting of children in the Drill Shed, was the chief point of interest. There were nearly one thousand present. On Thursday, the closing meeting was made notable by an entertainment given to the children specially by Mr. Topley, of Ottawa, of illustrations of our Saviour's life, which, with appropriate music and reading of scripture, was felt to be a most impressive manner of preaching the gospel. The audience was immense; nothing approaching it having ever been seen here before. All the meetings were largely attended, and the proceedings were of the most interesting character.

KNOX'S CHURCH.—A pic-nic under the auspices of the congregation of Knox's Church is to be held to-day.

PROMINENT VISITOR.—Mr. J. D. Aristarch, Turkish Ambassador to Washington, has arrived in Ottawa and is staying at the Russell House. He was a guest at Rideau Hall on Thursday night.

Boswell's Ale is getting ahead. Messrs. Rattey & Aviss, Agents for the above celebrated Quebec Ale, have succeeded in getting 1,700 orders. It shows that the Ottawa people can appreciate a good article. The Agents Office is Victoria Chambers, 600 Wellington, near O'Connor street.

DIED FROM HIS INJURIES.—The young lad Proderick, who fell out of a window in Sussex street the other day, a distance of about twenty feet, has died from the effects of injuries received. Hopes were entertained yesterday and the day before of his recovery, but death last night put an end to his intense sufferings. The parents have the heartfelt sympathy of the community in their very sad bereavement.

ARRIVALS AT THE RUSSELL HOUSE.—C R Adams, Wm C Holt, Montreal; John Stewart, Hamilton; A B Galt, Toronto; F R Desparda, Hamilton; R Gwynn, Merrickville; W Horty, Francis Jones, Kemptville; Wm Scott, Prescott; Charles Mohr, Mohrsville; V Nordheimer, Toronto, Dr Sutherland, Nebraska; H D Ellswood and wife, Canton, N Y; J H Collins, U S; C A Smith, Winnipeg; George S Crawford, A B Sherwood, Toronto; John Haggart, D Kippen, John A McLaren, Perth.

THE HOSE TOWER.—The patchwork being indulged in at the George Street fire station, is likely to prove abortive, as the many breaches being made in the walls of the old building threaten its entire demolition. The hose tower will altogether likely share a similar fate. Well enough should have been left alone, as it would have served the temporary purpose, which at best it can only afford. A permanent site for an engine house and tower should at once engage the attention of the Fire and Light Committee.

NO RELISH FOR BRICKBATS.—Two gentlemen, one an American, and the other the Chief of the Fire Brigade in passing the new Russell House Block, became targets for a brickbat yesterday. The former narrowly escaped receiving it upon the head, but fortunately it grazed neatly down his back, striking the platform heavily behind him. This occurs frequently in front of buildings being constructed on the principal streets, and proves the necessity that exists for some protection to citizens. In most cities a portion of the platform is given the contractor, who is compelled to erect a high fence to protect passers-by from danger.

SHOCKING ACCIDENT IN DALHOUSIE.—On Saturday last, says the Perth *Courier*, a man named John Lake, living in Dalhousie, was found dead and shockingly mangled on the road leading between his place on the boundary-line betwixt Bathurst and Dalhousie, and the village of Maberly. Dr Howden, of Perth, coroner, was summoned to the place, and from evidence educed at the inquest, there is no question but that deceased came to his death by being thrown from his horse on his way home, and then dragging on the ground by the stirrups—therefore the jury returned a verdict of "death from accidental causes."

RINK MUSIC HALL.—Last evening saw the first production of "Jartine the Pride of the 14th." The piece is a vehicle for introducing the varied specialities of Mdlle. Ravel, but is remarkably full of melodramatic effects and situations; in fact, incident succeeded incident with such rapidity that the mind of the spectator gets somewhat confused as to the plot of the drama. This accounts, in fact, for the piece somewhat hanging fire towards the close, but every excuse must be made for the first night of a most intricate drama, and we doubt not that on its second representation everything will run smoother. These remarks do not, however, apply to the Star, who, of course, was to the fore always. Her Lightning Drill seemed to arouse the military ardour of the audience, for perfect storms of applause greeted her efforts. Probably her best effect last evening was her *Pas d'Espagnol*, which is decidedly the most graceful realization of the "poetry of motion" yet seen in Ottawa. It is a perfect marvel of terpsichorean art, and we are surprised our citizens did not give it better appreciation. The tight rope effect was also well received. The piece is repeated this evening, and being the last appearance of Mdlle. Ravel, who is undoubtedly the best pantomimic star on the stage, we hope to see a crowded house.

THE PUBLIC SCHOOLS.

A Pupil Grossly Maltreated By An Official.

The public schools of Ottawa have since their foundation, justly elicited the envy and admiration of similar educational establishments in other parts of the Dominion, owing to the admirable system of instruction carried on within their walls, and the able and painstaking staff of teachers and officials connected with these establishments for the education and training of young people of both sexes. Up to the present time, complaints from either pupil or teacher, were few and far between, and were in almost every case of very trifling account, so as not to call for any special notice. It is, therefore, with much regret that our reporter is called upon to chronicle a case of gross and unjustifiable cruelty towards a pupil of the City Schools, in which one of the Officials is the only participant. Yesterday our reporter having been made acquainted with some facts relating to the case, visited the parents of the boy, alleged to have been maltreated and from them obtained the following particulars:—

Mr. and Mrs. Collins the father and mother of the boy reside on Sussex street, where they carry on business in the grocery line. Mr. Collins is an invalid, having been partially paralyzed for some time past, and consequently unable to take any very active part in business or attend to the bringing up and training of his family. The whole *onus* therefore is thrown upon Mrs. Collins, who has her hands pretty full in attending to the store, and looking after her children. On Monday last it would appear, her little son Samuel, aged 10 years, who had been for some time past attending the Branch of the Central School East, on Bolton street, during afternoon recess, determined with several companions to play "hookey." For that purpose, and to avoid coming in contact with the master, they hid themselves in the second storey of a kind of a shed in rear of the school. Unfortunately for their designs, the Superintendent, Mr. Tubman, heard the truants conversing alone and went to bring the boys down. The latter, however, were not to be foiled in their intentions. They made for an open window, leaped out a considerable height from the ground, and scampered off as fast as their legs would carry them. Mr. Tubman thereupon gave information to the Truant Officer, Mr. Frederick Davis, who went in pursuit of the boys. It would now seem that all except the little fellow Collins made good their escape for the time being. The latter, however, was not so fortunate. He was hotly pursued by Mr. Davis, and after a very hard run, was captured by the officer. All would have now been well, but for the circumstances which followed. Mr. Davis, doubtless greatly exasperated at the dance which the terrified boy had led him, commenced to vent his wrath upon him, in a most unjustifiable and cowardly manner. According to Mrs. Collins, the officer beat the poor little fellow on the head with his fist or open hands—she could not say positively which—until he became stupified. The child in his terror and despair, clutched a fence on the side of the street, actually bearing it down in his struggles to free himself from the clutches of his captor. Mr. Davis also repeatedly jerked the lad violently, and several times threw him to the ground on his face. The screams of the boy now attracted a large crowd of persons, chiefly females, and among them the mother of young Collins, who entreated Davis to hand over the child to her care, promising at the same time, that she would answer for his return to school. The lady, however, was answered with abuse, and told by this over-efficient officer that "she encouraged that kind of work." The child, now exhausted, was at length taken to the school, where he had once more to undergo a whipping at the hands of the master, and be otherwise degraded before his companions in the school. No blame can be attached to Mr. Tubman who only punished his pupil in the ordinary way, for playing truant. Doubtless had he been aware of the treatment which he had received at the hands of Mr. Davis, he would have been satisfied, that the boy had been more than sufficiently punished, for an offence which after all was of a very trifling and pardonable nature. Young Collins it might be stated is somewhat incorrigible, which his parents frankly admit, at the same they have strong objections to any outside their own family circle, taking upon themselves to castigate their children, especially in such a brutal manner.

It is to be hoped that in the interest of the parties concerned in this unfortunate affair, that a searching enquiry will be made by the proper authorities, so that in future the public may know whether officials connected with the public schools of the city have authority to maltreat the pupils placed in their charge, on the public streets.

BEECHER SCANDAL

MOULTON'S STATEMENT.

Another Charge Against Beecher.

NEW YORK, Sept. 11.—The *Herald* gives the following as the main points of Moulton's statement to be published this afternoon:—

First—He proves absolutely that he did render efficient counsel and aid to Beecher after the publication of Bacon's letter, and avoiding in this respect a wilful falsehood.

Second—He shows also that he was not a blackmailer, and that Beecher was blackmailed in that he availed himself of the power which Tilton had over Bowen to extort through Claflin from Bowen, a certificate of character.

Third—He shows that the devices to which he resorted were Beecher's own suggestions and made in the effort to help and save Beecher.

Fourth—He gives specifically in words the justification which Beecher gave to him for his adultery with Mrs. Tilton, namely this, that "this physical expression of love was as natural as the words of endearment he used toward her."

This Mr. Moulton says was—

First: Enunciation of the doctrine of free love that he had ever heard, and I therefore became deeply impressed upon his memory.

Fifth—Moulton says that when he read to Beecher from the letters of Tilton to Bowen, the charge of rape made by Bowen that Beecher deemed it necessary to tell the truth with reference to the woman who was mentioned by Bowen. Beecher says, "I didn't commit a rape; it is true I had intercourse with the woman."

Moulton said, "If you are on friendly terms you had better have a retraction, else you may be at Bowen's mercy." Beecher did go and obtain the best retraction he could, which appears in the statement.

It appears also from Moulton's statement that the efforts of Gen. Butler have been towards the safety of Beecher, in order to save him and the Courts from the shame that would ensue from the publication of the whole truth. Gen. Butler from the beginning seemed to regard the downfall of Beecher as a national calamity.

Moulton's statement is just issued. It is mainly a defence of himself against insinuations in Beecher's statement and an attempt to prove by documents, dates, &c., the falsity of some of Beecher's statements. No outside parties are brought in by name, but Beecher is charged with adultery with another woman unnamed substantially, as stated in the *Herald's* synopsis of this morning.

This with some letters from Mrs. Morse, the mother of Mrs Tilton, in which she calls Beecher her son, and asks him for money for Mrs. Tilton's support, is about all there is new in the statement. Its tenor is that of a personal defence of himself as a man who has tried to act honorably through the whole affair, rather than an additional attack on Beecher.

Additional Particulars—Mrs. Morse's Letter.

NEW YORK, Sept. 11—Moulton begins his statement by apology for its production in which he says he had hoped Mr. Beecher himself would make a denial of any intimation, insinuation in this averred statement that he (Moulton) had acted in any way dishonorably toward him. Failing in this hope it seems to Mr. Moulton and his friends that the question of veracity made by Beecher ought to be settled. The statement, for as it relates to the Beecher Tilton matter, is an argument by Moulton based upon alleged facts which have already been published, and a comparison of his (Moulton's) previous statement with that made by Beecher. The only new documentary evidence is a letter from Mrs. Morse to Mr. Beecher, and a paragraph in a letter from Beecher to Moulton, saying, "I enclose a cheque subject to your discretion."

The following is Mrs. Morse's letter:

October 21st.

MY DEAR SON,—You must pardon me for the request I now make. Can you help me in any way by the first of November. I am still alone with no prospect of any one with a rent of $1,500, and an income of $1,000. The consequence is with other expenses I shall be by the first of the month terribly behind hand, as I agreed to pay it in monthly instalments. I know full well I have no claim upon you in any way, excepting your sympathy for my lonely and isolated condition. If I could be released from the house I should gladly do so, for I am convinced it is too far out; all who have been to see my rooms say so. My darling spent most of yesterday with me. She said all she had in the way of money was $40 per week, which was for food and all other household expenses aside from rent, and this was given her by the hand of Annie Tilton every Saturday. If you know anything of the amount it takes to find food for eight people, you must know there is little left for clothing. She told me he (Tilton) did not take any meals at home, from the fact that she could not get such food as he liked to nourish his brain, and so he took his meals at Moulton's. Just think of that—I am almost crazy with the thought. Do come and see me. I will promise that the secret of her life, as she calls it, shall not be mentioned. Do you pray for me?—If not pray do. I never felt more rebellious than now, more need of God's and human help. Do you know I think it strange you should ask me to call you 'son' when I have told my darling I felt if you could in safety to yourself and all concerned, you would be to me all this endearing name.

(Signed,)

MOTHER.

The concluding portions of the statement relate to accusations against Beecher, said to have been put forth by Bowen, and are of a grossly indecent character.

SUPERIOR AYRSHIRE CATTLE will be sold at the Exhibition in this city by Mr. Wm. Bodden, as he intends reducing the number of his herd because of the loss by fire of two barns with their contents of farm produce. This will afford purchasers an opportunity of securing some really fine young stock from one of the best herds in this country. The number of prizes taken here and at other exhibitions by animals from Mr. Bodden's herd have fully established the character of the stock. A few superior Suffolk pigs and Leicester sheep will also be sold. 3669-4

Precept and Practice.

(From the Halifax Chronicle.)

The ways of Conservatives are past finding out; they are mysterious to a degree; they baffle the most patient inquiry, the deepest researches. A thorough-paced Conservative paper will earnestly advise its party to do the one thing, but meanwhile will itself do the other; the course it recommends to its disciples is not the course it follows. It will preach with frothy eloquence on a text of retrogression, but it will practice a different theory altogether. It will abuse Free trade—for, look you, 'tis the Reformed Cabinet that supports free trade,—and extol Protection; but none the less, in its own commercial dealings, it will carefully eschew protection and cleave unto free trade. It will wildly clamour for the encouragement of home industry, but let it want a commodity manufactured abroad and sold cheaper, and your worthy Conservative paper will not be deluded into encouragement of home industry. That may be good enough as a precept—it is very bad as practice.

We confess to having in our mind one particular Canadian journal to which these remarks apply. It is a journal which prides itself on attacking vigorously what it calls the "fallacies of free trade," and on stedfastly and consistently encouraging "home industries." It is a paper which fondly believes it wields immense influence and rivals, nay, surpasses the *Globe*—in a word it is the Toronto *Mail*, the darling organ of the Conservatives, the paid flatterer of Sir John A. and Dr Tupper, the sworn enemy of every measure introduced by the Reform Government. What has not the *Mail* said about protection; what has it not written about free trade? When facts failed it—and they soon did—it invented arguments and hurled them at the advocates of the Reciprocity Treaty. It grew wildly indignant with those who dared suggest that certain articles might be obtained cheaper and better out of Canada; it stormed at the assertion that the interests of the consumer were not so precisely identified with those of the manufacturers as was maintained by the Treaty's opponents. Did it not proclaim that the manufacturers of Canada would be ruined by the sliding scale, by the American competition, by George Brown and Alexander Mackenzie? It revelled in denunciations of the unpatriotic, of the criminal conduct of the men who would allow any stranger to enter a market which ought to be exclusively reserved for the Canadian manufacturers, the *Mail's* precious *protégé*. And the manufacturers approved of the *Mail's* article, and the *Mail* patted the manufacturers on the back, and drew its sword and vowed it would champion them to the end, fighting through the holy war of Protection versus Free Trade.

Yes, the *Mail* certainly took this high ground this dignified stand. It abused unmercifully the Free Trade organs and devoted its columns and the brains of its editors to proving that the only patriotic, Canadian, national policy was that which fostered and protected home industries, and that was the policy and the practice of the *Mail*. And there were—there are still—men simple enough to believe all this, to believe what a Conservative paper said, and who were grateful to the *Mail* for its 'encouragement of Canadian manufacturers.'

But what the *Mail* preaches it does not practise. It talks one way and acts another. It champions protection but practices free trade. This is no libel, but a true bill, whereof here is the proof:—

"TO PUBLISHERS.

The type from which the *Mail* is now printed having been found insufficient in quantity for the purpose of the Daily and Weekly editions of the paper, is offered for sale in quantities to suit purchasers, either in or out of case. Delivery made on arrival of new fonts now on their way from Scotland.

THOS. C. PATTESON,
Manager."

That last sentence ought to gladden the hearts of the Canadian manufacturers, who thought the *Mail* meant what it said in the way of "encouragement," &c. When a genuine Conservative paper wants new type, you see, it buys it abroad, but encourages home industry by selling off its played out fonts to other Conservative organs—Clever and characteristic.

A German Joke at American Progressiveness.

The Germans are not considered a humorous people; but a Berlin paper has the following very good burlesque on the American tendency to vast enterprises: The latest American progress in building will be the "Mammoth Hotel," soon to be erected in Chicago. The enormous hotel is to have a frontage of three English miles long, and a depth of six miles; the height of seventy-seven storey's will be 3,480 feet from the ground floor to the roof. The hotel will have no stairs, but five hundred balloons will always be ready to take visitors up to their room. No room waiters are to be employed, but visitors will be served by a newly patented automatic, put up in every bed room, who will do all shaving, shampooing, etc., to the guests by a very simple and ingenious mechanicism. Supposing the guests require hot water, the automatic will call down stairs, "A bucket of water to room No. 1,002,107," and the water will be up in seven seconds by a patent elevator. Half an hour before *table d'hote*, instead of the ringing of bells, a gun (twenty-four pounder) will be fired on each floor to call the guests to get ready for meals. The tables in the dining rooms will measure four miles each, attendance to be performed by twelve waiters on horseback on either side of the table. Music during *table d'hote* will be played—gratis—by eight bands of seventy-seven men each. For the convenience of visitors a railway will be built on each floor, as well as telegraph offices. The price of one bedroom will be from one to ten dollars. The cost of this building is estimated at about $80,000,000. The billiard room will contain nine hundred American, ninety-nine French and one English tables and as most of the visitors are expected to be Americans, the billiard room will be fitted out with a spittoon of one hundred feet in circumference.

Consumption, Bronchitis, Dyspepsia, Feeble, Irregular Action of the Heart, and a long list of kindred diseases, are attributed to a low state of the nervous system. Owing to its bracing effects on those centres we may ascribe to Fellows' Compound Hypophosphites, the prompt and decided benefit received by patients laboring under these diseases. 2642

HEART DISEASE.—Halifax, Feb. 10, 1873. Mr. James I. Fellows—Dear Sir: In order that some other sufferer may be benefitted, you are at liberty to give this letter publicity. In the winter of 1869, I was taken ill with Disease of the Heart, accompanied by violent palpitation, and from that time gradually became weaker, notwithstanding continued professional attendance, up to a few weeks ago, when your Compound Syrup of Hypophosphites was recommended to me. The use of it during a very short time enabled me to resume my usual work, and now I am as well, fat and hearty as I could wish to be. Yours, very truly, W. Frank Cochran. The heart being a great muscular organ requires vigorous nervous force to sustain it. As Fellow's Hypophosphites restores the nervous element, it will always strengthen the heart weakened through loss of this element.—The Inventor. 265

DR. S JACOBS, ON APHONIA, OR LOSS OF VOICE.—Orange Street, St John, N. B., 1869.—Mr. Fellows—Sir: I am bound to award the palm of merit to the preparation of Hypophosphites discovered by you. I had occasion to use it myself in a case of Aphonia, which would not yield to regular treatment, and am happy to say it proved to be all that you claimed for it, having acted with expedition and entire satisfaction. I feel called upon to publish the fact, that the profession may avail themselves of a remedy in your "Compound Syrup of Hypophosphites." Yours, very truly, S. Jacobs. 2655

THE PAIN-KILLER.—We have known the high character of this medicine, and that it is used with great success and satisfaction in our very best families. It is the favourite medicine of our missionaries in heathen lands, where they use it more than all else together for the diseases that abound in those warm climates. It should be kept in every house, and be in readiness for sudden attacks of sickness.—*Christian Press*. 2559

THE DAILY TIMES can be procured every morning for 15 cents per week. The "Weekly" Friday morning's, in time for English Mail, at E. A. Perry's, [illegible] St.; Battle Bros., Rideau St., and Russell House; Lucy, Bridge St., Chaudiere; *L'Echo* Office, Hull; at Lawrence & [illegible] tawa, and Canada Central Railway Station.

CHRONIC SPLENITIS.—Physician's report of a remarkable case. Gagetown, N.B., July 21, 1868. Mr. James I. Fellows, Chemist. Dear Sir: Allow me to bear testimony in favor of your Compound Syrup of Hypophosphites. I have used it myself for Tuberculosis with marked benefit, and have given it to a great number of my patients, with the same results as I experienced from its use. The most marked was a case which was under my care in March last. This was a patient who had been under treatment nine months with no beneficial results. When I first saw him he was so feeble that he could not sit up long enough to have his heart and lungs examined. He had a severe Cough, Dyspnœa, Palpitation of the Heart, Impaired Digestion, and consequent general emaciation. I put him under treatment, prescribed your Compound Syrup of Hypophosphites and after using four bottles he was able to attend to his farm and is now perfectly well. In March he was given up by four physicians respectively; in May he assisted in ploughing eighteen acres of land, and had run up in flesh from 136 to 148 pounds weight. I send you this for the purpose of your making what use you please of it, and wish you all success in your labor for the benefit of suffering humanity. Strongly recommending the use of your Compound Syrup of Hypophosphites to all who suffer in any way from disease or weakness of the Lungs, Bronchial Tubes, or general debility. Believe me, your obedient servant,
J. H. W. SCOTT, M. D.

DIRECTORY OF CHURCH SERVICES.

ST. ANDREW'S PRESBYTERIAN CHURCH.—Morning Service at 11 o'clock; Evening Service at 7 o'clock. Pastor—Rev. D. M. Gordon, B.D. To-morrow will be Communion Service.

BY TELEGRAPH

TORONTO.

Cruelty to Animals—Revenge—Young Mens' Association.

TORONTO, Sept. 9.

The city papers call upon the Ontario Society for the Prevention of Cruelty to Animals to prosecute a man named Wm. Hickey, who is alleged to have brutally beaten a dog yesterday. The animal finally escaped from him, ran under the wheel of a passing vehicle and was killed. The affair took place in front of one of the principal hotels.

A fence in front of 37 Temperance St., was set on fire early this morning by a man who endeavoured in this way to settle his board bill with his landlady who had recently turned him out. The premises are close to the Bay street engine house, and the firemen promptly extinguished the incipient conflagration. Prosecution of the incendiary is expected.

At a special meeting Young Mens' Association held at their rooms, corner of Yonge and Adelaide streets last evening, Mr. T. J. Sheppard in the chair, the constitution, as formed, was adopted. It was decided to procure two large rooms for the use of the Association; the following were appointed as a committee to carry out the above:—Messrs. H. T. Say, G. B. Morley, Thomas Geoghegan; receptional and devotional committees were also formed, after which the meeting adjourned.

MONTREAL.

MONTREAL, Sept. 11.

Hon. W. R. Bown of Manitoba arrived in the city last evening.

Four gates of the lock at Beauharnois are now gone. Two were broken by an Upper Canada steamer yesterday morning, and the other two were driven subsequently away by the stream.

Dr. Schultz' collection of Buffalo robes from the Saskatchewan country ranged about the same as the last Hudson Bay sale, the lot bringing over thirty thousand dollars.

The residents of Caughnawaga have sent a petition to the Provincial Parliament praying for police protection, in consequence of the disorderly conduct now regularly going on from the effects of the large quantity of intoxicating liquor sold. They say Sunday is worse than any other day, and disreputable women from Montreal also gather there to crown the dissipation.

It is stated that on Wednesday, a country gentleman who is staying at one of the leading hotels, made the acquaintance of another gentleman (?) who invited him to have a walk down St. James street. They proceeded on and were met by a third party, who presented the latter with a bill of goods amounting to $600, which he said he had shipped for him, and wanted to get paid. He turned to the country gentleman and asked him to pay the amount, as he had no money about him, and he would refund it on their return to the hotel. The request was complied with, and Mr Swindler sneaked away from the hotel after their return and has not since been heard of. The detectives are on the look out for him.

During the last few days there has been an advertisement in the papers of this city, announcing a meeting of the members of the Corn Exchange to discuss the Reciprocity Treaty. Notwithstanding the type in which this advertisement was set, and the importance of the subject for the consideration of which the meeting was called, only a dozen or so of the representatives of this branch of trade put in an appearance. The President occupied the chair. The object of the meeting having been announced, an animated discussion was carried on in a conversational style, in the course of which the clauses of the treaty bearing on the hardware trade, were denounced as unjust and detrimental to the manufacturing interests of the Dominion. One or two of the members ventured to contradict these assertions, but their assertions made no impression. The following gentlemen were appointed as a committee to represent the Iron and Hardware trade at the meeting of the Board of Trade next Friday, viz: Messrs. W. Darling, C. S. Workman, H. R. Ives, J. Crathern, C. Garth, J. C. Baker, J. Ferrier, L. J. Belvaeau, and A. Macpherson.

There was a firmer feeling in the Stock Market here this morning.

Market flat.

ALMONTE

Sabbath School Convention.

ALMONTE, Sept. 11.

A most successful meeting of the Association of Sabbath School Teachers in the Ottawa Valley, was concluded here last night. The sessions of the Convention were held on Tuesday, Wednesday and Thursday. At the welcome meeting of Monday evening there was a densely crowded audience. The proceedings were interesting and lively. The main feature of the meeting was an admirable address by the Rev. Dr. McVicar, of Montreal, on "The Teacher in his Study and Class." On Thursday the mass meeting of children in the Drill Shed was the chief point of interest. There might have been over one thousand present. On Thursday the closing meeting was made noteable by an entertainment to the children by Mr Topley, of Ottawa. Illustrations of Our Saviour's Life, which, with appropriate music and reading of Scripture, was felt to be a most impressive manner of preaching the Gospel. The audience was immense, nothing approaching it having ever been seen here before. All the meetings were largely attended and the proceedings were from beginning to end maintained with the utmost spirit and could not fail to be of great and lasting profit.

HAMILTON.

Hamilton Central Fair—The Moulders' Strike.

HAMILTON, Sept. 10

The Hamilton Central Fair, at which $3 000 will be paid in prizes, is announced for the 6th of October and following days.

The moulders' strike will probably be terminated before long. Messrs. Burrow, Stewart, and Milne commenced work today at the advanced wages, and D. Moore & Co. intend opening their shop to-morrow. The other founders have not conceded so far, but that they will do so is thought probable.

LONDON.

The Election Trial.

LONDON, Sept. 10.

The result of the election trial is a sore disappointment to the Tories, whose chief object was to disqualify Walker. In this they have failed, to their evident grief.

WELLAND.

A Difficulty Adjusted.

WELLAND, Sept 10.

A difficulty between the Odd Fellows of this place and the owners of the steamer 'Clyde' has at last been settled. The Odd Fellows chartered this steamer in July last for $300 to carry a specified number of excursionists to Toronto and return. On the day of the excursion it was found she could not carry the number with safety. The Odd Fellows refused to pay the $300, claiming that by the non-fulfilment of the contract they sustained the loss of $100. The trouble has been settled by the owners accepting $200.

HALIFAX.

The Brown-Sadler Race.

HALIFAX, N. S., Sept. 10.

The victorious Ross-Foley crew were honored last night by a torchlight procession, headed by a band of music. At a meeting of the Rowing Club last night a communication was read from Sadler, the English champion, in regard to the proposed race with Geo. Brown, of Halifax. He is willing to row a four-mile race on a straight course. Brown's challenge was for a five mile race with a turn, and as Sadler at first sent a cable telegram accepting this, the Rowing Club, on behalf of Brown, decided not to agree to the changes now proposed. It is not likely that there will be any race between the two men. Brown will leave on the 17th for St. John, N. B., to practice on the course a few days before his race with Morris, of Pittsburg.

Six Halifax volunteers left this evening to attend the Dominion Rifle Matches at Ottawa.

ST. JOHN, N.B.

Rifle Team Weather.

ST. JOHN, N.B., Sept 10.

The team selected to represent New Brunswick in the approaching rifle competition at Ottawa are Capt Arnold, Sergt. Hunter, Privates Perkins and Pender.

To-day was the hottest of the season. Thermometer 84 in the shade.

BETHANY.

An Afflicted Family.

BETHANY, Sept. 10.

On the first of this month Mr. Thos Lee, of this village, lost a young son by scarlet fever; yesterday a second died; and this morning the only remaining son died. The last three were carried from his house at one time this evening. The deepest sympathy on all sides is felt for the bereaved parents.

WATFORD.

The Drought—Bush Fires.

WATFORD, Sept. 10.

The great drought in this section still continues, no rain of any account having fallen for over three months. The pastures are entirely scorched up, and cattle are starving. Water is getting very scarce, and all the creeks are totally dried up.

Bush fires are raging in all directions. A Mr. Kerr, in Warwick township, had all his outbuildings and grain burned. Last night the Episcopal Church on the Sixth Concession of Brooke barely escaped the flames, the fence around it being burned, and the fire running through the burying ground. Several places are in danger, but no other losses are reported beyond the great damage done to the woods.

GUELPH.

Central Exhibition—The Fall Show.

GUELPH, Sept. 10.

The Central Exhibition begins next Tuesday, and promises to be the largest ever held in Guelph. In all classes except cattle and roots the entries are far in excess of former years. The entries in the former already amount to over two hundred. Those in the classes of horses are close on five hundred. In poultry about six hundred pair; in this class the show will be the largest yet held in the Dominion. Implements are also largely in excess of former years. Everything in connection with the buildings, grounds, and drives are in a forward state, and every effort is being put forth by the President, Mr J. C. Armstrong. Hotels are filling up already. The Great Western Railway will carry passengers on its main line and branches at one fare for the double journey. The Grand Trunk will likely do the same.

Hon Mr McKellar visited the Model Farm on Tuesday. He made a thorough inspection of the place, and found everything in excellent condition.

Most of our merchants who were on a purchasing tour to the British and Continental markets have returned.

The fall show of the Horticultural Society was held yesterday, and the display was an unusually good one. Messrs Murray, Townsend and Stiper, of Hamilton, acted as judges.

KINGSTON.

The Conservative Association—The next Provincial Exhibition—Hot Weather—Explosion of a Tug's boiler.

KINGSTON, Sept. 10.

The Conservative Association of this city have appointed delegates to attend the Convention on the 23rd inst., at Toronto.

An arrangement was effected this morning, between the two political parties, through their solicitors, whereby the protest made against names appearing on the voter's lists will be allowed to drop, neither side proceeding with its objections. The arrangement is generally considered a fair one.

The discussion in connection with the controverted trials is the all-absorbing topic of conversation here in political circles.

A special meeting of the Council was held last night in order to take steps to have the Provincial Exhibition held here next year, and a resolution appointing a Committee to go to Toronto for that purpose was carried. A motion of Ald Price, declaring it unadvisable to pledge the credit of the city at present to guarantee the necessary funds, was also carried. Some dissatisfaction at the action of the Council is expressed.

The weather was very warm to-day—as warm as any day this season.

The boiler of the tug 'Mary Ann' of this place exploded on the Rideau Canal. The decks were blown off and the end of the boiler demolished. The crew were off the boat except the engineer, who was scalded. The boat was not an inspected one.

The Canada Engine and Machinery Company have received orders for four new locomotives.

YESTERDAY'S DESPATCHES

ENGLAND.

Trouble in Asia.

LONDON, Sept. 11.—A despatch to the *Times* says the Amer of Kashgar has defeated the principal body of troops which was menacing his frontier.

Frightful Railway Collision—Forty-five Persons Killed and Wounded

A terrible collision occurred this morning on the Great Eastern Railway, near Norwich. Fifteen persons were killed and thirty injured. Some it is feared will not recover.

UNITED STATES

S. S. Arrival

NEW YORK, Sept. 11.—The steamship 'Pembroke,' from Cardiff, has arrived.

The Wood Fires.

PHILADELPHIA, Sept. 11.—The fire in the woods north of Atsion, N. J., have been subdued, and another in the south was burning all night. One thousand acres of pine and oak were destroyed besides Cranberry meadows.

Terrible Cyclone off the Banks.

NEW YORK, Sept. 11.—The steamers arriving at this port yesterday confirm the report about the cyclone or hurricane off the Banks of Newfoundland on Monday last. No serious damage has been done so far as heard.

The Trenton Affair—Five More Men Arrested.

MEMPHIS, Sept. 11.—A special from Humboldt says that Lieut. Whitehall with a squad of soldiers from the barracks here proceeded to Picketsville last night under the instructions from the United States marshal and arrested five men for complicity with the Trenton affair.

Seneca Lake Regatta.

ELMIRA, N.Y., Sept 10.—There was a very large attendance to-day at the Seneca Lake Regatta. The first race, five miles, for six oared shells, was won by the Nassau Crew, of Harlem rowing the Association, of New York, in 21m. 3s. Cass, of 76 of Cornell, second. The second race was two miles, by the Seniors Single Sculls. It was won by Charles Courtney, of Union Springs, in 11m 10s. The winning time was only 17 seconds short of the fastest time on record. The third race, three miles, double and pair oared shells, was won by the Riversides, of Rochester. The fourth race, by four oared shells, was won by the Seneca Falls Club.

MID-NIGHT DESPATCHES

ENGLAND.

The Railway Collision—Heartrending Details.

LONDON, Sept. 11.—The number of casualties by the collision on the Cambridge Line of the Great Eastern Railway, is greater than at first reported. Twenty persons were killed outright and fifty wounded, some of whom are very badly hurt and additional deaths are expected every hour. The railway line is completely blocked by the *debris* of the wrecked trains. The scene at the place of the collision is described as terrible, and the cries of the wounded as heartrending.

S. S. Arrivals.

LIVERPOOL, Sept. 11.—The steamships 'Wisconsin,' 'City of Brussels,' and the 'Abyssinia,' from New York has arrived out.

CHINA.

The Formosa Difficulty.

SHANGHAI, Sept. 11.—An Ambassador from Japan has arrived here. It is generally considered that a pacific solution of the difficulties with regard to Formosa will be effected. It is reported that the question will be submitted for arbitration to the President of the United States or the King of Italy.

FRANCE.

New Spanish Ambassador

PARIS, Sept. 11.—Senor Vega Armigo, the newly appointed Spanish Ambassador presented his credentials to-day to President MacMahon. He said he hoped the restoration of relations would contribute to the termination of the war in the Spanish Provinces adjacent to France. The President in reply expressed his wishes for the prosperity of Spain and promised his friendly co-operation.

Presidential Tour.

PARIS, Sept. 11.—President McMahon has resumed his tour. He arrived at Lille to-day, accompanied by Gen. Decessey. The city is illuminated to-night. The President will proceed to Arras, Amiens and St Quentin. At the latter place grand military manœuvres will be witnessed. From thence the President and party will go to Lyons.

UNITED STATES.

Imports of Gold Coin.

NEW YORK, Sept. 11.—Yesterday's steamer from Havana brought $300 000 in gold coin. The total receipts for the week from that port has been $350,000.

Fire.

MIDDLETOWN, N.Y., Sept. 11.—The engine house at Otisville on the Erie Railway was burned last night with the engine of a construction train. Loss about $35-000.

New S. S. Line,

The latest phase in the controversy between the Pacific Mail Steamship Co and the Trans Continental Railway is the starting of an opposition line of steamers to obtain the China and Japan trade for American Railways. Governor Standford of California is associated with the new enterprise and is pending negotiations.

Indian Council.

A special to the *World* from Bismarck on the 10th inst., gives the report of the Indian Council or the talk in which the chiefs were asked if they would give their consent to the sale of the Black Hills, to which "Running Antelope," chief of the Uncpapas replied that they would not sell under any consideration and demanded that the Great Father in Washington send them guns and ammunition to protect their country from the incursions of white men.

Forged Deeds of Sale.

The discovery made a few days ago that forged deeds of Real Estate in this city and Brooklyn had been freely negotiated in the market, threatens to produce a panic among Real Estate dealers. The evidence shows that the deed forgery in business has been quite extensive.

Notice to Navigators.

WASHINGTON, Sept 11. Notice is given by the Lighthouse Board, that on and after the night of Sunday the 20th inst., the lights on the St. Clair Flat Ship Canal will be relighted.

Decline of the Cotton Crop.

WASHINGTON, Sept. 11.—The September returns of the Department of Agriculture show a very heavy decline in the prospects of the cotton crop in all the States, except Virginia, where it about holds its own. The crop of Virginia, however, is too small to exercise any appreciable influence on the general result.

Seizure of Arms for the White Leaguers.

NEW YORK, Sept 11.—A Washington special to the *Times* says a private despatch to-night from New Orleans states that the steamer 'Metropolis' from New York, which arrived in New Orleans to-day, had on board a large quantity of arms for the White League. The police authorities seized a portion of them on board the steamer, and the rest were seized at the Warehouse to which they were consigned.

Further Seizures

NEW ORLEANS, Sept 11.—Six more cases of muskets, ex-steamship 'City of Dallas,' from New York, were seized by the police on the levee to-day. Two hundred and eighty eight stand of arms, mostly of foreign make, have been seized up to date, on the plea of their being intended to arm the white league clubs in this city.

Arrest of a Bank Robber.

BOSTON, Sept 11.—Chas. H. Bullard, the alleged principal of the Boylston Bank robbery several years ago, was arrested in New York a few days since and is now in jail in Boston. Immediately after the robbery Bullard sailed for Paris, where he has since resided until two months ago.

Legal Suits.

PHILADELPHIA, Sept. 11.—In the United States Court a bill in equity was filed on behalf of Jay Cook, McCulloch & Co., of London vs M. G. Taylor & Co, and trustees of Jay Cooke & Co, claiming a balance of £22,679, due to a London house under letters of credit issued to the defendants. A bill was also presented on behalf of Oliver Tekle, creditor of Jay Cooke & Co., for £4000, reciting that in June last the trustee announced that funds were on hand to pay a dividend of 5 and possibly 7 per cent. on claims; but in August it is said the trustee stated to him that the preferred claim on the first National Bank of Washington had swept all the funds from his hands and rendered it impossible to pay any dividend at present; wherefore he prayed that the trustee be decreed to account fully of the Bankrupts estate and of all payments to and disbursements by him since the estate passed into his hands. The Court ordered the registrar to appoint a public meeting, under 7th and 28th sections of the Act of 1867.

The New Gold Discovery at Black Hills.

ST. PAUL, Minn., Sept. 11.—General Custer's final report to General Terry recapitulates his former statements, and takes strong ground in favor of the immediate opening of the Black Hills for military reasons. He endorses the report of the gold discoveries and suggests further explanations next season. Nevertheless Professors Winchell and Donaldson assert that General Custer does not know of his own knowledge that any color of gold was found in the Black Hills.

The Turf.

BOSTON, Sept. 11.—The Beacon Park Races commenced to-day. The first race was for a purse of $2 000 for horses that never had beaten 2 26, and was won by 'Fred Hooper,' 'Commonwealth,' 2nd; 'Comet,' 3rd; 'Joker' 4th. Time, 2 27, 2 24½ 2.27. 2 24½ 2 29 and 2.29.

The second race for a purse of $2.000 for 2.31 horses, mile heats, was won by 'Kansas Chief,' 'Austin Jim,' 2nd; 'Tady Dahlman,' 3rd; 'Honest Billy,' 4th. Time 2 29½, 2 29 and 2.34½.

The third race for a purse of $5 000 for 2 20 horses, was won by 'Nettie,' 'Gloster,' 2nd; 'Red Cloud' 3rd; 'Camors,' 4th; 'Sensation,' last. Time, 2 22½, 2 19½, 2 18, 2 19½ and 2 22½.

Diarrhœa,
etc.

POND'S EXTRACT

ARTERIAL blood contains the elements of Vitality and Nutrition, which is emptied into the capillary system and, after supplying the required nourishment, is sucked up by the minute branches of the venous system and carried back to the lungs for vital recuperation. By reason of much that is wrong in living and medical treatment, this stream of blood flowing through the body is not always pure or free from inflammatory particles, which may pass off by insensible perspiration through the skin or with the waste matter through the intestines, but cold or wet may stop their outward escape, and the internal drainage may become inactive, when the corrupt particles are apt to coagulate, causing pustules, scalp eruptions or running sores, bronchitis &c. They may locate about a nerve, causing neuralgia, and by attaching themselves to the arterial tubes and veins, large or small, and inflaming them by their corrosive influence, cause those intensely painful sensations called Rheumatism. Nature struggles to drench out or dislodge if possible these corrosive particles, and the parts become very red from the congestion or pressure of blood therein. This is called Inflammatory Rheumatism or Rheumatic Gout. If nature does not succeed in washing out these acrimonious atoms she withdraws the undue supply of blood from such parts, ceases to contend, and performs circulation as best she can; however, the passage of the blood through the affected channels still continues painful. This is Chronic Rheumatism, which may exist without its usual antecedant the Acute kind.

The above only true theory points out the correct treatment of this and other distressing maladies. Dissolve these corrupt particles that have lodged in the afflicted parts, so that in the circulation they may be carried off externally or internally, and having thus removed the cause the effect ceases.

The experiment of twenty years in the London Hospital, England, has demonstrated to the Medical Faculty of Europe, that the only medicine having control over this class of diseases, is the

DIAMOND RHEUMATIC CURE!

It is the result of a lifetime of scientific study and is now or the first time offered to the Canadian public, prepared by a careful experienced and conscientious physician, in obedience to the desire of numberless friends in the profession, in the trade and among the people. Every bottle is warranted to contain the full strength of the medicine in its highest state of purity and development, and is superior to any medicine ever compounded for this terrible complaint.

A BLESSING TO THE POLICE.

MONTREAL, 18th June, 1866.

DEVINS & BOLTON:

GENTLEMEN,—Having been one of the many martyrs of rheumatism that I meet on my every day rounds I was induced to try the celebrated DIAMOND RHEUMATIC CURE. I had suffered the last five or six weeks the most terrible acute pains across my loins and back, so severe indeed that I could hardly walk with the help of a stick. I commenced the Diamond Remedy, following the directions carefully. Relief came immediately with the first bottle, improved rapidly with the second, completely cured and freed from pain after finishing my fifth small bottle. You are at perfect liberty either to refer to me privately or publicly, as I feel very thankful for the relief, and sympathise with my fellow sufferers from rheumatism.

Yours respectfully,
J. B. CARDINAL,
Sanitary Police Officer,
31 Labelle street.

In simple cases, sometimes one or two doses suffice. In the most chronic cases it is sure to give way by the use of two or three bottles. By this efficient and simple remedy hundreds of dollars are saved to those who can least afford to throw it away as surely it is by the purchase of useless prescriptions.

This medicine is for sale at all Druggists throughout Canada. If it happens that your Druggist has not got it in stock, ask him to send for it to

NORTHRUP & LYMAN,
Agents for the Province of Ontario,
Scott street, Toronto.
Or to DEVINS & BOLTON,
Notre Dame street, Montreal,
General Agents for the Province of Quebec.
Price $1 per bottle. Large Bottles $2.
May 18, 1874.

PAIN KILLER

THE GREAT

Internal and External Remedy.

TAKEN INTERNALLY it relieves INSTANTLY the most acute pain. USED EXTERNALLY it is the best LINIMENT in the world. Its effect is almost instantaneous, affording relief from the most intense pain. It soothes the irritated and inflamed part, and gives rest and quiet to the sufferer. It is eminently the people's friend, and every one should have it with them, or where they can put their hands on it in the dark if need be.

Price, 25 Cents per Bottle.

PERRY DAVIS & SON,
Sole Proprietors.

IMPORTANT TO LADIES OF FASHION

DRESSMAKING BEING THE ORDER OF THE TIMES.

J. W. RYAN

Has much pleasure in informing his numerous Lady customers and others that MADAME OLLIER, the celebrated Cutter and Fitter of Ladies' Garments, has arrived from her New York and Boston trip, and re-engaged with him to superintend his Dressmaking Department,

No. 234 WELLINGTON STREET

It will be remembered that Madame Ollier came direct from Boston last March to make arrangements with him, but was subsequently induced, by large offers for her valuable services, to go into an old established firm in Centre Town; but finding that she had made a change for the worse, again engaged with him. Madame Ollier's attainments in the art of Scientific Measurements enables her to ensure a perfect fit without putting her customers to the inconvenience of removing a single garment.

Bargains to be had at the Old Stand, 18 RIDEAU-ST. TRY ONCE.

Auctioneer, Elgin St.
Sept. 10th, 1874.

SPECIAL ANNOUNCEMENT IN REAL ESTATE.

(By J. Bermingham.)

A Great Bargain—Lot No. 58, corner of Friel and Spruce streets, opposite post office, Rochesterville, with a good two story Brick House thereon, nearly new, with all the necessary outoffices and a never failing spring, to be sold very cheap and on very easy terms. Come and inquire price, it will astonish you, it will be sold before two weeks, some one will get a big bargain from

J. BERMINGHAM.

West ½ of Lot 27, south Rideau street, with a most comfortable Brick House thereon, rented for $150 per annum, has to be sold for half its value within fourteen days. It would cost nearly double as much to build the house now, as is wanted for house and ground. Such a bargain was never offered before in this city, some one should secure it at once. Apply to

J. BERMINGHAM.

Lots 27, South Maria, and 27 North Gloucester streets, 66 x 99 each, to be sold very cheap, and on very easy terms, a small sum only required down, balance in ten annual payments. There is a big speculation in this. Who will come first and purchase? One thousand dollars can be made on it before long. Apply to

J. BERMINGHAM.

A Lot 84 x 99, about 100 yards from Cumming's Bridge, outside City limits, thereby avoiding city taxation, very cheap, only $8 down, balance as may be agreed on. Apply at once to

J. BERMINGHAM,
York street.

Electric Oil Thomas' Excelsior Eclectric — Worth Ten Times its Weight in Gold

Pain cannot stay where it is used. It is the cheapest medicine ever made. One bottle has cured bronchitis. Fifty cents worth has cured an old standing cough. It positively cures Catarrh, Asthma and Croup. Fifty cents worth has cured crick in the back, and the same quantity lame back of eight years' standing. The following are extracts from a few of the many letters that have been received from different parts of Canada, which, we think, should be sufficient to satisfy the most skeptical. J. Collard, of Sparta, Ontario, writes "send me 6 dozen Dr. Thomas' Electric Oil, have sold all I had from you and want more now; its cures are truly wonderful." William Maguire, of Franklin, writes, "I have sold all the agent left, it acts like a charm—it was slow at first, but takes splendidly now." H. Cole, of Iona, writes, "Please forward 6 dozen Thomas' Electric Oil, I am nearly run out: nothing equals it. It is highly recommended by those who have used it." J. Bedford, Thamesville, writes—"Send at once a further supply of Electric Oil, I have only one bottle left. I never saw anything sell so well, and give such general satisfaction." J. Thompson Woodford, writes—"Send me some more Electric Oil. I have sold entirely out. Nothing takes like it." Miller & Reed, Ulverton, P.Q., writes—"The Electric Oil is getting a great reputation here, and is daily called for. Send us a further supply without delay." Lemeyne, Gibb & Co., Buckingham, P.O., write—"Send us one gross Electric Oil. We find it to take well."

Sold by all medicine dealers. Price 5 cents.

S. N. THOMAS, Phelps, N. Y.
NORTHROP & LYMAN, Toronto, Ontario, Sole Agents for the Dominion.
NOTE—*Electric*—Selected and Electrized

JOB MOSES' FEMALE PILLS.

This well known medicine is no imposition but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, they contain nothing hurtful to the constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics and Whites, those pills will effect a cure when all other means have failed; and although a powerful remedy, do not contain iron calomel, antimony or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

For full particulars, obtain free, of the agent a pamphlet, or refer to advertisement.

JOB MOSES, NEW YORK, SOLE PROPRIETOR.

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will insure a bottle, containing over 50 pills return mail.

For sale by all druggists 25

THE FOLLOWING IS AN Extract from a Letter

Dated 15th May, 1872, from an old inhabitant of Horningsham, near Warminster, Wilts: "I must also beg to say that your Pills are an excellent medicine for me, and I certainly do enjoy good health, sound sleep and a good appetite; this is owing to taking your Pills. I am 78 years old. Remaining, gentlemen, yours very respectfully, L. S."

To the Proprietors of Norton's Camomile Pills, London.
July 1874.

VINEGAR BITTERS

PURELY VEGETABLE FREE FROM ALCOHOL
DR. WALKER'S CALIFORNIA VINEGAR BITTERS

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

The New York Tribune.

THE CONSOLIDATION OF ITALY! so long fragmentary and impotent, into one powerful State, with Rome as its capital; the humiliation of France through a series of crushing defeats, ending with the siege and capitulation of her proud and gay metropolis; the expulsion of the Bourbons from the Spanish throne, and the substitution for them of a scion of the most liberal among royal houses; the virtual absorption of the kingdoms of Saxony, Wurtemburg, Bavaria, with Baden, Hesse, the Hanse Towns, &c., under the headship of Prussia, into the triumphant and powerful empire of Germany; and the avowed aim of Russia to re-assert her preponderance in the councils of Europe, or to prosecute her often postponed but never relinquished designs on the great city founded by Constantine, and the vast but decaying and anarchical dominion of the Sultan, all combine to invest with profound interest the ever changing phases of our tidings from the Old World. The *Tribune*, through trusted correspondents stationed at all points in Europe where great movements are in progress or imminent, aims to present a complete and instructive panorama of events on that continent, and to mirror the prolonged struggle between middle age Feudalism and Ecclesiasticism on the one hand and Nineteenth-Century scepticism and secularism on the other. Recognising a Divine Providence in all that proceeds and is, it looks hopefully on the great conflict as destined (like our own recent convulsion) to evolve from strife, disaster, and seeming chaos, a fairer and happier future for the toiling masses of mankind.

In our own country, a war upon corruption and rascality in office has been inaugurated in our city, whereby the government of our State has been revolutionised through an initial triumph of Reform which surpasses the most sanguine anticipations. It is morally certain that the movement thus inaugurated cannot, in its progress, be circumscribed to any locality or any party, but that its purifying influence is destined to be felt in every part of the Union, rebuking venality, exposing robbery, wresting power from politicians by trade, and confiding it to those worthiest and fittest to wield it. To this beneficent and vitally needed reform, the *Tribune* will devote its best energies, regardless of personal interests or party predilections, esteeming the choice of honest and faithful men to office as of all New Departures the most essential and auspicious.

TERMS OF THE TRIBUNE.

DAILY TRIBUNE, Mail Subscribers, $10 per annum.

SEMI-WEEKLY TRIBUNE, Mail Subscribers, $4 per annum. Five copies or over, $3 each; an extra copy will be sent for every club of ten sent for at one time; or, if preferred, a copy of "Recollection a Busy Life." by Mr Greeley.

KEATING PERSIANS INSECT DESTROYING POWDERS.

This Powder is quite harmless to animals, but unrivalled in destroying Fleas, Bugs, Emmet Flies, Cockroaches, Beetles, Gnats, Mosquitoes, Moths in Furs, and every other species of insect in all stages of metamorphosis. Sold in packet tins, and bottles of various sizes.

CAUTION.—The public are requested to observe that all the above preparations bear the Trade Mark as herein shown. Sold by all Chemists and Druggists.

DR. DE JONGH'S LIGHT BROWN COD LIVER OIL. The distinctive characteristics which have gained for Dr. DE JONGH'S Oil so much celebrity, the entire confidence of the most eminent members of the Medical Profession, and notwithstanding the active and unscrupulous opposition of many interested dealers, an unprecedented amount of public patronage may be thus concisely enumerated:—

I.—Its genuineness, purity, and uniform strength are ascertained and guaranteed.

II.—It contains all the active and essential principles that therapeutic experience has found to be the most effective in the operation of the remedy.

III.—It is palatable, easily taken, and creates no nausea.

IV.—It is borne with facility by the most delicate stomach and improves the functions of digestion and assimilation.

V.—Its medicinal properties and remedial action have been found to be immeasurably greater than those of any other kind of Cod Liver Oil.

VI.—From the unequalled rapidity of its curative effects, it is infinitely more economical than any which is offered, even at the lowest price.

CONSUMPTION AND DISEASES OF THE CHEST.

The extraordinary virtues of Dr. DE JONGH'S Light Brown Cod Liver Oil in Pulmonary Consumption may now be considered as fully established. No remedy so rapidly restores the exhausted strength, improves the nutritive functions or produces a more marked and favorable influence on the local malady.

The following high testimony to the efficacy of Dr. DE JONGH'S COD LIVER OIL in Consumption is afforded by ALLEN G. CHATTAWAY, Esq., M.R.C.S., L.S.A., of Leominster:—

"Having for some years extensively used Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL, both in public and private practice, I have no hesitation in stating its effects are very far superior to those of any other Cod Liver Oil. Nearly four years since, two cases of confirmed Consumption were placed under my care. In both, the lungs were a mass of tubercular deposit, and every possible sound to be heard in phthisis was present. The remedy employed was Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL; and now the patients are strong and fat; the diseased (abnormal) sounds nearly inaudible; and in the one case (male), hunting, fishing, and shooting, are freely indulged in, the patient expressing himself quite capable of undergoing as much fatigue as any of his fellow sportsmen."

GENERAL DEBILITY AND EMACIATION.

In cases of prostration and emaciation, where the vital forces are reduced, and where life appears to be even at its lowest ebb, the restorative powers of Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL are remarkably manifested. By its administration the natural appetite is revived, and the functions of digestion and assimilation are improved, reanimated, and regulated; and, when its use has been steadily preserved in, its peculiar tonic and nutritive properties have entirely restored health and strength to the most feeble and deteriorated constitutions.

The actual benefit derived is thus described by ROWLAND DALTON, Esq., M.R.C.S., L.S.A., District Medical Officer at Bury St. Edmunds:—

"In giving my opinion of Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL, I have no hesitation in saying that I have not the slightest confidence in any other kind. The effects of Dr. DE JONGH'S OIL are sure and most remarkable, especially in that broken down state of health and strength which usually precedes and favors tubercular deposit; and I never recommend any other sort. The Oil I have had from you was for my own use, and it has certainly been the only means of saving my life on two occasions, and even now, when I feel 'out of condition,' I take it, and like it, unmixed with anything, as being the most agreeable way. I could wish that Dr. DE JONGH'S OIL would come into general use, and entirely supersede the Pale and other worthless preparations."

SELECT MEDICAL OPINIONS.

From innumerable medical and scientific opinions of the highest character in commendation of Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL, the following are selected:—

Sir Henry Marsh, Bart., M.D., Physician in Ordinary to the Queen in Ireland.

"I consider Dr. De Jongh's Light Brown Cod Liver Oil to be a very pure Oil, not likely to create disgust, and a therapeutic agent of great value."

Dr. David Smith, F.R.S., Medical Officer to the Poor Law Board of Great Britain.

"We think it a great advantage that there is one kind of Cod Liver Oil which is universally admitted to be genuine—the Light Brown Oil supplied by Dr. De Jongh. It has long been our practice, when prescribing the Oil, to recommend this kind, since, amidst so much variety and uncertainty, we have confidence in its genuineness." (Extract from "Consumption: its Early and Remediable Stages.")

Dr. Barlow, F.R.S., Sen. Physician to Guy's Hospital.

"I have frequently recommended persons consulting me to make use of Dr. De Jongh's Cod Liver Oil. I have been well satisfied with its effects, and believe it to be a very pure Oil, well fitted for those cases in which the use of that substance is indicated."

Dr. Lawrence, Physician to H.R.H. the Duke of Saxe-Coburg and Gotha.

"I invariably prescribe Dr. De Jongh's Cod Liver Oil in preference to any other, feeling assured that I am recommending a genuine article and not a manufactured compound in which the efficacy of this invaluable medicine is destroyed."

Sir Joseph Olliffe, M.D., Physician to the British Embassy at Paris.

"I have frequently prescribed Dr. De Jongh's Light Brown Cod Liver Oil, and I have every reason to be satisfied with its beneficial and salutary effects."

Lankester, F.R.S., Coroner for Central Middlesex.

"I consider that the purity of this Oil is secured in its preparation by the personal attention of so good a Chemist and intelligent a Physician as Dr. De Jongh, who has also written the best Medical Treatise on the Oil with which I am acquainted. Hence, I deem the Cod Liver Oil sold under his guarantee to be preferable to any other kind as regards genuineness and medical efficacy."

THE ROYAL READERS.

A NEW SERIES OF ILLUSTRATED ENGLISH READING-BOOKS.

From Mr. M. Patterson, Rector of the Free Church Training School, Moray House, Edinburgh.

"Thanks for the Specimen of your new Reading Books and Sheets. They are admirable in every particular. Nothing, in my opinion, would more contribute to the improvement of Education than the wide circulation of these books, and the intelligent handling of them."

From A. Montgomerie, LL.D., Principal of Ladies' College Glasgow.

"I have examined very carefully the 'Printing,' and Nos. I., II., and III. of the *Royal Readers*, and have no hesitation in saying that they are, in my opinion, incomparably the best English Reading-Books that have ever been published. The adaptation of the means to the end in view is perfect."

From T. Morrison, M.A., Rector of the Free Church Normal School, Glasgow.

"I have very carefully examined the *Royal Readers*. The plan is excellent, and the execution, if I may say so, even better. They are out of sight the best series of Reading-books published and should very speedily be widely used. The Illustrations constitute an admirable feature and add much to the value of the *Readers*"

PINE LANDS.

OVER 300,000,000 FEET, well located mainly on the rivers leading into Lake Michigan. The numerous streams and lakes surrounded with pine timber along the line west of Reed City, offer the best of locations for mills, where logs can be held safely free of expense and free from the annoyance of Boom Companies. The railroad direct to East Saginaw and Toledo offers the best source of supplies, and never failing market for Lumber Shingles, etc., which may be delivered anywhere on the line.

POSTPONEMENT.

FIFTH AND LAST CONCERT

In aid of the

PUBLIC LIBRARY OF KENTUCKY.

DAY FIXED AND A FULL DRAWING ASSURED,

—ON—

MONDAY, 30th NOVEMBER, 1874.

LAST CHANCE FOR

An Easy Fortune!

A postponement of the Fifth Concert of the Public Library of Kentucky has been so generally anticipated, and is so manifestly for the interest of all concerned, that it must meet the approval of all. The day is now absolutely fixed, and there will be no variation from the programme now announced. A sufficient number of tickets had been sold to have enabled us to have had a large drawing on the 31st July, but a short postponement was considered preferable to a partial drawing. Let it be borne in mind that

THE FIFTH GIFT CONCERT

Is the last which will ever be given under this charter and by the present management,

That it will positively and unequivocally take place as announced, on

MONDAY, 30TH NOVEMBER,

That the music will be the best the country affords, and that

20,000 CASH GIFTS,

AGGREGATING

$2,500,000

Will be distributed by lot among the ticket-holders.

NOTICE.

Morson's Effectual Remedies

Are sold by Chemists and Druggists throughout the world.

PEPSINE—The popular and professional medicine for indigestion is MORSON'S PEPSINE, the active principle of the gastric juice. Sold in Powder, Lozenges, Globules; and as Wine in ½ and 1 pint bottles.

CHLORODYNE is of such celebrity that it can scarcely be considered a speciality, its composition being known to practitioners. Many of the Chlorodynes being unequal in strength, MORSON & SON have prepared this. Sold in ¼ oz., 1½ oz., and 3 oz. bottles.

GELATINE—The purest preparation is MORSON'S.

Carefully packed and shipped. Orders made payable in England.

THOMAS MORSON & SON

INSOLVENT ACT OF 1869.

In the matter of THOMAS AHAR, an Insolvent.

Will be sold upon the premises, by public auction, either together or in separate lots, on TUESDAY, the TWENTY-SEVENTH day of OCTOBER next, at the hour of twelve o'clock, noon, under and by virtue of the provisions in that behalf of the said Insolvent Act. All the right, title, and interest of the undersigned, as Assignee of the estate of the said Insolvent, to and in the following parcels of land or town lots, situate, lying and being in the City of Ottawa, in the County of Carleton and Province of Ontario which may be known and described as being composed of parts of lot number forty in the broken front on the River Ottawa, or Grand River, in the township of Nepean, in the County of Carleton, within the limits of the City of Ottawa, and known as Town Lots number four and six, in Block H, as laid down upon a plan or diagram of the said Lot number forty, made by one Donald Kennedy, for one John Le Breton, former proprietor thereof, and filed in the Registry Office of the said City of Ottawa.

Terms and conditions of sale will be made known at the time of sale.

For further information apply to the undersigned, or to Alexander Gibb, Solicitor, or to Messrs. Walker, Cassels & Pennock, Solicitors Ottawa.

EDWARD McGILLIVARY,

Caution.

GENUINE PANCREATINE PANCREATIC EMULSION

The efficacy of these Medicines in the treatment of Indigestion, Bronchitis or Pulmonary Catarrh, Consumption, Wasting, &c., &c., depending entirely upon their purity and strength. Messrs SAVORY & MOORE caution the public against imitations of them which are put forth as possessing the remedial properties of the true preparations, but which are in reality either saponaceous compounds, ointments or pomades, without a trace of the Pancreatic principle and entirely unfit and useless as medicines. These imitations are calculated to produce serious disappointment and to injuriously affect the reputation which the genuine Pancreatine and Pancreatic Emulsion have acquired. It is therefore highly important that purchasers examine the labels on the bottles for the names and Trade Mark

"SAVORY & MOORE,"
the Original and only Manufacturing Chemists to the Queen, H.R.H. the Prince of Wales, H.I.M. Napoleon the Third, His Highness the Khedive of Egypt, &c.,
143 NEW BOND STREET, LONDON

Extract from an Analytical Report upon a Foreign Specimen of a so-called Preparation of Pancreatine.

"This compound resembled an Ointment or Pomade in appearance and consistency, and was flavored with Essence of Almond or Prussic Acid. It was strongly alkaline, indicating free alkali, which, acting upon the fat, produced the usual saponifying result; the whole forming a granular moist mass of fat, soap, glycerine and water. This ointment was physically and chemically different from the true Pancreatic Emulsion which I have also examined, and which, besides being rich in Pancreatic juice, has the delicate smooth appearance and consistency of fresh cream, is palatable and readily taken."

LEA & PERRINS

CELEBRATED

WORCESTERSHIRE SAUCE

DECLARED BY CONNOISSEURS

TO BE

THE ONLY GOOD SAUCE.

CAUTION AGAINST FRAUD

The success of this most delicious and unrivalled Condiment having caused certain dealers to apply the name of "Worcestershire Sauce" to their own inferior compounds, the Public is hereby informed that the only way to secure the genuine is to

ASK FOR LEA AND PERRINS' SAUCE, and to see that their names are upon the *wrapper labels, stopper,* and *bottle.*

Some of the foreign markets having been supplied with a spurious Worcestershire Sauce, upon the wrapper and labels of which the names of Lea and Perrins have been forged, L. and P. give notice that they have furnished their correspondents with power of attorney to take instant proceedings against *Manufacturers* and *Vendors* of such, or any other immitations by which their right may be infringed.

Ask for LEA & PERRINS' Sauce, and see Name on Wrapper, Label, Bottle, and Stopper.

Wholesale and for Export by the Proprietors Worcester; Crosse and Blackwell, London, &c. &c. and by Grocers and Oilmen universally.

CLARKE'S WORLD FAMED BLOOD MIXTURE

Trade Mark—"BLOOD MIXTURE."

The Great Blood Purifier and Restorer

For cleansing and clearing the blood from all impurities, cannot be too highly recommended.

For Scrofula, Scurvy, Skin Diseases and sores of all kinds it is a never-failing and permanent cure.

It cures old sores,
Cures ulcerated sores on the neck,
Cures ulcerated sore legs,
Cures blackheads, or pimples on the face,
Cures scurvy sores,
Cures cancerous ulcers,
Cures blood and skin diseases,
Cures glandular swellings,
Clears the blood from all impure matter,
From whatever cause arising.

As this mixture is pleasant to the taste, and warranted free from anything injurious to the most delicate constitution of either sex, the proprietor solicits sufferers to give it a trial to test its value.

Thousands of testimonials from all parts.

Sold in bottles 2s 3d. each, and in cases, containing six times the quantity, 11s each—sufficient to effect a permanent cure in the great majority of long-standing cases, by all chemists and patent medicine vendors throughout the world.

FIGHTING TO THE DEATH.

Settling an old Grudge—A Sporting Man after being shot through the Jugular Fatally wounds his Antagonist.

HOLLISTER, Aug. 25.—A terrible shooting affray took place here to-day, resulting in the immediate death of one of the chief actors and the probable fatal wounding of the other. The scene of the tragedy was Gannue's saloon. At 10 o'clock this morning a man named Leander T. Robinson, more commonly called 'Tod' Robinson, entered the saloon and invited all hands to have a drink. Among those in the room was a man known as Tony Harris, between whom and Robinson some ill feeling was existing. Robinson had no sooner finished his invitation than Harris remarked that he 'wouldn't drink with a ——,' using a very obscene epithet. Robinson replied, 'Well, I always pay for my drinks.' Harris then rose from his chair, saying, 'Well, this is an old grudge between you and me, and we might as well settle it right now,' drawing a Derringer as he spoke. Robinson instantly drew his pistol —a five shooter—and both men fired almost simultaneously. Harris' shot struck Robinson in the neck, cutting the jugular vein, and the blood gushed forth in a torrent. Robinson's first shot missed Harris. The latter, immediately after firing, threw his weapon at Robinson, and having nothing else to defend himself with, ran into the billiard room back of the saloon, hoping there to escape from his antagonist. Although mortally wounded, however, and with the life-blood gushing from the terrible hole in his neck, Robinson staggered after his assailant, whom he had now cornered in the billiard room. Steadying himself against one of the tables, he took deliberate aim and fired at Harris, who facing him at the opposite side of the table, the ball taking effect near the navel and inflicting a wound which is likely to prove fatal. Again the dying man raised his pistol and fired, the ball striking Harris in the hand and tearing off the thumb.

Some of the men from the saloon had by this time entered the billiard room, supposing the shooting to be finished. But Robinson's vengeance was not yet satisfied, and though the glaze of death was already in his eyes, he again fired his pistol, and then dropped dead. The last shot struck the night watchman's trousers pocket, but owing to the lucky circumstance of his having a bunch of keys and a police whistle just in the right spot, the course of the deadly missile was stopped, the only damage being the breaking of the whistle.

Coroner Black held an inquest soon after the killing. The jury found a verdict in accordance with the above facts set forth, and Robinson was buried this afternoon, which many people around here consider rather quick work, even for a California town. The deceased was what is generally known as a sporting man, and is said to have a wife living in Merced. His age was about 38 years.

Harris, whose real name is said to be Galvin, is a blacksmith, and has no relatives in California. The formality of placing him under arrest has been gone through with, but from present appearances he will not trouble the courts much.—*San Francisco Chronicle.*

Fast Time.

The following table shows the fastest time made by American trotting horses during this season, and where the exhibitions occurred:—

Goldsmith Maid, Boston	2 14
Lulu, Rochester	2 16¼
Gloster, Rochester	2 17
Red Cloud, Buffalo	1.18
Camora, Buffalo	2.19½
Mambrino Gift, Buffalo	2 20
Belle Brasfield, Rochester	2.20¼
Fleety Golddust, Buffalo	2.20¼
Smuggler, Buffalo	2.20¼
Castle Boy, Utica	2.21
Nettie, Cleveland	2.21¼
Bodine, Buffalo	2.21¼
Lucille, Golddust, Utica	2.22¾
Fred Hooper, Cleveland	2.23
Thomas Jefferson, Buffalo	2.23¼
Cosette, Springfield	2 23¼
Frank Wood, Rochester	2 24
Kansas Chief, Utica	2 24
Nashville Girl, Springfield	2 24
James Howell, jr, Springfield	2 24
Music, Utica	2 24¼

Ben Smith, Rochester	2 29
Kittie Cook, Buffalo	2 29¼
Bella, Springfield	2 30

THE STORY OF A SUICIDE.—The London *Standard* of Aug. 27, has the following: "An inquest was held yesterday at Fermoy Barracks, upon the body of Hon. Mr. Bellew, son of Lord Bellew. The deceased was found dead in his quarters on Tuesday morning with a bullet wound through his forehead. He had just joined the army and was attending the training school at Fermoy. He was addicted to drinking. On Monday night, while in a state of intoxication, he made his appearance in the room of Captain Butler, of the 76th Regiment, with a sword in one hand and a revolver in the other. The latter weapon he presented at the head of his brother officer, whom, under the threat that he would shoot him, he was compelled to accompany the deceased to his own quarters. When they had arrived there the Captain was obliged to retire after a few minutes, under similar compulsion. Immediately thereupon a shot was heard from the direction of Bellew's room. The alarm was given to the officers who were still in the billiard room, but they took no notice. According to the evidence it appeared that none of them entered the room until the following morning at seven o'clock, after the servant of the deceased had found his master lying on the floor in a pool of blood, quite dead. The jury, while returning a verdict of death by suicide, expressed themselves strongly upon this fact."

HEART DISEASE.—Halifax, Feb. 10, 1872 Mr. James I. Fellows—Dear Sir: In order that some other sufferer may be benefited, you are at liberty to give this letter publicity. In the winter of 1869, I was taken ill with Disease of the Heart, accompanied by violent palpitation, and from that time gradually became weaker, notwithstanding continued professional attendance, up to a few weeks ago, when your Compound Syrup of Hypophosphites was recommended to me. The use of it during a very short time enabled me to resume my usual work, and now I am as well, fat and hearty as I could wish to be. Yours, very truly, W. Frank Cochran. The heart being a great muscular organ requires vigorous nervous force to sustain it. As Fellow's Hypophosphites restores the nervous element, it will always strengthen the heart weakened through loss of this element.—The Inventor. 265

DR. S. JACOBS, ON APHONIA, OR LOSS OF VOICE.—Orange Street, St. John, N. B., 1869.—Mr. Fellowes—Sir: I am bound to award the palm of merit to the preparation of Hypophosphites discovered by you. I had occasion to use it myself in a case of Aphonia, which would not yield to regular treatment, and am happy to say it proved to be all that you claimed for it, having acted with expedition and entire satisfaction. I feel called upon to publish the fact, that the profession may avail themselves of a remedy in your "Compound Syrup of Hypophosphites." Yours, very truly, S. Jacobs. 3665

The Ottawa Times

MONDAY, SEPTEMBER 14, 1874.

Edward Jenkins, M. P. for Dundee, Scotland, and Agent General of Canada for Emigration in Great Britain, arrived in the city on Saturday, and is staying at the Russell House.

The Toronto *Nation*, the organ of the "Canada First" party, after discussing the political aspects of the Reciprocity Treaty in a perspicuous and dispassionate spirit, declares that it contains nothing which in either principle or practice would tend to the ultimate merging of our interests with those of the neighbouring republic, or to the sacrifice of one grain of our individuality as a nation; and it asserts that it cordially accepts the Treaty, on the supposition that it can be amended in several particulars it has already alluded to.

The programme of the matches of the Dominion Rifle Association, published by authority of the Council, is now before us, containing the usual full and complete information. We notice with pleasure that there is a very great increase in the number of entries as compared with last year. Last year the number was 115, this year it has just increased by 100, footing up to the handsome number of about 250. The grounds will be magnificently fitted up with six marquees and a flower garden. The Governor-general's foot-guards will form the guard of honour on the opening day; the guards' band will discourse the music, and the members of the Government and the principal citizens will be invited to be present. Three more butts are to be added to the ranges, in order to afford greater facilities for shooting, an arrangement which has been rendered necessary by the greatly increased attendance. One of the targets will be erected on the Wimbledon system—a canvas target—which will be tried as an experiment. The first shot will be fired by Her Excellency the Countess of Dufferin.

We reproduce in another column an article on the Reciprocity Treaty, from the Summerside (P. E. I.) *Journal*, from which—and we commend it to the careful consideration of our readers—it will be seen, that in its capacity as mouthpiece of the Opposition in the youngest province of the Dominion, it speaks of the "Tory Protectionists" of these parts in a tone which is nothing short of contemptuous, and which can bring bring but little comfort to its confreres here. Our Tory contemporaries hail with unbounded and unconcealed delight any apparent deflection from the ranks of the Liberal party, from whatever cause, although it must be confessed that they have had but little opportunity for exultation on this ground. Here, however, we have not a deflection from their ranks, we admit, but a journal sticking to its principle, notwithstanding the example of its less scrupulous confreres in other portions of the Dominion, and in defiance of the relentless lash of the party with which, in an evil hour, its leaders allied themselves.

We are glad to see that we have not been alone in condemning the secrecy with which it has been determined to conduct the proceedings of the Council of Public Instruction. The Hamilton *Times* also speaks in the plainest language in regard to the matter, and in an article from the *Nation*, entitled "a Model Catalogue," which we reproduce elsewhere, it will be seen that that journal looks with the greatest disfavour and suspicion upon the remarkable resolution. It would indeed be surprising in this age of enlightenment and progress if an outrage of the kind, marked as it is by that tyrannical spirit which characterised the laws and governors of the dark ages should fail to elicit sentiments of profound repugnance and unyielding opposition from the entire press of the country. We may here remark that so far as appearances go, the *Nation*, beyond its claim to public favour from being a high class well, conducted, and ably written journal, will soon lay the Province of Ontario under a lasting obligation for its fearless exposition of the fraudulent cantrips of the Department of Public Instruction.

We desire to be understood to repeat what the Hamilton *Times* accepts as our "flat contradiction" of its statements relative to the Cornwall election. What our contemporary treats as the sworn evidence is not the sworn evidence, but the very inaccurate report of it telegraphed to the Toronto papers. We expressly repeat with reference to the affair of the special train what we stated some days ago, that a train was provided to enable certain voters to vote for Mr. Macdonald who were passing *en route* to vote elsewhere. The sworn evidence of Mr. H. S. Macdonald, and of Mr. Beaufort, one of the voters in question, if not the reported evidence, supports this statement. Moreover, the writer has the fullest personal knowledge of the evidence given, and of the circumstances connected with the affair of the special train at the time of their occurrence. The Beauforts voted for Mr. Macdonald early in the morning, they having arrived in Cornwall the night before, which they did on condition of such arrangements being made as would enable them the same day to vote at Prescott and Kingston. The incident that our Hamilton contemporary recalls to our memory is utterly untrue in every particular. The *Times* alludes to our want of courtesy, but we are bound to say that courtesy towards a journal that so recklessly disregards the truth would be quite out of place. If our contemporary would know something about Cornwall politics, which it certainly does not, it will find the subject admirably discussed in an article quoted in another column from the Seaforth *Expositor*.

THE LOCAL ELECTIONS.

There is unusual stir in political circles all over the country in consequence of the forthcoming election for the Ontario Legislature, which is not unlikely to take place early next year. We notice that the Tory journals have every now and again astonished their readers by announcing with a frightened air that the Legislature was to be dissolved immediately, and that, to use their own words, the elections were to be "sprung" upon them. It does not take any great amount of insight into hidden motives to understand what all this is for. The organs have played so many tunes upon this instrument, and they are individually so little in harmony one with another, that even their most ardent admirers and sympathizers must have their feelings somewhat outraged by their jarring noises. The truth unquestionably is that there is apathy in the Tory ranks, that for all the piping we have had for the past three years, there has verily been precious little dancing. And who shall blame an honest Conservative if he refuses to grow gay over the ribald ranting of the quartette which heads the Opposition in Toronto. They commenced badly, and they will end badly. From the time when they fished the "speak now" paper out of the spittoons or water-closets of the Parliament Buildings, up to the time when Charlie Rykert, like a little weasel that he is, surreptitiously or otherwise—which we know not—entered the bed-room of the Commissioner of Agriculture, and, apparently, finding nothing which he thought worth carrying away—at least so far as we have yet been able to learn—nothing which would help to decorate his own palatial residence—nothing which would bring a decent sum at a pawnbroker's—he crept out again cat-like, and proceeded forthwith to manufacture the silly "Mrs ——" slander. That he had examined everything pretty closely, that he searched every corner with the discerning scrutiny of an experienced old clo' man, we are assured from his own testimony, for he has proclaimed to the world that upon Mr. Mackellar's bed he found a counterpane on which the country had a clear loss of fifty cents. Let the "honest yeomanry," the "hardy sons of toil," ponder over that—a dead loss of fifty cents, upon a counterpane! It is not by any means surprising, we repeat, that decent men of any shade of politics should refuse to follow in the lead of such characters as Boultbee, Lauder, and Rykert. When the Administration of any portion of the Dominion of Canada devolves upon men of such questionable antecedents, it will indeed be time for us to gravely consider whether, after all, the London *Times* is not right in suggesting some improvement of our federal system of government. In the mean time, however, there is not the slightest probability of any event arising which will cause us seriously to ponder that suggestion. On the contrary, every indication points to a decrease in even the small following of the present Ontario Opposition, and to the entire exclusion from public life of all the present leaders. Lauder can never get elected again by the constituency which twice within two years returned Dr. Landerkin; Boultbee has not the ghost of a chance in North York, where he had only a majority of eight in the first instance, and where less than a year ago Mr. Dymond was returned by a majority of over two hundred; Charlie Rykert can never be returned again for Lincoln; and Mr. Cameron, the only decent man in the lot, whose exclusion from public life would be a positive loss, admitted in the Legislature last year that in opposing the solution of the Orange Bill difficulty, proposed by Mr. Mowat, he was practically ensuring his own defeat in case he offered his services to the electors of East Toronto again. Mr. Cameron, although an able and successful lawyer, and a man of acknowledged personal probity and honesty, has never been successful as a politician—indeed, has been a positive failure, especially as a leader. His manner and utterances are characterised by that ascerbity and insincerity which a long experience at the criminal bar is apt to create, and his public speaking partakes so much of the character of special pleading that it must perforce ruin the political reputation of the man who resorts to it. It is said that sad experience has brought him to declare himself that his failure in public life has been complete, that his ideas are too conservative and reactionary for even the most genuine Tory of the present day, and that, having sacrificed himself on the altar of his party in East Toronto, he will disappear for ever from the political arena, devoting the rest of his life to his extensive and lucrative practice in the Court of Queen's Bench. As for the other three who have associated themselves with him in leading the Tory forlorn hope in Ontario, the sooner they step "down and out" the better for their party. They have hung like a millstone about Mr. Cameron's neck, and about the neck of every decent Conservative, and although their absence from the House would be a numerical loss, the net result would be a great gain, especially in honesty and respectability. When the Tories of Ontario have purged themselves of questionable characters of this description, when they have learned that their only hope of success is to wait until they can take issue with the Liberal Government upon some point of public policy, and when they have ceased to expect to ride into power by throwing unfounded and blackguardly insinuations against the reputation of their opponents—then, and not till then, need they hope that the respectable portion of the people of the Province, be their politics what they may, will put that trust and confidence in them which would entitle them to rank as competitors for public office. We have every faith in the forthcoming election that its result will be a denunciation in the plainest and most unmistakable manner of the system of espionage to which the public men of Ontario have of late been subject—a system which has degraded the functions of a Parliamentary Opposition from the exalted and patriotic status contemplated by the British Constitution to that of the common detective, the eaves-dropper, and the retailer of private scandal. For the credit of the Province it is to be hoped our faith has not been misplaced. The legitimate duties of an Opposition under our constitutional form of Government are high, honourable and necessary to the perfect working of the administrative machinery. A strong, honest, upright, vigilant Opposition, able to command the respect and confidence of Parliament and the country,—able, moreover, in case their opponents have, in the inscrutable course of political events, ceased any longer to command a majority in the Legislature and among the people, to conduct the administration of public affairs—is a consideration only secondary in importance and only very little less necessary than a talented and honest government. Of the performance of these legitimate and honorable functions, the quartette in opposition to Mr Mowat's Government have shown themselves completely incapable. It was sufficient for them to know that the Government proposed a particular legislative measure, and their most factious and unreasoning opposition was ensured. For the sound, far-seeing policy of common sense men, who were willing to wait, and make use of the opportunities which are always open to a wide-awake opposition they substituted a course of unreasoning and unreasonable obstruction, wasting the country's time and money in silly squabbling about that which involved neither a defect in principle nor a loss in practice, and in attacks, not upon the public policy of their opponents, but upon their private character—behaving themselves, in short, as if they were assisting in legislating for the thieves, robbers and murderers of a penal colony, rather than in making laws for the government of a province exceeding in population, wealth, enterprise, and intelligence, all the other States of this great Confederation.

If there is one thing more than another in this wide world in which we have unbounded faith, it is in the high morality of public sentiment in Ontario and throughout the whole of Canada. We believe that no man, or set of men, can with impunity keep up a practice or practices by which that morality is outraged without sooner or later being soundly punished therefor by the united condemnation of the people. The electors of Ontario have borne with such petty tricksters as Lauder and Rykert long and patiently enough, but the day is not far distant, we believe, when they will condemn them to that oblivion from which it would have been well for the country had they never emerged. That better men will rise up to lead the Conservative party we both hope and believe, and when such men do arise, our system of government will not deny them their turn at the helm of State. They must be content to wait, however, until the memory of pettifoggers and characterless politicians, like Lauder and Rykert, has been blotted from the records of their party, until the buffoonery of a Boultbee has become a thing of the distant past, until an ever-changing public sentiment has turned in their favour of its own accord, and they have ceased to make the scurrility of Billingsgate and the Sautmarket do duty for the logic of statement. We note with pleasure the fact that the Liberal Party throughout the Province are taking care to name such standard-bearers for the coming contest as will, both in point of ability and personal standing, command the respect of right thinking men of both parties. The Reformers of Ottawa have not as yet formally announced any particular action so far as the selection of a party candidate is concerned, although it is pretty well understood who will carry the Tory flag. We are authorized to state, however, that Mr. D. J. O'Donoghue, our present representative, will offer himself for re election, not as the candidate of any political party, but trusting to the character for independence and honesty, which won for him the suffrages of the electors upon the occasion of his first coming forward, and to which his record during the time he has been in the Legislature justly entitle him to lay claim

Canada Official Gazette.

Saturday's Official *Gazette* contains the following appointments, together with other items of public interest:—

Marc Aurele Plamondon, of the City of Quebec, advocate, to be a Puisne Judge of the Superior Court for the Province of Quebec.

William Warren Dean, of the town of Belleville, Ont, barrister-at-law, to be the Judge of the County Court of the County of Victoria, vice Mr. James Smith, deceased.

Joseph McIntyre, of the town of Sarnia, Ont., to be a Preventive Officer in Her Majesty's Customs.

The circulation and specie report of this week shows an excess of specie of $284,309 95.

The authorised discount on American invoices, 9 per cent.

The Revenue and expenditure account for the month of August, shows the following result. *Revenue*—Customs, $1,632,254.74; Excise, $315,321.58; Post Office, $103,980 02; Public Works, including railways, $150,691.42; Bill Stamps, $23,154 47; Miscellaneous, $127,366 74. Total, $2,352,768.97. *Expenditure*—$1,797,672.87; Excess of Revenue, $555,096.10.

CITY AND VICINITY

CITY COUNCIL.—A special meeting of the City Council is called for this evening at 7 o'clock, to take into consideration the proposed new fire by-law.

POLICE COURT.—On Saturday only one case appeared for the adjudication of the Police Magistrate, that of John Gaffney, for disorderly conduct on the By-Ward market. He was remanded until this morning.

PROTESTANT HOSPITAL.—The visitors this week are: Directors: Messrs. James Rochester and Richard Bishop; Clergy, Revs. J. Johnston and William Hall; Physician, Dr. James A. Grant.

WITHDRAWN.—The Brockville *Recorder* announces that John Moles, the petitioner against the return of J. D. Buell, has given notice of his intention to withdraw said petition on the grounds of insufficiency of evidence to sustain said allegations.

ADVERTISEMENT.—The "Babcock" Manufacturing Company purpose showing the capability of a large engine of their make of putting out a fire, at 3 o'clock on Wednesday afternoon on the Exhibition Grounds, Bank street—a house 15x20 built purposely, filled with all kinds of inflammable material, will be fired, and on being directed to extinguish the fire, the operator will endeavour to do so. 3781in3

EVANGELICAL ALLIANCE.—At a meeting of the Ottawa branch of the Canadian Evangelical Alliance, held in the rooms of the Y. M. C. Association, on Friday evening last, the following persons were chosen delegates to attend the annual meeting of the Alliance, to be held in Montreal on the first of October:—The Revds. Messrs. Hunter, Gordon, Cameron, Sanderson and Gavin, together with Messrs. James Johnston, George Hay, A. Mutchmor and George May, as lay delegates.

BASE BALL.—A match between a picked nine from the "Flyaways" and "Huron" base ball clubs and "Ottawas," was played on Saturday afternoon, resulting in a victory for the latter by a score of 44 to 6.

PERSONAL.—The Right Rev. Bishop Cummins, who has been in the city for some time, leaves this morning for New York. The Rev. Mr. Reid of Brooklyn, also starts for home, and will accompany his Lordship on the journey.

THE TURF.—A trotting match between two horses belonging to Messrs. A. Stewart and George Thompson took place on Saturday afternoon, on Mutchmor Park at four o'clock, for $100 aside. Mr. Thompson's horse won the race.

TIMES ARE CHANGED.—Last year and the year or two previous, fabulous prices were asked by men to go to the woods to take out logs and square timber. The minimum ranged at about twenty-six dollars per month per man, while not a few attained the maximum of forty dollars. At present there are any quantity of men to be had at the usual places of rendezvous in Lower Town, at prices ranging from sixteen to twenty dollars per month.

SAD ACCIDENT.—On Saturday morning last a French Canadian, working in E. B. Eddy's mill, Hull, met with a serious accident whereby he lost his right arm. It would seem that the man was extinguishing some fire in the vicinity of a coal oil lamp beyond a circular saw, with which he was at work, when the saw took hold of the arm, cutting it completely off a little below the elbow. He had the wound immediately dressed by Dr. Beaudin. He is a young man and unmarried.

THE LOST FOUND.—Young Mr. Futvoye, who disappeared rather suddenly from this city three or four weeks ago, has at last been heard from. His wife received a letter from him on Saturday, written on board a steamship, and evidently mailed at Queenstown upon landing at the South of Ireland. It will be remembered that he was said to have gone up the Gatineau on a fishing excursion, a story which is altogether unlikely. His friends are at a loss to account for the strange freak of his taking a trip across the Atlantic.

ARRIVALS AT THE RUSSELL HOUSE.—E McLennan, A M Perkins, Miss Perkins, W T Cumming, J Inglis, J A Perkins, Montreal; J Dimbleby, Oxford, England; E L DeBellefeuille, Dr Starke, Pembroke; S N Cram, Sherbrooke; A Leitech, Bryson; E Jenkins, London, England; S C Farmer, Buffalo; Major Cocker, J D Hemsworth, England; W Irving, Perthshire; C Skinner, New York; Captain A Bland, England; Mr and Mrs Pellew, New York; L Thomas, Melbourne; J A Gemmell, Almonte.

ERRATA.—In Saturday's issue it was stated, through some misunderstanding with an informant, that the young lad, son of Mr. Frederick Prodrick, who had fallen from a window in Sussex street a few days previous, had died from the effects of injuries received by said accident. It is with pleasure we correct the mistake made and announce that the boy is entirely out of danger, and able again to be around. The mistake originated from the fact that Mr. Frank Prodrick, of Clarence street, lost a boy, and the one incident was in some way associated with the other.

TEMPERANCE MEETING.—The usual Sunday temperance meeting was held in the Temperance Hall yesterday afternoon. Mr. Wm. Porter presided, and on the platform we observed the Rev. Mr. Ferries, of Paris, Ont., Rev. Mr. Knowles, and other gentlemen, who usually attend these meetings. After the usual opening services of singing and devotional exercises, the Revs. Messrs. Ferries, Knowles, and Mr McLean addressed the audience. The meeting then, after the singing of the Doxology and the pronouncing of the Benediction, was brought to a close.

CLOSING OF THE FIRST CHAUDIERE MILL.—The lumbering establishments of Captain Baldwin were closed at the Chaudiere on Saturday night, throwing upwards of two hundred men out of employment. This is the first shutting down at the Chaudiere, but others will close during the ensuing week. Some hope was entertained that our merchant princes in the lumber trade would regulate the closing on a more gradual scale, or perhaps work partial time. Had there been any signs of revival in the trade, this would doubtless have been done; but owing to the dullness of the market and there being no demand, lumbermen were left no alternative in the matter.

THE PUBLIC SCHOOLS.—A writer in Saturday's *Free Press* in a dissertation on the Public Schools makes a great many mis-statements, and for one so cognizant of school affairs as the writer apparently is, such errors are entirely inexcusable. In the matter of cost of Central Schools, the price is under estimated, and it is very imprudent to raise unnecessary alarm as to the condition of the Central School East, when the writer well knows, or at least ought to know, that an efficient inspection of the building was made and it was pronounced perfectly safe. Another very serious blunder made is, assuming because teachers have recently succeeded in getting certain certificates that they are entitled to a corresponding increase in their salaries. Salaries for the year have been estimated for and will be paid the teachers employed, and it is not right to mislead the public as to the amounts paid for this service. The schedule of prices will not go into effect till the commencement of another year, and until official effect is given to such schedule it is time enough to give such intelligence to the public.

REAL ESTATE.—The following sales of real estate were effected during last week, viz: Lot No. 3, west side of O'Connor street, sold to Mr. Hayes for the sum of $1,025; Lot No. 53, south Nepean street, sold to Mr. Crain for the sum of $1,150; Lot No. 42, south Nepean street corner of O'Connor street, sold to Alex. McRae for the sum of $1,350; Lot No. 41, north Nepean street and corner of O'Connor street, sold to Mr. Mills for the sum of $1,350; Lot No. 52, north Biddy street, sold to Mr. Woodcock for the sum of $1,100; Lot No. 53, north Biddy street, sold to Mr. Kerr for the sum of $1,050; Lot No. 52, south Nepean street, sold to Mr. Young for the sum of $1,150; Lot No. 39, south Nepean street, sold to E Bure for the sum of $850; Lot No. 1, sub-division of block 12, Sherwood Estate, sold to J. Dorange for the sum of $220; Lot No. 2, sub-division of block 12, Sherwood estate, sold to Thomas Dennis for the sum of $220; Lot No. 52 on the Sherwood estate, with house thereon, sold to Mr. Stewart for the sum of $1,050.

RINK MUSIC HALL.—Saturday eve terminated Mdlle. Ravelli's engagement, but the management, ever alive in securing novelties, has made an arrangement with the talented and beautiful Elfin Star, Miss Jennie Morton, who has just terminated a six weeks engagement at Woods Museum, N.Y., to appear for six nights only, commencing this evening. The piece she has chosen for her *debut* is Maggie Mitchells speciality of "The Pearl of Savoy," known also as a leading moral French drama by the name of "Grace de Dieu." She is well and favorably known as a Protean actress, having played her own drama of "Idlewild" at Woods', N.Y., Philadelphia, Boston, and principle western cities. The N. Y. *Herald* says of her: "The advent of a new Star, when she has genuine talent, must be hailed with delight. That Miss Jennie Morton has artistic merit none can deny. She is of the Lotta-Mitchell school, being *petite* in figure, sprightly in action, lively in demeanour, and also charming in person. She combines pathos and comedy in a rare degree, has a captivating manner and a certain amount of dash and *espiegle* that completely fascinates the audience. Her acting and drama may both be classed as successes." With an endorsement of such a glowing character from the leading New York city paper we doubt not but that her visit to Ottawa will prove remunerative alike to her and the manager.

LOOKS LIKE BUSINESS.—The store of Mr. Charles Bryson, on Sparks street, gave evidence of an extensive business on Saturday night. The store was literally crowded, sales were prompt, and those employed in the establishment were kept constantly on the *qui vive*. The windows were fitted up in the most attractive manner; in one were some handsome slipper patterns that were greatly admired, in the other a fine assortment of dry goods recently imported. Those in need of anything in this line had better give Mr. Bryson a call. New winter goods are fast arriving in endless variety. Call and examine for yourselves.

CRICKET MATCH.—A scratch match between the "Ottawa" and "Civil Service" clubs came off on Saturday afternoon on the Rideau Hall grounds. There were only a few spectators present, and contrary to expectation, but very little interest was manifested in the game. The Ottawa eleven went to the bat, and succeeded in staying in during the whole of the afternoon preventing their opponents from getting a show. The batting, especially that of the Rev. T. D. Phillips, was very good, and the fielding of the 'Civil Service' men, much above the average. The fine band of the Guards was present during the afternoon, and played a choice programme of music. His Excellency visited the field and watched the progress of the match for a short time.

OUR FUTURE FIRE BRIGADE.—In view of the early completion of the waterworks, and the organization of a paid fire brigade, the following paragraph may not be uninteresting to the people, showing as it does the high standard of efficiency which the Montreal brigade has been brought to. The *Gazette* of Friday last says: "Yesterday afternoon about half-past three o'clock a part of the brigade was called out for the purpose of enabling a number of gentlemen connected with insurance companies in this city to see our appliances for saving property. The alarm was given by W. W. Reed, Esq., the manager of the Scottish Imperial at Glasgow, who is now in the city, and with their usual celerity the brigade from the Centre Division were at the Victoria Square. The Skinner Ladder was out, and a stream from the top of Messrs. Linton & Cooper's factory (the old St. James' Hotel) was sent up from the roof. Afterwards, Mr. Reed, with a number of other gentlemen, visited No. 2 Station, and were shown the very admirable arrangements under the charge of W. McRobie of the Salvage Corps. The horses are loosened from their stables by an electric arrangement attached to the alarm, the doors of the station opened by the same operation; and so well trained are the horses that on being loosened they immediately take their places, one at the poles of the Salvage waggon, and another in the shafts of the horse-reel, and are out in an incredibly short space of time. The fire alarm room in the City Hall was also visited, and the whole arrangements explained to the visitors by Mr. Chief Bertram. The visitors expressed themselves greatly pleased, and complimented the Chief on the very perfect organisation under his command.

Proposed Terms of Union of the Presbyterian Churches throughout the Dominion.

On Wednesday evening, at 7.30 o'clock, the question of Presbyterian Union again comes up for consideration before the congregation of St. Andrew's Church in this city. As some slight opposition is anticipated, it may not be amiss to lay before our readers the remit on union as finally adopted by the high courts of the different churches shortly about to enter into union. This union once effected, a prestige will be given to the Presbyterian body in the Dominion that cannot prove otherwise than of incalculable advantage to the welfare and success of the entire Church.

PREAMBLE.

The Presbyterian Church of Canada in connection with the Church of Scotland, the Canada Presbyterian Church, the Church of the Maritime Provinces in connection with the Church of Scotland, and Presbyterian Church of the Lower Provinces, holding the same doctrine, government, and discipline, believing that it would be for the glory of God and the advancement of the cause of Christ that they should unite and thus form one Presbyterian Church in the Dominion, independent of all other churches in its jurisdiction, and under authority to Christ alone, the Head of His Church and Head over all things to the Church, agree to unite on the following basis, to be subscribed by the Moderators of the respective churches, in their name and on their behalf.

BASIS.

1. The Scriptures of the Old and New Testaments, being the Word of God, are the only infallible rule of faith and manners.

2. The Westminster Confession of Faith shall form the subordinate standard of the Church; the Larger and Shorter Catechisms shall be adopted by the Church, and appointed to be used for the instruction of the people—it being distinctly understood that nothing contained in the aforesaid Confession or Catechisms, regarding the power and duty of the Civil Magistrate, shall be held to sanction any principles or views inconsistent with full liberty of conscience in matters of religion.

3. The government and worship of this Church shall be in accordance with the recognized principles and practices of Presbyterian Churches, as laid down generally in the "Form of Presbyterian Church Government," and in "The Directory for the Public Worship of God."

The aforesaid Churches further agree to the following resolutions:—

I.—RELATIONS TO OTHER CHURCHES.

1. The Church cherishes Christian affection towards the whole Church of God, and desires to hold fraternal intercourse with it in its several Branches, as opportunity offers.

2. This Church shall, under such terms and regulations as may from time to time be agreed on, receive ministers and probationers from the Churches, and especially from Churches holding the same doctrine, government, and discipline with itself.

II.—MODES OF WORSHIP.

With regard to modes of worship, the practice presently followed by congregations shall be allowed, and further action in connection therewith shall be left to the legislation of the United Church.

III.—FUND FOR WIDOWS AND ORPHANS OF MINISTERS.

Steps shall be taken at the first meeting of the General Assembly of the United Church, for the equitable establishment and administration of an efficient Fund for the benefit of the widows and orphans of Ministers.

IV.—COLLEGIATE INSTITUTIONS.

The aforesaid Churches shall enter into union with the Theological and Literary Institutions which they now have; and application shall be made to Parliament for such legislation as shall bring Queen's University and College, Knox College, the Presbyterian College, Montreal, Morrin College and the Theological Hall at Halifax, in relations to the United Church similar to those which they now hold to their respective Churches, and to preserve their corporate existence, government and functions, on terms and conditions like to those under which they now exist; but the United Church shall not be required to elect Trustees for an arts' Department in any of the Colleges above named.

V.—LEGISLATION WITH REGARD TO RIGHTS OF PROPERTY.

Such legislation shall be sought as shall preserve undisturbed all rights of property now belonging to congregations and corporate bodies, and, at the same time, not interfere with freedom of action on the part of congregations in the same locality desirous of uniting, or on the part of corporate bodies which may find it to be expedient to discontinue, wholly or partially, their separate existence.

VI.—HOME AND FOREIGN MISSIONARY OPERATIONS.

The United Church shall heartily take up and prosecute the Home and Foreign Missionary and Benevolent operations of the several Churches, according to their respective claims; and with regard to the practical work of the Church and the promotion of its schemes, whilst the General Assembly shall have the supervision and control of all the work of the Church, yet the United Church shall have due regard to such arrangements through Synods and and Local Committees, as shall tend most effectually to unite in Christian love and sympathy the different sections of the Church, and at the same time to draw forth the resources and energies of the people in behalf of the work of Christ in the Dominion, and throughout the world.

VII.—GOVERNMENT GRANTS TO DENOMINATIONAL COLLEGES.

In the United Church the fullest forbearance shall be allowed as to any difference of opinion which may exist respecting the question of State grants to Educational Establishments of a Denominational character.

RESOLUTION REGARDING THE DISPOSAL OF THE TEMPORALITIES' FUND

The Temporalities' Fund shall remain, as at present, in the hands of a Board, the membership of which shall be continued after the consummation of the Union, by the remanent members having power to fill vacancies caused by death, resignation, or otherwise; and the administration of the Fund shall continue on the same principles and for the same purposes as at present until the vested rights of all Ministers and Probationers shall have lapsed; and these rights shall be held to be the following: (1) The annual receipt by Ministers now receiving four hundred and fifty dollars ($450), four hundred dollars ($400), or two hundred dollars ($200) of the same amount during their lifetime and good standing in the Church. (2) The annual receipt of two thousand dollars (2,000) in perpetuity by the Treasurer of Queen's College; and (3) the annual receipt of two hundred dollars ($200), by all the Ministers who shall be on the Synod Roll at the time of the Union, and by all recognized Probationers and Licentiates engaged in active service, during their lifetime and good standing in the Church:—All salaries of two hundred dollars ($200) to be increased to four hundred ($400) each, when the recipients of them shall have retired, with the consent of the Church, from the active duties of the ministry. The Temporalities' Board shall, if necessary, draw upon the capital of the Fund, in order to meet the aforesaid requirements. As soon as the Fund or any part of it shall no longer be required for these purposes, it shall, with the exception of the aforesaid annual payment to Queen's College of two thousand dollars (2,000), or the same capitalized, be appropriated to a Home Mission Fund for aiding weak charges in the United Church.

NAME OF THE UNITED CHURCH.

It was further agreed by the Synod to suggest that the United Church be styled "The Presbyterian Church in Canada," and the Clerk was instructed to intimate this to the Churches in the Lower Provinces and to respectfully ask their concurrence.

Cornwall Politics.

(From the Seaforth Expositor.)

It is somewhat amusing to peruse the comments indulged in just now, by journals on both sides of politics, on the Cornwall controverted election case. As appeared by the evidence given before the Court, an immense amount of bribery had been practiced at the last election in the constituency of Cornwall. The object of the prosecution was, of course, to unseat the sitting member, Mr. A. F. Macdonald, and the only evidence produced before the Court was such as would tend to secure that object. Consequently, the corrupt doings of Mr. Macdonald's friends and supporters were all brought to light, while those of his opponent were not looked into at all. On this account, it would seem to a reader unacquainted with the facts that all the bribery and corruption had been practiced by the Macdonald party, which every one conversant with the facts knows to be very far from the truth. Mr. Macdonald has been a supporter of the present Government, and Bergin, his opponet, was also a supporter of the same political party. But Mr Macdonald is a brother of the late Sandfield Macdonald, and belonged to the party in Cornwall which supported him. On the present occasion the Conservative journals wish to cast discredit on the Reform party, on account of the bribery practiced by Mr. Macdonald's friends, while the Reform journals claim Mr. Macdonald's opponent, Mr. Bergin, as the Reform candidate, repudiate Mr. Macdonald as a Reformer, and proclaim his supporters, and those who were guilty of the corrupt acts as shown before the Court, Conservatives. Well, both are right and both are wrong. Politics in Cornwall are a strange mixture, and it is difficult for any person unacquainted with the constituency to understand them. The differences between the contending parties there are not of a political but of a purely personal and local nature, and neither of the parties have continued long in their allegiance to either political party. In each party will be found Grits and Tories fighting side by side. Sandfield Macdonald was the dividing line between the parties. Whichever way he went, the local party which claimed him as its chief was sure to follow, and whatever political party he supported, to that party would they yield their allegiance. In like manner the opposing local party opposed whatever political party Sandfield supported, entirely irrespective of political considerations. And now that Sandfield is gone, his brother, the present Postmaster General, has the chieftainship of the party formerly led by Sandfield. Mr. A. F. Macdonald, the recently unseated member, belonged to the Sandfield party, and his opponent, Dr. Bergin, belongs to the anti-Sandfield party. This is the principal difference that exists between them in a political point of view, as both gentlemen, with their parties, have, in turn, supported both Reform and Conservative administrations. Now, the Sandfield party support the present Government in its entirety, while the anti-Sandfield party support the present Government, minus the Postmaster General. It will be seen, therefore, from this, that politics in Cornwall are considerably mixed. Postmaster General Macdonald, of Glengarry, the present leader of the Sandfield party, has, however, always been a consistent Reformer, and it is to be presumed that that faction will hereafter, become thoroughly and permanently identified with the Ontario Reform Party. But the leaders of the opposing party have been everything by turns, and nothing long, and as they are now partially in opposition to the present Government, judging by their past career, one is pretty correct in predicting that they will shortly be entirely over the fence. Dr. Bergin and his party were for years steady friends and supporters of Sir John Macdonald and Sir George Cartier, and they only abandoned that friendship and support because Sandfield Macdonald linked his fortunes with those of these gentlemen. So that, in claiming Dr. Bergin and his party as Reformers and disclaiming Mr. Macdonald and his party, the Reform journals of Ontario are not pursuing exactly the proper course. The latter are by all odds the more respectable and creditable, and the Reform party of Ontario need not be ashamed to own them while the former, so far as their *personnel* is concerned, at least, would be no acquisition to any party. So far as Mr. Macdonald and Dr. Bergin are personally concerned, there is a wide difference between them. The former is a gentleman of respectability, and is an honorable, upright and straight-forward man, while the latter, although possessed of some ability, is not a person who would do honor to a constituency in Parliament, and the people of Cornwall did well to rid themselves of him. It should not require the lavish expenditure of money indulged in at the last Cornwall election to secure the return of a candidate of Mr. Macdonald's standing and respectability, in opposition to a person of the Bergin stamp, and it is to be hoped that the lesson his friends have received will be a warning to them in future to be more judicious in their manner of canvassing.

A Model Catalogue.

(From the Toronto Nation.)

The Department of Public Instruction for Ontario have just issued a work bearing the comprehensive title: "A General Catalogue of Books kept for sale at the People's Depository of Ontario, in every Department of Literature, for High and Public School Libraries in Ontario." The title page is graced by a wood-cut of a coat of arms—presumably of the Department, surmounted by a beaver, and underwritten with the legend, "Religio, Scientia, Libertas." On the same page also, it is stated that the book was printed in Toronto "for the Department of Public Instruction for Ontario, by Hunter, Rose & Co.," in the year 1874. The title page further informs us with minute and laudable particularity, that the work is "sanctioned by the Council of Public Instruction, under the Authority of the Consolidated Law of 1859 (119th Section, 5th Clause; and 120th Section, Clause D)." By what Council this was done, whether the present or some former one; when and in what manner the sanction was given; whether the work was submitted to the Council for examination, and what sort of scrutiny it underwent; why the sanction was given under an Act which was blotted from the Statute Book nearly six months ago: all these things are matters of merest conjecture. The Council hold their meetings in secret session; the public have no means of knowing what is done there; even the bodies who send representatives have no means of finding out whether these representatives are faithful or otherwise to the trust reposed in them. Whether or not this was the intention of the Legislature, it is difficult to say. To say that it is contrary to the dictates of common sense is not so difficult. There is no body at present known to Canadian law, upon the doings of which it is more desirable to let in the light of public opinion.

Premising this much in regard to the Council, let us turn to the catalogue itself. It is a work of about seventy royal octavo pages. It was commenced, we believe, in the year 1858, and is consequently the result of sixteen years labour—arduous or otherwise. In the Prefatory Note it is announced somewhat grandiloquently that "as now revised [it] contains works in every department of human knowledge;" that, with certain imitations, "the selections made have been as full and varied as the resources of our English and American literature would admit;" and that "through the medium of these books the sons and daughters of our land may contemplate the lives of the good, the wise, and the great of both sexes and of all ages; survey the histories of all nations; trace the rise and progress of all sciences and useful arts; converse with the sages and bards of Ancient Greece and Rome, as well as with the philosophers, poets, scholars, discoverers, inventors, artists, travellers, and benefactors of mankind of all times and countries—exhaustless sources of instruction and entertainment." Verily, these are brave words, though they smack somewhat of the auctioneer's rostrum. With praiseworthy anxiety to aid "the sons and daughters of our land," in their desire to "contemplate the lives of the good, the wise, and the great of both sexes," &c., &c., the local authorities are informed that if they "would select to the amount of their appropriation such books as they desire, and leave to the Chief Superintendent the selection of the rest, with such suggestions as they may think proper to make, he would be able to fill up their lists with such books, as would for the most part be new as well as useful and entertaining." Really there is something almost pathetic in this paternal solicitude on the part of "the Chief Superintendent." The Prefatory note also informs us that, with certain specified exceptions and limitations, "it is the opinion of the Council that as wide a selection as possible should be made of useful and entertaining books of permanent value, adapted to popular reading in the various departments of human knowledge." On reading these extracts one is almost inclined to say with the Queen in Hamlet: "The lady doth protest too much, methinks." Whether it can be said of the Department as Hamlet said in reply, "Oh, but she will keep her word," we now proceed to enquire.

The catalogue contains the names of over 3,100 different works, classified into some sixteen different departments, which are again divided into various sub-headings. Notwithstanding the assertion that "the selections have been as full and varied as the resources of our English and American literature would admit," there are some extraordinary omissions from the list of departments, such as Mineralogy, Biology, Psychology, Sociology, English Language and Grammar, Philology, Mythology, and Metaphysics. The classification, too, in many instances, is peculiar. Thus there are three departments for Natural Phenomena, Physical Science, and Natural Philosophy, although these are only three names for one and the same thing. Geology is put into a separate department by itself, while the cognate subjects, Meteorology and Physical Geography, are put into the department of Physical Science, in company with Political Geography, which is not a Physical Science. Then again, for no imaginable reason, Fiction is constituted a separate department, and Literature [of which, of course, Fiction is a part] another. In fact, from beginning to end, the classification is such as to set at defiance the simplest rules of logical method, and of common sense.

In details, the work is not less remarkable. The number and character of the omissions are astounding. It is no exaggeration to say that nearly all the latest and best books on nearly every subject, are conspicuous by their absence. It almost seems as if the catalogue had been prepared some 10 or 15 years ago, and that since then the Department had indulged in a Rip Van Winkle sleep, and had only now become awake to the necessity of publication. It would be tedious, and would occupy far too much space to enumerate even a tithe of the omissions which we have noted. A few examples will suffice to give an idea of the character of the work throughout. In English history 65 works are catalogued, but hardly one of the newest lights on the subject is to be found among them. We note some of the principal omissions, in chronological order: Nicholas' Pedigree of English People; Pike's English and their Origin; Wright's Celt, Roman and Teuton; Kemble's Anglo-Saxons; The Saxon Chronicle; Palgrave's Normandy and England; Freeman's Old-English History for Children; Freeman's Norman Conquest; Cobbe's Norman Kings; Pearson's Early English History; Stubb's Early English Characters; Stubb's Documents relating to English History; Stubb's Two Angevin Kings; Maurice's Stephen Langton; Shirley and Hook on the Reign of Henry III.; Blaauw's Baron's War; the Life of Edward I., by the author of "The Greatest of the Plantagenets;" Hartshorne's Edward II.; Longman's Edward III.; Towle's Henry V.; Froude's England; Aiken's Queen Elizabeth; Gardiner's James II.; Brodie's British Empire (1625-1660); Clarendon's History of the Rebellion; Carlyle's Cromwell's Letters and Speeches; Bisset's History (1649-1653); Guizot's English Revolution; Forster's Grand Remonstrance; Forster's Arrest of the Five Members; Goldwin Smith's Three English Statesmen (Pym and Cromwell bieng two); Stanhope's Queen Anne; The Edition of Stanhope's (formerly Mahon's) History (1713-1780) is an antiquated American reprint in two volumes, instead of the latest edition in seven; Hughes' History (1712-1837); Massey's (1745-1802); Molesworth's (1830-1874); Martineau's History of the Peace (since 1815). Not one of the above is alluded to. In Constitutional History the ommission of all recent works is equally striking: Freeman's Growth of the English Constitution, Bagehot's English Constitution, Freeman's Comparative Politics, Fublanque's How we are Governed, Stubb's Constitutional History; none of these find a place in this catalogue from which the Chief Superintendent is to select "such books, as would, for the most part, be new." In the Department of Political Economy the omissions are, if possible, more astonishing. We do not find any one of the following names: Mill, Spencer, Bentham, Ricardo, MacCulloch, Malthus, Cairnes, Jevons, Rogers, Thornton, Fawcett, MacLeod, About, Bastiat, or Leone Levi. In the "Department of History" subhead, "British North America," where, if anywhere, we might look for completeness, there is no mention of McMullin's Canada; Caniff's Settlement of Upper Canada; Scadding's Toronto of Old; Christie's Lower Canada; Gray's Confederation; Miles' Canada, &c. Nor either here or in the "Department of Voyages" is there any allusion to Butler's Great Lone Land, or Wild North Land; Fleming's Ocean to Ocean; Bell's Track in North America; Poole's Queen Charlotte's Islands; or to the works of Huyshe or Horetzky. After this it is not surprising that under the head of "Fiction," the name of the greatest living novelist, George Elliot, is not to be found, nor those of Bronte, Yonge, Oliphant, Riddle, Macdonald, Kingsley, or Marryat. We have looked in vain for the three most celebrated European works of fiction, to wit: Robinson Crusoe, Gil Blas, and Don Quixote. In Chemistry there is no mention of Fownes, Roscoe, or Williamson; in Astronomy, none of Lockyer, Herschell, or Proctor; in Physiology, none of Huxley, or Carpenter; and in Geology, none of Logan, Chapman, Dana, Dawson, or Murchison; and the edition of Lyell's Principles appears to be an American piracy. Passing over the rest of the Departments, in many of which the omissions are equally glaring, we come to Canadian Poetry, the sole representative of which is "Sangster's Hesperus, and Other Poems and Lyrics," price forty-five cents. We do not know what Messrs. Dewart, Heavysege, [illegible] McLachlan, and others will think of the omission of their works; but when, in a catalogue, official and supposed to be exhaustive, we find that forty-five cents worth of poetry is given as the sum total of Canadian production, it is not to be wondered at that Canada should get the name of being a somewhat prosaic country.

Very remarkable, too, is the classification of some of the books. We searched in vain under the head of "English Poetry" for the name of Shakespeare, and unexpectedly alighted on it under English *Prose*. Dante and Tasso also are put in the list of European *Prose* works. Tupper's poem, "Proverbial Philosophy," is proverbially heavy reading, but that is hardly a reason why it should be classed under "Political economy." Another ludicrous blunder is the placing of "Milton and Cheadle's North-west Passage by Land" under "Arctic Regions and Whale Fisheries," by which the classifier gives proof of his total ignorance of the contents of that well-known work.

Other defects might be noted, and cases where old and comparatively useless editions of works are given instead of newer and better ones at one-fourth the price. But enough has been stated to show the worthless character of the production. In fact the larger proportion of the contents are such as an ordinary bookseller would class as "remainders of stock," and consider it his duty to effect a general clearance of by public auction; and it would be well if the Department were to weed out their stock in a similar way; though in that case it is to be feared it would be sadly curtailed. The catalogue gives convincing evidence of a most discreditable state of things, and one which the new Council of Public Instruction should at once reform, root and branch. Nothing less than the most heroic remedies will restore the Department to a sound and healthy condition.

Radford & Geyer's sale. This is continued each evening until the whole of Young's stock is cleared. Only prime articles offered.

THE DAILY TIMES can be procured every morning for 15 cents per week. The "Weekly" Friday morning's, in time for English Mail, at E. A. Perry's Book St.; Battle Bros., Rideau St., and Russell House; Lacy, Bridge St., Chaudiere; L'Echo Office, Hull; St. Lawrence & Ottawa, and Canada Central Railway Station.

Boswell's Ale is getting ahead. Messrs. Rattey & Aviss, Agents for the above celebrated Quebec Ale, have succeeded in getting 1,700 orders. It shows that Ottawa people can appreciate a good article. The Agents Office is Victoria Chambers, 500 Wellington, near O'Connor street.

SUPERIOR AYRSHIRE CATTLE will be sold at the Exhibition in this city by Mr. W. Rodden, as he intends reducing the number of his herd because of the loss by fire of two barns with their contents of farm produce. This will afford purchasers an opportunity of securing some really fine young stock from one of the best herds in this country. The number of prizes taken here and at other exhibitions by animals from Mr. Rodden's herd have fully established the character of the stock. A few superior Suffolk pigs and Leicester sheep will also be sold. [illegible]

THE FIRE FIEND.

DESTRUCTIVE CONFLAGRATION IN CORNWALL.

Estimated Loss $200,000.

CORNWALL, Sept. 13.

About 4 o'clock this morning a fire broke out in the Paper Mill of Messrs. John Critty & Cohere, and although the morning was quite calm, it quickly spread to Mr. Hodge's Planing Mill and the wooden outbuildings connected with Messrs. Gault Bros'. Cotton Factory. The alarm was promptly given, but there being no effective fire apparatus belonging to the town little could be done towards checking the flames, which in a few minutes completely enveloped the buildings mentioned, together with the Cotton Factory building and Mr. P. E. Adams' Saw Mill. The whole was, within an hour, reduced to a smouldering mass of ruin. Mr. Hodges Flour Mill was saved with difficulty, although protected by a fire-proof wall. The residence of Mr. Macdonald, canal superintendent and the Canal Workshops were also for a time in imminent danger. It is impossible yet to give anything like an accurate estimate of the loss, but it cannot be less than $200,000. The factory of the Messrs. Gault was one of the finest structures of the kind in the Dominion, and built two years ago. The stock is understood to have been heavy and the machinery of the latest improved pattern, while the insurance is said to be light. Mr. Adams loses besides his saw mill, a planing and lath mill, and a large quantity of lumber. His insurance is also light. The paper mill firm are heavy losers, as also is Mr. Hodge. This is the most destructive fire ever suffered in Cornwall. About 200 persons will be thrown out of employment in consequence of it.

TORONTO.

In Memoriam—Accident—Lincoln Representation.

TORONTO, Sept. 11.

The friends of T. K. Morgan and T. D. Groves, victims of the Sphinx yacht disaster last year, have presented a silver Communion service to St. Matthias' Church, to the parish of which the unfortunate young men belonged, and the congregation have affixed a stone tablet to one of the walls of the edifice in commemoration of the sad event. It is also intended to erect a memorial window, consisting of three lights, in connection with the calamity.

Lieut.-Col. Goodwin, military storekeeper of No. 2 Militia District, while crossing King street this morning, was knocked down by an express waggon and received three cuts on the head. The driver was immediately arrested.

Captain Norris unseated by the Controverted Election Court, will be brought forward again in the Ministerial interest for *Lincoln.*

LONDON.

The Camp—Fire—Political.

LONDON, Sept. 11.

The Brigade Parade Artillery to day practiced with blank ammunition. The cavalry regiment crossed over to the city and passed through the principal streets.

There is a lull in political circles after the storm raised by the election trial. The Tories find they have gained nothing by voiding the election, as Major Walker can be re-elected again by a large majority.

Shortly after eleven p.m. a fire broke out in the cooperage of the Hon. E. Leonard, York street east, near the Great Western track. The building and contents consisting of a quantity of dressed staves, were speedily consumed, and the undressed stock in the yard also took fire, burning fiercely. Water was very scarce, and had to be forced from a long distance to the fire. The flames were, however, confined to the cooperage yard. The loss is not ascertained. No insurance.

HAMILTON.

The Caledonian Gathering—Moulders' Strike—Highway Robbery.

HAMILTON, September 11.

The Caledonian Society held their first annual gathering at the Crystal Palace today. This Society numbers nearly 500 members. The *fete* to-day was attended by over 10,000 people.

It is stated that the recent strike among the iron moulders is likely to be amicably settled. The founders held a meeting yesterday, and decided to give the advance of 10 per cent. asked, but would only engage to employ about one-half of the men on this understanding, which was favourably received.

Yesterday evening as Mr. Joseph Hyslop was walking near Brown's wharf, he was stunned by a blow from behind, and when he recovered his senses he found men stripping off his clothes. First they removed his boots and then his pants, vest, a cattle and hat, dividing his clothes and $10 which they had found in his pants pocket between them, and then absconded. The police subsequently arrested Robert McCulloch and Michael Kennedy, in whose possessions part of the stolen property was found.

SATURDAY'S DESPATCHES

ENGLAND.

The Famine in India.

LONDON, Sept. 12.—A special despatch to the *Times* from Calcutta says all apprehensions of a second year of famine are ended. There is a partial failure of crops in some districts, but no greater than in ordinary years.

Steamship Competition Recommenced.

By the recent agreement of the Atlantic Steamship Companies at Liverpool, a uniform rate of steerage passage was fixed at £5 for both slow and fast steamers between Liverpool and Boston and passengers intending to land at New York were thus enabled to travel in fast boats at slow boat's prices by taking tickets for Boston. The slow lines have consequently withdrawn from the agreement, and competition has recommenced. Steerage passengers are now taken on some lines at £3 3s.

Monetary.

Rate of discount in open market for three months—Bills 2¼ or 1¾ per cent. below the Bank of England rate.

Strike Begun.

A great strike of cotton operatives at Bolton, announced to be imminent on Thursday, has commenced.

SPAIN.

Victory Over the Carlists.

MADRID, Sept. 12.—Official despatches published this morning announced that General Pasia has gained a victory over the Carlists. Three thousand troops will leave Cadiz for Cuba about the end of the present month, and five thousand more in October.

SWITZERLAND.

International Law Association.

GENEVA, Sept. 11.—The International Law Association, which has been in session here this week, closed its proceedings today with a public meeting, at which over 3000 persons were present. D. D. Field of New York, made a speech explaining the objects of the Association, which he said were to obviate the necessity of war. Mr. H. Richards and Pere Hyacinthe also addressed the meeting.

UNITED STATES.

A Letter from Bazaine—The Marshal Hopeful.

NEW YORK, Sept 12—The *Herald* to-morrow will publish a letter from Marshal Bazaine, addressed to Mr. Bennet, which was received by cable to-day. Bazaine thanks the *Herald* for its impartiality, and the American and English press for its marks of sympathy. He complains of the injustice of the verdict of the court martial presided over by a Prince of the blood who had never conducted any military operations of importance. He looks to time and history for justification; he bitterly reproaches MacMahon and makes comments of gratitude to ex-President Thiers, who defended his return from Mexico. As regards Mexico, the Emperor had to choose between evacuation and a war with the United States. To avoid a conflict he gave the order to return, but Maximilian was unwilling either to return to Austria or to abdicate, although he well understood that Napoleon would not sustain a struggle with the United States. Maximilian in spite of wise counsels preferred to seek an honourable death. That is the truth, and that is the extent of each one's responsibility. For my consolation the thought remains that even Lafayette passed through ordeals more terrible than mine. In conclusion, the Marshal says—I am far from being rich, but besides my liberty there still remains to me immeasurable treasures for companions. I have an American lady who gives me the strongest proofs of devotion. I have children I adore, a brother and some friends who have remained faithful. My position is not hopeless, if need should be I would follow the example of the conquered Richmond and take refuge in labor. I do not look on my military career as ended. I enjoy health and bodily vigor. Some duties remain to be fulfilled, and I shall fulfil them when the time comes, I hope fortune will grant me a last smile as she often does to old soldiers.

Effects of the Drought.

POTTSVILLE, PA., Sept. 1.—Owing to the drought and unusual scarcity of water throughout the Schuykill region, three collieries in this vicinity have been compelled to suspend operations.

Fatal Accident.

NEW YORK Sept. 11.—As the Cunarder 'Cuba' was entering her dock at Jersey city to-night a tug-boat ran against the hawser, catching in such a manner as to crush Mrs. Kirk and her son William standing on the deck of the canal boat 'Hornet,' against her cabin, killing the latter and fatally injuring the former.

New York Press on Moulton's Statement.

NEW YORK, Sept. 12.—The comments of the morning papers on Moulton's last statement agree in saying that it adds nothing new that is material to the main point of the question, and does not strengthen the case as it previously stood against Beecher. All say that the public has had enough of it outside of the Courts and protest against any more statements.

Plymouth Church Prayer Meeting.

NEW YORK, Sept. 11.—There was a large attendance at the weekly prayer meeting to-night in Plymouth Church. Hymns were sung bearing on the church trouble, and nearly all the speakers in prayer or addresses referred to the absent pastor with unaltered affection and confidence. Brother Cleveland who had recently seen Beecher in the country, informed them that their pastor was cheerful and unmoved by the slanders, and was coming back on October 1st to resume his duties.

Sportsmens' Shooting Matches.

NIAGARA FALLS, Sept. 11.—At the tournament of the Sportsmen's Association shooting of yesterday, T. Shearman, of Wisconsin, won the third prize, John Melvin, of St. Catharine's, fourth; H. C. Tanner, of Oswego, fifth prize; and J. Speckwick, of Canada, the sixth. There were 66 entries for the regular match, and some remarkable good scores were made. Bogardus, Ward, and C. Hines will shoot to-morrow.

SATURDAY'S MID-NIGHT DESPATCHES.

ENGLAND.

Strike of Operatives.

LONDON, September 12.—A strike of operatives at Bolton commenced this morning. The shops, seventy-four mills which employed thirteen thousand hands, and forty eight mills employing seven thousand hands discontinue operations. Subscriptions for the strikers have been opened by the Trades' Unions throughout the manufacturing districts.

BELGIUM.

SS. Arrival.

ANTWERP, September 12.—The steamship 'Nederland' from Philadelphia has arrived.

CUBA.

Calixte Garcia.

HAVANA, Sept. 12.—Calixte Garcia the captured Insurgent leader is now on board the gunboat at Manzonilla. When surprised by his captors Garcia drew a pistol and fired two shots at them. When taken he was found to be wounded in the head, the ball having passed out near the nose. The Spaniards say he shot himself. It is thought gangrene has set in and that the wound will prove fatal.

UNITED STATES

A Fresh Conspiracy Against Beecher.

NEW YORK, Sept. 12.—An evening paper says Tilton is now preparing a voluminous statement of his wrongs, which will be published in New York, Brooklyn and Boston next week. Moulton doubtless has been consulted in the preparation of the document, which it is intended shall crush the Pastor of Plymouth Church. If it should prove as immoral as Moulton's, the law, prohibiting the transmission of obscene literature through the mails, will likely be put in operation again, whatever may be the merits of the triple controversy between Beecher, Moulton and Tilton.

Rewards Offered.

ST. LOUIS, Sept. 12.—Postmaster-General Jewell advertised through the papers here a reward of $5,000 for the arrest of the parties who committed what is known as the Gads Hill robbery, in this State, on the 31st of January last, and $5,000 reward for the arrest of the robbers of the San Antonio stage in Texas in April last.

Half Time.

READING, PA., Sept. 12.—The employees of the Reading Railroad will next week be put on half time, working two weeks out of the month.

President's Movements.

WASHINGTON, D.C., Sept. 12.—The President is expected here this afternoon, and will be the guest of his brother-in-law, Marshal Sharpe. He leaves here for St. Louis on Tuesday.

Death of a Naval Surgeon.

A despatch received at the Navy Department this morning announces the death of Surgeon John B. Ackley of yellow fever at the Pensacola navy yard yesterday.

Boston Press on Moulton's New Statement.

BOSTON, Sept. 12.—The Boston *Advertiser* says of Moulton's statement: A heavy gun is discharged, and it appears that the ammunition had run short. Those who have always inclined to believe in the guilt of Beecher will take it as new evidence, but in fact it is old, and the temper in which it is presented will throw fresh discredit on its author. On the contrary the *Post* says. "It is the most damaging document yet presented, and the thought will suggest itself to many minds whether it would not be more decorous for Beecher, pending the trial in public, to intermit his pulpit services, or as he suggested in one of his letters, to step down and out. As for the Plymouth Church, it is literally shut up."

Governor Dix Ill.

NEW YORK, Sept. 12.—The *World* says Governor Dix is seriously ill at his residence in West Hampton, L. I.

Suspension.

Jonas Sonneborn & Co., of 126 Pearl street, an exporting house that suspended nearly three weeks ago, announce they are able to pay only 30 cents on the dollar. Nearly all the creditors are foreign bankers. Sonneborn has been arrested, and admitted to bail in $5000, on a charge of obtaining bills of exchange from the Bank of British North America, furnishing as security property which had been transferred.

Sad Suicide in the Tombs.

Mendelssohn, the German convicted of forgery yesterday, was found dead in his cell in the Tombs this morning, having committed suicide by taking laudanum. He left letters, directed to the press, protesting his innocence of the crime of which he was convicted, and lamenting his hard fate. He was master of seven languages, and claimed to be the son of the great composer, but his real name is supposed to be Julius Lesser.

Gov. Dix' Illness.

The *Evening Post*, on the authority of Gov. Dix himself, contradicts the report of his serious illness.

Legal Suit.

When James Watson Webb was American Minister in Brazil, he obtained from the Brazilian Government damages for an alleged illegal condemnation of an American vessel. It was subsequently ascertained that the condemnation was not illegal, and the Brazilian Government made application for the refunding of the amount paid to the United States. The amount—about $25,000—was tendered, but the Brazilian Government declined to receive it in full satisfaction, on the ground that it was only about half of what that Government had paid to Minister Webb. The suit has now been brought out in the United States District Court by the United States, to recover from Mr. Webb the alleged deficiency.

MID-NIGHT DESPATCHES.

ENGLAND.

Rumored Deposition of King Coffee.

LONDON, Sept. 13.—A rumor comes from the Gold Coast that the King of Ashantee will soon be deposed.

Great Fire in Bonny.

Half of the town of Bonny has been destroyed by fire.

FRANCE.

Death of Guizot.

PARIS, Sept 13.—Francois Pierre Guillaume Guizot, the eminent statesman and writer, died to-day at his residence, Valecher. He will be buried in St. Aven cemetery. The funeral will be strictly private.

SPAIN

Diplomatic Intelligence.

MADRID, Sept. 13.—The German and Australian Ministers were received by President Zerrano yesterday with great ceremony, and presented their credentials simultaneously in accordance with instructions of their governments. Mr. Hatfield, the German Minister, said the Emperor William in recognizing the executive power of Spain was moved by the desire to contribute to the restoration of peace in that country, and hoped that President Zerrano would succeed in maintaining order by conservative measures. Zerrano replied that his government would fulfil the expectations of Europe, and act with energy to prevent civilization from being again undermined. Speeches of similar tenor were exchanged between the President and the Australian Minister.

UNITED STATES

Sale of Ironclads.

NEW ORLEANS, Sept. 12.—The iron clads sold to-day by the Government, were as follows:—'Etlah,' $9,500; 'Umpaha,' $4,900; and 'Winnebago,' $7,350, purchased by Nathaniel McKay, of Boston. 'Ires,' $7,400, and 'Youma,' $10,075, purchased by Charles Allen of Pittsburg. 'Klamath,' $7,400, and 'Kawajdin,' $7,750, purchased by Shickle, Horres & Co., of St. Louis. 'Caickow,' $8,350, purchased by David Campbell of St. Louis. The total amount received for the eight vessels was $66,725. It is expected the sale will be disapproved of by the Navy Department.

Pigeon Shooting Tournament.

NIAGARA FALLS, Sept 12—This was the last day of the tournament of the Shooting Club. Yesterday's ties were first disposed of, C. P. Wheat, of Cleveland, winning the first prize of $200; George Smith of Buffalo, second prize of $150; G. B. Hamilton and R. Newell, of Buffalo, dividing the third prize of $100; Harrison, of New York city the fourth prize of $75; J. Welch, of Chicago, the fifth prize of $50, and W. H. Ely, of Rochester, the sixth prize of $20. The regular match was for prizes amounting to $1,000, free for all; entrance fee five per cent, 20 single birds each. There were thirteen entries. Smith killed nineteen birds, Welch, fifteen; Newell, 16; Bogardus, 20; Langdon, 19; Price 20; Brown 19; Terrill 18; Wheat 19; Hudson 16; Sherman 19; Tanner 17; Johnston 18; Fish 19; Witmer 17; Moore 18; Jones 18; Langdon 17. In the ties of 20 Bogardus had one bird drop out of the bounds, and Price won the first prize of $400. Sherman won the second prize of $200 by killing every bird at 26 and 21 yards. In the shooting off Terrill made a clear score at 26 yards and the third prize of $150. Witmer won the fourth prize of $100, and Newell the fifth prize of $50. All the birds used were wild pigeons trapped for the market.

The Political Aspect of the Treaty.

(From the Toronto Nation.)

There are people who look on the draft Treaty as a gilded bait, the swallowing of which will have the effect of merging our nationality in that of a foreign power. It will, they say, changing the figure, form a chain by which we shall be dragged into the maelstrom of a foreign nationality, and lose, in the seething waters, the characteristics of a distinct people. That chain, they tell us, will reduce us to a position of dependence, absolute and hopeless. But is the prophecy founded on probability or supported by experience? If it be, we are free to admit that no material advantages of the Treaty could outweigh the doom of such a destiny. Between the Treaty of 1854 and that now proposed, the only differences are differences of degree and duration. The proposed Treaty adds new links to the commercial connection between the two countries; and it is to last for twenty years. When the Treaty of 1854 was under negotiation, there was a party in the United States who rested their opposition to it on the ground that if Canada were denied the commercial facilities it offered, she would be willing to purchase them at the cost of annexation, and that was what they desired. At the head of that party was the late Horace Greeley. Again, when the Treaty was abrogated, Mr. Potter spoke for the class who believed that exclusion from advantages with which we had become familiar would cause a desire for annexation. Of the two, Greeley appears to have been nearer the truth. The only pronounced manifestation of annexation leanings showed themselves in 1849; and the annexationists of 1849 had a share in American commerce on equal terms for their creed. When the Americans brought the Treaty of 1851 to an end, in the hope of coercing our allegiance, they signally failed. The commercial connection had carried no political taint. Our autonomy was, on the contrary, far more pronounced in 1861 than it had been in 1854.

If we have once passed through the ordeal, which some sincerely dread, without injury, why should we not do it again? The new Treaty is more extensive. But is it not possible for our vessels to go from one American port to another without bringing back the contagion of Republicanism, of which no quarantine can cleanse them? What is there so attractive in this Republicanism that should make us fall in love with it? Let us imagine twenty years to have passed, and what will then be the probable condition of Canada? We may be six or seven millions of people; and even if the Americans continue something like their present rate of increase, any change in the relative proportions will be in our favour. The fibre of Canadian nationality will have hardened instead of being relaxed; and we shall be less liable to be moved by the attraction of a foreign power. Americans may have settled among us as manufacturers, wielding the influence of capital over labour. But nothing is so difficult as for a political propagandism to make way against the prevailing sentiment of the people; and nothing is so offensive as the intrusion of foreign and distasteful views. The power of such men as propagandist would be *nil*.

But it is argued that the Treaty would make us dependent on the Americans. In what way it would do so has not been explained. But we presume it is that we should be dependent on them for a market, in the double capacity of buyers and sellers; and that rather than forego the advantages of the commercial connection, we should be willing to merge our national life in that of the States. This is, in effect, saying that the question of interest will ultimately decide the destiny of this country; and if, for the sake of the argument, we admit this proposition, we have a right to ask for proof that it would be the interest of Canada to throw in her lot with the United States. We contend that our interest lies in the opposite direction; in evoking such a strong national sentiment as will save us forever from the effects of the dreaded political contagion. If we thought the Treaty would have the effect of destroying the autonomy of this young nation, its material benefits, whatever they might be, would have no attraction for us. We should, in that case give the Treaty an opposition as relentless as it would be persistent. But making every allowance for the unscrupulousness of the trading spirit, which is the most predominant feature of colonial history, we take comfort in the reflection that the class in whom motives of interest would overpower the political instincts natural for us as a people, would be too feeble to have it in its power to dispose of the destinies of the country.

Our position in reference to the Treaty is this. We cordially accept it, on the supposition that it can be amended in the particulars we have pointed out. If it cannot be amended, we reserve our right to take whatever course may be dictated by a regard to the general interests of Canada.

Prince Edward Island and Reciprocity.

(From the Summerside Journal.)

We copy the following article from the organ of the Opposition in Prince Edward Island—the Summerside *Journal*:—

We find that the English newspapers are again becoming interested in British American affairs. The Reciprocity Treaty has stirred the old country journalists to look into their geographies and to brush up their very slender store of knowledge on matters colonial. Some of them, no doubt, have for the first time become acquainted with the precise position of Montreal, and have discovered that Earl Dufferin is Governor General of the Dominion. It cannot be denied that they are making the most of their newly acquired knowledge. British newspapers contain long and profound articles on the nature of the Treaty, and on its bearings political and economical. These sagacious British journalists find in it much more than Canadians, without their assistance, would ever discover. They certainly can see as far through a political millstone as any wiseacres that ever tried to perform that not uncommon experiment in intellectual optics. And the fun of the thing is that some Dominion journalists treat these parblind oracles with as much veneration as if they were inspired authorities. If the ignorance of colonial affairs of the most respectable British writers had not been time and again demonstrated, this respect for their owlish utterances would be excusable. But their deference is only simulated, for when those same journals publish opinions which are adverse to theirs, they express their contempt for their ignorance in the plainest terms. It suits the Tory Press of the Dominion just now to echo the hastily formed conclusions of their British *confreres* with great faithfulness. They swear now by the *Standard*, and the *Saturday Review* has become with them an authority. Both these journals predict that Reciprocity will accelerate annexation, and annexation is the consummation most greatly to be dreaded by Canadians. How a participation in all, or the greater part of the benefits which would flow from annexation without our being obliged to shoulder any of the burdens which annexation would lay upon us or adopting the institutions of the country to which we would be annexed, is to convert the lovers of British rule into enthusiastic republicans, they do not pretend show. It is undeniable that the annexationists, be they few or many, who exist in the Dominion value the material advantages of union with the Great Republic much more highly than they do the political privaleges which they would gain by a change of allegiance. Give them freedom of trade with the United States, and they would live very contentedly for an indefinite period longer under monarchical institutions. Pull down the custom houses that are on both sides of the line, and let trade circulate between Michigan and Ontario as freely as it circulates between Michigan and Illinois, and Canadians with annexationist proclivities would forego their chances of becoming President of United America with a very edifying amount of resignation. They would see Manifest Destiny limp, or even come to a dead halt, with philosophical composure. Most of the annexationists are, we fear, like the rest of mankind, very mercenary creatures. They would be very well content to enjoy the fullest share of the United States trade, while they did not touch the United States burdens with one of their fingers. If this is the case, and very few will have the hardihood to say it is not, what have the truly loyal to fear from the Treaty? Can they not see that their alarm where it is real is causeless, and where it is affected, which, in the great majority of cases, it is, it will deceive no one who possesses the least discernment and who knows anything about the state of public opinion in Canada? Besides these Canadian alarmists are most inconsistent—their dreadful story does not hang together. With one breath they tell us that the treaty will be ruinous to Canada—that it will kill her manufactures, and throw most of her trade into the hands of the Yankees—and with the next they tell us that the Canadians will be so much in love with ruin that they will seek to be united with the country that has reduced them to beggary. One would suppose that if the Treaty does not work well in the Dominion—if opening to our manufacturers our merchants and our famers, a market ten times as great as that which they now have at home will paralyze the various industries of the country, and greatly impoverish the people—that Canadians would come to look upon the authors of their misfortunes as their worst enemies and seek by every means to widen the gulf that yawns between them and the Yankees instead of closing it up. It seems to us that if the Tory Protectionists are correct in their conclusions respecting the influence which Reciprocity will have upon the trade of the Dominion, and if they are anxious to cure any of their countrymen of any desire they may have for annexation that the best thing they can do is to let the horrible thing go into operation. Twenty-one years of financial distress would very effectually starve all desire for union with the United States out of the breasts of Dominion Annexationists, and make them more enamored of British connexion than are even the "trooly loil" themselves.

IMPORTANT TO LADIES OF FASHION

DRESSMAKING BEING THE ORDER OF THE TIMES.

J. W. RYAN

Has much pleasure in informing his numerous Lady customers and others that MADAME OLLIER, the celebrated Cutter and Fitter of Ladies' Garments, has arrived from her New York and Boston trip, and re-engaged with him to superintend his Dressmaking Department,

No. 234 WELLINGTON STREET

It will be remembered that Madame Ollier came direct from Boston last March to make arrangements with him, but was subsequently induced, by large offers for her valuable services, to go into an old established firm in Centre Town; but finding that she had made a change for the worse, again engaged with him. Madame Ollier's attainments in the art of Scientific Measurements enables her to ensure a perfect fit without putting her customers to the inconvenience of removing a single garment.

Bargains to be had at the Old Stand, 18 RIDEAU-ST. TRY ONCE.

Sept. 9, 1874. 3667

NEW

PLUMBING, GAS & STEAM FITTING SHOP,

No. 54 SUSSEX-ST., OTTAWA.

THE undersigned beg to inform the public that they have opened a shop at No. 54 Sussex-St., where they will be prepared to execute all work in Plumbing, Gas and Steam Fitting, intrusted to their care, at the shortest notice. Being first-class workmen, and having a large experience, all parties can rely upon the quality of our work. We are prepared to give our customers the benefit of all new improvements in the lines referred to. All work warranted for one year.

MASON & Co.

Aug. 28, 1874. 2505

THE PEOPLE'S TEA STORE

HOUSEKEEPERS, REMEMBER THE PEOPLE'S TEA STORE, 38 RIDEAU-ST., OTTAWA.

We are offering General Groceries, Wines, Liquors, and Provisions, (Teas and Sugar in particular) at prices that cannot be competed with in this city. Our Wines and Liquors are all of the best quality and our Goods generally guaranteed to customers. Protect your own interest; let not hearsay lead you to this place or that place. Try the Goods, and judge for yourselves.

P. BASKERVILLE & BROS.

COFFEE—Roasted and ground daily.

And a well-assorted Stock of FANCY GROCERIES!

At Prices to Defy Competition!

D. McDONELL

July 16, 1874.

The New York *Examiner* says: Every mother and housekeeper must often act as a family physician in the many illnesses and accidents that occur among children and servants. For many of these cases I have used Davis' Pain Killer, and consider it an indispensable article in the medicine box. In diarrhea, it has been used and effected cures. For cuts and bruises, it is invaluable. 3671

BRAIN WORRY.—Many of us pray to be delivered from sudden death, and do we not worry ourselves into it? And if we do can we not help it? "Men do not really die of Heart Disease as often as it is supposed, but of Apoplexy, or Congestion of the Lungs, so they do not die of brain work, but BRAIN WORRY. Scott died of it, Southney, Swift, Horace Greeley, and probably Thackeray."—*London Times.* As brain worry induces premature dissolution by its depressing influence upon the general nervous health, by eating the brain faster than the waste is repaired, and as the means of sustaining and increasing nervous health is no longer impossible; those who suffer the debilitating influence of mental anguish or extreme mental fatigue, need only resort to the preparation of Hypophosphites invented by Mr. Fellows, as that will conduct the subject safely over the rapids of despair, and create in him strength to grapple with every difficulty. This is no idle assertion but an established fact. 3671

THE SIMPLEST, CHEAPEST, AND BEST

Marking Apparatus in the World

For Marking COTTON, SILK, WOOLLEN, and LINEN, is

PAYSON'S INDELIBLE INK,

Used with a Common Pen without a preparation.

This ink flows perfectly: will write as easily on the finest muslin as ink on paper. It does not dry up, and retains its virtues longer than any other ink known. It will not injure the finest fabric. Payson's ink has endured the test of forty years, and is now the most popular ink in existence and is unrivalled for uniformity, of quality, and durability. It will mark more neatly, quickly and indelibly than any other apparatus. It requires NO PREPARATION of the fabric.

Price, 37 cts. per Bottle.

Sold by all Druggists, Stationers, and Fancy-Goods Dealers.

Sept. 14.

ROYAL CANADIAN

FIRE AND LIFE

Insurance Company.

POND'S EXTRACT

CURES

Rheumatism,	Scalds,	Lameness,
Neuralgia,	Burns,	Soreness,
Sore Throat,	Boils,	Wounds,
Hoarseness,	Ulcers,	Bruises,
Headache,	Piles,	Sprains,
Toothache,	Colic,	Old Sores,

All Hemorrhages,
Diarrhea,
etc.

POND'S EXTRACT

ARTERIAL blood contains the elements of Vitality and Nutrition, which is emptied into the capillary system and, after supplying the required nourishment, is sucked up by the minute branches of the venous system and carried back to the lungs for vital recuperation. By reason of much that is wrong in living and medical treatment, this stream of blood flowing through the body is not always pure or free from inflammatory particles, which may pass off by insensible perspiration through the skin or with the waste matter through the skin or with the waste matter through the intestines, but cold or wet may stop their outward escape, and the internal drainage may become inactive, when the corrupt particles are apt to coagulate, causing pustules, scalp eruptions or running sores, bronchitis &c. They may locate about a nerve, causing neuralgia, and by attaching themselves to the arterial tubes and veins, large or small, and inflaming them by their corrosive influence, cause those intensely painful sensations called Rheumatism. Nature struggles to drench out or dislodge if possible these corrosive particles, and the parts become very red from the congestion or pressure of blood therein. This is called Inflammatory Rheumatism or Rheumatic Gout. If nature does not succeed in washing out these acremonious atoms she withdraws the undue supply of blood from such parts, ceases to contend, and performs circulation as best she can; however, the passage of the blood through the affected channels still continues painful. This is Chronic Rheumatism, which may exist without its usual antecedant the Acute kind.

The above only true theory points out the correct treatment of this and other distressing maladies. Dissolve these corrupt particles that have lodged in the afflicted parts, so that in the circulation they may be carried off externally or internally, and having thus removed the cause the effect ceases.

The experiment of twenty years in the London Hospital, England, has demonstrated to the Medical Faculty of Europe, that the only medicine having control over this class of diseases, is the

DIAMOND RHEUMATIC CURE!

It is the result of a lifetime of scientific study and is now for the first time offered to the Canadian public, prepared by a careful, experienced and conscientious physician, in obedience to the desire of numberless friends in the profession, in the trade and among the people. Every bottle is warranted to contain the full strength of the medicine in its highest state of purity and development, and is superior to any medicine ever compounded for this terrible complaint.

A BLESSING TO THE POLICE.

MONTREAL, 18th June, 1874.

DEVINS & BOLTON:

GENTLEMEN,—Having been one of the many martyrs of rheumatism that I meet on my every day rounds, I was induced to try the celebrated DIAMOND RHEUMATIC CURE. I had suffered the last five or six weeks the most terrible acute pains across my loins and back, so severe indeed that I could hardly walk with the help of a stick. I commenced the Diamond Remedy—following the directions carefully. Relief came immediately with the first bottle, improved rapidly with the second, completely cured and freed from pain after finishing my fifth small bottle. You are at perfect liberty either to refer to me privately or publicly, as I feel very thankful for the relief, and sympathize with my fellow sufferers from rheumatism.

Yours respectfully,
J. B. CARDINAL,
Sanitary Police Officer,
51 Labelle street.

In simple cases, sometimes one or two doses suffice. In the most chronic cases it is sure to give way by the use of two or three bottles. By this efficient and simple remedy hundreds of dollars are saved to those who can least afford to throw it away, as surely it is by the purchase of useless prescriptions.

This medicine is for sale at all Druggists throughout Canada. If it happens that your Druggist has not got it in stock, ask him to send or it to

NORTHRUP & LYMAN,
Agents for the Province of Ontario,
Scott street, Toronto,
Or to DEVINS & BOLTON,
Notre Dame street, Montreal,
General Agents for the Province of Quebec.

Price $1 per bottle. Large Bottles $2.

May 18, 1874.

HOUSEHOLD FURNITURE BY PRIVATE SALE.

The subscriber has now on hand a house furnished with every requisite from a beautiful piano down to the plainest kitchen article, for sale by private agreement. The house is finely furnished, having a Baton made piano which took prize at Paris Exhibition, carved music stand, a handsome b w drawing room suite in silk rep, with window hangings to match, richly carved b w sideboard, card tables, ornamental and other what-nots, French clocks, under shade on handsome gold brackets, oil paintings, chromos, silk rep crimson hangings, extensive dining table, b w cane dining chairs, lounge in b w and hair cloth, silverware of the finest material and best workmanship, Rogers very best cutlery, case of desert knives, silver blade and handles, the best of carpets, rare and valuable ornaments. The bedrooms are furnished with the finest suites of b w and oak, hair mattresses specially made, b w wardrobes of best workmanship, wire mattresses, spring do., an extensive assortment of bed linen, table linen, and everything necessary for a well regulated house. Special mention should be made of the piano, and a Wheeler and Wilson sewing machine, silver mounted, which cost $150, hardly ever used. Hall furniture in oak complete, cut and engraved, glassware, china the very finest. The culinary department will be found complete. It is nearly new, and, in fact, is better kept than if in the warehouse. It will be sold together or by the piece to suit purchasers.

For particulars apply to

J. BERMINGHAM,
Auctioneer, Elgin St.

Sept. 10th, 1874.

SPECIAL ANNOUNCEMENT IN REAL ESTATE,

(By J. Bermingham)

A Great Bargain—Lot No. 55, corner of Frost and Spruce streets, opposite post office, Rochesterville, with a good two story Brick House thereon, nearly new, with all the necessary out offices and a never failing spring, to be sold very cheap and on very easy terms. Come and inquire price, it will astonish you, it will be sold before two weeks, some one will get a big bargain from

J. BERMINGHAM.

West ½ of Lot 27, south Rideau street, with a most comfortable Brick House thereon, rented for $200 per annum, has to be sold for half its value within fourteen days. It would cost nearly double as much to build the house now, as is wanted for house and ground. Such a bargain was never offered before in this city, some one should secure it at once. Apply to

J. BERMINGHAM.

Lots 37, South Maria, and 37 North Gloucester streets, 66 x 99 each, to be sold very cheap, and on very easy terms, a small sum only required down, balance in ten annual payments. There is a big speculation in this. Who will come first and purchase? One thousand dollars can be made on it before long. Apply to

J. BERMINGHAM.

A Lot 64 x 99, about 100 yards from Cummings' Bridge, outside City limits, thereby avoiding city taxation, very cheap, only $5 down, balance as may be agreed on. Apply at once to

J. BERMINGHAM,
York street.

Terms liberal. Apply to

A. TITUS.

Sept. 7, 1874.

BERKELEY, Sept. 1869.—Gentlemen, I feel it a duty I owe to you to express my gratitude for the great benefit I have derived by taking "Norton's Camomile Pills." I applied to your agent, Mr. Bell, Berkeley, for the above named Pills, for wind in the stomach, from which I suffered excruciating pain for a length of time, having tried nearly every remedy prescribed, but without deriving any benefit at all. After taking two bottles of your valuable Pills I was quite restored to my usual state of health. Please give this publicity for the benefit of those who may thus be afflicted.—I am, Sir yours truly, HENRY ALLPASS.—To the Proprietors of NORTON'S CAMOMILE PILLS.

CHRISTIAN BROTHERS COMMERCIAL ACADEMY.

This Institution was opened in 1872 under the auspices of our late lamented Bishop, Monseigneur Guigues. Its object being to prepare young men for the Counting House, nothing has been spared to facilitate rapid advancement in the various branches requisite to furnish such a position.

Electric Oil Thomas' Excelsior Eclectric Oil—Worth Ten Times its Weight in Gold.

Pain cannot stay where it is used. It is the cheapest medicine ever made. One bottle has cured bronchitis. Fifty cents worth has cured an old standing cough. It positively cures Catarrh, Asthma and Croup. Fifty cents worth has cured crick in the back, and the same quantity lame back of eight years' standing. The following are extracts from a few of the many letters that have been received from different parts of Canada, which, we think, should be sufficient to satisfy the most skeptical. J. Collard, of Sparta, Ontario, writes 'send me 6 dozen Dr. Thomas' Electric Oil, have sold all I had from you and want more now; its cures are truly wonderful.' William Maguire, of Franklin, writes, 'I have sold all the agent left, it acts like a charm—it was slow at first, but takes spendidly now.'' H. Cole, of Iona, writes, "Please forward 6 dozen Thomas' Electric Oil, I am nearly run out: nothing equals it. It is highly recommended by those who have used it." J. Bedford, Thamesville, writes—"Send at once a further supply of Electric Oil, I have only one bottle left. I never saw anything sell so well, and give such general satisfaction." J. Thompson Woodford, writes—"Send me some more Electric Oil. I have sold entirely out. Nothing takes like it." Miller & Reed, Ulverton, P.Q., writes—"The Electric Oil is getting a great reputation here, and is daily called for. Send us a further supply without delay." Lemoyne, Gibb & Co., Buckingham, P. O., write—"Send us one gross Electric Oil. We find it to take well.

Sold by all medicine dealers. Price 5 cents.

S. N. THOMAS, Phelps, N. Y.
and NORTHROP & LYMAN, Toronto, Ontario, Sole Agents for the Dominion.
Note—*Eclectric*—Selected and Electrized

JOB MOSES' FEMALE PILLS,

This well known medicine is no imposition but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, they contain nothing hurtful to the constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics and Whites, those pills will effect a cure when all other means have failed; and although a powerful remedy, do not contain iron, calomel, antimony or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully reserved.

For full particulars, obtain free, of the agent a pamphlet, or refer to advertisement.

JOB MOSES, NEW YORK, SOLE PROPRIETOR.

$1.00 and 12½ cents for postage, enclosed to Northop & Lyman, Toronto, Ont., general agents for the Dominion will insure a bottle, containing over 50 pills return mail.

For sale by all druggists. 25

THE FOLLOWING IS AN

Extract from a Letter

NORTON'S PILLS

Dated 15th May, 1872, from an old inhabitant of Horningsham, near Warminster, Wilts: "I must also beg to say that your Pills are an excellent medicine for me, and I certainly do enjoy good health, sound sleep and a good appetite; this is owing to taking your Pills. I am 78 years old. Remaining, gentlemen, yours very respectfully, L. S."

To the Proprietors of
Norton's Camomile Pills, London.
July 1874. 2411

VINEGAR BITTERS

VEGETABLE — FREE FROM — PURELY — ALCOHOL — DR. WALKER'S CALIFORNIA — EUREKA — VINEGAR BITTERS

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

The New York Tribune.

THE CONSOLIDATION OF ITALY! so long fragmentary and impotent, into one powerful State, with Rome as its capital; the humiliation of France through a series of crushing defeats, ending with the siege and capitulation of her proud and gay metropolis; the expulsion of the Bourbons from the Spanish throne, and the substitution for them of a scion of the most liberal among royal houses; the virtual absorption of the kingdoms of Saxony, Wurtemburg, Bavaria, with Baden, Hesse, the Hanse Towns, &c., under the headship of Prussia, into the triumphant and powerful empire of Germany; and the arming of Russia to re-assert her preponderance in the councils of Europe, or to prosecute her often postponed but never relinquished designs on the great city founded by Constantine, and the vast but decaying and anarchical dominion of the Sultan, all combine to invest with profound interest the ever changing phases of our tidings from the Old World. The *Tribune*, through trusted correspondents stationed at all points in Europe where great movements are in progress of imminent aims to present a complete and instructive panorama of events on that continent, and to mirror the prolonged struggle between middle age Feudalism and Ecclesiasticism on the one hand and Nineteenth-Century scepticism and secularism on the other. Recognising a Divine Providence in all that proceeds and is, it looks hopefully on the great conflict as destined (like our own recent convulsion) to evolve from strife, disaster, and seeming chaos, a fairer and happier future for the toiling masses of mankind.

In our own country, a war upon corruption and rascality in office has been inaugurated in our city, whereby the government of our State has been revolutionized through an initial triumph of Reform which surpasses the most sanguine anticipations. It is morally certain that the movement thus inaugurated cannot, in its progress, be circumscribed to any locality or any party, but that its purifying influence is destined to be felt in every part of the Union, rebuking venality, exposing robbery, wresting power from politicians [illegible], and confiding it in those worthiest and fittest to wield it. To this beneficent and vitally needed [illegible] the *Tribune* will devote its best energies, regardless of personal interests or party predilections, esteeming the choice of honest and faithful men to office [illegible] all New Departures the most essential and auspicious.

TERMS OF THE TRIBUNE.

DAILY TRIBUNE, Mail Subscribers, $10 per annum.

SEMI-WEEKLY TRIBUNE, Mail Subscribers, $4 per annum. Five copies or over, $3 each; an extra copy will be sent for every club of ten sent for at one time; or, if preferred, a copy of "Recollection a Busy Life," by Mr Greeley.

KEATING PERSIANS INSECT DESTROYING POWDERS.

This Powder is quite harmless to animals, but unrivalled in destroying Fleas, Bugs, Emmet Flies, Cockroaches, Beetles, Gnats, Mosquitoes, Moths in Furs, and every other species of insect in all stages of metamorphosis. Sold in packet tins, and bottles of various sizes.

CAUTION.—The public are requested to observe that all the above preparations bear the Trade Mark as herein shown. Sold by all Chemists and Druggists.

DR. DE JONGH'S LIGHT BROWN COD LIVER OIL. The distinctive characteristics which have gained for Dr. DE JONGH'S Oil so much celebrity, the entire confidence of the most eminent members of the Medical Profession, and notwithstanding the active and unscrupulous opposition of many interested dealers, an unprecedented amount of public patronage may be thus concisely enumerated:—

I.—Its genuineness, purity, and uniform strength are ascertained and guaranteed.

II.—It contains all the active and essential principles that therapeutic experience has found to be the most effective in the operation of the remedy.

III.—It is palatable, easily taken, and creates no nausea.

IV.—It is borne with facility by the most delicate stomach and improves the functions of digestion and assimilation.

V.—Its medicinal properties and remedial action have been found to be immeasurably greater than those of any other kind of Cod Liver Oil.

VI.—From the unequalled rapidity of its curative effects, it is infinitely more economical than any which is offered, even at the lowest price.

CONSUMPTION AND DISEASES OF THE CHEST.

The extraordinary virtues of DR. DE JONGH'S Light Brown Cod Liver Oil in Pulmonary Consumption may now be considered as fully established. No remedy so rapidly restores the exhausted strength, improves the nutritive functions or produces a more marked and favorable influence on the local malady.

The following high testimony to the efficacy of DR. DE JONGH'S COD LIVER OIL in Consumption is afforded by ALLEN G. CHATTAWAY, Esq., M.R.C.S., L.S.A., of Leominster:—

"Having for some years extensively used DR. DE JONGH'S LIGHT BROWN COD LIVER OIL, both in public and private practice, I have no hesitation in stating its effects are very far superior to those of any other Cod Liver Oil. Nearly four years since, two cases of confirmed Consumption were placed under my care. In both, the lungs were a mass of tubercular deposit, and every possible sound to be heard in phthisis was present. The sole remedy employed was DR. DE JONGH'S LIGHT BROWN COD LIVER OIL; and now the patients are strong and fat; the diseased (abnormal) sounds nearly inaudible; and in the one case (male) hunting, fishing, and shooting, are freely indulged in, the patient expressing himself quite capable of undergoing as much fatigue as any of his fellow sportsmen."

GENERAL DEBILITY AND EMACIATION.

In cases of prostration and emaciation, where the vital forces are reduced, and where life appears to be even at its lowest ebb, the restorative powers of DR. DE JONGH'S LIGHT BROWN COD LIVER OIL are remarkably manifested. By its administration the natural appetite is revived, and the functions of digestion and assimilation are improved, reanimated, and regulated; and, when its use has been steadily preserved in, its peculiar tonic and nutritive properties have entirely restored health and strength to the most feeble and deteriorated constitutions.

The actual benefit derived is thus described by ROWLAND DALTON, Esq., M.R.C.S., L.S.A., District Medical Officer at Bury St. Edmunds:—

"In giving my opinion of DR. DE JONGH'S LIGHT BROWN COD LIVER OIL, I have no hesitation in saying that I have not the slightest confidence in any other kind. The effects of DR. DE JONGH'S OIL are sure and most remarkable, especially in that broken down state of health and strength which usually precedes and favors tubercular deposit; and I never recommend any other sort. The Oil I have had from you was for my own use, and it has certainly been the only means of saving my life on two occasions, and even now, when I feel 'out of condition,' I take it, and like it, unmixed with anything, as being the most agreeable way. I could wish that DR. DE JONGH'S OIL would come into general use, and entirely supersede the Pale and other worthless preparations."

SELECT MEDICAL OPINIONS.

From innumerable medical and scientific opinions of the highest character in commendation of DR. DE JONGH'S LIGHT BROWN COD LIVER OIL, the following are selected:—

Sir Henry Marsh, Bart., M.D., Physician in Ordinary to the Queen in Ireland.

"I consider Dr. De Jongh's Light Brown Cod Liver Oil to be a very pure Oil, not likely to create disgust, and a therapeutic agent of great value."

Dr. David Smith, F.R.S., Medical Officer to the Poor Law Board of Great Britain.

"We think it a great advantage that there is one kind of Cod Liver Oil which is universally admitted to be genuine—the Light Brown Oil supplied by Dr. De Jongh. It has long been our practice, when prescribing the Oil, to recommend this kind, since, amidst so much variety and uncertainty, we have confidence in its genuineness." (Extract from "Consumption: its Early and Remediable Stages.")

Dr. Barlow, F.R.S., Sen. Physician to Guy's Hosp.

"I have frequently recommended persons consulting me to make use of Dr. De Jongh's Cod Liver Oil. I have been well satisfied with its effects, and believe it be a very pure Oil, well fitted for those cases in in which the use that substance is indicated."

Dr. Lawrence, Physician to H.R.H. the Duke of Saxe-Coburg and Gotha.

I invariably prescribe Dr. De Jongh's Cod Liver Oil in preference to any other, feeling assured that I am recommending a genuine article and not a manufactured compound in which the efficacy of this invaluable medicine is destroyed."

Sir Joseph Olliffe, M.D., Physician to the British Embassy at Paris.

"I have frequently prescribed Dr. De Jongh's Light Brown Cod Liver Oil, and I have every reason to be satisfied with its beneficial and salutary effects."

. Lankester, F.R.S., Coroner for Central Middlesex.

"I consider that the purity of this Oil is secured in its preparation by the personal attention of so good a Chemist and intelligent a Physician as Dr. De Jongh, who has also written the best Medical Treatise on the Oil with which I am acquainted. Hence, I deem the Cod Liver Oil sold under his guarantee to be preferrable to any other kind as regards genuineness and medical efficacy."

THE ROYAL READERS.

A NEW SERIES OF ILLUSTRATED ENGLISH READING-BOOKS.

From Mr. M. Patterson, Rector of the Free Church Training School; Moray House, Edinburgh.

"Thanks for the Specimen of your new Reading Books and Sheets. . . They are admirable in every particular. Nothing, in my opinion, would more contribute to the improvement of Education than the wide circulation of these books, and the intelligent handling of them."

From A. Montgomerie, L.L.D., Principal of Ladies' College Glasgow.

"I have examined very carefully the 'Printing,' and Nos. I., II., and III. of the *Royal Readers*, and have no hesitation in saying that they are, in my opinion, incomparably the best English Reading-Books that have ever been published. The adaptation of the means to the end in view is perfect."

From T. Morrison, M.A., Rector of the Free Church Normal School, Glasgow.

"I have very carefully examined the *Royal Readers*. The plan is excellent, and the execution, if I may say so, even better. They are out of sight the best series of Reading-books published and should very speedily be widely used. The Illustrations constitutes an admirable features and add much to the value of the *Readers*

PINE LANDS.

OVER 900,000,000 FEET, well located mainly on the rivers leading into Lake Michigan. The numerous streams and lakes surrounded with pine timber along the line west of Reed City, offer the best of locations for mills, where logs can be held safely free of expense and free from the annoyance of Boom Companies. The railroad direct to East Saginaw and Toledo offers the best source of supplies, and never failing market for Lumber Shingles, etc., which may be delivered anywhere on the line.

POSTPONEMENT.

FIFTH AND LAST CONCERT

In aid of the

PUBLIC LIBRARY OF KENTUCKY.

DAY FIXED AND A FULL DRAWING ASSURED,

—ON—

MONDAY, 30th NOVEMBER, 1874.

LAST CHANCE FOR

An Easy Fortune.

A postponement of the Fifth Concert of the Public Library of Kentucky has been so generally anticipated, and is so manifestly for the interest of all concerned, that it must meet the approval of all. The day is now absolutely fixed, and there will be no variation from the programme now announced. A sufficient number of tickets had been sold to have enabled us to have had a large drawing on the 31st July, but a short postponement was considered preferable to a partial drawing. Let it be borne in mind that

THE FIFTH GIFT CONCERT

Is the last which will ever be given under this charter and by the present management,

That it will positively and unequivocally take place as announced, on

MONDAY, 30TH NOVEMBER,

That the music will be the best the country affords, and that

20,000 CASH GIFTS,

AGGREGATING

$2,500,000

Will be distributed by lot among the ticket-holders.

LIST OF GIFTS.

One Grand Cash Gift		$250,000

NOTICE.

Morson's Effectual Remedies

Are sold by Chemists and Druggists throughout the world.

PEPSINE—The popular and professional medicine for indigestion is MORSON'S PEPSINE, the active principle of the gastric juice. Sold in Powder, Lozenges, Globules; and as Wine in 1 and 1 pint bottles.

CHLORODYNE is of such celebrity that it can scarcely be considered a specialty, its composition being known to practitioners. Many of the Chlorodynes being unequal in strength, MORSON & SON have prepared this. Sold in ¾ oz., 1½ oz., and 3 oz. bottles.

GELATINE—The purest preparation is MORSON'S.

Carefully packed and shipped. Orders made payable in England.

THOMAS MORSON & SON,
Medallists and Jurors at all the Great Exhibitions.

INSOLVENT ACT OF 1869.

In the matter of THOMAS AGAR, an Insolvent.

Will be sold upon the premises, by public auction, either together or in separate lots, on TUESDAY, the TWENTY-SEVENTH day of OCTOBER next, at the hour of twelve o'clock, noon, under and by virtue of the provisions in that behalf of the said Insolvent Act. All the right, title, and interest of the undersigned, as Assignee of the estate of the said Insolvent, to and in the following parcels of land or town lots, situate, lying and being in the City of Ottawa, in the County of Carleton and Province of Ontario which may be known and described as being composed of parts of lot number forty in the broken front on the River Ottawa, or Grand River, in the township of Nepean, in the County of Carleton, within the limits of the City of Ottawa, and known as Town Lots number four and six, in Block H, as laid down upon a plan or diagram of the said Lot number forty, made by one Donald Kennedy, for one John Le Breton, former proprietor thereof, and filed in the Registry Office of the said City of Ottawa.

Terms and conditions of sale will be made known at the time of sale.

For further information apply to the undersigned, or to Alexander Gibb, Solicitor, or to Messrs. Walker, Cassels & Pennock, Solicitors Ottawa.

EDWARD McGILLIVARY,
Assignee to the estate of said Insolvent.
Dated at said City of Ottawa,
the Sixth day of August, A.D., 1874.

Caution.

GENUINE PANCREATINE

PANCREATIC EMULSION.

The efficacy of these Medicines in the treatment of Indigestion, Bronchitis or Pulmonary Catarrh, Consumption, Wasting, &c., &c., depending entirely upon their purity and strength, Messrs SAVORY & MOORE caution the public against imitations of them which are put forth as possessing the remedial properties of the true preparations, but which are in reality either saponaceous compounds, ointments or pomades, without a trace of the Pancreatic principle and entirely unfit and useless as medicines. These imitations are calculated to produce serious disappointment and to injuriously affect the reputation which the Genuine Pancreatine and Pancreatic Emulsion have acquired. It is therefore highly important that purchasers examine the labels on the bottles for the names and Trade Mark

"SAVORY & MOORE,"

The Original and only Manufacturers, Chemists to the Queen, H.R.H. the Prince of Wales, H.I.M. Napoleon the Third, His Highness the Khedive of Egypt, &c.,

143 NEW BOND STREET, LONDON.

Extract from an Analytical Report upon a Foreign Specimen of a so-called Preparation of Pancreatine.

"This compound resembled an Ointment or [illegible] in appearance and consistence and was flavored with Essence of Almond or Prussic Acid. It was strongly alkaline, indicating free alkali, which, acting upon the fat, produced the usual saponifying result; the whole forming a granular moist mass of fat, soap, glycerine and water. This ointment was physically and chemically different from the true Pancreatic Emulsion which I have also examined, and which, besides being rich in Pancreatic juice, has the delicate smooth appearance and consistency of fresh cream, is palatable and readily taken."

To the Queen and Royal Family; To H. R. H. the Prince of Wales (special appointment); and to several Indian Potentates, Foreign Governments and Railway Companies, established 1749.

J. W. BENSON,

WATCH AND CLOCK MAKER, GOLDSMITH, SILVERSMITH, AND ARTISTIC METAL WORKER,

Prize Medallist of the London, Dublin and Paris Exhibitions.

Maker to the Chronograph, by which the Derby and all other Races and great events of the day are timed.

Manufactory and City House—58 and 60 Ludgate Hill.

West End Establishments—25 Old Bond Street, and 99 Westbourne Grove, London.

MERCHANTS, SHIPPERS and WHOLESALE BUYERS are specially invited, before sending their orders elsewhere, to obtain from the manufactory the Illustrated Catalogue of Watches, Clocks, Chains, Jewellery and Electro-Plate which are sent post free, as not only are the discounts liberal, but a selection can be made from the largest stock in the world.

Orders can be sent direct to the manufactory Ludgate Hill, or through merchants and shippers in England.

WATCHES	CLOCKS
Of all kinds, from 2 to 200 Gns.	Of all kinds, from 2 to 1000 Gns.
Lever, Vertical,	Church, Turret,
Horizontal, Duplex,	Carriage, Unique,
Chronometer, Chronograph,	Dining and Drawing room,
Keyless, Centre-Seconds	Hall, Shop,
Repeaters, Indian, &c.	Library, Bracket, &c.

English Ormolu Clocks, designed by English artists, and manufactured by J. W. Benson, which exceed in beauty those manufactured abroad. They can only be obtained at the above establishment.

FINE ART BRONZES AND CHIMNEY ORNAMENTS, of the newest designs, from Continental ateliers of the highest reputation, at moderate prices.

Artistic Gold Jewellery, of the richest and most exquisite designs, with Monograms, Crests and Devices, Enamelled in Colours, after designs of the most accomplished artists in the precious Metals, Brooches, Bracelets, Necklaces, Lockets, Rings, and all kinds of bijouterie, as supplied to members of the Court, and other distinguished personages.

Presentation Plate.—Testimonials of different sorts, Racing Cups, and Jewelled and other Boxes, as provided by Mr. Benson for the Corporation of London and other public bodies, to enclose documents conveying the Freedom of the City to the Prince of Wales, Duke of Edinburgh, &c., &c.

Silver and Electro-plate in the most recent fashions, and of the most durable make. In Electro-plate it is necessary to secure good materials and a sufficient coating of silver to resist daily wear and tear satisfactorily. No other is really cheap at any price, nor worth buying.

Watches and Clocks repaired by skilled workmen. Old Silver, Jewellery, Watches, &c., exchanged. Merchants, Shippers and Clubs supplied.

Watches, Clocks, Jewellery and Plate sent to all parts of the world.

Carriage and Sleigh FACTORY.

RIDEAU STREET, OTTAWA.

W. Stockdale & Co

PROPRIETORS

At this establishment will be found on hand, or made to order, the latest and most approved styles of

Coaches, Carriages, Omnibusses, ROCKAWAYS, BUGGIES AND SLEIGHS

Which in point of finish and durability are not surpassed in any market.

☞ All work warranted for one year, and all kinds of repairing carefully and promptly done.

A very large amount of new and improved machinery has lately been added, and as the whole is driven by steam power (the only establishment so supplied in this section of country), we are in a position to produce work more promptly and cheaper than any one else.

The proprietors are practical workmen and give personal supervision to all work.

A MYSTERY UNRAVELLED.

The Strange History of Rear-Admiral Sir William S. Wiseman—His Death at St Joseph, Mo.—Fate of A Strange Woman.

[From the St. Joseph, (Mo). Herald, Aug. 23

Our readers will remember that several weeks ago a gentleman who had registered himself as "William Chambers" died very suddenly at the Saunders House. Papers found upon his person satisfied the Coroner that this was not the man's real name, and his personal appearance indicated that he had occupied no ordinary station in society. These papers were kept concealed from the public gaze by the Coroner, who at once notified the parties he supposed to be interested in the facts of the case. A week or so ago, after the death, Dr. Trevor received a note from a Mr. Downing, who resides near Fairfield, Nebraska, stating that the deceased was Sir William S. Wiseman, Rear-Admiral of the British Navy, and that he was his agent, and asking that the papers and effects in the hands of the Coroner should be sent to him. This request Dr. Trevor refused to comply with, as he had no evidence of Mr. Downing's authority.

On Thursday last Dr. Trevor received a letter from a son of the deceased, Wm. Wiseman, Esq., Garrick Club, Garrick street, London, dated August 4. Yesterday he received another letter, in which the writer states that Mr. Downing had no authority to act in the premises, and asking that all papers and documents belonging to his father be sent to him. In this letter he renews his thanks to Dr. Trevor, and also to Dr. Runcle, rector of Christ Church, and others, for the attention shown to his father's remains. In compliance with this request Dr. Trevor sent all the documents by express to the son of the late Sir Wm S Wiseman.

And now come a few more developments in the case. Sir Wm. S. Wiseman left England hurriedly several years ago, came to the United States, and at once sought a home in the West. He first settled in Gage county, Nebraska, and purchased a considerable quantity of land on time from the B. and M. Railroad Company. He made the first payment, but failed to make the others, and the company claim that his title to the land is forfeited, although lawyers do not agree upon this question. Two years ago he took out naturalization papers, thus becoming a citizen of the United States, with the evident intention of making his home in this country.

For some time after he came to Nebraska the deceased led a very quiet life, carefully avoiding society, and seemingly intent only on improving the place he had purchased. In the course of a few years, however, he commenced visiting Lincoln, and while there he was accompanied by a brilliant, beautiful, dashy woman, who passed under the name of Annie Chambers. To her he devoted his life and soul. He was welcomed in society, and all his leisure hours were passed in her company. What the relations subsisting between them were the public never knew; but their intimacy was so marked that it created considerable comment among the good citizens of Lincoln. Upon this woman Sir William Wiseman showered gold, diamonds, silverware, and wealth of all kinds. His generosity seemed unbounded and his resources inexhaustible.

Then there came a change, and he seemed to tire of the society with which he had once been enchanted. He visited Lincoln less frequently, and then went but little into society. And then in a short time came the announcement of the marriage of Annie Chambers to Mr. Downing. The latter had assisted the baronet in the management of his Nebraska affairs. These parties settled down near Fairfield, and apparently lived happily together. Some months ago Mrs. Downing died, and her husband, of course, fell heir to her property, including the rich presents that had been made by Sir William Wiseman. A few days ago the diamonds, silver plate, &c., were sold by Mr. Downing, Mr. Peyton, agent of the St. Joseph and Denver Railroad Company at Fairfield, becoming the principal purchaser.

At Lincoln, last winter, a young fellow appeared who claimed to be the nephew of "Wm. Chambers." In reference to this, the son of Sir William Wiseman writes that his father had no sister, and no brother that had ever been married; and does not understand how he could have a nephew.

Four months ago Sir William Wiseman left for England, and passed some time there. His visit must have been a clandestine one, as the letters of his son, found upon his person, warned him to, under no circumstances, let his whereabouts be known. He was on his return from England when his sudden death occurred.

A special reporter of the *Herald*, who has been ferreting out the facts of this case, gives us the following particulars, which will explain the mystery:

Some time since a daring robbery was committed in London by one of the leaders of the *demi monde*, in this manner: The tradesmen had full confidence in her ability to pay all the debts she contracted, and on the strength of this she sent orders for specimens of costly jewellery, silks, satins, and in fact everything appertaining to a lady's wardrobe, from which she stated she wished to select. Instead of returning these specimens, she packed them up and left the country, it is supposed, in company with Sir Wm. Wiseman and his valet, Downing. They arrived at Lincoln, Neb., in due time, where they disposed of some of the jewellery and other valuables, purchasing land and stock with the proceeds. Assuming aliases, they settled down near Fairfield, Neb., all living together.

Some time after their arrival Downing and Annie Chambers were married, in consequence, it is supposed, of an altercation between Wiseman and Downing respecting her. A short time after the wedding she fell sick, no physician, or assistance of any kind being called, and died. After her death Downing claimed her personal effects, and proceeded to sell her jewels, etc., at every available opportunity. In the meantime, Wiseman and a man named Peachey had some trouble respecting eight hundred dollars, which Peachey claimed was due him. A diamond ring was pawned for a passage to England, and Wiseman, accompanied by Peachey started for that country, leaving Downing in possession of everything, for the purpose of obtaining some money which Sir William claimed was due him there. His return, death and conduct of Downey have been faithfully recorded. The above facts were gathered from parties living in the neighborhood of Wiseman's residence in Nebraska, and are, as near as we could learn, reliable.

A YATES COUNTY ROMANCE.

An American Girl Succeeds to a Title and a Fortune—A Secret Marriage.

From the Elmira Gazette Aug. 21.

Not long since there was published in the *Gazette* an allusion to a romance which had for its home the village of Dundee, in Yates County. Since that time new and important developments have appeared in connection with that story, and we are now enabled to lay before our readers something of a connected narrative of the events hinted at.

In 1865 a gentleman of high birth and great wealth in England came to this country, to travel for pleasure and to study the scenery and people of the New World. A lover of nature in its most varied and picturesque character, he spent some time in central New York, going about our beautiful lakes, and tarrying about their highly cultivated shores. In these rambles he came to the quiet village of Dundee, where he made a home for some time with a Baptist clergyman named Currier. While there he fell into companionship with the daughter of a well-to-do gentleman named Bliven. The girl was at that time sixteen years of age, handsome, engaging and sensible. The acquaintance soon ripened into a sort of romantic friendship, and at last the foreigner, whom we may as well designate by his proper name and title—Sir John Gordon Talmadge—offered his hand to Candace, which was accepted. The direct narrative is to the effect that the two were united by the Rev. Mr. Currier, who was pledged to secrecy concerning the marriage for the term of one year. The parents of Candace were not informed of the action of their daughter, nor did the knowledge of

THE SECRET MARRIAGE

come to any of the villagers. Soon after the wedding, Sir John left his young bride and returned to his home across the water, having promised to record the marriage in due form as soon as he should arrive, and having additionally promised that he would return within the year and take his wife to England. The year went past, and Sir John did not come. Meantime Rev. Mr. Currier, the only person in America besides the young wife who knew of the transaction, died, and his secret died with him. Another year passed, and five, then ten, almost twenty, and still the waited-for husband did not return to make good his promise, nor did any tidings, we understand, reach the ears of Candace concerning him. At last, in March last, we believe, through the instrumentality of a personal advertisement in one of the New York papers, the long silence was broken, and tidings for which the Dundee bride, now grown to almost middle age, had so long waited, were received.

DEATH OF SIR JOHN GORDON TALMADGE.

It appears that the return of Sir John to England without his American wife was for the purpose of arranging matters satisfactorily with his parents, who he knew would be indisposed to receive his bride if she were taken to them without prior knowledge of their son's step. Shortly after his return home it happened that while out riding with his mother one day the horse took fright, ran away, threw the two out, killing his mother, and very seriously injuring Sir John. From this affliction, however, he recovered partially, and in due time set out for America to reclaim his wife. As if adverse fate directed his every movement, when he reached Liverpool he was taken severely ill, and for a long time he lay vacillating, as it were, between life and death. Though recovering, his illness so preyed upon his mind that he became demented, in which condition he lived all these years, unable to make known the object for which he was journeying when sickness overtook him.

In the latter part of last winter sanity strangely returned to the afflicted man, but only for a short interval before death relieved him of that life which had been a burden. During this lucid interval recollection of his secret wife in Dundee was uppermost in his thoughts. He made known to his brother, now Sir Alfred Talmadge, the true story of his marriage in this country, willed his immense fortune of $100,000, half to his brother and sister, and the other half to his wife in case she might be found alive. He further pledged his brother to send a special messenger to America for the purpose of hunting up his wife.

HUNTING THE BRIDE OF TWENTY YEARS AGO

In pursuance of these pledges, a messenger was as early as possible after the demise of Sir John, despatched to this country with instructions to find the bride by advertisement or by personal search. The advertising was done, as we have seen but the messenger, following the directions given him by the husband before death, came from New York to Dundee, soon after landing. At the latter place he found the parents of the lady, who directed him to Elmira, where she was then visiting. This was in the latter part of May last. On arriving in this city the messenger inquired for the residence of Charles Rowland, brother-in-law of the lady whom he sought. He repaired to that gentleman's residence, 457 East Water street, where he found the long waiting and long sought bride of twenty years ago. The lady happened to be alone at the time the messenger called. The commingling of astonishment, pleasure and sorrow, which contended for mastery as the sadly romantic history of her long ago bridegroom was unfolded, can be better imagined than told.

LADY TALMADGE.

Soon after this denouement Mrs. Talmadge went to Washington, where she is now living with another sister. Mrs. Rowland was at first reluctant to say much about the affair, but she finally talked freely and interestingly concerning her master's romance. She stated that the messenger from England left with her sister a considerable package, also letters and documents from her late husband. She said Candace talked little about the strange event, and it was probable she had gone to Washington for the purpose of avoiding impertinent inquiries. Mrs. Talmadge had expressed herself entirely satisfied with the results of the strange messenger's visit, but whether or not the documents contained a conveyance of the half of Sir John's estate, as it has been said he left it, Mrs. Rowland was not prepared to say. It is understood by her friends that she will before a great while be visited by her brother-in-law, Sir Alfred Talmadge, with whom she will go to England to possess her vast estate. The sister who shares equally with Sir Alfred also married against the parents' wishes. Her husband's name is Stanley. The last known of them they were at Key West, Florida. It is understood the surviving brother has instituted a search for this sister. Should she be found, it is likely a reunion of the family, including our Dundee girl, will be had.

HOW THE SECRET WAS KEPT.

Lady Talmadge's sister states that the clergyman who performed the secret marriage twenty years ago, came to her father's house two or three times during the year of pledged secrecy, evidently determined to reveal what he had done. His manner is now remembered to have been singular, but at the time it attracted no unusual attention. He was a Baptist clergyman, and the Blivenses were Presbyterians, and at the time we speak of no relations socially required the singular calls from the former. It is also stated that the secrecy was maintained at the solicitation of the bride, the husband having urged her to go with him to her home and make known their new relation. This she refused to do out of respect for his wishes respecting his own family. A correspondence was maintained after Talmadge left, but Candace was always careful to dispose of the letters, and steadfastly retained her secret locked in her own heart.

HEART DISEASE.—Halifax, Feb. 10, 1872 Mr. James I. Fellows—Dear Sir: In order that some other sufferer may be benefited, you are at liberty to give this letter publicity. In the winter of 1869, I was taken ill with Disease of the Heart, accompanied by violent palpitation, and from that time gradually became weaker, notwithstanding continued professional attendance, up to a few weeks ago, when your Compound Syrup of Hypophosphites was recommended to me. The use of it during a very short time enabled me to resume my usual work, and now I am as well, fat and hearty as I could wish to be. Yours, very truly, W. Frank Cochran. The heart being a great muscular organ requires vigorous nervous force to sustain it. As Fellow's Hypophosphites restores the nervous element, it will always strengthen the heart weakened through loss of this element.—The Inventor. 265

The Ottawa Times

TUESDAY, SEPTEMBER 15, 1874.

On Thursday next the Quebec Board of Trade meet to consider and discuss the proposed Reciprocity Treaty.

It is understood that His Excellency the Governor General, and *suite*, will visit the Show Ground of the Agricultural Society on Wednesday afternoon, and will lunch with the Directors.

It is rumoured that Captain Neelon, partner of Captain Norris, is to be the Reform candidate in opposition to Charlie Rykert at the forthcoming Local Election. It is also said the St. Catharines Tory prints are preparing for the occasion a new song and chorus entitled "Good by Charlie."

The sad intelligence of the demise of a son of the Hon. D. Christie, Speaker of the Senate, has reached this city. Mr. Christie had consented, at the request of the directors, to act as a judge at the Central Fair, which begins to-day, but this untoward circumstance will prevent him fulfilling his obligation in this respect. Much sympathy is evinced on all sides for the Hon. Speaker in his sad bereavement.

We understand that the Committee which has been sitting for the last five days to investigate the charges preferred against Mr. Arnoldi, Mechanical Engineer of the Department of Public Works, concluded their examination of the witnesses last evening, and will lose no time in sending in their report to the Minister of Public Works. We understand that the charges have been in no way substantiated.

It is stated that counsel for the respondent in the North Renfrew Controverted Election trial has thrown up the sponge. Peter White—a good square Tory—gone by the board! Also, poor Peter, his friends will surely deny him, they are such pure-minded, high-toned politicians, since they got the Pacific Scandal money. It is said, however, that nobody is willing to accept this sponge, and an attempt is going to be made to disqualify Peter. We repeat. Poor Peter!

The admirable manner in which Chief Justice Dorion has discharged his duties since his elevation to the Bench of Quebec has elicited the most unqualified approval of the bar of that Province, as well as the laudations of the press. His care and clearness are much admired and justly praised, and he is looked upon as the best Chief Justice Quebec has had for twenty years. It is noticed as remarkable that since he commenced the active discharge of his duties, the Court has been almost invariably unanimous in its decisions.

It is rumoured that Mr. M. C. Cameron, leader of the Ontario Opposition, admitting the practical impossibility of being again returned for his present constituency, and determined if possible to die hard, is to offer for West Toronto. He will of course be defeated, as the Hon. Mr. Crooks the sitting member for that Riding, is much and deservedly admired by his constituents, who have recently declared in their election of Mr. Moss to the Dominion Parliament, that they are entirely Liberal in principle.

A circular letter has been forwarded to the various Metropolitan Boards of Guardians of London, England, by the Rev. T. Seddon, Secretary to Archbishop Manning, inquiring if the Boards are willing to allow some of their Roman Catholic pauper boys to emigrate to Canada, under the auspices of a Roman Catholic Society, established for the purpose, and, if so, inquiring what amount of assistance the guardians would be inclined to afford for outfit, &c. At the City of London Union and other boards, much hospitality was manifested, and the subject was deferred for further information from Mr. Seddon.

From a comparative statement of the increase per cent. within the decade ending 1870, of the population of each of the principal cities in the Dominion, published in another column, it will be seen that while they are collectively and individually growing very rapidly, Ottawa has outstripped, as it doubtless will continue to outstrip, its most successful rival by fully seven per cent., the next by ten per cent., and the large majority by about twice the latter rate. It is to be hoped that our Corporation will take a note of this and profit by it, in whatever steps they may hereafter take for regulating the improvements and the character of the erections in the central portions of the city.

The Very Rev. Dean Bond of Montreal has, in the Lower House of Convocation, given notice of a motion to the effect that that body deeply deplores the crisis in which the Church in Canada stands, and the indications of schism which have unfortunately manifested themselves, arising out of dissatisfaction at the introduction of practices in the Church contrary to the simplicity of the Protestant form of worship, and that their Lordships the Bishops be earnestly requested to devise some means by which such practices may be suppressed and uniformity established in the services of the Church in Canada. No doubt the motion will excite considerable discussion in the Lower House, but the probability is that even if carried, it will receive but little formal attention from those to whom it is addressed. Whether wisely or otherwise, it would appear that the higher dignitaries of the Church have determined to treat what they term the recent "schism" with silent contempt. It is questionable, however, whether this is justifiable, in view of the dissatisfaction which, instead of abating, is increasing among the anti-ritualistic party in the Church, and the somewhat gigantic proportions the Reformed Episcopal movement is assuming.

Le Courrier du Canada announces that on the forthcoming two-hundredth anniversary of the erection of the Diocese of Quebec, His Holiness the Pope has been pleased to elevate the Cathedral of Quebec to the rank of a *minor basilic*, and that on the same occasion he will present to the new basilic a splendid Mosaic painting of the Virgin. The same journal also states that a new convent is being erected at St. Laurent, Island of Orleans. It is also reported that the Bishop of Quebec is soon to be elevated to a more exalted rank in the Church. The Church journals state further that the annual retreat of the vicars of the archdiocese of Quebec commenced this day week at the Archbishop's palace, and that a public testimonial is to be presented to the new bishop elect, Mgr. Racine, of Sherbrooke. Subscriptions to that effect are now being collected by one of the founders of the *Courrier du Canada*, to which Mgr. Racine, one of the most talented writers, was a regular contributor. The new bishop was born at St. Ambroise, near Quebec, on the 26th January, 1822, and was ordained priest at Quebec in 1844 after a brilliant course of study at the Quebec Seminary. He was appointed Vicar at Malbaie in 1844, Curate and Missionary of St. Louis de Brandford, of Blustrode and Stanfold in 1849, Curate of St. Joseph de la Beauce in 1851, and Rector of St. John's Suburbs Church in 1853.

Grip has an excellent, well executed cartoon this week, entitled the "Cheif Mourners." It represents the Ontario Opposition quartette—M. C. Cameron, Rykert, Lauder, and Boultbee—all gathered, with long crape to their hats, and rigged out in heavy mournings, for the purpose of attending the funeral of "Little Mrs. ———," the defunct. Of course the fact that this important little personage is *non est* causes the utmost grief and sorrowing to the hard up quartette, who hoped to make a point against "Mackellar" by keeping up the delusion of her existence, and they are shedding great big tears over the prospect of her removal. Little Charlie, with that famous scrap book which is said to contain his brains, under his arm, is perched upon the coffin, with his handkerchief in one eye and salt tear in the other, while his pants, which have evidently been made for somebody else—how Charlie came to be possessed of them we are not informed—turned up at the bottom to keep them out of the gutters. A picture of the Hon. A. Mackellar is exhibited close by, and the ominous sign of Ewing & Co., "undertakers," looms up, just as much as hinting that these gentlemen have been the death of poor "Little Mrs. ———" and the whole hungry, howling family which depended upon her for political existence. The likenesses are excellent, and the idea good. There is a journal in London, however, which does not care for this pill, and is as a matter of course, determined to put an end to *Grip*. We shall see who dies first.

The *Manitoban* of Saturday, Setember 5, published two days after the Provencher nomination, which took place on the previous Thursday, says nothing of Dr. Bown being a candidate for Provencher in opposition to Riel, but mentions one of the name of Berthelot as being in the field against him. Curiously enough it gives the same story regarding Berthelot's nomination, or rather the informality of the nomination, that was reported regarding that of Dr. Bown. From the Manitoba *Gazette*, which comes to hand at the same time as the *Manitoban*, but dated the 2nd inst., we can learn nothing definite as to who was Riel's opponent, and the question as between the correctness of the press telegrams and the statement of an organ hitherto supposed to be in the confidence of Riel's party, seems rather undecided. It may be mentioned in this connection that Mr. William Coldwell, formerly a junior partner of the late Mr. Cunningham, has now become sole owner of the *Manitoban*, he having purchased the interest of the late member for Marquette in that property. Mr. Coldwell is a gentleman well known to the members of the press of Ontario, and the *Manitoban*, under his management has long been noted for the excellence of its typographical appearance and the good literary standard attained in its editorial columns.

A LIBERAL CONSERVATIVE CONVENTION.

There is to be a Liberal Conservative convention at Toronto some time, and is is going to be a grand affair as ever was seen. Only fancy, a grand convention called for the purpose of directing "the "government of the country into purer "and healthier channels" than heretofore! Of course we understand what all this means. It means that the Tories of Ontario are going to have a gathering of their broken fragments together—an imposing array of gaping ganders, blinking screech-owls, and brainless skulls. There will be short work with the viands there, for all the ghouls on the other side of the grave and all the ravens on this side are sure to be present. An invitation so general and pressing as that extended to each and every croaker in Christendom through the columns of the *Mail* on Saturday last, could not fail to attract all the plunderers within hearing to that Convention. It is the old story of the carcase and the eagles. Only to think of all the great men and good things to be seen and tasted there, would make the teeth of an epicure water. The great Charlie Rykert—of course he will be there, not in his crape and mournings, not with a salt tear in his eye, but with a smile on his bland countenance, and enveloped in a new suit made out of Mr. McKellar's counterpane. It is said that Charlie either got or took this memorable article to himself, and thinking it much too coarse in texture for the money paid for it, and being, moreover, like a good patriot that he is, determined that the country should be refunded those fifty cents, he had it made up as a suit of clothes for himself, consisting of a nectie, a dressing gown, and a winding sheet. He will also exhibit a model of the new Central Prison, will initiate the greenhorns of the party into the secret of creeping through key-holes into private bed-rooms, and will show to a limited number of the faithful—by special request, of course—a *bona fide* picture of the late lamented "Little Mrs. ———" together with a few of the most interesting records of the Court of Chancery, containing a number of charming episodes in his own eventful life. He will then dance a Can-Can to the new air specially composed and arranged for the occasion, entitled, "Good-bye Charlie," will distribute his brains—*i.e.* his scrap-book—gratuitously among the wondering beholders, and, dropping his mantle—made out of the counterpane—upon "young Mr. Hawkins," of Brantford, will disappear in the ethereal blues, from which it is supposed he will never return, on account of the congenial nature of his new associates. Then the illustrious Lauder will appear in a new drama entitled "Proton," where he will exhibit the easiness with which a pettifogging lawyer can pay a subscription of a thousand dollars to the building of a new church, and how, "all by the turn of the wrist," you can by simply crying "presto" make a client's money fly into your own pocket. He will also appear in the comic farce entitled, "The dog and the bone," in which Mr. Blake, as Premier of Ontario, with a masterly sneer, exclaims: "I threw the dog the bone," and suiting the word to the action throws. Lauder then representing the "dog" with a force and finesse which will be positively inexpressible, will go through the ordeal—very trying of course to a man of his keen sense of honor—of picking up the bone, which it may be here explained represents a certain office, that according to the Independence of Parliament Act, it requires a special enactment of the Legislature to enable him to hold. In every case the Hon. Archibald McKellar will appear as his *bete noir*, and honesty and truth, two gentlemen more spoken about than known, will be his rocko-a head. In all the parts he will imitate to the very point of perfection the character of a pot-house bully. He will suddenly disappear by the back door, and the audience will suddenly forget his existence, which of course is a part of the play. The poet Laureate of the party—that young man up at Barrie who sang in such dulcet strains a welcome to the Governor General—will compose a requiem to his memory and perform it some time next year, in the presence of his sorrowing constituents in South Grey. Then Mr. Boultbee will exhibit his dictionary of Billingsgate, and recite some choice passages from its pages, while Mr. M.C. Cameron, having ascended the rostrum for the last time—positively—will show indisputably that the sale of the Pacific Charter was an honest and honourable transaction, will then make his retiring bow, and depart from this political life.

Of course, when they speak of the Government, everybody knows that they mean the money; and as to the "new channels" into which it will be directed, their diversions with public money in the past will give some indication as the portent of that phrase. Where was the money paid for the Pacific Charter diverted, and where did the price of the piece of land at the Tanneries go? Such are the "channels" into which the people's money is proposed to be diverted if our Tory friends can get a hold of it. Aye, but there's the rub. They are not likely to get the hold, for the next six years at any rate.

THE EXHIBITION—TO-MORROW AND NEXT DAY.

From present appearances, both as regards the entries and the appearance on the grounds last night, the Exhibition to be opened to the public to-morrow morning, will be equal if not in advance of any yet held at this city. Every stall and horse-box had been taken last evening, and one-half at least were occupied by the respective bovine, porcine, and equine inhabitants. A large number of these animals have come from the farms of Sir William Logan (Montreal), entered by Mr. Irvine; and from Mr. Rodden's farm at Plantagenet. The scene last evening at the Exhibition Hall, too, was lively, many of the exhibitors laying down their goods thus early with a view of claiming ground and making the best display possible. Mr. Eaton, one of the Directors, with a staff of assistants was busily engaged in this way up till dark last evening. The building has been tastefully decorated. Outside a considerable quantity of machinery, all coming from a distance, was being spread around the grounds. On the whole we fell warranted in stating that a very great success awaits the efforts of the managers in the coming Exhibition.

The following directions should be observed by those intending the display of their goods within the Hall, namely:—Goods for the building must be in position by noon to-day, as the Judges begin the awards at 2 p. m. The only exception to this rule is in the case of flowers, which may be taken in any at time before 8 a. m., on Wednesday. This exhibitors should note. Machinery and all descriptions of stock may be taken on the grounds at any time to-day, and will be judged on Wednesday, the machinery and miscellaneous goods; examiners commencing duty at 9 a. m., and those on stock at 10.

From this it will be seen that the public would do well to wait till Wednesday ere visiting the grounds, although we are authorised to say that parties going out late in the afternoon will be admitted if the awards have advanced sufficiently to allow the gates being opened. On reference to the special prize list, in another column, it will be seen that a gold medal has been added for the best fatted ox or steer, thus making two gold mbdals in the valuable list of special prizes to be competed for.

A Beautiful Horse.—There is nothing hat can contribute so much to render the horse beautiful and elegant, to improve his condition and make him all that is desirable, as "Darley's Condition Powders and Arabian Heave Remedy," it has been used by many persons who own valuable carriage and other horses with decided success, and so well pleased are they with it that they always keep it on hand in case of emergency; it may be given at all times with perfect safety. Remember the name and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Toronto, Ontario, proprietors for Canada. Sold by all medicine dealers. 3671m

CITY AND VICINITY

Much Needed Repairs.—New planks are being substituted for the old ones on the bridge over the creek adjoining Little's grove, on the Bank street road The improvement has come in a very opportune time, on the eve of the holding of the Central Fair, as during the ensuing three days there will be an immense traffic on this road between the city and the Agricultural Show grounds.

Tara Hall.—Mr. P. O'Meara, who has for some time past been seriously contemplating a retirement into private life, has given effect to his intentions by the purchase of the late residence of Capt. Bradley, on the Montreal road. Mr. O'Meara intends fitting his new Mansion up in the most comfortable and luxurious manner. The new villa will receive the somewhat select name of "Tara Hall."

A Lunatic.—A lunatic woman occupied one of the cells of the police station last night. This seems a tough place for any criminal let alone a lunatic. It is altogether an unseemly place for people so afflicted, and it would be well if the Police Commissioners took some steps towards avoiding the incarceration of women, under any circumstances, in such a pestilential hole. It is high time the new City Hall was under way, if it were only to have a new Police Station.

Dufferin Bridge.—Now that Dufferin Bridge is complete, would it not be well to have it lighted up. On a dark night people prefer to travel on the old bridge, with all its inconveniences, rather than risk themselves over a structure destitute of lights It would be well to have the proposed lamps placed in position at once, as there is positively great danger in so many crossing the Sapper's Bridge in its present unsafe condition.

More Rifle Matches.—At the close of the Dominion Rifle meeting, the Guards Match will come off, and at its conclusion the Metropolitan Rifle Association will hold their annual Rifle Meeting. This will afford ample opportunity for the crack shots from all parts of the Dominion who are now assembling at the Capital. Some very valuable prizes will be offered, and no doubt there will be a very keen competition throughout the various matches.

A New Fire Engine.—There arrived this morning from Montreal, a large Babcock chemical fire engine, with hook and ladder waggon, with all appliances attached. The waggon has on each side four portable extinguishers and seven buckets. The whole affair is handsomely got up, and if it only bears out the proverb of "handsome is that handsome does," the machine ought to do good work. It will be exhibited practically at the ensuing show.

Commendable Enterprise. — The Montreal Telegraph Company with their usual enterprise, have opened an office at the Rideau Rifle Range, for the benefit of those attending the annual meeting of the Dominion Rifle Association, to be held during the present week. This will prove a great boon to the volunteers, who have come from all parts of the Dominion as well as those who may be in attendance as spectators.

Advertisement.—The "Babcock" Manufacturing Company purpose showing the capability of a large engine of their make of putting out a fire, at 3 o'clock on Wednesday afternoon on the Exhibition Grounds, Bank street—a house 15x20 built purposely, filled with all kinds of inflammable material, will be fired, and on being directed to extinguish the fire, the operator will endeavour to do so. 3781in3

Boswell's Ale is getting ahead. Messrs. Rattey & Aviss, Agents for the above celebrated Quebec Ale, have succeeded in getting 1.700 orders. It shows that the Ottawa people can appreciate a good article. The Agents Office is Victoria Chambers, 600 Wellington, near O'Connor street.

Arrivals at the Russell House.—Dr Brouse, Prescott; J N Brown & Son, Ogdensburg; C Henwood & Son, Prescott; J Bayson, Mansfield; J H Bunnets, Pembroke; D McLarkin, Arnprior; F Francis, Pakenham; C Kauffman, Lt Col Bacon, E Stark, J C Robinson, Montreal; C Haynet, Toronto; M O'Meara, Portage-du-Fort; Major Mattice, Brockville; W C Evans, Kingston; Lt Col Jackson, Brockville; S McDougall, Renfrew; J M Varnum, T E Turner, New York; S Thomson, C Graeme, Scotland.

The Rideau River.—The Rideau River is very low just now, and is fordable at almost any part. The rapids adjoining the range are completely denuded of water, and present a very rugged appearance. No one viewing the river in its present state could imagine it possible that it would become a surging stream carrying bridges and even houses in its track. The autumn rains will, however, soon change its now somewhat unnatural appearance. Below Cumming's bridge the bottom is filled with the offal of slaughter houses and barrels of night soil which reflects lasting disgrace on both the civic and county authorities.

The New Bishop.—The report that has for some time been current as to the Rev. Father Duhamel, of St. Eugene Parish, being appointed Bishop of the Diocese of Ottawa, was fully confirmed on Sunday last, by the Very Reverend Vicar General Dandurand, who announced that he was about to receive the appointment. Mr. Duhamel will shortly be inducted to the Episcopate, and when consecrated, will be the youngest Bishop in America, he being only 33 years of age. Addresses from the different socities are in the course of preparation for presentation to the new bishop when he assumes the seals of office. It is understood that Father Pagnet, deputed by His Holiness the Pope, will be present in the city at the ceremonial, and perform the usual rights on so auspicious an occasion.

Rich Diggings and Plenty of Them.—Gov. Bramlette, of Kentucky, displays the richest and most extensive diggings that have been discovered for a long time. Those grand diggings are to be found in the Grand Gift Concert of Public Library of Kentucky of which he has charge, and which takes place November 30th, at Louisville, Ky. The four that have already taken place were grand successes, and this, the *last one*, will be the most successful of all, as it is the largest. There will be $2,500,000, in *cash* distributed to the ticket holders. There are only 100,000 tickets, in all, with 20,000 prizes, or one prize for every five tickets, and such sums as the following are embraced among the grand prizes: $250 000, $100,000, $50 000, $25,000, $20,000, &c., &c. Application should be made at once to Gov. Bramlette, at Louisville, as there is a rush for tickets from all parts of the country, and from Europe. 3672.

Pugilistic.—A somewhat serious pugilistic encounter took place yesterday afternoon between two women on McTaggart street, adjoining the railway track, just as the afternoon train was coming in. The one was an able bodied woman and is favorable known by the cognomen of the *Grand Trunk*, and the other was a grass widow of less physical proportions than her adversary—a feature much to her disadvantage, as the sequel will show. The female population of letter O, together with a myriad of ragged urchins hung around the combatants with as much complacency as would the same number of blacklegs around the ring of a prize fight. The encounter was of short duration, as the heavy hitting, right out from the shoulder of the *Grand Trunk* told pretty heavily on her less muscular opponent. The latter left the field gushing with tears and staggered a sufficient distance from her triumphant enemy to escape any further injury at her hands. The whole affray originated from a dispute, as to which was the rightful owner of a bottle of whiskey that happened to be in the premises. The successful combatant having vanquished her adversary now lays claim to the poteen.

City Council.—A special meeting of the Council was called for last night to consider the proposed new fire by-law, but there being no quorum, the Council adjourned *sine die*.

Personals.—Lieut. Col. Jackson, Deputy Adjutant General, and Major Mattice, Brigade Major of Brockville, arrived in the city yesterday and are staying at the Russell House. Lieut. Col. Bacon, of Montreal, has also arrived and is stopping at the same hotel.

Hymeneal.—Mr. John A. Perkins, a prominent legal gentleman from Montreal, was in this city yesterday, being on his way to Aylmer to attend the marriage of his brother, who is about to lead to the hymeneal altar Miss Charlotte Conroy of this quiet suburban retreat.

Water Works By-Law. —Yesterday, little or no interest was manifested in voting for the By-Law to raise a further loan of half a million dollars for the completion of our system of water works. Most people doubtless thought, now that they had commenced the work, it would be utter folly to prevent their completion. The result of the vote yesterday is reported to be 78 for and 5 against the By-Law.

A Nauseous Smell.—Some vegetables, in a state of putrefaction, near the corner of Rideau and Sussex streets, were the subject of much comment last night by pedestrians. Green grocers, as a rule, get troubled in this respect, being somewhat analogous to their friends the proprietors of private butchers' stalls. The proposed market improvements will doubtless remove from the public streets, to their legitimate sphere, vendors of vegetables and meat.

New Dry Goods House.—The attention of our readers is directed to the advertisement of Messrs. Maclaren & Chalmers in another column, who have succeeded Mr. Metcalfe in the dry goods trade. The stock just purchased is offered at an extremely low figure to make room for their new stock, carefully selected in the best European markets. In addition to their extensive stock of dry goods, they offer great inducements in their tailoring department. Remember the place, Metcalfe's old stand on Sparks street.

County Police Court.—A den of infamy in Rochesterville presided over by Madame Farrell, upon which Sergeant O'Keefe and a *posse* of peelers made a successful raid is now more than likely exterminated. The irrepressible Sarah and six men and three women were all brought before Mr. Langrell, County Magistrate, yesterday evening and dealt with in accordance with their several deserts. The presiding genius of the wigwam was committed to gaol for three months; each man was relieved of $3 and costs and the *nymphes du pave* were discharged with a caution as to their future behaviour.

Obituary.—It is with regret we chronicle the death of Mr. Ronald McDonnell of this city from hemorhage of the lungs. He was a stalwart young man with apparently good physical endurance and consequently his sudden death is looked upon as more lamentable. He took part in the recent Foot Ball Match as one of the Highland team and from undue exertion he is supposed to have contracted the malady that brought him to so untimely an end. His many friends and acquaintances will regret his death among whom he was highly respected. His afflicted parents seem to be much affected at the sad bereavement which they have sustained.

Rink Music Hall.—Last evening Miss Jennie Morton made her *debut* before an Ottawa public in the "Pearl of Savoy." The *artiste* is handsome, young and talented, and her costume is the most elegant. The "Pearl of Savoy" is an extraordinary change from the dramas of last week. Miss Morton is a genuine artist, and to a captivating exterior adds the charm of a histrionic genius, and no doubt will prove a paying card to the management. Miss Webster in the piece was so brimful of humour, *piquante* in style and lively in manner, that we were surprised after seeing her in the tragic drama. Mr. Gregston, as an old man, last evening, gave a vigorous and faithful portraiture of the "Pearl's" father. The stay of the Lindley company is coming to a close, and those who have not been present during the present season should avail themselves of the opportunity of witnessing a real good performance before it leaves.

Ottawa Choral Union

A meeting of those interested in the formation of a Choral Union for the City of Ottawa, was held in Gowan's Hall last night.

On motion of Mr. J. L. Orme, seconded by Mr. M. Dunlevie, Mr Thomas Hector was called to the chair; and Mr. George Major requested to act as Secretary.

Amongst those present were the Rev. H. Pollard, Messrs. J. Langton, Thomas Hector, Thos. Kirby, Manager Merchants' Bank; W. Carrier, J. C. Stewart, M. Dunlevie, R. Brewer, J. L. Orme, W. G. Blyth, S. Smith, F. Dixon, George Major, and a number of others who evinced an interest in the movement.

The following resolution was adopted on motion of Mr. Kirby, seconded by Mr. Stewart,

Resolved, "That in the opinion of this meeting it is desirable, with a view to the cultivation of a taste for and the study and practice of classical music, to form in this city a Society with these aims, which shall be named the 'Ottawa Choral Union.'"

On motion of Mr. Stewart, seconded by Mr. Leslie, it was decided that the officers of the Union should be as follows:—An Honorary President, Conductor, Honorary Council of twelve persons, an Executive Committee of five, and a Secretary-Treasurer.

On motion of Mr. J. L. Orme, seconded by Mr. T. Kirby, it was resolved that the Hon. R. W. Scott be requested to act as Honorary President.

On motion of Mr. Langton, seconded by the Rev. Mr. Pollard, it was resolved that Mr. F. W. Mills, Fellow of the College of Organists, London, England, and late President of the Academy of Music, Quebec, be requested to act as Conductor to the Society.

On motion of Mr. W. Carrier, seconded by Mr. B. Humphrys, it was resolved that the following gentlemen be requested to act as the Honorary Council:—His Worship the Mayor, Messrs. W. H. Waller, P Kearns, John Langton, Jos. Aumond, T Kirby, Dr. Beaubien, Dr. J. A. Grant, Messrs. Edward McGillivray, J. D. Slater, John Rochester, M.P., and T. McGarity.

Moved by Mr S. Smith, seconded by Mr. J. C Stewart, that the following gentlemen be named a Provisional Executive Committee, to act until the next meeting: Messrs. Thomas Hector, R. Brewer, Geo. Orme, W. Carrier, W. Blackmore, and J. C Stewart.

On motion of Mr. J. C. Stewart, seconded by Mr. T. Kirby, it was resolved, that the Provisional Committee be requested to report at an adjourned meeting, a set of Rules for the government of the Society to make enquiries as to a suitable room, for practice, to consider the terms of subscription for members, the remuneration to be granted the conductor, to confer with him (should Mr. Mills accept the office) as to the general organization of the society and its practices, and to report accordingly.

On motion of the Rev. Mr. Pollard, seconded by Mr. F. Dixon, it was resolved that a list be now opened of persons wishing to become members of the proposed "Ottawa Choral Union."

To give effect to the terms of this resolution some twenty-one persons present signed the roll prepared.

A vote of thanks having been passed to the Chairman, the meeting adjourned until Monday next, the 21st instant, at 8 o'clock.

This preliminary endeavor was attended with much success, and augurs well for the future welfare of the undertaking.

SUPPOSED CASE OF CHILD MURDER.

An Excited Community. Coroner's Inquest.

The usually quiet village of New Edinburgh became the scene of no little excitement yesterday afternoon, when it was whispered around that a young child was found dead under very suspicious circumstances in a domicile in John Street, not far off the main thoroughfare off the village. The name of the man whose house has been thus tainted with suspicion is John Morrisey, a labouring man in ordinary circumstance in life, but like too many others, is rather fond of the cup that inebriates. It would seem that the vicious habit is not alone confined to the husband, for his better half also indulges rather freely in the intoxicating draught. The result is that a free fight is indulged in now and then, much to the disgust of a quiet neighbourhood. Yesterday this Bacchanalian career was brought to a climax, in the death of an infant about two months old, through very suspicious circumstances. The riot going on in the house attracted the attention of one of the men employed in the street car stables, who went into the house and found the child lying dead on the floor, but could not ascertain any reasons as to the cause of its death. Mr. Surtees, Reeve of the Village, was immediately appraised of the facts of the case and lost no time in having the matter brought under the notice of the Coroner. An arrest of the parties was first contemplated by Mr. Surtees, but finding the village without policemen or even a lock-up, he had to appeal to the civic authorities for assistance in this direction. Mr. Langrell, Chief of Police, having been consulted, immediately sent P. C. Banning to the scene of the supposed murder. Mr. Surtees having given a verbal order for the arrest of Morrisey, P. C. Banning immediately went to execute the order, but the intended prisoner refusing to come, the constable did not feel justified in taking him without a warrant. This the Reeve did not feel justified in issuing under the circumstances as there was no regular information upon which to order a committal. He therefore decided to leave the whole affair in the hands of the Coroner, and accordingly sent P. C. Banning up to the city in search of one. He shortly after returned with Coroner Corbett who immediately set to work to investigate the matter.

The following jurymen were empannelled:—

Joseph Simmons, Foreman.

John Clare, Rodk Fraser,
Duncan McKerchar, D. J. McDonald,
Chas. Aird, Wilfred Lajeunesse,
Peter Latour, Wm. Ardell,
Patrick McDonald, James Davis,
Hugh Gilchrist.

The Coroner next proceeded to take the evidence.

Johannah Morrissey, was first sworn. She deposed:—I am mother of Jane Morrissey. The child was not sick to-day. The child was delicate, but never sick; the child was seven weeks old. The child died from choking. The child had nothing but the breast to-day. There was liquor used in my house to-day by my husband. The child got no liquor, saw no one abuse the child. The child was in good health up to time of death. The child I did not consider sick enough to take to any doctor. When Dr. Bell saw the child it was quite cold. Cannot say how long the child was dead when the doctor saw it. I had nothing but a glass of beer to-day. I was half an hour away from home about 10 a. m. The child was asleep when I left, and also asleep when I returned. I can't say what time Dr. Bell saw the child. My little girl and my husband remained in the house when I was away from home this morning.

Patrick Carberry, foreman of the Street Car stables was next sworn:—Heard some loud cries between 1.30 p. m. and 2.30 this afternoon. The woman Morrissey was crying, her child was dead; and none would come near her. Heard some children say, that a child was killed up there (meaning Morrissey's house) I went up to the house with Michael Maloney the blacksmith, whose shop is underneath the house. Saw the mother with the child in her arms, crying this is too bad. I asked her if the child was dead, she said yes. I told her she had better send for a doctor, as I fancied the pulse was still in motion. The husband called her hard names, and said she killed the child. She said, do not say that; you know I did not. After that, Maloney and myself left the house.

John Morrissey next deposed:—I am the father of the child. I went to work at 6:30 this morning quarrying stone. Returned home for powder. Saw the child crying in my other little girl' arms (this child aged six years.) I did not go back to work after I came home after the powder. Did not know the child was dead until my wife called me, and showed me the child. I said it was a bad job that the child was dead, I cannot say that I said my wife killed the child. I might have said so in a passion. The child was quite healthy. I saw no one abuse the child. I was quite sober till the death of the child. I got drunk afterwards. Did not keep the child long, but gave it back to the little girl again, so that I could go back to my work; but did not. Was at home when my wife returned. The child was in good health then.

The inquest was then adjourned till this evening at seven o'clock, to allow of a *post mortem* examination by Drs. Bentley and Horsey.

Police Court.

Before M. O'Gara, P.M.

Monday, Sept. 14.

John Gaffney charged with being drunk and disorderly on the Market Square, was find $3 and costs.

Isabella McBride arraigned for breaking windows was ordered to pay $5 and costs or go to gaol for three weeks. She chose the latter alternative.

Jas. O'Brien *alias* Dunning was mulcted in $20 and costs for being drunk and disorderly.

John McGillivray on a similar charge was remanded till this morning.

Andrew Doyle another inebriate was also remanded.

A. Reddick, charged by Mr. Theriault with assault was discharged, there not being sufficient evidence to convict.

P. Theriault, arraigned for assaulting A. Reddick, was relieved of $1 and costs.

Thos. O'Dell, charged with the larceny of a horse from the stable of a man named Gravelle, was remanded.

Francis Breault, charged with having foul premises was also remanded.

Brain Worry.—Many of us pray to be delivered from sudden death, and do we not *worry* ourselves into it? And if we do can we not help it? "Men do not really die of Heart Disease as often as it is supposed, but of Apoplexy, or Congestion of the Lungs, so they do not die of brain work, but Brain Worry. Scott died of it, Southney, Swift, Horace Greeley, and probably Thackeray."—*London Times.* As brain worry induces premature dissolution by its depressing influence upon the general nervous health, by eating the brain faster than the waste is repaired, and as the means of sustaining and increasing nervous health is no longer impossible; those who suffer the debilitating influence of mental anguish or extreme mental fatigue, need only resort to the preparation of Hypophosphites invented by Mr. Fellows, as that will conduct the subject safely over the rapids of despair, and create in him strength to grapple with every difficulty. This is no idle assertion but an established fact. 3671

The New York *Examiner* says: Every mother and housekeeper must often act as a family physician in the many illnesses and accidents that occur among children and servants. For many of these cases I have used Davis' Pain Killer, and consider it an indispensable article in the medicine box. In diarrhœa, it has been used and effected cures. For cuts and bruises, it is invaluable. 3671

DYING
—BY—
INCHES!

ARTERIAL blood contains the elements of Vitality and Nutrition, which is emptied into the capillary system and, after supplying the required nourishment, is sucked up by the minute branches of the venous system and carried back to the lungs for vital recuperation. By reason of much that is wrong in living and medical treatment, this stream of blood flowing through the body is not always pure or free from inflammatory particles, which may pass off by insensible perspiration through the skin or with the waste matter through the intestines, but cold or wet may stop their outward escape, and the internal drainage may become inactive, when the corrupt particles are apt to coagulate, causing pestules, scalp eruptions or running sores, bronchitis &c. They may locate about a nerve, causing neuralgia, and by attaching themselves to the arterial tubes and veins, large or small, and inflaming them by their corrosive influence, cause those intensely painful sensations called Rheumatism. Nature struggles to drench out or dislodge if possible these corrosive particles, and the parts become very red from the congestion or pressure of blood therein. This is called Inflammatory Rheumatism or Rheumatic Gout. If nature does not succeed in washing out these acremonious atoms she withdraws the undue supply of blood from such parts, ceases to contend, and performs circulation as best she can; however, the passage of the blood through the affected channels still continues painful. This is Chronic Rheumatism, which may exist without its usual antecedant the Acute kind.

The above only true theory points out the correct treatment of this, and other distressing maladies. Dissolve these corrupt particles that have lodged in the afflicted parts, so that in the circulation they may be carried off externally or internally, and having thus removed the cause the effect ceases.

The experiment of twenty years in the London Hospital, England, has demonstrated to the Medical Faculty of Europe, that the only medicine having control over this class of diseases is the

DIAMOND
RHEUMATIC
CURE!

It is the result of a lifetime of scientific study and is now for the first time offered to the Canadian public, prepared by a careful, experienced and conscientious physician, in obedience to the desire of numberless friends in the profession, in the trade and among the people. Every bottle is warranted to contain the full strength of the medicine in its highest state of purity and development, and is superior to any medicine ever compounded for this terrible complaint.

A BLESSING TO THE POLICE.

Montreal, 18th June, 1884.

Devins & Bolton:

Gentlemen,—Having been one of the many martyrs of rheumatism that I meet on my every day rounds, I was induced to try the celebrated DIAMOND RHEUMATIC CURE. I had suffered the last five or six weeks the most terrible acute pains across my loins and back, so severe indeed that I could hardly walk with the help of a stick. I commenced the Diamond Remedy—following the directions carefully. Relief came immediately with the first bottle, improved rapidly with the second, completely cured and freed from pain after finishing my fifth small bottle. You are at perfect liberty either to refer to me privately or publicly, as I feel very thankful for the relief, and sympathise with my fellow sufferers from rheumatism.

Yours respectfully,
J. E. CARDINAL,
Sanitary Police Officer,
51 Lebelle street.

In simple cases, sometimes one or two doses suffice. In the most chronic cases it is sure to give way by the use of two or three bottles. By this efficient and simple remedy hundreds of dollars are saved to those who can least afford to throw it away, as surely it is by the purchase of useless prescriptions.

This medicine is for sale at all Druggists throughout Canada. If it happens that your Druggist has not got it in stock, ask him to send or it to

NORTHRUP & LYMAN,
Agents for the Province of Ontario,
Scott street, Toronto.
Or to DEVINS & BOLTON,
Notre Dame street, Montreal,
General Agents for the Province of Quebec.
Price $1 per bottle. Large Bottles $2.
May 1st, 1874.

THE SIMPLEST, CHEAPEST, AND BEST

Marking Apparatus in the World

For Marking COTTON, SILK,
WOOLLEN, and LINEN, is

PAYSON'S INDELIBLE INK,

Used with a Common Pen without a preparation.

This ink flows perfectly: will write as easily on the finest muslin as ink on paper. It does not dry up, and retains its virtues longer than any other ink known. It will not injure the finest fabric. Payson's ink has endured the test of forty years, and is now the most popular ink in existence and is unrivalled for uniformity, of quality, and durability. It will mark more neatly, quickly and indelibly than any other apparatus. It requires NO PREPARATION of the fabric.

Price, 37 cts. per Bottle.

Sold by all Druggists, Stationers, and Fancy-Goods Dealers.

Sept. 14.

Agent Travellers Ins. Co'y., cor. Sparks and Elgin-st.

BY TELEGRAPH

TORONTO.

Prayers for Rain—Vital Statistics—Arrivals—Accidents.

TORONTO, Sept 14.

Prayers for rain were offered up in nearly all the city churches yesterday.

The Confederate General Beauregard arrived at the Queens Hotel on Saturday.

Dr. Schultz, and Mr W. R. Bown, of Manitoba, are in town, and stopping at the Queen's.

The Dominion Telegraph Company have opened an office at Summerstown, Ont.

Sixteen births, four marriages, and thirteen deaths, were registered at the office of the City Clerk for the week ending the 12th inst. The act for the registration of vital statistics is evidently not strictly observed.

Rev. Thomas Guard, (Wesleyan), has become permanently blind through the bursting of a blood vessel connected with the nerves of his eye.

A lecture in furtherance of the Reformed Episcopal Church movement will be delivered by Rev. J. S Malone, of Pittsburg, Penn., in the Northern Congregational Church this evening.

During the night of Thursday last, some miscreant placed a piece of iron in the compass box of the steamer Clyde, causing the instrument to vary from two to three points, and altering the course of the vessel several miles, of course endangering the vessel and passengers.

Yesterday, at noon, after returning from church, as John O'Brien, labourer, aged seventy, living in West Market street, St. Andrew's market, was eating his dinner, he was choked to death in the act of swallowing a piece of beef.

A meeting of the Liberal Conservative Association and of all the members of Her Majesty's Opposition, who have leisure to attend, will take place in the Temperance Hall this evening, upon the summons of Mr. M. C. Cameron, the President. The immediate business in hand is the selection of delegates to attend the forthcoming Convention.

At a meeting of the officers of the 10th Royals, on Friday evening, it was decided to send a team to Ottawa to represent the Regiment in the matches of the Dominion Rifle Association, which takes place there during the present week. The members of the team are Capt. A. Anderson, Lieut. Bailey, Sergt. McMullen, Privates A. Bell, C. Sheppard, J. Hutchinson, and J. R. Ellis. They leave for Ottawa this morning.

The directors of the Young Men's Christian Association deserve great praise for their efforts to benefit the members of the institution. They believe in healthy, manly, "muscular Christianity," that sort of which Canon Kingsley is the representative and apostle; and, therefore, in addition to prayer meetings, bible classes, lectures and literary discussions there is a magnificent gymnasium (which ought to be better patronized than it is), and a "rambling party," who go out every Saturday afternoon for a long walk, accompanied by gentlemen qualified to give them instruction in nature's wonders. The interest of these occasions is doubled by some kind friend *always* inviting the party to his or her house to have tea.

Fifteen men belonging to the Provisional Battalion of the Active Militia permanently embodied for duty in Manitoba, arrived in Toronto on Friday. They were under the command of Lieut. Hayter Reid, upon whose application they were provided with billets previous to receiving their discharge from the service. Among the party is a sergeant who has had the misfortune to lose a leg. A portion of the detachment carried arms for the safe-keeping of a deserter from the 60th Rifles, who will be sent to the Imperial garrison at Halifax. From a gentleman who came down at the same time by the Dawson road we learn that the conduct of the Canadian Militiamen *en route* was such as would have done credit to the soldiers of any regular army.

Services were held yesterday in the Temperance Hall, in connection with the new Reformed Church. Prayers were read by the Rev. Mason Gallagher, and an eloquent sermon was preached by the Rev. F. S. Malone, of Pittsburg, Penn. In the evening, service was held in Zion Church, when the Rev. Mason Gallagher preached from the text, "In Christ Jesus neither circumcision availeth anything, nor uncircumcision maketh a new creature." The church was well filled. This evening the Rev. F. S. Malone, formerly of Emanuel Church, Louisville, Ky., will deliver a lecture in the Northern Congregational Church, and give his reasons for leaving the Protestant Episcopal Church and joining the Reformed Church. The seats will be free.

MONTREAL.

MONTREAL, Sept. 14.

T. W. Nesbitt, the official accountant of the Bank of Commerce in this city, has been appointed to take charge of the same Bank at Sarnia, Ont.

A child of Mr. Pendergast, Kempt street, a year and six months old, was run over Saturday afternoon by a loaded coal cart. The child's legs were much injured. The carter, who it is said was walking beside the cart, was arrested for his carelessness.

The Montreal Northern Colonization Railway Company give evidence of life by calling for tenders for the construction of fifteen locomotives.

There are only three small-pox patients in the Hospital at present.

The excavations on the line of the improvements of the Lachine Canal at the Eastern entrance are progressing rapidly. The walls of the old locks are now nearly all removed. The work of laying the foundations of the new locks will be commenced shortly.

The greatest number of arrests ever known in this city took place on Saturday night and Sunday morning, the whole number of prisoners being 115. There was about 30 more prisoners up to mid night last night, so that the Recorder will have a very large sheet this morning.

The *Herald* says we reported yesterday that Mr. Coursol had declined to enter the Cabinet, under the lead of Mr De Boucherville. We believe that this determination was arrived at after two or three days reflection, and was only communicated on Friday night. We need not say that the deliberation with which this determination was come to gives it additional significance. We may add that we are aware that an offer made to Mr. Ed. Carter of a seat in Mr. De Boucherville's Cabinet has also been respectfully declined by that gentleman.

It is understood that on Tuesday afternoon next at three o'clock a meeting of medical men will be held in the hall of the Normal School, Notre Dame street, at which will be discussed the case of the child who is alleged to have been seriously injured by vaccination, and of whom photographs have been exhibited in a number of windows. It is advisable that all the members of the profession should attend who can make it convenient, the subject being one of such very great importance.

MILLBARK.

Foundry Burned.

MILLBARK, Sept. 13.

A destructive fire occurred in this place about 1 a. m., completely destroying the foundry, machine shops and contents belonging to Messrs. McLachlan and McWillie, loss about $15,000; insured for $5,000. Cause of fire unknown.

Barrie & Emms shingle mill on the Peretangulshere Road was destroyed by fire last night; supposed to have caught from the surrounding bush fires. Partially insured.

STRATHROY.

Sad Case of Drowning.

STRATHROY, Sept. 12.

A sad case of drowning occurred at four o'clock this afternoon about eight miles from here, in the Township of East Williams, by which two young ladies named Mary and Emma Fletcher, aged respectively 23 and 14, daughters of Hugh Fletcher, were drowned in the Sauble River. It appears the youngest waded into the river to drive some geese out, and while endeavouring to do so got into a deep hole. The eldest sister went to the rescue and both were drowned before assistance could be obtained. The bodies were recovered shortly afterwards. The unfortunate occurrence has cast a gloom over the neighbourhood, and much sympathy is felt with the bereaved parents.

LONDON.

Immigrants—Fire.

LONDON, Sept. 13.

A large number of English immigrants arrived here yesterday in charge of Mr. Creasey J. Whellams, the Ontario Commissioner; they were from the Midland Counties. Situations are in readiness for almost all of them.

During the fire on Friday night some miscreant at present unknown, deliberately cut the hose in several places in order to thwart the firemen. Another fire occurred yesterday morning, the extensive carpenter shop of Messrs. Tamlin & Jones, being burned to the ground together with its contents.

KINGSTON.

Provincial Exhibition.

KINGSTON, Sept. 12.

The citizens are making a strong exertion to secure the Provincial Exhibition for next year; a public meeting is called for Monday evening to aid the movement.

YESTERDAY'S DESPATCHES

ENGLAND.

S. S. Arrival

PLYMOUTH, Sept 14—Arrived—Steamship 'Cambrian.'

FRANCE.

The Elections in France.

PARIS, Septembdr 14—Partial returns received from the election for a member of the Assembly in the Department of Maine et Loire. So far as canvassed, the vote stands thus: Compte De Maille, Republican, 36,000; M. Bruos, Government candidate, supporting Septennate, 22,000; M. Beyer, Bonapartist, 19,000. The above includes the returns from all important towns of the Department. The probability is that the election will result in no choice, and that another will have to be held. Compte de Mace is the present member from Maine et Loire.

UNITED STATES.

S. S. Arrivals.

NEW YORK, Sept 14.—Arrived—Steamship 'Panama,' from Aspinwall, and the 'Wyoming' and 'Brittanic' from Liverpool.

The War of Races—O Connor's Opinion.

Chas. O'Connor has been interviewed on the subject of the Southern outrages and the war of races. He regards exile or extirpation as the only alternatives of the negro. Civil rights and universal suffrage, in his opinion, will never answer for the negro.

State Election.

Chamberlain, the nominee for Governor in South Carolina, is a native of Worcester Mass., is 37 years of age and a graduate of Yale College. A special says it is the general thought that his surroundings in connection with Moses' administration will prevent his being acceptable to the tax payers, but it is believed he will be elected.

The Weather.

The weather is cloudy and there are indications of rain.

Sickness and Bad Water.

The *Tribune*, contains an exposure of the causes of the malady said to have prevailed extensively at the Gregory House, Lake Mahopac, this summer, from which deaths have occurred and scores of people made sick, some of whom are still suffering. The origin of the malady is supposed to be in the water from a well on the premises. The *Tribune* says the proprietor of the Hotel has attempted to stamp it out by threatening to prosecute those who should give it currency.

MID-NIGHT DESPATCHES.

ENGLAND.

S. S. Arrival.

QUEENSTOWN, Sept. 14.—The 'City of Richmond' has arrived from New York.

A Speck of War.

LONDON, Sept. 14.—The *Standard* says: The Schleswig question is assuming a serious aspect in consequence of the daily expulsion of Danish subjects, and the hostile tone of the German press, and public opinion will compel the Government to send a formal demand to Berlin and ultimately to retaliate by the expulsion of German subjects from Danish soil.

SS. Arrival.

QUEENSTOWN, Sept. 14.—Arrived—The steamship 'Republic' from New York.

AUSTRIA.

A Raid.

VIENNA, Sept. 14.—There is great excitement and indignation among the inhabitants of the Galician and Transylvanian frontiers, in consequence of the violation of territory by 600 Moldavian peasants who forcibly crossed into the district of the Czar. The Government of the district has telegraphed to Pesthe for military aid.

GERMANY.

Mr. Bancroft Davis.

BERLIN, Sept 14—Mr. Bancroft Davis has presented his credentials to the King of Saxony at Dresden, and has returned to Berlin. He has taken up a fine house on the Behren Strasse, which he will make the *rendezvous* of Americans and where he will give weekly *soirees*.

FRANCE.

Trial of Bazaine's Accomplices.

PARIS, Sep 14—The trial of the alleged accomplices in Bazaine's escape began at Grasse to-day. Col. Villette and M. Donnan, Marci and Barrat are charged with aiding and abetting the escape. The witnesses examined to-day testified in a decidedly contradictory manner as to the possibility of the Marshal's descent by the rope. It adjourned until to-morrow.

The Elections.

PARIS, Sept. 14.—The voting in the Department of Maine et Loir has resulted in no election. The following are the full returns: Demaille, Republican, 45,000; Cruos, Government Candidate, 26,000; Berger, Bonapartist, 25,000.

Thiers.

Thiers is going to Italy on a two months tour.

Simon.

Jules Simon is about opening a political campaign in the south of France. He is announced to make speeches at Avigon, Montpelier, and Tolouse.

SOUTH AMERICA.

Conspiracy Foiled.

NEW YORK, September 14.—Peru news from Lima to the 7th August are somewhat sensational. About 4:30 p.m. of the 22nd the city was thrown into consternation by the news that a handful of desperadoes had attempted the life of the President. Various letters had been received stating that there was a conspiracy to murder him, but the President refused to pay any attention to them. An attack was made as the President was leaving the Palace to walk to his house, situated about five minutes' walk from the Government Buildings. A number of men had posted themselves ready for immediate action. Shots were fired but his Excellency was not hurt. The leader of the movement was wounded and captured after a hand-to-hand conflict with Colonel Santa Mora.

UNITED STATES.

Weston.

NEW YORK, Sept. 14.—Payson Weston began at 12.02 this morning at Barnum's Hippodrome, his second attempt to walk 500 miles in six successive days.

The Presidents Movements.

WASHINGTON, Sept. 14.—President Grant repaired to the Executive Mansion this morning, and was called upon by Secretary Fish, Secretary Bristow and Post-Master General Jewell. The President will return to Long Branch to-morrow, and resume his residence at the Executive Mansion between the 24th and 28th instant.

Died of Yellow Fever.

Information has been received at the Navy Department this morning, that Wm. Chandler, Superintendent of Improvements at Pensacola Navy Yard, and his wife, have died of yellow fever on Saturday.

The Boy Murderer.

BOSTON, Sept. 14.—Another indictment for murder has been found against the boy murderer, Jesse Pomeroy, for the murder of Katie Curran.

Tragic.

PHILADELPHIA, Sept. 14.—Jas. Foster shot his wife and then shot himself, both fatally, in the presence of his wife's sister to-day. The parties had been only married one year, but had been separated.

Pigeon Shooting.

BUFFALO, Sept. 14.—In the pigeon shooting match to-day between C. H. Bogardus of Chicago, and James Ward of Toronto, Canada, Bogardus was the victor by a score of 95 to 88.

Diplomatic.

Baron Schwartzenborn, the new Austrian Minister was presented to the President at noon to day by the Secretary of State, when the usual International addresses were made. Attorney-General Williams, Postmaster-General Jewell and Secretary Bristow were at the presentation.

Mayor Havemeyer's Case.

ALBANY, Sept. 14.—The Governor has decided the case of Mayor Havemeyer. He condemed in pointed terms the action of the Mayor, but while declaring that power of removal is only limited by the discretion of the Executive it should be exercised but in the interest of the public; that there is no imputation of corrupt motives and that under all circumstances he deemed it proper to decline any further proceedings in the case.

S. S. Arrival.

NEW YORK, Sept 14—Arrived—Steamship 'Spain' from Liverpool.

Military Appointment.

NEW ORLEANS, Sept 14—General Frederick N. Ogden is appointed Provisional General of the Louisiana State Militia. He will at once assume the command and organize into companies, regiments and battalions.

The Growth of Cities.

From the Monetary Times.

The growth of the cities of this continent has been rapid during the last decade. This applies to Canadian as well as American cities. On both sides of the lines there has been manifested an increased tendency on the part of population to crowd to the business centres. This arises from a variety of causes: primarily, work is more abundant and more varied in description, and there can be no doubt that there is an attraction about city life to the majority of men which they fail to find in the rural districts. Wealth may not be so evenly distributed as in the country, but this attraction draws many young men to cities, and would make more money and be far happier tilling their father's farms.

The blue books of the United States give many interesting facts as to the progress of their cities. For the information of our readers, we append the population of the principal of them, with the per centage of increase between 1860 and 1870, when the census returns were made up:

NAMES.	POPULATION.	INC. PER CT.
Buffalo	117,715	45·0
Rochester	62,385	29·4
Albany	69,422	11·5
Boston	250,526	41·0
Brooklyn	396,300	48·5
New York	842,292	16·9
Cleveland	92,846	13·9
Cincinnati	216,239	34·2
Newark	105,058	46·1
Philadelphia	674,022	19·8
Chicago	298,983	173·6
Baltimore	267,354	26·0
Detroit	79,580	74·9
Milwaukee	71,499	57·9
New Orleans	191,332	13·4

This list comprises most of the great cities of the United States, and of course the per centage of increase is naturally greater than in others. Chicago grows more rapidly than any other city on the Continent—we might confidently say, the World; and if its rate of progress during the last decade be continued, the time can easily be calculated when it will outstrip New York, and take its place as the largest city on the Continent. It is not likely, however, that its unparalleled progress will be without check; the great fire, in fact, has already retarded its advance in population, and doubtless other difficulties will be encountered which may delay, and possibly altogether prevent, its surpassing its eastern rivals.

The growth of our Canadian cities during the same period, compares favourably with that of our neighbors. None of them shows so rapid an increase as even Detroit, but they are making very satisfactory progress. According to our returns, the per centage of increase in population in our cities was durikg the last decade as follows:—

NAMES.	INC. PER CT.
Halifax, N.S.	18·3
St. John, N.B.	36·[illegible]
Charlottetown, P.E.I.	31·3
Fredericton, N.B.	34·3
Hamilton	39·9
Toronto	25·1
Montreal	18·7
London	36·9
Ottawa	46·9
Three Rivers	24·0

It will be observed that the increase in Ottawa was greater than in any other place, although Hamilton, London, St John, and Fredericton follow closely after. We are glad to know that our cities are filling up, and that many of our towns, such as St. Catharines, Brantford, and Belleville, are fast reaching the point when they can justly claim to be placed on the roll of cities; but it would please us still better to see our lands more rapidly filled up with industrious settlers, for our cities will grow, and the Dominion as a whole prosper, just as our production and trade increases in extent and value. There has been no falling off in the prosperity of our cities, and the current decade promises to show results of a most satisfactory character.

THE DAILY TIMES can be procured every morning for 15 cents per week. The "Weekly" Friday morning's, in time for English Mail, at E. A. Perry's Elgin St.; Battle Bros., Rideau St., and Russell House; Lacy, Bridge St., Chaudiere; L'Echo Office, Hull; St. Lawrence & Ottawa, and Canada Central Railway Staiton.

SUPERIOR AYRSHIRE CATTLE will be sold at the Exhibition in this city by Mr. Wm. Rodden, as he intends reducing the number of his herd because of the loss by fire of two barns with their contents of farm produce. This will afford purchasers an opportunity of securing some really fine young stock from one of the best herds in this country. The number of prizes taken here and at other exhibitions by animals from Mr. Rodden's herd have fully established the character of the stock. A few superior Suffolk pigs and Leicester sheep will also be sold. 3669-4

THE WAR OF RACES.

A DESPERATE STRUGGLE.

The Coloured Troops Dispersed.

CASUALTIES.

NEW ORLEANS, September 14.—The people seem to have responded with alacrity to the advice given them by Dr. Beard one of the speakers at the Canal street meeting by 3 p.m. Armed men were stationed at the intersection of all streets on the south side of Canal street, from the river to Clairbone street. About 4 p.m. a body of the Metropolitans numbering about 500, with cavalry and artillery, appeared at the head of Canal street and took position. Gen. Longstreet, who was commanding, accompanied by an orderly, then rode up and down Canal street, ordering the armed citizens to disperse. Some desultory firing soon after occurred along Canal Street, and some few casualties are reported on both sides. The Metropolitans are reported to have broken at the first fire the citizens capturing one piece of artillery. The citizens are now building barricades along Paydros Street, having already captured the City Hall, and taken possession of the Fire Alarm Telegraph. The Police Telegraph Lines are worked by a battery from the City Hall, and have been detached therefrom, rendering them useless. The State authorities seem to have great confidence in their ability to deal with what they term an armed mob, and say that unless the people disperse there will be work to-night. Barricades are erected on all the streets. There was a pretty sharp fight at the river end of Canal street about four o'clock. The number killed is estimated by some as high as 40, and many were wounded. Captain J. West and E. A. Taledaro were killed on the citizens' side. A number of Metropolitans are reported killed, and General Roger severely wounded. The colored men, of which the Metropolitan Brigade was largely composed, broke and ran upon the first fire, leaving their white comrades, a number of whom were killed and wounded.

11:30 p. m.—The following is the list of the casualties on the side of the citizens as has been ascertained killed: A. Taledaro, Fred. Moran, D. Lindsay, Capt. J. M. West, Major D R. Gourdoin, and one Magazine street car driver seriously wounded; F. Pallatt, John Considen, J. S. Kilpatrik, Major Wm. E. Wills and Saml. B. Newman, were slightly wounded. E. Bosoneer, F. Keller, W. J. Butler and Wm. McLauran. Gen. F. Ogden's horse was killed under his feet, and the General wounded. Gen. A S Badger commanding the Metropolitans received three buck shot wounds, one through the leg and arm and one through the body. His leg has since been amputated. The General besides received a gun shot wound and a heavy fall from his horse, it being killed under him.

WASHINGTON, Sept. 14.—Intelligence comes from New Orleans in such terms as justifies the assertion that Governor Kellogg has called upon the President for Federal aid to support the State authorities in the suppression of domestic violence. The Legislature not now being in session, it ought to be a matter for a Cabinet consideration, as the President will not leave for Long Branch until to-morrow night.

The Canada Cables' Act.

The London *Daily News'* money article says:—We observe that the extraordinary doctrine of the letters of Mr. Emerson, the Speaker of the Newfoundland House of Assembly, on the subject of the Canada Cables' Act, has been adopted with some zeal by others. It is again urged that the Act is a "confiscation" of the monopoly of the Newfoundland Telegraph Company. It is admitted that the Act only deals with the shores of Canada, of which Newfoundland is no part, but because of a wise restriction in the use of its shores for laying cables, it renders practically inefficient a monopoly which Newfoundland has attempted to create, this is said to be a combination of the monopolists' rights. It is quite clear, however, that Newfoundland could only create a monopoly within its own jurisdiction, and no "rights" it can give can be confiscated by the legislation of other States within their jurisdiction. The Canadians have an obvious right to say that no people shall be allowed to lay ocean cables on their shores unless these people abandon their monoply rights elsewhere, and the restriction is one which concerns Canada alone. If it happens to make the monoply granted by other States less valuable, or of no value at all, because the monopoly is of a kind which requires validity in both States, the case is undoubtedly an unfortunate one for the monopolists, but they are not deprived of any right which belongs to them. It is stated that "with as much justice apparently as if the Dominion wanted a creek or inlet, or even an occupied district of Newfoundland to be thrown open, the Government might exclude the proprietors thereof from equal rights unless upon condition that they give up any monopoly rights over the waters or lands thus desired;" but this is only what Governments do every day, and is the natural consequence of their sovereign rights. No one thinks it "confiscation" that nations should subject foreign ships coming to their shores to various restrictions and duties unless the State from which they come concedes reciprocity or other advantages, and for this purpose there is clearly no difference between a ship and a cable. If one State should think of acquiring any advantage in the territory of another State, it is surely quite entitled to buy that advantage if it can by laying down any terms it thinks fit for the use of its own territory. In the present instance, however, Canada takes nothing from Newfoundland, and the other effect of the Act is to prevent Newfoundland usurping a right over Canadian shores by sending to them monopolists under cover of the equal permission which Canada gives to all comers. As our correspondent 'Anti-Monopolist' pointed out yesterday, the monopolists in the present case was quite aware that they were dependent for the use of their monopoly on Canadian legislation, but Nova Scotia, which is now a part of Canada, actually refused to give them the very monopoly which they claim.

CHRONIC SPLENITIS.—Physician's report of a remarkable case. Gagetown, N. B., July 21, 1868. Mr. James I. Fellows, Chemist. Dear Sir: Allow me to bear testimony in favor of your Compound Syrup of Hypophosphites. I have used it myself for Tuberculosis with marked benefit, and have given it to a great number of my patients, with the same results as I experienced from its use. The most marked was a case which was under my care in March last. This was a patient who had been under treatment nine monts with no beneficial results. When I first saw him he was so feeble that he could not sit up long enough to have his heart and lungs examined. He had a severe Cough, Dyspnoea, Palpitation of the Heart, Impaired Digestion, and consequent general maciation. I put him under treatment, prescribed your Compound Syrup of Hypophosphites, and after using four bottles he was able to attend to his farm and is now perfectly well. In March he was given up by four physicians respectively; in May he assisted in ploughing eighteen acres of land, and had run up in flesh from 136 to 148 pounds weight. I send you this for the purpose of your making what use you please of it, and wish you all success in your labor for the benefit of suffering humanity. Strongly recommending the use of your Compound Syrup of Hypophosphites to all who suffer in any way from disease or weakness of the Lungs, Bronchial Tubes, or general debility. Believe me, your obedient servant

J. H. W. SCOTT, M. D.

IMPORTANT TO LADIES OF FASHION

DRESSMAKING BEING THE ORDER OF THE TIMES.

J. W. RYAN

Has much pleasure in informing his numerous Lady customers and others that MADAME OLLIER, the celebrated Cutter and Fitter of Ladies' Garments, has arrived from her New York and Boston trip, and re-engaged with him to superintend his Dressmaking Department,

No. 234 WELLINGTON STREET

It will be remembered that Madame Ollier came direct from Boston last March to make arrangements with him, but was subsequently induced, by large offers for her valuable services, to go into an old established firm in Centre Town; but finding that she had made a change for the worse, again engaged with him. Madame Ollier's attainments in the art of Scientific Measurements enables her to ensure a perfect fit without putting her customers to the inconvenience of removing a single garment.

Bargains to be had at the Old Stand, 18 RIDEAU-ST. TRY ONCE.

Sept. 9, 1874. 3387

NEW

PLUMBING, GAS & STEAM FITTING SHOP,

CLARKE'S

WORLD-FAMED BLOOD MIXTURE

Trade Mark—"BLOOD MIXTURE."

The Great Blood Purifier and Restorer

For cleansing and clearing the blood from all impurities, cannot be too highly recommended.

For Scrofula, Scurvy, Skin Diseases and sores of all kinds it is a never-failing and permanent cure.

It cures old sores,
Cures ulcerated sores on the neck,
Cures ulcerated sore legs,
Cures blackheads, or pimples on the face,
Cures scurvy sores,
Cures cancerous ulcers,
Cures blood and skin diseases,
Cures glandular swellings,
Clears the blood from all impure matter,
From whatever cause arising.

As this mixture is pleasant to the taste, and warranted free from anything injurious to the most delicate constitution of either sex, the proprietor solicits sufferers to give it a trial to test its value.

Thousands of testimonials from all parts.

Sold in bottles 2s 9d each, and in cases, containing six times the quantity, 11s each—sufficient to effect a permanent cure in the great majority of long-standing cases, by all chemists and patent medicine vendors throughout the world.

During the coming Winter, will be received by the undersigned until

THE FIRST OF OCTOBER NEXT.

The price should be stated at so much per cord, delivered at the respective School Houses.

L. TASSE,
Secretary.

Sept. 14, 1874.

CUSTOMS DEPARTMENT,

Ottawa, August 7, 1874.

Authorized Discount on American Invoices until further notice, 9 per cent.

R. S. M. BOUCHETTE,
Commissioner of Customs.

PROVINCE OF ONTARIO.

PARLIAMENTARY NOTICE.

LEGISLATIVE ASSEMBLY OF ONTARIO,
Toronto, 14th September, 1874.

48. No Petition for any Private Bill is received by the House after the first three weeks of each Session; nor may any Private Bill be presented to the House after the first four weeks of each Session.

51. All applications for Private Bills, properly the subject of legislation by the Legislative Assembly of Ontario within the purview of "The British North America Act, 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road, or Telegraph Line; the construction or improvement of a Harbour, Canal, Lock, Dam, or Slide, or other like work; the granting of a right of *Ferry*; the incorporation of any particular Trade or Calling, or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community; or for making any amendment of a like nature to any former Act,—shall require a Notice, clearly and distinctly specifying the nature and object of the application, to be published as follows, viz:—

A Notice inserted in the *Ontario Gazette*, and in one newspaper published in the County, or Union of Counties affected, or if there be no paper published therein, then in a newspaper in the next nearest County in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition.

For further particulars see *Ontario Gazette*.

CHARLES TODD GILLMOR,
Clerk of the House.

2871-tf

LOST—A SMALL BLACK DOG, with long wavy hair, answering to the name of "Poppy." Whoever may have found him will be rewarded on returning him to the office of this paper, and any one in whose possession he may be found after this notice, will be prosecuted.

llers' Guide

Below we publish a directory, made up for the benefit of our citizens, and strangers who may visit the Capital. It is important to all travellers to have, within easy reach, information as to the arrival and departure of the various trains and stages for all places, East, West and South. The public can depend upon the correctness of this table:

St Lawrence & Ottawa Railway.

Leave. 45 a.m., 10.45 a.m., 2.00 p.m., 9.30 p.m.
Arri .30 a.m., 7.45 a.m., 2.50 p.m., 7.00 p.m.

Canada Central Railway.

10.15 a.m., 5.20 p.m
Ar es, 12.55 p.m.; 8.00 p.m.

Ottawa River Navigation Company.

Steamer *Peerless* leaves at 7.30 a.m.
Steamer *Queen Victoria* leaves at 5 p.m.

Saturday afternoon trips—Steamer *Queen Victoria* leaves at 4 p.m. for L'Orignal, &c. [See advt.]

Union Forwarding Company.

Steamer *Jessie Cassels* leaves Aylmer at 7.30 a.m.

Stages.

Aylmer Stages leave the Union, Daniels, and the Russell House every morning at 6 a.m.
Gatineau Stage leaves the Post Office at 6 p.m.
Richmond Stage leaves the Post Office at 1.30 p.m.

British Mails.

Via New York, close every Saturday, Monday and Tuesday, at 8 p.m.
Per Canadian Line, close every Friday at 12.05 p.m.

☞ A supplementary bag for Canadian Steamer will be closed at 1.25 p.m., in which only unregistered letters can be sent.

Commercial.

Electric Oil Thomas' Excelsior Eclectric — Worth Ten Times in Weight in Gold.

Pain cannot stay where it is used. It is the cheapest medicine ever made. One bottle has cured bronchitis. Fifty cents worth has cured an old standing cough. It positively cures Catarrh, Asthma and Croup. Fifty cents worth has cured crick in the back, and the same quantity lame back of eight years' standing. The following are extracts from a few of the many letters that have been received from different parts of Canada, which, we think, should be sufficient to satisfy the most skeptical. J. Collard, of Sparta, Ontario, writes "Send me 6 dozen Dr. Thomas' Electric Oil, have sold all I had from you and want more now; its cures are truly wonderful." William Maguire, of Franklin, writes, "I have sold all the agent left, it acts like a charm—it was slow at first, but takes splendidly now." H. Cole, of Ionia, writes, "Please forward 6 dozen Thomas' Electric Oil, I am nearly run out; nothing equals it. It is highly recommended by those who have used it." J. Bedford, Thamesville, writes "Send at once a further supply of Electric Oil, I have only one bottle left. I never sold anything sell so well, and give such general satisfaction." J. Thompson Woodford, writes—"Send me some more Electric Oil. I have sold entirely out. Nothing takes like it." Miller & Reed, Ulverton, P.Q., writes—"The Electric Oil is getting a great reputation here, and is daily called for. Send us a further supply without delay." Lemoyne, Gibb & Co., Buckingham, P. O., write—"Send us one gross Electric Oil. We find it to take well."

Sold by all medicine dealers. Price 5 cents.

S. N. THOMAS, Phelps, N. Y.
NORTHROP & LYMAN, Toronto, Ontario, Sole Agents for the Dominion.
NOTE—*Electric*—Selected and Electrized

JOB MOSES' FEMALE PILLS.

This well known medicine is no imposition but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, they contain nothing hurtful to the constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics and Whites, these pills will effect a cure when all other means have failed; and although a powerful remedy, do not contain iron calomel, antimony or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully reserved.

For full particulars, obtain free, of the agent a pamphlet, or refer to advertisement.

JOB MOSES, NEW YORK, SOLE PROPRIETOR.

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will insure a bottle, containing over 50 pills return mail.

For sale by all druggists. 25

THE FOLLOWING IS AN Extract from a Letter

Dated 15th May, 1872, from an old inhabitant of Horningsham, near Warminster, Wilts: "I must also beg to say that your Pills are an excellent medicine for me, and I certainly do enjoy good health, sound sleep and a good appetite; this is owing to taking your Pills. I am 78 years old. Remaining, gentlemen, yours very respectfully, L. S."

To the Proprietors of Norton's Camomile Pills, London.
July 1874.

VINEGAR BITTERS
PURELY VEGETABLE FREE FROM ALCOHOL
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelminitics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Aug. 28, 1874. R. W. SHEPHERD.

The New York Tribune.

THE CONSOLIDATION OF ITALY so long fragmentary and impotent, into one powerful State, with Rome as its capital the humiliation of France through a series of crushing defeats, ending with the siege and capitulation of her proud and gay metropolis; the expulsion of the Bourbons from the Spanish throne, and the substitution for them of a scion of the most liberal among royal houses; the virtual absorption of the kingdoms of Saxony, Wurtemburg, Bavaria, with Baden, Hesse, the Hanse Towns, &c., under the headship of Prussia, into the triumphant and powerful empire of Germany; and the arming of Russia to re-assert her preponderance in the councils of Europe, or to prosecute her often postponed but never relinquished designs on the great city founded by Constantine, and the vast but decaying and anarchical dominion of the Sultan, all combine to invest with profound interest the evening tidings from our tidings from the Old World. The *Tribune*, through trusted correspondents stationed at all points in Europe where great movements are in progress or imminent aims to present a complete and instructive panorama of events on that continent, and to mirror the prolonged struggle between middle age Feudalism and Ecclesiasticism on the one hand and Nineteenth-Century scepticism and secularism on the other. Recognising a Divine Providence in all that proceeds and is, it looks hopefully on the great conflict as destined (like our own recent convulsion) to evolve from strife, disaster, and seeming chaos, a fairer and happier future for the toiling masses of mankind.

In our own country, a war upon corruption and rascality in office has been inaugurated in our city, whereby the government of our State has been revolutionised through an initial triumph of Reform which surpasses the most sanguine anticipations. It is morally certain that the movement thus inaugurated cannot, in its progress, be circumscribed to any locality or any party, but that its purifying influence is destined to be felt in every part of the Union, rebuking venality, exposing robbery, wresting power from politicians by trade, and confiding it in those worthiest and fittest to wield it. To this beneficent and vitally needed reform, the *Tribune* will devote its best energies, regardless of personal interests or party predilections, esteeming the choice of honest and faithful men to office as of all New Departures the most essential and auspicious.

TERMS OF THE TRIBUNE.

DAILY TRIBUNE, Mail Subscribers, $10 per annum.

SEMI-WEEKLY TRIBUNE, Mail Subscribers, $4 per annum. Five copies or over, $3 each; an extra copy will be sent for every club of ten sent for at one time; or, if preferred, a copy of "Recollection a Busy Life," by Mr Greeley.

KEATING PERSIANS INSECT DESTROYING POWDERS.

CAUTION.—The public are requested to observe that all the above preparations bear the Trade Mark as herein shown. Sold by all Chemists and Druggists.

DR. DE JONGH'S LIGHT BROWN COD LIVER OIL. The distinctive character that which have gained for Dr. DE JONGH'S Oil so much celebrity, the entire confidence of the most eminent members of the Medical Profession, and notwithstanding the active and unscrupulous opposition of many interested dealers, an unprecedented amount of public patronage may be thus concisely enumerated:—

I.—Its genuineness, purity, and uniform strength are ascertained and guaranteed.

II.—It contains all the active and essential principles that therapeutic experience has found to be the most effective in the operation of the remedy.

III.—It is palatable, easily taken, and creates no nausea.

IV.—It is borne with facility by the most delicate stomach and improves the functions of digestion and assimilation.

V.—Its medicinal properties and remedial action have been found to be immeasurably greater than those of any other kind of Cod Liver Oil.

VI.—From the unequalled rapidity of its curative effects, it is infinitely more economical than any which is offered, even at the lowest price.

CONSUMPTION AND DISEASES OF THE CHEST.

The extraordinary virtues of Dr. DE JONGH'S Light Brown Cod Liver Oil in Pulmonary Consumption may now be considered as fully established. No remedy so rapidly restores the exhausted strength, improves the nutritive functions or produces a more marked and favorable influence on the local malady.

The following high testimony to the efficacy of Dr. DE JONGH'S COD LIVER OIL in Consumption is afforded by ALLEN G. CHATTAWAY, Esq., M.R.C.S., L.S.A., of Leominster:—

"Having for some years extensively used Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL, both in public and private practice, I have no hesitation in stating its effects are very far superior to those of any other Cod Liver Oil. Nearly four years since, two cases of confirmed Consumption were placed under my care. In both, the lungs were a mass of tubercular deposit, and every possible sound to be heard in phthisis was present. The sole remedy employed was Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL; and now the patients are strong and fat; the diseased (abnormal) sounds nearly inaudible; and in the one case (male), hunting, fishing, and shooting, are freely indulged in, the patient expressing himself quite capable of undergoing as much fatigue as any of his fellow sportsmen."

GENERAL DEBILITY AND EMACIATION.

In cases of prostration and emaciation, where the vital forces are reduced, and where life appears to be even at its lowest ebb, the restorative powers of Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL are remarkably manifested. By its administration the natural appetite is revived, and the functions of digestion and assimilation are improved, reanimated, and regulated; and, when its use has been steadily preserved in, its peculiar tonic and nutritive properties have entirely restored health and strength to the most feeble and deteriorated constitutions.

The actual benefit derived is thus described by ROWLAND DALTON, Esq., M.R.C.S., L.S.A., District Medical Officer at Bury St. Edmunds:—

"In giving my opinion of DR. DE JONGH'S LIGHT BROWN COD LIVER OIL, I have no hesitation in saying that I have not the slightest confidence in any other kind. The effects of Dr. DE JONGH'S OIL are sure and most remarkable, especially in that broken down state of health and strength which usually precedes and favors tubercular deposit; and I never recommend any other sort. The Oil I have had from you was for my own use, and it has certainly been the only means of saving my life on two occasions, and even now, when I feel 'out of condition,' I take it, and like it, unmixed with anything, as being the most agreeable way. I could wish that Dr. DE JONGH'S OIL would come into general use, and entirely supersede the Pale and other worthless preparations."

SELECT MEDICAL OPINIONS.

From innumerable medical and scientific opinions of the highest character in commendation of Dr DE JONGH'S LIGHT BROWN COD LIVER OIL, the following are selected:—

Sir Henry Marsh, Bart., M.D., Physician in Ordinary to the Queen in Ireland.

"I consider Dr. De Jongh's Light Brown Cod Liver Oil to be a very pure Oil, not likely to create disgust, and a therapeutic agent of great value."

Dr. David Smith, F.R.S., Medical Officer to the Poor Law Board of Great Britain.

"We think it a great advantage that there is one kind of Cod Liver Oil which is universally admitted to be genuine—the Light Brown Oil supplied by Dr. De Jongh. It has long been our practice, when prescribing the Oil, to recommend this kind, since, amidst so much variety and uncertainty, we have confidence in its genuineness." (Extract from "Consumption: its Early and Remediable Stages.")

Dr. Barlow, F.R.S., Sen. Physician to Guy's Hosp.

"I have frequently recommended persons consulting me to make use of Dr. De Jongh's Cod Liver Oil. I have been well satisfied with its effects, and believe it to be a very pure Oil, well fitted for those cases in which the use that substance is indicated."

Dr. Lawrence, Physician to H.R.H. the Duke of Saxe-Coburg and Gotha.

"I invariably prescribe Dr. De Jongh's Cod Liver Oil in preference to any other, feeling assured that I am recommending a genuine article and not a manufactured compound in which the efficacy of this invaluable medicine is destroyed."

Sir Joseph Olliffe, M.D., Physician to the British Embassy at Paris.

"I have frequently prescribed Dr. De Jongh's Light Brown Cod Liver Oil, and I have every reason to be satisfied with its beneficial and salutary effects."

Lankester, F.R.S., Coroner for Central Middlesex.

"I consider that the purity of this Oil is secured in its preparation by the personal attention of so good a Chemist and intelligent a Physician as Dr. De Jongh, who has also written the best Medical Treatise on the Oil with which I am acquainted. Hence, I deem the Cod Liver Oil sold under his guarantee to be preferable to any other kind as regards genuineness and medical efficacy."

THE ROYAL READERS.

A NEW SERIES OF ILLUSTRATED ENGLISH READING-BOOKS.

From Mr. M. Paterson, Rector of the Free Church Training School, Moray House, Edinburgh.

"Thanks for the Specimen of your new Reading Books and Sheets. They are admirable in every particular. Nothing, in my opinion, would more contribute to the improvement of Education than the wide circulation of these books, and the intelligent handling of them."

From A. Montgomerie, LL.D., Principal of Ladies' College Glasgow.

"I have examined very carefully the 'Printing,' and Nos. I., II., and III. of the *Royal Readers*, and have no hesitation in saying that they are, in my opinion, incomparably the best English Reading-Books that have ever been published. The adaptation of the means to the end in view is perfect."

From T. Morrison, M.A., Rector of the Free Church Normal School, Glasgow.

"I have very carefully examined the *Royal Readers*. The plan is excellent, and the execution, if I may say so, even better. They are out of sight the best series of Reading-books published and should very speedily be widely used. The illustrations constitute an admirable feature and add much to the value of the *Readers*."

PINE LANDS.

OVER 900,000,000 FEET, well located mainly on the rivers leading into Lake Michigan. The numerous streams and lakes surrounded with pine timber along the line west of Reed City, offer the best of locations for mills, where logs can be held safely free of expense, and free from the annoyance of Boom Companies. The railroad direct to East Saginaw and Toledo offers the best source of supplies, and never failing market for Lumber Shingles, etc., which may be delivered anywhere on the line.

FIFTH AND LAST CONCERT

In aid of the

PUBLIC LIBRARY OF KENTUCKY.

DAY FIXED AND A FULL DRAWING ASSURED,

—ON—

MONDAY, 30th NOVEMBER, 1874.

LAST CHANCE FOR

An Easy Fortune.

A postponement of the Fifth Concert of the Public Library of Kentucky has been so generally anticipated, and is so manifestly for the interest of all concerned, that it must meet the approval of all. The day is now absolutely fixed, and there will be no variation from the programme now announced. A sufficient number of tickets had been sold to have ensured us to have had a large drawing on the 31st July, but a short postponement was considered preferable to a partial drawing. Let it be borne in mind that

THE FIFTH GIFT CONCERT

Is the last which will ever be given under this charter and by the present management,

That it will positively and unequivocally take place as announced, on

MONDAY, 30TH NOVEMBER,

That the music will be the best the country affords, and that

20,000 CASH GIFTS,

AGGREGATING

$2,500,000

Will be distributed by lot among the ticket-holders.

Caution.

GENUINE PANCREATINE PANCREATIC EMULSION.

The efficacy of these Medicines in the treatment of Indigestion, Bronchitis or Pulmonary Catarrh, Consumption, Wasting, &c., &c., depending entirely upon their purity and strength, Messrs. SAVORY & MOORE caution the public against imitations of them which are put forth as possessing the remedial properties of the true preparations, but which are in reality either saponaceous compounds, ointments or pomades, without a trace of the Pancreatic principle and entirely unfit and useless as medicines. These imitations are calculated to produce serious disappointment and to injuriously affect the reputation which the Genuine Pancreatine and Pancreatic Emulsion have acquired. It is therefore highly important that purchasers examine the labels on the bottles for the names and Trade Mark

"SAVORY & MOORE,"

The Original and only Manufacturers, Chemists to the Queen, H.R.H. the Prince of Wales, H.I.M. Napoleon the Third, His Highness the Khedive of Egypt, &c.,

143 NEW BOND STREET, LONDON

Extract from an Analytical Report upon a Foreign Specimen of a so-called Preparation of Pancreatine.

"This compound resembled an Ointment or Pomade in appearance and consistency, and was flavored with Essence of Almond or Prussic Acid. It was strongly alkaline, indicating free alkali, which, acting upon the fat, produced the usual saponifying result; the whole forming a granular moist mass of fat, soap, glycerine and water. This ointment was physically and chemically different from the true Pancreatic Emulsion which I have also examined, and which, besides being rich in Pancreatic juice, has the delicate smooth appearance and consistency of fresh cream, is palatable and readily taken."

PROVINCE OF ONTARIO.
PARLIAMENTARY NOTICE.
LEGISLATIVE ASSEMBLY OF ONTARIO,
Toronto, 14th September, 1874.

49. No Petition for any Private Bill is received by the House after the first three weeks of each Session; nor may any Private Bill be presented to the House after the first four weeks of each Session.

51. All applications for Private Bills, properly the subject of legislation by the Legislative Assembly of Ontario within the purview of "The British North America Act, 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road, or Telegraph Line; the construction or improvement of a Harbour, Canal, Lock, Dam, or Slide, or other like work; the granting of a right of Ferry; the incorporation of any particular Trade or Calling, or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community; or for making any amendment of a like nature to any former Act,—shall require a Notice, clearly and distinctly specifying the nature and object of the application, to be published as follows, viz:—

A Notice inserted in the *Ontario Gazette*, and in one newspaper published in the County, or Union of Counties affected, or if their be no paper published therein, then in a newspaper in the next nearest County in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition.

For further particulars see *Ontario Gazette*.

LEA & PERRINS
CELEBRATED
WORCESTERSHIRE SAUCE
DECLARED BY CONNOISSEURS
TO BE
THE ONLY GOOD SAUCE.

CAUTION AGAINST FRAUD
The success of this most delicious and unrivalled Condiment having caused certain dealers to apply the name of "Worcestershire Sauce" to their own inferior compounds, the Public is hereby informed that the only way to secure the genuine is to
ASK FOR LEA AND PERRINS' SAUCE,
and to see that their names are upon the *wrapper labels, stopper, and bottle*.
Some of the foreign markets having been supplied with a spurious Worcestershire Sauce, upon the wrapper and labels of which the names of Lea and Perrins have been forged, L. and P. give notice that they have furnished their correspondents with power of attorney to take instant proceedings against *Manufacturers* and *Vendors* of such, or any other immitations by which their right may be infringed.
Ask for LEA & PERRINS' Sauce, and see Name on Wrapper, Label, Bottle, and Stopper.
Wholesale and for Export by the Proprietors Worcester; Crosse and Blackwell, London, &c. &c. and by Grocers and Oilmen universally.

Emigration of Agricultural Labourers.

From a Correspondent of the Daily News.

In so far as the Eastern Counties lock-out failed, it failed through the presence of too many men within the area of the conflict. A similar condition will determine a similar issue in any future dispute—hence the attention of the National Agricultural Labourers' Union has been directed to emigration. Some of its most prominent supporters have been averse to the extensive employment of this agency, but it is now felt to be the only resource, and on every hand it is being, and will be, urged upon the men. Scientific agriculturalists are well aware that more labourers might be employed with advantage to the land, the occupier, and the public at large, but as the farmers are, for the present, content with a mode of cultivation which to a great extent obviates the necessity of hands, the Union is obliged to deal with the whole question as one of surplus labour. This so-called surplus labour, which is really created not by any superabundance, but by the determination of farmers to employ only such hands as are absolutely necessary to secure the lowest possible results, must be removed ere the labourer's position can be permanently benefitted—hence emigration is the order of the day. It must be confessed that the labourer has been somewhat loth to resort to it. His ignorance of travel and locality the fears of his better half, the awful warnings he has received from his employers and others of the deplorable end of those who have tempted Providence by seeking their fortune afar off, and his own inability to command a single sixpence, have all combined to keep him at home. Less enterprising than either his Scotch or Irish brothers, he has, unlike them, shrunk from voluntary exile. But at last the fever is upon him, and he is determined to go. However anxious the Union may be to promote his departure, Hodge himself is yet more anxious. On every side he is getting ready, and unless a great change occurs, this spring will witness an unprecedented exodus of his class from our shores. Much will of course depend upon the result of the experiment just made by the Union with reference to Canada. Several batches of emigrants have been despatched to that colony at intervals during the past two years, and the issue has been most satisfactory. In this difficulty the Union determined to organize and send thither a large body of its members, and to use every means to render the effort successful. Terms more advantageous than any which had at this time had been proposed, were placed before the Union by the enterprising managers of the Dominion line of steamers, and aided by the Canadian authorities, the executive was enabled to offer a free passage to the labourer from his residence to Canada. Applications literally poured in to the head office at Leamington, and it was found necessary to arrange for additional accommodation in a steamer belonging to another line. That the clearest information might be available for future guidance Mr. Henry Taylor, the General Secretary of the Union was instructed to accompany the party to Canada, where he will remain until all are comfortably settled. The ship placed at the disposal of the Union is the newly built and powerful screw steamer 'Ontario,' Capt. French, 3,170 tons, and carrying nearly 900 persons. It is only fair to state that the selection is a most happy one—the ventilation of the vessel and her unusual height between decks, with the efficiency and courtesy of her officers, rendering her all that could be desired.

The intending voyagers arrived in Liverpool by different trains on Thursday last, and excited throughout the day considerable interest. They were distinguished from the dock and other labourers, who throng the station by the unmistakable rusticity of their appearance, their clay-caked boots and nether garments, and by the blue ribbon which almost every man wore. The latter distinction, with its mystic device 'N. A. L. U.,' provoked considerable inquiry, and two railway employes, bent upon solving the problem, asked a flourishing young bucolic what he was. 'Wot be I?' he answered; 'whoy I be a Union mon, and if you ant Union chaps in your line you be fules, for sure.' The questioners were so enamoured of this bold representative of the latest addition to the Union family that they laid fraternal hands upon him and bore him away. How he employed the interval is not known, but upon his re-appearance his face evidenced his intense satisfaction. Many remarks were excited by the scantiness of the luggage owned by the different families. In almost ever case the quantity was singularly small. It seemed, however, to be none the less precious, if we may judge from the anxiety displayed on its behalf, and from the fact that the owners formed two and two about the carts in which their oddly-constructed bundles were taken to the docks, and so marched with them.

To save the emigrants unnecessary inconvenience, it was arranged that they should embark at once, and have supper on board, instead of in the sheds or lodging-houses as usual. Mr. Taylor and Mr. Clarke, of the Welverton district, were kindly aided in making the necessary provisions by the Rev. H. T. Miller and other Liverpool friends; and at eleven o'clock most of the emigrants, after what all described as a capital supper, turned in for the night. On Wednesday morning the medical inspector attended, and, with one exception, passed all the emigrants with their families. The rejected circle comprises a little member who gave indications of measles, and though both parents pleaded very hard to be allowed to proceed, the Doctor wisely sent them all ashore. In the course of the morning a meeting was held on deck for the purpose of bidding the travellers farewell. Mr. J. Montgomery, one of the directors of the Dominion Line, took the chair, and called upon Mr. Henry Taylor, Rev. F. S. Attenborough, Mr. J. C. Cox, J.P., Mr. A. Arnold, and other gentlemen, to deliver addresses. The utmost order prevailed, and it was remarked that the emigrants seemed to be perfectly free from bitterness, both as regards their employers and the country which has sent them forth. Some admirable advice was also given to the mothers and children by the Rev. T. Bowman Stephenson, of London, who was on board with forty little emigrants from one of his Homes for Boys. Another pleasing feature was the presence of a representative from the Liverpool Trades' Council with a present of £10 from the workingmen, to spend in clothing, etc. About seven the anchor was raised, and with three hearty cheers from the emigrants the good ship started on her voyage. Until lights were turned out the utmost good humour and contentment prevailed on board—jokes were cracked, Union songs, almost without number, were sung, and I watched in vain for a single sign of grief or regret. My companions might have been starting on a brief pleasure trip to some well-known spot, instead of a long and perilous journey to an unknown land. Nor was their mirth the result of deception or ignorance. The emigrants have not been allured by false representations, nor have they been left without information. They know perfectly well that hard work and severe trials await them in their new home. Indeed, if Mr. Taylor and the Union have erred at all, it has been in painting the picture in too gloomy colors. The fact is, the emigrants have lived a life so exacting in its demands, so full of privation, and so utterly destitute of hope, that no change can well be for the worst. The old story was told on all hands, and its truthfulness was only too plainly attested by the appearance of the tellers. One man from Northamptonshire declared that he had long wrought fifteen hours per day for fifteen shillings a week; and his wretchedly care-worn wife added that the fortnight's bread had cost 22s., leaving only 4s. per week for all the other necessaries required by a family embracing seven children. A worthy fellow from Dorset with six children had received 11s. per week, with a cottage and a small garden, and had not been able secure anything beyond bread and vegetables for years. A poor creature from the Wolverton district told a heart-breaking story of sickness, famine, and misfortune; and another, rising from his mid-day meal on Thursday, declared that he had eaten more meat since coming on board than in all his previous life, "sceptin' Krismus." The motley throng represented twenty-one of our English counties, and of this entire number the same testimony was borne. Nor is it possible to doubt, still less to deny it, these folk impress you with their simple truthfulness: you cannot but believe them. As a testimony to their credibility, let me state that some of them bear written recommendations of the highest possible character. I was especially struck with one of these, purporting to be from Bishop Stanley, of Honolulu, now Rector of an English country parish. To the helpfulness of some members of the class this gentlemen so worthily represents grateful references were made; but, on the other hand, many bitter things were said of rural reverences who had frowned upon the Union, ejected labourers, and hindered intending emigrants from obtaining the assistance of the kindly disposed. Such references were far in excess of more complimentary ones, and led me to the conclusion that our country parsons are sadly deceiving themselves if they imagine their hold upon the labourers to be other than the slightest.

The entire company numbered some 500 souls of all ages, from a month or two to fifty years. We had a sprinkling of strong unmarried folk of both sexes, and several newly wedded couples, over whose furtive rustic caresses the sailors made merry with a vengeance. But the bulk of the party consisted of married people between twenty-five and forty, having families varying from three to ten children, six or seven being the rule. Let no one think that in these circles, lowly though they are, the courtesies of life are wanting. I saw many a man acting his part as a husband and father with a brave self forgetfulness which stamped him as a gentleman in the rough; and many a mother whose anxious care for her children and womanly modesty amid the trying conditions of an emigrant ship, would have honored the proudest of her sex. The disposition manifested to help one another in settling down, in adjusting little inconveniences, excited universal admiration, as did the gratitude displayed for what was deemed the luxurious fare of the steerage. This fare comprises for breakfast a large roll with plenty of butter, ship buiscuit, and coffee; for dinner an unlimited supply of soup, bread, meat, and vegetables; for the evening meal, coffee, porridge, roll, and biscuit. To an epicure this would not offer many attractions, but to these good people it is simply marvellous. After breakfast this morning I heard scores of exclamations such as these: 'I should think the Prince of Wales han't done better.' 'Dash if I ever were satisfied afore I gird over before.' 'To think as I should live to hae hot roll and butter fur breakfast; I never seed a roll, and as for butter there's never been any on my table,' said a good wife. On the whole I incline to believe with the steward, that a finer body of emigrants never sailed from the old country. I left them in Lough Neagh with intense regret, and long after their vessel had become a mere speck upon the horizon they occupied my thoughts.

Provincial Exhibition.

The preparations on the grounds for the approaching exhibition of the Provincial Agricultural and Arts Association are now nearly complete, and yesterday a considerable number of articles were received, many of which were placed in the positions assigned them.

The following is a list of the entries in the various classes up to last night, as compared with the numbers up to the same time in the two previous years. It will be observed that in some of the classes no repor was made at these dates, and these spaces are consequently left blank. The total number of entries, however, independent of them, is about 600 more than last year:

	Hamilton, 1872.	London, 1873.	Toronto, 1874.
1. Thoroughbred-horses	22	25	37
2. Roadster horses or carriage horses	344	433	302

DR. S. JACOBS, ON APHONIA, OR LOSS OF VOICE.—Orange Street, St. John, N. B., 1869.—Mr. Fellows:—Sir: I am bound to award the palm of merit to the preparation of Hypophosphites discovered by you. I had occasion to use it myself in a case of Aphonia, which would not yield to regular treatment, and am happy to say it proved to be all that you claimed for it, having acted with expedition and entire satisfaction. I feel called upon to publish the fact, that the profession may avail themselves of a remedy in your "Compound Syrup of Hypophosphites." Yours, very truly, S. Jacobs. 3665

The Ottawa Times

WEDNESDAY, SEPTEMBER 16, 1874.

The Tories of South Leeds have nominated Dr. Preston as their candidate in the forthcoming election for the Ontario Legislature.

We are requested to state that their Excellencies the Governor General and Countess of Dufferin will make their promised visit to the Exhibition at two o'clock this afternoon.

There is a great sale to take place this evening at or near Mr. Rowe's auction rooms. The Tories one and all are invited and expected to be present, to be sold, of course. No doubt, the whole thing will be a big "sell."

Mr. P. White has been unseated for bribery on the part of his supporters in North Renfrew, but he has been exonerated by the judge from participation in these corrupt acts personally. He has again received the nomination of his party—which our Tory friends, of course, will characterize as a sure sign of that party's innate corruptness—and will be opposed in the Reform interest by Mr. William Murray.

A day or two ago we noticed from the report of the proceedings in connection with the Provencher nomination which was published in the columns of *Manitoban*, it appeared that a Mr. Berthelot—not Dr. Bown—was the candidate in opposition to Riel. We see it stated in the Winnipeg correspondence of the *Globe* that Mr. Berthelot nominated the doctor, which explains the inadvertency on the part of our Winnipeg contemporary.

Mr. Bannerman declines to face the music in opposition to Mr. McDougall, in, South Renfrew, and for good reason. He had not the ghost of a chance of going in but if he did his own bribery and the bribery of his opponents at the last election would be subject to inquiry before an Election Court. There was a further reason. The Tories mean to spend some money this time again, and risk it, but Mr. Bannerman refuses to bleed any more. A Mr. Barnett is going to sacrifice himself, 'tis said.

Mr. Cameron, the Mayor of Windsor, speaking of the proposed Reciprocity Treaty at the nomination of Mr. McGregor as Reform Candidate for Essex, said it had been elicited from the delegation of manufacturers which waited upon the Premier that they wanted money put into their own pockets at the expense of the nation at large. Mr. Cameron never gave utterance to a more truthful or more pertinent remark in his life, we are perfectly safe to assert, for it contains the whole secret of the opposition of that class to the proposed convention in a nutshell.

Yesterday the annual matches under the auspices of the Dominion Rifle Association were commenced at the butts. Her Excellency Lady Dufferin opened proceedings by firing the first shot, making, of course, a bull's eye. His Excellency and suite were afterwards, in company with the members of the Government, leading volunteer officers of the Dominion and the principal citizens of Ottawa, entertained at luncheon by the executive of the Association, on behalf of the President, Lieut.-Colonel Gzowski, who is now in England, and was unable to be present. Lieut.-Colonel Powell, in the absence and at the request of the President, occupied the chair, and Lieut.-Colonels Brunel and Macpherson did the honours of the vice chairs. A report of the proceedings, together with the speeches of His Excellency, the Premier, and others, will be found at length in another column.

PRESBYTERIAN UNION.

The time is now approaching when the question of the union of all the Presbyterian bodies in the Dominion will come before the superior courts of the respective churches for the last time. It is now occupying the attention of the inferior judicatories and the congregations, and up to this time the movement in favour of Union, strong, decided, and not to be stemmed as it was before, has now grown stronger and indeed perfectly irresistible. The more sensible of those who were at first opposed to it have gradually accepted the situation, and although probably not perfectly satisfied with the concessions which have been mutually agreed to, have at any rate resigned themselves to the inevitable—to the decision and desire of the vast majority—in a spirit becoming Christian men and gentlemen. The number who hold out in either of the Churches is insignificant and their motives and manner of expressing them can scarcely be said to be reassuring to those who have hoped that uncharitableness and cherished spite had ceased to be a characteristic of the disciples of John Knox, if it ever were so. We have ourselves from the beginning of the movement declared our incapability of discerning wherein the difference between the respective bodies lay, and we are unable to see it yet. If the differences were really appreciable, there are points of agreement—great doctrines upon which it would be impossible for Presbyterians deserving of the name to be divided—which might well form a basis of union. It is too late now too speak of the advantages of the proposed fusion. They are so apparent of themselves that they require no statement. The tendency of Christianity in the present age is to bring into closer, holier contact the various branches of the Church of Christ, and to refuse to obey the directions of that spirit is to assert that Christianity and the civilization of the nineteenth century are as inconsistent with each other as the most advanced infidels could have us believe. We are not amongst those who set great store upon an ideal undivided church. We believe that all churches have in them those elements which bring to their adherents the saving virtue of the gospel and the salvation of the God of the Gospel, and, acknowledging those who in their persons represent its effects to be subject to all the influences which work upon weak human flesh, we believe there is some efficiency, without material or visible action, in healthy competition even within the pale of the church. But when the differences are those which have their origin—not in any real variance of opinion—not in any matter of doctrine—but in the unchristian hearts of the churchmen, the sooner there is an end of it the better. Such we believe to be the position of matters in the Presbyterian Churches in this country. They have not even the connection of Church and State nor the abolition of Lay patronage to quarrel about, and their division which was the result in the first place of that meddlesome patriotism which refuses to let well enough alone, and thrusts its fingers into other people's pie, is continued but by nursing an old grudge, and perpetuating old and not very graceful jealousies. Of course our Presbyterian friends will no longer rest under the imputation of straining at a gnat of this description, while daily and weekly they pray for the closer communion of God's saints throughout the whole world. We have no doubt the result of the present appeal to the various constituencies of the negociating churches will be more satisfactory even than before; and we can only hope, although we hardly expect, that those who have raised strife and disaffection in any or either of the bodies will see their folly and repent of it before it is too late. We are led to these remarks by the fact that one of the Ottawa congregations meets this evening to decide upon the matter, and also in some measure in compliance with a request contained in a circular from the editor of the Montreal *Presbyterian*, who has himself been an earnest and able advocate of union. We may have something further to say of the matter soon.

CITY AND VICINITY

The Union Question.—The congregation of St. Andrew's Church, Wellington street, will discuss the question of the proposed Presbyterian Union this evening.

A Good Idea.—Those in charge of the Fire Department have had the tanks along the By-Wash channel cleaned out to ensure a clean source of suction for the steam fire engines.

Immigrants.—A number of immigrants arrived yesterday by the St. Lawrence and Ottawa Railway. They are for the most part English, Scotch and Irish immigrants. Mr. Wills disposed of them very satisfactorily.

Indecent Assault.—A man named Bowen was arrested yesterday afternoon for an attempt to commit an indecent assault upon a young girl residing on Sandy Hill. He will have to answer for his inhuman conduct before the *Cadi* this morning.

Sad Death.—A young man named John Baillie, who has been lying in the Protestant Hospital for some days from the effects of a wound received by falling from a load of hay on a pitchfork, died in that institution yesterday. The young man was from the Township of Gloucester, and his melancholy end will be received with regret by his friends and acquaintances.

Skeleton Exhumed.—A skeleton of a good sized man is reported to have been exhumed yesterday in rear of the new building now being erected by Ald. Heney. The boots were attached to the feet of the skeleton when found. This is doubtless a reminiscence of foul play in many years gone by. The boots might serve as a clue to some sharp detective.

Imports for Ottawa.—The manifest of the Steamship *Sarmatian* just arrived from Liverpool, shows the following goods destined for this city:—J. Henderson & Co., 2 cases; Garland, Muchmor & Co., 5 pkgs; Kearns & Ryan, 2 cases; Fingland & Draper, 1 case; C. King & Co, 1 case; Government Stationary Office, 1 case and 3 pkgs; Militia Department, 1 case; Elliott and Hamilton, 3 cases.

Advertisement.—The "Babcock" Manufacturing Company purpose showing the capability of a large engine of their make of putting out a fire, at 3 o'clock on Wednesday afternoon on the Exhibition Grounds, Bank street—a house 15x20 built purposely, filled with all kinds of inflammable material, will be fired, and on being directed to extinguish the fire, the operator will endeavour to do so. 3781in3

Dominion Board of Trade.—Mr. W. M. Somerville, Secretary of the Ottawa Board of Trade, has our best thanks for a copy of the proceedings of the recent semi-annual meeting of the Dominion Board of Trade held at St. John, N. B, on the 16th and 18th July last. It gives in pamphlet form a careful digest of the business transacted at that meeting. It is rendered somewhat more interesting from the fact that the discussion on the proposed Reciprocity Treaty is given at some length in its columns.

St. Patrick's Orphan Bazaar.—The ladies connected with the management of the St. Patrick's Orphan Bazar held a meeting yesterday in the Asylum, and decided on holding it on Thursday, October 22. They deserve great credit for their exertions in behalf of the helpless poor, and it is to be hoped they will be liberally supported by the public. The Institution at the present time is crowded with inmates, and the coming winter will be likely to tax the energies of the Directors to the utmost in order to supply the wants of the little ones.

A Beautiful Horse.—There is nothing that can contribute so much to render the horse beautiful and elegant, to improve his condition and make him all that is desirable, as "Darley's Condition Powders and Arabian Heave Remedy," it has been used by many persons who own valuable carriage and other horses with decided success, and so well pleased are they with it that they always keep it on hand in case of emergency; it may be given at all times with perfect safety. Remember the name and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Toronto, Ontario, proprietors for Canada. Sold by all medicine dealers. 3671m

The Daily Times can be procured every morning for 15 cents per week. The "Weekly" Friday morning's, in time for English Mail, at E. A. Perry's Elgin St.; Battle Bros., Rideau St., and Russell House; Lacy, Bridge St., Chaudiere; L'Echo Office, Hull; St Lawrence & Ottawa, and Canada Central Railway Staiton.

Arrivals at the Russell House.—W. J Shaw, B Sanders, Toronto; T L Belcher, W K Ramsay, M David, H Butler, G Johnson, D Graham G H Balfour, P Hood. D T Fraser. C H McLeod, a G Sheriff, F F Finlay, Montreal; C S Chenn, St. John; J. McCuan, Arnprior; W B Boyd, Sherbrooke; H K Hanning, Danville; G Bryson; Mansfield; J Usborne, Arnprior; H Gray, New York; Rev. E T S Edwards, Rev. N Madan; H E Hodson, England; J W Dwight, Doyden N. Y; Miss Julia Brett, Miss Ellen Brett, Osgoode; G Shesill, Glasgow; E W Lewell, Quebec; J McLaren, Buckingham; J Rosamond, Almonte; J H McLachlin, Arnprior; A J McDonell, Sand Point; B Bailey, Kingston.

Fashionable Wedding.—A fashionable wedding took place yesterday morning at nine o'clock, in Christ Church, Aylmer, when Miss Charlotte Conroy, third daughter of the late Mr. Robert Conroy, of Aylmer, was married to Mr. Arthur M. Perkins, of Montreal. The service was conducted by the Rev. Canon Johnston, of Hull, assisted by the Rev. P. W. Smith, of Aylmer. The bridesmaids were Miss Maria Conroy, Miss Scott and Miss Kate Eaton, the best men being Mr. J. Inglis and Mr. Conroy. The bride looked lovely, being dressed in white corded silk, with veil and wreath of orange blossoms. The bridesmaids were dressed in blue tarletan, with white feathers. After the ceremony was over the wedding party returned to the bride's mother for breakfast, and the bride and groom then left for Boston on their wedding tour.

The Christening of the Bell.—Next Sunday the new bell for the parish church of Notre Dame at Cyrville, will be christened with solemn ceremonies peculiar to such occasions. The sponsors on behalf of the congregation will be Dr. St. Jean, Mr. Joseph Aumond, Mr. Germain, Mr. P. O'Meara, Mr. Wm. Kehoe, and Mr. Wm. McCaffrey. The bell, which weighs 2,055., was cast especially for this church, and is of a very musical tone. A great number are expected to attend from the city on the occasion. The sermon will be preached by the Rev. Father Moylan, and the services conducted by the Rev. Father Guillaume, parish priest. In honor of the miracle which occurred in France a short time ago the bell will be named Benadetta, after the Nun of that name who has become famous throughout the world for her piety, and the especial blessings she has enjoyed.

Heavy Rain Storm.—Yesterday evening about 4:30 o'clock, a somewhat terrific storm visited the city. A tremendous gale of wind was the precursor of a heavy rain storm, that literally drenched everything in a short space of time. At the fair grounds no little consternation was caused by several attempts on the part of horses to runaway, and for a time tents, sheds and other buildings seemed to succumb to the force of the hurricane. In the distance fires were rekindled with a freshness, that made the smoke and flames flash across the heavens with a fitful glare. Surmises were freely made as to a great loss of property to the South and West of the city. All fears were, however, soon quelled by the falling of rain, which came down in torrents. It was accompanied by thunder and lightning. There is much rejoicing over the fact of the long expected rain having come at last. It will be a relief to a community that has for upwards of six weeks breathed in a smoky and murky atmosphere. It will also be hailed with satisfaction by the farming community whose cattle were suffering terribly from long drought.

Young Men's Christian Association.—A social meeting was held in the basement of the W. M. Church, Metcalfe Street on Monday evening, George May, Esq., in the Chair, to receive the reports of Messrs. Forgie, A. E. De St. Dalmas and Bovill, delegates from the Ottawa Association to the Y. M. C. A. Convention, recently held at Port Hope. After tea, Mr. R. Forgie gave an account of the public meetings, the first of which was the welcome meeting, a welcome which he described as "right royal." At this meeting, which was numerously attended, the President of the Port Hope Association, after welcoming the delegates, announced the condition of their building fund as most hopeful; $9,000 had been subscribed, of which the ladies raised $1,200. Mr. Chisholm, on behalf of the town, welcomed the delegates, and testified of the good accomplished by the Association. Dr. O'Meara, on behalf the ministers, welcomed the delegates and spoke of the harmony with which the Churches of Port Hope wrought together. Mr. Forgie also described the Farewell Meeting, and spoke of the sorrow evinced at this meeting, that so pleasant a season should so soon come to a close. After the singing of a hymn, the Rev. Mr. Hunter said he wished to express his opinions on the value of the Y. M. C. A. The Rev. gentleman expressed the desire that the Ottawa Association should soon have a building of their own, whether that building should be his own church, which will soon be for sale, or a new building. Mr. R. G. Bovill, the next delegate, being called upon by the Chairman, then proceeded to give a report of the business meetings of the Convention. The first point he touched upon was the report of the Executive Committee, by which it appears that ten additional Associations have been organized during the past year; also the reports of individual associations from different sections of the Province of Ontario. He believed the secret of their great success was as confessed by a delegate from Montreal, that they never held a meeting without expecting results. He next reviewed the papers read before the Convention, referring especially to one on the 'Original aims of the Y.M.C.A.' by Mr. Baldwin of Toronto, which laid down in clear language its mission, viz:—'The Salvation of Young Men.' After a hymn was sung, Mr. A. E. De St. Dalmas furnished interesting additional details of the Convention and said that if we expected success in the work we must be faithful to Christ. He referred to a paper read at the Convention in which the advice was given to Christians to "pray, believe and work all the time" and said he hoped friends would come forward to assist in the work of the Association. Mr. F.W. Radford then referred to the work the Association was engaged in, particularly Hospital and Jail Work, and asked for some to help in this work which would doubtless be a blessing to themselves. Mr. W. J. Topley, President, then spoke of the erection of a building for their use but said it was not essential to their existence, and it was their duty to do what they could under present circumstances. He also thought that they deserved more support from Christian Churches than they got. After singing a hymn, and the benediction by Rev. Mr. Saunderson, this most pleasant meeting was brought to a close, the only regret being that there were not more present to hear the interesting reports presented.

Police Court.

Before M. O'Gara, P.M.

Tuesday, Sept. 15.

John Quinn, who was brought up on a charge of being drunk and disorderly, was discharged.

E. Vezina, arraigned on a similar charge, was fined $3 and costs.

Mary Ann Deault, *alias* Madame Campeau, was charged with discharging a pistol, contrary to the statute, and for her indiscretion was *mulcted* in the sum of $20 and costs.

Cassimir Deault, arraigned for keeping a disorderly house, was dismissed.

Cincinnati, Sept 14.—The Grand Hotel, one of the largest and finest in the United States, was opened to-day for the reception of guests, and until a late hour tonight was thronged with admiring crowds.

Dominion Rifle Association.

ANNUAL MEETING.

OPENING PROCEEDINGS.

Lady Dufferin Fires the First Shot

Yesterday, at noon, was inaugurated what promises to be one of the most successful meetings of the Dominion Rifle Association. Assembled on the rising ground that overlooks the Rideau River, were His Excellency the Governor General, the Countess of Dufferin, and other members of the vice-regal party, the Militia Staff at head quarters, the Premier and other members of the Government, together with a large number of the *elite* and fashionable of the citizens of Ottawa. The Governor General was received at the grand pavilion by a guard of honor of the Foot Guards and the fine band of the regiment. Shortly after 12 o'clock, Lady Dufferin advanced to the site from which she was to fire the first shot, that was to open the meeting. Col. Brunel gave directions for the field gun to be fired as a signal to the markers in the butts, after which the buglers sounded the "commence firing." This done Lady Dufferin carefully handled the rifle entrusted to her charge, and scored a bull's eye, which was duly signalled from the butts, at a distance of 600 yards. After this ceremony was over the Vice-Regal party and a large number of ladies and gentlemen retired to the pavilion to enjoy a sumptuous lunch. The grounds are laid out with much taste, flags flaunt in the breeze in every direction, and give a fine appearance to the range. During lunch and after the conclusion of the opening services the different competitors proceeded to fire off the "All-Comers Match."

THE LUNCHEON.

The executive of the Association, acting for the President, had a large and elegant marquee erected for the reception at lunch of their Excellencies the Governor General and the Countess of Dufferin and suite, the members of the Government, the officers, and prominent citizens who had been invited to be present. The tent was surrounded by a complete circle of trees, with an entrance for the guests from the east, and the grounds within this enclosure were laid off and decorated as an elegant flower garden. The inside of the marquee was also very tastefully decorated with flags, bayonets and rifles, after the most approved military fashion. The chair was occupied by Lieut.-Colonel Powell, Acting-Adjutant General and upon his right and left His Excellency and the Countess of Dufferin. Prominent among the ladies present we noticed Lady Dufferin, Mrs Mackenzie, Mrs W Powell, Mrs Currier, Mrs Thos Ross, Mrs Sherwood, Mrs Lewis, Mrs Pollard, Mrs Langton, Miss Lewis, the Misses Kimber, Mrs Mattice, Mrs Fleming, Miss Jenkins, Mrs Tilton, Mrs Sweetland, Mrs Forrest, Mrs Stuart, Mrs Kimber, Mrs G W Wicksteed, Mrs H Wicksteed, Mrs Brunel, Mrs C Carriere, Mrs H O'Meara, Mrs White, Mrs Noel, Mrs Lemoine, Mrs Cassels, &c.

Among the gentlemen present were His Excellency, Lord Dufferin, Hon. A Mackenzie, Colonel Fletcher, Hon A J Smith, Hon I Burpee, Colonel Powell, Col Jackson, Col Forrest, Col Brunel, Col Wiley, Col Ross, Col Bernard, Col Aumond, Col Macpherson, Col Bacon, Col Worsley, Major Mattice, Major Ellison, Capt Tilton, Capt Wicksteed, Major White, Col Beers, Col Stuart, Capt Weatherley, Mr Jenkins, MP, J M Currier, MP, Mr R S M Bouchette, Mr Smith, Deputy Minister of Marine, Mr. H V Noel, Mr Cassels, Dr Sweetland, Rev. Mr. Gordon, Rev Mr Pollard, Mr Sandford Fleeming, Mr T C Keefer, Mr Langton, Dr. Beaubien, &c.

The luncheon over

The Chairman gave the toast of the "Queen," which was loyally responded to, as also was the toast of the "Royal Family."

The Chairman then referred to the fact that the Governor General was present, and said His Excellency took a very high interest in rifle shooting, being himself no mean marksman, and having taken part in rifle competitions at Wimbledon, between the "Lords" and the "Commons." His Excellency had just returned from a trip to the west, where he had had the opportunity of seeing many of the representatives of the volunteer force of this country, an opportunity of which he had undoubtedly availed himself to a very large extent. The gallant chairman then proceeded to recite the objects of the association, and some of the difficulties they had had to overcome in bringing together to this centre representatives of all the provinces of the Dominion. The plan was perhaps not without its failings, but it appeared to him that it was the best adapted to the nature and situation of the country. His Excellency had on a late occasion honored the meeting of the Provincial Association of Ontario, at Toronto, with his presence, and now he was here to do similar honour to the representatives of the different Provinces, who had assembled for the purpose of endeavouring to obtain a reputation in the use of the rifle. He (the chairman) was very glad that there were present several other gentlemen who, from their acquaintance with volunteer matters, both here and in other countries, were able to judge precisely as to the efficiency of our force. Some of them, he was happy to say, intended to take a part in the Matches. (Hear, hear). The Association, among the many good results it brought about, had the effect of bringing together the best shots in the Dominion, of testing the efficiency of the marksmen who come from the different Provinces, and thus exciting a healthy competition, not only amongst the men themselves, but between the different Provinces they represented. He remarked that the Association had the privilege of selecting the team which represented Canada at Wimbleton. He was sorry to say that the team which had lately returned had not taken back with them any of the great prizes, but, nevertheless, they had reflected great credit upon the Dominion, and when we considered that there were only twenty of them competing against the picked shots of the entire British Empire, we had great reason to be proud of them. (Cheers.) To select 20 men from a territory of 3000 miles in breadth involved, as could be readily anticipated, no little amount of difficulty, especially when it was remembered that each Province had to send its quota of representatives. It had also to be remembered that the climate of Ontario and Quebec was very dry, that of England was moist, and the difference affected the shooting capabilities of the men. There were other difficulties in the way of success, although perhaps of a less prominent character. It seemed to him that an association of this kind was a perfect necessity, if an exact and high standard of efficiency was to be maintained. He repeated that there could be no doubt of the good effects of bringing the best marksmen of all the Provinces together, inasmuch as it excited a keen desire for excellence and enabled the men to find their own level. He concluded by proposing the health of His Excellency the Governor General, which was received with cheers and responded to with great enthusiasm.

His Excellency, who was received with enthusiastic applause in reply to the toast of his health said:—

Colonel Powell, Ladies and Gentlemen,—I have just been warned that I am firing at a long range target, and therefore I hope that those immediately about me will bear with me if I elevate my voice to a pitch which may be unpleasing to them. (Laughter) Ladies and gentlemen, in thanking you, as I do most heartily, for the kind reception you have given to my health, I am glad to take this opportunity of congratulating the Council and members of the Dominion Association both on the success of their present meeting and on the satisfactory result of their past endeavours. (Applause) Any Association which unites in a common effort and for a common object the component elements of the Dominion will always command my warmest sympathy and support (applause), and when these patriotic combinations are voluntary in their origin, self-sustained in their growth and of practical benefit to Canada at large, supplying a general need and the result of a universal impulse, they are a striking proof of the rapidity with which the recently disjointed Provinces of British North America have solidified into a compact nationality (applause); and, gentlemen, this fact receives additional point and emphasis when it is remembered that out of the bosom of your association proceeds that band of marksmen who are charged with the responsible privilege and obligation of upholding the honour, reputation, and prowess of Canada in the lists of Wimbledon. Those lists are becoming every year more and more a world-famed arena upon which the eyes of the various populations of the British Empire are concentrated with the most eager attention, and depend upon it, gentlemen, it was a significant epoch in the history of that Empire, when the champions of Canada planted within that area the banner of the Dominion beside the standard of England, Ireland and Scotland. (Great applause.) Gentlemen, although of course your representatives have experienced those varying fortunes which are incident to all competitions of this nature, we have no reason to be dissatisfied with the result, for the Canadian team have already won honourable places in many hardly contested trials of skill with the best shots of Great Britain. (Applause.) I have had the most satisfactory letters upon this point from the Earl of Ducie, the Duke of Cambridge and the other authorities of the British Rifle Association, all of whom bear testimony not only to the good scores but also to the good conduct, gentlemanlike bearing, and fine soldierlike demeanour of the inmates of the Canadian camp, which, under the splendid auspices of Colonel Gzowski, to whose energy, judgment, and liberality, this association is already so much indebted, became a chief centre of attraction to every visitor at Wimbledon. (Great applause.) Indeed, we Canadians must I think have felt a thrill of generous satisfaction when we learnt on the one hand how nobly we were represented, and on the other, with what an extraordinary amount of interest, pride, and sympathy, the Canadian contingent was welcomed and cherished by their English brethren and fellow-subjects. (Applause.) Gentlemen, in conclusion, allow me to exhort you with all the earnestness that I can command, to continue your efforts to promote excellence in rifle shooting. The science of war has come to consist in the art of keeping your enemy at arms' length, by the precision of the rifleman's aim. A nation of real marksmen would be almost unassailable. The rifle is the hereditary weapon of the Canadian settler, nor if need be will it fail to prove a sufficient bulwark to the Canadian Dominion. (Great applause.)

The Chairman said they had present with them the Premier of the Government of Canada, to whom of course they had to look for the sinews of war. (Hear, hear and laughter.) He had much pleasure in proposing the health of the Premier of this country, the Hon. Mr. Mackenzie. (Loud applause.) The toast was enthusiastically responded to, and in reply the

Hon. Mr. Mackenzie said,—Colonel Powell, ladies and gentlemen,—I am not sure whether I am capable of firing at the long range just spoken of by His Excellency, but I shall do my best to make myself heard in the very few words I propose to address to you. You, Mr. Chairman, gave the toast of my health, because you thought you would have to look to me for the sinews of war. (Hear hear.) I am glad, Sir, to say, that every administration in this country must necessarily do their utmost, when occasion requires, to provide at once for the maintenance of the dignity, the honour, and the independence of this Dominion. (Hear, hear.) I am well aware that in toasting the Premier, you toast also the Administration of the day. It is quite unnecessary to say that the Administration of Canada must at all times have the moral support of the whole country to enable them to direct and superintend its affairs properly. (Hear, hear.) I am equally aware that there is prevalent in this country a spirit of patriotism, which, whatever the political complexion of the Government may be, will enable them to command that moral assistance and support from the whole people which is accorded to every body of men who may happen for the time to guide the destinies of English speaking countries. (Cheers.) It will be the duty of the present, as well as of every other Administration of Canada, to have as its first great purpose the maintenance of the honour, the independence, and the standing among the nations of the earth of the Empire of which we are proud to form a part—(cheers)—and especially to see that nothing is permitted to be done which would be inconsistent with the honour, the dignity, and the independence of our young but loyal Dominion. (Cheers.) I am glad that the spirit which I have spoken of as characterizing all English speaking nations reigns pre-eminently in the British hearts of the people of this country, and if in the unseen future there should ever be such a calamity as the dismemberment of the Empire—which Heaven forfend—I have not the slightest hesitation in saying that it will be no Canadian's fault that it came about (Loud applause.) I regret that I am not able to say much upon purely military matters, even although I have the honor of holding a commission in one of our military corps. I am fully aware, however, of the spirit of loyalty, patriotism and devotion to their country which pervades the Canadian Volunteers, for I have had the honor of serving with them on the Frontier, and I know there is no braver class of men, no more powerful class physically, on the face of the earth than the hardy men of the North. (Loud cheers.) Whenever and wherever their services may be required in the interests of their country, that service will be given, and, too, with such a will and in such a manner as will not fail to reflect honour and credit upon the Dominion of Canada. (Cheers.) Whatever is necessary in order to place the militia force in a state of efficiency, will, I can with sincerity promise you, be done by the Administration which I have the honour at present to lead, as far as their ability to judge of its necessities will enable them; and I have no hesitation in saying the same for any other Administration which may be at the head of affairs in this country. (Hear hear.) I thank you very cordially, on my own behalf, and on behalf of my colleagues, for the manner in which you have received the toast, and I can assure you that so far as it is in our power we will endeavor to merit some measure of esteem at the hands of the country, or at any rate from those who look not so much at the results as to the intentions which inspire the acts of the Government. We of course must be prepared to submit to criticisms more or less adverse. We may do things, and no doubt have done things, as every Administration has done, in administerring the political affairs of the Dominion, which those opposed to us have a right to criticise, according to their light, somewhat severely; but in regard to our volunteer system I trust that we will be found in sympathy with all parties in this country, and entirely at one with them and supported by them in endeavoring to make it, not only an honourable institution, but calculated to conduce to the elevation of the moral character of the people, as well as to their general welfare. (Cheers.) I am very sorry that your President is not here to-day, that he might bear testimony personally to the encouragement he has received in the great work which he has interested himself in so largely—encouragement, I mean in the shape of improvement in the facility and accuracy with which our volunteers handle the rifle, and that he might personally supervise their practice during the competition which is about to be begun. No one has done more, and few have done as much, as Colonel Gzowski for the advancement and general welfare of his adopted country, and I am sure I express the sentiments of all present when I say that I am heartily sorry we have been denied the pleasure of his company to-day. (Loud cheers.) It gives me very great pleasure indeed to conclude by proposing the health of Lt.-Col. Gzowski, the President of the Association. (Enthusiastic cheers).

The toast having been duly honoured,

Lt.-Col. Brunel was called upon to reply. In doing so he acknowledged that he felt himself highly honoured, and was sincerely sorry that the President was not present to perform the duty. Why he (Col. Brunel) had been selected to reply he did not know, unless indeed it were because he had been associated with Col. Gzowski in the first efforts which were made to form rifle associations and establish rifle competitions. Col. Gzowski in company with the speaker and others who were more efficient in the cause than he were, influenced in that direction by the conviction that it was desirable to encourage a military spirit among the people ere Canada could either have or maintain a respectable status amongst the nations of the earth, and deeply impressed with the assurance that it was ever necessary to have such a spirit in order to create a feeling of self respect, and that confidence in their own strength which would make them able to resist aggression. One of the first necessities to the creation of that feeling was a knowledge of the use of the more effective weapons of the present day, and although the rifle was only one of the weapons which a soldier had to learn to use, yet a soldier could be of very little use in modern warfare unless he could handle that weapon efficiently. (Cheers.) It had been objected to the Dominion Rifle Association that they were occupied chiefly in distributing prizes to people who made a business of rifle shooting, and who went from place to place making money by it. He thought this opinion would be dispelled when it became known that out of the forty-two first prizes which had been awarded by the Association at its first meeting, two of them only had been won by the same individual. (Hear, hear and cheers.) It was evident that the rank and file participated in the competitions, from the very fact that out of the forty-two first prizes already referred to only fourteen had been won by officers. (Hear hear.) In the Provincial competitions which had been held under the auspices of the Association, the Province of Quebec had carried off the trophy of honour in 1868 and 1873, while Ontario had taken it in 1869, New Brunswick in 1870, and Nova Scotia in 1871. In the battalion matches, the 8th Battalion come off victorious in 1868, the 14th in 1869, the 68th in 1870, the 63rd in 1871, and the G. T. Rifles in 1873. He also mentioned that Messrs. Vail, Annand, and Hickey were selected for the Wimbledon teams in 1872 and 1873, having thus gone twice to England in succession. He would not enlarge further upon the subject, because he knew that brevity of speech was one of the essential qualities of the soldier. He would therefore conclude by thanking them in the name of Col. Gzowski for the handsome manner in which the toast of his health had been proposed, and for the enthusiastic manner of its reception. He would have very great pleasure in reporting this to the President, and he felt doubly gratified because it had been done in the presence of Lady Dufferin, who had condescended to be present and fire the first shot at the opening of the competition. (Loud and prolonged cheers.)

Hon. A. J. Smith said that before all the toasts were disposed of, he desired to have the honor of proposing one health, and he might say with safety that it was one which would meet the approbation of all the ladies and gentlemen present. He did not intend to make a speech, for after the sentiments expressed so well and so fully by so distinguished a Nobleman as His Excellency, supplemented as they had been by the Premier, there was little left for him to say. He would not speak of the gentleman to whom he was about to refer in his capacity as a soldier, for soldiering was not his particular business. (Laughter.) Although he took a good deal of interest in our military institutions he did not know about them sufficiently well to be able to speak of them very minutely. He would therefore without further preface propose the health of the gentleman who performed so very satisfactorily the duties of the chair upon this occasion, Lieut.-Colonel Powell, the Acting Adjutant General.

The toast was received with loud cheers.

The Chairman returned thanks for the great honour which had been done him. He did not desire to claim any credit for being Chairman upon this occasion, as he was simply acting in the absence of Col. Gzowski, who, although he could not be present, had taken care to have himself represented so far as the discharge of every duty was concerned, except those of a personal nature. With regard to the latter he had done him (Col. Powell) the honour of requesting him to take his place. He was very sorry that Colonel Gzowski had not been able to be present at the commencement of the competition, especially as it had been so well opened by Her Excellency the Countess of Dufferin. (Loud cheers.)

The company then broke up, the majority taking the opportunity of paying a visit to the Ranges where the competition was proceeding.

ALL COMERS MATCH.

The opening competition was the "All Comers Match," for which there were about 150 entries. The first stage of the match was commenced at the 200 and 500 yards ranges, and continued till the storm, which broke over the city, put an end to the shooting. The volunteers seemed greatly disheartened at the unfavorable state of the weather, which so suddenly and unexpectedly put a stop to their operations. There is, however, good prospects of fine weather to-day, when some good shooting is anticipated. The majority of the Canadian Wimbledon team are present, and anxious to win fresh laurels. Firing will be resumed at nine o'clock this morning.

THE GRAND CENTRAL FAIR.

OPENING DAY OF THE EXHIBITION.

Indications of Success.

The inauguration of the seventh Annual Exhibition of the City of Ottawa Agricultural Society took place yesterday under the most favourable auspices. Some little confusion prevailed at the outset, owing to the tardiness with which competitors brought in their animals and products to the grounds, but through the effective and energetic action of the Hon. James Skead, President, Mr. A.S. Woodburn, Secretary; and Messrs Eaton, Morgan, McKellar, Robertson, and other directors, order and harmony soon prevailed, and everything was made ready for the Judges, who got to work at 3 o'clock p.m. The competition in all departments is keen, and greatly in excess of any previous year; and what is a noticeable feature, competitors this time come from the far West and East to compare results as to the breeding of stock, the manufacture of industrial and farming implements, and the raising of Agricultural products, with the farmers and artisans of Central Canada. The grounds present a rather lively and animated picture, which with the display of bunting, floral devices and gorgeously laid out tables, lend a view to the eye, at once enchanting and bewildering. In fact, words can but inadequately give the reader any conception as to the magnitude and grandeur of the Exhibition, and has therefore to be seen to be enjoyed. A miniature garden, with a beautiful design of a country Villa, surrounded with floral devices and a fine portrait of His Excellency, Earl Dufferin, designed by one of the directors, occupies a conspicuous place and is greatly admired by visitors. A small fountain plays constantly in the centre of the garden. Some oil paintings, executed by Miss Maggie Bate, and located in the ladies' department, are also much admired, evincing as they do, great talent on the part of the young lady. The Dominion Telegraph Company have an office in the building, a convenience that will be appreciated by those who have scarcely time to leave the grounds and go to the city. The weather, late in the afternoon, proved rather unpropitious, but if the rain ceases and the day turns out fine, the rain will have proved rather a blessing than a detriment to the welfare of the Exhibition. By noon to-day the Judges will get through their work, when it will be much more satisfactory for visitors to pass through the grounds.

HORSES.

In this department there will be a lively competition, although yesterday, they had not been sufficiently arranged to enable one to judge of their respective merits. Blood horses, horses for agricultural purposes, carriage horses and heavy draught horses are all represented. In this connection may be mentioned the names of Messrs. Clark, Eadie, Hurdman, Coleman and other well known lovers of horse-flesh as probable competitors in this department.

CATTLE, SHEEP, SWINE, &C.

A large and varied collection of Ayrshire, Durham, Devon, and Galloway thoroughbred cattle fill the different stalls on the ground to repletion, from well known breeders in both Ontario and Quebec. Mr. Wm. Rodden, of Plantagenet, has a fine herd of 18 Ayrshire animals consisting of calves, heifers, cows and bulls. Some are imported but the most have been reared by himself. Several of the herd took first prizes at Montreal, London and Ottawa, at the exhibitions of last year. Mr. Rodden also contributes some fine Leicester sheep and a number of Suffolk and Berkshire pigs. Mr. Peter McDonald, of the McKay estate, exhibits a fine three year old cow, and one year old heifer, and a beautiful calf three months old, the entire herd being thoroughbred Ayrshire stock. A couple of steers owned by the Messrs. Satchell and taken from Western Ontario a few weeks ago, are the subject of much comment, as their equal has never before been exhibited in this vicinity. They are fine specimens of the thoroughbred Durham species. Mr. Baskerville of Gloucester, contributes some fine Berkshire pigs to the Exhibition. The Messrs. Thompson of Nepean, George Sparks of Russell, A. McKellar of Nepean, Hon. James Skead and others have herds of the various grades of thoroughbred cattle. The discriminating powers of the judges will be sorely taxed in the awarding of prizes to the successful competitors.

POULTRY, &C.

There is a fine display in this department, in fact a larger assortment was never presented at any previous Exhibition. Mr. Barber, who seems to have a mania for poultry, exhibits some beautiful fowls. His Cochin China, Black Polands, Silver Polands, Brahma Pootras, Partridge Cochins, and Black Spanish Fowls can scarcely be excelled. Geese, ducks, pigeons, and other feathered friends were on exhibition, but space will not permit our going into detail.

DAIRY, &C.

Butter, in firkins, crocks, and prints, is on exhibition in any quantity, and in some instances is really very good. Cheese, both factory and home-made, is contributed and also looks well.

GRAIN SEEDS, &C.

Fall and spring wheat is exhibited in large quantities, and the samples shewn exceed in quality that of any previous year. Rye is rather inferior. Barley is good, both the 2 row and 4 row samples. Peas are abundant and of good quality. Oats in every variety are shewn and the samples look well. Some fine white field beans seem to be highly spoken of. In fact the cereals are all so good that the judges had some trouble in coming to a decision. Timothy seed is plentiful. No samples of either clover or flax seed are offered.

VEGETABLES, ROOTS, &C.

There is a very large collection in this department. Celery, beets, carrots, turnips, mangel wurtzel, pumpkins, squashes, parsnips, potatoes of every kind, beautiful samples of the egg plant, some fine bunches of parsley, tomatoes, onions of all kinds and a host of other vegetables adorn perhaps the largest and most extensive section of the building. The judges in this department had a very tedious job.

FARM IMPLEMENTS.

Frost and Wood, of Smith's Falls, contribute largely in the way of farming implements. The Haggert Bros., of Brampton, Ont., also exhibit a number of implements, a fine thrashing machine and separator being a source of much attraction. A monster stump extractor is an object of much curiosity to visitors; ploughs, harrows, scythes, shovels, mowing and reaping machines, &c., lie around in endless variety. Much interest is centred in this department especially by the farming community. In connection with this section, and classified under the head of miscellaneous, are washing machines, clothes wringers, sewing machines, &c.

VEHICLES.

Under this head there are exhibited some of the finest carriages that it is possible for one to see. Mr. Stockdale contributes a ladies' park sunshade phaeton, a pony phaeton, and one covered phaeton with double patent spring and patent wheels. All are superbly finished and trimmed in the most gorgeous manner with morocco leather. Mr. Humphries of the Royal Carriage Factory exhibits a fine dog waggon, a pony phaeton and two beautifully finished sleighs. A Montreal firm offer for competition something new and gorgeous in the way of a circular glass coach, also a highly finished barouche and cab. In addition to these are a number of fine waggons and other vehicles that contribute materially to the industrial element of the show.

LEATHER, &C.

In this department the competition is not so keen, yet what is offered is very good. Mr. Preston exhibits a very fine assortment of boots and shoes. Sets of harness of first class workmanship and mounted, are exhibited by Messrs. S. & H. Borbridge.

THE FLORAL DEPARTMENT.

This department is the very essence of luxury and splendour. Contributions are in it from Rideau Hall and other prominent private gardens and conservatories in the city and its vicinity. Fine villas with miniature gardens and fountains add no small feature to the splendour of the floral section. Geraniums, fuchias, petunias, verbenas, and an endless variety of flowers adorn the tables. Cut flowers, neatly arrayed, look very well in connection with this department.

FRUITS.

Persons who are accustomed to look upon this section of country as a non-fruit bearing locality, will be greatly astonished to find in this department some of the finest samples of fruit possible to be obtained in any country. Apples of every variety, pears, grapes, peaches, plums, melons, are spread out along the tables and are a source of temptation to the visitor.

LADIES' WORK.

The ladies department will doubtless to-day prove very attractive. The specimens of needlework in silk, cotton, and wool reflect creditably upon the fair contributors. Crotchet work and embroidery and some machine sewing is well worthy of inspection. Some patch work, quilts and fancy quilts are objects of much admiration. Some fancy needle work, bead work and German raised wool work, together with contributions of home-made flannel, cloth, blankets, socks, stockings, mittens, gloves and a variety of other things too numerous to mention, make up an exhibition of the handiwork of the ladies which reflects creditably upon their industry and skill.

EXTRAS.

A collection of the flags, postage stamps and coins of the various nations of the world, by Mr. Oscar Traversy, is worthy of note. Messrs. T. W. Currier & Co. exhibit some fine mouldings, newels, doors, sashes and window blinds. Messrs. Wilson & Co also contribute in the same direction. Messrs. H. & J. Gowan make a fine display of mirrors and chaste gilt frames. Mr. A. Miles has an extensive and varied assortment of hair work that forms an attractive feature of the exhibition. Mr. Topley has a section in which he fully sets forth the mysteries of the photographic art. T. Hunton, Son & Larmonth have a fine assortment of dry goods neatly arranged in a glass case. Mr. J. Boese has an assortment of oil cloths of his own manufacture, and exhibits articles beautifully dyed. He shows diplomas already won for dyeing and manufacturing, he being the only one in the Dominion that actually manufactures such work. Byth & Kerr, Esmonde Bros., and Mr. Butterworth exhibit some very fine stoves, baths and other articles in the household furnishing line, that form a very attractive feature in the exhibition.

As before remarked, it is utterly impossible to do justice to the exhibition in the space at our disposal, and we would advise all to go out to-day and see it for themselves. His Excellency the Governor General and Lady Dufferin will visit the show to-day, and will lunch with the President and Directors at 2 o'clock p.m. A band will be in attendance throughout the day.

Owners of Horses Rejoicing.—And why not? and who knows but that their horses are rejoicing as well; who can prove the contrary? But their owners are rejoicing because of the astonishing and almost miraculous effects on their horses of "Darley's Condition Powders and Arabian Heave Remedy." Some were lean and poor having no appetite, others would devour their food ravenously, yet derive no benefit from it; some were hide-bound, with rough and shaggy hair; others had severe colds and coughs; many had the heaves and other complaints peculiar to horses; on all it operated as a charm, the disease or complaint was speedily removed, the appetite and digestive organs corrected, the skin softened, and a sleek and shining appearance given to the coat all without any danger to, or preventing the horse being used.—Remember the name, and see that the signature of Hurd & Co. is on the package.—Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealer

BY TELEGRAPH

TORONTO.

Dismissal—Royal Opera House.

TORONTO, Sept. 14.

Wm. Hickey, whose cruel treatment of a dog in front of the Marlborough House Hotel led to his prosecution, appeared on summons before the Police Magistrate this a.m. The charge was dismissed, but the defendant received a severe reprimand from the Bench.

The Royal Opera House, which has risen on the ashes of the Royal Lyceum, burnt down last winter, was opened to-night, with a crowded house. The building will comfortably seat 1,450 persons, every individual having a splendid view of the stage. The Lieutenant Governor and suite were present, and the Mayor and Corporation.

MONTREAL.

The Crystal Palace Difficulty—Hochelaga Agricultural Show—New York Thieves—Burglaries—Accidentally Shot—More Government Jobbery.

MONTREAL, Sept. 14.

The Water Police, armed with their Spencer rifles, still retain possession of the Crystal Palace.

A rumour is abroad that the Council of Arts has called on the Provincial Government to protect its rights.

Ex-Governor Claflin, of Massachusetts, and General Beauregard, of New Orleans, are staying at the St. Lawrence Hall.

The fall show of the Hochelaga County Agricultural Society takes place on the 3rd inst., at Hochelaga.

The old National School building, Bonsecour street, has been converted into a well appointed vinegar factory.

Eighty-six out of the 151 persons who were tried by the Recorder to-day paid fines amounting to $381 55.

The argument on the points of appeal in the Mousseau - *Witness* libel case, is fixed for Wednesday.

The Sheriff of Gaspe arrived yesterday with two prisoners charged with housebreaking, one destined for the Penitentiary at St. Vincent de Paul and the other for the Mignonne street Reformatory.

It is reported that a gang of expert New York Bank burglars were noticed walking up St. James street last evening, two being convicts. The members of the gang, some six or seven in number, are said to be fine looking and well dressed.

Last night the dry goods store of Messrs. J. Perrault & Co., Notre Dame street, was entered by burglars, who found an entrance by prying off a shutter at the rear of the building. They got to the front store, where they carried off $400 worth of ladies' silk handkerchiefs and about $100 worth of coloured silk.

The *Herald* this morning states that the Provincial Government some time ago undertook to aid the North Shore Railway by a grant of the amount of $1,250,000. Upon a recent application from the Company, made at the desire of the contractor, Mr. McGreevey, by the Corporation of Quebec, the Government is said, through Mr. Ouimet, to have promised to advance $500,000 of the money so soon as work had been done upon the railway to warrant the payment, but the fact was to be ascertained and certified by an engineer employed by the Government. It is now alleged that during the last hours of their official life, Mr. Ouimet and his colleagues advanced Mr. McGreevey $80,000 on account of this sum, without the employment on their part of any engineer at all.

Yesterday morning, while an old lady named Carmichael was about crossing the Wellington Bridge she stepped on the iron G. T. Railway rail before the bridge had closed. Her foot slipped from the rail and became jammed between it and the one on the other side, and would have been taken off had she not been caught and held by the bridge keeper, Mr. Newman, who called to the engineer and had the bridge instantly stopped.

About six o'clock last evening, at Hochelaga, George Gordon, a lad of about sixteen years of age, son of Mr. Charles Gordon, contractor for part of the Northern Colonization Railway, in attempting to jump on a train of gravel cars while in motion, missed his hold and fell beneath the wheel. Three of the cars passed over his thighs crushing him fearfully, from which he expired in about a quarter of an hour.

The Directors of the Grand Trunk Railway Company have decided to pay a dividend at the rate of 2½ per cent on the first preference stock for the half year ending the 30th June last, the earnings for that period having been found to leave, after payment of all fixed charges, a sufficient surplus.

General P. T. Beauregard of the late Southern army is now in town. He is on a visit to paternal relatives, who reside in Three Rivers, though he himself is of Louisianian birth.

The Stock Market was firm and fairly active. Toronto quoted at 185 to 189; Ontario 111½, Commerce 136 to 136½; Montreal 193¾, closing at 193½ to 194; Merchants 119¼, closing at 119½ to 119¾; Royal Canadian 96¼, closing at 95 to 96½; Montreal Telegraph 202, closing at 201¼ to 202.

SMITH'S FALLS.

Court of Appeal—Thrashing Machine Accident.

SMITH'S FALLS, Sept. 15

The Court of Appeal against the Voters' List for this municipality was held before His Honor Judge Senkler, to-day. The Conservatives had twenty-two appeals, six of which were sustained.

A son of Mr. Samuel Martin, North Elmsley, got his hand taken off to-day by becoming entangled in the machinery of a thrashing machine. The mutilated stump was dressed by Dr. Atcheson, and the wounded man is doing well.

LONDON.

The Camp—Fatal Effects of the Heat—Drowned.

LONDON, Sept. 15.

The volunteers in camp marched out yesterday to the common in the rear of Helmuth College, but owing to the intense heat of the weather, the manoeuvering was cut short

Owing to the continuous heat great sickness prevails, and a number of persons have died of a description of cholera.

Yesterday afternoon, Grayson, a lad of about 18, went to bathe in the river. He was seized with cramps, and sank to rise no more. The body was recovered shortly after dark.

CORNWALL.

The Late Fire.

CORNWALL, Sept. 15.

The losses by the fire of Sunday, are insured as follows:—Stormont Cotton Manufacturing Co's building and machinery, $15,500, about equally divided between the Royal Canadian, British American, Citizen, Ætna, and Hartford; John Crilly & Co's machinery, insured for about $6,000; P. E. Adams, insured for $1,200 in the British and Mercantile; A. Hodge, uninsured. A meeting is to be held to offer inducements to Gault Bros. & Co., to rebuild their mills.

PEMBROKE.

The Renfrew Election Case—White Unseated.

PEMBROKE, Sept. 15.

The North Renfrew election case commenced yesterday morning before Councillor Spragge. After a large number of witnesses had been examined, showing that money had been freely spent in buying votes for Peter White, the respondent, Mr. Harrison, for the respondent, said enough evidence had been produced to show that undue influence had been used on the part of his client's agents, and that he would not further contest the seat.

Mr. Bethune said the petitioners thought they had evidence enough to prove personal bribery on the part of the respondent.

Mr. White was put in the box, and subjected to a searching examination, but without connecting him with the charge of personal bribery.

The Court then declared the election void, by reason of the bribery of the agent.

At a meeting of the Conservatives, held later, White was again nominated to contest the seat. The Reformers have selected William Murray as his opponent.

FORT GARRY.

Boundary Survey—Mounted Police—Exaggerated—Pembina Branch Railway.

WINNIPEG, Sept. 14.

The advance guard of the Boundary Commission reached Dufferin yesterday.

Quarter-master Nicolle of the mounted police arrived from Fort Ellice to-day, and reports that three troops have gone to winter at Edmonton, and the other three from Cow River are to winter at Fort Pelly, the headquarters

It is reported that the gold discoveries in Bow River are greatly exaggerated. There is no excitement here, owing to want of reliable information.

Mr. Whitehead, contractor of the Pembina Branch Railway, will arrive by boat to-morrow, when work will be commenced forthwith.

HALIFAX.

Found Dead—For Valour—Committed—Wreck—Arrivals.

HALIFAX, Sept. 14.

Thomas Lyons, a labourer, was found dead in bed this morning.

Captain Hopewell, of the brigantine, Countess, was to-day presented with a gold watch and a letter of thanks from the Government of Canada for rescuing the crew of the schooner Sappho last year. The Lieutenant Governor has silver watches and letters of thanks for Thomas Flemming and Benjamin Sedley, two of the crew of the Countess, for their gallant conduct, but the men cannot be found.

Three American fishermen have been committed to gaol in Georgetown, P. E. I. for robbing a house there.

Schooner, Brilliant Star of Port Medway, has been wrecked at Cheticamp, N. B. One man drowned.

Schooners, Falmouth from Portland, and Alhambra from Boston, arrived this morning.

QUEBEC.

Crown Lands Commissioner—Dramatic—Reduced Fares—Stoppage of Gambling.

QUEBEC, Sept. 15.

It was stated last evening that Mr. Garneaux had accepted the office of Commissioner of Crown Lands.

The Music Hall was crowded last night on the occasion of Rosa D'Erina appearing under the patronage of His Worship the Mayor, and Admiral Wellesley and the officers of the Bellerophon and staff. Miss D'Erina narrowly escaped injury on Sunday, a heavy stone having been thrown through the window of the room occupied by her at the St. Louis Hotel, and passing within a few inches of her head.

The Richelieu Company have reduced the rate of passage by their steamers to Quebec and Montreal to two dollars.

The police have closed up all the Wheels of Fortune, and other gambling concerns in Lower Town, which have of late been demoralizing the public.

HAMILTON.

The Central Fair.

HAMILTON, Sept. 14.

The success of the Hamilton Central Fair for this year is already insured. There are more entries at this time than has been the case at a corresponding date in any previous year, and there are many to be made yet. The Directors from this and other facts feel confident that the exhibition will be of the most successful nature.

YESTERDAY'S DESPATCHES

ENGLAND.

Markets.

LIVERPOOL, Sept. 15.—Cotton firm; Uplands 6, Orleans 8¼; sales 15,000, including 4,000 for speculation and export. Of sales 8,500 are American. Receipts of wheat for the past three 15,000 qrs., including 14,000 American. Breadstuffs quiet. Western spring wheat 8s. 11d. to 9s. 7d. per cental. Corn 36s. per qr. Provisions—Lard 63s. 6d.

The Weather.

LONDON, Sept 15.—The weather throughout England is fair.

Monetary.

The rate of discount in open market for three months' bills is 2¾ per cent., or ¼ per cent below the Bank rate.

Steamship Arrivals.

QUEENSTOWN, Sept. 15.—Arrived s. s. 'China' from New York.

FRANCE.

Paris Rentes.

PARIS, Sept. 15.—Despatches quote rentes 64-33.

SPAIN.

Reported Mutiny.

LONDON, Sept. 14.—A *Times* special despatch from Havre, France, says it was reported there from Spain that the Republican troops had mutinied against Gen. Lazerna, the newly appointed Commander in Chief of the Army of the North, and cheered for General Mariones, whose restoration they demand.

The *Standard's* correspondent telegraphs from Madrid that Gen. Lazerna, is concentrating his troops at Miranda, and expects to begin operations next week. This report makes no mention of a mutiny.

UNITED STATES

Steamship Arrivals.

NEW YORK, Sept. 15.—Arrived s. s. 'City of Montreal' from Liverpool, and 'Goethe' from Hamburg.

The Southern Troubles—List of Killed.

NEW ORLEANS, Sept. 15.—The entire force of the Metropolitan police, Kellogg's militia, &c., surrendered at 9 o'clock to the citizens. The Pennsylvania Militia, Kellogg's, Long Street's and others have taken refuge in the Custom House. Among the casualties reported in yesterday's fight are Sergt. Jas. McManus, Sergt J. K. Champaign, Officer J. Shields, H. Ballard, wounded; Wm. Carleton, J. Coleman, G. C. Mellor, J. M. P. Barrett, J. Long, J. McCann, J. Kennedy, P. Mullakay, M. J. Barratt, M. G. Gozster, J. Connolly, W. H. Hawkins, S. S. Swan, D. J. Ryan, L. Backus, T. Duffy, T. Daley, C. Bergeron, A. Pecot, R. Gonzates, J. Musta, W. W. Nichols, R. Favor, L. A. Thibault, E. Simpson, E. Edgar, Jno. Lee, L. Willis, O. Oelmer, E. Nelso, Woody J. Cochran, and W. Brown. The following wounded citizens were received at the Charitable Hospital:—Wm. Osmond, C. Kilt, Jas. Cross, Jno. Wren, Jno. McCabe, M. Betts, Frank Owen and S. Wyatt.

The International Rifle Tournament.

NEW YORK, September 14.—The following is the American Rifle team selected to compete with the Irish team in the International Match at Creedmore on the 26th:—H. Fulton, H. A. Gildersleeve, T. S. King, L. L. Hepburn, G. W. Yale, J. T. Collins, J. Bodine, and A. Anderson. Col. Wingate was chosen Captain of the team.

A Challenge Accepted.

The challenge of the four oared crew of England to row any crew in the world a shell race, for £500 a side, has been accepted by Biglin of this city, who agrees to select his men from New York and Pittsburg to meet the English champions. The race is to take place at Philadelphia, Springfield, or Saratoga. The distance is to be five or six miles straight-away or with a turn.

MID-NIGHT DESPATCHES.

ENGLAND.

The Doncaster Meeting.

LONDON, Sept. 15.

The Doncaster Semptember meeting began to-day. The race for the Champaigne Stakes was won by 'Combella,' the 'Earl of Derby' second, and 'Lord Fitzwilliams' third. Seven horses started. The great Yorkshire Handicap was won by Lord Roseberry's 'b. m.'

UNITED STATES.

Diplomatic.

WASHINGTON, Sept. 15.—Senor Manhills, the new Spanish Minister, presented his credentials to the President, when the usual civilities were exchanged.

Deceased.

NEW YORK, Sept. 15.—Charles Vandervoort, Grand Master of the I.O.O F., for the State of New York, died at his residence in Harlem last evening.

Proclamation.

WASHINGTON, D.C., Sept. 15.—The result of the conference to-day between the President and the Attorney General was the preparation of a proclamation to be issued immediately and directed against the disturbers of the peace in Louisiana and in the usual terms in such cases.

Outlawry.

LOUISVILLE, Sept. 15.—Sixty state guards will leave Louisville on Wednesday morning, by order of the Governor, for Breathitt County, to clear the town of Jackson of outlaws, under the command of one Strong, who have possession of the place and rule the County. No Court has been held there for many months and the troops will remain to support the Judges.

Mark of Sympathy.

NEW YORK, Sept. 15.—The New Orleans Cotton Exchange has just posted the following:—"This Exchange will close at 1 p.m., as a mark of sympathy with the movement to establish the legal Government of Louisiana.

Application for Aid.

WASHINGTON, Sept. 15.—The President has received from Governor Kellogg by telegraph an application to protect Louisiana from domestic violence, it being made in accordance with Article IV, Section IV, of the Constitution of the United States.

CITY NEWS.

MUSICAL.—The Band of the Ottawa Brigade Garrison Artillery, under the direction of Professor Liberatti, will perform this evening, weather permitting, at the City Hall Square, commencing at 7:30 sharp. Amongst others the following choice morceaux will be performed:—

Leviathan Polka .... Levy.
Selection .... Martha.
Mazurka.........Starry Night.......... Strauss.
Valse .... Godfrey.
Selection .... Nebucadnezzar.
Valse .... Spring, Gentle Spring.

RINK MUSIC HALL.—Last evening, the ever-popular German drama of 'Fanchon' was produced, with Miss Morton the star in the title *role*. Her archness, vivacity, and thorough abandon, shone conspicuously in this piece, and we may congratulate the management in bringing us a New York artist, who is far ahead of the usual run of dramatic celebrities. The drama was excellently rendered, every part being imbued with the necessary fervour. To night, the management offers a gala bill, on which occasion will be produced, for the first time in this city, a Protean drama entitled 'Idlewild,' in which Miss Morton impersonates five characters, and which she recently produced at Wood's Museum, New York, for a run of four weeks. To give *eclat* to the occasion, the Band of the Ottawa Brigade Garrison Artillery will appear in uniform, under the direction of Professor Liberatti, and will perform several choice musical morceaux. We expect our citizens will give a brilliant star like Miss Morton, supported by a good dramatic company, and our Artillery Band, a grand reception.

THE INFANTICIDE CASE.

Conclusion of the Inquest.

Pursuant to adjournment the inquest under Coroner Corbett re-assembled in P. Mansfield's hotel, New Edinburgh, last night at 7 o'clock, to prosecute the investigation in regard to the supposed case of infanticide, which is supposed to have taken place in that locality.

The first witness called was Ellen Welsh, who deposed to living in New Edinburgh, and that she was in company with the mother of the child (Mrs. Morrissey) on the 14th inst., between the hours of 11 and 12 o'clock. That she went with her to her residence. Mr Morrissey was not in when they arrived there. He came in, however, a few minutes after. She observed that he was the worse of liquor. Mr. Morrissey asked his wife if his dinner was ready, when she replied that it was not. He made no reply.

Mrs. Tink was next sworn, but no evidence was adduced to show how the child met with its death.

Dr. Bentley being sworn, deposed to having made, in conjunction with Dr. Horsey, a *post mortem* examination of the body. He said that no marks of violence whatever were found upon the child. They found the stomach empty, and there were indications that the child had been for some time without nourishment. Death had doubtless resulted from this cause.

The jury then retired for about fifteen minutes, when they returned with the following verdict:

"We, the jurymen summoned in the case of the death of Mary Jane Morrissey, agree that the cause of death was from the want of the common necessaries of life."

(Signed), JOSEPH SYMONDS, Foreman.

The Court then discharged the jury. The child was interred yesterday afternoon after the *post-mortem* examination, by permission of the Coroner.

THE WAR OF RACES.

CIVIC, STATE AND PRESIDENTIAL PROCLAMATIONS.

Intense Excitement!

NEGRO OUTRAGES.

Gen. Longstreet and 450 Men Reported Killed.

NEW ORLEANS, Sept. 15.—The following proclamation has just been issued:

MAYORALTY OF NEW ORLEANS,
September 15th, 1874.

To the Citizens of New Orleans:

It becomes my duty to congratulate you upon the restoration of the duly elected and rightful State authorities after enduring for nearly two years the control of usurpers. Their acts of tyranny have at length called for resistance. This was instantaneous, universal and entirely successful, not a single usurping official being now in the exercise of his functions within the limits of this city. The employment of force has become a necessity. We deplore the resulting loss of life, while we honor the memory of the noble men who fell in defence of rights dear to all who desire to be free. Upon the signal and most honorable recovery of your political and civil rights let me advise extreme moderation; resume your avocations as soon as dismissed from organized ranks; use the utmost forbearance towards those who hold political opinions adverse to yours; interfere with no peacable assemblage of your fellow citizens of any race or colour; use all your influence to preserve peace and maintain the supremacy of the law; prove to the world that you can be as forbearing to those who have abused and usurped authority as you were patient and long suffering under their tyranny; seek no revenge for past injuries, but leave your fallen enemies to the torture and to the lasting infamy which their acts have wrought for them.

(Signed) LOUIS A. WELLS, Mayor.

NEW ORLEANS, Sept. 15.—The following despatch was sent last evening by acting Governor Penn to the President of the United States:

NEW ORLEANS, Sept. 1874.

To U. S. Grant, President of the United States:

"Hopeless of all other relief, the people of the State have taken up arms to maintain the legal authority of the persons elected by them to the Government of the State against the usurpers who have heaped upon them innumerable insults, burdens and wrongs. In so doing they are supported by the great body of intelligent and honest people of the State. They declare their unswerving loyalty and respect for the United States Government and the officers; they war only against the usurpers, plunderers and enemies of the people; they affirm their entire ability to maintain peace and protect the life, liberty and equal rights of all classes of citizens.

It shall be our special duty to defend them against all assaults and to treat them with the profoundest respect and loyalty. We only ask of you to withhold any aid or protection from our enemies and the enemies of Republican rights, and of the peace and liberties of the people.

Signed, D. B. Penn, Lt. Governor and Acting Governor.

WASHINGTON, Sept. 15.—The President's proclamation, after reciting the state of affairs in New Orleans, says:—

Now therefore, I, U. S. Grant, President of the United States, do hereby make a proclamation, and command said turbulent and disorderly persons to disperse and retire peaceably to their abodes within five days from this date, and hereafter to submit themselves to the laws and constituted authorities of said States; and I invoke the aid and co-operation of all good citizens thereof to uphold the law and protect the public peace.

NEW ORLEANS, Sept. 15.—At 3 p.m., in response to an address signed by the Committee of the Canal street meeting a large number of unarmed citizens assembled in St. Charles street, and preceded by a band of music, escorted Lt.-Gov. Penn from his residence to the State House, where he took possession of the Executive Departments which were unoccupied. In this movement at least 10,000 persons participated. The Governor was received with cheers along the route. At about 2 p.m. some 30,000 of Gen Ogden's Militia, armed with captured guns, moved from Jackson *en route* for the armory on Carondalet street. As they passed the Custom House, the United States troops stationed there, gathered in the windows and taking off their hats gave three hearty cheers for the citizens which were returned by the Militia with great unanimity, with the exception of the sentinel in front of the Custom House. Not an armed man was to be seen on the streets of the city and quiet prevails throughout.

M. Gautur was among the citizens killed yesterday and Samuel E. Newman has since died of wounds received. The funerals this afternoon of citizens killed yesterday, were largely attended but there was no unusual demonstration.

SELMA, ATLANTA, Sep. 15.—A dispatch to the *Times* from Demapolis, says that a party of negroes were discovered yesterday armed and drilling, six miles from that place. To the question what they meant, their leader replied that negro blood had been shed and they were determined to have white blood.

Two unarmed white men, who went to convince them of their mistake, were fired on and wounded one seriously and one mortally. This morning the whites, to the number of 30 or 40, went down and dispersed the armed negroes, killing and wounding several of them. The negroes numbered 200. They are the same that stopped the Government rations, and have since held armed possession of the public highway. When fired upon they dispersed, but they are reported to have reassembled, and declare that no white men shall pass the road on the pain of death.

LITTLE ROCK, Sept. 15.—The Republican State Convention met in the hall of the House of Representatives at noon to-day. J. H. Johnson [colored], was elected temporary Chairman, and Frank Silverware, temporary Secretary. During Mr. Gray's speech he read a paper purporting to be a despatch from New Orleans, stating that General Longstreet and 450 men were killed to-day. The reading of this document created great excitement in the Convention and on the streets. The speakers denounced the late Constitutional Convention as a revolutionary body and denounced its acts as revolutionary, null and void.

DIED.

At the Plains, near Paris, Ont, on the 14th inst., Beverley McGeorge, fourth son of the Hon. David Christie, aged 12 years and 11 months.

RINK MUSIC HALL.

GRAND GALA BILL

THIS EVENING

The New York Star, her first time in a Protean Drama, assuming five characters, entitled

IDLEWILD,

As played by her at Wood's Theatre New York. The splendid band of the Ottawa Brigade Garrison Artillery, under direction of Professor Liberati, will appear in uniform and perform several choice morceaux.

Secure Seats at Nordheimer's.
Ottawa, Sept. 16, 1874.

IMPORTANT TO LADIES OF FASHION

DRESSMAKING BEING THE ORDER OF THE TIMES.

J. W. RYAN

Has much pleasure in informing his numerous Lady customers and others that MADAME OLLIER, the celebrated Cutter and Fitter of Ladies' Garments, has arrived from her New York and Boston trip, and re-engaged with him to superintend his Dressmaking Department,

No. 234 WELLINGTON STREET

It will be remembered that Madame Ollier came direct from Boston last March to make arrangements with him, but was subsequently induced, by large offers for her valuable services, to go into an old established firm in Centre Town; but finding that she had made a change for the worse, again engaged with him. Madame Ollier's attainments in the art of Scientific Measurements enables her to ensure a perfect fit without putting her customers to the inconvenience of removing a single garment.

DYING
—BY—
INCHES!

ARTERIAL blood contains the elements of Vitality and Nutrition, which is emptied into the capillary system and, after supplying the required nourishment, is sucked up by the minute branches of the venous system and carried back to the lungs for vital recuperation. By reason of much that is wrong in living and medical treatment, this stream of blood flowing through the body is not always pure or free from inflammatory particles, which may pass off by insensible perspiration through the skin or with the waste matter through the intestines, but cold or wet may stop their outward escape, and the internal drainage may become inactive, when the corrupt particles are apt to coagulate, causing pestules, scalp eruptions or running sores, bronchitis &c. They may locate about a nerve, causing neuralgia, and by attaching themselves to the arterial tubes and veins, large or small, and inflaming them by their corrosive influence, cause those intensely painful sensations called Rheumatism. Nature struggles to drench out or dislodge if possible these corrosive particles, and the parts become very red from the congestion or pressure of blood therein. This is called Inflammatory Rheumatism or Rheumatic Gout. If nature does not succeed in washing out these acremonious atoms she withdraws the undue supply of blood from such parts, ceases to contend, and performs circulation as best she can; however, the passage of the blood through the affected channels still continues painful. This is Chronic Rheumatism, which may exist without its usual antecedent the Acute kind.

The above only true theory points out the correct treatment of this and other distressing maladies. Dissolve these corrupt particles that have lodged in the afflicted parts, so that in the circulation they may be carried off externally or internally, and having thus removed the cause the effect ceases.

The experiment of twenty years in the London Hospital, England, has demonstrated to the Medical Faculty of Europe, that the only medicine having control over this class of diseases, is the

DIAMOND
RHEUMATIC
CURE!

It is the result of a lifetime of scientific study and is now for the first time offered to the Canadian public, prepared by a careful, experienced and conscientious physician, in obedience to the desire of numberless friends in the profession, in the trade and among the people. Every bottle is warranted to contain the full strength of the medicine in its highest state of purity and development, and is superior to any medicine ever compounded for this terrible complaint.

A BLESSING TO THE POLICE.

MONTREAL, 18th June, 1884.

DEVINS & BOLTON:

GENTLEMEN,—Having been one of the many martyrs of rheumatism that I meet on my every day rounds, I was induced to try the celebrated DIAMOND RHEUMATIC CURE. I had suffered the last five or six weeks the most terrible acute pains across my loins and back, so severe indeed that I could hardly walk with the help of a stick. I commenced the Diamond Remedy—following the directions carefully. Relief came immediately with the first bottle, improved rapidly with the second, completely cured and freed from pain after finishing my fifth small bottle. You are at perfect liberty either to refer to me privately or publicly, as I feel very thankful for the relief, and sympathize with my fellow sufferers from rheumatism.

Yours respectfully,
J. B. CARDINAL,
Sanitary Police Officer,
51 Labelle street.

In simple cases, sometimes one or two doses suffice. In the most chronic cases it is sure to give way by the use of two or three bottles. By this efficient and simple remedy hundreds of dollars are saved to those who can least afford to throw it away, as surely it is by the purchase of useless prescriptions.

This medicine is for sale at all Druggists throughout Canada. If it happens that your Druggist has not got it in stock, ask him to send for it to

NORTHRUP & LYMAN,
Agents for the Province of Ontario,
Scott street, Toronto
Or to DEVINS & BOLTON,
Notre Dame street, Montreal,
General Agents for the Province of Quebec.
Price $1 per bottle. Large Bottles $2.
May 15, 1874.

THE SIMPLEST, CHEAPEST, AND BEST
Marking Apparatus in the World
For Marking COTTON, SILK,
WOOLLEN, and LINEN, is
PAYSON'S INDELIBLE INK,
Used with a Common Pen without a preparation.

This ink flows perfectly; will write as easily on the finest muslin as ink on paper. It does not dry up, and retains its virtues longer than any other ink known. It will not injure the finest fabric. Payson's ink has endured the test of forty years, and is now the most popular ink in existence, and is unrivalled for uniformity, of quality, and durability. It will mark more neatly, quickly and indelibly than any other apparatus. It requires NO PREPARATION of the fabric.

Price, 37 cts. per Bottle.

Sold by all Druggists, Stationers, and Fancy-Goods Dealers.

A. TITUS.

Sept. 7, 1874.

BERKELEY, Sept. 1869.—Gentlemen, I feel it a duty I owe to you to express my gratitude for the great benefit I have derived by taking "Norton's Camomile Pills." I applied to your agent, Mr. Bell, Berkeley, for the above named Pills, for wind in the stomach, from which I suffered excruciating pain for a length of time, having tried nearly every remedy prescribed, but without deriving any benefit at all. After taking two bottles of your valuable pills I was quite restored to my usual state of health. Please give this publicity for the benefit of those who may thus be afflicted.—I am, Sir, yours truly, HENRY ALLPASS.—To the Proprietors of NORTON'S CAMOMILE PILLS. 2805

SPECIAL ANNOUNCEMENT IN REAL ESTATE,
(By J. Bermingham.)

A Great Bargain—Lot No. 86, corner of Preston and Spruce streets, opposite post office, Rochesterville, with a good two story Brick House thereon, nearly new, with all the necessary out offices and a never failing spring, to be sold very cheap and on very easy terms. Come and inquire price, it will astonish you, it will be sold before two weeks, some one will get a big bargain from

J. BERMINGHAM.

West ½ of Lot 27, south Rideau street, with a most comfortable Brick House thereon, rented for $390 per annum, has to be sold for half its value within fourteen days. It would cost nearly double as much to build the house now, as is wanted for house and ground. Such a bargain was never offered before in this city, some one should secure it at once. Apply to

J. BERMINGHAM.

Lots 37, South Maria, and 37 North Gloucester streets, 66 x 99 each, to be sold very cheap, and on very easy terms, a small sum only required down, balance in ten annual payments. There is a big speculation in this. Who will come first and purchase? One thousand dollars can be made on it before long. Apply to

J. BERMINGHAM.

A Lot 54 x 99, about 100 yards from Cumming's Bridge, outside City limits, thereby avoiding city taxation, very cheap, only $5 down, balance as may be agreed on. Apply at once to

J. BERMINGHAM,
York Street.

Sept. 2, 1874. 3081.

Notice to Contractors.

SEALED TENDERS addressed to the undersigned and endorsed "Tenders for Des Joachim Works" will be received at this Office until THURSDAY the 24th instant at noon for the following Works, viz:

Constructing one Boom Pier, and executing the necessary repairs to the Slides at the Des Joachim Station on the Ottawa River.

Plans and Specifications for the above Works can be seen on and after SATURDAY the 12th inst., at the Office of the Superintendent of Ottawa River Works, where printed forms of Tender and other necessary information can be obtained.

There will be required the actual signatures, occupations, and residences of the parties tendering, as well as of two responsible persons willing to become sureties for the due fulfilment of the work.

The Department does not bind itself to accept the lowest or any tender.

Dept. of Public Works,
Ottawa, 9th Sept., 1874.

Electric Oil Thomas' Excelsior Eclectric! — Worth Ten Times in Weight in Gold.

Pain cannot stay where it is used. It is the cheapest medicine ever made. One bottle has cured bronchitis. Fifty cents worth has cured an old standing cough. It positively cures Catarrh, Asthma and Croup. Fifty cents worth has cured crick in the back, and the same quantity lame back of eight years' standing. The following are extracts from a few of the many letters that have been received from different parts of Canada, which, we think, should be sufficient to satisfy the most skeptical. J. Collard, of Sparta, Ontario, writes 'send me 6 dozen Dr. Thomas' Electric Oil, have sold all I had from you and want more now; its cures are truly wonderful.' William Maguire, of Franklin, writes, 'I have sold all the agent left, it acts like a charm—it was slow at first, but takes spendidly now." H. Cole, of Iona, writes, "Please forward 6 dozen Thomas' Electric Oil, I am nearly run out: nothing equals it. It is highly recommended by those who have used it." J. Bedford, Thamesville, writes—"Send at once a further supply of Electric Oil, I have only one bottle left. I never saw anything sell so well, and give such general satisfaction." J. Thompson, Woodford, writes—"Send me some more Electric Oil. I have sold entirely out. Nothing takes like it." Miller & Reed, Ulverton, P.Q., writes—"The Electric Oil is getting a great reputation here, and is daily called for. Send us a further supply without delay." Lemoyne, Gibb & Co., Buckingham, P. O., write—"Send us one gross Electric Oil. We find it to take well.

Sold by all medicine dealers. Price 5 cents.

S. N. THOMAS, Phelps, N. Y.
and NORTHROP & LYMAN, Toronto, Ontario, Sole Agents for the Dominion.

NOTE—*Electric*—Selected and Electrized

JOB MOSES' FEMALE PILLS.

This well known medicine is no imposition but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, they contain nothing hurtful to the constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics and Whites, those pills will effect a cure when all other means have failed; and although a powerful remedy, do not contain iron calomel, antimony or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully reserved.

For full particulars, obtain free, of the agent a pamphlet, or refer to advertisement.

JOB MOSES, NEW YORK, SOLE PROPRIETOR.

$1.00 and 12½ cents for postage, enclosed to Northop & Lyman, Toronto, Ont., general agents for the Dominion, will insure a bottle, containing over 50 pills return mail.

For sale by all druggists. 25

THE FOLLOWING IS AN

Extract from a Letter

Dated 15th May, 1872, from an old inhabitant of Horningsham, near Warminster, Wilts: "I must also beg to say that your Pills are an excellent medicine for me, and I certainly do enjoy good health, sound sleep and a good appetite; this is owing to taking your Pills. I am 78 years old. Remaining, gentlemen, yours very respectfully, L. S."

To the Proprietors of Norton's Camomile Pills, London.
July 1874. 2611

VINEGAR BITTERS

VEGETABLE FREE FROM
PURELY ALCOHOL
DR. WALKER'S CALIFORNIA
EUREKA
VINEGAR BITTERS

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

The New York Tribune.

THE CONSOLIDATION OF ITALY! so long fragmentary and impotent, into one powerful State, with Rome as its capital the humiliation of France through a series of crushing defeats, ending with the siege and capitulation of her proud and gay metropolis; the expulsion of the Bourbons from the Spanish throne, and the substitution for them of a scion of the most liberal among royal houses; the virtual absorption of the kingdoms of Saxony, Wurtemburg, Bavaria, with Baden, Hesse, the Hanse Towns, &c., under the headship of Prussia, into the triumphant and powerful empire of Germany; and the arming of Russia to re-assert her preponderance in the councils of Europe, or to prosecute her often postponed but never relinquished designs on the great city founded by Constantine, and the vast but decaying and anarchical dominion of the Sultan, all combine to invest with profound interest the ever changing phases of our tidings from the Old World. The *Tribune*, through trusted correspondents stationed at all points in Europe where great movements are in progress or imminent aims to present a complete and instructive panorama of events on that continent, and to mirror the prolonged struggle between middle age Feudalism and Ecclesiasticism on the one hand and Nineteenth-Century scepticism and secularism on the other. Recognising a Divine Providence in all that proceeds and is, it looks hopefully on the great conflict as destined (like our own recent convulsion) to evolve from strife, disaster, and seeming chaos, a fairer and happier future for the toiling masses of mankind.

In our own country, a war upon corruption and rascality in office has been inaugurated in our city, whereby the government of our State has been revolutionised through an initial triumph of Reform which surpasses the most sanguine anticipations. It is morally certain that the movement thus inaugurated cannot, in its progress, be circumscribed to any locality or any party, but that its purifying influence is destined to be felt in every part of the Union, rebuking venality, exposing robbery, wresting power from politicians by trade, and confiding it in those worthiest and fittest to wield it. To this beneficent and vitally needed reform, the *Tribune* will devote its best energies, regardless of personal interests or party predilections, esteeming the choice of honest and faithful men to office as of all New Departures the most essential and auspicious.

TERMS OF THE TRIBUNE.

DAILY TRIBUNE, Mail Subscribers, $10 per annum.

SEMI-WEEKLY TRIBUNE, Mail Subscribers, $4 per annum. Five copies or over, $3 each; an extra copy will be sent for every club of ten sent for at one time; or, if preferred, a copy of "Recollection a Busy Life." by Mr Greeley.

KEATING PERSIANS INSECT DESTROYING POWDERS.

This Powder is quite harmless to animals, but unrivalled in destroying Fleas, Bugs, Emmet Flies, Cockroaches, Beetles, Gnats, Mosquitoes, Moths in Furs, and every other species of insect in all stages of metamorphosis. Sold in packet tins, and bottles of various sizes.

CAUTION.—The public are requested to observe that all the above preparations bear the Trade Mark as herein shown. Sold by all Chemists and Druggists.

DR. DE JONGH'S LIGHT BROWN COD LIVER OIL. The distinctive character istt which have gained for Dr. DE JONGH's Oil so much celebrity, the entire confidence of the most eminent members of the Medical Profession, and notwithstanding the active and unscrupulous opposition of many interested dealers, an unprecedented amount of public patronage may be thus concisely enumerated:—

I.—Its genuineness, purity, and uniform strength are ascertained and guaranteed.

II.—It contains all the active and essential principles that therapeutic experience has found to be the most effective in the operation of the remedy.

III.—It is palatable, easily taken, and creates no nausea.

IV.—It is borne with facility by the most delicate stomach and improves the functions of digestion and assimilation.

V.—Its medicinal properties and remedial action have been found to be immeasurably greater than those of any other kind of Cod Liver Oil.

VI.—From the unequalled rapidity of its curative effects, it is infinitely more economical than any which is offered, even at the lowest price.

CONSUMPTION AND DISEASES OF THE CHEST.

The extraordinary virtues of Dr. DE JONGH'S Light Brown Cod Liver Oil in Pulmonary Consumption may now be considered as fully established. No remedy so rapidly restores the exhausted strength, improves the nutritive functions or produces a more marked and favorable influence on the local malady.

The following high testimony to the efficacy of Dr. DE JONGH'S COD LIVER OIL in Consumption is afforded by ALLEN G. CHATTAWAY, Esq., M.R.C.S., L.S.A., of Leominster:—

"Having for some years extensively used Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL, both in public and private practice, I have no hesitation in stating its effects are very far superior to those of any other Cod Liver Oil. Nearly four years since, two cases of confirmed Consumption were placed under my care. In both, the lungs were a mass of tubercular deposit, and every possible sound to be heard in phthisis was present. The sole remedy employed was Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL; and now the patients are strong and fat; the diseased (abnormal) sounds nearly inaudible; and in the one case (male) hunting, fishing, and shooting, are freely indulged in, the patient expressing himself quite capable of undergoing as much fatigue as any of his fellow sportsmen."

GENERAL DEBILITY AND EMACIATION.

In cases of prostration and emaciation, where the vital forces are reduced, and where life appears to be even at its lowest ebb, the restorative powers of Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL are remarkably manifested. By its administration the natural appetite is revived, and the functions of digestion and assimilation are improved, reanimated, and regulated; and, when its use has been steadily preserved in, its peculiar tonic and nutritive properties have entirely restored health and strength to the most feeble and deteriorated constitutions.

The actual benefit derived is thus described by ROWLAND DALTON, Esq., M.R.C.S., L.S.A., District Medical Officer at Bury St. Edmunds:—

"In giving my opinion of Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL, I have no hesitation in saying that I have not the slightest confidence in any other kind. The effects of Dr. DE JONGH'S OIL are sure and most remarkable, especially in that broken down state of health and strength which usually precedes and favors tubercular deposit; and I never recommend any other sort. The Oil I have had from you was for my own use, and it has certainly been the only means of saving my life on two occasions, and even now, when I feel 'out of condition,' I take it, and like it, unmixed with anything, as being the most agreeable way. I could wish that Dr. DE JONGH'S OIL would come into general use, and entirely supersede the Pale and other worthless preparations."

SELECT MEDICAL OPINIONS.

From innumerable medical and scientific opinions of the highest character in commendation of Dr DE JONGH'S LIGHT BROWN COD LIVER OIL, the following are selected:—

Sir Henry Marsh, Bart., M.D., Physician in Ordinary to the Queen in Ireland.

"I consider Dr. De Jongh's Light Brown Cod Liver Oil to be a very pure Oil, not likely to create disgust, and a therapeutic agent of great value."

Dr. David Smith, F.R.S., Medical Officer to the Poor Law Board of Great Britain.

"We think it a great advantage that there is one kind of Cod Liver Oil which is universally admitted to be genuine—the Light Brown Oil supplied by Dr. De Jongh. It has long been our practice, when prescribing the Oil, to recommend this kind, since, amidst so much variety and uncertainty, we have confidence in its genuineness." (Extract from "Consumption, its Early and Remediable Stages.")

Dr. Barlow, F.R.S., Sen Physician to Guy's Hosp.

"I have frequently recommended persons consulting me to make use of Dr. De Jongh's Cod Liver Oil. I have been well satisfied with its effects, and believe it be a very pure Oil, well fitted for those cases in in which the use that substance is indicated."

Dr. Lawrence, Physician to H.R.H. the Duke of Saxe-Coburg and Gotha.

I invariably prescribe Dr. De Jongh's Cod Liver Oil in preference to any other, feeling assured that I am recommending a genuine article and not a manufactured compound in which the efficacy of this invaluable medicine is destroyed."

Sir Joseph Olliffe, M.D., Physician to the British Embassy at Paris.

"I have frequently prescribed Dr. De Jongh's Light Brown Cod Liver Oil, and I have every reason to be satisfied with its beneficial and salutary effects."

Lankester, F.R.S., Coroner for Central Middlesex.

"I consider that the purity of this Oil is secured in its preparation by the personal attention of so good a Chemist and intelligent a Physician as Dr. De Jongh, who has also written the best Medical Treatise on the Oil with which I am acquainted. Hence, I deem the Cod Liver Oil sold under his guarantee to be preferable to any other kind as regards genuineness and medical efficacy."

THE ROYAL READERS.

A NEW SERIES OF ILLUSTRATED ENGLISH READING-BOOKS.

From Mr. M. Patterson, Rector of the Free Church Training School; Moray House, Edinburgh.

"Thanks for the Specimen of your new Reading Books and Sheets. . . They are admirable in every particular. Nothing, in my opinion, would more contribute to the improvement of Education than the wide circulation of these books, and the intelligent handling of them."

From A. Montgomerie, L.L.D., Principal of Ladies' College Glasgow.

"I have examined very carefully the 'Printing,' and Nos. I., II., and III. of the *Royal Readers*, and have no hesitation in saying that they are, in my opinion, incomparably the best English Reading-Books that have ever been published. The adaptation of the means to the end in view is perfect."

From T. Morrison, M.A., Rector of the Free Church Normal School, Glasgow.

"I have very carefully examined the *Royal Readers*. The plan is excellent, and the execution, if I may say so, even better. They are out of sight the best series of Reading-books published and should very speedily be widely used. The Illustrations constitutes an admirable features and add much to the value of the *Readers*

PINE LANDS.

OVER 900,000,000 FEET, well located mainly on the rivers leading into Lake Michigan. The numerous streams and lakes surrounded with pine timber along the line west of Reed City, offer the best of locations for mills, where logs can be held safely free of expense and free from the annoyance of Boom Companies. The railroad direct to East Saginaw and Toledo offers the best source of supplies, and never failing market for Lumber Shingles, etc., which may be delivered anywhere on the line.

FIFTH AND LAST CONCERT

In aid of the

PUBLIC LIBRARY OF KENTUCKY.

DAY FIXED AND A FULL DRAWING ASSURED,

—ON—

MONDAY, 30th NOVEMBER, 1874.

LAST CHANCE FOR

An Easy Fortune.

A postponement of the Fifth Concert of the Public Library of Kentucky has been so generally anticipated, and is so manifestly for the interest of all concerned, that it must meet the approval of all. The day is now absolutely fixed, and there will be no variation from the programme now announced. A sufficient number of tickets had been sold to have enabled us to have had a large drawing on the 31st July, but a short postponement was considered preferable to a partial drawing. Let it be borne in mind that

THE FIFTH GIFT CONCERT

Is the last which will ever be given under this charter and by the present management,

That it will positively and unequivocally take place as announced, on

MONDAY, 30TH NOVEMBER,

That the music will be the best the country affords, and that

20,000 CASH GIFTS,

AGGREGATING

$2,500,000

Will be distributed by lot among the ticket-holders.

INSOLVENT ACT OF 1869.

In the matter of THOMAS AGAR, an Insolvent.

Will be sold upon the premises, by public auction, either together or in separate lots, on TUESDAY, the TWENTY-SEVENTH day of OCTOBER next, at the hour of twelve o'clock, noon, under and by virtue of the provisions in that behalf of the said Insolvent Act. All the right, title, and interest of the undersigned, as Assignee of the estate of the said Insolvent, to and in the following parcels of land or town lots, situate, lying and being in the City of Ottawa, in the County of Carleton and Province of Ontario which may be known and described as being composed of parts of lot number forty in the broken front on the River Ottawa, or Grand River, in the township of Nepean, in the County of Carleton, within the limits of the City of Ottawa, and known as Town Lots number four and six, in Block H, as laid down upon a plan or diagram of the said Lot number forty, made by one Donald Kennedy, for one John Le Breton, former proprietor thereof, and filed in the Registry Office of the said City of Ottawa.

Terms and conditions of sale will be made known at the time of sale.

For further information apply to the undersigned, or to Alexander Gibb, Solicitor, or to Messrs. Walker, Cassels & Pennock, Solicitors Ottawa.

EDWARD McGILLIVARY,
Assignee to the estate of said Insolvent,
Dated at said City of Ottawa,
the Sixth day of August, A.D., 1874.

Caution.

GENUINE PANCREATINE
PANCREATIC EMULSION.

The efficacy of these Medicines in the treatment of Indigestion, Bronchitis or Pulmonary Catarrh, Consumption, Wasting, &c., &c., depending entirely upon their purity and strength. Messrs. SAVORY & MOORE caution the p against imitations of them w forth as possessing the rem properties of the true preparations, but which are in reality either saponaceous compounds, oitments or pomades, without a trace of the Pancreatic principle and entirely unfit and useless as medicines. These imitations are calculated to produce serious disappointment and to injuriously affect the reputation which the Genuine Pancreatine and Pancreatic Emulsion have acquired. It is therefore highly important that purchasers examine the labels on the bottles for the names and Trade Mark

"SAVORY & MOORE,"

The Original and only Manufacturing Chemists to the Queen, H.R.H. the Prince of Wales, H.I.M. Napoleon the Third, His Highness the Khedive of Egypt, &c.,
143 NEW BOND STREET, LONDON.

Extract from an Analytical Report upon a Foreign Specimen of a so-called Preparation of Pancreatine.

"This compound resembled an Ointment or Pomade in appearance and consistency, and was flavored with Essence of Almond or Prussic Acid. It was strongly alkaline, indicating free alkali, which, acting upon the fat, produced the usual saponifying result; the whole forming a granular moist mass of fat, soap, glycerine and water. This ointment was physically and chemically different from the true Pancreatic Emulsion which I have also examined, and which, besides being rich in Pancreatic juice, has the delicate smooth appearance and consistency of fresh cream, is palatable and readily taken."

February 28th. 1874. 2001

To the Queen and Royal Family; To H. R. H. the Prince of Wales [Special Appointment]; and to several Indian Potentates, Foreign Governments and Railway Companies, established 1749.

J. W. BENSON,

WATCH AND CLOCK MAKER, GOLDSMITH, SILVERSMITH, AND ARTISTIC METAL WORKER,

Prize Medalist of the London, Dublin and Paris Exhibitions.

Maker to the Chronograph, by which the Derby and all other Races and great events of the day are timed.

Manufactory and City House—58 and 60 Ludgate Hill.

West End Establishments—25 Old Bond Street, and 99 Westbourne Grove, London.

MERCHANTS, SHIPPERS and WHOLESALE BUYERS are specially invited, before sending their orders elsewhere, to obtain from the manufactory the Illustrated Catalogue of Watches, Clocks, Chains, Jewellery and Electro-Plate which are sent post free, as not only are the discounts liberal, but a selection can be made from the largest stock in the world.

Orders can be sent direct to the manufactory, Ludgate Hill, or through merchants and shippers in England.

WATCHES	CLOCKS
Of all kinds, from 2 to 200 Gns. Lever, Vertical, Horizontal, Duplex, Chronometer, Chronograph, Keyless, Centre Seconds Repeaters, Indian, &c.	Of all kinds, from 2 to 1000 Gns. Church, Turret, Carriage, Chime, Dining and Drawing-room, Hall, Shop, Library, Bracket, &c.

English Ormolu Clocks, designed by English artists, and manufactured by J. W. Benson, far exceed in beauty those manufactured abroad. They can only be obtained at this establishment.

FINE ART BRONZES AND CHIMNEY ORNAMENTS, of the newest designs, from Continental ateliers of the highest reputation, at moderate prices.

Artistic Gold Jewellery, of the richest and most exquisite designs, with Monograms, Crests and Devices, Enamelled in Colours, after designs by the most accomplished artists in the precious Metals, Brooches, Bracelets, Necklaces, Lockets, Rings, and all kinds of *bijouterie*, as supplied to members of the Court, and other distinguished personages.

Presentation Plate.—Testimonials of different sorts, Racing Cups, and Jewelled and other Boxes, as provided by Mr. Benson for the Corporation of London and other public bodies, to enclose documents conveying the Freedom of the City to the Prince of Wales, Duke of Edinburgh, &c. &c.

Silver and Electro-plate in the most recent fashions, and of the most durable make. In Electro-plate it is necessary to secure sound materials and a sufficient coating of silver to resist daily wear and tear satisfactorily. No other is really cheap at any price, nor worth buying.

Watches and Clocks repaired by skilled workmen. Old Silver, Jewellery, Watches, &c., exchanged. Merchants, Shippers and Clubs supplied.

Watches, Clocks, Jewellery and Plate sent to all parts of the world.

PROVINCE OF ONTARIO.

PARLIAMENTARY NOTICE.

LEGISLATIVE ASSEMBLY OF ONTARIO,
Toronto, 14th September, 1874.

49. No Petition for any Private Bill is received by the House after the first three weeks of each Session; nor may any Private Bill be presented to the House after the first four weeks of each Session.

51. All applications for Private Bills, properly the subject of legislation by the Legislative Assembly of Ontario within the purview of "The British North America Act, 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road, or Telegraph Line; the construction or improvement of a Harbour, Canal, Lock, Dam, or Slide, or other like work; the granting of a right of Ferry; the incorporation of any particular Trade or Calling, or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community; or for making any amendment of a like nature to any former Act,—shall require a Notice, clearly and distinctly specifying the nature and object of the application, to be published as follows, viz:—

A Notice inserted in the *Ontario Gazette*, and in one newspaper published in the County, or Union of Counties affected, or if their be no paper published therein, then in a newspaper in the next nearest County in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition.

For further particulars see *Ontario Gazette*.

LEA & PERRINS
CELEBRATED
WORCESTERSHIRE SAUCE
DECLARED BY CONNOISSEURS
TO BE
THE ONLY GOOD SAUCE.
CAUTION AGAINST FRAUD
The success of this most delicious and unrivalled Condiment having caused certain dealers to apply the name of "Worcestershire Sauce" to their own inferior compounds, the Public is hereby informed that the only way to secure the genuine is to
ASK FOR LEA AND PERRINS' SAUCE,
and to see that their names are upon the wrapper, labels, stopper, and bottle.
Some of the foreign markets having been supplied with a spurious Worcestershire Sauce, upon the wrapper and labels of which the names of Lea and Perrins have been forged, L. and P. give notice that they have furnished their correspondents with power of attorney to take instant proceedings against *Manufacturers* and *Vendors* of such, or any other immitations by which their right may be infringed.
Ask for LEA & PERRINS' Sauce, and see Name on Wrapper, Label, Bottle, and Stopper.
Wholesale and for Export by the Proprietors Worcester; Crosse and Blackwell, London, &c. &c. and by Grocers and Oilmen universally.

CLARKE'S
WORLD FAMED BLOOD MIXTURE
Trade Mark—"BLOOD MIXTURE."
The Great Blood Purifier and Restorer
For cleansing and clearing the blood from all impurities, cannot be too highly recommended.
For Scrofula, Scurvy, Skin Diseases and sores of all kinds it is a never-failing and permanent cure.
It cures old sores,
Cures ulcerated sores on the neck,
Cures ulcerated sore legs,
Cures blackheads, or pimples on the face,
Cures scurvy sores,
Cures cancerous ulcers,
Cures blood and skin diseases,
Cures glandular swellings,
Clears the blood from all impure matter,
From whatever cause arising.
As this mixture is pleasant to the taste, and warranted free from anything injurious to the most delicate constitution of either sex, the proprietor solicits sufferers to give it a trial to test its value.
Thousands of testimonials from all parts.
Sold in bottles 2s 3d each, and in cases, containing six times the quantity, 11s each—sufficient to effect a permanent cure in the great majority of long-standing cases, by all chemists and patent medicine vendors throughout the world.

QUEEN VICTORIA AT HOME.

Her Summer Residence on the Isle of Wight.

[Correspondence New York Sun.]

EAST COWES, Isle of Wight, Aug 18.

Here I am in the sunshine and shadow of royalty. One cannot get out of either. Everything around me is branded "royal." The dockyard at Portsmouth was "The Royal Naval." The Yacht Club dubs itself so likewise. The paltry unaccommodating steamboats which do the ferrying between this port and the towns on the Hampshire coast are without exception "Royal Mail packets." Our wherry had not touched the public beach at Cowes before we distinguished through our field glasses 'The Royal Hotel,' and then 'The Queen's,' and next 'The *Prince of Wales'* Hotel.' The man at the corner who sells tea, biscuits and bacon, is 'grocer to Her Majesty,' and exhibits his honors in huge golden letters. The butcher, rosy and rubicund, evidently finds a stimulant to obesity in the glittering announcement which ornaments the front of his store, that he is 'purveyor to the Queen.' The barber follows suit and so on.

OSBORNE CASTLE.

I came here to see the private residence and private life of the Queen of Great Britain. From Lady Isabella Blanchford the Queen purchased the estate in 1840. By the purchase of Barton and other adjoining demesnes the manor has come to include an area of 5,000 acres. The situation of the castle is most desirable. On one side it is sheltered by woods and plantations, and on the other commands an extensive, delightful and animated prospect, including the naval stations of Portsmouth and Spithead. Girt by sea and land, it comprises nearly every variety of rural scenery of which the poets have sung. The climate is mild and salubrious. Spring sets in at the end of February, and after the Queen has enjoyed the freshness and beauty of the young year in this lovely spot she always betakes herself north of the Tweed, where, in her retreat at Balmoral, she feels again the warm breath of spring and sees the daisies and cowslips blow for the second time.

THE ARCHITECTURE OF OSBORNE

is mainly the work of the late Prince Consort. The Palace is in the Palladian style, and everything is subordinated to the necessities and comforts of life. The building is quadrangular. A clock tower, 90 feet high, flanks the sea front on one hand, and a flag tower, 107 feet high, on the other hand. In advance of the flag tower are the Royal apartments, commanding a glorious view. The extensive terraces in front, adorned with fountains, statuary and choice shrubs increase the apparent altitude of the imposing facade. These terraces descend for twenty-seven feet to a lovely little valley which leads to the landing place, the bathing house, and the other adjuncts on the sequestered shore. The interior is, however, remarkable for its extreme simplicity. The rooms are furnished in plain mahogany, like the house of any ordinary country gentleman. Choice sculpture, valuable paintings and rare bronzes and works of art, however, abound. When early summer has clothed Osborne in all its verdant loveliness, the Queen, though naturally of a figedy, roving disposition, has often been known to wish that the duties of State never called her away from her favorite residence. The majority of the paintings in the palace are by British artists. Landseer is everywhere, and Frith's best works are all here. In every room may be noticed a portrait of one or more members of the royal family. Her life when in the country is that of an ordinary lady —always excepting the attention she has to give to despatches and to the visits of members of the government. The documents she reads with most zest are those that come from the Foreign Office. It was Prince Albert who imbued her with this peculiar taste. She rises early, generally about seven, and spends the first hour or two in her bedroom. After this she is soon out of doors. No gipsey could indeed be fonder of the open air, as she spends every valuable moment in exercise. In her morning walks she is always accompanied by one lady, generally the Princess Beatrice.

JOHN BROWN,

'the pampered menial,' walks behind them. The Queen evidently is impressed with the force of Lord Lyttleton's saying that 'women like princes find few real friends,' as through good report and evil report she sticks to John Brown, her faithful Scotch valet. In these rambles a stranger would never imagine the plain woman before him was the Queen of England. Her dresses are of the plainest black stuff and not fashionably made. Her hat is mushroom-shaped, and in it there is invariably a seagull's wing. This is her favorite feather but it costs her nothing as the bird has been shot for her by one of her sons or by a gamekeeper belonging to the estate. In connection with these feathers, a story was recently circulated about the royal household. A well known Scotchman was sent out to shoot a gull. His visit to the Medina he managed to protract considerably. Victoria repeatedly called for him but he was not forthcoming. At length he appeared, and was ushered into the royal presence, where he received a warm rebuke. Nothing daunted he replied: "Weel, if ane is to be tied to ane hour or twa, I might as weel nae gang at a'." His audacity triumphed and he was simply directed to prepare for the morning drive. The only thing that marks the approach of royalty here is the cantering of an outrider—always on a white horse—before the Queen's carriage. This is usually a sociable, holding four, and drawn by two horses. The coachman and Brown are on the box. There is no gentleman in waiting, unless the carriage is a state one, drawn by four horses.

HOW THE DAY IS SPENT.

The Queen breakfasts early and heartily. The morning repast over, she has her letters read to her, and gives instructions to her secretary. She very seldom writes an autograph letter. She then drives or walks out, and pays visits to her labourers and tenantry. So accustomed are these people to her calls and ways that she inspires them with none of the awe and flutter which the younger members of the Upper Ten feel when they are presented at Court for the first time. In the course of these visits an attendant carries a silver canister containing the most fragrant Bohea. This canister is not at all so formidable as the golden vessel carried before the Shah on all his journeys, and which excited so much comment and merriment amongst the Londoners during his stay in the great Babylon. Tea is generally brewed twice during each round at some one of the lodges at the gate entrances to the estate, and partaken of by Her Majesty with evident relish. The substantial meal of the day is eaten at two o'clock—the state dinner at eight in the evening being one devoted chiefly to guests and courtesy. Her Majesty retires early to rest.

THE LATE PRINCE CONSORT.

The gloom which settled down upon the Queen's life on the death of her husband is still felt within Osborne Castle. His dressing room and library remain to-day in the exact state they were in the day he died. Nothing has been removed, nothing substituted, and this by the express orders of the Queen. This is only another method of giving words to sorrow. Many have blamed Victoria for the unusual exhibition she made of her bereavement; but it may well be remembered that

"The grief that does not speak,
Whispers the o'er fraught heart, and bids it break;"

Everything is utilised at Osborne. You can dine in the neighborhood on the Queen's mutton and beef. You can buy and shell the Queen's peas. Your horse can enjoy a feed of royal oats and hay, and if one is fond of poultry there are the Queen's ducklings and chickens in the market. My experience of the Queen's butter made me wish that Osborne was in closer proximity to Washington market; and as for the mutton, it was superb, as all English mutton is. The skimmed milk of the royal dairies is sold to the cottagers, which seems a stretch of good housewifery, as to the stagnation in agricultural matters renders the peasantry much too dependent and poor in this quarter not to make skimmed milk a great boon to them. The ambition to be

A QUEEN'S LABORER

has not become a ruling passion with the young men in the locality. The same rigid rule of making the most of everything prevails on the Osborne farms as in the gardens, dairies and household. Each laborer receives fourteen shillings—about $4—a week, and out of that sum half a dollar is deducted for the rent of the cottage with which each is provided. A quantity of thin beer is also given each man per day. The cottages are comfortable and well built, and to each is attached a small garden. A single man might be able to eke out an existence upon this small pay. How a family can be reared upon it is a mystery which has not yet become clear to my mind. Yet it is done somehow, and the privations attendant upon it are borne with sullen discontent.

All the young princes were taught some trade. As brickmakers in the Whippingham brick field they wore their blouses and worked successfully in the manufacture of bricks. Many of these bricks, together with a vast variety of knick knacks, the work of the princes' hands, are shown in the museum of

THE SWISS COTTAGE,

a charming retreat in one of the loveliest spots on the estate. Each of the Princesses had a garden adjoining the cottage, which she cultivated with her own hands. Many of the flowers in the Prince of Wales' wedding bouquet were sent from the garden of the Princess Royal now the Crown Princess of Germany. Here cooking in its various branches was taught, and the Queen's daughters frequently sat down to a meal prepared by their own hands. In many ways besides their mechanical ingenuity has been developed to a large extent; and they often exercise is freely for the benefit of others. Among the Princesses, Louise, wife of the Marquis of Lorne, has displayed the largest amount of mental capacity. She is a clever painter and has taken prizes in the South Kensington Museum for her modeling.

THE QUEEN'S BENEVOLENCE,

though not of a striking character, is kind and generous. The haste which she makes to call on the sick and afflicted among her dependants has always been appreciated among them. She approaches the bedside of the sick and suffering, and hears their tale of sorrow from their own lips. Nor must it be supposed that it is only verbal comfort she offers. Every case of genuine distress is relieved by her, if not in princely style, at least in an off-hand manner. To the children of these poor people she is particularly gracious, and she often amuses herself by talking to them, and urging them to be clean and regular in their attendance at school. Osborne has been selected as the seat of many interesting family events. The Prince of Wales spent his honeymoon there, and so also did Prince Christian. Among the regular visitants to this palace now is the son of the famous but unfortunate

THEODORE, KING OF ABYSSINIA.

The Queen has adopted the little fellow, and he spends his holidays as a prince with her own children. At the present moment he is being educated at the Naval College, Southsea, under the Rev. Dr. Burney. The little Abyssinian displays considerable ability, and will, it is said, be placed upon his fathers throne through the influence of Victoria.

Orkney's Ancient Ornament.

A correspondent of the London *Times* writes, in describing a visit to Orkney:—"Maes How is certainly one of the wonders of the bygone world. Most antiquaries seem to be unanimous on its being originally a Pictish *tumulus* or burial place. It may be so. But why should such a *tumulus* be provided with a long entrance, so constructed as to make it impossible either to make use of shield or sword in attack or to throw a spear along it with any effect? No doubt the passage was constructed for some purpose, and this is the only purpose for which I can understand the construction having assumed the form it has and no other. The runes cut on the inside of the walls all bear the form and the aspect of the late Norse runes, and are certainly not anterior to the twelfth century. I should not be astonished if in the end it was found to be simply a Norse fort, erected in the early times of the Viking age in order to serve as a base of operations against inhabitants. The close proximity to the shore, too, would lend a colour of probability to this surmise. What especially makes me think that this is a Northern structure is that the three chambers, which are built into the walls in such an ingenious manner that you can hide inside them without any chance of being wounded in attack, are made on the very principal on which outlaws in Iceland used, when they resorted to a cave as a hiding place, to cut out of the walls a bedstead to sleep on in safety. But conjecture with regard to the real origin and purpose of Maes How must wander now more or less from the truth, because the *tumulus* has been the object of curiosity, though not to antiquaries, long before our days as even in the twelfth century some Crusaders broke into it from desire to find out the costly contents supposed to be, according to the traditions which eddied round every ancient *tumulus*, buried under its massive sod-thatch.

DR. S. JACOBS, ON APHONIA, OR LOSS OF VOICE.—Orange Street, St. John, N. B., 1869—Mr. Fellowes—Sir: I am bound to award the palm of merit to the preparation of Hypophosphites discovered by you. I had occasion to use it myself in a case of Aphonia, which would not yield to regular treatment, and am happy to say it proved to be all that you claimed for it, having acted with expedition and entire satisfaction. I feel called upon to publish the fact, that the profession may avail themselves of a remedy in your "Compound Syrup of Hypophosphites." Yours, very truly, S. JACOBS. 3665

OWNERS OF HORSES REJOICING.—And why not? and who knows but that their horses are rejoicing as well; who can prove the contrary? But their owners are rejoicing because of the astonishing and almost miraculous effects on their horses of "Darley's Condition Powders and Arabian Heave Remedy." Some were lean and poor having no appetite, others would devour their food ravenously, yet derive no benefit from it; some were hide-bound, with rough and shaggy hair; others had severe colds and coughs; many had the heaves and other complaints peculiar to horses; on all it operated as a charm, the disease or complaint was speedily removed, the appetite and digestive organs corrected, skin softened, and a sleek and shining appearance given to the coat all without any danger to, or preventing the horse being used.—Remember the name, and see that the signature of Hurd & Co. is on the package.—Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealer 1m.

Insolvent Act of 1869—Taillon & Chrysler.

The Ottawa Times

THURSDAY, SEPTEMBER 17, 1874.

Mr. Gibson, M.P. for Dundas, is at Daniels' Hotel.

Mr. E. W. Sewell, of Quebec, yesterday called upon the Premier and the Minister of Marine and Fisheries, in connection with the question of the winter navigation of the St. Lawrence, in which he has long taken a deep interest. He desires that a survey should be made during the coming winter, in order to ascertain the exact position of the open water, as also the position and character of the ice fields. His proposition was attentively listened to, his suggestions met with considerable favour, and he received the assurance that a careful inquiry would be made into the subject without unnecessary delay. It may be remarked in this connection that Mr. Sewell has written a good deal on the subject to the Quebec newspapers, and, with many others, believes that the Lower St. Lawrence could be navigated by strong vessels sheathed with metal, similar to the ferry boats which ply between Quebec and Levis during the winter.

The Executive of the Agricultural Society are to be congratulated upon the success which has so far attended the exhibition. It is not more than justice to say that the show of live stock was not only a credit to the Ottawa Valley and a great improvement in all particulars upon all former years, but it would positively be difficult to find any other local exhibition in Canada to compete with it. It is scarcely necessary in this connection to particularize, but we cannot allow the opportunity to pass without recording our admiration for the really grand turn out of horses of all classes, especially carriage horses. We are safe to say that in this respect the Provincial Fair will not eclipse if it will equal it. Yesterday His Excellency the Governor General and suite visited the Exhibiton in the afternoon, and were entertained at luncheon by the Directors. His Excellency and Lady Dufferin afterwards went round the show ground and appeared to take great interest in whatever was to be seen.

PRESBYTERIAN UNION.

The subject of union with the other Presbyterian Churches in Canada was last evening discussed and disposed of finally by the congregations of St. Andrew's and Knox's, and in both of them the finding was as nearly as possible unanimous in favour of the proposed fusion. This is just as might be expected, and certainly in their own interests what was to be desired. It is to be regretted that a man of the intelligence and sense of Mr. Douglas Brymner should have exhibited such unreasoning opposition to a proposition in itself so commendable. Of course we would do him an injustice, as we would to all those who sympathise with him, if we were to suppose or endeavour to lead others to suppose that his objections to the proposed Union were not conscientiously entertained, and to any measures he might have thought necessary to take in furtherance of his views, so long as they were legitimate and becoming a man who occupies, as we believe he occupies, a position of prominence in the Church, we could only in fairness give reasons for dissent; but Mr. Brymner, in his zeal, has scarcely distinguished between what it is possible to do and what it is proper to do,—between what are legitimate efforts to convince his brethren that they are wrong and using measures to frighten them from doing what they think is right,—between what is just and reasonable opposition and what is litigiousness and positive obstructiveness. The very protest which he lodged last night against the resolution of the overwhelming majority of the congregation, both in its wording and in its spirit, is quite unworthy of him. How Mr. Brymner comes to the conclusion that there is to be any extinction about the proposed union it seems to us somewhat difficult to percieve. It is true we shall no more read of the direct connection which is supposed to subsist between the Church of Scotland and her dependency in Canada; but we can do what is far better, far more creditable, far more noble, far more in keeping with patriotism and the spirit of Christianity—we can both read and speak of a united, independent, Presbyterian Church in Canada, cherishing fraternal relations for every, and occupying a position of inferiority to no, Presbyterian Church in christendom. Mr. Brymner, and every one who has taken sides with him, may with the utmost consistency continue to speak and think of the Church of Scotland as the model in all respects among the various branches of the Presbyterian body, may reap all the advantages which accrued to them from their nominal connection with the old and honoured parent, may indeed and in spirit make their relationship to her more close and childlike than before, and yet be good and valued members of the new and united organization in Canada. If Mr. Brymner was at one time only a Scotchman, we may now be permitted to hope that he is something more, and that while retaining all those sweet reminiscences and patriotic affections which a man naturally and rightly cherishes for the land which gave him birth, he is truly and loyally a Canadian. It is very true that, from a Presbyterian point of view, the Church of Scotland gives a prestige to all her children, and her record is an honour to them; but Mr. Brymner must not forget that so far as Canada is concerned this glory and this honour which has descended to Presbyterians and their church would be ephemeral indeed if in their own conduct they gave signs of weakness, dependence, or want of life. And we may say further that the Church of Scotland, or any other Church, cannot afford to confer benefits upon any of her offspring without at the same time imposing upon them reciprocal duties, neither can she bear the weight of big children hanging for ever upon her skirt-tails. The Presbyterians of Canada have not hung upon the Mother Church thus for many a long year in fact, and it seems strange why any one should desire that she should continue to do so in name. Whatever the duties she requires of her offspring may be—and they are many and onerous — certainly none of them could ever be calculated to stir up strife and dissension among the brethren regarding a point which involves no sacrifice of principle. We would suggest to Mr. Brymner, and those associated with him, that it might be worth their while to consider, seeing the terrible odds pitted against them, and seeing that all further opposition is useless, whether, if they cannot submit to the decision of the majority, they should not at least cease to stir up rancour and ill will among those with whom they intend to have no further part. To submit may not be a very easy thing to do, but it is a manly and a christian thing nevertheless, and a reputation for manliness and christianity can neither be gained nor maintained unless people are prepared to make such sacrifices on their account. We recommend the dissenters to consider whether their duty to the Church of Scotland, which they seem to think more pressing and binding even than their duty to the Church in Canada, does not demand those sacrifices of them, as a proof of that loyalty which they have been so forward to express. It gives their case a very ugly and not very religious color to know that they set great store upon their assumed ability to retain possession of the entire church property. They have used the threat to whip the weak-kneed into line, but after all they can scarcely congratulate themselves upon their success. If the threat is reduced to practice, no matter with what results, we trust to hear no more about patriotism, or loyalty to the mother church, or even a moderate regard for Christian principle. It will then be in order to talk of those whose greed is a good deal greater than their Godliness, and of the impossibility of serving God and mammon.

CITY AND VICINITY

Personal.—Mr. Yulle, of the Montreal Fire Alarm Telegraph, is in town, and staying at Daniels' Hotel.

School Trustees.—A special meeting of the Board of Public School Trustees is called for this evening at 8 o'clock, to take into consideration matters relative to the Duke Street School and for the transaction of general business.

Personal.—The Hon. A. B. Foster and Mr. A. B. Chaffee have arrived in the city, and are staying at the Russell House. Their mission to Ottawa is to further the interests of the Canada Central, and secure if possible an extension of that road to Pembroke.

English Mail.—An English Mail will close at the City Post Office to-morrow (Friday) at 12:05 o'clock noon, destined for the steamship 'Peruvian,' which sails from Quebec for Liverpool on Saturday. A supplementary bag closes at 1:25 p.m. for the same destination.

The Daily Times can be procured every morning for 15 cents per week. The "Weekly" Friday morning's, in time for English Mail, at E. A. Perry's Elgin St.; Battle Bros., Rideau St., and Russell House; Lacy, Bridge St., Chaudiere; L'Echo Office, Hull; St Lawrence & Ottawa, and Canada Central Railway Stations.

Knox's Church, City Hall Square.—The question of Presbyterian Union was under discussion in Knox's Church, City Hall Square, last night. From what we learn, the Remit on Union was adopted unanimously, no objection whatever being offered to the proposed Basis of Union.

Guards' Band.—The Guards' Band played a select programme last night on Parliament Square. Notwithstanding the cool evening many turned out to hear its musical strains. Our citizens will soon lose these open air concerts, as the season has advanced to a period of the year that will prove unfavorable hereafter to outdoor performances.

To Come Down at Last.—The old buildings on the ground recently purchased for the extension of the By-Ward market have at last to come down. The Chief of Police has taken the matter in hand and his *fiat* having gone forth, it must be obeyed. Some occupants of tenements were refractory for a time, but, when the buildings began to be torn down around their heads, they concluded to depart in peace.

Annual Drill.—The annual drill of the Ottawa Garrison Artillery will commence on the first Wednesday of October next, and continue each week until the requisite number of days are put in, required by the recent military regulations. This drill of course means for the year ending December the 31st. There will also be additional drills on Tuesday and Friday night of each week.

Effects of the Rain.—The heavy rain of Tuesday evening has left its effects behind, in sunken pits here and there where excavations were being made for the Water Works. If the sunken trenches be not immediately filled some serious accidents will inevitably occur. Sufficient experience has now surely been gained in this matter of excavation to insure a more effectual system of refilling the openings made in the streets.

Rink Music Hall.—Last evening Miss Morton appeared in the protean drama of 'Idlewild,' the production of Mr. W. A. Gregston. She played five distinct characters, essaying with marked success Irish Dutch, and American eccentricities. Her singing and dancing were both received with shouts of acclamation, and the different melo-dramatic situations in which the piece abounds obtained unusual applause. To-night Miss Morton appears in her great speciality of 'Linda, the Pearl of Chamouni,' in which she introduces local and terpsichorean gems.

Bank Street Road.—Yesterday, Bank Street road was one immense line of human beings and vehicles between the city and the Agricultural Show grounds. Cabs, omnibusses, expresses, stages, waggons, private carriages, and every conceivable form of conveyance was pressed into requisition to carry passengers to the fair. As many as 12,000 people are said to have visited the Agricultural Grounds yesterday. In addition to those who went by vehicles and on foot, many hundreds took advantage of the steamers which plied on the canal between the basin and swing bridge adjoining the show grounds.

Dominion Rifle Association.

ANNUAL MEETING.

Second Day.

The second day of the annual meeting of the Dominion of Canada Rifle Association opened under very favorable auspices. The weather had been very unsettled during the whole of Tuesday, the air was extremely sultry, and the Range was almost completely obscured by a dense fog, and smoke from the fires in the bush, rendering good shooting a very difficult task. The thunder storm, accompanied by a heavy down pour of rain which broke over the city during the afternoon, though unceremoniously putting a stop to the firing, had a most beneficial effect in clearing the atmosphere, and dispelling the heavy volumes of smoke which hung like a canopy overhead. Yesterday the air was clear, cold, and invigorating, and as a consequence a good opportunity was afforded the competitors to take accurate sights on the target. The shooting was much above the average yesterday, although perhaps not quite up to the standard obtained at previous meetings. In yesterday's issue, a full report of the first day's proceedings was given including the speeches of His Excellency the Governor General, the Premier, Lieut.-Colonel Powell, and other gentlemen who were present at the luncheon. To-day, it might not be out of place to describe briefly the arrangements of the Executive Committee. In the first place, the Range itself has been levelled and considerably enlarged, in order to give ample accommodation for the large influx of Volunteers from all parts of the Dominion. The number of Targets has been increased from four to eight, one of which is the Wimbledon Target. The 'Butts' have also been repaired, and the accommodation for the markers made more secure. The Executive Committee have not been derelict in their duty of providing for the accommodation of the officers whose business it is to look more immediately after all affairs pertaining to the success of the meeting. A tent has been erected for the use of the Treasurer, Lieutenant Colonel Macpherson, and the Chief of the Statistical Department, Lieut. Col. Bacon. Lieut. Col. Stuart, the Secretary, is also comfortably housed, and assisted by Captain Tilton, of the Governor General's Foot Guards, is most indefatigable in the discharge of his duties. An ammunition tent, in charge of Sergeant O'Keefe, is a great convenience to the competitors. There are also the shooting range canteen, refreshment booths for officers and men. The markers at the "butts" consist of 25 men from "A" Battery of Artillery under Lieut. Peters, the latter also discharging the arduous duties of Range Officer with great satisfaction to every one. The men of the Battery are encamped on the west side of the Range, and while under canvas are obliged to observe the strictest military discipline. The scoring is performed by the officers of the Governor General's Foot Guards, who perform their duties in the most satisfactory manner.

Owing to the concluding or second stage of "The All Comers" match not being concluded until six o'clock, the hour at which firing ceases, it is impossible to-day to give more than the result in the first stage. The "Dominion of Canada Match" was also completed in the first stage, but the result could not be obtained.

ALL COMERS' MATCH.

Open to all members of this Association, whether by direct contribution or through affiliated Associations.

1st Prize	$150
2nd do.	75
3rd do.	50
4th do.	25
15 Prizes at $10	150
	$450

1st Stage—Enfield or Snider Enfield Rifle.

Ranges—1st Stage, 200 and 500 yards.

Highest score to receive......$50
Second highest do. 25
15 next highest, $10 each.

Entrance Fee, 50 cents. Position—Shoulder at 200 yards, and any position at the other range.

		WINNERS.	POINTS.
1	$50	Col.-Sergt. J. G. Baillie, 47th Batt	55
2	$25	Capt. Boyd, 5th Batt	55
3	$10	Private C. B'acatin, 71st Batt	53
4	$10	Private Shepherd, 10th Batt	52
5	$10	Private J. D. Perkins, 71st Batt	51
6	$10	Private J. Ferguson, 2nd G.T.R.	48
7	$10	Lieut. J. Marshall, 2nd G.T.R.	48
8	$10	Private Disher, 19th Batt	47
9	$10	Sergt. Mitchell, 13th Batt	47
10	$10	Sergt.-Major Saucier, 13th Batt	46
11	$10	Sergt. Wilson, 1st Batt P.W.R.	46
12	$10	Sergt. Sutherland, G.G.F.G.	46
13	$10	Private Bell, 10th Batt	46
14	$10	Ensign Wright, 5th Batt	46
15	$10	Capt J. Byrne, 47th Batt	46
16	$10	Assist.-Surgeon Aitkin, 37th Batt	46
17	$10	Capt. Baillie, 47th Batt	46

In the course of the afternoon His Excellency the Governor General, accompanied by Lt.-Col. Fletcher, paid a short visit to the grounds, and for some time watched the shooting with great interest.

Firing will commence at the usual hour, 9 a m, this morning.

Police Court.

Before M. O'Gara, P M.

Wednesday, Sept. 16.

M. Hanley was arraigned on a charge of vagrancy. P. C. Groulx found the prisoner in a hay-loft with a bottle of whiskey in his possession. He was fined $5 and costs, but not having the stamps went to *durance vile* for two weeks.

John Fitzpatrick, on a similar charge, was meted out a like punishment.

F. Mackenzie, another victim to vagrancy, was mulcted in $5 and costs.

Agnes Mead, on a charge of drunkenness, was fined $5 and costs. Not having the needful, she went down for two weeks.

A man named Denis Latremouille was charged by Police Constable Martineau with disorderly conduct. He was dismissed, the charge not having been sustained.

Mary O'Dell, charged by Wm. Graham with breaking a fence, was dismissed. This case occupied considerable time.

David Bowen, charged with an indecent assault upon a little girl on Sandy Hill, was remanded till this morning.

Hugh Johnson, charged with the larceny of several articles from Hugh Hinds, was also remanded till this morning.

The New York *Examiner* says: Every mother and housekeeper must often act as a family physician in the many illnesses and accidents that occur among children and servants. For many of these cases I have used Davis' Pain Killer, and consider it an indispensable article in the medicine box. In diarrhoea, it has been used and effected cures. For cuts and bruises, it is invaluable. 387

Arrivals at the Russell House.—Hon A B Foster, A B Chaffee, J S Daly, A P Macdonald, W G Sanderson, A Jodoin, H Jackson, C H McLeod, Montreal; G Rutherford, Hamilton; J Poupore, Chichester; Hon J Royal, Manitoba; G A Fraser, Kinburn; J Brown, Belleville; P S Church, Sault Ste Marie; G Robertson, Kingston; M McDougall, Fenelon Falls; M K Dickinson, Manotick; J H Burwash, C McLachlin, Arnprior; J D Buell, Brockville; Lieutenant McDougall, Renfrew; J A Church, New York; S S Barnhart and wife, Cornwall; W Dickson, Pakenham; Captain A Fraser, Kinburn; Hon J G Spragge, C A Brough, Cornwall; W McD Dawson, Three Rivers; B Baronn, New York; A Ronaldson, Glasgow; G H Benton, New York; E Jones, Prescott, E Kidd, M D, G L Dickinson, Manotick; Mr and Mrs Wurtele, Quebec; T C Tracy, Cognac, France; J Waterman, London; W H Fredenburgh, Westport; H F Parris, N Robertson, Arnprior; Rev J McCormac, Brudenell; Miss Breadney, Mount St. Patrick.

THE GRAND CENTRAL FAIR.

SECOND DAY'S EXHIBITION.

A Vice-Regal Visit.

The second day of the Grand Central Fair was ushered in with very propitious weather. The dust was completely laid, the air refreshing and exhilirating, and there is little wonder that nearly 10,000 people visited the grounds during the day. The stock being exhibited in the ring to await the decision of the judges, was the principal source of attraction yesterday, although there were other features, such as the exhibition of the steam fire engines, the display of the capacity of the Babcock on a burning house, and a variety of other things, that enlisted the attention of the myriad spectators present.

The judges took the entire day to get through with their duties, they being somewhat arduous to perform, from the number of fine animals of all kinds that were exhibited.

VICE REGAL VISIT.

His Excellency the Governor General, the Countess of Dufferin and suite arrived on the grounds about three o'clock, p.m., being received at the main entrance by the President and Directors of the Society. The Independent Cornet Band under the leadership of Mr. Levi Adams, played 'God Save the Queen,' as they entered. They were then conducted to a pavilion where the Vice Regal party together with a number of leading citizens were entertained by the Directors. As His Excellency had expressed a desire to see as much as possible of the Exhibition, the usual speechifying and toasts at first intended were dispensed with, doubtless a good idea, as His Excellency has had enough of that kind of thing for several week past. The party next took seats on a raised platform in the centre of the ring, under a canopy specially prepared for the occasion, where they watched with interest the exhibition of the horses. On this platform we observed the Hon. Messrs. Cartwright, Scott, Fournier and Geoffrion, Mr. and Mrs. J. M. Currier, His Worship the Mayor and Mrs. Featherston, Mr. E Jenkins, M P., and Miss Jenkins, Dr. St Jean, M. P, and Mrs. St. Jean, Rev. D. M. Gordon, Drs. Grant and Sweetland, Col. Aumond, Hon. J Hillyard Cameron, Hon. James Skead, Mr. Alonzo Wright M. P., Sheriff Powell, Mr. W McKay Wright, M.P., Mr. Ira Morgan, Warden of the County, Messrs. R Lees, H. V. Noel and R. S. Cassells. After spending a short while in looking at the horses, the party were next conducted by Mr Ira Morgan, Warden of the County and one of the Directors, through the exhibition building. His Excellency and the Lady Dufferin examined everything very minutely, and expressed themselves much pleased with all they had seen. They again returned to the ring, and after witnessing an inspection of the steam fire engines, left the grounds, well pleased with their visit.

INCIDENTS, &c.

The friends of temperance have cause to rejoice in the fact that yesterday's exhibition was conducted as far as possible under the circumstances without the sale of intoxicating liquors on the show grounds. The improvement in the conduct of certain boisterous young men was very marked, and doubtless many were saved annoyances of a very disagreeable kind. A detachment of police were on the ground, but there was little need of their services. It is to be hoped the Directors will persevere in their efforts in this direction, giving the undoubted weight of their combined influence to stop the sale and use of intoxicating drinks, especially at public gatherings.

A horse belonging to Mr. E C Barber ran away, and for a time created great consternation among the crowd. Messrs. Orme and Barber were thrown from the vehicle, and the latter somewhat seriously injured thereby. The buggy was considerably damaged and the harness destroyed. Several persons were knocked over but none received any serious injuries. The density of the crowd prevented much harm being done.

Another horse starting somewhat suddenly, caused a young lad aged some seven or eight years to fall backward to the ground. He sustained serious injury, it is presumed, by the fall. Dr. St. Jean was called in, when he expressed the opinion that the spine was injured if not fractured. The young lad, who appeared to be suffering intensely, was removed to the city to be placed under medical care.

FIRE ENGINES, &c.

An unusual feature in this exhibition was the display of steam fire engines. The Amoskeag engine owned by the lumbermen at the Chaudiere, looked well. The "John Heney" a Silsby rotatory engine was also on the ground, hose reel and all intact, and was greatly admired from her high style of finish. Shortly after being on the ground she was located down near the canal and threw two magnificent streams right across the show ground. A novel feature, however, was the presence of the celebrated Babcock Chemical Engine together with a Hook and Ladder Truck by the same maker. A sort of temporary house was erected, the interior of which was stuffed with all sorts of combustible material in the way of tar, coal oil, and such like ingredients. The torch being applied, the entire building was almost instantaneously a mass of flame.

The Babcock was then brought into play and in less than five minutes had the fire completely extinguished. The Babcock No. 1 Engine has its 250 feet of light hose and its own propelling power also with it. It can be placed beside the fire and man can take the hose right on to the fire, and play upon it the instant it arrives on the ground for action, its power being obtained instantaneously. It delivers its charge at the nozzle with as much force as at the out-let of the Engine—over one hundred pounds to square inch. It has two cylinders of 100 gallons, each of which can be re-charged from a water cart or neighbouring well by the suction-hose attached to the engine, and its extinguishing capacity is thirty times greater than water alone. It is so simple in its operation, that once shown, everybody can use it, and it requires one ordinarily careful man to have it in charge, and when in use it can be effectively worked in all respects by any four men.

FARMING IMPLEMENTS, &c.

In our notice of Agricultural Implements yesterday, we omitted to refer to a fine assortment of them, exhibited by our enterprising townsman Mr. W. Abbott, of the Agricultural Warehouse, on George Street. His collection was large and of the most varied character, a fact that will no doubt be duly observed by the farmers who were in attendance, and who usually desire to invest in the latest and most improved kind of farming implements. He exhibited a fine combined thresher and sowing machine, which seems well adapted for its work. He exhibits a drag-saw, harrows, reapers, mowers, potato digger, straw cutters, and stumping machine. He received a first prize for Massey's grain crusher, for a screw stumping machine, and first for Seybred & Landon's combined sowing and threshing machine, two horse power.

LUMBERERS' TOOLS &c.

W. & M Ahearn, of Duke Street, Chaudiere, exhibit a fine variety of lumberers' tools, consisting of cant dogs, picks, handspikes, pikepoles, and other articles so essential for the propagation of the lumber trade. These implements show good workmanship, and are beautifully finished, reflecting creditably on the skill of the artizans. They were awarded first prizes for all the articles exhibited.

AWNINGS.

Mr. Alexander Mills, of Albert street, has one of his pretty awnings put up on the grounds over the Secretary's office. It is very attractive and will meet with a ready sale, not only in Ottawa, but in all parts of the Dominion. They are said to be mildew proof. He has also water proof horse covers, waggon spreads, &c.

MACHINERY.

The collection of machinery this year is equally as good as last. Among the principal exhibitors are Mr. A. T. Millar, agent for Messrs. Frost & Wood, and Rosamond, Miller & Scott. Among the prizes awarded in the machinery department was a first to the McCallum Potatoe Digger, which will dig from four to six acres of potatoes every day. It is the only digger that works to perfection, is simple, durable and cheap. Mr. Millar also took a first prize for that valuable Dodge reaper and mower combined. This machine is easily worked and does good execution. Second prizes were also received for the Johnston reaper and also grain crusher.

WASHING MACHINES.

There is a great competition in the above articles. This time Bunnell's washer has been successful, and has taken the first prize. Bunnell & Ronan's patent clothes wringer has also carried away the prize. The latter is purely a Canadian invention, being completed in Ronan's sewing machine shop, Rideau street, after fifty days experimenting. It is simple in construction, and to judge by appearances durable. The fastenings for the tub and rolls are ingenious. The main shaft is also a valuable improvement, and works admirably. There is no doubt that it was deserving of the prize awarded.

CHURNS.

Mr. A. Hamlin, of Almonte, exhibited an improved churn which certainly possesses many advantages. He claims that the large sized ones will churn seventeen pounds of butter in ten minutes, and that it will churn, gather, wash and salt it all in less than half an hour's time. It has a wind fan which gives a fresh supply of air, quickens the churning and improves the quality of the butter. Mr. Hamlin finds a ready sale for them.

BROOMS, ETC.

Messrs. D & R. Reardon, broom manufacturers, York street, exhibited half a dozen fancy brooms, manufactured from the finest quality of corn, and one dozen whisks of equal merit. The Messrs. Reardon employ about twenty men in their factory, and have succeeded in building up a prosperous business, not only in the City of Ottawa, but in the surrounding districts. They manufacture nearly ten thousand dozen brooms annually, and expect to even exceed that number this year. Their stock is all nicely finished, and possesses durability as well as neatness. The judges awarded the samples an extra prize.

HORSES, ETC.

The horses of all kinds brought into the ring yesterday are seldom if ever equalled in any exhibition. The carriage horses both double and single were greatly admired by the Vice-Regal party. Saddle and and draught horses too, showed to good advantage, and were highly spoken of by those who seemed to be good judges of horseflesh. It was generally conceded if the local carriage horses were to go to Toronto they would make a clean sweep of the prize list in the *Provincial* Exhibition.

RESULT AND TO-DAY'S PROSPECTS.

The receipts yesterday at the wickets amounted to a handsome sum, and were much in excess of any one day's earnings at any previous exhibition. To-day the prize animals will be again exhibited and in the afternoon some athletic sports will be a new feature in connection with the exhibition that cannot fail to prove attractive. They will begin at 3 o'clock and will be under the direction of Mr. E. H. Benjamin, who will doubtless perform the duties assigned to him to the entire satisfaction of all interested. There will be no entrance fee to the games, a fact which of itself should assure a lively competition. The attendance again to-day, the last day of the exhibition, will doubtless be large and the result favorable to the Society. Parties visiting the grounds have the choice of going by Bank Street in vehicles or by boat from the canal wharf.

ST. ANDREW'S CHURCH.

The Question of Presbyterian Union.

A meeting of the congregation of St Andrew's Church was held last evening to consider the new Remit on Union, as sent down for approval from the Synod.

The Rev. D. M. Gordon, pastor of the church occupied the chair, and R. Cassells jr., acted as Secretary.

The meeting was opened with devotional exercises.

The Secretary then read the Preamble of the proposed Remit on Union, a copy of which, along with the Basis and Resolutions, appeared in a previous issue.

Mr. C. S. McNutt moved, seconded by Mr. G. E. Elliott, the adoption of the Preamble.

Moved by Mr. Douglas Brymner in amendment, seconded by Mr. R. S. Cassells, that the Preamble be not adopted, and no sufficient reason being given for the extinction of the Presbyterian Church of Canada in connection with the Church of Scotland the members and adherents of St. Andrew's Church, Ottawa, decline to agree to any proposal having that end in view.

Mr. Brymner supported his resolution at great length, reiterating grievances that have long ago become stale. He protested strongly against the extinction of the Church of Scotland and a sacrifice of its property.

Mr C. H. Chrysler replied in a very effective address showing that the last speaker was arguing from a fallacious ground. He made some salient points against the arguments advanced against the union by Mr. Brymner, and made a favourable impression on the congregation.

At the conclusion of the address, the Chairman asked the meeting to vote first upon the amendment and afterwards for the original resolution. The voting, he said, would have to be distinct as between communicants and non communicants, as determined by the Remit from Synod.

The vote was then taken with the following result:—For the amendment, 8 communicants and 5 non-communicants; against the amendment and in favour of the Preamble, 41 communicants and 9 non communicants.

Mr. Brymner at this stage advanced and placed in the hands of the Chairman the following protest:—

We, the undersigned, members and adherents of the Presbyterian Church of Canada in connection with the Church of Scotland, being members and adherents of St. Andrew's Church, Ottawa, protest against the decision arrived at by a majority of those present at this meeting; refuse to be in any way bound by the action of those who seek to withdraw from the said Presbyterian Church of Canada in connection with the Church of Scotland with the object of joining another religious denomination, maintain on our own part, and on behalf of those who adhere to us, our right to hold the property of whatever nature, which by legal title is vested in the said Church; and further protest against the legality of proceedings, having for their end the extinction of the said Church and the confiscation of its possession, these proceedings, even were the purpose aimed at legal, not being in accordance with the constitutional laws of said Church.

We adhere to the reasons attributed to the protest presented at the meeting held by this congregation on the 26th November last; appeal to the Synod of the Presbyterian Church of Canada in connection with the Church of Scotland and crave extracts in terms of law.

Douglas Brymner.
R. S. Cassels.
W. D. Waddell.
J. L. Orme.
Thos. S Scott.
W. Johnston.
J. Stewart.
A. Mann.
F. R. Davidson.
Wm. Brymner.
A. G. Hopkirk.

Ottawa, September 16, 1874.

The Secretary next read the Basis of Union, upon which a vote was taken without debate. The result was the adoption of the Basis unanimously, dissenters refusing to vote.

Mr. Brymner here requested that a note of the reason for declining to vote be made for submission to the Synod. This was agreed to.

The resolutions were then read and carried *nem. con.*

After the conclusion of the voting on the Remit on Union, the meeting was closed with the Doxology and pronouncing the Benediction.

GREAT REFORM DEMONSTRATION.

Speeches by Hon. Messrs. McKellar. Fraser, and Others.

Glencoe, Sept. 15.

To-day the Reformers of West Middlesex turned out in great force to take part in a demonstration in honour of the principles so long and so successfully advocated. The announcement that several distinguished politicians were to be present, and especially two members of the Ontario Government, led a very large number to brave the threatened rain, and at about two o'clock a long procession of teams left the Great Western Railway station for Mr. John Thompson's grove, where a commodious platform had been erected.

The chair was taken by Mr. Watterworth, M.P.P. for the Riding, and among those present were the Hon A. McKellar, Hon. C. F. Fraser, Messrs G. W. Ross, M.P for West Middlesex, T. Oliver, M.P. for North Oxford, T. Scatcherd, M.P. for North Middlesex, Dr. Wilson, M PP. for East Elgin, and John Hawkins, of Brantford.

After a few remarks from the chairman and Mr. Ross,

Hon. Mr. Fraser delivered a long and exhaustive speech on the state of Ontario affairs, in which he clearly exposed the gross misrepresentations of Messrs Rykert and Lauder, in reference to the finances of the Province, showed the grounds on which the increases in the expenditure had been made, directed attention to the useful character of the legislation which had been carried by the Reform Government, and triumphantly proved their title to a renewal of the confidence of the people of Ontario.

Mr. Hawkins followed, and defined his position as a Reformer, who, in 1867, had allied himself with the supporting party of the Coalition formed to carry out Confederation, and who had now become so convinced of the groundlessness of the opposition to the Administration that he had determed to unite with his old friends, in whose conduct of public affairs he felt perfect confidence.

Mr. Oliver, in a few sensible remarks, referred to the ability with which public affairs were being conducted at Ottawa and to the great benefits which must result from the proposed Reciprocity Treaty with the United States,

After brief speeches by Dr. Wilson and Mr. Scatcherd,

Hon. Mr. McKellar addressed the meeting, showing the great increase which had taken place in the revenue of the Province since the present Government took office, and stating that at the end of the present year, after meeting all charges, the Government would have an undisputed surplus of at least two millions of dollars.

The meeting closed after sunset, with cheers for the Queen and the Ontario Government.—*Globe.*

HYACINTHE'S RESIGNATION.

The Resolutions of the Church Council Condemning his Action.

Geneva Correspondence of the London Daily News.

To-day, August 13th, the Superior Council of the Reformed Catholic Church of Geneva, took into consideration the resignation by the Rev. H. Loyson of his functions as cure of Geneva. It may be remembered that the reverend gentleman [best known as Pere Hyacinthe] resigned his position on the ground that he found himself in conflict with the Reformed Catholics of Geneva. In accepting his position originally he expected to be associated with a Liberal and Catholic party attached like himself to the Church of Rome, but desirous of reforming and not destroying that Church. Finding, however, that the party in question was either Catholic or Liberal, he tendered his resignation as cure to the Conseil d'Etat. This involved of course the resignation of his place in the Supreme Council of the Church, and it was this resignation which was taken into consideration at the meeting of the Council this afternoon.

In accepting the resignation of the Pere the Council unanimously adopted a series of resolutions condemnatory of the step he had taken and the reasons he had assigned for it. His discontent could only arise from—(1), the laws for the organization of worship; (2) the principles introduced into the religious reform of Geneva; (3), the tendency of the priests and their flock to destroy the essential basis of Catholicism. As to the first, the Council declares that those laws were directed merely to maintaining the secular interest of the Catholic Church of Geneva, that M. Loyson had as much to do with the discussion and formation of them as any other member of the Council, and that he afterward accepted the functions of cure under those laws, and swore to obey them.

On the second point the Council says that Pere Hyacinthe freely developed in his conferences the principles of religious reform he was prepared to support. These were—rupture with Ultramontane doctrines, abolition of the enforced celibacy of the priesthood, and abolition of the national language in the services of the Church. All these were adopted by the Catholics of Geneva, and constitute the sole reforms admitted into the Church. On the third point the Council holds that there has been no serious attempt on the part of the priests or their flock to destroy the last mentioned principles upon which the Church of Geneva is based, and that if any priest has more than another manifested a tendency in that direction, that priest is Pere Hyacinthe himself. It is pointed out that of late he had introduced some variations from the principles stated in his previous conferences and sermons.

On all grounds, therefore, the Superior Council pronounces unjust and unfounded motives which Mr. Loyson assigns for his resignation. Having unanimously adopted the series of resolutions above summarized, and accepted the resignation of Pere Hyacinthe, the Council passed to the orders of the day. A reply is expected from Pere Hyacinthe (who is at present observing a "retreat" at St. Cergues, in the Juras), in which he will doubtless more fully set forth the reasons for his abandonment of the Catholic reform movement of Geneva.

A Beautiful Horse.—There is nothing that can contribute so much to render the horse beautiful and elegant, to improve his condition and make him all that is desirable, as "Darley's Condition Powders and Arabian Heave Remedy," it has been used by many persons who own valuable carriage and other horses with decided success, and so well pleased are they with it that they always keep it on hand in case of emergency; it may be given at all times with perfect safety. Remember the name and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Toronto, Ontario, proprietors for Canada. Sold by all medicine dealers. 3671m

Heart Disease.—Halifax, Feb. 10, 1872. Mr. James I. Fellows—Dear Sir: In order that some other sufferer may be benefited, you are at liberty to give this letter publicity. In the winter of 1869, I was taken ill with Disease of the Heart, accompanied by violent palpitation, and from that time gradually became weaker, notwithstanding continued professional attendance, up to a few weeks ago, when your Compound Syrup of Hypophosphites was recommended to me. The use of it during a very short time enabled me to resume my usual work, and now I am as well, fat and hearty as I could wish to be. Yours, very truly, W. Frank Cochran. The heart being a great muscular organ requires vigorous nervous force to sustain it. As Fellow's Hypophosphites restores the nervous element, it will always strengthen the heart weakened through loss of this element.—The Inventor. 265

British Matrimonial Statistics.

"In the first place, the tables tell in an unmistakable way of the marrying tendencies of the nation, for out of the total population of twenty-two and a half millions, nine millions had entered the married state, and of the remainder, eight millions were under fifteen years of age, thus leaving only five and a half millions of spinsters and bachelors who were open to offers, to use a colloquial term; or if we consider the fit age for marriage to be twenty and upwards, the number of unmarried people who might, if all things had been equal, have entered into wedlock is reduced to three and a half millions. Of those actually married we have more than three and a-half millions of husbands, and about the same number of wives, the majority of which were residing together at the time of the census. In 211,352 cases the wives were returned as absent, or, in other words were not in the same houses as their husbands, and turning the tables, 276 516 husbands were returned as not in the same houses as their wives. This result was of course largely due to the accidental causes which are always in operation—such as sickness, death, and other familiar events which in every day life involve the absence of the father or mother, as well as the voluntary absence of men owing to their business in travelling, and of women—especially of the poorer classes—employed as midwives, nurses, and in other ways. The women of Great Britain, as a rule, marry at a far earlier age than common experience would lead one to imagine, there being no less than thirty-four thousand wives under twenty, and some—the authorities, for some reason best known to themselves, do not say how many—who are under fifteen are included in this column. The husbands take a different view, for we find only six thousand married men under twenty, or about one sixth of the number of wives in the same period of age. But perhaps the most remarkable feature in these matrimonial statistics is the extraordinary disparity of ages between husband and wives. Thus out of a million husbands whose ages at the Census-taking varied from thirty to forty, six hundred and seventy thousand of their wives belonged to the same aged-period, but two hundred and seventy thousand were ten years younger, and fifteen hundred were under twenty. The reverse of the picture is, however, also to be shown; for in eighty thousand of these million couples the wives were ten years older than the husbands, four thousand were twenty older and three hundred were thirty years older, forty-two were forty years older, and—will it be believed?—four of these husbands, ranging in age from thirty to forty were living with wives aged from eighty to ninety, or, as people commonly say with women old enough to be their mothers."—*Leisure Hour.*

London Underground.

Underground, the city of London is certainly the most wonderful in the world. It is a labyrinth of drain pipes, water pipes, gas pipes, and underground railways. There are points in the soil of London where it would be extremely difficult to find room for another pipe. One company alone—the Gas Light and Coke Company — supply two districts with nearly four thousand miles of pipe varying in diameter from three inches to four feet. These are the main pipes merely, and from them every house and street lamp receives on an average six or eight feet of small piping. In addition to these, and the underground telegraph wires, there are no less than twenty-five hundred miles of drain pipes of various dimensions. Less familiar to us, but no less important, are the lead and iron tubes—through which are sent written messages, packed in little gutta percha cases, and blown from station to station. The conveniences of these messages are immense. A steam engine forces in a blast of air, and in about a minute it travels a distance of nine hundred and eighty yards. There are at present thirteen stations on the underground, and as people walk upon the streets of London, electricity is flashing messages above their heads and little missives are whizzing and darting just under their feet. And as many as fifteen hundred messages pass to and fro in a day. The drainage system of London presents a world of underground sewers, some two or three thousand miles in extent. All the drains empty into three great sewers, running parallel with the Thames, which sewers connect in the neighborhood of Victoria Park, and through Barking Creek discharge into the river. Men are constantly employed keeping these drains in repair. Londoners never pour a pail of water down a drain, but at the depths of that mysterious aperture somebody is making way for it. A stranger properly costumed can explore these depths, which resemble vaulted galleries, in the sides of which are traps forming various small channels. When the storm waters come, as they sometimes do during a thunder storm, the torrent is fearful; so much so that upon several occasions men have lost their lives.

A great deal having been said about the course of the Dominion Government in reference to the trial of Lepine, and the possible trial of Riel, it may be well to remind the public that the matter, so far as the Province of Manitoba is concerned, is wholly in the hands of the Local Government of which Mr. Girard is the Premier, and Mr. Dubuc the Attorney General. The Dominion Government is not charged with the criminal proceedings of the Provinces, it is the more proper that this should be remembered, because we have seen it stated Mr Royal has consulted the Minister of Justice in reference to the prosecution of the Metis. We are assured that there is no truth in this rumour. It is evident that the Dominion Government can have no responsibility, and, therefore, can give no advice in the matter.—*Montreal Herald.*

The Provincial Government some time ago undertook to aid the North Shore Railway by a grant to the amount of $1,250,000. Upon a recent application from the Company, made at the desire of the contractor Mr. McGreevey, by the Corporation of Quebec, the Government is said, through Mr. Ouimet, to have promised to have advanced $500,000 of this money, so soon as work had been done upon the railway to warrant the payment. But the fact was to be ascertained and certified by an engineer employed by the Government. It is now alleged that during the last hours of their mortal life, Mr. Ouimet and his colleagues advanced Mr. McGreevey $80,000 on account of this sum without the employment on their part of any engineer at all. We cannot affirm positively that this statement is correct; but it comes to us on good authority, and if true, appears to have been an act not only highly culpable in itself, but especially so on account of the circumstances in which they have stood since the resignation of Messrs. Irvine and Ross.—*Montreal Herald.*

It is to be hoped that Mr. Forster, who sails for the United States via Canada in the 'Circassian,' on the tenth of this month, may be tempted to make a short stay in the Dominion, while on this side of the Atlantic Ocean. He is already one of the leading statesmen of England, and will probably succeed Mr. Gladstone eventually in the leadership of the Liberal party. He has made great efforts in the cause of education, but was by many supposed to show too great a leaning to Churchmen as contrasted with Non-conformists, giving the former an unfair advantage in carrying out the work of education. It will, no doubt be an advantage to him personally to contrast the British and American systems, for we look forward to his doing a good deal more work in the future. By his wife's side he is connected with the education side, having married the daughter of the celebrated Dr. Arnold, a man who changed the face of public schools and of the classical education of England. A hearty reception will, no doubt, await him in the States, for, though he is a thorough Englishman, he has ever been more desirous than other statesmen to maintain and improve friendly relations with America.

The *Continental Herald* says:—"Tales are sometimes told in which the hero dies from an excess of joy, but it has rarely occurred that an instance has happened such as that just recorded from Gessenay, near Berne, wherein a man hung himself from being overwhelmed with good luck. The man who is the subject of the story, by immense efforts, in which he was seconded by his wife, who was even more avaricious than himself, succeeded in amassing a considerable sum of money. Not long ago he was informed that a legacy of $25 000 francs had been left him. This piece of fortune gave him the mortal blow; a profound melancholy seized him, and the fear of death from hunger haunted him day and night. To avoid this fearful prospect he stealthily left his house one of these latter nights, went into the neighboring forest and hung himself to a pine branch. He left 100,000 francs of fortune."

MARRIED.

On the 16th inst., at Christ Church, by the Rev. W. Pollard, John R. Skead, Esq., to Miss Alice M. Johnson.

DIED.

On Tuesday, 15th September, 1874, Margaret Greer, beloved wife of the late William Tracy.

The funeral will take place from the residence of her son, Mr. James Tracy, Daly street, on Thursday, at 3 o'clock,

BOARD AND LODGING.

GOOD BOARD and comfortable lodgings can be had at MR. FORGIE'S, South side Sparks st., near Bank-st.

BY TELEGRAPH

TORONTO.

Deserting Employment—Presbyterian Ordination.

TORONTO, Sept. 15.

A city Alderman was arrested to-day for interfering with the police, and he created a lively time in No. 1 Station by knocking over three constables. Particulars of the affair not obtainable.

D. Fraser was ordained in the Gault street Presbyterian Church this evening. The Rev. Mr. Robb preached.

A cricket match takes place here to-morrow between the Hamilton and Toronto Clubs.

Among the novelties to be exhibited at the Provincial Exhibition is a new Dump Cart for distributing gravel over roads, &c.

At a meeting of the Water Commissioners this evening, a letter was read claiming five hundred dollars damages for injury to his fences, committed by workmen laying drain pipes, the men having also robbed the orchard whenever they wanted fruit.

J. Gordon Sheriff, a tailor, who also made an addition to his income by singing at concerts, recently departed for the States. He now writes from New York, informing his friends that he is taking lessons in singing, and hopes before long to be able, by this means, to meet all his engagements in Toronto.

Thomas Tilley was this morning charged before the Police Magistrate with deserting his employment without notice. He had been engaged to drive a water waggon, and left for more remunerative wages as a cabman. George Tremble, prosecutor, said he always gave, and expected from his men a week's notice to quit employment. As no special agreement for such notice could be proved, the case was dismissed.

Mr. W. J. Buchanan, Manager of the branch of the Bank of Montreal in this city, is shortly to be transferred to the head office, where it is understood he will have charge of the Montreal business of the Bank.

MONTREAL.

MONTREAL, Sept. 16.

The Hon. W. Ross, Minister of Militia, and family, arrived in the city this morning and are staying at the Ottawa Hotel.

Subscribers to the testimonial to C. J. Brydges, Esq., and the ladies of their families, are reminded that the presentation takes place at the Mechanics' Hall, on Thursday, the 17th, at 12.30.

It is said that a number of friends and admirers of the late Thomas D'Arcy McGee are endeavoring to erect a statue to his memory in a central part of the city, and that the greater portion of the necessary funds has been subscribed.

A few days ago Mr. Peartree, 92 St. Bonaventure street, noticing that money in some mysterious way disappeared from his desk, marked some bills and coins. Yesterday, after having been out for some time, he returned, and going to his desk, found that a $5 and a $1 bill, both marked, were missed, as well as a marked 50c coin. On making enquiries suspicion was thrown on a young emigrant, but lately from London, named Sidney Jordan, 17, on whom the marked money was found, as also a key which fitted the desk lock. He pleaded guilty in the Police Court yesterday morning, and was sentenced to three months imprisonment with hard labour. He states that his father in London receives a salary of £300 a year, and that he himself had been sent away from his home alone, from which it is assumed that his late transaction was but a resumption of his old habits. The key with which the lock was opened was ingeniously filed to fit by the prisoner.

The discussion upon the subject of the Reciprocity Treaty did not seem to excite much interest on the part of the members of the Board of Trade inasmuch as three-quarters of an hour after the opening of the meeting only about 30 persons were present.

The gauge of the Grand Trunk line of railway eastward from Montreal to Portland, is to be altered in the same manner as was done with the western section last fall, operations to begin on the 26th instant. It is expected that the work will be completed in two days, by a large staff of men being placed along the whole line. Of course preparations require to be made beforehand, to changing the car wheels on the rolling stock. For this purpose, the company intend gradually reducing the quantity of freight they will receive for a short time; and through freight for Portland or the Maritime Provinces, will, until the change of gauge is completed, be sent via Vermont Central to Boston. Although merchants may, therefore, experience temporary inconvenience, yet they will gladly submit to it, knowing that the intended action of the company will afford additional transportation facilities, and obviate the likelihood of a recurrence of the delays and embarrassments which prevailed last fall and winter.

RENFREW.

Mill Burned.

RENFREW, Sept. 16.

A fire broke out this morning about half past two, partly destroying a grist mill owned by John McRae. They were running the mill at the time, and the cause of the fire is supposed to be from a belt being too loose and friction of the wheel. The loss is not known yet, but it is supposed about $600 will cover the loss of the wheat and damage done to the mill.

QUEBEC.

No Cabinet Yet—Sale of Timber Limits.

QUEBEC, Sept. 15.

Nothing is known of the new Cabinet. To those seeking information from Mr. DeBoucherville the invariable answer for the last seven days has been "things are progressing favourably." Some of the officials say the Cabinet is complete, and will be announced to-morrow." But the Ministerial press is not so sanguine as before, and admits that Mr. DeBoucherville meets with more difficulties than he had anticipated. The rumours are contradictory as regards Mr. Roy, one saying that he has accepted, and is consulting his electors, and the other that he has only been consulted as to his feelings with regard to the new arrangement and that he left furious for home. The name of Mr Angers was mentioned to-day, but the opinion is he will not accept.

The annual sale of timber limits, advertised by the Department of Crown Lands, will take place on the 17th instant.

The Coroner held an inquest this morning on the body of Pierre Laster, aged 56 who died suddenly at his residence yesterday evening. Cause of death congestion of the lungs.

The annual sale of timber limits advertised by the Department of Crown Lands will take place on the 17th inst.

To-day has been excessively warm, the thermometer registering 89 in the shade. Rain is much needed.

A paragraph was published in the Quebec *Chronicle* yesterday to the effect that a stone had been thrown into the window of Rosa D'Erina's room in the St. Lawrence Hall, and that she narrowly escaped with her life. The report was incorrect. The stone was not thrown into the room of Rosa D'Erina, but another distinguished *artiste*, who left for the West this morning to fulfil engagements.

HALIFAX.

Another Presentation to the Hon. P. Mitchell.—Obit—Strange Story.

HALIFAX, Sept. 15.

Hon. H. G. Pino, a member of the Legislative Council, died last evening at his residence in Pugwash.

A man named Booler has arrived here and told a story of terrible cruelty practised to him by Donald Nickerson, Captain. Thomas Nickerson, mate; and Spirling a seaman of the American schooner 'White Foam,' of Bucksport, Maine, to which he belonged while the vessel was lying at anchor near Prospect, Nova Scotia. He escaped by swimming ashore, and obtained warrants for the arrest of the offenders, but before they could be taken the vessel had left.

The Hon. Peter Mitchell is fortunate in the appreciation of his friends. A valuable watch, by Dent, an exceedingly heavy gold chain, and a handsome seal has been forwarded to him from his constituents. The watch bears the following inscription:

Presented
by the
Electors of Northumberland
to
the Hon. Peter Mitchell
as a token of appreciation
of his public services
as a representative
for twenty years.

MIRAMICHI, N. B., 1st January, 1874.

A man named Charles Coleman, claiming to be a cattle drover, was arrested last night at Dorchester Station for stealing a large roll of bills from the pocket of Conductor Delaney while *en route* to the city from Glencoe. On leaving the train here he hired a buggy, stating he wished to go to Komoka. Instead, however, he went to Dorchester, whither the detectives proceeded by midnight train and arrested him. The prisoner was remanded.

LONDON.

LONDON, Sept. 15.

Bush fires have been raging in London township for several days past; a large quantity of valuable timber is destroyed. An unfortunate laboring man named Langford went out to try and check the flames and was found some hours afterwards burned to death; It is supposed that he fell down in a fit.

KINGSTON.

Public Meeting—Obit.

KINGSTON, Sept. 15.

The public meeting of citizens last evening was very largely attended, and a remarkable interest was taken. Several strong speeches were made and resolutions were unanimously passed calling on the City Council to send a deputation to Toronto to make an appeal for the Provincial Exhibition for Kingston for 1875 in its regular turn, and also desiring the usual repairs and improvements. There never was a more earnest gathering, and there was but one feeling, that of condemnation of the Council for its late action. The Aldermen met afterwards, rescinded its former action, and appointed a large deputation with full power to act.

Mrs. Harkness, a very charitable lady, the widow of an army officer, died to-day.

SARNIA.

Military Stores.

SARNIA, Sept. 16.

Major McDonald, with military stores for Manitoba, left Sarnia yesterday by the steamer 'Manitoba.'

YESTERDAY'S DESPATCHES

ENGLAND.

Strike Ended.

LONDON, Sept. 16—Some mills in Bolton have withdrawn the notices of the reduction of wages, and the strike will probably be ended by arbitration.

S. S. Arrivals.

LONDON, Sept. 16.—The steamships 'Washington,' 'Utopia,' and the 'Queen,' from New York, have arrived out.

St. Leger.

The St. Leger was won by 'Apology.' 'Frederick,' the favorite, was this morning scratched.

FRANCE.

Bazaine's Escape.

PARIS, Sept. 15.—At the trial of the accomplices of Bazaine, to-day, Col Villett and M. Dorneau were examined, and denied that they knew of the advance, or had anything to do with the Marshals escape.

GERMANY.

Evangelical Conference.

BONN, Sept. 16—The Conference of Evangelical, Greek and Anglican clergy, called by Dr. Dollinger, began here to-day. Forty clergymen were present, and France, Russia, Germany, England, United States, and Greece were represented. Dr. Dollinger and Bishop Reinkens made addresses.

UNITED STATES.

S. S. Arrivals.

NEW YORK, Sept. 16—Arrived s.s 'Scotia,' from Liverpool, and 'Thuringia,' from Bremen.

Affairs Tranquil.

NEW ORLEANS, Sept. 16.—The city continues quiet. The police duty through the city last night was performed by volunteers. This morning there is a very general resumption of business, and there is no gathering of people or evidences of excitement in any quarters.

The Beecher-Tilton Scandal.

NEW YORK, Sept. 16.—General Tracy, counsel for the Plymouth Church Investigating Committee, has put his promised statement in the form of an interview, and says the thirteen or fourteen times which Moulton introduced his (Tracy's) name in his statement, in only one or two instances does he approximate the truth in attempting to state his position and action. General Tracy also says his firm has been engaged in a libel suit instituted by Edward Dean Proctor against Francis D. Moulton, in which damages are laid at $100 000.

A full grown specimen of the dog-headed monkey, from Abyssinia, has been presented to the Museum of the University of Geneva. This Abyssinia monkey is characterized by the long hair upon his cheeks and the greater part of his body. It was held in great veneration by the ancient Egyptians, and enjoyed a certain celebrity from the rank that is occupied in their cosmogony. Its figure is engraved upon the monuments of ancient Egypt, and there have been found mummies of the animal well preserved. According to Ehrenberg, this monkey served as the emblem for the god Thoth, the Egyptian Hermes, or Mercury, the mythical inventor of the arts and sciences, music and astronomy, and especially of speech and hieroglyphs, or letters, over which he was supposed to preside.

CHRONIC SPLENITIS.—Physician's report of a remarkable case. Gagetown, N. B., July 22, 1868. Mr. James I. Fellows, Chemist. Dear Sir: Allow me to bear testimony in favor of your Compound Syrup of Hypophosphites. I have used it myself for Tuberculosis with marked benefit, and have given it to a great number of my patients, with the same results as I experienced from its use. The most marked was a case which was under my care in March last. This was a patient who had been under treatment nine months with no beneficial results. When I first saw him he was so feeble that he could not sit up long enough to have his heart and lungs examined. He had a severe Cough, Dyspnœa, Palpitation of the Heart, Impaired Digestion, and consequent general maciation. I put him under treatment, prescribed your Compound Syrup of Hypophosphites, and after using four bottles he was able to attend to his farm and is now perfectly well. In March he was given up by four physicians respectively; in May he assisted in ploughing eighteen acres of land, and had run up in flesh from 136 to 148 pounds weight. I send you this for the purpose of your making what use you please of it, and wish you all success in your labor for the benefit of suffering humanity. Strongly recommending the use of your Compound Syrup of Hypophosphites to all who suffer in any way from disease or weakness of the Lungs, Bronchial Tubes, or general debility. Believe me, your obedient servant

J. H. W. SCOTT, M. D.

MID-NIGHT DESPATCHES.

UNITED STATES.

Seized.

NEW YORK, Sept. 16.—A cargo of teas per ship 'Tamerlane' was seized on suspicion of fraud, but was released on orders from Washington

Cabinet Meeting.

The President has not left Washington. A Cabinet meeting was held to day it is supposed relative to New Orleans affairs.

The Formosa Difficulty.

WASHINGTON, Sept. 16.—The latest rumored phase of the Formosa affair is that the Japanese are willing to vacate that part of the Island occupied by them, on condition that the Chinese Government will hold the people there under subjection, and acknowledge that the Japanese were justifiable in taking possession.

The Cotton Crop.

NEW YORK, Sept. 16.—The *Financial Chronicle* reports the total cotton crop in the United States for the year ending September 1st, 1874, at 4,185,534 bales. The total receipts were 3,819,436. The total exports were 2,840,891 bales.

Arrival of the Irish Rifle Team.

The s.s. 'Scotia' brings 250 passengers including the Irish Rifle Team, the Lord Mayor of Dublin and wife, Rev. Drs. Crysler and Buddington, A. T. Stewart, Sydney Webster and Admiral Strong.

Pedestrianism.

At 11.30 to-day, Weston, the pedestrian had walked 162 miles.

Confession of Guilt.

BOSTON, Sept. 16.—Bullard, the Boylston Bank robber, who arrived from New York last week, has made a confession of his connection with the robbery, and that the amount obtained was $496,000.

Large Fire.

SAN FRANCISCO, Sept. 16.—The Capito Woollen Mills, in Sacramento, were burnt on the 15th instant. Loss over $200,000; insurance, $50,000.

Marriage of P. T. Barnum

P. T. Barnum was married to-day to the daughter of Mr. John Fisk of Southport, England.

MOON-COAL.

[From Hall's Journal of Health.]

"A man in the moon," there may be, and possibly some green cheese, but there is no proof as yet that there is any coal there, which the inhabitants may shovel down to us, when ours is all burned up. But according to a late number of that most excellent paper, the *Scientific American*, a better thing has been lighted upon than a seam of coal a hundred miles thick, away out yonder in space; it is nothing more nor less than the discovery of doubling the yield of coal on this planet, thus: in getting coal out of the ground, and fitting it for market, about one-half is lost by its breaking up into small pieces and dust; and at every coal mine this waste has accumulated amounting to many millions of tons; a machine has been invented by which this waste, being put into one end of it, is turned out at the other end two hundred and eighty feet distant, in the shape of little balls. This coal dust is so mixed up with clay as to adhere closely, and is so covered with a kind of paint or glazing that in the handling of it the hands are not soiled, no dust flies off, and the kindling is facilitated: by being made into a spherical shape spaces are given, when placed in the grate, for the circulation of air and free draught, and, what is really a boon to man and a blessing to the poor, can be furnished to consumers at one dollar a ton. Every one of even moderate intelligence must feel gladdened at such an item of news as this; and yet, the admirable paper mentioned is constantly favoring its readers with the earliest information of similar practical matters, making it worth more than its subscription price for the moral and intellectual pleasure which it affords, to say nothing of the elevation it gives to the character. In the same number, one reads with a delight which is thrilling the recital of events connected with the personal history of a man named Jas. Lick, of whose very existence the great world outside of California was wholly ignorant. This gentleman has had an ambition for a life time to facilitate telescopic discoveries, and having accumulated large wealth, he has been quietly and unostentatiously expending a portion of it in preparation for constructing a telescope, and placing it in a position which will result in making discoveries in the starry heavens which will electrify the civilized world; which, if anything mundane could, would call from their honored tombs all the Gallileos, and Tycho Brahes, and Herschells, and Rosses and Mitchell's who have ever lived. A man may not be able to read a line with the naked eye, but he can easily do with a pair of spectacles, because an object is enlarged or brought nearer. An opera glass brings a beauty in a box most delightfully near to an old bachelor, almost near enough for a kiss, and a telescope will bring a ship in sight, which before was almost invisible. Make a telescope long enough, and other things in proportion, and the moon may be brought almost near enough to see the people on it, if there be any there. To make such a one would cost, according to the estimate of some persons, a million of dollars. The great instrument lately sent to Washington will cost perhaps fifty thousand dollars. Mr. Lick has ordered the largest and most complete instrument that modern scientific knowledge can devise, with instructions to call on him to foot the bill. There is a grand man for you! A common telescope is some two feet long; now if one is constructed a hundred and twenty feet in length, to bring things to a focus, it will make a silk thread appear to be nearly thirty thousand times larger than it is; it will increase the moon to eight hundred millions of times its present extent, as we understand it; in other words, we could see it as clearly, as if we were within eight miles of it. The reader may inquire why not make the thing a little longer, so as to get near enough the moon to jump on it, and make a picnic excursion; it is sufficiently accurate to say, that the instrument could be easily made long enough, but according to present knowledge and skill, there is an insuperable difficulty in constructing a glass which will give a distinct image of an object at a greater distance. The importance and magnitude of the discoveries which might be made with such an instrument, properly located in a clear atmosphere, can scarcely be imagined; it is a bliss to even contemplate the possibilities, and the name of James Lick will go down to the ages, carrying with it the admiration, the gratitude, and the respect of intelligent mankind to the end of time. But what a pity it is that a thousand families, where there is now but one, should not take such a paper as that named, at two or three dollars a year, and thus keep themselves informed of the progress of art and science; of new developments, of new discoveries, and thus be in advance of the great mass of the people and in this superior to them.

BRAIN WORRY.—Many of us pray to be delivered from sudden death, and do we not worry ourselves into it? And if we do can we not help it? "Men do not really die of Heart Disease as often as it is supposed, but of Apoplexy, or Congestion of the Lungs, so they do not die of brain work, but BRAIN WORRY. Scott died of it, Southey, Swift, Horace Greeley, and probably Thackeray."—*London Times.* As brain worry induces premature dissolution by its depressing influence upon the general nervous health, by eating the brain faster than the waste is repaired, and as the means of sustaining and increasing nervous health is no longer impossible; those who suffer the debilitating influence of mental anguish or extreme mental fatigue, need only resort to the preparation of Hypophosphites invented by Mr. Fellows, as that will conduct the subject safely over the rapids of despair, and create in him strength to grapple with every difficulty. This is no idle assertion but an established fact. 3671

THE WAR OF RACES.

Kellogg's Power Crushed

TRANQUILITY RESTORED.

CINCINNATI, Sept. 16.—The following has been received from the committee at Shreveport:—

SHREVEPORT, LA., Sept. 15.

The rightful officers elected in 1872 have been peaceably installed in all the parishes, so far as heard from, in North Louisiana. There has not been, nor will there be a single drop of blood shed. The movement has been conducted by the leading property holders, business and conservative men in this and the adjoining parishes. The best of feeling prevails between the whites and blacks. Our people are of the opinion that President Grant's proclamation was issued under a misapprehension of facts, and they cannot believe he will use the powers of his great office to crush them. There will be no conflict between the people and Federal authorities, but the Kellogg infamy is dead beyond resurrection, troops or no troops.

(Signed),
W. B. EGAN,
W. J. MANCURE,
A. H. LEONARD,
Committee.

NEW YORK, Sept. 16—D. B. Penn, signing himself Lieut.-Governor and Acting Governor of Louisiana, sends a telegram to the newspapers of this city saying that the North can form no idea of the robbery and spoliation to which we have been subjected. My movement was necessitated by the attitude of the people—they demanded it. I am now in full possession of the Government of the State. The coloured people are satisfied and contented. A strong brigade of coloured troops fully organized and armed in the service of usurpation refused to fire a shot in defence. The most perfect peace and good order prevails. We are thoroughly loyal to the Federal Government, and in the operations of the past two days there have been no excesses or violations of the law. This Government is now in existence in Louisiana.

NEW ORLEANS, Sept. 16.—Major W. C. Robbins, and John Gravel, citizens who were wounded in the fight on Monday, have since died.

The following is the text of the telegram transmitted to the President: A petition has been forwarded on to-day by express signed by 500 leading merchants and business men of this city and reads as follows:

"We, the undersigned merchants representing the commercial interests of New Orleans, and deeply interested in the welfare and prosperity of the State, gladly embrace the recent change of Government as a guarantee of impartial rights to all. We respectfully ask the sympathy and support of the Executive.

(Signed)
E B. WHEELER,
Chairman of Committee.

SHREVEPORT, Sept. 16—The last vestige of the Kellogg Government has disappeared from North Louisiana, without a word or act of violence to white or black. Perfect quiet and order prevails, and can only be disturbed by extraneous interference. The people are buoyant and now hopeful of future material prosperity.

(Signed)
W. B. EGAN,
J. C. MANCURE,
A. H. LEONARD,
Committee.

A Rumour.

WASHINGTON, Sept. 16.—Private telegrams from New Orleans say that Lieut. Governor Penn has called an extra session of the Legislature.

A Westport correspondent of the Norfolk *Gazette* describes a hand at cribbage which one in the usual course of playing would get about once in a thousand years. He says: A few nights since a remarkable game of cribbage was played by Messrs. H. R. Treadwell and A. S. Hurlbutt, at the house of the latter. It was six-card cribbage. A regular deal was made by Treadwell, who discarded a six and four spot, and held three fives and the jack of spades for his hand. Hurlbutt discarded a six and four spot, retaining for his hand two fours and two sixes. The trump turned was the five of spades, which gave Treadwell twenty-nine in his hand, the largest number that can be held. Hurlbutt showed twenty-four in his hands and in the crib was found twenty-four more for Treadwell. In the play ten holes were pegged, making the result of the play of one hand an aggregate of eighty-seven pegs, without doubt the most remarkable 'make' of this most beautiful of games, on record.

Two valuable surgical devices have lately been introduced into European hospital practice. One of these is the aspirator, which has been extensively employed by Dr. Diculafoy of Paris, and by means of which fluids can be extracted from formations at some distance from the surface with safety and certainty. Another novelty in this line of mechanism is the introduction of a bloodless method of amputation and other operations on the limbs by means of a compressing bandage, by which the limb is blanched with a circular elastic cord, which compresses both the arteries and the veins of the limbs. This plan, proposed by Professor Esmarch, has been adopted by many hospital surgeons. It is considered, however, a point yet to be determined whether there are any drawbacks to this system, and especially whether, in certain cases, embolism is likely to result from displacement of clot, which may have already formed in the veins of a damaged limb.—*Boston Traveller.*

Mr. J. R. Brown has returned from his recent trip in the direction of Fort Benton. He passed the winter at Woody Mountain and reports that buffalo were numerous in the neighbourhood of the Cypress Hills. On several occasions camps were subjected to raids from predatory Blackfeet Indians who endeavored to stampede the horses. This led to different battles in which some of the Indians were killed. On one occasion the fight resulted in the death of seven Blackfeet, ten Sioux and two Crees, these two latter tribes assisting Mr. Brown and the Half-breeds. The relation between the Indian tribes and Half-breed traders is in anything but a satisfactory condition. Mr. Brown met the Mounted Police under Col. French at Old Woman's Creek. The horses were in bad condition, and several of them had died. The Commissioner purchased all the oats from the returning Boundry Commission for the force. Sick men were suffering from dysentery. Sick men and horses were to be placed in Comp at Old Woman's Creek, and three troops under Major McLeod were to proceed to Fort Edmonton for winter quarters. The Boundary Commission have finished work having had no trouble with Indians. Mr. Kennedy's trading post, some six miles from Woody Mountain, had been raided by Sioux and Assiniboine Indians, every article being carried away except the oats. Mr. Brown did not meet either troops for Qu'Appelle or the Lieut. Governor's party as he came by the White Mud trail, while these parties went by the lower trail. He met Mr. Sutherland's party at Stoney Creek, a few days journey from the Little Saskatchewan River.—*Manitoba Gazette.*

POND'S EXTRACT

THEY —ARE— DYING —BY— INCHES!

ARTERIAL blood contains the elements of Vitality and Nutrition, which is emptied into the capillary system and, after supplying the required nourishment, is sucked up by the minute branches of the venous system and carried back to the lungs for vital recuperation. By reason of much that is wrong in living and medical treatment, this stream of blood flowing through the body is not always pure or free from inflammatory particles, which may pass off by insensible perspiration through the skin or with the waste matter through the intestines, but cold or wet may stop their outward escape, and the internal drainage may become inactive, when the corrupt particles are apt to coagulate, causing pustules, scalp eruptions or running sores, bronchitis &c. They may locate about a nerve, causing neuralgia, and by attaching themselves to the arterial tubes and veins, large or small, and inflaming them by their corrosive influence, cause those intensely painful sensations called Rheumatism. Nature struggles to drench out or dislodge if possible these corrosive particles, and the parts become very red from the congestion or pressure of blood therein. This is called Inflammatory Rheumatism or Rheumatic Gout. If nature does not succeed in washing out these acremonious atoms she withdraws the undue supply of blood from such parts, ceases to contend, and performs circulation as best she can; however, the passage of the blood through the affected channels still continues painful. This is Chronic Rheumatism, which may exist without its usual antecedant the Acute kind.

The above only true theory points out the correct treatment of this and other distressing maladies. Dissolve these corrupt particles that have lodged in the afflicted parts, so that in the circulation they may be carried off externally or internally, and having thus removed the cause the effect ceases.

The experiment of twenty years in the London Hospital, England, has demonstrated to the Medical Faculty of Europe, that the only medicine having control over this class of diseases is the

DIAMOND RHEUMATIC CURE!

It is the result of a lifetime of scientific study and is now for the first time offered to the Canadian public, prepared by a careful, experienced and conscientious physician, in obedience to the desire of numberless friends in the profession, in the trade and among the people. Every bottle is warranted to contain the full strength of the medicine in its highest state of purity and development, and is superior to any medicine ever compounded for this terrible complaint.

A BLESSING TO THE POLICE.

MONTREAL, 18th June, 1864.

DEVINS & BOLTON:
GENTLEMEN,—Having been one of the many martyrs of rheumatism that I meet on my every day rounds, I was induced to try the celebrated DIAMOND RHEUMATIC CURE. I had suffered the last five or six weeks the most terrible acute pains across my loins and back, so severe indeed that I could hardly walk with the help of a stick. I commenced the Diamond Remedy—following the directions carefully. Relief came immediately with the first bottle, improved rapidly with the second, completely cured and freed from pain after finishing my fifth small bottle. You are at perfect liberty either to refer to me privately or publicly, as I feel very thankful for the relief, and sympathize with my fellow sufferers from rheumatism.
Yours respectfully,
J. B. CARDINAL,
Sanitary Police Officer,
51 Labelle street.

In simple cases, sometimes one or two doses suffice. In the most chronic cases it is sure to give way by the use of two or three bottles. By this efficient and simple remedy hundreds of dollars are saved to those who can least afford to throw it away, as surely it is by the purchase of useless prescriptions.

This medicine is for sale at all Druggists throughout Canada. If it happens that your Druggist has not got it in stock, ask him to send or it to
NORTHRUP & LYMAN,
Agents for the Province of Ontario,
Scott street, Toronto,
Or to DEVINS & BOLTON,
Notre Dame street, Montreal,
General Agents for the Province of Quebec.
Price $1 per bottle. Large Bottles $2.
May 18, 1874.

THE SIMPLEST, CHEAPEST, AND BEST
Marking Apparatus in the World
For Marking COTTON, SILK, WOOLLEN, and LINEN, is
PAYSON'S INDELIBLE INK,
Used with a Common Pen without a preparation.

This ink flows perfectly; will write as easily on the finest muslin as ink on paper. It does not dry up, and retains its virtues longer than any other ink known. It will not injure the finest fabric. Payson's ink has endured the test of forty years, and is now the most popular ink in existence and is unrivalled for uniformity, of quality, and durability. It will mark more neatly, quickly and indelibly than any other apparatus. It requires NO PREPARATION of the fabric.
Price, 37 cts. per Bottle.
Sold by all Druggists, Stationers, and Fancy Goods Dealers.
Sept. 14.

IMPORTANT TO LADIES OF FASHION
DRESSMAKING BEING THE ORDER OF THE TIMES.
J. W. RYAN
Has much pleasure in informing his numerous Lady customers and others that MADAME OLLIER, the celebrated Cutter and Fitter of Ladies' Garments, has arrived from her New York and Boston trip, and re-engaged with him to superintend his Dressmaking Department,
No. 234 WELLINGTON STREET
It will be remembered that Madame Ollier came direct from Boston last March to make arrangements with him, but was subsequently induced, by large offers for her valuable services, to go into an old established firm in Centre Town; but finding that she had made a change for the worse, again engaged with him. Madame Ollier's attainments in the art of Scientific Measurements enables her to ensure a perfect fit without putting her customers to the inconvenience of removing a single garment.

JOS. NEELIN,
Late Preston & McLaughlin, 12 Rideau-st. Ottawa.

BERKELEY, Sept. 1868.—Gentlemen, I feel it a duty I owe to you to express my gratitude for the great benefit I have derived by taking "Norton's Camomile Pills." I applied to your agent, Mr. Bell, Berkeley, for the above named Pills, for wind in the stomach, from which I suffered excruciating pain for a length of time, having tried nearly every remedy prescribed, but without deriving any benefit at all. After taking two bottles of your valuable pills I was quite restored to my usual state of health. Please give this publicity for the benefit of those who may thus be afflicted.—I am, Sir, yours truly, HENRY ALLPASS.—To the Proprietors of NORTON'S CAMOMILE PILLS. 2656

SPECIAL ANNOUNCEMENT IN REAL ESTATE.
(By J. Bermingham.)
A Great Bargain—Lot No. 56, corner of Preston and Spruce streets, opposite post office, Rochesterville, with a good two story Brick House thereon, nearly new, with all the necessary out offices and a never failing spring, to be sold very cheap and on very easy terms. Come and inquire price, it will astonish you, it will be sold before two weeks, some one will get a big bargain from me.
J. BERMINGHAM.

West ½ of Lot 27, south Rideau street, with a most comfortable Brick House thereon, rented for $100 per annum, has to be sold for half its value within fourteen days. It would cost nearly double as much to build the house now, as is wanted for house and ground. Such a bargain was never offered before in this city, some one should secure it at once. Apply to
J. BERMINGHAM.

Lots 37, South Maria, and 37 North Gloucester streets, 66 x 99 each, to be sold very cheap, and on very easy terms, a small sum only required down, balance in ten annual payments. There is a big speculation in this. Who will come first and purchase? One thousand dollars can be made on it before long. Apply to
J. BERMINGHAM.

A Lot 54 x 99, about 100 yards from Cumming's Bridge, outside City limits, thereby avoiding city taxation, very cheap, only $5 down, balance as may be agreed on. Apply at once to
J. BERMINGHAM,
York Street.

Travellers' Guide

Below we publish a directory, made up for the benefit of our citizens, and strangers who may visit the Capital. It is important to all travellers to have, within easy reach, information as to the arrival and departure of the various trains and stages for all places, East, West and South. The public can depend upon the correctness of this table:

St Lawrence & Ottawa Railway.

Leave. 45 a.m., 10.45 a.m., 2.00 p.m., 9.30 p.m.
Arri .30 a.m., 7.45 a.m., 3.50 p.m., 7.00 p.m.

Canada Central Railway.

10.15 a.m., 5.20 p.m
Ar es, 12.55 p.m., 8.00 p.m.

Ottawa River Navigation Company.

Steamer *Peerless* leaves at 7.30 a.m.
Steamer *Queen Victoria* leaves at 5 p.m.

Saturday afternoon trips—Steamer *Queen Victoria* leaves at 4 p.m. for L'Orignal, &c. [See advt.]

Union Forwarding Company.

Steamer *Jessie Cassels* leaves Aylmer at 7.30 a.m.

Stages.

Aylmer Stages leave the Union, Daniels, and the Russell House every morning at 6 a.m.
Gatineau Stage leaves the Post Office at 6 p.m.
Richmond Stage leaves the Post Office at 1.30 p.m.

British Mails.

Via New York, close every Saturday, Monday and Tuesday, at 8 p.m.
Per Canadian Line, close every Friday at 12.05 p.m.

A supplementary bag for Canadian Steamer will be closed at 1.25 p.m., in which only unregistered letters can be sent.

Commercial.

Electric Oil Thomas' Excelsior Eclectric — Worth Ten Times in Weight in Gold.

Pain cannot stay where it is used. It is the cheapest medicine ever made. One bottle has cured bronchitis. Fifty cents worth has cured an old standing cough. It positively cures Catarrh, Asthma and Croup. Fifty cents worth has cured crick in the back, and the same quantity lame back of eight years' standing. The following are extracts from a few of the many letters that have been received from different parts of Canada, which, we think, should be sufficient to satisfy the most skeptical. J. Collard, of Sparta, Ontario, writes 'send me 6 dozen Dr. Thomas' Electric Oil, have sold all I had from you and want more now; its cures are truly wonderful.' William Maguire, of Franklin, writes, 'I have sold all the agent left, it acts like a charm—it was slow at first, but takes spendidly now." H. Cole, of Iona, writes. "Please forward 6 dozen Thomas' Electric Oil, I am nearly run out: nothing equals it. It is highly recommended by those who have used it." J. Bedford, Thamesville, writes —"Send at once a further supply of Electric Oil, I have only one bottle left. I never saw anything sell so well, and give such general satisfaction." J. Thompson Woodford, writes—"Send me some more Electric Oil. I have sold entirely out. Nothing takes like it." Miller & Reed, Ulverton, P.Q., writes—"The Electric Oil is getting a great reputation here, and is daily called for. Send us a further supply without delay." Lemoyne, Gibb & Co., Buckingham, P. O., write—"Send us one gross Electric Oil. We find it to take well.

Sold by all medicine dealers. Price 5 cents.

S. N. THOMAS, Phelps, N. Y.
and NORTHROP & LYMAN, Toronto, Ontario, Sole Agents for the Dominion.

NOTE—*Electric*—Selected and Electrized

JOB MOSES' FEMALE PILLS.

This well known medicine is no imposition but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, they contain nothing hurtful to the constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics and Whites, those pills will effect a cure when all other means have failed; and although a powerful remedy, do not contain iron calomel, antimony or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully reserved.

For full particulars, obtain free, of the agent a pamphlet, or refer to advertisement.

JOB MOSES, NEW YORK, SOLE PROPRIETOR.

$1.00 and 12½ cents for postage, enclosed to Northop & Lyman, Toronto, Ont., general agents for the Dominion, will insure a bottle, containing over 50 pills return mail.

For sale by all druggists. 25

THE FOLLOWING IS AN

Extract from a Letter

Dated 15th May, 1872, from an old inhabitant of Horningsham, near Warminster, Wilts: "I must also beg to say that your Pills are an excellent medicine for me, and I certainly do enjoy good health, sound sleep and a good appetite; this is owing to taking your Pills. I am 78 years old. Remaining, gentlemen, yours very respectfully, L. S."

To the Proprietors of Norton's Camomile Pills, London.

VINEGAR BITTERS
PURELY VEGETABLE
FREE FROM ALCOHOL
DR. J. WALKER CALIFORNIA
VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

March 17, 1874. 2513-12m

The New York Tribune.

THE CONSOLIDATION OF ITALY! so long fragmentary and impotent, into one powerful State, with Rome as its capital the humiliation of France through a series of crushing defeats, ending with the siege and capitulation of her proud and gay metropolis; the expulsion of the Bourbons from the Spanish throne, and the substitution for them of a scion of the most liberal among royal houses; the virtual absorption of the kingdoms of Saxony, Wurtemburg, Bavaria, with Baden, Hesse, the Hanse Towns, &c., under the headship of Prussia, into the triumphant and powerful empire of Germany; and the arming of Russia to re-assert her preponderance in the councils of Europe, or to prosecute her often postponed but never relinquished designs on the great city founded by Constantine, and the vast but decaying and anarchical dominion of the Sultan, all combine to invest with profound interest the ever changing phases of our tidings from the Old World. The *Tribune*, through trusted correspondents stationed at all points in Europe where great movements are in progress or imminent aims to present a complete and instructive panorama of events on that continent, and to mirror the prolonged struggle between middle age Feudalism and Ecclesiasticism on the one hand and Nineteenth-Century scepticism and secularism on the other. Recognising a Divine Providence in all that proceeds and is, it looks hopefully on the great conflict as destined (like our own recent convulsion) to evolve from strife, disaster, and seeming chaos, a fairer and happier future for the toiling masses of mankind.

In our own country, a war upon corruption and rascality in office has been inaugurated in our city, whereby the government of our State has been revolutionised through an initial triumph of Reform which surpasses the most sanguine anticipations. It is morally certain that the movement thus inaugurated cannot, in its progress, be circumscribed to any locality or any party, but that its purifying influence is destined to be felt in every part of the Union, rebuking venality, exposing robbery, wresting power from politicians by trade, and confiding it in those worthiest and fittest to wield it. To this beneficent and vitally needed reform, the *Tribune* will devote its best energies, regardless of personal interests or party predilections, esteeming the choice of honest and faithful men to office as of all New Departures the most essential and auspicious.

TERMS OF THE TRIBUNE.

DAILY TRIBUNE, Mail Subscribers, $10 per annum.

SEMI-WEEKLY TRIBUNE, Mail Subscribers, $4 per annum. Five copies or over, $3 each; an extra copy will be sent for every club of ten sent for at one time; or, if preferred, a copy of "Recollection a Busy Life," by Mr Greeley.

KEATING PERSIANS INSECT DESTROYING POWDERS.

This Powder is quite harmless to animals, but unrivalled in destroying Fleas, Bugs, Emmet Flies, Cockroaches, Beetles, Gnats, Mosquitoe Moths in Furs, and every other species of insect in all stages of metamorphosis. Sold in packet tins, and bottles of various sizes.

CAUTION.—The public are requested to observe that all the above preparations bear the Trade Mark as herein shown. Sold by all Chemists and Druggists.

DR. DE JONGH'S LIGHT BROWN COD LIVER OIL. The distinctive character of which have gained for Dr. DE JONGH'S Oil so much celebrity, the entire confidence of the most eminent members of the Medical Profession, and notwithstanding the active and unscrupulous opposition of many interested dealers, an unprecedented amount of public patronage may be thus concisely enumerated:—

I.—Its genuiness, purity, and uniform strength are ascertained and guaranteed.

II.—It contains all the active and essential principles that therapeutic experience has found to be the most effective in the operation of the remedy.

III.—It is palatable, easily taken, and creates no nausea.

IV.—It is borne with facility by the most delicate stomach and improves the functions of digestion and assimilation.

V.—Its medicinal properties and remedial action have been found to be immeasurably greater than those of any other kind of Cod Liver Oil.

VI.—From the unequalled rapidity of its curative effects, it is infinitely more economical than any which is offered, even at the lowest price.

CONSUMPTION AND DISEASES OF THE CHEST.

The extraordinary virtues of Dr. DE JONGH'S Light Brown Cod Liver Oil in Pulmonary Consumption may now be considered as fully established. No remedy so rapidly restores the exhausted strength, improves the nutritive functions or produces a more marked and favorable influence on the local malady.

The following high testimony to the efficacy of Dr. DE JONGH'S COD LIVER OIL in Consumption is afforded by ALLEN G. CHATTAWAY, Esq., M.R.C.S., L.S.A., of Leominster:—

"Having for some years extensively used Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL, both in public and private practice, I have no hesitation in stating its effects are very far superior to those of any other Cod Liver Oil. Nearly four years since, two cases of confirmed Consumption were placed under my care. In both, the lungs were a mass of tubercular deposit, and every possible sound to be heard in phthisis was present. The sole remedy employed was Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL; and now the patients are strong and fat; the diseased (abnormal) sounds nearly inaudible; and in the one case (male), hunting, fishing, and shooting, are freely indulged in, the patient expressing himself quite capable of undergoing as much fatigue as any of his fellow sportsmen."

GENERAL DEBILITY AND EMACIATION.

In cases of prostration and emaciation, where the vital forces are reduced, and where life appears to be even at its lowest ebb, the restorative powers of Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL are remarkably manifested. By its administration the natural appetite is revived, and the functions of digestion and assimilation are improved, reanimated, and regulated; and, when its use has been steadily preserved in, its peculiar tonic and nutritive properties have entirely restored health and strength to the most feeble and deteriorated constitutions.

The actual benefit derived is thus described by ROWLAND DALTON, Esq., M.R.C.S., L.S.A., District Medical Officer at Bury St. Edmunds:—

"In giving my opinion of Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL, I have no hesitation in saying that I have not the slightest confidence in any other kind. The effects of Dr. DE JONGH'S OIL are sure and most remarkable, especially in that broken down state of health and strength which usually precedes and favors tubercular deposit; and I never recommend any other sort. The Oil I have had from you was for my own use, and it has certainly been the only means of saving my life on two occasions, and even now, when I feel 'out of condition,' I take it, and like it, unmixed with anything, as being the most agreeable way. I could wish that Dr. DE JONGH'S OIL would come into general use, and entirely supersede the Pale and other worthless preparations."

SELECT MEDICAL OPINIONS.

From innumerable medical and scientific opinions of the highest character in commendation of Dr DE JONGH'S LIGHT BROWN COD LIVER OIL, the following are selected:—

Sir Henry Marsh, Bart., M.D., Physician in Ordinary to the Queen in Ireland.

"I consider Dr. De Jongh's Light Brown Cod Liver Oil to be a very pure Oil, not likely to create disgust, and a therapeutic agent of great value."

Dr. David Smith, F.R.S., Medical Officer to the Poor Law Board of Great Britain.

"We think it a great advantage that there is one kind of Cod Liver Oil which is universally admitted to be genuine—the Light Brown Oil supplied by Dr. De Jongh. It has long been our practice, when prescribing the Oil, to recommend this kind, since, amidst so much variety and uncertainty, we have confidence in its genuineness." (Extract from "Consumption: its Early and Remediable Stages.")

Dr. Barlow, F.R.S., Sen Physician to Guy's Hosp.

"I have frequently recommended persons consulting me to make use of Dr. De Jongh's Cod Liver Oil. I have been well satisfied with its effects, and believe it be a very pure Oil, well fitted for those cases in in which the use that substance is indicated."

Dr. Lawrence, Physician to H.R.H. the Duke of Saxe-Coburg and Gotha.

I invariably prescribe Dr. De Jongh's Cod Liver Oil in preference to any other, feeling assured that I am recommending a genuine article and not a manufactured compound in which the efficacy of this invaluable medicine is destroyed."

Sir Joseph Olliffe, M.D., Physician to the British Embassy at Paris.

"I have frequently prescribed Dr. De Jongh's Light Brown Cod Liver Oil, and I have every reason to be satisfied with its beneficial and salutary effects."

Lankester, F.R.S., Coroner for Central Middlesex.

"I consider that the purity of this Oil is secured in its preparation by the personal attention of so good a Chemist and intelligent a Physician as Dr. De Jongh, who has also written the best Medical Treatise on the Oil with which I am acquainted. Hence, I deem the Cod Liver Oil sold under his guarantee to be preferrable to any other kind as regards genuineness and medical efficacy."

THE ROYAL READERS.

A NEW SERIES OF ILLUSTRATED ENGLISH READING-BOOKS.

From Mr. M. Patterson, Rector of the Free Church Training School, Moray House, Edinburgh.

"Thanks for the Specimen of your new Reading Books and Sheets. They are admirable in every particular. Nothing, in my opinion, would more contribute to the improvement of Education than the wide circulation of these books, and the intelligent handling of them."

From A. Montgomerie, L.L.D., Principal of Ladies' College Glasgow.

"I have examined very carefully the 'Printing,' and Nos. I., II., and III. of the *Royal Readers*, and have no hesitation in saying that they are, in my opinion, incomparably the best English Reading-Books that have ever been published. The adaptation of the means to the end in view is perfect."

From T. Morrison, M.A., Rector of the Free Church Normal School, Glasgow.

"I have very carefully examined the *Royal Readers*. The plan is excellent, and the execution, if I may say so, even better. They are out of sight the best series of Reading-books published and should very speedily be widely used. The Illustrations constitutes an admirable features and add much to the value of the *Readers*

PINE LANDS.

OVER 900,000,000 FEET, well located mainly on the rivers leading into Lake Michigan. The numerous streams and lakes surrounded with pine timber along the line west of Reed City, offer the best of locations for mills, where logs can be held safely free of expense and free from the annoyance of Boom Companies. The railroad direct to East Saginaw and Toledo offers the best source of supplies, and never failing market for Lumber Shingles, etc., which may be delivered anywhere on the line.

POSTPONEMENT.

FIFTH AND LAST CONCERT

In aid of the

PUBLIC LIBRARY OF KENTUCKY.

DAY FIXED AND A FULL DRAWING ASSURED,

—ON—

MONDAY, 30th NOVEMBER, 1874.

LAST CHANCE FOR

An Easy Fortune.

A postponement of the Fifth Concert of the Public Library of Kentucky has been so generally anticipated, and is so manifestly for the interest of all concerned, that it must meet the approval of all. The day is now absolutely fixed, and there will be no variation from the programme now announced. A sufficient number of tickets had been sold to have enabled us to have had a large drawing on the 31st July, but a short postponement was considered preferable to a partial drawing. Let it be borne in mind that

THE FIFTH GIFT CONCERT

Is the last which will ever be given under this charter and by the present management,

That it will positively and unequivocally take place as announced, on

MONDAY, 30TH NOVEMBER,

That the music will be the best the country affords, and that

20,000 CASH GIFTS,

AGGREGATING

$2,500,000

Will be distributed by lot among the ticket-holders.

INSOLVENT ACT OF 1869.

In the matter of THOMAS AGAR, an Insolvent.

Will be sold upon the premises, by public auction, either together or in separate lots, on TUESDAY, the TWENTY-SEVENTH day of OCTOBER next, at the hour of twelve o'clock, noon, under and by virtue of the provisions in that behalf of the said Insolvent Act. All the right, title, and interest of the undersigned, as Assignee of the estate of the said Insolvent, to and in the following parcels of land or town lots, situate, lying and being in the City of Ottawa, in the County of Carleton and Province of Ontario, which may be known and described as being composed of parts of lot number forty in the broken front on the River Ottawa, or Grand River, in the township of Nepean, in the County of Carleton, within the limits of the City of Ottawa, and known as Town Lots number four and six, in Block H, as laid down upon a plan or diagram of the said Lot number forty, made by one Donald Kennedy, for one John Le Breton, former proprietor thereof, and filed in the Registry Office of the said City of Ottawa.

Terms and conditions of sale will be made known at the time of sale.

For further information apply to the undersigned, or to Alexander Gibb, Solicitor, or to Messrs. Walker, Cassels & Pennock, Solicitors Ottawa.

EDWARD McGILLIVARY,

Caution.

GENUINE PANCREATINE

PANCREATIC EMULSION.

The efficacy of these Medicines in the treatment of Indigestion, Bronchitis, Pulmonary Catarrh, Consumption, Wasting, &c., &c., depending entirely upon their purity and strength, Messrs SAVORY & MOORE caution the public against imitations of them [illegible] forth as possessing the [illegible] properties of the true preparations, but which are in reality either [illegible] compounds, ointments or pomades, without [illegible] trace of the Pancreatic principle and entirely unfit and useless as medicines. These imitations are calculated to produce serious disappointment and to [illegible] affect the reputation which the [illegible] Pancreatine and Pancreatic Emulsion have acquired. It is therefore highly important that purchasers examine the label on the bottles for the names and Trade Mark

"SAVORY & MOORE,"

The Original and only Manufacturing Chemists to the Queen, H.R.H. the Prince of Wales, H.I.M. Napoleon the Third, His Highness the Khedive of Egypt, &c.

143 NEW BOND STREET, LONDON

Extract from an Analytical Report upon a Foreign Specimen of a so-called Preparation of Pancreatine.

"This compound resembled an ointment or Pomade in appearance and consistency, and was flavored with Essence of Almond or Prussic Acid. It was strongly alkaline, indicating free alkali, which, acting upon the fat, produced the usual saponifying result; the whole forming a granular moist mass of fat, soap, glycerine and water. This ointment was physically and chemically different from the true Pancreatic Emulsion which I have also examined, and which, besides being [illegible] Pancreatic juice, has the delicate [illegible] appearance and consistency of fresh cream, is palatable and readily taken."

PROVINCE OF ONTARIO.

PARLIAMENTARY NOTICE.

LEGISLATIVE ASSEMBLY OF ONTARIO,
Toronto, 14th September, 1874.

49. No Petition for any Private Bill is received by the House after the first three weeks of each Session; nor may any Private Bill be presented to the House after the first four weeks of each Session.

51. All applications for Private Bills, properly the subject of legislation by the Legislative Assembly of Ontario within the purview of "The British North America Act, 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road, or Telegraph Line; the construction or improvement of a Harbour, Canal, Lock, Dam, or Slide, or other like work; the granting of a right of Ferry; the incorporation of any particular Trade or Calling, or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community; or for making any amendment of a like nature to any former Act,—shall require a Notice, clearly and distinctly specifying the nature and object of the application, to be published as follows, viz:—

A Notice inserted in the *Ontario Gazette*, and in one newspaper published in the County, or Union of Counties affected, or if their be no paper published therein, then in a newspaper in the next nearest County in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition.

For further particulars see *Ontario Gazette*.

FARM AND GARDEN.

Notes Upon Interesting Rural Topics.

THE DISPOSAL OF THE APPLE CROP.

The apple crop of the present year is good enough. That is, were it greater it would be worth less than it now is. An excessive crop is a nuisance to the grower and of little benefit to the consumer. The present crop is of good quality. In the disposal of it there are some considerations which are worth notice. In the market one good apple is worth several poor ones. One good apple along with two poor ones brings no more than three poor ones. The one good one alone will sell for more than when it is degraded by the presence of its poorer companions. The good never raises the character of the inferior fruit, while the inferior never fails to reduce the good to its own level. This has become so well known to those who make a business of supplying the market with fruit that the greatest care is taken in selecting only good specimens for shipment. It pays better to throw away poor fruit than to put it in along with the choice. Neither does it pay to ship poor fruit to a distant market. Freight and other charges are just the same on a barrel of apples worth one dollar as on one worth five dollars. The rule works equally in whatever way the crop is disposed of. If it is made into cider it still pays to select the fruit. Choice cider can only be made with perfect fruit. There must be no decayed, wormy or impure fruit used if a really perfect cider is to be made. Equally there must be selection of methods in making the cider. Everything in the process should be perfectly cleaned, and the vats and barrels should be new or else sweet and free from the slightest taint. Wine or spirit casks are to be preferred for storing it. After the pressing it should be filtered through flannel bags and sand into barrels, the bungs of which are removed for fermentation. The faucets by which it is to be drawn off into casks for keeping should be placed at least six inches from the chine of the barrel, so that the sediment is not disturbed in the racking process. The place of storage should be dry and of an even temperature, not over 60 and never below 40 degrees. The brightest coloured cider is made in mills and presses where no iron comes in contact with the pulp, and the pulp should not be exposed to the air any longer than necessary. The oxydation of the juice takes place very quickly, and deepens its colour. No addition of sugar, mustard seeds, flesh of beef or chemical substances are needed to preserve or improve it if these precautions are observed. When they are neglected none of these can restore or improve it. If badly made it is always bad, and if well made it may be kept always good without any addition.

When vinegar is the object, the same precautions are to be observed if excellence of quality is desired. And in this article excellence pays as well as in all others. A person who makes a good vinegar, always of equal quality, and makes a business of it every season, can get double as much as another that either makes a poor article or makes a good article, but only makes it irregularly. For vinegar, the apples chosen must be sound; no decayed or bitter-rotted or wormy apples should be used, except for second quality. But if no second quality is made, it is better to feed damaged apples to hogs or cows than to mix them with good ones. Else the whole of the vinegar is inferior, and the good fruit does not count in the least. As the juice comes from the press it should be strained and then stored in open vats or hogsheads elevated six feet above the ground or placed upon an upper floor. Here it is allowed to ferment and become hard or acid. The pulp which remains in the liquid settles to the bottom. A tap or faucet is inserted a few inches above the bottom. This is turned so that a small stream slowly drops or trickles down an inclined board from the faucet into the bunghole of a cask placed upon a lower tier or on a lower floor. There are two faucet holes bored in the heads of these casks—one at the centre and one a few inches from the lower chine. When these casks are filled, the open bungholes are covered with fine gauze to exclude dust and flies, and the faucet at the centre is made to discharge a small stream or a few drops, as before, into an open tub of sufficient capacity to hold half a barrel. There is then no possibility of an overflow or waste from the tubs or vats. From these the vinegar is poured into casks of still older vinegar, which have been treated in the same way. None of these casks can be drained of more than half their contents, and if the newer vinegar be poured in gently through a long funnel or pipe, the sediment at the bottom is never disturbed. If by any cause the sediment is disturbed, the vinegar is a long time in clearing, or is never so bright again as before. The temperature of the storage room should be kept up as high as possible, and as much air admitted as possible. The oxidation or souring of the apple juice takes place more rapidly as the temperature is higher and the access of fresh air more abundant. There is no better place for a vinegar room at this season than a good open shed with a southern exposure, or a loft over a granary or hayshed the roof of which is well exposed to the sun. When the weather becomes cold and the winter is about to set in, the vinegar should be removed to a cellar where it will not freeze. A very important thing to be remembered in making vinegar is that the addition of water to exhausted pomace or to poor cider can never result in making an article fit even for domestic use, much less for sale. I would also remark that "pure cider" vinegar is one of the rarest things in existence, and one of the most difficult to procure in any large city in the country. At the same time a perfectly well-made vinegar is readily sold at a very remunerative price, and the man who once sells a lot of good vinegar can always feel sure of disposing of what he makes in future.—*New York Tribune.*

HOW TO BUILD A ROUND STACK.

The proper way to build a round stack, whether of hay, straw, grain or cornstalks, is to begin by laying a foot deep upon the ground of old undamaged straw, hay or fodder. In the middle of this layer a common hay fork should be set up by thrusting the prongs into the ground through the straw, &c. Then, with another hay fork, whose prongs are placed closely against the handle of the upright one, the bed is made exactly circular, conforming at the circumference with the radius of the circles which the second fork handle represents. If corn-stacks or corn-fodder is to be stacked, a few sheaves are placed upright in the center, upon their butts, and others are placed against them, leaning lightly and gradually sloping more and more as each row of sheaves is placed around the central core until the circumference of the stack is reached. When this occurs another lot of sheaves or bundles is placed in the centre, sloping somewhat towards the outside and another layer of sheaves is placed on the stack. There is no need to spread the stack. As it settles, the pressure from the centre will spread the stack at the point where it begins to narrow off of the top, sufficiently to cast off the rain and drip from the sides. The narrowing is a very important part of the building. Each layer of sheaves is now to be placed with the centre more nearly upright than the last until the last few sheaves in the centre are perfectly upright, and the stack is finished off with a collar of sheaves placed around the central one and bound firmly with a hard, twisted straw rope. The stack should be topped off with sheaves placed butts uppermost, and well trodden down and made compact. Rain will run off from a covering made in this manner, finding no lodgement in the joints, from which the leaves spring, as it will do if the leaves are placed with the butts downward. The collar which finishes off the peak of the stack must of course be placed with the butts downward, as the stack terminates in a point closely bound. When hay is stacked, the builder should stand in the centre all the time, and keep that part always the highest. The central portion will settle less than the eaves, and the stack will shed water; and although water should penetrate in places, it will always find a course towards the outside of the stack, and the centre can never be injured. If, on the contrary, the builder stands, as he frequently does, upon the verge of the stack, following the pitchers around, the centre will settle the most and will be hollow. If water then enters, as it will almost infallibly do, it penetrates to the centre, and finds its way through the stack to the bottom, and the contents are spoiled.—A FARMER.

SWEET BRIAR HEDGES.

The sweet briar and stronger growing species of climbing roses make a very pretty ornamental hedge for a few years, but they soon become enfeebled in growth, and more or less plants die out, leaving vacant places. By the application of manure to the surface of the soil and occasional thinning out of the old canes, the vigor and beauty of the hedge may be prolonged many years; but such hedges are scarcely to be recommended for farm purposes, because cattle will browse the plants, and soon make passages for themselves through. The seed pods, or 'heps' as they are technically called by gardeners, should be gathered when mature in the fall and placed where they will remain moist for a few weeks, and as soon as the pulp is sufficiently decayed, wash out the seed. Then procure a strong box, and over the bottom scatter some sand, then a layer of seed following with sand and so on until the seed is all in; now nail on a cover, or what would be better, a wire screen, and then bury the box in the ground, not deeply, but just sufficient to have it well covered, and the soil rounded up over it, in order to prevent too much water entering. If rose seeds are sown in the open ground they will seldom, if ever, germinate until the second year, consequently it is better to leave them in the box during two winters, and the one summer following the one in which they were gathered. The second spring sow the seeds and sand with which they were mixed, in good rich soil, covering about an inch deep. If the soil is rich enough and good care given, seedlings of sweetbriars or climbing roses should make a growth two or three feet the first season. There may be a better method of growing sweetbriar seedlings, but having raised thousands in the manner described, I know it will answer the purpose well. Gardeners who raise new sorts of choice varieties sow the seeds in greenhouses, or other structures where artificial heat is applied, and by this means force the seed to geminate in a few months after gathering, but it is not every one who can afford to grow plants in this manner, or have the necessary conveniences for doing so.

WEIGH AND MEASURE EVERYTHING.

Now that the season for selling has arrived, we would impress upon our readers the necessity for accurately weighing and measuring everything they sell. There is too much guess work done. Buyers are handling produce every day of the year, and they weigh and measure all they handle. They are well posted. Farmers are not. When it comes to estimate, the farmers are beat. "It is naught, it is naught," saith the buyer. And farmers are too easily persuaded by his pertinacity. Besides farmers want the money, and do not like to lose a sale. So they give away. There is no settler of disputes so stubborn as a good platform scale. A Fairbank's scale will save many words, and much time and loss. Every barn should be provided with one, and nothing should be taken out for sale until it is weighed, and plainly marked with its weight.

RAVAGES OF GRASSHOPPERS, ETC.

From the August returns to the Department of Agriculture, we learn that west of the Mississippi River the ravages of grasshoppers and chinch-bugs have been severely felt in some counties, in some cases sweeping all the summer crops. It is very remarkable that in Minnesota, where local injuries have specially occupied public attention, the highest state of the crops in counties not affected by the pests have raised the condition to a full average. All the other States, however, show a decline as follows: Iowa, from 104 to 102; Missouri, 100 to 74; Kansas, 102 to 70; Nebraska, 109 to 42. In the last named State, every county reports severe injuries from grasshoppers. On the Pacific Coast, California has raised her average from 99 to 103, and Oregon has depressed hers from 103 to 100.

COMFORTS AND LUXURIES OF THE FARM.

There is a class of farmers who are living only to grasp more acres. Their farms can never be large enough, nor can their workmen or themselves ever do quite enough work. They cannot be satisfied with the income of a farm, nor could they be with that of any other business. But those who understand that the highest object of labor is not simply to make money, but to provide the largest amount of the means of improvement and innocent enjoyment that the world affords, can make the pursuit of agriculture furnish more luxuries that really contribute to our well being than any other employment requiring an equal amount of capital. Their farms are not so large as to make slaves of themselves and their sons, and their wives and their daughters are not worn out with incessant drudgery. Their door yards blossom with flowers, their tables are supplied with many varieties of well grown delicious fruit, their houses are made cheerful by the influence of books and music, and a taste for the pure and innocent enjoyment of life is developed in their children. Here and there a farmer's home exemplifies all the contentment and happiness possible to a race doomed to labor and disappointment.—*Practical Farmer.*

FALL SEEDING.

Land from which early crops have been taken should be sown to grass as early in September as possible. If sown immediately clover seed will probably grow and live through the winter and give one or two splendid crops of hay next year. For land which is in fair condition August is probably the best month in the twelve for seeding to grass alone but if the land is under a high state of cultivation, September is equally as good if not better than August. We do not want it to get large enough to need cutting the first year. Always apply some manure at seeding time, and the nearer it is to the surface the better. Our grasses are very strange growing plants, and are capable of taking full possession of the soil and keeping it, but when small they find many kinds of annual weeds that are stronger. Most of our cultivated grasses are perennials, and do not naturally make a great growth the first year, while many such weeds as wormwood, pig weed, heart's ease, smart weed, and several kinds of coarse, millet-like grasses, are annuals which grow very rapidly and come to maturity in a very few weeks. These are troublesome companions for our grasses while young, and to give the grasses a start we should always supply a dressing of manure at seeding time. Ashes are excellent where clover seed is sown, and any kind of barn yard manure, if fine and rotten, will push grass along in its early stages. The new fertilizers from the slaughter houses are also excellent for giving grass a start. They act very quickly, and are altogether ahead of coarse, crude manure, for the purpose.

MORE CAPITAL AND LABOR AND LESS LAND.—C. F. G. asks in Moore's *Rural New*

Yorker, "what do you think the best means to be employed to succeed in agriculture where success is now a matter of luck and chance?" And is thus answered:

"Expend more capital and labour on less land, and do it more intelligently—that is, study the markets more thoroughly and the science of production with greater care. Smaller farms better tilled, less unproductive and more productive property, and a wide-awake, thoughtful mastery of the laws which govern supply and demand, and study of the wants of the market, and the creation of home markets for produce, together with a wise [which means liberal] economy of one's resources, will enable a producer, just as it does a merchant or manufacturer, to succeed."

The Ottawa Times

FRIDAY, SEPTEMBER 18, 1874.

Mr. Thomas Stock has been selected to oppose Mr. Christie in the Opposition interest for North Wentworth at the forthcoming Local election.

The election trials by which Liberals were unseated, according to our Tory contemporaries, were proofs of extraordinary corruptness on the part of the entire Liberal party. When a Tory comes to lose his seat for corrupt practices, it is then "an instance of how easily an over-zealous "friend can ruin the prospects of his candidate." Good devil—good Lord."

The Tories of Lincoln met in convention on Monday for the purpose of nominating a candidate to carry their standard at the new election for the Commons which is pending, and in opposition to Capt. Norris, the unseated Liberal member. But as yet there is no man in the county willing to become the bearer of the dirty rag, and the nomination for the Tory candidature has gone a begging. Of course there is nothing surprising about this, but we just mention it by way of news.

It is rumoured that the defunct Government of Quebec disbursed sums of money to railway contracters in other cases than that of the Northern Colonization, upon the same illegal conditions, and just as they were about to vacate their seats as Ministers. It is stated that the amount involved in this additional case is in the neighbourhood of $70,000, making the entire sum thus disposed of in defiance of the law regulating such transactions about $150,000. As this Act could not have been consummated without the cognisance and agreement of Mr. Robertson, who is generally understood to be one of those chosen by Mr. DeBoucherville to make up the new team, we should fancy the path of the administration, should it live to meet the House, is not likely to be without its thorns. Really the cup of the iniquities of the Ouimet Government seems to have been pretty full.

A delegation of gentlemen interested in the Northern Colonization Railway had interviews with members of the Government yesterday for the purpose of urging upon them not to grant a subsidy to any Company for building the section of road connecting with the Eastern terminus of the Pacific Railway before the surveys of the road in which they were interested were completed, and a thorough examination of the North Shore route through the County of Pontiac from Aylmer to Nipissing is made. Of course the advantages of making connection by means of the Northern Colonization were fully set forth. The delegation, which consisted of Messrs. W. McKay Wright, M.P., Hon. Geo. Bryson, John Poupore, M.P.P., Dr. Church, of Aylmer, Walton Smith, Warden of Pontiac, Terrance Smith, W. B. Hodgins, Dale, E. Carling, Rooney, Devlin, Col. McDonald, LeRoy, Hughes, E. Lefebvre, McNelly, Truman, Thomas and Joseph Poupore were well received, and the Premier stated that the Government were making an exploratory survey of the country from the French River, to somewhere in the vicinity of Pembroke or Renfrew, and when the report of the survey was finished, they would be in a position to decide what route it would be best in the public interest to sanction. In the meantime, the delegation were requested to put their proposition in writing, and it would receive the consideration of the Government as soon as possible.

ANOTHER "RENEGADE."

We published yesterday morning an account of a Reform demonstration at Glencoe, at which there were present the Hon. Mr. McKellar, the Hon. Mr. Fraser, Messrs. G. W. Ross, M.P., Thomas Oliver, M.P., Thomas Scatcherd, M.P., Dr. Wilson, M.P.P., Mr. W. Watterworth, M.P.P., and Mr. J. J. Hawkins, of Brantford. Now, who is this Hawkins, who appears in such company, and declares himself "convinced of "the groundlessness of the Opposition" to the present Ontario Administration, and his determination to unite with his old friends? Can this be "young Mr. Hawkins," who opposed Mr. Hardy, the present representative of South Brant in the Local Legislature, when the seat became vacant through the election of the Hon. E. B. Wood, now Chief Justice of Manitoba, to the Commons? Can this be the same man whom the Tories of Brantford feasted upon that unauspicious occasion, and whom Messrs. M. C. Cameron, Lauder, Rykert, Boultbee, and other great lights of the party went all the way from their respective houses to honour? Indeed and in truth it is the same man, who, thoroughly disgusted with the characterless customers he was asked to follow, and, to use his own words, convinced of the groundlessness of the opposition to the Government of Mr. Mowat, has once more marched into line. We say once more, because prior to the coalition of 1867, Mr. Hawkins was a Reformer, at which time he followed Mr. Sandfield Macdonald and Mr. Wood, and, as we have already stated, opposed Mr. Hardy when the seat for South Brant became vacant a year ago last spring. That Mr. Hawkins was considered of importance and as carrying considerable influence to the Tory faction, is evident from the fact of his being selected as their standard bearer upon the occasion referred to, although it will no doubt be considered necessary to abuse and belittle him henceforth and forever. We don't pretend to know much about him, but taking him at the estimate of his quondam friends we should say he is a loss to them at any rate. That they have not parted with him without a struggle is evident from the fact as announced from St. Catherines, that he was offered the nomination of the Tories of Lincoln, and that too just about the time he appeared on the same platform as the two Ministers of the Ontario Government and other leading Liberals at Glencoe, and formally renounced his allegiance to the entire party. This is one of the signs of the times, no doubt, from which our Tory contemporaries have thought themselves justified for some time past in buoying up the souls of their dispirited followers, and cheering them with the hope that there was a change coming over the public feeling in this country, through the influence of which they might again be enabled to taste the sweets of office. We commend this "sign" of the Tory soothsayers to the consideration of any in their party who may have had false hopes generated by the gushing assurances with which their organs have of late been replete. We trust also that they will give us credit for mixing a little mercy with the justice we deal out to them, for it is far more merciful to tell a very unpleasant truth by way of warning them to lead a man on with a "will of the wisp," and only let him know he has got into a fix when he has no escape from the result.

CITY AND VICINITY

SOCIAL.—The members of the "Conqueror" Hose Company intend holding their first social entertainment early in the month of October. There is no doubt a pleasant time will be spent.

A NOVEL LAW SUIT.—The Episcopalian Minister of the town of Pembroke has caused an action to be instituted against the Wesleyan Minister of the same place, for pronouncing a benediction in the Episcopal Grave Yard of that town. Considerable interest will be manifested during this somewhat novel suit.

THE TORY CAUCUS.—It is understood that the somewhat numerous delegation of twelve was appointed on Wednesday night to represent the Conservative party at the approaching Convention in Toronto. The names of Hon. James Skead, F. Clemow, A. Rowe, and Joseph Kavanagh are understood to be included in the twelve.

The New York *Examiner* says: Every mother and housekeeper must often act as a family physician in the many illnesses and accidents that occur among children and servants. For many of these cases I have used Davis' Pain Killer, and consider it an indispensable article in the medicine box. In diarrhœa, it has been used and effected cures. For cuts and bruises, it is a valuable. 3671

RINK MUSIC HALL.—Last evening 'Linda, the Pearl of Chamouni,' was presented and was decidedly the best performance of the week of Miss Morton's acting. We cannot speak in too high praise of the part. Her *naivete* pathos and abandon are eminently adopted for it, and the support was uniformly good. This evening is set apart for the benefit of the Star, and we trust our citizens will show their appreciation of a truly ladylike and talented artiste. She offers a most attractive programme, and appears in two dramas. A new artiste, Miss Lizzie Purvis, makes her first appearance on this occasion.

QUARTZ MILLS AND TUNNEL MINING.—There is one peculiarity about the miners of California at present which has been frequently noticed. Whether the quartz mills are visited in the tunnels, in the placer diggings, on the car, the ravines, gulches and canons, the miners are all investing a portion of their spare change in tickets for *the last* Grand Gift Concert of the Public Library of Kentucky, which takes place November 30th. Indeed, they are not singular in this respect, for with $2,500,000 in cash to be distributed, and one prize to every five tickets, and the prizes (20,000 of them in all) ranging from $250,000 to $50, the whole country is rushing to be in time for a share in this grand distribution.

BRAIN WORRY.—Many of us pray to be delivered from sudden death, and do we not worry ourselves into it? And if we do can we not help it? "Men do not really die of Heart Disease as often as it is supposed, but of Apoplexy, or Congestion of the Lungs, so they do not die of brain work, but BRAIN WORRY. Scott died of it, Southey, Swift, Horace Greeley, and probably Thackeray."—*London Times.* As brain worry induces premature dissolution by its depressing influence upon the general nervous health, by eating the brain faster than the waste is repaired, and as the means of sustaining and increasing nervous health is no longer impossible; those who suffer the debilitating influence of mental anguish or extreme mental fatigue, need only resort to the preparation of Hypophosphites invented by Mr. Fellows, as that will conduct the subject safely over the rapids of despair, and create in him strength to grapple with every difficulty. This is no idle assertion but an established fact. 3671

Police Court.

Before M. O'Gara, P.M.

THURSDAY, Sept. 17.

There was but a small list of cases for the consideration of His Worship yesterday morning.

DRUNKENNESS.

John Lachance was charged with being drunk and assaulting a fellow prisoner named McNamara in the cells of the police station. He was found guilty and sentenced to three weeks imprisonment in default of paying a fine of $20 and costs.

William Foley, charged with the same offence, was committed to jail for three days.

INDECENT ASSAULT CASE.

David Bowen, remanded on a charge of committing an indecent assault upon a child, was again put forth. After hearing the evidence of the child, and her mother, and a man named Ed. O'Brien, the Magistrate fully committed the prisoner for trial at the next assizes.

THE GRAND CENTRAL FAIR.

CLOSING DAY OF THE EXHIBITION.

The Athletic Sports.

Yesterday was the closing day of the Exhibition, and although the crowd was not so large as on the previous day, yet sufficient interest was manifested in it to draw together some three thousand spectators. The weather throughout the day was very cold, with a cool drizzling rain, that forced into use umbrellas, overcoats, and shawls. This unpropitious state of the weather marred considerably the enjoyment, nevertheless people walked around determined to see all that was to be seen. Adams' Independent Cornet Band played some beautiful selections during the day and added much to the pleasure of the entertainment. The side shows and display of prize animals in the ring were the principal objects of attraction. The chief feature however of the day was the athletic sports so successfully managed by Mr. E. H. Benjamin. Considerable interest was manifested during the progress of the games, and the competitors were numerous. The judges succeeded ere noon in completing their work, the result of whose labors are subjoined to this report.

THE LADIES DEPARTMENT.

Prizes were awarded in this department for Guipure netting, pin cushions in bead work, crotchet work in cotton and wool, embroidery and Honiton lace, raised worsted work, netting and darning in cotton. Several specimens of hand-made shirts were awarded special prizes. Tufted mats and large cushions formed a prominent feature in the ladies' department. Gentlemens' mufflers, patchwork quilts in endless variety, home-made cloths in cotton and wool, and blankets, contributed largely to the display in this section of the exhibition.

FRUIT, &c.

The display of fruit was large and of a good variety. Mr. R. Lees, of this city, took a first prize for the best display of fruit. His collection of apples embraced some six varieties. Mr. J. McEathron, of the St. Lawrence Nursery, Brockville, gets a first prize for the best collection of apples. The Brockville beauty is a favorite apple and is well adapted for this section of country, it being a native. The Duchess of Oldenburg and Emperor Alexander, are also fine samples. He also exhibits plums, pears, peaches and grapes. Of the latter the Delaware, Concord and Hartford Prolific are good out door specimens. Mr. Beadle, the Secretary of the Ontario Fruitgrowers' Association, spoke highly of the Brockville beauty at the recent meeting in Ottawa and intended recommending its introduction in the West. Mr. McEathron intends going extensively into the business of cultivating fruit, when doubtless his endeavors will be encouraged in preference to foreign nurseries. Mr. William Graham, of New Edinburgh, took first prize for a fine display of grapes, embracing some eleven varieties. A splendid display of grapes from the Rideau Hall Conservatory, embracing two varieties, took two first prizes. Mr. Parker, of Aylmer, took second prize for the best collection of apples. There were some twenty varieties in the collection. A separate entry of Alexander samples took the first prize. Sheriff Coultee exhibits a collection of grapes, Delawares, Menimas, Adirondic, Isabella, and many others. He took first prize for a collection. Among the other exhibitors of grapes are Ald. Durocher, who has some very fine samples, and Hon. R. W. Scott also has a good display.

ATHLETIC SPORTS.

At the conclusion of the exhibition of the prize animals in the ring, Mr. E. H. Benjamin brought on the athletic sports, which were conducted with much success, and ended with the following results:—

100 yds Race (3 heats), 12 entries—1st prize $7, Thos. Canty; 2nd $3 F. McKnight.

Boys Race, (¼ mile, under 15), 8 entries—1st prize $5, F. Heney; 2nd $2, J Beauchamp.

Running Long Jump, 5 entries—1st prize $5, Thos. Canty; 2nd $2, James Driscoll.

Sack Race, 100 yards, 6 entries—1st prize $5, F. Smith; 2nd $1 Wm. Woods.

Standing High Jump, 3 entries—1st prize $7, Thos. Canty; 2nd $3, Patrick Canty.

Hurdle Race, [250 yard], 5 entries—1st prize $7, Thos Canty; 2nd $3, R Waite.

Pole Leap, 6 entries—1st prize $5, A. Cameron; 2nd $2, Wm. Cameron.

Hop, Step and Leap, 3 entries—1st prize $5, T Canty; 2nd $2, P Canty.

Half Mile Race, 16 entries—1st prize $7, George Irwin; 2nd $3, W. J. Atcheson.

Three Legged Race, 100 yards, 8 entries—1st prize $5, Alex. Heron and J. Maxwell; 2nd $2, P. Devereaux and J. McCabe.

Mile Race, 15 entries—1st prize $7, G. Irwin; 2nd $3, Alex. Heron.

CLOSING CEREMONY.

The work of the day having been brought to an end, the President closed the Exhibition shortly after 4 o'clock. In closing the Seventh Annual Exhibition the President congratulated the members on the great success that attended the exertions of the Directors. He thanked all for the assistance they had given by their attendance. "They had made plenty of money but they had sufficient to do with it. They would pay their prizes first, their debts after, and if they had anything left they would apply it to the extension of their present grounds. Successful as the show was, it would have even been more largely attended had the fires not been raging so seriously around the country. He spoke in feeling terms of the death of the late J. B. Lewis, who had for so long a time promoted the success of the City of Ottawa Agricultural Society. He next alluded to the probability of Ottawa obtaining the Provincial exhibition next year. On Thursday next it would be decided between Kingston and Ottawa, which was to have the Exhibition in 1875. At Kingston, the last time the Exhibition was held there, the Association had lost $11,000, and it was not likely they would expose themselves to the same risk again. It would confer a great boon on the city and County, and he hoped to see both municipalities assist the endeavour to their utmost capacity. He again thanked them for their attendance, and trusted they would have the great show when another year came around. (Cheers.)

Mr. Morgan followed in a very appropriate speech, after which three cheers were given for the Queen.

The band played the "National Anthem," after which the crowd began to disperse, well pleased with the result of the exhibition.

The Treasurer then began to pay out the premiums in accordance with the following

PRIZE LIST:

HORSES—CLASS I—BLOOD HORSES.

Stallion 4 years and upwards, 1st prize $20 A O F Coleman; 2nd 15 A O F Coleman; 3rd 10 A Hagar.

Brood Mare and Foal, 1st prize $15 W F Powell; 2nd 10 J W Smyth.

Filly 2 years or under, 1st prize $10 James Greaves.

CLASS II—AGRICULTURAL PURPOSES.

Stallion 4 years and upwards, 1st prize $20 John Clarke; 2nd 15 Edmund Clarke.

Stallion 3 years and upwards, 1st prize $15 Jas Johnston.

Colt (stal) 2 years or under, 1st prize $10 J E Sample; 2nd 5 W Hurdman & Bro; 3rd 3 W Graham.

Brood Mare and Foal, 1st prize $10 Jas Brown; 2nd 10 W Fenton; 3rd 5 J Paget.

Filly 2 years or under, 1st prize $10 W Fenton; 2nd 5 J Paget; 3rd 3 W Allen.

Pair of Horses (mares or geldings) in harness, 1st prize $12 Hon Jas Skead; 2nd 8 W Fenton; 3rd 4 J Paget.

CLASS III—ROAD OR CARRIAGE.

Stallion 4 years and upwards, 1st prize $20 Edward Clarke; 2nd 15 John Clarke; 3rd 10 P. Burke.

Stallion 3 years, 1st prize $15 J. J. Smyth; 2nd 10 John Johnson.

Colt (stal) 3 years or under, $10 Robert Lee.

Brood Mare and Foal, 1st prize $15 Hugh Brownlee.

Filly 2 years or under, 1st prize $10 J. Gilmour jr; 2nd 5 J B Chambers; 3rd G W Eaton.

Pair of Horses (mares or geldings) in harness, 1st prize $12 P Buckley; 2nd 8 W S Serley; 3rd 4 A Gilmour.

Single Horse (mare or gelding) in harness, 1st prize $9 John Clarke; 2nd 6 W Champness; 3rd 3 Hon James Skead.

Saddle Horses (mare or gelding), 1st prize $9 George Thompson; 2nd 6 Hon Jas Skead; 3rd 3 J P Esmond.

CLASS IV.—HEAVY DRAUGHT.

Stallion 4 years and upwards, 1st prize $20 Edmund Clarke; 2nd 15 W Eadie; 3rd 10 John Clarke.

Stallion 3 years, 1st prize $15 J Jamieson.

Colt (stal) 2 years or under, 1st prize $10 F Irving; 2nd 5 W Hurdman & Bro.; 3rd 3 N Clarke.

Brood Mare and Foal, 1st prize $15 W Hurdman & Bro; 2nd 10 F Clarke.

Filly 2 years or under, 1st prize $10 W Fenton; 2nd 5 J Paget.

Pair of Horses (mares or geldings) in harness, 1st prize $12 A McKellar.

Special prize by Mr. John Clarke, $10 for best Filly of Season, Thomas Clarke.

Special prize by Thos Clarke, $8 for the best Yearling Colt (draught), Michael Rock.

Special prize by Wm Thompson, $10 for best 3 year old (Sunshine), J & W Thompson.

Special prize by Wm Thompson, $5 for second best 3 year (Sunshine), Geo Thompson.

CATTLE—CLASS V—DURHAMS.

Bull 3 years and over, 1st J & W Thomson; 2nd T Clark; 3rd Hon J Skead.

Bull 1 year old, 1st Hon J Skead; 2nd J & W Thomson; 3rd R Kenny.

Bull Calf under 1 year old, 1st Hon J Skead; 2nd T Clark; 3rd A Hagar.

Bull of any age, 1st J & W Thomson.

Cow 4 years and over, 1st Hon J Skead; 2nd J & W Thomson; 3rd T Clarke.

Cow 3 years and over, 1st J & W Thomson; 2nd T Clarke.

Heifer 2 years and over, 1st R Kenny; 2nd T Clarke

Heifer 1 year and over, 1st Hon James Skead; 2nd R Kenny; 3rd T Clarke.

Calf under one year, 1st J & W Thomson; 2nd T Clarke.

Herd 1 Bull and 3 Cows, 1st J & W Thomson.

CLASS VI—DEVONS.

Bull 3 years and over, 1st prize G Sparks.

Bull 2 years and over, 3rd prize G Sparks.

Heifer 2 years and over, 3rd prize G Sparks.

CLASS VII—AYRSHIRES.

Bull 3 years and over, 1st prize T Irving; 2nd P McDonald; 3rd G Heron.

Bull 2 years and over, 1st prize W Rodden; 2nd T Irving; 3rd G W Eaton.

Bull 1 year and over, 1st prize T Irving; 2nd G W Eaton.

Bull calf under 1 year, 1st prize W Rodden; 2nd W Rodden; 3rd T Irving.

Bull of any age, 1st prize T Irving (diploma.

Cow 4 years and over, T Irving; 2nd W Rodden; 3rd G W Eaton.

Cow 3 years and over, 1st prize T Irving.

Heifer 2 years and over, 1st prize T Irving; 2nd W Rodden; 3rd W Rodden.

Heifer 1 year and over, 1st prize T Irving; 2nd W Rodden; 3rd W Rodden.

Calf under 1 year, 1st prize W Rodden; 2nd W Rodden.

Herd 1 bull and 3 cows, 1st prize T Irving, diploma.

CLASS VIII—GALLOWAYS.

Bull 3 years and over, 1st prize Hon. Jas Skead.

Bull of any age, 1st prize Hon. Jas Skead.

Cow 4 years and over, Hon. Jas Skead; 2nd G. Sparks.

Heifer 2 years and over, 1st prize G. Sparks.

CLASS IX—GRADES.

Cow 4 years and upwards, 1st prize J & W Thomson; 2nd J & W Thomson; 3rd J & W Thomson; 4th T Clarke.

Cow 3 years, 1st prize T Clarke; 2nd J & W Thomson; 3rd T Clarke; 4th J & W Thomson.

Heifer 2 years old, 1st prize J & W Thomson; 2nd T Clarke; 3rd T Clarke; 4th J & W Thomson.

Heifer 1 year, 1st prize T Clarke; 2nd J & W Thomson.

Calf, 1st prize J & W Thomson; 2nd T Clarke; 3rd T Clarke.

CLASS X—OXEN AND STEERS.

Pair Working Oxen, 5 years and upwards, 1st prize Satchell Bros; 2nd Satchell Bros.

Pair 3 year old Steers 1st prize A Bufton.

CLASS XI.

Ox or Steer, 1st prize Satchell Bros; 2nd Satchell Bros; 3rd A Bufton.

Cow or Heifer, 1st prize T Clarke; 2nd T Clarke; 3rd J & W Thomson.

SHEEP—CLASS XII—SOUTHDOWNS.

Ram, 2 shears and over 1st prize $6, Satchell Bros; 2nd 4 Satchell Bros.

Shearling Ram 1st prize $5 Satchell Bros; 2nd 3 Satchell Bros.

Ram Lamb, 1st prize $15 Satchell Bros.

2 Ewes, 2 shears and over 1st prize $8 Satchell Bros.

2 Shearling Ewes 1st prize $5 Satchell Bros.

2 Ewe Lambs 1st prize $4 Satchell Bros.

CLASS XIII—SHROPSHIRE DOWNS.

Ram Lamb 1st prize $5 George Whillans; 2nd 3 George Whillans.

2 Ewes, 2 shears and over 1st prize $8 George Whillans; 2nd 4 George Whillans; 3rd 2 Geo Whillans.

2 Shearling Ewes 1st prize $5 George Whillans; 2nd 3 George Whillans; 3rd 1 Geo Whillans.

2 Ewe Lambs 1st prize $4 George Whillans.

CLASS XV—LEICESTER.

Ram 2 shears and over, 1st prize $6 Robert Kenny; 2nd 4 W Rodden.

Shearling Ram, 1st prize $5 Robert Kenny; 2nd 3 W Rodden.

Ram Lamb, 1st prize $3 W Rodden; 2nd 3 G Heron; 3rd 1 James Johnston.

Two Ewes 2 shears and over, 1st prize $8 R Kenny; 2nd 4 R Kenny; 3rd 2 J Johnston.

Two Shearling Ewes, 1st prize $5 R Kenny; 2nd 3 G Heron; 3rd 1 R Kenny.

Two Ewe Lambs, 1st prize $1 R Kenny; 2nd 2 J Dawson; 3rd 1 James Johnston.

CLASS XVI—COTSWOLD.

Ram Lamb, 1st prize $5 R Kenny.

2 Ewes 2 shears and over, 1st prize $8 R Kenny

3 Shearling Ewes, 1st prize $5 R Kenny.

2 Ewes Lambs, 1st prize $4 R Kenny.

CLASS XVII—FAT SHEEP.

2 Fat Ewes, 1st prize $4 R Kenny; 2nd 2 R Whillans; 3rd 1 G Heron.

SWINE—CLASS XVIII—LARGE BLACK BREED.

Boar 1 year and over 1st $10 T Starmer; 2nd 6 G Sparks.

Boar under 1 year, 1st prize $8 Satchell Bros; 2nd 4 G W Eaton; 3rd 2 Satchell Bros.

Breeding sow 1 year and over, 1st prize $8 Jos Baskerville; 2nd 4 G W Eaton; 3rd 2 Satchell Bros.

Sow under 1 year, 1st prize $3 Jos Baskerville; 2nd 2 J Mulligan, 3rd 1 Satchell Bros.

CLASS XIX—SMALL BLACK.

Boar 1 year and over, 1st prize $10 N Clarke; 2nd 6 W Hurdman & Bro; 3rd 3 Satchell Bros.

Pencil Drawing, 1st prize Miss B Yielding.

Water Colour Drawing, 1st prize Miss A B Yielding.

Board of Public School Trustees.

A special meeting of the Board of Public School Trustees, was held in the City Hall last night, Mr. Hiram Robinson, Chairman of the Board in the chair. Present, Messrs. Le Sueur, Taylor, Kirby, Graham, Robertson, Barber, and the Inspector.

COMMUNICATIONS, ETC.

Some communications from teachers complaining of recent changes, were referred to the Committee on School Management.

Several accounts were presented, and referred to the Finance Committee.

DUKE STREET SCHOOL.

The Chairman stated that he and the Secretary had been served with a Writ of Ejectment by the Corporation of the County of Carleton, that body being desirous of obtaining possession of the Duke street school, which they believed to be their property.

Moved by Mr. Robertson, seconded by Mr. Kirby, that the Solicitor of this Corporation, be instructed to enter an appearance in the suit of the Corporation of the County of Carleton *versus* the Public School Board of the City of Ottawa, *in re* the Duke Street School difficulty, and that he do take such steps as may be deemed necessary for defending the case, and that the Chairman be instructed to direct the Solicitor to protect the interests of the Board in the matter.

Mr. Barber thought that there was little doubt but that the Board of Public School Trustees were the legal owners of property in question, and if not it would revert to the heirs of LeBreton. He approved of the taking of legal steps to enforce their rights in the matter.

Mr. Kirby also agreed with the last speaker as to the rights of the Board to the Duke Street School property and thought an action in Chancery should be taken to stay the proceedings taken.

Mr. LeSueur thought if the County authorities understood the nature of the conveyance of the property, and were aware that they could not execute the covenants it contained in a Municipality over which they had no control, they would abandon the suit. He advised the changing of the venue to obtain a trial in another county.

Mr. Robertson thought by a change of venue, the present suit might be defended successfully. He thought this advisable on the score of expense, but if beaten they could then resort to a chancery action. He argued that as the property was deeded to the District of Dalhousie Corporation, and that when a division took place, the County of Carleton Corporation took it by virtue of the property being under its jurisdiction, therefore the City of Ottawa on the same principle should be entitled to the property as it was the only municipality that could legally fulfil the terms of the covenants contained in the deed,

The resolution was then carried unanimously.

THE TRUANCY CASE.

Mr. Barber stated that his attention had been called to a very serious reflection on the conduct of the truant detective by one of the city papers in the exercise of his duty. He deprecated this style of journalism on perhaps the mere *ex parte* statement of some interested party, and thought the facts of the case should be ascertained and investigated by the Committee of School Management before an opinion was expressed that would work to the detriment of the schools, and those in authority. He had taken some trouble in the matter, and found the facts quite the contrary to the spirit of said article.

Mr. Kirby thought the boy one of the worst in the city, and stated that he had been before the Police Court for his improper conduct in the school room before. He thought to shield the boy under such circumstances would injure the discipline of the schools. He was satisfied that when the committee met he could procure sufficient evidence to entirely exonerate Mr. Davis the truant officer from any undue severity towards the child.

Mr. LeSueur thought that such articles often got into the press surreptitiously, and that it was scarcely judicious for the Board to take notice of every sensational article that appeared in the daily journals. He thought if there was anything very serious in the charge those offended would have ere now sought redress at the hands of the board.

On motion of Mr. Barber, seconded by Mr. Kirby, the School management Committee were instructed to investigate the matter and report at the next meeting of the Board.

PRIMARY DEPARTMENT IN THE COLLEGIATE INSTITUTE

Mr. Robertson enquired if there was any truth in the report that a Primary

report that a Primary

Class, doing public school work, was again established in connection with the Collegiate Institute.

The chairman said that he had the authority of the Rector for saying that such an institution was again about to be established.

Mr. Robertson then stated that he proposed asking the Board to endorse a resolution, making a disapproval of the public grants made by the city Council in aid of the [illegible] Institute as long as such primary [illegible] was maintained.

Mr LaSue[illegible] stated that the committee on school management were preparing a report on the subject for the next meeting of the Board, Mr. Robertson withdrew his resolution.

After some further routine business, the Board ajourned.

Dominion Rifle Association.

ANNUAL MEETING.

THIRD DAY.

Yesterday the matches were resumed at the Rideau Rifle Range under somewhat more unfavourable circumstances than on the previous day. The sky from the open to the close was cloudy and overcast, which had the effect of obscuring the targets, especially at the long ranges. In addition, a strong easterly gale from the east, blew steadily throughout the day, which of course had a most deleterious effect on the character of the shooting. A slight sprinkling of rain fell during the afternoon, but not in sufficient quantity to drive the competitors off the ground. The scores made during the day by the several competitors, were hardly up to that standard of excellence, which one might expect at the Dominion meeting, but of course this was due in a great measure to the unfavourable character of the weather. Accurate sights, were almost an impossibility, and those who were fortunate in carrying off prizes yesterday, may thank Dame Fortune for the success which attended their efforts. The Executive Officers were again most assiduous. Lt. Col. Stuart assisted by Captain Walsh of the Governor General's Foot Guards—not Captain Tilton, as erroneously stated in yesterday's issue—were kept busy during the day, the latter gentleman, working like a Trojan. Lt. Col. Bacon, the Statistical Officer, and Lt. Col. Macpherson, Treasurer, had their hands full and ably performed their respective arduous duties.

In the course of the afternoon His Excellency the Governor General accompanied by Lt. Col. Fletcher, paid a visit to the Range, and shot for a time at the pool target. His Excellency is no mean marksman, as those who witnessed him handle the rifle yesterday can testify. He fired with the small bore, and though he failed to make a 'bull's eye,' he succeeded nearly every shot in striking the target so close to the 'bull,' that several times the marker at the 'butt' had to hoist the signal flag of danger and make a closer examination.

The following is a list of the matches so far completed, together with the names of the winners of purses:

DOMINION OF CANADA MATCH.

Open to all certified efficient members of embodied corps of Active Militia, and to members of the Staff and to Officers of the Active Militia Force, who have retired retaining their rank, who are also members of the Association.

[Efficiency to be understood as having been a *bona fide* member of the corps to which the competitor belongs previous to the 1st of July, 1874, and as having performed the number of drills authorised by any General Order in that behalf for 1873-74.]

Certificate to be signed by the officer commanding corps to which the competitor belongs.

1st prize	$200
2nd do	75
3rd do	50
10 prizes at $10	100
10 do 5	50
Gold, Silver and Bronze Badges, value.	100
	$575

To be competed for in two stages.

1st Stage—Seven rounds each at 300 and 400 yards. The 10 competitors making the highest score to receive $10 each and a silver badge; the next 10 highest to receive $5 each and a bronze badge.

Snider Enfield Rifle, Government issue; Government ammunition. Any position. Entrance Fee—1st stage 50 cents.

2nd Stage—To be fired for by the first 30 highest scores in the first stage. Competitor making the highest score to receive $200 and a gold badge; the second highest $75; and the third highest $50.

Five rounds each at 500 and 600 yards Snider-Enfield Rifle, Government issue; Government ammunition. Any position. Entrance Fee—$1.

WINNERS OF PRIZES—1ST STAGE.

	POINTS.
1 Capt Anderson, 10th Batt	61
2 Serg't W Bishop, 63rd Batt	59
3 Private Mills, 50th Batt	61
4 Serg't Sutherland, G G F G	58
5 Serg't Hill, 1st Batt	58

8 Lieut. McNachtan, C G A	57
9 Private Disher, 19 Batt	56
10 Gunner Upthegrove, 2nd G T A	55
11 Major Cotton "A" Battery	55
12 Col-Serg't Cunningham 49th Batt.	55
13 Serg't Bennett, 49th Batt	54
14 Serg't Flynn, 2nd G T B	54
15 Serg't Porteous, 1st Batt P W R	54
16 Ensign Wright, 50th Batt	54
17 Ensign Balfour, 8th Batt	53
18 Serg't Corbin, 63rd Batt	53
19 Major Fraser, M G A	53
20 Gunner Little, 2nd G T A	53

2ND STAGE.

1 Ens Wright, 40th Batt	32
2 Lieut McNachtan	31
3 Pvte Bell 10th Batt	31

BATTALION MATCH.

To be competed for by six officers, non-commissioned officers, or men, from any squadron of cavalry, field battery, brigade or garrison artillery, or battalion of active militia, and A and B Batteries schools of gunnery.

1st Prize to the highest aggregate score, a Cup, and $200 in money.	$200
2nd Prize to Battalion or Corps making next highest aggregate score	100
3rd Prize to highest individual score	75
4th Prize to second highest individual score	50
5th Prize to next highest	25
	$450

Membership and certificates of efficiency same as in Dominion Match. Selection to be certified by the officer commanding the Battalion, Brigade or Corps.

Ranges 500 and 600 yards. Seven rounds at each range. Entrance fee—$5 per Battalion or Corps. Snider-Enfield Rifles of Government issue. Government ammunition. Any position.

The Cup to be held by the officer commanding the winning Corps for one year. The 1st and 2nd money prizes will be paid to commanding officers of the winning corps.

WINNERS OF PRIZES.

	SCORE
1 2nd Brigade G. T. Artillery	215
2 49th Batt	206
3 Governor General's Foot Guards	192
4 10th Batt	191
5 54th Batt	176
6 47th Batt	169
7 Ottawa Brigade Garrison Art	165
8 "A" Battery Canadian Artillery	153
9 1st Batt	152
10 2nd Batt G. T. R	151
11 63rd Batt	150
12 71st Batt (with three men)	94

HIGHEST INDIVIDUAL SCORE.

1 Corporal W. Hilton, 49th Batt	48
2 Captain Andersen 10th Batt	46
3 Gunner Little, 2nd G. T. R	44

Private Blackin was adjudged third place, but owing to the fact that he fired without his belt, he was ruled out.

PROVINCIAL MATCH.

For London Merchants' Cup, with $150 added by the Association.

To be shot for by five competitors from each Province, to be selected by the Provincial Association or its duly accredited agent. Where there is no Association the selection to be certified by the senior Staff Officer in the Province to which they belong. Efficiency and certificate same as in Dominion match.

1st prize to highest aggregate score, Cup, presented by Merchants of London, England, value	$1,000
2nd prize to highest individual score	75
3rd do to 2nd do do	50
4th do to next highest do	25
	$1,150

Snider-Enfield Rifle. Government ammunition. Any position. Ranges—500, 500 and 600. Seven rounds at each range. Entrance Fee—$15 for each Province.

The conditions of the competition for this Cup to be that: The Cup to be held by the President of the winning Provincial Rifle Association for the year, and then returned to the President of the Dominion Rifle Association.

In this match only four Provinces were represented, Ontario, Quebec, Nova Scotia and New Brunswick. The competition was spirited, the representatives from each Province vieing with each other to win the much coveted prize. The Cup, however, this year fell to the Ontario men, who scored 310 points, Quebec being last, scoring 287. It will, however, be seen that there was only a difference of 23 points between the highest and lowest scores, which sufficiently shows the keenness of the competition.

Firing will be resumed this morning for the "McDougall Challenge Cup," at 8:30 sharp, when a spirited competition is anticipated.

BY TELEGRAPH

HAMILTON.

The Races—Burglary.

HAMILTON, Sept. 16.

The Hamilton fall races commenced at the Driving Park to-day, the track being in good condition after the rain yesterday. The attendance was good, and the entries well filled.

Hurdle races, $150. The horses selling strong for first choice in the pools were Major Macon, Brown Bess and Maple Leaf. They got well away together, the Major taking up the running, closely pressed by the mare, showing the strong power from her sire Rurie. Brown Bess came to grief at the second hurdle, with a remount, but too much time being lost, she was virtually out of the race, Macon taking a good lead on the home stretch and finishing an easy winner; Maple Leaf second. Time, 4:27½. County trot, $100.—Henrietta was first choice in the pools, Comet, Henrietta and Josh coming to the pole. They got away on the first heat, the mare taking the lead to the half mile, when she broke very badly, Josh going to the front, closing a good finish in 2:54¼. Henrietta second. The two next heats were won by Josh in 2:57¼, Comet taking the second place. Dominion race, $200.—For this race eight mounts came to the start, Swallow and Emily selling first in the pools. After some delay a good start was got. The following got away in a ruck—Montreal, Charles Douglas, Mignonette, Jim Christie, Emily, Storm, Swallow, and Minnie. Christie took up the lead in the first heat to the half, followed by Minnie and Storm. On the three-quarters Minnie came to the front, and leading out on the home stretch came in the winner, with Storm second; time, 1:48¼. The second heat was well contested, Minnie taking the lead, followed by Mignonette and Storm, with the bunch well up on the quarter, which position was maintained all round to the home stretch, when Mignonette made a desperate effort to lap the mare, but had to give place by a neck to Minnie, taking the heat and race in 1:49¼. The 2:40 trot will be finished to-morrow, only one heat having come off to-day, owing to darkness having set in. The heat was won by Little Sam.

This morning the residence of Mr. P. Grassman was ransacked by thieves, and $25 in cash, two watches, and some gold rings taken off. As usual, there is no clue to the perpetraters. No. 31 Maria street, occupied by A. Graigie, was also robbed and cleaned out. The latter burglary occurred while the family were away.

MONTREAL.

Libel Suit—New Paper Manufacturing Co—Vaccination—Remarkable Cure—Sherbrooke and Megantic Railway—Volunteer Camp at Laprairie.

MONTREAL, Sept. 17,

The Montreal *Witness* was to-day served with a writ of an action of damages for $25,000 by F. X. Beaudry, on the ground that he has been libelled. This makes the third action commenced against this paper within three weeks.

Application is to be made for letters patent on behalf of Amable Jodoin, M.P., Hon. M. Laframboise, and others, of Montreal to incorporate the Genin Paper Co., with a capital of $100,000, at Montreal. The paper will be manufactured from straw, reeds, or rushes, or any other fibrous matter fit for the making of paper.

The *Minerve* says that Mr. Hughes, of the firm of Hughes Bros., of Toronto, had a rickety son, aged about 12 or 13, unable to use his limbs. The father bethought himself of trying Notre Dame de Lourdes, and accordingly took his boy thither, where, it is stated, he was cured instantly, and now is as alert and agile as other children of his age. The parties returned by the 'Sarmatian.'

In the case of Molson's Bank v. McMinn to-day, Judge Mondelet quashed the *capias*, and ordered McMinn to be liberated.

In the Messeau v. *Witness* libel case, the question of the empanelment of the jury and whether some of the jurors called and ordered to stand aside by the Crown should have been, were argued in the Court of Appeal to-day before a full Bench.

A large meeting of city physicians was held this afternoon to discuss a case of vaccination which had been called in question by the medical men, with a view of showing that vaccination was of injurious effect. A resolution was passed in favour of vaccination. It is proposed to call a general meeting of the physicians of the city at an early date to discuss thoroughly the merits of vaccination.

A camp has been formed at Laprairie. About 1,400 volunteers have arrived, and some two hundred tents have been erected for their accommodation.

The Sherbrooke and Megantic Railway Company are receiving a large quantity of rails per Grand Trunk. The line is expected to be in operation as far as Bury by the end of November next.

ST. CATHARINES.

Political—Stabbing Affray—Accident to Mr. Rykert.

ST. CATHARINES, Sept. 17.

As yet the Tories have been unable to bring forward a candidate sufficiently strong to oppose Mr. Norris in the coming election. Some offers have been made, but every one is certain of Mr. Norris' triumphant return to his seat in the House of Commons. A rumour is in circulation to the effect that overtures have been made to Mr. Hawkings, of Brantford, to stand for Lincoln, thus clearly showing their inability to bring forward a man in Lincoln County to successfully oppose Mr. Norris. The Reformers begin to feel certain of Mr. Norris' return by acclamation, and positive of his election in any case. The cause of the Tories in this county looks weak when they have to search for a candidate outside of the county they have represented for years.

There is every reason to believe that the Reform pic-nic to be held at Grimsby on Friday next, will be one of the grandest affairs of the kind ever held in this county, should the weather prove favourable. Every arrangement has been made by the various committees which could be desired to give *eclat* to the occasion. The members of the Local Government are expected to be present and address the meeting. The Hon. Mr. Mackenzie, Premier of the Dominion Government, will also be there, if his public duties will permit, as well as several other distinguished public men from a distance. It is expected that every Reform elector in the county who can possibly attend will be present at the Convention.

A very serious case of stabbing took place at Thorold during a bar-room *melee* last evening, in which a man whose name is unknown received several cuts with a knife—one across each ear, and a gash across the throat, also a stab in the abdomen. The wounds are all severe, but none of them are pronounced dangerous.

A man named McClure had three fingers taken off by a cutting machine in McKinley's wheel-works this morning.

While Mr. Rykert, M.PP., was *en route* home from Beamsville last night, his carriage was upset. Both Mr. Rykert and the driver were thrown out violently, but were not seriously injured.

PARRY SOUND.

New Signal Station—Postal Arrangements.

PARRY SOUND, Sept. 16.

Prof. Kingston, of the Toronto Observatory, and his assistant, Mr. Roberts, arrived here on Saturday, and arranged for the erection of a meteorological telegraphic signal station.

The Post Office Department have advertised for tenders for carrying the North Shore mail during the coming winter from this place to Sault Ste. Marie, Penetanguishene, the old starting place being dropped. This will shorten the distance by dog sleigh about seventy-five miles, and avoid the most dangerous and difficult part of the route.

GEORGETOWN.

Accident to an Engine Driver.

GEORGETOWN, Sept. 17.

This afternoon while a freight train was running east, near Norval Station the engine driver, Patrick Shay, was leaning out to catch some signal given from the rear end of the train, when his foot slipped, and he was thrown off the train, severely bruising his head, and breaking an arm and leg. He was brought back to Georgetown, where Dr. Slearr was quickly in attendance dressing the wounds, assisted by Dr. Higgie, of Brampton.

COBOURG.

Victoria University—Election Trial.

COBOURG, Sept. 17.

Dr. Haarel, Professor of the Natural History Department of Victoria University, has just returned from Europe, where he has purchased a valuable assortment of apparatus for the chemical and mineral laboratories in connection with the College. The physical and chemical apparatus now added comprise some of the best instruments which could be secured for the purpose, and were purchased by Dr. Baarel in London, Paris, Bonn, Leipsic, and Berlin. These fill sixteen large cases, and are to be placed in position in time for the opening of the ensuing session on October 1st. The Natural History Department will now be complete, and the new scientific course will be greatly promoted by the valuable addition of instruments now made.

The Election Court for West Northumberland will open in Cobourg on the Friday of next week. A good deal of interest is manifested in the proposed proceedings.

PORT LAMBTON.

Propellor Sunk.

PORT LAMBTON, Sept. 17.

The propellor Bradbury, with two barges in tow, owned in Bay City, Mich., filled and sunk here while wooding last night. It appears that no reason can be given for the occurrence more than the fact that she commenced filling and filled, as the usual quantity of wood was all that was put on board. The Bradbury is freighted with staves, and on her way from Saginaw to Buffalo. The captain thinks that she can be raised in the course of two or three days.

YESTERDAY'S DESPATCHES

ENGLAND.

Immigration.

LIVERPOOL, September 16.—The steamship 'Polynesian,' which sails to-morrow for Quebec, takes 300 agricultural laborers who go to Canada for work.

GERMANY.

Old Catholic Conference.

LONDON, September 16.—A despatch from Bonn says the Old Catholic Conference has come to an agreement on all the important points of the dogma. The Bishop of Pittsburg, on behalf of American Protestants, thanked Dr. Dollinger for the manner in which he had conducted the deliberations, and presented written statements congratulating the Conference on the harmony manifested and the agreement accomplished. The Dean of Chester and others spoke in similar terms.

FRANCE.

The President's Tour.

PARIS, Sept. 16—President MacMahon has been well received in his last tour especially at Arras and at Amiens.

A Bonapartist Candidate.

M. Berger, the Bonapartist candidate for the Assembly in the Department of Maine et Loire, who stood lowest in the polls last Sunday, has written a letter to the Minister of the Interior, withdrawing his name from the list of candidates. He attributes his failure to the Minister's assertion that he deserved to be prosecuted for his electoral address. He says he intends to republish his address and challenges the Government to prosecute him.

Trial of Bazaine's Accomplices.

At the trial of Bazaine's accomplices to-day the public prosecutor addressed the Court. He maintained that Bazaine escaped by a rope, and could have succeeded only through the complicity of Col. Villette and the negligence of the wardens. The counsel for the defence argued that the number of wardens was insufficient, and their duties difficult, because of special privileges allowed Bazaine. The Marshall was permitted to receive visitors, and one or more of them must have aided him in his escape.

SWITZERLAND.

Episcopal Convention.

CHICAGO, Sept. 16.

In the Episcopal Convention in the afternoon session, Mr. Dekoven's name was withdrawn as candidate for Bishop by his own request. At the night session Dr. Seymour, Rector of St. Marks Church, N.Y., was elected.

Cabinet Meeting—The Southern Trouble Discussed.

WASHINGTON, Sept. 16.

At a Cabinet meeting this afternoon. there was unanimity only on the point that the recent movement of the opponents of Kellogg's administration, in deposing him from office, was an armed interference contrary to the law, and was calculated to have a dangerous influence, particularly on the other Southern States, and therefore it became important to adopt means for maintaining, if not a *de jure* at least a *de facto* Government in the State of Louisana.

Postal Regulations.

BERNE, Sept. 16.—The International Postal Congress has resolved to recommend uniform rates of postage in all territory embraced by the postal union.

THE WAR OF RACES.

FEDERAL AUTHORITIES IN POSSESSION OF THE STATE HOUSE.

No Opposition Feared.

NEW ORLEANS, Sept. 17.—The following was issued from General Emery's headquarters:

Headquarters, Department of the Gulf,
New Orleans, La., Sept. 17.

John McEnery and D. B. Penn, styling themselves respectively Governor and Lt Governor of the State of Louisiana, having informed the Department Commander of their willingness under the President's proclamation to surrender the State property now in their possession, and do disband the insurgent forces under their command, Brevet Brigadier General, J. R. Brooke, Lieut Colonel of the Third infantry is charged with the duty of taking possession of the arms and other State property. He will occupy the State House, Arsenal, and other State buildings until further orders. He is hereby appointed to command the City of New Orleans until such time as the State and City Governments can be reorganized. The present police force in the city under the charge of Thomas Boylan will remain on duty and be responsible for the good order and quiet of the city until regularly relieved.

NEW ORLEANS, Sept. 17.—Gen. Emery is at the St. Charles Hotel. There are nine companies of U. S. troops here and others are reported coming. Gov. McEnery arrived to-night from North Louisiana and took peaceable possession of the Tangepoboa parish offices. Lieut.-Governor Penn states to-night they have dispatches showing the quiet installation of their officers in a large number of parishes. No opposition appears to have been made in any quarter.

NEW ORLEANS, Sept. 17.—The Associated Press Agent called on Gen. Emery and Governor McEnery this morning relative to the report of the interview between them, and the substantial agreement of Gov. McEnery to surrender to the Federal authorities, both of those getlemen state no such agreement was made. Governor McEnery, Lieutenant Governor Penn, and Messrs. Ogden and Marr, and other leaders have assured General Emery that there is no thought of conflict on their part with the military of the Federal Government. The city is very quiet, and there is no change in the situation since yesterday morning other than incidental to the process of organizing the new State Government. Mr. Dubuclet, the State Treasurer, has not been interfered with.

MID-NIGHT DESPATCHES

FRANCE.

Bazaine's Escape—Conviction of the Accomplices.

PARIS, Sept. 17.—The trial of the accomplices in the escape of Marshal Bazaine was concluded at Grasse to-day, M. Lachine defending Col. Villette. He said his client's conduct in this matter was the most honorable incident of his career. Col. Villette was a type of chivalrous devotion to his Chief. The Counsel then proceeded to examine the evidence in regard to the escape and argued that it was in exact accordance with the account given by Madame Bazaine. The Judge delivered a lengthy and explanatory judment; he considered that the escape by the rope was proved but declared that Col. Villette assisted in the preparations. The Wardens were adjudged guilty of negligence. Raoul one of the accused who has not been arrested and who did not appear for trial, was condemned *in contumaciam* to ten months imprisonment. Col. Villette and Plantin were sentenced to six months, Derneau to two and Gigoux to one month's imprisonment.

UNITED STATES.

War Vessels Ordered to New Orleans.

WASHINGTON, Sept. 17.—The President to-day ordered three vessels of war to be sent to New Orleans.

Fearful Accident.

ALTONA, Pa., Sept. 17.—While a party of ladies and gentlemen were returning from Bell's Mills to-day in a hack, the vehicle upset and fell down the embankment. Saidy Bohn and Miss Hackenburg were killed.

The Murderer Wagner.

AUGUSTUME, Sept. 17.—The council has refused to commute the sentence of Wagner, the Isle of Shoals murderer, and has advised the Government to fix the last Friday in January for his execution.

MARRIED.

On the 16th inst., at Christ Church, by the Rev. W. Pollard, Mr. Chas. Thorpe, of Ironsides to Miss Sarah Wynne, of Montague, County Lanark.

PERKINS & LAJOIE.

September 17.

Notice to Contractors.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Examining Warehouse, Toronto," will be received at this Office until MONDAY the 5th day of October next, at noon, for the erection and completion of the above building. Plans and Specifications can be seen at the office of William Irving, Esq., Architect, Yonge Street, Toronto.

Contractors are notified that Tenders will not be considered unless made strictly in accordance with the printed forms,—and in the case of firms—except there are attached the actual signature and the nature of the occupation and place of residence of each member of the same.

For the due fulfilment of the Contract, satisfactory security will be required on real estate or by deposit of money, public or municipal securities, or bank stocks, to an amount of *five per cent* on the bulk sum of the Contract.

To the Tender must be attached the actual signatures of two responsible and solvent persons residents of the Dominion, willing to become sureties for the carrying out of these conditions as well as the due performance of the works embraced in the contract.

This Department does not, however, bind itself to accept the lowest or any Tender.

By order,
F. BRAUN,
Secretary.

Department of Public Works,
Ottawa, 10th September, 1874.

NOTICE TO CONTRACTORS.

Sealed Tenders addressed to the undersigned, and endorsed "Tender for Firewood," will be received at this office until Thursday, the 1st day of October next, at noon, for the supply of Firewood for the use of the Public Buildings, Ottawa, according to the specification to be seen at this office, where forms of Tender can also be obtained.

The Department will not be bound to accept the lowest or any Tender.

By order,
F. BRAUN,
Secretary.

Department of Public Works,
Ottawa, Sept. 14, 1874. 3874-6

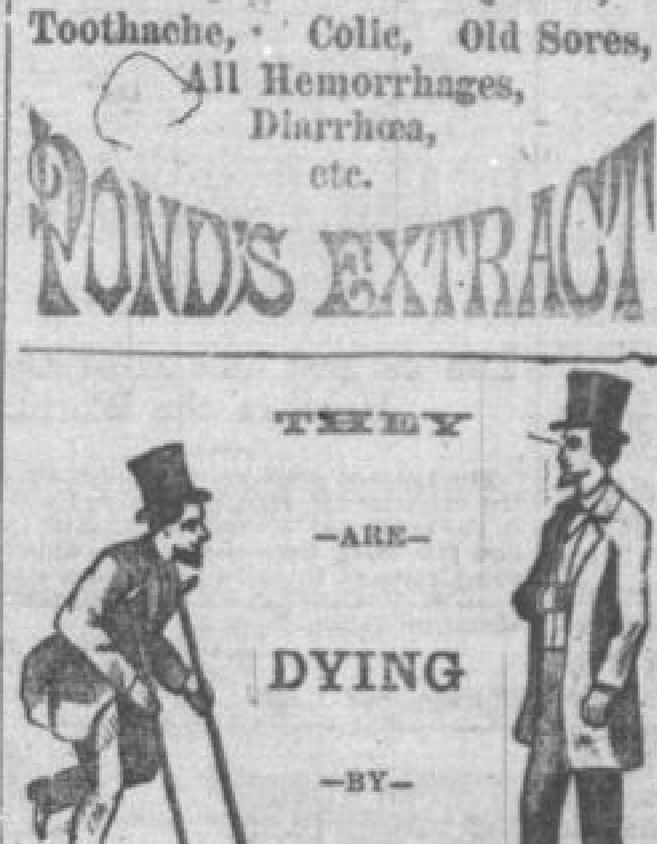
etc.

PONDS EXTRACT



THEY —ARE— DYING —BY— INCHES!

ARTERIAL blood contains the elements of Vitality and Nutrition, which is emptied into the capillary system and, after supplying the required nourishment, is sucked up by the minute branches of the venous system and carried back to the lungs for vital recuperation. By reason of much that is wrong in living and medical treatment, this stream of blood flowing through the body is not always pure or free from inflammatory particles, which may pass off by insensible perspiration through the skin or with the waste matter through the skin or with the waste matter through the intestines, but cold or wet may stop their outward escape, and the internal drainage may become inactive, when the corrupt particles are apt to coagulate, causing pestules, scalp eruptions or running sores, bronchitis &c. They may locate about a nerve, causing neuralgia, and by attaching themselves to the arterial tubes and veins, large or small, and inflaming them by their corrosive influence, cause those intensely painful sensations called Rheumatism. Nature struggles to drench out or dislodge if possible these corrosive particles, and the parts become very red from the congestion or pressure of blood therein. This is called Inflammatory Rheumatism or Rheumatic Gout. If nature does not succeed in washing out these acremonious atoms she withdraws the undue supply of blood from such parts, ceases to contend, and performs circulation as best she can; however, the passage of the blood through the affected channels still continues painful. This is Chronic Rheumatism, which may exist without its usual antecedant the Acute kind.

The above only true theory points out the correct treatment of this and other distressing maladies. Dissolve these corrupt particles that have lodged in the afflicted parts, so that in the circulation they may be carried off externally or internally, and having thus removed the cause the effect ceases.

The experiment of twenty years in the London Hospital, England, has demonstrated to the Medical Faculty of Europe, that the only medicine having control over this class of diseases, is the

DIAMOND
RHEUMATIC
CURE!

It is the result of a lifetime of scientific study and is now for the first time offered to the Canadian public, prepared by a careful, experienced and conscientious physician, in obedience to the desire of numberless friends in the profession, in the trade and among the people. Every bottle is warranted to contain the full strength of the medicine in its highest state of purity and development, and is superior to any medicine ever compounded for this terrible complaint.

A BLESSING TO THE POLICE.

MONTREAL, 18th June, 1864.

DEVINS & BOLTON:

GENTLEMEN,—Having been one of the many martyrs of rheumatism that I meet on my every day rounds, I was induced to try the celebrated DIAMOND RHEUMATIC CURE. I had suffered the last five or six weeks the most terrible aches to pains across my loins and back, so severe indeed that I could hardly walk with the help of a stick. I commenced the Diamond Remedy—following the directions carefully. Relief came immediately with the first bottle, improved rapidly with the second, completely cured and freed from pain after finishing my fifth small bottle. You are at perfect liberty either to refer to me privately or publicly, as I feel very thankful for the relief, and sympathize with my fellow sufferers from rheumatism.

Yours respectfully,
J. B. CARDINAL,
Sanitary Police Officer,
51 Labelle street.

In simple cases, sometimes one or two doses suffice. In the most chronic cases it is sure to give way by the use of two or three bottles. By this efficient and simple remedy hundreds of dollars are saved to those who can least afford to throw it away, as surely it is by the purchase of useless prescriptions.

This medicine is for sale at all Druggists throughout Canada. If it happens that your Druggist has not got it in stock, ask him to send or it to

NORTHRUP & LYMAN,
Agents for the Province of Ontario,
Scott street, Toronto,
Or to DEVINS & BOLTON,
Notre Dame street, Montreal,
General Agents for the Province of Quebec.
Price $1 per bottle. Large Bottles $2.
May 1st, 1874.

THE SIMPLEST, CHEAPEST, AND BEST

Marking Apparatus in the World

For Marking COTTON, SILK,

WOOLLEN, and LINEN, is

PAYSON'S INDELIBLE INK,

Used with a Common Pen without a preparation.

This ink flows perfectly: will write as easily on the finest muslin as ink on paper. It does not dry up, and retains its virtues longer than any other ink known. It will not injure the finest fabric. Payson's ink has endured the test of forty years, and is now the most popular ink in existence and is unrivalled for uniformity, of quality, and durability. It will mark more neatly, quickly and indelibly than any other apparatus. It requires NO PREPARATION of the fabric.

Price. 37 cts. per Bottle.

Sold by all Druggists, Stationers, and Fancy-Goods Dealers.

Sept. 14.

Sept, 16th, 1874.

SPECIAL ANNOUNCEMENT IN REAL ESTATE,

(By J. Bermingham.)

A Great Bargain—Lot No. 56, corner of Preston and Spruce streets, opposite post office, Rochesterville, with a good two story Brick House thereon, nearly new, with all the necessary out offices and a never failing spring, to be sold very cheap and on very easy terms. Come and inquire price, it will astonish you, it will be sold before two weeks, some one will get a big bargain from

J. BERMINGHAM.

West ½ of Lot 27, south Rideau street, with a most comfortable Brick House thereon, rented for $200 per annum, has to be sold for half its value within fourteen days. It would cost nearly double as much to build the house now, as is wanted for house and ground. Such a bargain was never offered before in this city, some one should secure it at once. Apply to

J. BERMINGHAM.

Lots 57, South Maria, and 57 North Gloucester streets, 66 x 99 each, to be sold very cheap, and on very easy terms, a small sum only required down, balance in ten annual payments There is a big speculation in this. Who will come first and purchase? One thousand dollars can be made on it before long. Apply to

J. BERMINGHAM.

A Lot 54 x 99, about 100 yards from Cumming's Bridge, outside City limits, thereby avoiding city taxation, very cheap, only $15 down, balance as may be agreed on. Apply at once to

J. BERMINGHAM,
York Street.

IMPORTANT TO LADIES OF FASHION

DRESSMAKING BEING THE ORDER OF THE TIMES.

J. W. RYAN

Has much pleasure in informing his numerous Lady customers and others that MADAME OLLIER, the celebrated Cutter and Fitter of Ladies' Garments, has arrived from her New York and Boston trip, and re-engaged with him to superintend his Dressmaking Department,

No. 234 WELLINGTON STREET

It will be remembered that Madame Ollier came direct from Boston last March to make arrangements with him, but was subsequently induced, by large offers for her valuable services, to go into an old established firm in Centre Town; but finding that she had made a change for the worse, again engaged with him. Madame Ollier's attainments in the art of Scientific Measurements enables her to ensure a perfect fit without putting her customers to the inconvenience of removing a single garment.

Bargains to be had at the Old Stand, 15 RIDEAU-ST. TRY ONCE.

JOS. NEELIN,
[Late Preston & McLaughlin],
an ., 12 Rideau-st., Ottawa.

BERKELEY, Sept. 1869.—Gentlemen, I feel it a duty I owe to you to express my gratitude for the great benefit I have derived by taking "Norton's Camomile Pills." I applied to your agent, Mr. Bell, Berkeley, for the above named Pills, for wind in the stomach, from which I suffered excruciating pain for a length of time, having tried nearly every remedy prescribed, but without deriving any benefit at all. After taking two bottles of your valuable pills I was quite restored to my usual state of health. Please give this publicity for the benefit of those who may thus be afflicted.—I am, Sir, yours truly, HENRY ALLPASS.—To the Proprietors of NORTON'S CAMOMILE PILLS. 2890

Electric Oil Thomas' Excelsior Eclectric — Worth Ten Times in Weight in Gold.

"Pain cannot stay where it is used. It is the cheapest medicine ever made. One bottle has cured bronchitis. Fifty cents worth has cured an old standing cough. It positively cures Catarrh, Asthma and Croup. Fifty cents worth has cured crick in the back, and the same quantity lame back of eight years' standing. The following are extracts from a few of the many letters that have been received from different parts of Canada, which, we think, should be sufficient to satisfy the most skeptical. J. Collard, of Sparta, Ontario, writes 'send me 6 dozen Dr. Thomas' Electric Oil, have sold all I had from you and want more now; its cures are truly wonderful.' William Maguire, of Franklin, writes, 'I have sold all the agent left. It acts like a charm—it was slow at first, but takes splendidly now.'" H. Cole, of Ionia, writes. "Please forward 6 dozen Thomas' Electric Oil, I am nearly run out: nothing equals it. It is highly recommended by those who have used it." J. Bedford, Thamesville, writes —"Send at once a further supply of Electric Oil, I have only one bottle left. I never saw anything sell so well, and give such general satisfaction." J. Thompson, Woodford, writes—"Send me some more Electric Oil. I have sold entirely out. Nothing takes like it." Miller & Reed, Ulverton, P.Q., write—"This Electric Oil is getting a great reputation here, and is daily called for. Send us a further supply without delay." Lemoyne, Gibb & Co., Buckingham, P.O., write—"Send us one gross Electric Oil. We find it to take well."

Sold by all medicine dealers. Price 5 cents.

S. N. THOMAS, Phelps, N. Y.

JOB MOSES' FEMALE PILLS.

This well known medicine is no imposition but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, they contain nothing hurtful to the constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics and Whites, those pills will effect a cure when all other means have failed; and although a powerful remedy, do not contain iron calomel, antimony or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully reserved.

For full particulars, obtain free, of the agent a pamphlet, or refer to advertisement.

JOB MOSES, NEW YORK, SOLE PROPRIETOR.

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will insure a bottle, containing over 50 pills return mail.

For sale by all druggists. 25

THE FOLLOWING IS AN

Extract from a Letter

Dated 15th May, 1872, from an old inhabitant of Horningsham, near Warminster, Wilts: "I must also beg to say that your Pills are an excellent medicine for me, and I certainly do enjoy good health, sound sleep and a good appetite; this is owing to taking your Pills. I am 78 years old. Remaining, gentlemen, yours very respectfully, L. S."

To the Proprietors of Norton's Camomile Pills, London.

July 1874. [illegible]

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked. "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

The New York Tribune.

THE CONSOLIDATION OF ITALY! so long fragmentary and impotent, into one powerful State, with Rome as its capital; the humiliation of France through a series of crushing defeats, ending with the siege and capitulation of her proud and gay metropolis; the expulsion of the Bourbons from the Spanish throne, and the substitution for them of a scion of the most liberal among royal houses; the virtual absorption of the kingdoms of Saxony, Wurtemburg, Bavaria, while Baden, Hesse, the Hanse Towns, &c., under the headship of Prussia, into the triumphant and powerful empire of Germany; and the arming of Russia to re-assert her preponderance in the councils of Europe, or to prosecute her often postponed but never relinquished designs on the great city founded by Constantine, and the vast but decaying and anarchical dominion of the Sultan, all combine to invest with profound interest the everchanging phases of our tidings from the Old World. The *Tribune*, through trusted correspondents stationed at all points in Europe where great movements are in progress or imminent aims to present a complete and instructive panorama of events on that continent, and to mirror the prolonged struggle between middle age Feudalism and Ecclesiasticism on the one hand and Nineteenth-Century scepticism and secularism on the other. Recognising a Divine Providence in all that proceeds and is, it looks hopefully on the great conflict as destined (like our own recent convulsion) to evolve from strife, disaster, and seeming chaos, a fairer and happier future for the toiling masses of mankind.

In our own country, a war upon corruption and rascality in office has been inaugurated in our city, whereby the government of our State has been revolutionised through an initial triumph of Reform which surpasses the most sanguine anticipations. It is morally certain that the movement thus inaugurated cannot, in its progress, be circumscribed to any locality or any party, but that its purifying influence is destined to be felt in every part of the Union, rebuking venality, exposing robbery, wresting power from politicians by trade, and confiding it in those worthiest and fittest to wield it. To this beneficent and vitally needed reform, the *Tribune* will devote its best energies, regardless of personal interests or party predilections, esteeming the choice of honest and faithful men to office as of all New Departures the most essential and auspicious.

TERMS OF THE TRIBUNE.

DAILY TRIBUNE, Mail Subscribers, $10 per annum.

SEMI-WEEKLY TRIBUNE, Mail Subscribers, $4 per annum. Five copies or over, $3 each; an extra copy will be sent for every club of ten sent for at one time; or, if preferred, a copy of "Recollection a Busy Life," by Mr Greeley.

KEATING PERSIANS INSECT DESTROYING POWDERS.

This Powder is quite harmless to animals, but unrivalled in destroying Fleas, Bugs, Emmet Flies, Cockroaches, Beetles, Gnats, Mosquitoes Moths in Furs, and every other species of insect in all stages of metamorphosis. Sold in packet tins, and bottles of various sizes.

CAUTION.—The public are requested to observe that all the above preparations bear the Trade Mark as herein shown. Sold by all Chemists and Druggists.

DR. DE JONGH'S LIGHT BROWN COD LIVER OIL. The distinctive characteristics which have gained for Dr. DE JONGH'S OIL so much celebrity, the entire confidence of the most eminent members of the Medical Profession, and notwithstanding the active and unscrupulous opposition of many interested dealers, an unprecedented amount of public patronage may be thus concisely enumerated:—

I.—Its genuineness, purity, and uniform strength are ascertained and guaranteed.

II.—It contains all the active and essential principles that therapeutic experience has found to be the most effective in the operation of the remedy.

III.—It is palatable, easily taken, and creates no nausea.

IV.—It is borne with facility by the most delicate stomach and improves the functions of digestion and assimilation.

V.—Its medicinal properties and remedial action have been found to be immeasurably greater than those of any other kind of Cod Liver Oil.

VI.—From the unequalled rapidity of its curative effects, it is infinitely more economical than any which is offered, even at the lowest price.

CONSUMPTION AND DISEASES OF THE CHEST.

The extraordinary virtues of Dr. DE JONGH'S Light Brown Cod Liver Oil in Pulmonary Consumption may now be considered as fully established. No remedy so rapidly restores the exhausted strength, improves the nutritive functions or produces a more marked and favorable influence on the local malady.

The following high testimony to the efficacy of Dr. DE JONGH'S COD LIVER OIL in Consumption is afforded by ALLEN G. CHATTAWAY, Esq., M.R.C.S., L.S.A., of Leominster:—

"Having for some years extensively used Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL, both in public and private practice, I have no hesitation in stating its effects are very far superior to those of any other Cod Liver Oil. Nearly four years since, two cases of confirmed Consumption were placed under my care. In both, the lungs were a mass of tubercular deposit, and every possible sound to be heard in phthisis was present. The sole remedy employed was Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL; and now the patients are strong and fat; the diseased (abnormal) sounds nearly inaudible; and in the one case, (male), hunting, fishing, and shooting, are freely indulged in, the patient expressing himself quite capable of undergoing as much fatigue as any of his fellow sportsmen."

GENERAL DEBILITY AND EMACIATION.

In cases of prostration and emaciation, where the vital forces are reduced, and where life appears to be even at its lowest ebb, the restorative powers of Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL are remarkably manifested. By its administration the natural appetite is revived, and the functions of digestion and assimilation are improved, reanimated, and regulated; and, when its use has been steadily preserved in, its peculiar tonic and nutritive properties have entirely restored health and strength to the most feeble and deteriorated constitutions.

The actual benefit derived is thus described by ROWLAND DALTON, Esq., M.R.C.S., L.S.A., District Medical Officer at Bury St. Edmunds:—

"In giving my opinion of Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL, I have no hesitation in saying that I have not the slightest confidence in any other kind. The effects of Dr. DE JONGH'S OIL are sure and most remarkable, especially in that broken down state of health and strength which usually precedes and favors tubercular deposit; and I never recommend any other sort. The Oil I have had from you was for my own use, and it has certainly been the only means of saving my life on two occasions, and even now, when I feel 'out of condition,' I take it, and like it, unmixed with anything, as being the most agreeable way. I could wish that Dr. DE JONGH'S OIL would come into general use, and entirely supersede the Pale and other worthless preparations."

SELECT MEDICAL OPINIONS.

From innumerable medical and scientific opinions of the highest character in commendation of Dr DE JONGH'S LIGHT BROWN COD LIVER OIL, the following are selected:—

Sir Henry Marsh, Bart., M.D., Physician in Ordinary to the Queen in Ireland.

"I consider Dr. De Jongh's Light Brown Cod Liver Oil to be a very pure Oil, not likely to create disgust, and a therapeutic agent of great value."

Dr. David Smith, F.R.S., Medical Officer to the Poor Law Board of Great Britain.

"We think it a great advantage that there is one kind of Cod Liver Oil which is universally admitted to be genuine—the Light Brown Oil supplied by Dr. De Jongh. It has long been our practice, when prescribing the Oil, to recommend this kind, since, amidst so much variety and uncertainty, we have confidence in its genuineness." (Extract from "Consumption: its early and Remediable Stages.")

Dr. Barlow, F.R.S., Sen Physician to Guy's Hosp.

"I have frequently recommended persons consulting me to make use of Dr. De Jongh's Cod Liver Oil. I have been well satisfied with its effects, and believe it be a very pure Oil, well fitted for those cases in which the use that substance is indicated."

Dr. Lawrence, Physician to H.R.H. the Duke of Saxe-Coburg and Gotha.

I invariably prescribe Dr. De Jongh's Cod Liver Oil in preference to any other, feeling assured that I am recommending a genuine article and not a manufactured compound in which the efficacy of this invaluable medicine is destroyed."

Sir Joseph Olliffe, M.D., Physician to the British Embassy at Paris.

"I have frequently prescribed Dr. De Jongh's Light Brown Cod Liver Oil, and I have every reason to be satisfied with its beneficial and salutary effects."

. Lankester, F.R.S., Coroner for Central Middlesex.

"I consider that the purity of this Oil is secured in its preparation by the personal attention of so good a Chemist and intelligent a Physician as Dr. De Jongh, who has also written the best Medical Treatise on the Oil with which I am acquainted. Hence, I deem the Cod Liver Oil sold under his guarantee to be preferable to any other kind as regards genuineness and medical efficacy."

THE ROYAL READERS.

A NEW SERIES OF ILLUSTRATED ENGLISH READING-BOOKS.

From Mr. M. Patterson, Rector of the Free Church Training School, Moray House, Edinburgh.

"Thanks for the Specimen of your new Reading Books and Sheets. They are admirable in every particular. Nothing, in my opinion, would more contribute to the improvement of Education than the wide circulation of these books, and the intelligent handling of them."

From A. Montgomerie, LL.D., Principal of Ladies' College Glasgow.

"I have examined very carefully the 'Printing,' and Nos. I., II., and III. of the *Royal Readers*, and have no hesitation in saying that they are, in my opinion, incomparably the best English Reading-Books that have ever been published. The adaptation of the means to the end in view is perfect."

From T. Morrison, M.A., Rector of the Free Church Normal School, Glasgow.

"I have very carefully examined the *Royal Readers*. The plan is excellent, and the execution, if I may say so, even better. They are out of sight the best series of Reading-books published and should very speedily be widely used. The Illustrations constitutes an admirable features and add much to the value of the *Readers*."

PINE LANDS.

OVER 900,000,000 FEET, well located mainly on the rivers leading into Lake Michigan. The numerous streams and lakes surrounded with pine timber along the line west of Reed City, offer the best of locations for mills, where logs can be held safely free of expense and free from the annoyance of Boom Companies. The railroad direct to East Saginaw and Toledo offers the best source of supplies, and never failing market for Lumber Shingles, etc., which may be delivered anywhere on the line.

Notice to Contractors.

SEALED TENDERS addressed to the undersigned and endorsed "Tenders for Des Joachim Works" will be received at this Office until THURSDAY the 24th instant at noon for the following Works, viz:

Constructing one Boom Pier, and executing the necessary repairs to the Slides at the Des Joachim Station on the Ottawa River.

Plans and Specifications for the above Works can be seen on and after SATURDAY the 12th inst., at the Office of the Superintendent of Ottawa River Works, where printed forms of Tender and other necessary information can be obtained.

There will be required the actual signatures, occupations, and residences of the parties tendering, as well as of two responsible persons willing to become sureties for the due fulfilment of the work.

The Department does not bind itself to accept the lowest or any tender.

POSTPONEMENT.

FIFTH AND LAST CONCERT

In aid of the

PUBLIC LIBRARY OF KENTUCKY.

DAY FIXED AND A FULL DRAWING ASSURED,

—ON—

MONDAY, 30th NOVEMBER, 1874.

LAST CHANCE FOR

An Easy Fortune.

A postponement of the Fifth Concert of the Public Library of Kentucky has been so generally anticipated, and is so manifestly for the interest of all concerned, that it must meet the approval of all. The day is now absolutely fixed, and there will be no variation from the programme now announced. A sufficient number of tickets had been sold to have enabled us to have had a large drawing on the 31st July, but a short postponement was considered preferable to a partial drawing. Let it be borne in mind that

THE FIFTH GIFT CONCERT

Is the last which will ever be given under this charter and by the present management,

That it will positively and unequivocally take place as announced, on

MONDAY, 30TH NOVEMBER,

That the music will be the best the country affords, and that

20,000 CASH GIFTS

AGGREGATING

$2,500,000

Will be distributed by lot among the ticket-holders.

Caution.

GENUINE PANCREATI

PANCREATIC EMULSION.

The efficacy of these Medicines in the treatment of Indigestion, Bronchitis, Pulmonary Catarrh, Consumption, Wasting, &c., &c., depending entirely upon their purity and strength, SAVORY & MOORE caution the public against imitations of their preparations set forth as possessing the same properties of the true preparations, but which are in reality either spurious compounds, ointments or pomades, with no trace of the Pancreatic principle and entirely useless as Medicines. These imitations are calculated to cause serious disappointment and to affect the reputation which Pancreatine and Pancreatic Emulsion have acquired. It is therefore of importance that purchasers examine on the bottles for the names and Mark

PROVINCE OF ONTARIO.

PARLIAMENTARY NOTICE.
LEGISLATIVE ASSEMBLY OF ONTARIO,
Toronto, 14th September, 1874.

49. No Petition for any Private Bill is received by the House after the first three weeks of each Session; nor may any Private Bill be presented to the House after the first four weeks of each Session.

51. All applications for Private Bills, properly the subject of legislation by the Legislative Assembly of Ontario within the purview of "The British North America Act, 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road, or Telegraph Line; the construction or improvement of a Harbour, Canal, Lock, Dam, or Slide, or other like work; the granting of a right of Ferry; the incorporation of any particular Trade or Calling, or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community; or for making any amendment of a like nature to any former Act,—shall require a Notice, clearly and distinctly specifying the nature and object of the application, to be published as follows, viz:—

A Notice inserted in the *Ontario Gazette*, and in one newspaper published in the County, or Union of Counties affected, or if there be no paper published therein, then in a newspaper in the next nearest County in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition.

For further particulars see *Ontario Gazette.*

LEA & PERRINS
CELEBRATED
WORCESTERSHIRE SAUCE.
DECLARED BY CONNOISSEURS
TO BE
THE ONLY GOOD SAUCE.

CAUTION AGAINST FRAUD

The success of this most delicious and unrivalled Condiment having caused certain dealers to apply the name of "Worcestershire Sauce" to their own inferior compounds, the Public is hereby informed that the only way to secure the genuine is to
ASK FOR LEA AND PERRINS' SAUCE,
and to see that their names are upon the *wrapper labels, stopper, and bottle.*
Some of the foreign markets having been supplied with a spurious Worcestershire Sauce, upon the wrapper and labels of which the names of Lea and Perrins have been forged, L. and P. give notice that they have furnished their correspondents with power of attorney to take instant proceedings against *Manufacturers and Vendors* of such, or any other immitations by which their right may be infringed.
Ask for LEA & PERRINS' Sauce, and see Name on Wrapper, Label, Bottle, and Stopper.
Wholesale and for Export by the Proprietors Worcester; Crosse and Blackwell, London, &c. &c. and by Grocers and Oilmen universally.

Notice to Contractors.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Examining Warehouse, Toronto," will be received at this Office until MONDAY the 5th day of October next, at noon, for the erection and completion of the above building. Plans and Specifications can be seen at the office of William Irving, Esq., Architect, Yonge Street, Toronto.
Contractors are notified that Tenders will not be considered unless made strictly in accordance with the printed forms,—and in the case of firms—except there are attached the actual signature and the nature of the occupation and place of residence of each member of the same.
For the due fulfilment of the Contract, satisfactory security will be required on real estate or by deposit of money, public or municipal securities, or bank stocks, to an amount of *five per cent* on the bulk sum of the Contract.
To the Tender must be attached the actual signatures of two responsible and solvent persons residents of the Dominion, willing to become sureties for the carrying out of these conditions as well as the due performance of the works embraced in the contract.
This Department does not, however, bind itself to accept the lowest or any Tender.
By order,
F. BRAUN,
Secretary.
Department of Public Works,
Ottawa, 10th September, 1874.

NOTICE TO CONTRACTORS.
Sealed Tenders addressed to the undersigned, and endorsed "Tender for Firewood," will be received at this office until Thursday, the 1st day of October next, at noon, for the supply of Firewood for the use of the Public Buildings, Ottawa, according to the specification to be seen at this office, where forms of Tender can also be obtained.
The Department will not be bound to accept the lowest or any Tender.
By order,
F. BRAUN,
Secretary.
Department of Public Works,
Ottawa, Sept. 14, 1874. 3674-6

THE UNITED WESLEYAN CONFERENCE.

First Day.

At ten o'clock a.m., the delegates met, by previous resolution, in the Metropolitan Church, when, on motion, the Hon. Mr. Wilmot, ex-Governor of New Brunswick, was unanimously chosen Chairman *pro tem*; and the Rev Mr. Alexander Sutherland and Mr. Benjamin Hopkins were appointed Secretaries *pro tem.*

The 37th hymn was sung, and the cxxii Psalm was read, after which the Rev. Dr. Jeffers offered prayer.

The Hon. Mr. Wilmot, on assuming the chair for the purpose of duly constituting the Conference, said the position to which his brethren had raised him was an unexpected honour. He anticipated no trouble in administering the office which he temporarily held, inasmuch as his Christian brethren, ministerial and lay, by whom he was surrounded, and he might say sustained, would not only take care of themselves, but also of the great work for the promotion of which they were called together. He anticipated a pleasant and harmonious time, and he trusted that the Divine blessing would richly rest down upon them and their deliberations.

Some pleasant conversational discussion was evoked, on the question of credentials by which delegates would show their right to attend and take part in the proceedings, when it was resolved to accept the records of the appointment of the various delegates from the journals of the several Conferences which they represented.

The Conference adjourned shortly after 11 o'clock, Rev. Dr. Douglas closing with prayer.

At 2 o'clock the Convention re-assembled, when, after devotional exercises and the reading of the minutes, the roll was called, and 162 representatives answered to their names. On motion, it was agreed that the Conference should proceed to elect by ballot, and without debate, a President for the ensuing four years. The first and second ballots not giving any person a clear majority of the whole votes the Convention proceeded a third time to ballot, when a somewhat amusing episode occurred, by an official inadvertently throwing the contents of a hat with ballots into the waste paper basket, necessitating another vote. The result of the vote gave Dr. Ryerson 89, Dr. Rice 64, and the balance in scattered votes. The venerable Chief-Superintendent of Education, was declared duly elected, was introduced to the chair by Hon. Mr. Wilmot, who retired from his temporary honours with the utterance of a few graceful compliments on the choice of the Assembly.

The President asked Conference to elect its Secretary, who might be either a minister or a layman, after which he would, in very brief terms, say what he had to say on the occasion. Like the ballot for the Presidency, that also for the Secretary showed a considerable range of preference, as several names, lay and clerical, were among the first and second ballots. On the third ballot, the Rev. D. D. Currie, of Charlottetown, Prince Edward Island, had 127 votes, and was therefore declared duly elected.

On motion, the Revs. Wm. Scott and Benjamin Hopkins were elected Assistant Secretaries, and the Rev. John Bredin, Journal Secretary.

After a short season of devotion, the President briefly addressed his brethren. He referred to the high honour conferred on him at his advanced age—an honour which he prized more than any other that had been bestowed on him during his entire life. Of the many honours of which he had been the participant, and of the many offices that he had filled, he regarded the present one as not only the most important, but the most responsible of them all. Referring to his long ministerial connection with the Wesleyan Church—now nearly covering half a century—he said he had never filled the office of President of an Annual Conference, nor even that of Chairman of a District; and in his present position of trust and responsibility he felt the need of both the sympathy and prayers of his brethren. The eyes of the Methodist world were upon them. They were waiting to see how we would fulfil our functions in our new relations to each other and to the parent body, as well as to other branches of the Wesleyan family. Our position was both new and untried; and it remained to be seen whether we would be true to the great principles and obligations which had been transmitted to us from our fathers. Under such circumstances he hoped that we would address ourselves to the great work now before us in a becoming spirit, and in dependence on the divine blessing. He remembered that many years ago, when the laity of our Church had less to say and less to do in the making of our ecclesiastical system than they have to-day, he was the first to pen those clauses in our Discipline which conferred larger and ampler powers on our Quarterly Meetings; and he felt on the present occasion more than ordinary pleasure in witnessing the results of this Union, and the incorporation of the laity, man for man with the ministers, in this the highest court of Methodism and the first General Conference. He felt the responsibility connected with the honours of his position, and he hoped that we would seek, in our private devotions as well as in our public religious services, the blessing of God on all our proceedings. He would respectfully suggest—he would not attempt to dictate—the appointment of a Committee, say, of two members from each of the seven annual Conferences, to prepare a plan of procedure for this Conference.

It was resolved that Revds. Dr. Pickard, G. R. Sanderson, G. Davies, and the Hon. Mr. Wilmot, R. Wilkes, M.P., Jno. McDonald, and the Hon. Mr. Shannon, be a Committee to prepare and submit for adoption on the morrow, a draft of rules and regulations for the guidance of Conference in its debates and modes of procedure.

The Conference adjourned, with the Benediction, till nine o'clock to-morrow morning.

THE DAILY TIMES can be procured every morning for 15 cents per week. The "Weekly" Friday morning's, in time for English Mail, at E. A. Perry's Elgin St.; Battle Bros., Rideau St., and Russell House; Lacy, Bridge St., Chaudiere; L'Echo Office, Hull; St. Lawrence & Ottawa, and Canada Central Railway Stations.

CHRONIC SPLENITIS.—Physician's report of a remarkable case. Gagetown, N. B., July 22, 1868. Mr. James I. Fellows, Chemist. Dear Sir: Allow me to bear testimony in favor of your Compound Syrup of Hypophosphites. I have used it myself for Tuberculosis with marked benefit, and have given it to a great number of my patients, with the same results as I experienced from its use. The most marked was a case which was under my care in March last. This was a patient who had been under treatment nine months with no beneficial results. When I first saw him he was so feeble that he could not sit up long enough to have his heart and lungs examined. He had a severe Cough, Dyspnoea, Palpitation of the Heart, Impaired Digestion, and consequent general maciation. I put him under treatment, prescribed your Compound Syrup of Hypophosphites, and after using four bottles he was able to attend to his farm, and is now perfectly well. In March he was given up by four physicians respectively; in May he assisted in ploughing eighteen acres of land, and had run up in flesh from 138 to 148 pounds weight. I send you this for the purpose of your making what use you please of it, and wish you all success in your labor for the benefit of suffering humanity. Strongly recommending the use of your Compound Syrup of Hypophosphites to all who suffer in any way from disease or weakness of the Lungs, Bronchial Tubes, or general debility. Believe me, your obedient servant

The Ottawa Times

SATURDAY, SEPTEMBER 19, 1874.

The Illinois Episcopal Convention, which met at Chicago the other day, elected Dr. Seymour, of New York, as Bishop of the Diocese of Illinois.

The struggle between the Lumber Operators' Ring and the New Brunswick Government has come to an end by a Mr. Gibson offering to buy all timber lands at auction at the upset price. This broke up the combination.

We reported the other morning the marriage of Mr. P. T. Barnum, the irrepressible showman. It is said Mr. Barnum places his chief happiness in his retreat at Waldmere, over which his bride goes to preside.

The Brockville *Recorder* states that it is reported that Mr. Goldwin Smith intends offering his services to represent South Renfrew in the House of Commons. We should like, Mr. *Recorder*, to hear who said so. For our own part we don't believe it.

The Cariboo, British Columbia, *Sentinel*, of the 22nd ult., reports that Mr. Marcus Smith and Mr. Joseph Hunter, M.P.P., of the Canadian Pacific Railway Survey, left Soda Creek for Quesnelmouth on the previous morning in the steamer 'Victoria' with a large pack train and several tons of freight.

The trial of the Kingston controverted election, which comes up soon, is causing considerable uneasiness to the friends of Sir John Macdonald. The Kingston *News*, his personal organ, admits in a mild way that the inevitable result will be the unseating of the member elect, but of course lays it to the charge of his over zealous friends.

It is reported, *via* Victoria, British Columbia, that General Micheler, of the United States Army, has for some time been engaged in surveying the Island of San Juan, that several reserves have been laid out for military purposes, and that the erection of several forts will be proceeded with immediately. The survey of settlers' lands on the Island is also reported as being pushed ahead vigorously, and it is thought that in a few weeks all disturbing questions will be satisfactorily settled.

The Toronto *Leader* congratulates *La Minerve* upon its entrance on the forty-seventh year of its existence, and hopes it will "continue its advocacy of conserva-"tive principles in the future with the "same ability and fearlessness which have "hitherto so signally marked its career." Let the Orangemen of Ontario take a note of this. Doubtless its "ability and fearlessness" in the advocacy of the cause of Riel is one of those things which command the esteem and gratitude of the *Leader*.

Some wag has been hoaxing Councillor Drummond, of Victoria, British Columbia. The worthy Alderman recently stated from his place at the Council Board that a number of Chinamen had exhumed the corpse of a deceased Celestial, stripped the flesh from the bones, and made a practical experiment of the results of cremation. The Victoria papers state that a shudder of horror ran through the room at the announcement, and a motion for an inquiry into the circumstances with a view to prevent like occurrences in the future was of course carried unanimously. The thrill of horror, however, soon gave place to side-splitting laughter, when Councillor Mitchell announced that the dead body referred to was that of a pig, which the Celestials had been preparing for dinner. It will be interesting to hear if the inquiry ordered will be proceeded with, and if so, whether the Chinamen will be prevented from "repeating such occurrences in "future."

THE QUEBEC GOVERNMENT.

It is now about a fortnight since the Administration of Mr. Ouimet "stepped down and out," it is approaching the same space of time since Mr. Boucher De Boucherville was called upon by Lieutenant Governor Caron to form a Ministry, and yet at the present time the Province of Quebec is without a Government. How long this state of affairs is going to continue it seems impossible to predict, but there need be little doubt that it cannot continue long without grievous injury, both in reputation and in fact, to the people and the politicians of the Province, and especially to the personage in whom is vested the Executive powers belonging to the Head of the State. Nothing could have kept the present condition of affairs from coming under the direct censure of the representative of royalty before now, except his sympathy with or, indeed, his actual participation in the series of political intrigues by which the past fortnight has been characterised. If Mr. DeBoucherville were to be successful in forming a Government at all, he would have succeeded before now. Indeed, if the chosen head of the Ministry which has not yet been, and in all probability never will be formed, had any fair amount of self-respect and manly straightforwardness, he would ere this time have given up the hopeless and thankless task. There is scarcely a paper in the Province which has not tendered him advice of this kind, no matter whether they are friendly or otherwise. It is only, however, another instance of the way in which Tories of the true stamp are accustomed to do things. Viewing matters from a mere party point of view, we might rejoice rather than complain of the conduct of those who have played the chief part in this whole transaction, for it only exasperates the feeling of opposition to and distrust in Tory rule which has lately pervaded the whole of Lower Canada. That this exasperation will have its due effect at the general election which at the farthest is now near at hand we have no manner of doubt, and anything which tends to intensify that feeling can only make doubly sure the victory for Liberal principles which the near future unquestionably has in store. But serious mischief may in the meantime result, for which no party victory could be the slightest recompense. Our system of Government will come into disrepute, and our Provincial Administrations, which the press of England have of late begun to speak of as cumbersome and unnecessary, will be subjected to obloquy and adverse criticism that if constitutionally worked they do not deserve. If Mr. Joly had been sent for in the first instance, we are quite safe in asserting that no such disgrace would have befallen the Province as has overtaken it within the last few days. That Mr. Joly will have to be sent for ultimately, when it must be done with less grace, is undeniable. The sooner it is done the better for the Province and the Conservative party.

CHAIR OF NATURAL SCIENCE IN TORONTO UNIVERSITY.

We see it announced that the Chair of Natural Science, in the Toronto University, vacated by the resignation of Dr. Henry Nicholson, the celebrated Geologist, has been filled by the appointment of Mr. Ramsay Wright, of Edinburgh. The Toronto University seems fond of Scotch Professors. Dr. Wilson and the Rev. Professor Young are both Scotchmen and University of Edinburgh men, and we need not say they are each of them an honour to their *alma mater*, the country of their birth, and the land of their adoption. Dr. Nicholson is also a graduate of the University of the Modern Athens, and leaves Toronto to take a Professorship in Dublin University. He was a man of no common attainments before ever he saw our shores, and his sojourn in this country has added largely both to his knowledge and his reputation. His deep sea dredgings in Lakes Ontario and Superior, and his general geological researches in Upper Canada, as set forth in his address before the British Association at Brighton two years ago—an address, which was in substance repeated afterwards before the Canadian Institute of Toronto—have brought to light many facts of the utmost importance to those who interest themselves in the primeval history of British North America—facts, too, for the discovery of which Professor Nicholson alone deserves credit. He has established, for instance, beyond the shadow of a doubt, that the bed of Lake Ontario must have been at one period of the world's history covered with salt water, or what is equal to the same thing, he has brought to the surface in the course of his dredgings the fossil remains of a kind of crustacea never known to have existed in fresh water—indeed, to which the very presence of fresh water is alleged to be fatal. With equal reason he argues—and geologists have not disputed the logic of the argument—that the water of Lake Ontario must have been salt at one period, although admittedly it was a remote one. Then the Doctor has placed before the world of letters a great fund of information regarding the character of the bottom of our North American Lakes, the different classes of life to be found in them at various depths, and where peculiar kinds of soil predominate in the lake-bed, and the temperature of the water at various distances below the surface and at different seasons of the year. It is a pity the learned Professor could not have been induced to remain in this country, but there is a consolation left to us in the hope that he may do us some good where he is going. There is little doubt the gentleman selected to succeed him will be in every way worthy of the shoes into which he is to step. He was educated at the High School of Edinburgh, and afterwards graduated at the University of that city.

CITY AND VICINITY

RETURNED.—The Rev. Dr. Bain, of Perth, has returned home from Manitoba.

LANARK ASSIZES.—The Court of Assise and Queen's Bench for the County of Lanark will open at Perth on the 29th inst., before Justice Wilson.

CITY COUNCIL.—A regular meeting of the City Council will be held on Monday evening. The new fire by-law and other business of importance has to be transacted.

THE CAUSE OF UNION PROGRESSES.—The Congregation of Knox Church, (Canada Presbyterian) Perth, has adopted the Basis of Union and carried the resolutions by a large majority. Thus the cause of Presbyterian Union progresses.

ARRIVED HOME.—Mr. W. C. Caldwell, M.P.P. for North Lanark, has returned home after having spent some time in Scotland, England and the Continent. He took the trip with a view to recruiting his health, and it is pleasing to know that the tour and voyage across the Atlantic has had the desired effect.

ANOTHER RAILWAY PROJECTED.—An effort is being made to construct a Railway from Kemptville to Perth to connect the St. Lawrence and Ottawa and the Kingston and Pembroke roads. A meeting was held at Perth the other day with a view to a furtherance of the projected enterprise.

The New York *Examiner* says: Every mother and housekeeper must often act as a family physician in the many illnesses and accidents that occur among children and servants. For many of these cases I have used Davis' Pain Killer, and consider it an indispensable article in the medicine box. In diarrhœa, it has been used and effected cures. For cuts and bruises, it is invaluable. 3671

FELL FROM A SCAFFOLD.—A man working on the Presbyterian Church in Hull, yesterday morning, fell from the scaffold to the ground, a distance of about 30 feet and received severe injuries. He is a painter by trade and was removed to his residence immediately after the accident. Although severely injured, it is believed he will survive his injuries, as they are not of a fatal character.

DEFECTIVE PLANK.—A defective plank is to be found on the platform between Ormé's Music Store and the Sapper's bridge. Mr. Heney had better replace it with a new plank, otherwise some serious mishap may occur at at any moment. These mantraps should not be allowed to remain a single hour in the leading thoroughfares.

THE TORONTO EXHIBITION.—The Provincial Exhibition which is to be held at Toronto next week gives every indication of being a grand affair. A great number of persons from this city contemplate visiting the mammoth show, which will be a treat rarely enjoyed. The Grand Trunk and other lines of Railway are issuing tickets for Toronto at one fare, good from the 19th to the 26th September inclusive.

RETURNED HOME.—Mr. Thomas Kinsella, who started for the Emerald Isle last week got as far as Quebec when he was overtaken by a sudden illness that necessitated his returning to the city. Since his return his ailment has subsided, and he thinks he will make another and he trusts a more successful attempt to reach the *ould sod*, after the Equinoctial storms have passed away. 'A faint heart never won a fair lady,' and Tom, mindful of the old adage, is determined to muster up sufficient courage to yet reach the land of his forefathers.

RINK MUSIC HALL.—Last evening was for the benefit of Miss Morton, but owing to the uncommonly tempestuous weather, the house was not commensurate with her abilities. To-night is her last appearance, when she offers a strong Saturday night bill, viz.: "The Little Rebel," and "Driven from Home," together with numerous specialities. On this occasion Mr. J. F. Tighe, a local typo, who achieved a decided success at the Guards' Pic Nic, winning a silver cup as the best comic singer, appears as a comic vocalist. We expect a good house.

SAPPER'S BRIDGE.—The new arch being constructed under the west end of the Sapper's Bridge by the government has been completed, and the street cars can now run over without unhitching the horses. For a long time much inconvenience was experienced in this direction. The muddy state of the bridge since the rain has made it almost impassable. The Board of Works might complete the approaches to Dufferin Bridge at the west end, for a platform there of some kind, has actually become a necessity, and it would compensate in a measure for the present inconvenience being experience by the public on the Sapper's Bridge.

THE NEXT PROVINCIAL EXHIBITION.—At the meeting of the City Council to be held on Monday night, a formal demand will be made for the Civic authorities to give the usual guarantee of undertaking such responsibilities, as may be necessary in the event of the Provincial Exhibition coming to Ottawa next year. The City Council it is said will have no hesitation in complying with so reasonable a demand, especially when it will prove of such great advantage to the city. Steps are being taken to have the Corporation of the County of Carleton do likewise. They will assuredly aid the enterprise, as it will confer a great boon upon the farming community of the Metropolitan County.

MORE RAIN.—The drizzling mist of Thursday culminated during the night into a steady and pouring rain which lasted all night and continued throughout yesterday with little or no intermission. It has had the effect of converting the streets into a very muddy and unpleasant condition. These, however, are inconveniences that the community will bear with patience, when it is known that it will effectually check the fires that have been raging throughout the valley of the Ottawa for several weeks past. It will also improve the grass, which it is to be hoped, may have the effect of reducing the extraordinary high prices of dairy products.

ARRIVALS AT THE RUSSELL HOUSE.—Hon D A Macdonald, Alexandria; C M Conkling, T H Thorpe, C A Silvester, D D Winne, D G Thomson, New York; John Dale, Montreal; Mr Vincent, Ottawa; R R Chisholm, Oakville, Ont.; John Battle, Thorold; John Amy, Portage du Fort; Willoughby Reade, Toronto; P Macfarlane, Waterloo; H Macfarlane, Stratford; Dr Pattee and wife, Plantagenet Springs; John Fourley, Cobourg; C H Burritts, Pembroke; Lt-Col Worsley, Montreal; J Macdonnell, Toronto; M R Bingham, Hamilton, Ont; George Anderson, Kingston; T C Fathom, H J Lake, England; J E Gilty, Thurso; C A Brough, J Fair, Montreal; J G Scott and Mrs Scott, St Thomas; William Barclay, Montreal; Geo Fraser, Arnprior; John Patterson, Collingwood; Capt McNaughton, Buckingham.

BRAIN WORRY.—Many of us pray to be delivered from sudden death, and do we not worry ourselves into it? And if we do can we not help it? "Men do not really die of Heart Disease as often as it is supposed, but of Apoplexy, or Congestion of the Lungs, so they do not die of brain work, but BRAIN WORRY. Scott died of it, Southey, Swift, Horace Greeley, and probably Thackeray."—*London Times.* As brain worry induces premature dissolution by its depressing influence upon the general nervous health, by eating the brain faster than the waste is repaired, and as the means of sustaining and increasing nervous health is no longer impossible; those who suffer the debilitating influence of mental anguish or extreme mental fatigue, need only resort to the preparation of Hypophosphites invented by Mr. Fellows, as that will conduct the subject safely over the rapids of despair, and create in him strength to grapple with every difficulty. This is no idle assertion but an established fact. 3671

OTTAWA CHORAL UNION.—An advertisement in another column calls a meeting of all interested in musical matters at Gowan's Hall, on Monday evening next, when the Committee appointed at the preliminary meeting last Monday will be prepared with recommendations as to rules, the rates of membership, &c., of the proposed Society. We do sincerely hope to see a large and harmonious gathering on Monday evening. The aim of the society is a most deserving one, and ranges higher than many persons at first realised. We urge both those who can sing, and those who cannot, but who have any ambition to see their city take rank with Toronto, Montreal and Quebec, to join heartily in this movement. We know that there are in the city the fragmentary materials of a good Choral Society, which only want to be united under good leadership. And we feel equally sure that there are many of our well-to-do citizens, who are sufficiently conscious of the refining influences of music and its associations, to help the cause with a liberal hand.

Presbyterian Union.

[From the Scottish American Journal.]

The means employed to facilitate a union among the Presbyterian churches of the Dominion of Canada have been signally successful, as was noticed repeatedly in these columns. Estrangement and distrust have apparently been banished from the minds of members of the various bodies; difficulties have been bridged over; formal sanction of the proposed basis of re-union has been given by the Synod of one denomination and by the Assembly of another. The steps taken have now reached a point where the hand of brotherhood may be extended, and the various sections blended under one name—"The Presbyterian Church in Canada." On the essentials all are agreed; regarding the non-essentials, let there be charity. It is difficult to see what advantages can spring from divisions among Presbyterians in Canada; and there is no reason why benefits similar to those proceeding from political confederation, so happily established in the Dominion, should not be sought for in religious alliance. A multiplicity of sects has been a reproach to Presbyterianism. If this can be removed conscientiously, and with a due regard to truth and uprightness, the sooner it is done the better.

Dominion Rifle Association.

ANNUAL MEETING.

FOURTH DAY.

Among the many difficulties which the Dominion Rifle Association has had to contend with this year, none has been greater than the weather, which since the opening of the meeting has been very unsettled. Yesterday a disagreeable drizzling rain—a veritable "Scotch mist"—fell during the whole day, but failed to damp in any way the ardour of the competitors or drive them from off the grounds. Of course the Range presented a dreary aspect, the firing was carried on under difficulties, and the Executive Officers had a most unpleasant task to fulfil. Up to the hour of two o'clock in the afternoon, the ordinary Targets were used, but the competitors had such great difficulty in "sighting" that they were obliged to resort to the Wimbledon Regulation Target, as better facilities were thus given for marking. In yesterday's issue it was announced that the Ontario team had won the London Merchants' Cup, value $1,000, in the Provincial match. To-day the names of the respective competitors from the different Provinces are given below:—

PROVINCIAL MATCH.

ONTARIO.

	Pts.
Sergt. Mills	44
Priv. A. Bell	53
Sergt. J. Baillie	66
Asst. Surgeon Aitkin	76
Sergt.-Major Cruit	71
Total	310

NOVA SCOTIA.

Lieut. Walsh	56
Sergt. Staple	55
Sergt. Corbin	68
Sergt. Bishop	57
Lieut. McInnes	59
Total	295

NEW BRUNSWICK.

	Pts.
Sergt. Hunter	51
Pvt. Pinder	66
Capt. E. Arnold	61
Pvt. J. D. Perkins	52
Pvt. Blacktin	60
Total	290

QUEBEC.

	Pts.
Lt. Col. Worsley	40
Capt. Thomas	67
Capt. Boyd	57
Ensign Wright	57
Pvt. Ferguson	66
Total	287

HIGHEST INDIVIDUAL SCORE.

1 Assistant Surgeon Aitkin	76
2 Sergt. Major Cruit	71
3 Sergt. Corbin	68

THE MCDOUGALL CHALLENGE CUP,

which is valued at $200, and presented by Mrs. P. L. McDougall, was fired off yesterday, notwithstanding the drenching rain which fell throughout the day. There was a good deal of interest manifested in the competition, owing to the conditions upon which the Cup becomes the property of the winner. Last year the Cup was won by Private Mitchell of Hamilton, who was prevented through indisposition from being present at this meeting. This year Quarter-Master Thomas of the 54th Battalion, won the prize, scoring 40 points, the highest obtained by any of the contestants. Singular to say, Mr. Thomas was the last man to fire in the competition, and on the result being made known he was lustily cheered by the Volunteers on the ground.

This morning if the weather is fine, the second stage of the "All-Comers Match" will be fired. It is also the intention of the Committee to close the meeting to-night if possible. It might be stated that a large number of the Volunteers from a distance left for their respective homes last night.

Police Court.

Before M. O'Gara, P.M.

FRIDAY, Sept. 18.

The *Cadi* had his hands full yesterday, the recent heavy importations of ale to the city are evidently beginning to tell on the community.

DRUNKS.

Gideon Mulleur was charged with being drunk and disorderly on the public streets. He was made to contribute to the city exchequer $2 and costs for the liberty he took of too freely indulging in the cap that inebriates.

Etienne DeLaine, arraigned on a similar charge was asked to pay a like amount. In default he went to *durance vile* for a week.

John Busy, another invalid through intemperate habits, was sent down to *limbo* for a week, to give him time to get sober.

LEAVING EMPLOY.

Victor Mucier, charged with deserting his employment, was dismissed with a caution as to his future conduct.

BREAKERS OF THE PEACE.

Timothy Fitzpatrick, for creating a disturbance on the street, was relieved of $2 and costs.

Vital Belanger, charged with using abusive language, was *mulcted* in $5 and costs.

INSANITY.

John Jackson, arraigned on a charge of attempting, during a fit of insanity, to take forcible possession of a locomotive on the Canada Central Railway, was remanded for a week.

Pony Competition.

An interesting feature of the Agricultural Exhibition and Fair, in some way overlooked in our report of the occasion, is described by a contemporary as follows:

THE LADIES AND THEIR PONIES.

In the ring this morning a novel and pretty sight was to be witnessed. A special prize was got up for the benefit of the young ladies who pride themselves on their ponies and the style in which they manage them. There were three entries, viz:—Miss Slater, who took a $10 prize for her pair of beauties, Miss Katie Skead, who took a second with her little Shetland pony, which was attached to a miniature buggy as quaint as the diminished steed, and Miss Bell took another $5 prize for her pony; all the fair drivers showed admirable skill in handling the ribbons, and the young ladies were of course delighted beyond measure at the approbation of their pets expressed by the judges.

OWNERS OF HORSES REJOICING.—And why not? and who knows but that their horses are rejoicing as well; who can prove the contrary? But their owners are rejoicing because of the astonishing and almost miraculous effects on their horses of "Darley's Condition Powders and Arabian Heave Remedy." Some were lean and poor having no appetite, others would devour their food ravenously, yet derive no benefit from it; some were hide-bound, with rough and shaggy hair; others had severe colds and coughs; many had the heaves and other complaints peculiar to horses; on all it operated as a charm, the disease or complaint was speedily removed, the appetite and digestive organs corrected, skin softened, and a sleek and shining appearance given to the coat all without any danger to, or preventing the horse being used.—Remember the name, and see that the signature of Hurd & Co. is on the package.—Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealer 1m.

JOHN WESLEY'S WIFE.

Scandal Against a Great Preacher a Hundred Years Since.

From the Boston Advertiser.

The assault upon the name and fame of Henry Ward Beecher recalls the story of a similar attack upon the Apostolic and saintly man, John Wesley. The charges were similar and groundless beyond the shadow of a doubt. They were occasioned by the senseless jealousy of Wesley's ignorant wife, and were caught up by rival sectarians and even entertained by the public press. Wesley disdained to notice the slanders, notwithstanding the agitation and distress of his brother Charles Wesley, of other members of the family, and of the dignitaries of the church. We find our narrative in the 'Life and Times of the Rev. John Wesley,' by the Rev. E. Tyerman, published by Harper & Brothers in 1872, in three volumes, and reprint it for the purpose of showing that men of spotless lives and the most exalted character are liable to the same abuse and slanders as have befallen the pastor of Plymouth Church. Sarah Ryan, who is mentioned in the narrative, was housekeeper in one of Wesley's denominational asylums. She had been married to three men successively, who in turn abused and deserted her. Her station in life was low, her education limited, and at times the obligations of duty lay loosely upon her. Under the preachings of the Methodists she became a convert and won the great preacher's confidence. Wesley was undoubtedly imprudent to confide his domestic troubles to her as he did, but there is not the least atom of evidence of any other indiscretion on his part.

In February, 1758, Wesley wrote to Sarah Ryan:

"Your last letter was seasonable indeed. I was growing faint in mind. The being continually watched over for evil; the having every word I spoke, every action I did, small and great, watched with no friendly eye; the having a thousand little tart, unkind reflections in return for the kindest words I could devise—

Like drops of eating water on the marble
At length have worn my sinking spirits down.

"Yet I could not say, 'Take the plague away from me.' but only, 'Let me be purified not consumed.'"

In another letter to Sarah Ryan he writes as follows:

January 27, 1758.

My Dear Sister,—Last Friday, after many severe words my wife left, vowing she would see me no more.

Wesley and his wife, however, were again united, but were far from being happy. On one occasion she seized his letters and papers and put them in the hands of such as she knew to be his enemies, that they might be printed as presumptive proofs of illicit connections." She even interpolated letters which she had intercepted, so as to make them bear a bad construction, and then read them to different persons in private for the purpose of defaming him. In one or two instances she published interpolated or forged letters in public prints. She accused Chas. Wesley of idleness, and declared that his dearest Sally had been John Wesley's mistress. Charles danced with rage at this imputation cast upon his wife; but his Sally calmly smiled and said, "Who will believe my sister now?" Frequently she would drive a hundred miles to see who was in the carriage with her husband on his entering a town. Sometimes her passions hurried her into outrage and indecency. More than once she laid violent hands upon his person and tore his hair. "Jack," said John Hampson, senior (one of Wesley's biographers), to his son, "I was once on the point of committing murder. Once when I was in the north of Ireland, I went into a room and found Mrs. Wesley in a fury. Her husband was on the floor, where she had been trailing him by the hair of the head; and she herself was standing, still holding in her hand venerable locks which she had plucked up by the roots, I felt" continued the gigantic Hampson, who was not one of Wesley's warmest friends, "as though I could have knocked the soul out of her."

In volume three, pp. 232, 233, and 234, it is recorded that the *Gospel Magazine*, edited by the famous Toplady, reviewed an extraordinary and infamous burlesque pamphlet on Wesley, and commended it as "a delicate satire on Wesley," and hoped that the "cream of tartar so administered by the anonymous physician, will prove a sweetning of the patients crudities, and conduce to carry off some of his self-sufficiency." Wesley, however, had been so "severely peppered and salted of late years" that the considerate editor of the *Gospel Magazine* benevolently intimates that he shall on that account refrain from adding pepper and salt seasoning which "must often make Wesley smart and wince like an eel dispossessed of its skin."

This was bad enough but there was another thing even worse. Wesley's wife (originally a not too respectable servant girl) stole a number of Wesley's letters, and interpolated words and misrepresented spiritual expressions, so as to make the letters bear a bad construction. She read them to a select party of Calvanists and agreed to send them to the *Morning Post* for publication. Two masked assassins, who assumed the not inappropriate names of "Scorpion" and "Snapdragon" previously assailed him in the London newspapers, professing to ground their charges against him upon his own private papers, which the woman who was legally his wife had put into their hands. A more infamous episode does not occur in Wesley's history. The charges were cruel insinuations, founded upon interpolated letters, stolen by a faithless woman, who in order to defame a husband of whom she was entirely unworthy not only committed the theft, but forgery, and then put herself in the hands of a set of holy Calvanists, who employed her perfidy and meanness in injuring the man whom at the altar of Most High God she had sworn to love, honor and obey. This is strong language; but the writer, knowing more than he chooses to make public, uses it with deliberate design."

A Sad Story.

A Leipzig letter tells a heartrending story of the fate of a German student. Prizes of two hundred thalers each were offered by a rich gentleman of Berlin for the best metaphysical essay, an equal sum for the best essays on mediæval history, astronomy, celestial mechanics, sociology, geology, poetry, and five hundred thalers each for the best poem; the prizes to be awarded by a committee selected from the various universities and various designated literateurs of eminence. A great audience assembled on the day of the award in Leipzig. The names of the authors of the various works had been sent in sealed envelopes on which were inscribed the fictitious names signed to their productions. The author of the metaphysical essay had chosen as his theme Kant's 'Antinomien der reiner Vernunft' (Antinomies of Pure Reason) and taken as his name for the occasion, 'Hans Wildenstein.' After passing an eulogium on the essay, Doctor Schmidt broke the seal and found in the envelope the name of Max Markman, who thereupon was called upon to receive the reward of his work. A pale, poorly-clad young man stepped forward and was received with hearty applause. His hair was thin and gray, although he was plainly yet young, and his whole appearance was such as to at once awaken the sympathies of the audience. Prize after prize was announced, and the same poor student gained every one. The prize for the tale was the last one announced, and as Markman stepped forward to receive it amid thunders of applause, his face suddenly became ashy in its whiteness, and he fell fainting on the stage. He lingered for four hours, and the physicians who attended him announced that his death was caused by privation—in other words, by starvation. He had apparently lived on almost nothing for months, and poor, dejected, weary, yet glowing with the fire of genius, had worked for the prizes offered—amounting in all to twenty-four hundred thalers; and then, hungry and weary, had dragged himself to the Gewandt-Haus to win them all and die.

Terrible Fight between a Dog and a Rattlesnake.

From the Atlanta Herald.

On the 22nd inst., within two and a half miles of Allandale, Ga., on the farm of John Davis Terrell, a most remarkable scene occurred. It was a terrible encounter between a dog and a rattlesnake, which ended in the death of both.

About dusk that evening, as he and his ploughboy and a white woman he had hired to hoe were wending their way slowly homewards after a day of labor was over, leading their horses along a pathway near the margin of the cornfield, the woman, who was barefooted and walking in the path before them suddenly sprang back, exclaiming that there was the biggest snake she ever saw. Mr. Terrell then advanced with a short pine knot in his hand with the intention of striking it, when the boy cautioned him, reminding him of the imminent danger he would incur by attempting to kill such a snake with such a frail weapon. He made no further effort to strike it, but the motion with the pine knot no doubt alarming his snakeship, for he instantly turned and glided into the bushes and briers, and as he moved his rattles made the well known sound, which was also familiar to the dog, who, hearing it, at once sprang upon the snake, and, it is supposed, caught it by the tail and tore away its rattles, as their sound was not afterwards heard.

Then commenced a death struggle. The snake would strike at the dog, and he would seize it in his mouth and shake it But before he got a good hold on it struck him several times with its fangs. The dog had previously killed several rattlesnakes, and understood how to fight them on a fair open field; but in this case he fought at a very great disadvantage, being impeded in his movements by the thick jungle of vines, briers and bushes, among which the snake had taken refuge. The fatal wound must have been given by the snake very soon after the contest commenced, as the dog was observed to become weak and to stagger; then he seemed to renew his attack on the snake with terrible energy and ferocity, taking it by the body and shaking it most vigorously from side to side, and tearing great slugs of flesh from its body.

As soon as he had subdued the reptile he carried it out to open ground, where his master was, and laid it down. Then, reeling like a drunken man, under the workings of the deadly poison, the brave fellow placed his foot on his body, and, with the energy of desperation and death already grappling with him, he literally tore out its vitals and strewed them on the ground. In a moment, and at the very climax of his victory, the faithful dog reeled and fell to the ground, and in a few moments was stiff in death, notwithstanding every possible effort was made to save him. The snake was an enormous one, and from Mr. Terrell's account must have been at least five feet long.

A Great Authoress.

A Paris correspondent of a Chicago paper writes: "George Sands' pen-earnings have been enormous. They are estimated at over three million of francs ($600,000) and I have heard them put as high as five million francs. She has received from fifty to one hundred thousand francs for a single romance, and during the past twenty years has been in a position to name her own price. Since 1846 she has written a number of pastoral stories of exquisite simplicity and naturalness, and these are read by maidens here who would not be permitted to look at 'Lelia,' 'Jacques,' or 'Spiridion.' Her mode of composition is so very rapid that it is little less than improvisation on paper. She used to write all night, when, everything being still, she fancied she was in the best mood. Recently, however, she has surrendered her lucubrations, preparing her manuscript in the five or six hours preceding noon. Her range is extraordinary and her acquirements such as few men have attained. She is familiar with the ancient classics. Science, theology, history, philosophy, and the best of literature of modern nations are at her command. In her youth, and indeed to middle age, she is said to have been remarkably handsome. Now seventy, she reveals few traces of past beauty. Her splendid conversational powers, and her illuminated face, when really interested, would, however, prevent any one from thinking of her person. She shows something of her Polish blood by her vivacity, restlessness, and the fervor with which she enters into every new project.

A Warning to Emigrants.

The Kilkenny *Journal* prints a letter from a Catholic priest in New York (the Rev. R. White), warning intending emigrants against proceeding to the United States. The rev. gentleman says: "At the present moment there are in this city alone thousands and thousands of able-bodied men standing idle and actually starving; nor can they get a stroke of work to do. What is true of New York is true of every city—large city at least—all over the Union. Public works have been suspended; there are no railways in construction at the present time anywhere; no canals, nothing which can give employment to large gangs of laborers. For grain and farm produce, farmers raise only as much as suffices for domestic consumption, and not being able to afford it, employ no hands. Where five years ago there used to be any amount of building and digging, etc., nothing is now done. Everything is at a standstill. For one situation, or for the work of one man, there are thousands of applications, and this is true not only with regard to male labour, but also with regard to female. Servants (female) who never had been out of employment before, are now looking in vain for places. The offices are filled with applicants, and no chance of hire. Warn the people and let them know the truth. There are thousands this moment in this city, who, had they means, would gladly return to Ireland. These men are willing to work, but no work can be had, for there is no work in operation. If they still persist in leaving let them try Canada rather than the States. There is as much beggary to-day in New York as in any city in Ireland—as much destitution—and they who are reduced to this state are in general recent emigrants.

China and Japan.

SAN FRANCISCO, August 28.—The Pacific Mail steamer 'Japan' arrived this afternoon with dates from Hong Kong to July 25th.

The Chinese Government has issued orders that all despatches for transmission to Pekin shall be intrusted to the China Merchants' Steam Navigation Company at the various ports of call. A special department is to be organized by the Company for this purpose.

The telegraph line between Foo Chow and Pagoda anchorage, recently opened, is now in full working order. The line is about eight miles on the right bank of the river. The entire line was constructed in twelve days at an expense of about $4,000. The Mandarins of the provinces have examined the workings of the line and are highly pleased.

The North China *News* says: "Whatever the issue may be of present negotiations upon the Formosan question, officials in charge of Shanghai arsenal are evidently more than ordinarily anxious about their armaments and probabilities of war. Unusual activity prevails in the Ordnance Department at Kang Chang Meaou for the last three months. General work has been suspended, and all efforts are being concentrated on the production of shot and shell for heavy rifled ordnance lately from Europe, and which is to replace old smooth bores. The Chinese are again permitted to trade with Corea under certain conditions. From private sources we learn that the Formosa expedition had been entirely successful, and that the Japanese Embassy had been sent from Tokio to Pekin. This Embassy was accompanied by Gen. LeGendre, and outside of the Yokohama English press the general feeling is that it will be a success in settling all matters amicably between the two governments.

The P. M. S. S. Japan brings Yokohama dates to August the 3rd.

A BEAUTIFUL HORSE.—There is nothing that can contribute so much to render the horse beautiful and elegant, to improve his condition and make him all that is desirable, as "Darley's Condition Powders and Arabian Heave Remedy," it has been used by many persons who own valuable carriage and other horses with decided success, and so well pleased are they with it that they always keep it on hand in case of emergency; it may be given at all times with perfect safety. Remember the name and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Toronto, Ontario, proprietors for Canada. Sold by all medicine dealers. 3671m

HEART DISEASE.—Halifax, Feb. 10, 1872 Mr. James I. Fellows—Dear Sir: In order that some other sufferer may be benefited, you are at liberty to give this letter publicity. In the winter of 1869, I was taken ill with Disease of the Heart, accompanied by violent palpitation, and from that time gradually became weaker, notwithstanding continued professional attendance, up to a few weeks ago, when your Compound Syrup of Hypophosphites was recommended to me. The use of it during a very short time enabled me to resume my usual work, and now I am as well, fat and hearty as I could wish to be. Yours, very truly, W. Frank Cochran. The heart being a great muscular organ requires vigorous nervous force to sustain it. As Fellow's Hypophosphites restores the nervous element, it will always strengthen the heart weakened through loss of this element.—The Inventor 652

RICH DIGGINGS AND PLENTY OF THEM.—Gov. Bramlette, of Kentucky, displays the richest and most extensive diggings that have been discovered for a long time. Those grand diggings are to be found in the Grand Gift Concert of Public Library of Kentucky of which he has charge, and which takes place November 30th, at Louisville, Ky. The four that have already taken place were grand successes, and this, the *last one*, will be the most successful of all, as it is the largest. There will be $2,500,000, in *cash*, distributed to the ticket holders. There are only 100,000 tickets, in all, with 20,000 prizes, or one prize for every five tickets, and such sums as the following are embraced among the grand prizes: $250 000, $100,000, $50 000, $25,000, $20,000, &c., &c. Application should be made at once to Gov. Bramlette, at Louisville, as there is a rush for tickets from all parts of the country, and from Europe. 3672

BY TELEGRAPH

TORONTO.

Arrivals—New Parish—Matriculation—Accident.

TORONTO, Sept. 18.

Edward Whitworth and Mr. James Henry Schofield, extensive cotton manufacturers, from Rochdale, Lancashire, arrived in the city yesterday, and are staying at the Rossin House.

Heavy rain descended nearly all yesterday. The nights and early mornings are now getting chilly, and evidences of fall are beginning to appear.

Grace Parish is the name of a new parish set off recently by His Lordship the Bishop of Toronto, and composed of the western portion of what was formerly Holy Trinity. The Rev. W. Henry Jones, M.A., of Omemee, has been appointed the first minister of the new Parish. We congratulate not only the congregation of Grace Church, but the city, on the appointment. Mr. Jones will be quite an acquisition to our city pulpits, as he is an able man and an eloquent preacher. No doubt he will build up a large congregation.

On Wednesday night about nine o'clock a vessel was seen to be burning out on the Bay near the Gap. Considerable excitement prevailed in the neighborhood of the wharves, no one seeming to know what the unusual sight portended, but it was ultimately discovered that the burning craft was the yacht 'Foam.' From the best information obtainable it appears that the 'Foam' was lately purchased by some of the friends of the ill fated crew who went down in her near Niagara, in order that the dangerous craft might be destroyed. Having been filled with light timber and other combustibles she was set on fire, and after burning for about two hours she sank near the Island. It is stated that the yacht in question was nearly upset again a few days ago.

Candidates from the following High Schools and Collegiate Institutes presented themselves for matriculation yesterday at the University:—Canadian Literary Institute, Woodstock, 4; Upper Canada College, Toronto, 6; St. Catharine's Collegiate Institute, 3; Galt Collegiate Institute, 2; Chatham High School, 2; Richmond Hill High School, 2; Yarmouth Seminary, Nova Scotia, 2; Kildonan College, Manitoba, 2; Peterboro' Collegiate Institute, 1; Ottawa Collegiate Institute, 1; Vienna High School, 1; Picton High School, 1; Markham High School, 1; Perth High School, 1; Brantford High School, 1; Uxbridge High School, 1; Owen Sound High School, 1; Brampton High School, 1; Clinton High School, 1.

On Wednesday night a painful accident occurred at R. O'Brien's hotel, corner of Front and John streets. Three temporary guests of the house went to room No. 14, up-stairs, for the purpose of making a spiritualistic experiment, one of them, named John Saunders, claiming to be able to show the others the spirit of any deceased person that might be asked for. After locking the door and putting the key in his pocket, the "professor" proceeded to his task, but before long the other inmates of the house were alarmed by cries of distress coming from the room. Two men ran up and broke in the door, when it was found that the place was densely filled with smoke and the unfortunate "scientists" nearly smothered. It appears that Saunders' trick consisted in sketching the faces of supposed spirits on the wall with phosphorus, and while in this act the substance had ignited. In the excitement of the moment he had attempted to extinguish the flame by placing his hands upon it, and, as a consequence, his palms and fingers were terribly burned. One of the others, a man named Walker, was also burned in a similar manner, though not quite so seriously. Saunders was taken to Dr. Thorburn's office and thence to Wood's drug store, on King street, where everything possible was done to alleviate his torture. Ultimately he was taken to the General Hospital. The other injured person disappeared, and has not since been seen at the hotel. All the parties were strangers here, having arrived only about a week ago.

On Wednesday last Mr. Coate sold lots on Avenue road, lying some distance beyond the city limits, at $25.50 per foot frontage. Taking these lots at an ordinary depth, the prices at the sale ranged from $5,445 to $1,633.50 per acre. When such prices are realized for lots far beyond the city limits, speculation is running wild. There will be burnt fingers some time soon.

It appears to have been generally anticipated among English scientific men that the Oxford Chair rendered vacant by the sudden death of Professor Phillips would have fallen to the lot of Professor Boyd Dawkins, of Owen's College, Manchester. To the surprise of many it has been conferred on Mr. Prestwich, a man of acknowledged ability, but without experience as an instructor of students; and so having to begin to learn the art when already upwards of seventy years of age.

Mr. R. Ramsay Wright, M.A., B.C., of Edinburgh, who has just been appointed to the vacant chair in Toronto University, comes with the highest promise. He has already proved his efficiency as assistant lecturer to Professor Carus, one of the most distinguished Continental Naturalists, and is spoken of as one of the most rising men of the new school of science. It is in his favour that he is young; for however it may suit Oxford to deem grey hairs the needful evidence of professional wisdom, the energy of youth is specially needed for our Canadian Chairs.

MONTREAL.

Presentation to Mr. Brydges—Another Libel Suit—Evangelical Alliance.

MONTREAL, Sept. 18.

The project of building a Suspension Bridge across the St. Lawrence at Cape Rouge is entertained by Mr. Sergeant, the new manager of the Grand Trunk Railway.

A boy employed at Donovan & Williams' shoe factory, at the corner of St. Peter and Lemoine streets, yesterday afternoon fell from the fifth story window, a height of fifty-five feet from the ground and was seriously injured.

Clermont, Daniels & Co. have been doing a peculiar kind of dry goods business here for some months past, which looked so much like swindling that the Post Office authorities stopped their letters, but subsequently gave them up. They issued about 120,000 circulars through the country, and appointed agents to issue certificates at twenty-five cents each. This ticket gave the holder the right to select any lot from a long list of dry goods, &c., sent him, and it would be sent by express, he having to pay one dollar to redeem the parcel. It was something like a dollar store on an extended plan. The scheme was very successful for Clermont, Daniels & Co., as it is estimated their receipts have been $100,000. They have been sending out packages at the rate of five to fifteen a day until the 5th, when they suspended, and this morning their place of business was closed, and the firm is supposed to have cleared out.

The Northern Colonization Railway is progressing rapidly, and it is expected the road will be open to St. Jerome this fall, and to Hull next fall.

A meeting of a devotional character was held in the reading-room of the Y. M. C. Association Building last evening, in which the Earl of Cavan and the Rev. Mr. Dyke, who is about to start as a missionary to South Africa, took part. The attendance was large, and the exercises more than usually interesting. Addresses were delivered by Lord Cavan, Mr. Dyke, and other gentlemen present, which were listened to with deep attention. Among the audience were several ladies.

A libel suit was to-day taken by Hon. L. S. Huntington against the proprietors of the *Gazette* on account of certain expressions appearing in an editorial in that paper yesterday, accusing Mr. Huntington of "wicked frauds" in connection with the Canadian Copper and Sulphur Pyrites Company, who are defendants in certain law suits still pending. The selection of Mr. Huntington from among the other defendants, one of whom is Mr. G. A. Drummond, as the object of the *Gazette's* attack is regarded as an aggravation of the offence. The damages are laid at $100,000.

The Quebec and Gulf Ports Company have contracted with Messrs. Cramp & Sons, of Philadelphia, to build up their SS. "Canima," in iron aft, and to fit up new and spacious cabins and saloon; the cabins are to be done in polished hardwood, and finished in a manner of unsurpassed elegance and stability. There will be accommodations for 60 first-class passengers. The work is to be completed on the 7th November next, when the vessel will resume her place on the route between New York and Bermuda.

Yesterday, at half-past twelve, the presentation of the Brydges Testimonial took place in the Mechanics' Hall, in the presence and on behalf of a large assemblage of bankers, merchants and other prominent citizens of Montreal. Mr. Andrew Allan occupied the chair, and on the platform were Mr. C. J. Brydges, Hon. Henry Starnes, Mr. J. Molson, Mr. T. White, Sir A. T. Galt, and Mr. F. Wolferstan. Tr. Thomas, Secretary of the Executive Committee, read the report. The Committee, after all expenses had been paid, were happy to present Mr. Brydges, on behalf of the subscribers, with a bond on the city for $10,000, together with a casket costing $400. He also read addresses to Mr. Brydges in which it was stated that a large number of the citizens of Montreal desired to mark their estimation of his public services and private worth by presenting him with some suitable mark of their esteem, and requested his acceptance of the accompanying casket, with its contents, together with a list of subscribers. Reference was also made to his services to the commerce of Canada in connection with his management of the Grand Trunk Railway during the last twelve years; also, to his services as a citizen in good and useful works. Hon. H. Starnes then presented Mr. Brydges, on behalf of a number of his Quebec friends, with $1,000. Mr. Brydges made an appropriate reply. The testimonial fund amounted to $10,931.50. There were about 200 subscribers.

Stock market dull and unchanged.
Montreal 193¼, closing at ½ to ¾.

Metropolitan 102, closing at 1½ to 2.

HAMILTON.

New Churches—Great Central Fair—Rain.

HAMILTON, Sept. 17.

The *Spectator* editorially this evening alludes in strong language to the fact that, notwithstanding the many robberies and brutal assaults that have taken place in this city of late, few arrests have been made, and further adds, "this is not the fault of the present police force, but of the Police Commissioners in not employing more detectives."

It is rumoured that, instead of erecting a large cathedral in the centre of the town, it is now the intention of the Roman Catholic Bishop to build a church in every ward of the city.

There is every possibility that the Great Central Fair of 1874 will, in point of fact, surpass all its predecessors. Entries are continually pouring in, and up to the present date more intending exhibitors are booked than at corresponding dates of former years.

It has rained here all day, and several pleasure parties have been deferred, including the American Harvest Home, which will now take place on Saturday.

LONDON.

The Exhibition Grounds—Kicked by a Horse—The Camp

LONDON, Sept. 17.

The Rev. Mr. Reid, of Whitby, having been chosen to succeed the Rev. Mr. Hare in North Street Wesleyan Methodist Church here, he will preach his initial sermon on Sunday next.

The Finance Committee of the City Council announce a sale of that portion of the Exhibition Grounds owned by the city, consisting of ten acres. The fact creates much comment, and there is supposed to be a large "nigger in the fence." It is not concealed that some of the money derived from the sale is to be applied to current expenses, in order to keep the assessment rate low and save reputations. The rest is to go to the purchase of a plot of land for exhibition purposes, which bears no comparison to the present site. The citizens are protesting against the sacrifice of the land unless for some permanent investment.

Mr. Geo. Robinson, a merchant, was kicked by a vicious horse yesterday and severely injured.

QUEBEC.

Political—Complimentary—Address to Judge Plamondon—Resolution of the Board of Trade on Reciprocity.

QUEBEC, Sept. 17.

There is no change to note in matters political.

Mr. W. Garneau, to whom the portfolio of Crown Lands was offered, declines.

General Beauregard, the hero of Bull's Run, arrived in town yesterday.

The Union Navigation Company has reduced its rates from Quebec to Montreal and intermediate places.

The members of the Bar of Arthabaska presented a flattering address to Hon. Judge Plamondon on the occasion of the opening of the Circuit Court on the 14th inst.

A special general meeting of the Quebec Board of Trade was held to-day, to discuss the text of the proposed treaty for reciprocal trade between the United States and Canada. The meeting was well attended, and some able speeches were made. The following resolution was moved by Mr. Henry Fry, seconded by Mr. Wm. White:—"That this Board, whilst highly approving of a just and liberal treaty of reciprocity with the United States, is of opinion that the proposed treaty does not provide any fair equivalent for the surrender of our inshore fisheries, and that no such surrender should be made without the opening of the United States coasting trade to Canadian bottoms; that whilst the free exchange of national productions would be a boon to the countries, this Board is of opinion that the sliding scale of duties proposed would be unjust to the manufactures of this Dominion; that to bind the country to deepen the St. Lawrence Canals and the main river so as to admit the free passage of vessels drawing 12 feet of water within a limited time, and without any guarantee that the State canals of New York will be opened to Canadian craft, would be highly impolitic, as fettering our freedom of action and involving a responsibility to a foreign nation which cannot now be established; that in the opinion of this Board the Parliament of Canada would be as free as the United States Senate to make such amendments in the proposed treaty as in its wisdom it may see fit." This was carried by:—Yeas, 29; nays, 4.

NEW BRUNSWICK.

The Manufacturers and Mechanics' Association.

ST. JOHN, N. B., Sept. 17.

A meeting of the Manufacturers and Mechanics' Association was held last night, when the Society was fully organized, and adjourned to meet again to discuss the proposed Reciprocity Treaty and its probable effects on the rising manufactures of the Province. Mr James Harris is President; Messrs. Peters, Parks and Foster Vice-Presidents.

AMHERST.

Cumberland Election Trial.

AMHERST, N.S., Sept. 17.

The Election Court opened on Tuesday morning, Judge James presiding. Otto S. Weeks and W. A. Morce appeared for the plaintiff, and James McDonald and Jn. D Thompson for the defendants in the case Hubbard *vs.* Tupper. Mr. McDonald, on the part of defendant objected to proceeding with the examination until the original papers were in Court, and the Court adjourned until Wednesday at 10 o'clock. On Wednesday the Court opened, as per adjournment. Counsel for the respondent stated that inasmuch as the sessions of the Election Court were a matter entirely in the hands of the Judge, as the naming of the day and the calling of the case was not made at the instance of either party, but by the Court, he had found the fifteen days allowed between the fixing of the day and the holding of the Court to be too short a time to have his case perfectly prepared and his witnesses on the ground, and further, a mistake had been made by the Clerk of the Court, in serving the notice on the defendant. He was informed the defendant had been served through his counsel Mr. Thompson, with written notice that this Court would be held at Mabou, Inverness County, N. S., instead of Amherst, on the 15th inst. He had no doubt but that, under the circumstances, the defendant would be perfectly willing to go on, and then, if the plaintiffs were successful, the defendant's counsel would take objection to the legality of the proceeding founded on this error in the notice, and have the whole thing set aside. The plaintiff desired to do what was done in such a manner that it could not be upset. Mr. J. S. D. Thompson took objection to the application on the ground that it should have come in earlier. Judge James ruled there could be no danger of proceedings being invalidated on account of the error on the notice, as that had been corrected by the Clerk, and the corrected notice served on the defendant; the plaintiff's affidavit not specifying any particular witness whom he wished present, he was not disposed to grant any lengthened adjournment, and suggested the next day, to which the plaintiff's counsel agreed, and the Court adjourned until Thursday morning at 10 o'clock.

FENELON FALLS.

The Victoria Railway.

FENELON FALLS, Sept. 17.

Mr. Laidlaw is here to-day, letting contracts for the construction of the Victoria Railway bridge, across the Fenelon Falls River. The work on the line between Lindsay and Kinmount, a distance of thirty miles, is being pushed on rapidly. There are about three hundred men at work in this neighbourhood, and as many more wanted. A party of Engineers are about to start to continue the survey beyond Kinmount in the direction of the Ottawa River, with instructions to proceed as far as possible before winter sets in.

YESTERDAY'S DESPATCHES

ENGLAND.

Death of Baron Fermoy.

LONDON, Sept. 18.—Edmund Burke Roche, Baron Fermoy, is dead.

Personal.

William Bernard MacCabe, the author, is a passenger on the ss. 'Oceanic' from Liverpool for New York.

S S. Disabled.

The steamer 'Braunsweig' spoke the steamer 'Tagus' on the 9th instant. The latter reported cargo shifted, boats, compasses, chart house, bridge and bulwarks washed away. The 'Braunsweig' supplied her with compass and life boat.

SPAIN.

Carlist Reverses.

MADRID, Sept. 18.—Several small engagements between the Republican troops and Carlists have occurred, lately in all of which the latter were defeated. The Carlists made another attack on Cuerica, but were repulsed retreating precipitately. The feeling of confidence and security continues to strengthen in Madrid.

FRANCE.

Prosecution of the French Press.

VERSAILLES, Sept. 18.—At the sitting of the permanent committee of the Assembly last night, M. Tiarar, of the Left, interpellated the Government concerning the continuation of its rigorous treatment of the press. He declared the system intolerable, and unequal in its application. Republican journals alone were suspended. He protested against the recent warning addressed to the *Journal des Debats*.

M. Chaubard La Tour, Minister of the Interior, replied that the Government was determined to oppose the calumnies against the majority of the Assembly and the Government.

Viscount d'Aberville, of the Right, interpellated a protest against the suspicion of *L'Universe*, which act he intimated came from foreign dictation. He pointed out that the Spanish Ambassador was absent when the objectionable article against Serrano was published by *L'Universe*.

The Duke de Broglie emphatically denied there was dictation from any quarter. In answer to another question from Viscount d'Aberville, the Duke stated that nothing had been done in regard to the withdrawal of the man-of-war 'Erenoges' from Civita Vechia. He objected strongly to the exposure of diplomatic business required by interpellations of this character.

UNITED STATES.

Wellsboro Robbery.

ELMIRA, N.Y., Sept. 17.—The waggon in which it is supposed the Wellsboro robbers made their escape has been tracked to this city. Two men have been arrested on suspicion.

Serious Charge.

NEW YORK, Sept. 17.—Mayor Havemeyer gave the press this evening a communication in which it styles Hon. Jno. Kelly a hypocrite, swindling the public of money under the garb of religion and honesty. He presents a tabular statement to prove that while Sheriff Kelly swindled the county out of $88,000. He concludes by saying that Kelly is worse than Tweed or Garvey, because he covered himself with the mantle of piety and was always claiming to be honest.

Bank Robbery—$50,000 Carried off—Five Persons Gagged by the Scoundrels.

CORNING, N. Y., Sept. 18.—Early this morning at Willsboro, Pa., five masked men effected an entrance into the residence of President Robinson, of the National Bank, gagged and bound the occupants, President Robinson, Cashier Robinson, Mrs. Robinson, and Mrs. Smith, daughter of Mrs. Robinson's. They then compelled the cashier to accompany them to the bank and throw open the vault, when they helped themselves to about $50,000, principally in currency. They took from the finger of Mrs. Smith a ring valued at $300. A reward of $5,000 has been offered for their arrest, or $1,000 for either of the gang. It is supposed the robbers have gone to Elmira. The bank has a large surplus, and is solvent.

An Elephant's Revenge.

[Sacramento Record, July, 23.]

Some man, who ill deserves the title, gave the elephant at the menagerie yesterday a bundle of tobacco. Every one who knows anything knows that the "weed" of all other things will rouse this otherwise docile animal to a desperate fit of anger. It did so in this case. The elephant seized the nearest object upon which to wreak his vengeance, and this proved to be the eleven year old son of H. W. Luhrs. The great beast wound his trunk about the boy and squeezed him so tightly as to break his arm between the elbow and the wrist, and to severely bruise his body. Being compelled to release his hold of the boy, the enraged animal, as soon as the lad was dropped, again attempted to seize him, and in the effort came near taking taking the youth's head off. It was on all hands considered more than fortunate that the animal did not cast him down and trample him to death, and also fortunate that the angered brute did not run a-muck in the crowd, as elephants have done when tobacco had been given them.

MID-NIGHT DESPATCHES

ENGLAND.

The SS. "Faraday."

LONDON, Sept. 18.—Nothing has been heard from the SS. 'Faraday,' laying the direct United States cable, since the 9th inst., when she had paid out 574 miles, and was in water over two miles deep. It is supposed her cable broke in the gale of the 10th inst., and the 'Faraday' is trying to recover it.

The Formosa Difficulty.

The latest advices from China and Japan show that the Formosa difficulty has not yet been settled.

Closed.

The Old Catholic Conference at Bonn closed to-day.

Famine in Angora.

A despatch from Constantinople says the Governor of Angora reports that 24,000 people are utterly destitute and will require maintenance throughout the winter.

Arms and Ammunition Seized.

The Coast Guards at the South end of the County of Essex, seized a vessel which had on board 4,800 rifles and 500 cases of cartridges for the Carlists.

FRANCE.

Another Candidate.

PARIS, Sept. 18.—Pietri, formerly Secretary to the Empress Eugenie, has arrived at Ajaccio. It is his intention to offer himself as a candidate for the Council in opposition to Prince Napoleon.

The President

President McMahon has returned to the city.

Sentenced to Death.

Regnier, who was an important witness but fled from Paris at the beginning of the Bazaine court martial, has been condemned to death *in contumaciam* for his traiterous conduct in the negotiations at Metz.

SPAIN

Carlist Doings

BAYONNE, Sept. 18.—The Carlists before Pampeluna have intercepted the water supply of the city and captured herds of cattle destined for the garrison.

PORTUGAL.

Iberian Union.

LISBON, Sept. 18.—Some excitement has been caused by rumours that the new scheme for an Iberian union has been mooted and that it has its origin in the brain of Bismarck. The press has taken the matter up and urges to employ all precautions against foreign designs and influence.

UNITED STATES.

Bradlaugh.

NEW YORK, Sept. 18.—A letter from Durham, England, quotes Charles Bradlaugh as saying: Next year when they ask Parliament for a grant to pay the Prince of Wales' debts, I shall move this country from one end to the other. You will then witness one of the grandest protests that England has offered since the revolutionary times

Paper Mills Burned.

NEWARK, N.J., Sept. 18.—Kingsland's paper mills, between Belleville and Passaic, were burned early this morning with a large stock. Loss, $80,000; partially insured.

Miners' Strike.

ST. LOUIS, Sept. 18.—About 2,500 coal miners, of St. Clair Co., Illinois, are on strike.

Meeting of Mechanics.

LOUISVILLE, Sept. 18.—The International Union of Machinists and Blacksmiths assembled yesterday, and comprised a large number of delegates representing about 50,000 machinists and blacksmiths of the United States and Canada. John Fendbother delivered an address.

Fight with Indians.

NEW YORK, Sept. 18.—A despatch from the camp at Wichita, dated September 14th, states that the supply train for Gen. Mills' expedition, in charge of Major Lymar, 6th Infantry, with one company of Infantry and 20 men of the 6th Cavalry, and commanded by Lieut West, was corralled on Wichita river, Texas, on the 9th inst., by from 400 to 500 Comanches and Kiowas. A severe and bloody fight ensued, which continued five days. The Indians were repulsed with a loss of from 25 to 30 killed. Private Lewis, 5th Infantry, was badly wounded in the left leg. Two men were killed and five wounded. Major Price, 8th Cavalry, defeated a large party of Comanches on the 15th inst., six miles south of this point, killing several of them. Baldwin and three scouts, with despatches for supplies, got through after desperate fighting, killing five and capturing one renegade on the 12th. Six couriers for supplies were surprised by 125 Comanches on the Wichita, and after a gallant defence and the loss of one of their number killed and all but two wounded, repulsed them with the loss of twelve killed.

Wellsboro Bank Robbery.

CORNING N. Y., Sept. 18.—The following bonds belonging to S. Y. Billings, of Teoga County, Pa., were stolen from the First National Bank of Wellsboro, Pa., on the night of the 16th inst. Union Pacific Railway bonds Nos. 12,276, 12,277, 12,278, 11,279, 11,607, 11,608, 11,609, 24,202, 21,327, 24,084. Coupon Bonds of $1,000 each; also Pacific seven's guaranteed by the State of Missouri, Nos. 923, 724, 925, 926, 927, 928, 929, 930, 1,021 1,022

Highway Robbery.

LITTLE ROCK, Sept. 18.—Passengers on the stages between Hot Springs and the Iron Mountain Railway were robbed last night of $2,000 and several watches.

The following instance is given of the precocity of American children: 'The other day in Madison Square, one baby said to another, 'Has you been to the circus?' and received the sad reply, 'No, I once saw a camel race at Cairo, and I don't care for circuses now.'

A contemporary, in its account of a recent marriage in high life, describes how 'the bride walked on the arm of her father.' We should fancy that the bridegroom must have been a little alarmed to see the acrobatic manner in which his future wife takes her walking exercise.

There was excitement in the New York Post Office recently over one of the most curious sample packages ever received in that city. One of the clerks opened a mail bag from Kansas, and immediately fled in horror from a cloud of remarkably lively grasshoppers, who, delighted at their newly acquired freedom, jumped hither and thither in high glee. Several feeble attempts were made to close the bag, but the ferocious aspect of the escaped insects terrified the boldest, and all sat in dismay, until the last grasshopper, the three thousand three hundred and thirty-third, had made his exit. Then a council of war was held. The grasshoppers were evidently there on business; they had not travelled so far for nothing; they were doubtless on a visit and must have been addressed to somebody. The mail bag was emptied, and the box which had contained the grasshoppers found. The order was promptly given to catch the fugitives, and an exciting, almost unparalleled, chase began. The clerks in long, linen dusters, were reckless in the ardor of pursuit. They jumped over boxes, bales and baskets and over one another, but they did not catch any grasshoppers. Those high spirited but voracious insects enjoyed the fun, and when all the clerks were worn out, sat upon their hind legs and sang derisively. Council of war No. 2 was then held, and the following cowardly subterfuge was adopted. The package was sent to its destination with an endorsement as follows: "Received without contents."

THE WAR OF RACES.

Meeting of the Cabinet.

PRESIDENT'S PROCLAMATION.

Surrender of the Insurgents.

POLICE FORCE DISCOMFITED.

WASHINGTON, D.C., Sept. 18.—A special meeting of the Cabinet was held this morning, and after consultation, the following telegram to General Emery was sent by the President through Adjutant General Townsend:—

WAR DEPARTMENT, GENERAL'S OFFICE.
WASHINGTON, Sept. 18th.

To GEN. EMERY, NEW ORLEANS,

I am directed by the President to say that your acts to this date, so far as have been reported and received officially, are approved, except so far as they name Col. Brooke to the command of the City of New Orleans. It would have been better to have named him Commander of the United States forces in that city. The State Government existing at the time of the beginning of the present insurrectionary movement must be recognized as the lawful State Government, until some other State Government can be legally supplied. Upon the surrender of the Insurgents you will inform Gov. Kellogg of the fact and give him the necessary support to re-establish the authority of the State Government. If at the end of the five days given in the proclamation of the 15th inst, there still exists armed resistance to the authority of the State, you will summon a surrender of the Insurgents. If the surrender is not quietly submitted to, it must be enforced at all hazards. This being an insurrection against the State Government of Louisiana to aid in the suppression, of which this Government has been called upon in the forms required by the Constitution and Laws of Congress there under, it is not the province of the United States authorities to make terms with parties engaged in such insurrection.

(Signed,)
E. D. TOWNSEND,
Adjutant General.

NEW ORLEANS, Sept. 18.—The following explains itself:—

Headquarters of the Department of the Gulf,
New Orleans, Sept. 18.

To Hon. WM. P. KELLOGG,
Governor of the State of Louisiana.

Sir,—In obedience to the orders of the President, I have the honour to inform you of the surrender of the Insurgents, lately in arms against the State Government; and to afford you the necessary military support to re-establish the Government.

Very respectfully,
Your obedient servant,
W. H. EMERY,
Col. Brevet Major-General, commanding
NEW ORLEANS, Sept. 18.

Major General Emery, U. S. Commander of the Gulf.

Sir,—I have the honor to acknowledge the receipt of your communication of this date informing me that you are prepared to afford the necessary military support to re-establish the State Government. I will promulgate an Executive Order in the Official Journal to-morrow morning instructing all officers of the State who have been prevented from performing their duties to resume their functions at once. Owing to the disorganization of the police in New Orleans, resulting from the recent conflict of arms the commandant of the Metropolitan Police will not be able to get his officers on their beats until to-morrow. Therefore I must request you to assume the maintenance of peace and order of the city during the coming night.

I have the honor to be,
Very respectfully your obdt. servt.,
WM. P. KELLOGG, Governor.

WASHINGTON, D.C., Sept. 18.—The following despatch was received to-night from Gen. Emery, addressed to Adjutant General Townsend, dated New Orleans today:—I placed Col. Brooke in command of the city as well as in command of the troops; otherwise there would have been anarchy. Governor Kelogg did not and has not yet called on me for support to re-establish the State Government. His chief of police was shot down and next in command also, and the whole force are utterly dispersed and hidden away out of sight. For one of them to have attempted to stand on his beat would have been certain destruction, and even now the State authorities represented by Gov. Kellogg have asked to defer taking charge for the present.

Baggs got up too early one morning, and began to scold the servant girl. His little six years old, who had been listening attentively during the conversation, broke in with, 'Father, stop scolding; you needn't think that Jane's your wife.'

A man who was seen coming out of a Texas newspaper office with a split nose, with one and with one ear, explained to a policeman that he entered the office simply to inquire if the editor was in. 'And he was in,' the victim added, mournfully.

An old woman used to repeat the following couplet:

"Eeh how heehem,
Wae is the woman that tak's a man and canna mak' a breeks."

DIRECTORY OF CHURCH SERVICES.

POND'S EXTRACT

ARTERIAL blood contains the elements of Vitality and Nutrition, which is emptied into the capillary system and, after supplying the required nourishment, is sucked up by the minute branches of the venous system and carried back to the lungs for vital recuperation. By reason of much that is wrong in living and medical treatment, this stream of blood flowing through the body is not always pure or free from inflammatory particles, which may pass off by insensible perspiration through the skin or with the waste matter through the skin or with the waste matter through the intestines, but cold or wet may stop their outward escape, and the internal drainage may become inactive, when the corrupt particles are apt to coagulate, causing pestules, scalp eruptions or running sores, bronchitis &c. They may locate about a nerve, causing neuralgia, and by attaching themselves to the arterial tubes and veins, large or small, and inflaming them by their corrosive influence, cause those intensely painful sensations called Rheumatism. Nature struggles to drench out or dislodge if possible these corrosive particles, and the parts become very red from the congestion or pressure of blood therein. This is called Inflammatoro Rheumatism or Rheumatic Gout. If nature does not succeed in washing out these acremonious atoms she withdraws the undue supply of blood from such parts, ceases to contend, and performs circulation as best she can; however, the passage of the blood through the affected channels still continues painful. This is Chronic Rheumatism, which may exist without its usual antecedant the Acute kind.

The above only true theory points out the correct treatment of this, and other distressing maladies. Dissolve these corrupt particles that have lodged in the afflicted parts, so that in the circulation they may be carried off externally or internally, and having thus removed the cause the effect ceases.

The experiment of twenty years in the London Hospital, England, has demonstrated to the Medical Faculty of Europe, that the only medicine having control over this class of diseases, is the

DIAMOND
RHEUMATIC
CURE!

It is the result of a lifetime of scientific study and is now for the first time offered to the Canadian public, prepared by a careful, experienced and conscientious physician, in obedience to the desire of numberless friends in the profession, in the trade and among the people. Every bottle is warranted to contain the full strength of the medicine in its highest state of purity and development, and is superior to any medicine ever compounded for this terrible complaint.

A BLESSING TO THE POLICE.

MONTREAL, 18th June, 1864.

DEVINS & BOLTON:

GENTLEMEN,—Having been one of the many martyrs of rheumatism that I meet on my every day rounds, I was induced to try the celebrated DIAMOND RHEUMATIC CURE. I had suffered the last five or six weeks the most terrible acute pains across my loins and back, so severe indeed that I could hardly walk with the help of a stick. I commenced the Diamond Remedy—following the directions carefully. Relief came immediately with the first bottle, improved rapidly with the second, completely cured and freed from pain after finishing my fifth small bottle. You are at perfect liberty either to refer to me privately or publicly, as I feel very thankful for the relief, and sympathize with my fellow sufferers from rheumatism.

Yours respectfully,
J. B. CARDINAL,
Sanitary Police Officer,
51 Labelle street.

In simple cases, sometimes one or two doses suffice. In the most chronic cases it is sure to give way by the use of two or three bottles. By this efficient and simple remedy hundreds of dollars are saved to those who can least afford to throw it away, as surely it is by the purchase of useless prescriptions.

This medicine is for sale at all Druggists throughout Canada. If it happens that your Druggist has not got it in stock, ask him to send or it to

NORTHRUP & LYMAN,
Agents for the Province of Ontario,
Scott street, Toronto,
Or to DEVINS & BOLTON,
Notre Dame street, Montreal,
General Agents for the Province of Quebec.
Price $1 per bottle. Large Bottles $2.
May 13, 1874.

THE SIMPLEST, CHEAPEST, AND BEST
Marking Apparatus in the World
For Marking COTTON, SILK,
WOOLLEN, and LINEN, is
PAYSON'S INDELIBLE INK,
Used with a Common Pen without a preparation.

This ink flows perfectly: will write as easily on the finest muslin as ink on paper. It does not dry up, and retains its virtues longer than any other ink known. It will not injure the finest fabric. Payson's ink has endured the test of forty years, and is now the most popular ink in existence and is unrivalled for uniformity, of quality, and durability. It will mark more neatly, quickly and indelibly than any other apparatus. It requires NO PREPARATION of the fabric.

Price, 37 cts. per Bottle.
Sold by all Druggists, Stationers, and Fancy-Goods Dealers.
Sept. 14.

NEW
PLUMBING, GAS & STEAM FITTING SHOP,
No. 54 SUSSEX-ST., OTTAWA.
THE undersigned beg to inform the public that they have opened a shop at No. 54 Sussex-St., where they will be prepared to execute all work in Plumbing, Gas and Steam Fitting, intrusted to their care, at the shortest notice. Being first-class workmen and having a large experience, all parties can rely upon the quality of our work. We are prepared to give our customers the benefit of all new improvements in the lines referred to. All work warranted for one year.
MASON & Co.
Aug. 28, 1874.

IMPORTANT TO LADIES OF FASHION
DRESSMAKING BEING THE ORDER OF THE TIMES.
J. W. RYAN
Has much pleasure in informing his numerous Lady customers and others that MADAME OLLIER, the celebrated Cutter and Fitter of Ladies' Garments, has arrived from her New York and Boston trip, and re-engaged with him to superintend his Dressmaking Department,
No. 234 WELLINGTON STREET
It will be remembered that Madame Ollier came direct from Boston last March to make arrangements with him, but was subsequently induced, by large offers for her valuable services, to go into an old established firm in Centre Town; but finding that she had made a change for the worse, again engaged with him. Madame Ollier's attainments in the art of Scientific Measurements enables her to ensure a perfect fit without putting her customers to the inconvenience of removing a single garment.
Bargains to be had at the Old Stand, 12 RIDEAU-ST. TRY ONCE.
Sept. 9, 1874

GRAND CLEARING SALE
—OF—
BANKRUPT STOCK.
JOSEPH NEELIN
Having purchased the stock of
Boots and Shoes
Of Preston & McLaughlin, at the old stand,
No. 12 RIDEAU STREET,
Will sell at 25 PER CENT. UNDER COST PRICE. The stock is well selected, and consists of Men's, Ladies and Misses' Overshoes, Boy's do, Felt Boots—wool lined, Rubbers of all kinds. A large assortment of Boots and Shoes of every variety and style. Slippers, Moccasins, Buckskin Mitts, &c. Country friends are invited to inspect. A most suitable assortment.
JOS. NEELIN,
[Late Preston & McLaughlin],
No. 12 Rideau-st., Ottawa.

BERKELEY, Sept. 1869.—Gentlemen, I feel it a duty I owe to you to express my gratitude for the great benefit I have derived by taking "Norton's Camomile Pills." I applied to your agent, Mr. Bell, Berkeley, for the above named Pills, for wind in the stomach, from which I suffered excruciating pain for a length of time, having tried nearly every remedy prescribed, but without deriving any benefit at all. After taking two bottles of your valuable pills I was quite restored to my usual state of health. Please give this publicity for the benefit of those who may thus be afflicted.—I am, Sir, yours truly, HENRY ALLPASS.—To the Proprietors of Norton's CAMOMILE PILLS.

T. E. MOORE
Respectfully informs his friends and the public generally that he will shortly open his
New Establishment No. 72 Sparks Street.
which will be fitted on the most improved principle comprising Ladies' Hair Dressing Rooms with separate entrances, a spacious Gentleman's Hair Dressing and Shaving Rooms with
HOT AND COLD BATHS
attached. He will also have an efficient staff to attend to the
SEPARATE DEPARTMENTS
and trusts by giving his best attention to the management, to merit a continuous support and recommendation.
T. E. MOORE,
72 Sparks Street.
Sept. 8, 1874.

T. C. COURSOLLE,
ARCHITECT AND MEASURER,
60 Sparks-st., Ottawa.

Travellers' Guide

Below we publish a directory, made up for the benefit of our citizens, and strangers who may visit the Capital. It is important to all travellers to have, within easy reach, information as to the arrival and departure of the various trains and stages for all places, East, West and South. The public can depend upon the correctness of this table:

St Lawrence & Ottawa Railway.

Leave. 6 a.m., 10.45 a.m., 2.00 p.m., 9.30 p.m.
Arri .30 a.m., 7.45 a.m., 3.50 p.m., 7.00 p.m.

Canada Central Railway.

10.15 a.m., 5.20 p.m.
Ar es, 12.55 p.m., 8.00 p.m.

Ottawa River Navigation Company.

Steamer *Peerless* leaves at 7.30 a.m.
Steamer *Queen Victoria* leaves at 5 p.m.
Saturday afternoon trip—Steamer *Queen Victoria* leaves at 4 p.m. for L'Orignal, &c. [See advt.]

Union Forwarding Company.

Steamer *Jessie Cassels* leaves Aylmer at 7.30 a.m.

Stages.

Aylmer Stages leave the Union, Daniels, and the Russell House every morning at 6 a.m.
Gatineau Stage leaves the Post Office at 6 p.m.
Richmond Stage leaves the Post Office at 1.30 p.m.

British Mails.

Via New York, close every Saturday, Monday and Tuesday, at 8 p.m.
Per Canadian Line, close every Friday at 12.05 p.m.

☞ A supplementary bag for Canadian Steamer will be closed at 1.25 p.m., in which only unregistered letters can be sent.

Commercial.

Electric Oil Thomas' Excelsior Eclectric! — Worth Ten Times its Weight in Gold.

Pain cannot stay where it is used. It is the cheapest medicine ever made. One bottle has cured bronchitis. Fifty cents worth has cured an old standing cough. It positively cures Catarrh, Asthma and Croup. Fifty cents worth has cured crick in the back, and the same quantity lame back of eight years' standing. The following are extracts from a few of the many letters that have been received from different parts of Canada, which, we think, should be sufficient to satisfy the most skeptical. J. Collard, of Sparta, Ontario, writes 'send me 6 dozen Dr. Thomas' Electric Oil, have sold all I had from you and want more now; its cures are truly wonderful.' William Maguire, of Franklin, writes, 'I have sold all the agent left, it acts like a charm—it was slow at first, but takes splendidly now.' H. Cole, of Ions, writes, "Please forward 6 dozen Thomas' Electric Oil, I am nearly run out: nothing equals it. It is highly recommended by those who have used it." J. Bedford, Thamesville, writes—"Send at once a further supply of Electric Oil, I have only one bottle left. I never saw anything sell so well, and give such general satisfaction." J. Thompson, Woodford, writes—"Send me some more Electric Oil. I have sold entirely out. Nothing takes like it." Miller & Reed, Ulverton, P.Q., writes—"The Electric Oil is getting a great reputation here, and is daily called for. Send us a further supply without delay." Lemoyne, Gibb & Co., Buckingham, P. O., write—"Send us one gross Electric Oil. We find it to take well."

Sold by all medicine dealers. Price 5 cents.

S. N. THOMAS, Phelps, N. Y.
and NORTHROP & LYMAN, Toronto, Ontario, Sole Agents for the Dominion.
NOTE—*Electric*—Selected and Electrized

JOB MOSES' FEMALE PILLS.

This well known medicine is no imposition but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, they contain nothing hurtful to the constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics and Whites, those pills will effect a cure when all other means have failed; and although a powerful remedy, do not contain iron calomel, antimony or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully reserved.

For full particulars, obtain free, of the agent a pamphlet, or refer to advertisement.

JOB MOSES, NEW YORK, SOLE PROPRIETOR.

$1.00 and 12½ cents for postage, enclosed to Northop & Lyman, Toronto, Ont., general agents for the Dominion, will insure a bottle, containing over 50 pills return mail.

For sale by all druggists. 25

DR S. JACOBS, ON APHONIA, OR LOSS OF VOICE.—Orange Street, St. John, N. B., 1869.—Mr. Fellows—Sir: I am bound to award the palm of merit to the preparation of Hypophosphites discovered by you. I had occasion to use it myself in a case of Aphonia, which would not yield to regular treatment, and am happy to say it proved to be all that you claimed for it, having acted with expedition and entire satisfaction. I feel called upon to publish the fact, that the profession may avail themselves of a remedy in your "Compound Syrup of Hypophosphites." Yours, very truly, S. Jacobs. 3665

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

The New York Tribune.

THE CONSOLIDATION OF ITALY! so long fragmentary and impotent, into one powerful State, with Rome as its capital the humiliation of France through a series of crushing defeats, ending with the siege and capitulation of her proud and gay metropolis; the expulsion of the Bourbons from the Spanish throne, and the substitution for them of a scion of the most liberal among royal houses; the virtual absorption of the kingdoms of Saxony, Wurtemburg, Bavaria, with Baden, Hesse, the Hanse Towns, &c., under the headship of Prussia, into the triumphant and powerful empire of Germany; and the arming of Russia to re-assert her preponderance in the councils of Europe, or to prosecute her often postponed but never relinquished designs on the great city founded by Constantine, and the vast but decaying and anarchical dominion of the Sultan, all combine to invest with profound interest the everchanging phases of our tidings from the Old World. The *Tribune*, through trusted correspondents stationed at all points in Europe where great movements are in progress or imminent aims to present a complete and instructive panorama of events on that continent, and to mirror the prolonged struggle between middle age Feudalism and Ecclesiasticism on the one hand and Nineteenth-Century scepticism and secularism on the other. Recognising a Divine Providence in all that proceeds and is, it looks hopefully on the great conflict as destined (like our own recent convulsion) to evolve from strife, disaster, and seeming chaos, a fairer and happier future for the toiling masses of mankind.

In our own country, a war upon corruption and rascality in office has been inaugurated in our city, whereby the government of our State has been revolutionised through an initial triumph of Reform which surpasses the most sanguine anticipations. It is morally certain that the movement thus inaugurated cannot, in its progress, be circumscribed to any locality or any party, but that its purifying influence is destined to be felt in every part of the Union, rebuking venality, exposing robbery, wresting power from politicians by trade, and confiding it in those worthiest and fittest to wield it. To this beneficent and vitally needed reform, the *Tribune* will devote its best energies, regardless of personal interests or party predilections, esteeming the choice of honest and faithful men to office as of all New Departures the most essential and auspicious.

TERMS OF THE TRIBUNE.

DAILY TRIBUNE, Mail Subscribers, $10 per annum.

SEMI-WEEKLY TRIBUNE, Mail Subscribers, $4 per annum. Five copies or over, $3 each; an extra copy will be sent for every club of ten sent for at one time; or, if preferred, a copy of "Recollection of a Busy Life." by Mr Greeley.

KEATING PERSIANS INSECT DESTROYING POWDERS.

CAUTION.—The public are requested to observe that all the above preparations bear the Trade Mark as herein shown. Sold by all Chemists and Druggists.

DR. DE JONGH'S LIGHT BROWN COD LIVER OIL. The distinctive characteristics which have gained for Dr. DE JONGH'S Oil so much celebrity, the entire confidence of the most eminent members of the Medical Profession, and notwithstanding the active and unscrupulous opposition of many interested dealers, an unprecedented amount of public patronage may be thus concisely enumerated:—

I.—Its genuineness, purity, and uniform strength are ascertained and guaranteed.

II.—It contains all the active and essential principles that therapeutic experience has found to be the most effective in the operation of the remedy.

III.—It is palatable, easily taken, and creates no nausea.

IV.—It is borne with facility by the most delicate stomach and improves the functions of digestion and assimilation.

V.—Its medicinal properties and remedial action have been found to be immeasurably greater than those of any other kind of Cod Liver Oil.

VI.—From the unequalled rapidity of its curative effects, it is infinitely more economical than any which is offered, even at the lowest price.

CONSUMPTION AND DISEASES OF THE CHEST.

The extraordinary virtues of Dr. DE JONGH'S Light Brown Cod Liver Oil in Pulmonary Consumption may now be considered as fully established. No remedy so rapidly restores the exhausted strength, improves the nutritive functions or produces a more marked and favorable influence on the local malady.

The following high testimony to the efficacy of DR. DE JONGH'S COD LIVER OIL in Consumption is afforded by ALLEN G. CHATTAWAY, Esq., M.R.C.S., L.S.A., of Leominster:—

"Having for some years extensively used DR. DE JONGH'S LIGHT BROWN COD LIVER OIL, both in public and private practice, I have no hesitation in stating its effects are very far superior to those of any other Cod Liver Oil. Nearly four years since, two cases of confirmed Consumption were placed under my care. In both, the lungs were a mass of tubercular deposit, and every possible sound to be heard in phthisis was present. The sole remedy employed was DR. DE JONGH'S LIGHT BROWN COD LIVER OIL; and now the patients are strong and fat; the diseased (abnormal) sounds nearly inaudible; and in the one case (male), hunting, fishing, and shooting, are freely indulged in, the patient expressing himself quite capable of undergoing as much fatigue as any of his fellow sportsmen."

GENERAL DEBILITY AND EMACIATION.

In cases of prostration and emaciation, where the vital forces are reduced, and where life appears to be even at its lowest ebb, the restorative powers of DR. DE JONGH'S LIGHT BROWN COD LIVER OIL are remarkably manifested. By its administration the natural appetite is revived and the functions of digestion and assimilation are improved, reanimated, and regulated; and, when its use has been steadily preserved in, its peculiar tonic and nutritive properties have entirely restored health and strength to the most feeble and deteriorated constitutions.

The actual benefit derived is thus described by ROWLAND DALTON, Esq., M.R.C.S., L.S.A., District Medical Officer at Bury St. Edmunds:—

"In giving my opinion of DR. DE JONGH'S LIGHT BROWN COD LIVER OIL, I have no hesitation in saying that I have not the slightest confidence in any other kind. The effects of DR. DE JONGH'S OIL are sure and most remarkable, especially in that broken down state of health and strength which usually precedes and favors tubercular deposit; and I never recommend any other sort. The Oil I have had from you was for my own use, and it has certainly been the only means of saving my life on two occasions, and even now, when I feel 'out of condition,' I take it, and like it, unmixed with anything, as being the most agreeable way. I could wish that DR. DE JONGH'S OIL would come into general use, and entirely supersede the Pale and other worthless preparations."

SELECT MEDICAL OPINIONS.

From innumerable medical and scientific opinions of the highest character in commendation of DR. DE JONGH'S LIGHT BROWN COD LIVER OIL, the following are selected:—

Sir Henry Marsh, Bart., M.D., Physician in Ordinary to the Queen in Ireland.

"I consider Dr. De Jongh's Light Brown Cod Liver Oil to be a very pure Oil, not likely to create disgust, and a therapeutic agent of great value."

Dr. David Smith, F.R.S., Medical Officer to the Poor Law Board of Great Britain.

"We think it a great advantage that there is one kind of Cod Liver Oil which is universally admitted to be genuine—the Light Brown Oil supplied by Dr. De Jongh. It has long been our practice, when prescribing the Oil, to recommend this kind, since, amidst so much variety and uncertainty, we have confidence in its genuineness." (Extract from "Consumption: its early and Remediable Stages.")

Dr. Barlow, F.R.S., Sen Physician to Guy's Hosp.

"I have frequently recommended persons consulting me to make use of Dr. De Jongh's Cod Liver Oil. I have been well satisfied with its effects, and believe it to be a very pure Oil, well fitted for those cases in which the use that substance is indicated."

Dr. Lawrence, Physician to H.R.H. the Duke of Saxe-Coburg and Gotha.

I invariably prescribe Dr. De Jongh's Cod Liver Oil in preference to any other, feeling assured that I am recommending a genuine article and not a manufactured compound in which the efficacy of this invaluable medicine is destroyed."

Sir Joseph Olliffe, M.D., Physician to the British Embassy at Paris.

"I have frequently prescribed Dr. De Jongh's Light Brown Cod Liver Oil, and I have every reason to be satisfied with its beneficial and salutary effects."

Lankester, F.R.S., Coroner for Central Middlesex.

"I consider that the purity of this Oil is secured in its preparation by the personal attention of so good a Chemist and intelligent a Physician as Dr. De Jongh, who has also written the best Medical Treatise on the Oil with which I am acquainted. Hence, I deem the Cod Liver Oil sold under his guarantee to be preferable to any other kind as regards genuineness and medical efficacy."

THE ROYAL READERS.

A NEW SERIES OF ILLUSTRATED ENGLISH READING-BOOKS.

From Mr. M. Patterson, Rector of the Free Church Training School, Moray House, Edinburgh.

"Thanks for the Specimen of your new Reading Books and Sheets. . . . They are admirable in every particular. Nothing, in my opinion, would more contribute to the improvement of Education than the wide circulation of these books, and the intelligent handling of them."

From A. Montgomerie, L.L.D., Principal of Ladies' College Glasgow.

"I have examined very carefully the 'Printing,' and Nos. I., II., and III. of the *Royal Readers*, and have no hesitation in saying that they are, in my opinion, incomparably the best English Reading-Books that have ever been published. The adaptation of the means to the end in view is perfect."

From T. Morrison, M.A., Rector of the Free Church Normal School, Glasgow.

"I have very carefully examined the *Royal Readers*. The plan is excellent, and the execution, if I may say so, even better. They are out of sight the best series of Reading-books published and should very speedily be widely used. The Illustrations constitutes an admirable features and add much to the value of the *Readers*."

PINE LANDS.

OVER 900,000,000 FEET, well located mainly on the rivers leading into Lake Michigan. The numerous streams and lakes surrounded with pine timber along the line west of Reed City, offer the best of locations for mills, where logs can be held safely free of expense and free from the annoyance of Boom Companies. The railroad direct to East Saginaw and Toledo offers the best source of supplies, and never failing market for Lumber Shingles, etc., which may be delivered anywhere on the line.

FIFTH AND LAST CONCERT

In aid of the

PUBLIC LIBRARY OF KENTUCKY.

DAY FIXED AND A FULL DRAWING ASSURED,

—ON—

MONDAY, 30th NOVEMBER, 1874.

LAST CHANCE FOR

An Easy Fortune.

A postponement of the Fifth Concert of the Public Library of Kentucky has been so generally anticipated, and is so manifestly for the interest of all concerned, that it must meet the approval of all. The day is now absolutely fixed, and there will be no variation from the programme now announced. A sufficient number of tickets had been sold to have enabled us to have had a drawing on the 31st July, but a short postponement was considered preferable to a partial drawing. Let it be borne in mind that

THE FIFTH GIFT CONCERT

Is the last which will ever be given under this charter and by the present management,

That it will positively and unequivocally take place as announced, on

MONDAY, 30TH NOVEMBER,

That the music will be the best the country affords, and that

20,000 CASH GIFTS,

AGGREGATING

$2,500,000

Will be distributed by lot among the ticket-holders.

CLARKE'S
WORLD FAMED BLOOD MIXTURE

Trade Mark—"BLOOD MIXTURE."

The Great Blood Purifier and Restorer

For cleansing and clearing the blood from all impurities, cannot be too highly recommended.

For Scrofula, Scurvy, Skin Diseases and sores of all kinds it is a never-failing and permanent cure.

It cures old sores,
Cures ulcerated sores on the neck,
Cures ulcerated sore legs,
Cures blackheads, or pimples on the face,
Cures scurvy sores,
Cures cancerous ulcers,
Cures blood and skin diseases,
Cures glandular swellings,
Clears the blood from all impure matter,
From whatever cause arising.

As this mixture is pleasant to the taste, and warranted free from anything injurious to the most delicate constitution of either sex, the proprietor solicits sufferers to give it a trial to test its value.

Thousands of testimonials from all parts.

Sold in bottles 2s 3d each, and in cases, containing six times the quantity, 11s each—sufficient to effect a permanent cure in the great majority of long-standing cases, by all chemists and patent medicine vendors throughout the world.

Caution.

GENUINE PANCREATINE
PANCREATIC EMULSION.

The efficacy of these Medicines in the treatment of Indigestion, Bronchitis or Pulmonary Catarrh, Consumption, Wasting, &c., &c., depending entirely upon their purity and strength, Messrs SAVORY & MOORE caution the public against imitations of them which are put forth as possessing the remedial properties of the true preparations, but which are in reality either aqueous compounds, ointments or pomades, without a trace of the Pancreatic principle and entirely unfit and useless as medicines. These imitations are calculated to produce serious disappointment and to injuriously affect the reputation which the genuine Pancreatine and Pancreatic Emulsion have acquired. It is therefore highly important that purchasers examine the label on the bottles for the names and Trade Mark

"SAVORY & MOORE"

The Original and only Manufacturing Chemists to the Queen, H.R.H. the Prince of Wales, H.I.M. Napoleon the Third, His Highness the Khedive of Egypt, &c.,
143 NEW BOND STREET, LONDON.

Extract from an Analytical Report on a Foreign Specimen of a so-called Preparation of Pancreatine.

"This compound resembled an Ointment or Pomade in appearance and consistency, and was flavored with Essential Almond or Prussic Acid. It was strongly alkaline, indicating free alkali, which acting upon the fat, produced the usual saponifying result; the whole forming a granular moist mass of fat, soap, glycerine and water. This ointment was physically and chemically different from the true Pancreatic Emulsion which I have also examined, and which, besides being rich in Pancreatic juice, has the delicate smooth appearance and consistency of fresh cream, is palatable and readily taken."

PROVINCE OF ONTARIO.
PARLIAMENTARY NOTICE.
LEGISLATIVE ASSEMBLY OF ONTARIO,
Toronto, 14th September, 1874.

49. No Petition for any Private Bill is received by the House after the first three weeks of each Session; nor may any Private Bill be presented to the House after the first four weeks of each Session.

51. All applications for Private Bills, properly the subject of legislation by the Legislative Assembly of Ontario within the purview of "The British North America Act, 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road, or Telegraph Line; the construction or improvement of a Harbour, Canal, Lock, Dam, or Slide, or other like work; the granting of a right of Ferry; the incorporation of any particular Trade or Calling, or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community; or for making any amendment of a like nature to any former Act,—shall require a Notice, clearly and distinctly specifying the nature and object of the application, to be published as follows, viz:—

A Notice inserted in the *Ontario Gazette*, and in one newspaper published in the County, or Union of Counties affected, or if their be no paper published therein, then in a newspaper in the next nearest County in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition.

For further particulars see *Ontario Gazette.*

LEA & PERRINS
CELEBRATED
WORCESTERSHIRE SAUCE,
DECLARED BY CONNOISSEURS
TO BE
THE ONLY GOOD SAUCE.

CAUTION AGAINST FRAUD
The success of this most delicious and unrivalled Condiment having caused certain dealers to apply the name of "Worcestershire Sauce" to their own inferior compounds, the Public is hereby informed that the only way to secure the genuine is to
ASK FOR LEA AND PERRINS' SAUCE,
and to see that their names are upon the *wrapper labels, stopper, and bottle.*
Some of the foreign markets having been supplied with a spurious Worcestershire Sauce, upon the wrapper and labels of which the names of Lea and Perrins have been forged, L. and P. give notice that they have furnished their correspondents with power of attorney to take instant proceedings against *Manufacturers and Vendors* of such, or any other imitations by which their right may be infringed.
Ask for LEA & PERRINS' Sauce, and see Name on Wrapper, Label, Bottle, and Stopper.
Wholesale and for Export by the Proprietors Worcester; Crosse and Blackwell, London, &c. &c. and by Grocers and Oilmen universally.

ODDS AND ENDS.

Why might carpenters believe there is no such thing as stone? Because they never saw it.

A gentleman said, when a pretty girl trod on his toes, that he had received the stamp of beauty.

What is the most daring theft that a man can be guilty of? Taking the chair at a public meeting.

Many a rich man, in bringing up his son, seems ambitious of making what Aaron made—a golden calf.

A Small Result.—When the chairman of a teetotal society in council assembled proceeds to 'take the sense of the meeting.'

The wicked flea. 'It ain't so much the biting, if only the plaguey thing wouldn't keep getting up and sitting down all the time.' Exactly.

'Remember,' said a trading Quaker to his son, 'in making thy way in the world, a spoonful of oil will go further than a quart of vinegar.'

A negro insisted that his race was mentioned in the Bible. He said he heard the minister read about how 'Nigger Demus wanted to be born again.'

A recently enriched 'lady,' who wanted to go to a masquerade party as Mary, Queen of Scots, looked though the Bible to ascertain how the character was dressed.

A Suspicious Old Granny.—'My dear child, this telegram is not from George; I've known George's handwriting ever since he was a boy, and this is quite different!'

Could anything be neater than an old darkey's reply to a beautiful young lady whom he offered to lift over the gutter, 'Dor, missus,' said he, 'I's used to lifting barrels of sugar.'

A 'Pointed' Remark.—The following fery poet observaish'n' was made in the Crieff show yerd the other day: 'Deed, an' the best pint of a coo's just a pint o' good, rich, sweet milk.'

'What is heaven's best gift to man?' asked a young lady the other night, smiling sweetly on a pleasant looking young man. 'A horse!' replied the young man, with great prudence?

Washington Irving once alluded to a man of superior pomposity as 'a great man, and, in his own estimation, a man of great weight. When he goes to the West, he thinks the East tips up.'

Somebody says that husbands are to blame for most of the miseries of married life. Very likely. But the proposal to abolish husbands does not meet with much favor from the wives, nevertheless.

It is altogether too absurd to say that 'man is not perfect.' Who is there, who has not met with many who were perfect strangers, and some who were perfect rascals, and not a few who were perfect fools?

The following concise and comprehensive note was sent to an Illinois merchant by a neighboring farmer the other day: 'Send me a trace chain and two hinges—Jane had a baby last night—also, two padlocks.'

Some one, wishing to be witty on a gentleman with a large mouth, asked him 'if he had a long lease of that mouth of his,' when he was good-humoredly answered, No, I have it only from year to year.'

'John,' said a father to his son one day when he caught him shaving the 'down' off his upper lip, 'don't throw your shaving water out where there are any barefooted boys, for they might get their feet pricked.'

NOT LIKELY.—*Tommy:* 'I say, Auntie, the man says the salt water makes your legs strong. Is that true?' *Auntie;* 'Good gracious me! how should I know?' [Yet she had been down to the sea every season for the last twenty years.]

Two physicians, in consultation at the bedside of a patient, disputed as to the nature of the disease. At last one of them ended the discussion by saying, 'Very well, have it your own way now; but the *post-mortem* will show that I am right.' The patient was not much encouraged.

At the Virginia Hotel, recently, a pious old lady, as she was preparing to go to church, was seen to take a considerable quantity of gold from her trunk, wrap it up carefully in her handkerchief, and put it in her pocket. She remarked that it was her habit; that it kept her mind steady at her devotions, for 'where the treasure is there shall the heart be also.'

Not a little amusing are some of the answers given to interrogations. Take the following as a sample: 'In visiting a friend in a town in Dumfriesshire, of whose address I was not acquainted, I made inquiry of an urchin, when he gave me the following directions: 'Gang doun the en' o' this street, then turn doun that ane tae yer richt han', then the ither ane tae the left, rin up it, an' it's a green door.' The place was soon found.

A lad having a letter for a person of the name of Dunn, asked a wag near an eating house if he could tell him where to find Mr. Dunn. The wag told him to go into the eating house, and the first person at the table was the gentleman he was inquiring for. The lad went in; this 'first gentleman' happened to be an Irishman. 'Are you Dunn?' said the boy. 'Done?' replied Pat; 'by my sowl, I am only just begun.'

A good wife should be like three things—which three should she not be like? She should be like a town clock, keep time and regularity; she should not be like a town clock, speak so loud that all the town may hear. She should be like an echo, speak when she is spoken to; she should not be like an echo, always to have the last word. She should be like a snail, keep within her own house; she should not be like a snail, carry all she has upon her back.

A boy, engaged by a Kentish farmer to attend to a few sheep, was told to bring them home when it rained. A few days after a slight shower came on; he went home, and was then told it was not for such a shower, but for an even down pour he was to return. One day it came on a heavy storm of wind and rain, but the youthful shepherd did not return with his charge till the evening, and when asked how he had not returned long before, said, "Because all the rain came slanting."

Many years ago a member of the Wigtown Town Council was visiting an old woman whose son Adam had just returned from Jamaica, bringing home with him a cask of the finest rum. After tea the old lady brought forward a bottle labelled 'Best Whiskey.' 'No, thank you, Mrs S.; I would rather have a glass of Adam's wine," said the councillor, pointing to a crystal bottle containing water, which stood on a small table before the closet where the precious cask was stored. 'Aweel, aweel,' said Mrs. S. apparently not a little stunned at what the councillor had said, and at his pointing to the very place where the treasure lay, 'I see it's a' nonsense tryin' to hide onything frae you bailies. Adam, bring oot yir keg.'

A Stunner.—A short time ago, when a fussy old foggy was grumbling at the cramming in tramway cars, one of his listners put the cap on old Gabby's grievances, 'D'ye ca' this squeezin'?' said Rab M——, 'I wish ye had seen the Govan car ae day I gaed doon. A big Erishman stowed in twal dizen o' chickens without speerin' oor leave.' 'Hoot toot, that's a bouncer, friend,' said old foggy, 'and will require something more than your bare word to make it go down.' 'You saw it, Tam Shaw?' appealing to a neighbour for confirmation. 'I saw a man enter with two baskets of eggs, and you remarked that every egg contained a chicken, if that's what you allude to.' 'Man you must be a notorious ——' The remainder of the sentence was lost by the rumble of the car, and the laughter by the passengers at Rab's stunner.

IT IS TRUE EVERY BIT.—Some people fancy that because they take a paper the publisher ought to print in its columns long pieces of "poetry" or anything else they may wish to lay before the public "free gratis, for nothing," even though the public may have very little interest in the matter. We suppose that when such persons sell an article of their production for $2, they are willing to throw in a dollar's worth of something else, that the purchaser may obtain the full value of his money. We occasionally run against individuals of this stamp, who, when their requests to publish verses cannot be complied with, vent their ill will by ordering their paper discontinued. If they knew what happiness it affords publishers to be rid of this class of customers, they would probably seek some other pretext for their action.—*Watertown Times.*

The New York *Herald* of Sunday tells the following melancholy story:—"As the steamship 'England' (National Line) was about to sail for Liverpool, at four o'clock yesterday evening from pier 47 North River, an incident occurred which illustrates the heartlessness of some persons clothed with a little brief authority. A family, composed of a man and wife and three children, who had taken steerage passages for Liverpool, got on board. One of the children, a fine looking boy of twelve or thirteen years, was paralyzed, and the doctor of the ship ordered him to be at once put ashore again. The mother remonstrated in the most piteous manner saying the boy was born in England, and that they had made a great struggle to make up the price of their passage to the Old Country; but it was all to no purpose, as the Doctor was inexorable in refusing to receive him. The unfortunate boy was removed from the ship, to the great indignation of a large crowd who had congregated on the pier, his mother and sister accompanying him and crying most bitterly. Here the worst feature of the whole affair was made apparent. The heartless father remained on board with the elder boy, and the mother and daughter refused to leave the poor boy who had been forced ashore. As the ship moved out of the dock the screams of the wretched woman were heartrending, and after its departure they remained sitting at the gate of the pier, a picture of utter woe and misery. They are utterly penniless and are a fit subject for charity. An old man on crutches, who had something wrong with his legs, was also refused admittance on board, although he protested his ability to take care of himself."

The celebrated verdict of "Not guilty, but don't do it again," has not been rivalled if not surpassed by the finding of a jury lately at the Nottingham Assizes, England. The case was an indictment for obtaining money under false pretences, the prisoner, Wm. Cowlenshaw, being charged with falsely pretending that he was a certificated schoolmaster. It was proved that he had answered in person an advertisement for a certificated schoolmaster for certain schools at Bingham that he had stated his name to be Woodward, and said that he had been trained at Saltley and had passed ninety-six scholars. In order to have done this he must have been a certificated schoolmaster. He subsequently sent a copy of testimonials, which turned out to be false. He was then engaged as a schoolmaster until March, was paid sums of money amounting to about £24, and entered into an agreement for a permanent schoolmastership at £60 per annum, with half the Government grant and a house and garden. After communication with the Education Department, it turned out that the name of Samuel Woodward assumed by the prisoner was that of a schoolmaster since dead, under whom he had served as an assistant. The case having been summed up to them, the jury, after consideration, said: "We find he has done wrong, but we recommend him to mercy." The judge wished to know whether they found the prisoner guilty or not guilty, and "the jury were understood to say that they found him not guilty, but recommended him to mercy." This verdict was, it appears, received with "some laughter," and his Lordship, after having explained to the jury that a recommendation to mercy was an unnecessary appendage to an acquittal, they retired from the court to consider this explanation. In an incredibly short space of time they had mastered it, and returned into court with a verdict of not guilty.

THE DAILY TIMES can be procured every morning for 15 cents per week. The "Weekly" Friday morning's, in time for English Mail, at E. A. Perry's Elgin St.; Battle Bros., Rideau St., and Russell House; Lacy, Bridge St., Chaudiere; L'Echo Office, Hull; St. Lawrence & Ottawa, and Canada Central Railway Stations.

A BEAUTIFUL HORSE.—There is nothing that can contribute so much to render the horse beautiful and elegant, to improve his condition and make him all that is desirable, as "Darley's Condition Powders and Arabian Heave Remedy," it has been used by many persons who own valuable carriage and other horses with decided success, and so well pleased are they with it that they always keep it on hand in case of emergency; it may be given at all times with perfect safety. Remember the name and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Toronto, Ontario, proprietors for Canada. Sold by all medicine dealers. 3671m

HEART DISEASE.—Halifax, Feb. 10, 1872 Mr. James I. Fellows—Dear Sir: In order that some other sufferer may be benefited, you are at liberty to give this letter publicity. In the winter of 1869, I was taken ill with Disease of the Heart, accompanied by violent palpitation, and from that time gradually became weaker, notwithstanding continued professional attendance, up to a few weeks ago, when your Compound Syrup of Hypophosphites was recommended to me. The use of it during a very short time enabled me to resume my usual work, and now I am as well, fat and hearty as I could wish to be. Yours, very truly, W. Frank Cochran. The heart being a great muscular organ requires vigorous nervous force to sustain it. As Fellow's Hypophosphites restores the nervous element, it will always strengthen the heart weakened through loss of this element.—The Inventor 652

RICH DIGGINGS AND PLENTY OF THEM.—Gov. Bramlette, of Kentucky, displays the richest and most extensive diggings that have been discovered for a long time. These grand diggings are to be found in the Grand Gift Concert of Public Library of Kentucky of which he has charge, and which takes place November 30th, at Louisville, Ky. The four that have already taken place were grand successes, and this, the *last one*, will be the most successful of all, as it is the largest. There will be $2,500,000, in cash, distributed to the ticket holders. There are only 100,000 tickets, in all, with 20,000 prizes, or one prize for every five tickets, and such sums as the following are embraced among the grand prizes: $250,000, $100,000, $50,000, $25,000, $20,000, &c., &c. Application should be made at once to Gov. Bramlette, at Louisville, as there is a rush for tickets from all parts of the country, and from Europe. 3672

The Ottawa Times

MONDAY, SEPTEMBER 21, 1874.

Hon. Adam Crooks, Treasurer of Ontario, is at the Russell House.

The Right Hon. Sir John A. Macdonald has returned home after a sojourn of several weeks at Cacouna. He looks much improved in health.

Mr. George Campbell, a Windsor merchant, has consented to lead the Tory forlorn hope in Essex, in opposition to Mr. McGregor.

Hon. Mr. Mackenzie, Hon. D. A. Macdonald, and Hon. Mr. Geoffrion, it is understood, leave town this morning for the West, intending to be present at the Provincial Fair in Toronto, to be held during the present week.

Mr. Fowler, the managing director and chief promoter of the Huron and Quebec Railway, has called a meeting at the City Hall, this afternoon, for the purpose of submitting his scheme to the leading citizens of Ottawa. His scheme includes a direct line from this city to Toronto, the consummation of which must be devoutly wished for. Mr. Fowler should merit the encouragement of a large attendance at least.

Mr. McTaggart refuses to be sacrificed on the Tory altar of North Huron at the forthcoming local election, and another Tory nomination goes a-begging. A Prog. organ in that quarter tells us that there are "several gentlemen spoken of, "amongst whom are Mr. B. Wilson, of "Wingham, Mr. Hawkins, of Brantford, "Mr. James Perkins, of Howick, any one "of them would make a good representa-"tive, and receive a hearty support from "the party." Mr. Hawkins of Brantford get the hearty support of the party? Well, well, after all he said at Glencoe the other day.

PRESBYTERIAN UNION.

Notice has been given in the Quebec *Official Gazette* that application will be made to the Legislature of that Province at its next session, for an Act to enable the Presbyterian Church of Canada in connection with the Church of Scotland, the Canada Presbyterian Church, the Presbyterian Church of the Maritime Provinces in connection with the Church of Scotland, and the Presbyterian Church of the Lower Provinces, which propose to unite in one Church under the designation of "The Presbyterian Church in Canada," to hold, after the union, the property of the various congregations, collegiate institutions, and the trusts connected with the said churches, in the same manner as now held by the respective churches, and in so far as it lies within the Province of Quebec. And further notice is given by the same medium to the effect that in view of the proposed union of these churches into one organization, the Legislature will at the same time be asked to pass an Act to amend the Act passed in 1874 incorporating the Board for the management of the Ministers', Widows', and Orphans' Fund of the Presbyterian Church of Canada in connection with the Church of Scotland, to enable the Board to continue the administration of its funds after the said union until the General Assembly of the proposed United Church shall have agreed upon a plan for the equitable establishment and administration of an efficient fund for the benefit of the widows and orphans of ministers. Of course similar notices will in due time be inserted in the *Official Gazettes* of the various Provinces. With the passing of the Acts for which application is thus to be made, the much to be desired union will be accomplished in its minutest particular, as it is already in spirit. Then the only hope of the Anti-Unionists will be laid in the dust.

TREASURER ROBERTSON.

Mr. Robertson, the late Provincial Treasurer of Quebec, has caused an official explanation to be offered of the advances of money which have been made to railway contractors without the authority required by law. The organ which has been chosen as the hon. gentleman's medium starts out by saying that the charges have no foundation in truth, which, as will be seen, is scarcely borne out by the statement of the case with which the declaration is followed. We are told that it is quite correct that "requisite" sums have been advanced, and then we are asked with a flourish of trumpets and some show of indignation, whether we believe it at all likely that the Treasurer, who had just returned from Europe to investigate a questionable affair denounced by the friends and foes of the late Administration, would at such a period lend himself to a transaction such as he has been charged with. Now, happily, it is a matter which, according to the following explanation, we do not need to exercise any great amount of credibility concerning, for the organ adds:—"We understand that money "was required, and in accordance with the "order in Council a *pro rata* payment to a "certain amount was made upon the certificate of the Engineers, but not a cent "more than was justly due to the contrac"tractors. The fact of Mr. Shanly not "having accepted the position offered him "as the Government engineer compelled "the late Ministry to use their own judg"ment by accepting *pro tem* the state"ment of the engineers of the different "companies. Mr. Robertson is, we learn, "perfectly satisfied that his action in the "matter will be endorsed at the meeting "of Parliament." This, as will be readily seen, is an admission of the entire charge. The act regulating these payments, as we have already explained in these columns, rightly requires that the certificate of the Government Engineer should be given before any money was paid. But, we are told, Mr. Shanly would have nothing to do with the appointment, and therefore the Government must set the law at defiance. Surely Canada must be a poor, forsaken hole of a place if there is within its bounds only one engineer who is competent, to take charge of the building of a railway on behalf of the Government of one of our most important Provinces. A more transparent excuse it would have been impossible to frame. It is all very well to assert that not a cent more than was justly due was paid. How did the members of the late Government know this to be the fact, and upon what authority does Mr. Robertson's apologist assert it to-day? Upon the authority of the contractors' engineers, and the judgment of the perpetrators of the Land Swap transaction. As regards the first, they may be gentlemen of undoubted ability and honesty—we have no doubt they are; but the Government themselves and the representatives of the people did not think it would be quite safe to leave the certification of work done in their hands, and they voted a handsome salary to a Government Engineer to be employed for that purpose alone. If Parliament had thought the judgment of the members of the Government, founded upon reports furnished by interested contractors, a sufficient guarantee to warrant the expenditure of the large sums of money involved, it is difficult to see why the Act was passed at all, or why the Province should have been asked to pay what would, if Mr. Robertson's organ's statement were worthy of credit, have been an unnecessary sum to a competent man to do the work. Mr. Robertson and his apologist will excuse us if we hesitate to believe that the money, besides being illegally paid, has not also been in excess of the amount due *pro rata* for work completed.

It will be remembered that Mr. Robertson was summoned from Europe because of the grave crisis which had arisen consequent upon the exposure of the "Land Swap." His first duty, and, no doubt, his first performance after landing in Quebec, was to enquire into the charges which in his absence had been preferred against the Government of which he was a member. We are bound to assume that he is a man of at least ordinary good sense, and therefore, that he knew that the question he had to consider was one that involved the honour of his colleagues and the existence of the Administration. He knew that he had to determine, first, whether his colleagues were guilty, and second whether if guilty he should remain with them and share their disgrace, or preserve his own honour by severing himself from them. The latter course was that which he pursued, hence it must be assumed he found that their conduct was such that it could not be defended. He found that his colleagues were so far responsible for the "Land Swap" transaction that they had incurred the forfeiture of public confidence. Then, after having discovered that his colleagues had so dishonoured themselves that he could not longer maintain relations with them, how could Mr. Robertson consummate this railway bonus job? Was it the fact that Mr. Treasurer Robertson, say yesterday, found that his colleagues had dishonoured themselves, and resolved that to-morrow he would resign his connection with them, lest he might be contaminated, yet in the interval he meets those same dishonoured Ministers in Council, and with their assistance consummates another job. If this be true, and all the circumstances certainly point in that direction, the most thoroughly debased member of the Ouimet Cabinet is Mr. Treasurer Robertson.

DOMINION EVANGELICAL ALLIANCE.

We have been favored with a copy of the Provisional programme of the first general Conference under the auspices of the Dominion Evangelical Alliance of Canada to be held in Montreal on the first and five following days of next month. As it is the first Conference of the kind which has ever taken place in Canada, its success cannot fail to be an object of great importance to all religious denominations, signifying, as it does, the approach of a period of close Christian community, and more cordial and effective co-operation on the part of Protestant churches in the great work in which they are individually engaged. That union is strength is a truism as old as it is pertinent, and surely there is no cause in which it is more desirable that Christian men and women should be united than the spread of that knowledge "which maketh wise unto salvation." The array of foes who have pitted themselves against the cause, the success which in some cases has attended their assiduous and insiduous attacks, and the fact that even within the pale of the Church unbelief grows and flourishes, and thus becomes the most dangerous enemy of all—should teach Christians that it is time they had ceased to quarrel about petty matters, and joined hands and hearts together about that which is of more importance than whether the peculiar practices of the Episcopalians, the Presbyterians, the Congregationalists, the Methodists or the Baptists may happen to be most in accord with those which prevailed in the early days of the Christian Church. If they cannot look forward to an early settlement of those minor differences which keep them apart at present, and if they cannot proceed at once to merge themselves into one great united whole, there is at least no reason why they should not take frequent opportunity to meet on that ground which is common to them all, thus paving the way to that greater and more wonderful meeting which will yet certainly come about, when the webs of prejudice shall have been swept from men's minds, and they shall have learned to exercise to its fullest extent that charity and liberality which they are at present forced to content themselves with preaching. To this great end the meetings of the Dominion and all other Evangelical Alliances are, whether intentionally or otherwise, unquestionably directed, and just as unquestionably do they tend to hasten the great day for which so many Christians long but so few will live to witness.

We direct attention, with very great pleasure, to the liberal arrangements made by steamboat and railway companies in favour of such as may desire to attend the forthcoming meeting at Montreal, and have little doubt that a great many will avail themselves of them. There will be present a brilliant array of celebrated scholars and divines, who will each discourse upon subjects fitted to the great occasion which draws them together Besides the leading Protestant ministers of our own Dominion, there will be present the Rev. Donald Fraser, of London, formerly of Montreal, and still more recently of the Free High Church, Inverness, Scotland, who is well known as one of the most eloquent preachers and profound thinkers in the Presbyterian pulpit at the present day; also Dr. Philip Schaffe, of New York, the translator and editor of the Biblical commentary of the Old Testament by Professors Keil and Delitzsch, a work originally published in the German language, and one of great importance to the Biblical scholar. Of course there will be others equally distinguished in their way, but we have no time in the mean time, to particularise. We may close our notice by expressing the hope and the expectation that a good use will be made of the meeting.

CITY AND VICINITY

City Council.—A regular meeting of the City Council will be held this evening.

Protestant Hospital.—Visitors this week are:—Directors, Messrs. J. P. Featherston and Geo May. Clergy—Revds. W. Moore and Mark Ami. Physician—Dr. James W. Grant.

Arrived.—The Hon. Peter Mitchell, ex-Minister of Marine and Fisheries, arrived in this city yesterday morning and is staying at the Russell House.

An Interesting Anniversary.—Yesterday was the 20th anniversary of the battle of Alma. In commemoration of this interesting anniversary, many Crimean heroes in the city wore their medals.

On Monday, September 21st, at the residence of Mr. R. Routh, McDougal's block, Besserer street, Sandy Hill, a seven octave piano, and a large quantity of household furniture and kitchen ware.

The sale which was to take place on Saturday evening, at the sale rooms, Rideau street, is postponed until Tuesday next, at 2 p.m., when a splendid lot of new and second hand furniture will be sold without reserve.

Returned.—Ald. Bronson, accompanied by his bride, arrived on Saturday from Norfolk, Virginia, whither he went on a matrimonial tour. His many friends and acquaintances will be pleased to hear of his safe return under such auspicious circumstances.

Presbyterian Union.—At a meeting of the Congregation of Daly Street Canada Presbyterian Church to take into consideration the Remit on Union as sent down from the General Assembly, the Preamble, Basis of Union and Resolutions were adopted, all voting yea *simpliciter*.

New Postal Car.—The new postal car to which we referred some time ago as being built for the St. Lawrence and Ottawa Railway, has arrived. It ran for the first time on the road on Saturday. It is a splendid piece of work, and will materially facilitate postal arrangements on this line.

New Market.—It is proposed to afford more market facilities to the west end of the city by the purchase of additional property and the erection of a $20,000 market building between Sparks and Queen streets, nearly opposite the old Market Square, in Upper Town. It is also in contemplation to make a public square of the old site between Wellington and Sparks streets.

Have your Clothing Marked.—In a life time it will save you many dollars and afford much gratification. Parson's Indelible Ink is indispensible for this purpose, it needs no preparation, it will not injure the finest fabric and can be used with a common pen. 3677.

Arrivals at the Russel House.—C. H. Fellons, W. Owen Hill, New York; E. R. Yara, Hon. P Mitchell, J P W Dorion, J R Middlemas, H A Lewis, Joseph Poulen, Montreal; C Bernley Bullock, Halifax; C E Raulbrick, Lunenburgh; Mr. and Mrs. Edwards, Griffin City; E A Wilmot, Papineauville; Mr Crooks, Toronto; C W Smith, Manchester, England.

Civic Deputation.—His Worship the Mayor and Aldermen Bangs, Heney, Pratt, McDougall and Birkett have been appointed a civic deputation to attend the annual meeting of the Arts and Agricultural Association, to be held at Toronto on Thursday evening, with a view to securing the Provincial Exhibition at Ottawa next year. God speed their mission. The people of the Capital are prepared right loyally to entertain their friends from the West, and it is to be hoped they will for once consent to partake of their hospitality.

Suicide.—A man named Harris a resident of Long Island, and who is said to have been deranged in mind, was found the other day on the roadside not far from home with his throat cut, apparently a victim to suicide by means of a jack-knife which lay open alongside his somewhat decomposed corpse. He has been missing for some time, and strange to say a Huntley witch predicted the circumstances under which the body would be found some time before was actually discovered.

Pugilistic.—Two men who had been partaking too freely of the cup that cheers, on Saturday last, in a hotel on Clarence Street, were ejected into the street by the landlord, when a set to of rather an unfriendly nature was indulged in. The combat, however, was like the handle of a jug, all one-sided, for one of the parties allowed his head to get into chancery, when the other pummeled away at his mug with intense satisfaction for fully ten minutes. A crowd, for which Clarence Street is always proverbial, gathered around and enjoyed what they seemed to term sport amazingly. The victor having despoiled his enemy, flapped his wings and left the field with a triumphant cock-a-doodle-doo. Shortly after a *peeler* passed down the next block casting a threatening glance at the turbulent crowd.

By Ward Market Improvements.—The old buildings on the recently purchased lots for the extension of the By Ward Market have been rased to the ground, and will be shortly replaced by a handsome brick structure in continuation and harmony to the present market building. It is proposed to make the old site entirely a meat, grain and cattle market, while the new will be set apart for a hay, wood, vegetable and fish market. These improvements are a great desideratum and will help to relieve the public streets of not only vehicles, but also of many square yards of apple barrels that now form such a source of complaint. William street, one of the approaches to the market from the south side, is to be widened fifteen feet, and on the north side a lane thirty-three feet wide will be opened from Clarence to Murray streets. These improvements now in contemplation, and being pushed forward vigorously by the Market Committee, will accomplish a much desired change and confer a boon on the community that it should have enjoyed many years ago.

Effects of Intemperance.—A somewhat middle aged man passing along Sparks street, astride a grey horse, on Saturday night, and affording ample evidence of being on a spree, became a target for any amount of abuse from news boys who are wont to congregate in the vicinity of the Russell House. He would assuredly have fallen into the canal in his endeavours to cross the Sappers' Bridge, had he not been prevented by his ruthless pursuers. He at last fell off in a trench adjoining the corner of Elgin and Sparks street, losing his hat, a bag containing a variety of articles, and several other things. A boy took the horse down to the Police Station, while others brought his effects, and being followed by the owner, both man and beast were taken in charge by the policeman on duty at the Station. The erratic man, hailing from Rochesterville, was accorded an hour in the lock-up to enable him to get sober, after which he was let out, when he departed in peace to his home, a sadder if not a wiser man.

Insulting Ladies.—The habit of insulting ladies, who have perchance to go up or down street unaccompanied, has become an inveterate habit among a number of young blackguards, who stroll the streets each evening, pursuing their vile practices. Detective Hamilton got on the track of one of these customers on Saturday night, and kept in his wake until he had insulted three women one after another on Rideau street. The last being in the nature of an indecent assault upon a lady, the Detective immediately arrested him and took him to the station, where he awaits his trial before the Magistrate this morning. Cases of this kind have become so frequent of late, that ladies unaccompanied have been under the necessity of remaining in the house. This is a deplorable state of affairs, and nothing but the meting out of the severest punishment to offenders will effect or redress this social evil in the community. The police should keep a sharp look out for all these scoundrels, and strictly enforce the law as to lounging on street corners.

Rink Music Hall.—Saturday evening's entertainment was a very enjoyable one, the first piece, the Little Rebel, being especially amusing, and Miss Morton's infantile gyrations and juvenile eccentricities obtaining shouts of approbation. Miss Webster's tender allusions to "one across the sea" tickled the audience amazingly. The singing of Mr. J. F. Tighe was uproariously received and the gentleman certainly possesses great merit as a comic vocalist. The last piece, although of a serious nature was decidedly the best piece of dramatic acting we have ever seen here. Mr. Lindley in a serious part seems somewhat of an anomoly, but we think it a pity he does not essay more parts of a similar type to Farmer Allen. His earnestness and pathos were excellent and blended admirably with the little bits of humour incidental to the part. Miss Webster's Dora is a powerful piece of emotional acting and won the deep sympathies of the audience. Mr. Gregston was also admirable as William Allen. Mr. Albert Roberts as Luke Bloomfield, was a slight inconception of the part, as he was decidedly too low in his dialect, as no farmer of the present date in good circumstances would be so grossly ignorant of his native pronunciation; otherwise he acted the part fairly Miss Gray as Mary Morrison was thoroughly *au fait*. We note with pleasure the engagement of Mr. E. H. Brink. He is an old favorite here and has given us some of the best pieces of acting we have had. He opens in the new play of "Led Astray," and we are sure our Ottawa play-goers will give him a hearty welcome.

Inflamation of the Lungs.—Clifton, N. B., 17th February, 1873. Sir: In behalf of my family, I wish to acknowledge a debt of gratitude I owe Mr. James I. Fellows. My daughter had been ill with inflammation of the Lungs, had raised large quantities of blood and purulent matter, attended with every symptom of Consumption. After obtaining the attention of two eminent physicians, who afforded her no relief, she was persuaded to try Fellows' Syrup of Hypophosphites. Upon taking two bottles we had every reason to believe she would be cured. Her physicians were surprised to find her improvement so rapid, and advised her to continue its use, which she did until her complete recovery. Two years have elapsed, during which time she has neither taken nor required any medicine, enjoying good health, and urges all who are afflicted with any Lung or Chest trouble to use the Hypophosphites without fail. My wife, also having been in bad health for some time, and having had Typhoid Fever in December last, which left her much prostrated, was advised by the physicians to use this remedy to build her up. Before taking half a bottle she found herself much benefited, and still continues to use it. I believe, under kind Providence, Fellows' Compound Syrup of Hypophosphites has been the means of restoring both my wife and daughter, and I hope the afflicted will avail themselves of its use, for although it is widely used. I think its value is not appreciated. Yours truly, Joseph A. Evans. 3677

City Council.

A special meeting of the City Council was held in the City Hall Saturday night to consider the proposed guarantee to the Agricultural and Arts Association of Ontario in the event of the Provincial Exhibition being held in this city next year. His Worship, the Mayor, occupied the chair, and there were present besides Alderman Bangs, Pratt, Christie, Rowe, Birkett, Robertson, Rocque, McDougal, O'Conner, Heney and Waller.

His Worship explained the object of calling the meeting, and observed that the Hon. James Skead, J. M. Currier, M. P., and A. S. Woodburn were present as a deputation from the City Agricultural Society, to represent to the Council the nature of the obligations that they would have to assume should they be successful in obtaining the Provincial Exhibition at Ottawa for the year 1875.

On motion of Ald. Pratt, seconded by Ald. Heney, the Hon. Mr. Skead, President of the Agricultural Society, was requested to address the Council on the object for which the meeting had been called.

Mr. Skead in coming forward stated that the object for which the meeting had been called was pretty well understood, it being the giving a guarantee to the Ontario Agricultural and Arts Association in the event of it being decided to hold the Provincial Exhibition at Ottawa next year. The chances were stronger in favor of such an event than ever before, and they wished to be fully armed with a view to success this time. The Association when at Kingston before lost $11,000 by the operation, and had to draw upon the Reserve fund to make up that deficiency. This action would undoubtedly tell against Kingston in her endeavors as an aspirant with Ottawa for the Exhibition of 1875. On Thursday next the matter would have to be decided as between the two places, and the Council would therefore see the necessity that existed for being armed with the sinews of war to provide all necessary accommodation for so extensive an exhibition. The grounds of the City Agricultural Society would be placed at the disposal of the Council, so that the only expense would be a new hall and perhaps an extension of the present grounds. The Association itself would assume all liability as far as the internal economy of the Exhibition was concerned. Should the decision be in favor of Ottawa, a Committee of the Provincial Association would be at once appointed to confer with a Committee appointed by the Council, and this Joint Committee would proceed at once to effect all necessary arrangements for the holding of the Exhibition. He might state that it would bring to the city for a week, a floating population of at least 25,000 souls, and none could deny that this of itself would more than repay any outlay the city might have to make. Besides this, other advantages would accrue to the city and surrounding country that would contribute materially to its future prosperity. Another feature he might mention was that the people of the Province of Quebec would relinquish their idea of an Exhibition at Montreal next year, should Ottawa be successful, a fact of itself that would give a fresh impetus to the show and most assuredly guarantee its success. The Council had better appoint a delegation to attend the Convention in Toronto to watch the interests of the city, as it would materially strengthen the prospects of the city obtaining the show. If there were any questions to ask he was prepared to answer them. In reply to Ald. Waller, he stated that the sum necessary for a guarantee might range from two to three thousand dollars, and perhaps even more, but no stated amount could be named.

Ald. McDougal did not think five or six thousand dollars too much, when the benefits which would be derived from the Exhibition were taken into consideration.

Mr. J. M. Currier next addressed the Council to the same effect. He had been assured by many representative men that Ottawa was pretty certain of having the Exhibition next year, and he was sure that it was not five or even ten thousand dollars that would stand in the way of so desirable an object. The city was wealthy, and could easily afford the amount, especially when it was well known that fully 30,000 people would visit the city and leave thrice the amount of the outlay behind them. He trusted the Council would act liberally in the matter, and assist in securing the Provincial Exhibition for 1875.

It was then moved by Ald Rowe, seconded by Ald. Birkett; that this Council hereby undertake and agree, should it be decided by the annual meeting of the Board of Arts and Agriculture at Toronto, to hold the next Provincial Exhibition at Ottawa, to provide all necessary accommodation for such exhibition.

In support of his resolution, Alderman Rowe thought it was incumbent upon the Council to take immediate steps towards securing the exhibition in the city next year. He thought the city was fully prepared, and that no exception would be taken to giving a guarantee in support of so desirable an object. He trusted no opposition would be offered to the motion.

The motion was then carried unanimously.

On motion of Ald. Rocque, seconded by Ald. O'Connor, the following delegation was appointed to attend the Convention of the Provincial Association in Toronto, with power to make such arrangements on behalf of this Corporation as may be deemed necessary for the holding of the Provincial Exhibition in Ottawa in 1875:—His Worship the Mayor, Aldermen Bangs, Heney, Pratt, McDougall and Birkett.

NEW CITY HALL.

It having transpired that the contract for the new City Hall had not yet been signed, Ald. Waller moved a resolution to enforce its signature, inasmuch as the moving of the new City Hall from its present site was not any part of said contract, and giving instructions for its removal, at a cost not to exceed one thousand dollars.

A motion to adjourn was then negatived on a division.

The legality of the resolution having been questioned, His Worship the Mayor ruled it out of order at a special meeting.

The Council then adjourned.

Dominion Rifle Association.

ANNUAL MEETING.

Fifth and Last Day.

Firing was commenced on Saturday morning at the 'All Comers Match,' the second stage.

During the afternoon His Excellency the Governor General visited the grounds, and staid until the close of the meeting. There were also several other notabilities present, including Edward Jenkins, M.P. for Dundee, Mr. Johnston, of Belfast, Ireland, and Mr. Latham, of London, England, and Mr. Lake. The following is the result of Saturday's shooting:—

POOL TARGET.

At this range a considerable number of marksmen congregated, among whom may mentioned W. McWright, E. Jenkins M.P., Mr. Johnston, Belfast, Ireland, and several other notabilities. Mr. W. McKay Wright had offered a Silver Cup to be shot for at the "Pool Target." Some thirty gentlemen took part in the competition. The following is the result:—

	Points.
1. Private Throop	10
2. Sergeant Croyones	9
3. Sergeant Sutherland	9

His Excellency the Governor General, who was present during the afternoon, afterwards distributed the prizes to the successful candidates, reminding those winning cups that as soon as their names were inscribed upon them, they would be forwarded.

The annual meeting of the Dominion of Canada Rifle Association was then declared closed.

New Railway Project.

On Saturday afternoon Mr. John Fowler, the Managing Director of the proposed Huron and Quebec Railway met a few friends in the Russell House, and discussed the question. Among those present were His Worship the Mayor, J. M. Currier, M. P., and the Hon. James Skead. Mr. Fowler at some length pointed out the proposed route of the railway, and gave other information which the general public may be not aware of. The object of this Company is to run an independent line of railway laid with steel rails from the Harbor of Goderich, to Orangeville, and also from the City of London, via Stratford, and then to Orangeville direct, having a junction at that town, thence by Air Line to Newmarket, Uxbridge, Lindsay, Peterboro,' Ottawa, Montreal and Quebec, making it shorter to Ottawa by 100 and Quebec by 70 miles, than by the present Grand Trunk route, being a saving of from 7c to 10 cents per bushel on wheat and in freight; also $3 per head on passengers besides six hours of time saved. The proposed Railway project will connect with the Great Western and all the leading lines of the Dominion. Our Reporter has been informed that a considerable portion of the road has been surveyed in the County of Peterboro and for a short distance west, and that substantial bonuses have been promised by the different Municipalities. Toronto has promised $250,000, and other Municipalities have been equally liberal.

The meeting this afternoon should be largely attended.

Police Court.

Before M. O'Gara, P M.

SATURDAY, Sept 19.

P. Cunningham, arrested on a charge of vagrancy, was committed to gaol for one week at hard labor.

Charles McPherson, for being drunk and disorderly, was discharged with a caution, it being his first offence.

William Payne, charged with ill-treating his better half, was rewarded with a week in gaol at hard labor.

Hugh Johnston, charged with the larceny of sundry articles from his employer, Hugh Hinds, confessed to the crime. He attributed his conduct to drunkenness. He was sent down for two days.

Canada "Official Gazette."

Saturday's *Official Gazette* contains the following appointments:

The Hon. Edmund Burke Wood, Chief Justice of the Court of Queen's Bench for the Province of Manitoba, to be Administrator of the Government of said Province, during the absence, in his capacity of a Commissioner to negotiate Treaties with the Indians of the plains, of the Hon. Alexander Morris, the Lieutenant Governor of the said Province.

Sub-Inspector Lief Newbry Fitzroy Crozier, to be Inspector, vice Theodore Simeon Richer, whose services have been dispensed with.

Edmond Frechette, gentleman, to be Sub-Inspector, vice Crozier promoted.

Parliament has again been summoned to meet on Friday, the 13th of October, next, but not then to meet for the despatch of business.

It contains a copy of the Treaty between Her Majesty and the King of the Netherlands for the mutual surrender of fugitive criminals, as well as a copy of the Order in Council for carrying into effect the Treaty.

It is agreed that Her Britannic Majesty and His Majesty the King of the Netherlands shall, on requisition made in their name by their respective Diplomatic Agents, deliver up to each other reciprocally any persons who, being accused or convicted of any of the crimes hereinafter specified, committed within the jurisdiction of the requiring party, shall be found within the territories of the other party.

The crimes for which the extradition is to be granted are the following:

1. Murder (including assassination, parricide, infanticide, and poisoning) or attempt to murder.
2. Manslaughter.
3. Counterfeiting or altering money, or uttering counterfeit or altered money.
4. Forgery, counterfeiting, or altering of public or private documents, including forgery, counterfeiting or altering of paper money, bank notes, or other public securities.
5. Embezzlement or larceny, comprehending any larceny that by the Netherland Penal Law is not considered as "vol. simple."
6. Obtaining money or goods by false pretences, including the crimes designated in the Netherland Penal Law as peculation, abstraction, or misapplication by bailees or public accountants.
7. Crimes against Bankruptcy Law which by the Netherland Penal Law are considered as fraudulent bankruptcy.
8. Perjury.
9. Rape.
10. Arson.

Notice is hereby given that a Lighthouse has been erected by the Government of Canada, on Church Point, on the east side of St. Mary's Bay, Digby County, Nova Scotia. Latitude 44° 19' 55' N. Longitude 66° 7' 35' W. This light is a fixed red light elevated 36 feet above the level of high water, and in clear weather should be seen at a distance of 10 miles from all points of approach. The tower is a square wooden building, 20 feet high, painted white. The illuminating approach is catoptric. The light is for the purpose of marking Church Point, and guiding against the dangers in its vicinity. The light will be put in operation on the 25th September next.

Notice is given that a Lighthouse has been erected on the South Point of White Head Island, Yarmouth County, Nova Scotia. Latitude 43° 37' 40' N. Longitude 65° 52' 4' W. The light is a fixed red light, elevated 115 feet above the level of high water, and in clear weather should be seen at a distance of 12 miles from all points of approach. The tower is a square wooden building, 28 feet high with dwelling attached, painted white. The illuminating apparatus is catoptric. The light is for the purpose of guiding vessels into Argyle Harbour. The light will be put in operation on the 25th September next.

Buffalo, N. Y., Sept. 19.—By a collision at the new Union Depot, East Buffalo, last night, on the Lake Shore and New York Central Railways, Mr. Joe Gorman was instantly killed, and W. Campbell seriously injured. Gorman and Campbell were on their way to Toronto.

The New York *Examiner* says: Every mother and housekeeper must often act as a family physician in the many illnesses and accidents that occur among children and servants. For many of these cases I have used Davis' Pain Killer, and consider it an indispensable article in the medicine box. In diarrhoea, it has been used and effected cures. For cuts and bruises, it is invaluable. 3671

During the coming Winter, will be received by the undersigned until

THE FIRST OF OCTOBER NEXT.

The price should be stated at so much per cord, delivered at the respective School Houses.

L. TASSE, Secretary.

Sept. 14, 1874.

Outfits Free

Employment at your homes or traveling. The work is congenial, honorable, and pays the best of anything ever before offered. Cash wages, samples and complete outfit sent free. Send at once, [illegible], Daniels & Co. [illegible] Notre Dame-st., Montreal.

OFFICES TO BE LET—Suitable for any business, in the Victoria building, Wellington st. Rent exceedingly low. Apply to

B. C. MacCUAIG,
Agent Travellers Ins Co'y., cor. Sparks and Metcalfe-st.

GRAY'S SYRUP OF RED SPRUCE GUM for Coughs, Colds, Hoarseness, Loss of Voice, Bronchial and Throat Affections. Price 25 cents per bottle. Sold at all Drug stores. HENRY R. GRAY, Chemist, Sole Manufacturer, Trade mark secured; Montreal.

$100 TO $250 PER MONTH and expenses sure to Agents everywhere, selling our New Braided White Wire Rope Clothes Lines. Sells readily at every house. Samples free. Address, HUDSON RIVER WIRE CO., 16 King Street west Toronto Ontario.

BY TELEGRAPH

MONTREAL.

MONTREAL, Sept. 19.

The Daniels & Co. Affair—Laprairie Camp—Purchase of Nuns' Island—Unlicensed Sale of Liquor on Steamboats—Markets—A Bathing Enterprise—Competition.

No tidings have yet been received of the whereabouts of Claremont Daniels or Henry Peabody, the partners in the dry-goods firm of Daniels & Co. It is believed that they are in the United States, and do not intend to come back. [illegible] Carroll, an American gentleman, who lent them $550 in June, received a note due in sixty days, on the 15th of August. He could not get a cent from the firm, and put him off with promises. He became very suspicious, and kept a close watch upon their movements, until he became satisfied they were secretly making away with their goods, and accordingly he seized goods for the amount of the debt, which was done on Wednesday. Yesterday the clerks could not get in, and as they have not been paid any wages since August they have authorised legal proceedings on their behalf for about three hundred dollars. The assets of the firm figure up perhaps six hundred dollars. The goods were being packed in boxes on Wednesday. The clerks say that a large amount of money was received by the firm. The principal sufferers they think will be the agents in the country parts, many of whom had such confidence in the concern as to become personally responsible for the delivery of the goods ordered through them. The operations of this company have been skilfully conducted, and under such a cloak of pretended honesty as to make it impossible for the detectives or the press to make any direct accusations against it. From the numbers on tickets *sold it is plain the* Company at the beginning of August had received over $35,000, and, as the game was then only in its infancy, their receipts by this time must be enormous, and no goods seem to have been delivered anywhere.

The military camp at Laprairie is largely attended. The 21st, 50th, 51st, 52nd 60th, and 79 battalions of infantry are present, beside the Huntingdon and Clarenceville troops of cavalry, and the Shefford battery of artillery. The total strength is 1,450 men. Lieut. Col. Fletcher, C.M.G., D.A.G., is in command, assisted by Brigade-Major Hon. M. Aylmer.

A Joint Stock Company has been formed which has obtained the promise of sale of Nun's Island, a short distane above Victoria Bridge, for $565,000. Of this sum $70,000 it is reported, has been paid down. The property, it is probable, will be divided into building lots. A hotel will be erected, a park provided, &c. A bridge will be constructed from the city to the island, and a steam ferry is to ply between the south shore of the island and Laprarie.

Five captains of the steamboats of the Canadian Navigation Company's Line have been fined each fifty dollars and costs, or three months, for the unlicensed sale of liquor on board their respective steamers, the Company having leased privilege of selling on all their steamers to a person whom they supposed had taken out his license.

Coaticooke, Sherbrooke and Richmond are competing for the favour of the Canadian Meat and Produce Company. The establishment will be located where the largest bonus is offered.

The Montreal Telegraph Company have opened an office at St. Remi, Quebec.

Colonel Wiley arrived from Ottawa last night and is staying at the St. Lawrence Hall.

The fall show of the Hochelaga County Agricultural Society will take place on Wednesday on the premises of Mr. W. Darling, Hochelaga. A good show of cattle is expected.

It is proposed to put the old drill shed to good use by converting it into a huge bathing house in summer and using it as a skating rink in winter.

Latest advices from Liverpool report the market for Breadstuffs again heavy, with a declining tendency. The offerings are said to be large, but dealers are holding off anticipating still lower prices. A decline of 1d to 2d was established on the different kinds of wheat.

Instructions have been received by the Collector of Customs at New York, ordering the release of the cargo of tea lately seized on board the ship 'Tamerlane,' on suspicion of fraud. It is understood that several of the tea merchants of this city have a few packages on board.

QUEBEC.

QUEBEC, Sept. 19.

The *Courier* says the *personnel* of the De Boucherville Ministry will be complete on Monday next, and the names of the Ministers then made public. On the other hand it is said that the names of five Ministers will appear in the *Gazette* to-day. The name of Judge Coursol is again mentioned. Mr. Angers has evidently accepted. Mr. Church or Mr. Cross is also mentioned. It would seem as if the *Courier* spoke authoritatively.

KINGSTON.

Attempted Murder — Horticultural Exhibition.

KINGSTON, Sept. 19.

Last night a bold attempt at murder was made at Mrs. Haight's boarding house, Queen's street. On Tuesday night young Haight shot at a burglar who had entered the house, and last night, in revenge, two men visited the house, pryed open his window and fired a revolver at him; he went to the window to attack them, and they kicked and beat him in the body and face, one rib was broken and he was rendered senseless. There is no clue to the assailants.

The Horticultural Exhibition at the Drill Shed yesterday was very fine, an increase being observable in every class over the last show.

TORONTO.

Lights in Bar-Rooms—Fire.

TORONTO, Sept. 19.

A judgment of some importance to tavern-keepers was delivered yesterday in the Court of Queen's Bench. A by-law of the Police Commissioners enacts that no artificial light shall be used in the bar-room of any licensed taven after twelve o'clock at night on Monday, Tuesday, Wednesday, Thursday, or Friday, or after seven on Saturday nights, till six o'clock on the following Monday morning. A conviction against B. Belmont, of the "White Hart," was removed into the Queen's Bench to test the question as to whether the statute gave the Commissioners of Police power to make such an enactment, and the court yesterday quashed the conviction, ruling that the statute did not give the Commissioners of Police such power.

Last evening, about half-past six o'clock, a fire broke out in one of four unfinished one and a half story frame houses on Brunswick Avenue. The engines from Portland and Yonge streets, with a number of firemen under the command of Mr. Ashfield, Chief of the Fire Brigade, were quickly on the spot, but it was found that the nearest place from which a supply of water could be obtained was half a mile distant. About 3,000 feet of hose was laid down, and connected with the tank at the corner of Cambridge street, but owing to the long distance sufficient force could not be brought to bear to any work on the fire, which, consequently, was allowed to burn itself out. The four unfinished houses, with another one and a half story frame house, were consumed, but by the exertions of the firemen and the neighbours a house situated on the north side of the burning cottages was saved. The four unfinished houses were being built by Mr. James Roe, for Mr. J. A. Finney, who had an insurance of $800 on them, against a loss of $1,000; the owner of the fifth cottage, Mr. Wm. Jones, who only moved into the house in the spring, had an insurance of $400 in the Western on his property. Loss estimated at $700. The cause of the fire is unknown.

HAMILTON.

Horticultural Society—Reform Pic-nic.

HAMILTON, Sept. 19.

To-day the Fall exhibition of the Hamilton Horticultural Society is being held, and is a success; the floral display being good, and the attendance large.

The Reform Pic-nic, at Grimsby, came off to-day. About 3,000 persons were present. Hon. M. Mowatt, Hon. McKellar, Capt. Norris, M.P., Mr. Currie, M.P.P., and Mr. Jos. Rymall, M.P.P. were present and addressed the gathering.

The Yacht Regatta is to come off on the 8th of October next.

Within a few weeks past the development of crime in Hamilton, in the way of burglaries and reckless, murderous assaults, has been really startling. The opinion prevails that these burglaries have been committed, not by "professionals" from a distance, but by "boys," that is youths of from 16 to 25 years of age, born and brought up in Hamilton.

On Saturday morning a woman in St. Mary's Ward went out to do a day's washing, and left her husband at home ill from dysentery, being only taken sick yesterday. When she returned at noon to see him, she was almost struck senseless to find him lying dead. No one had been in the house all morning, the poor man not being considered at all fatally ill.

LONDON.

The Camp — Insubordination — The Pulpits—Horse Stealing.

LONDON, Sept. 20.

The camp broke up on Friday, the volunteers receiving their pay and returning home after nine days of field drill.

Four members of the 7th Battalion were given in charge on Friday night for raising an incipient insurrection. One of them escaped while being conveyed to prison by wading through the river.

The English Church pulpits to-day were occupied by the Lord Bishop of Lichfield, Dr. Selwyn formerly of New Zealand, and the Bishop of Nova Scotia; also the Rev. J. B. Richardson, of Halifax.

Chas. Coleman, who was arrested a few nights ago for robbing Conductor Delaney of a large sum of money, on the way from Glencoe to this city, is to be tried on two charges of horse stealing. It is alleged that on July 30th he made off with a horse and buggy belonging to Mr. Hicks, livery stable keeper, of Mitchell; and that he also stole a horse in Whitby. His proper name is said to be Donovan.

ST. CATHERINES.

Low Water in the Canal—Mr. Norris' Address to the Electors—Miscellaneous.

ST. CATHERINES, Sept. 20.

A number of vessels were aground in the canal on Friday, in consequence of low water. In the level between locks six and seven there were four vessels aground, and in the level above that as many more. The late drought has had considerable to do with this state of things. The water is said to be at least two feet lower than it was in the spring. On the long level between Port Colborne and Allanburg the water was four feet ten inches below the water line on Saturday, and there is still further downward tendency.

It is rumoured that Mr. W. A. McCrae, of the Custom-office at Dunnville, is to be superannuated, and will retire from duty. Mr. McCrae has been stationed at Dunnville for about fifteen years.

The Italians who were engaged at work on the new canal have all been discharged.

The address of Mr. Norris' to the electors of this county was published yesterday. In it he promises to support the present Government so long as its policy tends to advance the interests of the country.

WHITBY.

Agricultural Show.

WHITBY, Sept. 19.

The fall exhibition of the County Agricultural Society of South Ontario, held here yesterday, attracted an immense gathering to the town. There could not be less than seven thousand persons on the grounds; the weather which was somewhat threatening in the early morning, turned out most delightful. The show of horses and cattle was surpassingly good, and the number of entries was larger than on any previous occasion. The sheep class, too, showed up well. In grain and roots the display was good; in the latter class astonishingly so, considering the great drought that has prevailed for some time. In the agricultural implement class there was a much larger number of entries than usual, Brown & Patterson, of Whitby, and the Jos. Hall Company of Oshawa, being the principal exhibitors. The floral hall was held in the drill shed. The fine display of fruit attracted much attention. In the horticultural department alone there were upwards of 500 entries. The fair, taken altogether, was one of the best held by the Society, and the officers left nothing undone on their part to give general public satisfaction.

ST. JOHN, N.B.

Gone into Training.

ST. JOHN, N.B., Sept. 18.

Brown, the champion oarsman arrived last night and was welcomed by a large and excited crowd. He has gone into training at McGowan's Hotel, on the Kennebeccasis, preparatory to his race with Morris, of Pittsburg. His two floats were landed to-day, and one was nearly destroyed by some one who got into the shed where they were placed.

AMHERST, N.S.

Contested Election.

AMHERST, Sept. 18.

In Tupper's election case the Judge gave a lengthy written decision to day refusing the postponement. After three hours' deliberation the petitioner presented an application to withdraw. The petition therefore is to be heard October 16th.

SATURDAY'S DESPATCHES.

ENGLAND.

SS. Arrival.

SOUTHAMPTON, Sept. 19.—Arrived—The steamship 'Oder' from New York.

Steamship Collision.

LONDON, Sept. 19.—The steamship 'Kenilworth,' from Philadelphia, collided in the Mersey with the Dublin steamer 'Windsor.' Both vessels were damaged.

UNITED STATES.

Outlawry.

LOUISVILLE, Ky., Sept. 19.—The outlaws in Breathitt County have barricaded themselves in the Court-house at Jackson in large numbers, and all the State military in the city have been notified to be ready to move at a moment's warning.

Moulton—Tilton's Latest Statement

NEW YORK, Sept. 19.—Moulton has not yet been arrested. He is said to be absent. All the papers publish Tilton's latest statement, and express the hope that it may be the last.

Great Fire—Ten Lives Lost.

The Granite mills at Fall River, Mass., were burned this morning. The building contained some 700 men, women and children, many of whom perished in the flames. Others jumped from the windows and were killed. The cries of the women and children were heartrending. It is impossible to get the number killed.

LATER.—The fire is under control. Eight or ten lives were lost.

New Railway Project.

SAN FRANCISCO, Sept. 19.—A company has been organized at Portland, Oregon, to construct a railway from Winnimies to Columbia River at Middle Fork of Willamette River. Capital stock $1,500,000.

SATURDAY'S MID-NIGHT DESPATCHES

ENGLAND.

Royal Visit.

LONDON, Sept. 19.—The Duke of Edinburgh will visit Liverpool on the 28th inst.

S. S. Arrival.

NEW YORK, Sept. 19.—Arrived, 'Mosel' from Bremen.

UNITED STATES.

NEW YORK, Sept. 19.—An *Argus* reporter to-day interviewed Victoria Woodhull who has returned from Europe, as to what she thought of Tilton's last statement. She said Tilton's references to herself were false, cowardly, and mean. His intimation that she had been bought up, as intimated by Beechers' friends, was also false. She says they were false, and Tilton knows it. She says Col. Blood and herself are preparing a statement that will throw light on all affairs; that when Tilton published his statement she was in Europe, and could not reply, but will find himself mistaken.

THE FALL RIVER DISASTER.

Heartrending Details.

NEW YORK, Sept. 19.—A despatch from Fall River, timed 12.30 p.m., says eighteen charred bodies of the killed and a number of the wounded were recovered thus far. Part of the machinery in lower stories will be saved in a damaged condition.

PROVIDENCE, R. I., Sept. 19.—The *Journal's* despatch from Fall River says that twenty-five blackened and charred dead bodies have thus far been recovered from the ruins of the Granite Mill. Many of them are unrecognizable. Jas. Turner is among the killed. The body of Ellen Jane Hunter was identified by a fragment of her dress; her head was burned off.

BOSTON, Sept. 19.—A *Herald* despatch says, about seven o'clock this morning an alarm of fire was sounded, but from causes yet unexplained, the firemen did not reach the vicinity of the fire until the flames had made fearful headway. Finding themselves unable to cope with the flames, the second alarm was struck, and the balance of the department was brought to the spot, but in the meantime the results had been heartrending. As far as can be learned at present in the excitement and turmoil, the fire originated at the tower, in the fourth story, and an attempt was made to extinguish it with pails, but inaffectually. During this endeavour, the door leading to the spool room, which opens south on the lower stair case, had been closed to prevent a panic, but when the flames gained such strength it was impossible to quench them. The escape of the girls had been cut off. The terrified creatures, with the roaring flames on the lower stair case, rushed in a body for the fire escape, but the smoke that poured into the room prevented them from escaping. Many in the meantime had become suffocated, and others preferring death by falling to the ground, sprang recklessly from the windows, and were picked up mangled, bleeding, dead and dying. The flames soon worked their way upwards, and at this writing there is scarcely a possibility of saving a stone of the late beautiful structure. The excitement in the city was terrible.

BOSTON, Sept. 20.—The following is a full account of the fire at Fall River, as given in a special to the *Journal*:—Mills Nos. 1 and 2 of the granite works had been running about 20 minutes when the operatives in No. 1, which is the old mill, were startled with the cry of fire. There were nearly 100 at work, under a male overseer. On the upper floor, the fifth flat, about 130 girls were employed spooling and warping cotton. These were the youngest of the operatives. With the alarm the flames seemed to lop up to this attic, coming from the windows below, and to the terror of all the girls. The fire caught, as stated, in the mule spinningroom, and the north-west end of the mill, and it is stated from friction in a mule head, at once igniting the oil waste about it, and spreading by means of oil on the floor and about each piece of machinery, directly and with great quickness towards the centre tower, the only source of escape for those on the fourth and fifth stories. These were principally fire ladders for the timid creatures dared not run the fire gauntlet of the tower. The overseer of spooling who remained was nearly suffocated and states that the scene in his room was fearful. The poor children crying and begging to be saved, yet wrenched themselves away when taken forcibly to the tower where there still was some chance of escape, as the fire frightened them away from their deliberations at the foot of the roof ladders. They rushed to the windows at the sound gable end, but they were nearly sixty feet from the ground and they dared not jump down. Cotton ropes were then put out for them to slide down; some took this way. No sooner was a rope let down then there was a rush for it from the story below; too many would take hold of the rope, which would part, and all clinging to it would come down in a bunch. While such scenes were being enacted here similar ones were going on in the mules' spinning room. The fire spread with quickness of thought and burnt the ropes, thereby cutting off means of escape, but the operatives had the two ladders of the south gable directly before them, and were urged by the overseers and citizens below to take them. Some, led by others as if they were mad, rushed upon the balcony and dropped or threw themselves from the guards not even looking after the iron ladders. There was ample time for every one to have been saved. The Superintendent, as soon as the alarm was given, rushed to the upper story, and with the overseers did all that was possible to save life, and when means were provided for escape on the construction of the mills, they were rendered unavailable by the heat of the flames. The people on the ground procured beds and mattresses for the poor unfortunates to jump upon, and many threw themselves from the windows, and in every case received fatal or terrible injuries, the distance being about fifty feet. It is said four firemen lost their lives trying to save the girls. At the Central Station twenty-five bodies were cold in death, and other unfortunates had been taken to other hospitals.

The injuries were various of course largely to limbs. Every doctor in the city was summoned at the earliest moment. It is not too high to place the number killed at forty and injured at eighty. The extent of fire is not so great as might be expected. Fire was under control before 8:30. The entire roof has not fallen in, nor had the walls crumbled much, north of the tower the destruction was greater. The roof in that section fell in and took with it the tops of the gable end walls carrying away a portion of the fifth floor with it crumbling some of the side walls and crushing then into the third story thus leaving sound the cording and two weaving floors. The Granite mills have been for some time running on full time and turn out five thousand pieces print cloths per week, and it is supposed that a considerable amount of stock is ruined, either by fire or water and smoke; a large amount of machinery is also rendered useless. The insurance, it is therefore expected, will cover all loss to the property. The following are the dead and wounded as far as ascertained:—Thomas Keavenry, dead; Annie Smith, dead; James Smith, child, limbs burnt to a crisp; Kate and Margaret Murphy, killed; third sister missing; Katie Smith, cut on the head, lips and back; Maggie Dillon, missing; Catharine Beaty and sisters, missing; Kate Donnelly, killed; Julia Coffe, badly hurt; Honora Coffe, missing; Robert Smith, killed; James Newton, killed; Jas. McDonald, killed; Joseph Ramsbottom, ankle sprained; Mary Kelly jumped from the window, brains dashed out; Hannah Livomley, fatally wounded, and Maggie Livomley, her sister, badly hurt about the legs and head; Isabella Moorehead, arm and side badly hurt; Hannah O'Brien, spine hurt, jumped from the 3rd story. She came down a rope to the 3rd story window with other girls, and then dropped to the ground. Mike Devine, missing; a young lad named Porter is fatally injured. His sister was also severely injured, but will recover.

MID-NIGHT DESPATCHES

ENGLAND.

The Algerian Frontier.

LONDON, Sept. 20.—It is rumored that the French Government is endeavoring to induce the Bey of Tunis to rectify the boundary line on the Algerian frontier, and is already erecting forts on the Novater territory. England and Germany, it is also said, will protest against any change.

SPAIN.

Don Carlos.

MADRID, Sept. 20.—The *Iberia* says that the Duke of Parma, Counts Caserte and Bari have had a conference with Don Carlos, at which it was agreed that Don Carlos should be the sole representative of the four Bourbon branches, with presumptive to the French Throne.

GERMANY.

Launch.

KIEL, Sept. 20.—The Emperor William to-day was present at the launch of the new iron-clad, and christened her "Frederick the Great." The president also read a congratulatory address from twenty delegates from Schleswig Holstein.

UNITED STATES.

Suicide.

NIAGARA FALLS, N.Y., Sept 20.—Yesterday morning a gentleman named Silmond, supposed to be a resident of Brantford, Ontario, arrived at Clifton and engaged a hack to take him to the Table Rock. On arriving there he handed the driver an envelope, with an address written on it, and a letter addressed to Mr. Robertson, banker, Brantford, requesting that the letter be mailed, after which he suddenly walked into the rapids and was carried over the Falls. A telegram was immediately sent to the Banker, who replied asking if any one was with him, and ordered the letter to be forwarded by mail. Nothing further has since transpired concerning the cause. The nude corpse of the man was found to day in the whirlpool, somewhat decomposed. It has the sign of the Scotch thistle on the arm in India ink.

The Louisiana Embroglio.

NEW ORLEANS, Sept 20.—It is understood that of the 600 Metropolitans on duty last Monday, only 250 could be mustered to-day to relieve Boylan's men. The Kellogg men offered as a compromise to allow Boylan to remain as Chief of the Police, but he declined the position unless the control of the force was committed to the city. Col. Baldy, of the Metropolitans, have taken charge of the stations. Only a few of the Metropolitans are on the streets to-night.

When Governor Kellogg reached the Executive Office this morning Gen. Brooke approached the Governor and informed him that he was prepared to turn over to him the State House and all records of public property belonging to the State which had come into his possession at the time of the surrender of the Insurgents to his command. Everything, the General said, would be found in the same condition as when it had come into his hands. The Government accepted the transfer and Gen. Brooke immediately retired.

Major Wm. A. Wells and Charles Lathour, jr., who were wounded in the fight on Monday last are dead.

The Revenue Cutter, John a Dix, and two monitors are in the river opposite the city.

NEW ORLEANS, Sept. 19.—Governor Kellogg and such other State Officers as are in the city went down to the State House at 10 a.m. and the military authorities formally delivered the building to them and furnished a military guard. The Secretary of State, the Speaker of the House, the Lieut. Governor, and the Attorney General are somewhere in the north and it is understood that Governor Kellogg has telegraphed for them to come back at once.

WASHINGTON, Sept. 20.—The President this afternoon sent the following telegram to Governor Brown of Tennessee.

EXECUTIVE MANSION, Sept. 19, 1874.

To the Hon. John C. Brown, Governor of Nashville, Tenn.

SIR,—Your despatch of yesterday has been received and referred to the United States District Attorney for the western district of Tennessee, as there is now no official information of his proceedings here. When his report is received, I will give you a more definite answer, or have the Attorney-General do so. I will state, however, that it is very gratifying to know that the State authorities of Tennessee are disposed to suppress and punish a class of lawless acts, so dangerous to life, and so opposed to every political, financial and moral interest of the State, but the constitution makes it my duty to enforce the acts of Congress. If Congress has passed laws giving the United States jurisdiction in such cases as are referred to in your despatch, no special order has been given to the Federal officials in Tennessee further than the circular of Sept. 3 of the Attorney General, which is general in its nature and constitutes instructions to all Marshals and Attorney General, whenever the violations of said may occur. I may add that the State and General Government, as you are well aware, may have jurisdiction over the same offences, as for example, in cases of counterfeiting.

(Signed) U. S. GRANT.

The following was received here this afternoon:—

Headquarters, Department of the Gulf,
NEW ORLEANS, Sept. 19.

To the Adjutant General U.S.A.,
Washingon.

Last night, by request of Governor Kellogg, the city was placed in my charge. All was quiet this morning, and he occupied the State House and resumed his functions to-day.

(Signed) W. K. EMERY,
Col. and Brevet Major-Gen.
Commanding.

Storm and Loss of Life.

CHICAGO, Sept. 19.—Despatches to the *Tribune* from Davenport and Dubuque, Iowa and Rock Island, Ill., give accounts of a terrible storm of rain and wind in those localities last evening, by which a great amount of property was destroyed and damaged at all those places. Houses were unroofed and walls blown down and fences scattered. Whole cellars and basements were filled with water. The whole surrounding country was flooded. At Rock Island, the First Presbyterian Church was nearly destroyed, a portion of the roof being lifted up and dropped through into the basement, carrying with it the organ, pulpit and floor, and on these nearly all the walls fell. It is impossible to estimate the amount of damage, but it will be many thousands of dollars. During the storm a freight train on the Illinois Central Railway, three miles west of Duluth, was with the engine completely wrecked. The engineer, Andrews, and the fireman, Orton, and the brakesman, Allister, were buried beneath the wreck. Orton died soon after. The other two are lying nearly dead.

OWNERS OF HORSES REJOICING.—And why not? and who knows but that their horses are rejoicing as well; who can prove the contrary? But their owners are rejoicing because of the astonishing and almost miraculous effects on their horses of "Darley's Condition Powders and Arabian Heave Remedy." Some were lean and poor having no appetite, others would devour their food ravenously, yet derive no benefit from it; some were hide-bound, with rough and shaggy hair; others had severe colds and coughs; many had the heaves and other complaints peculiar to horses; on all it operated as a charm, the disease or complaint was speedily removed, the appetite and digestive organs corrected, skin softened, and a sleek and shining appearance given to the coat all without any danger to, or preventing the horse being used.—Remember the name, and see that the signature of Hurd & Co. is on the package.—Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealer 1m.

THE FALL RIVER DISASTER.

ORIGIN OF THE FIRE.

HEARTRENDING DETAILS.

List of the Killed and Wounded.

FALL RIVER, Sept. 20.—The late investigation seems to prove that the origin of the fire was in the mule room, having started from an unoiled mule head in charge of a young lad named Samuel Young. As soon as the flames were discovered by the lad he shrieked out fire and made his escape, the spinners in the room tried to check the spread of the flames with boxes and sticks which broke all the threads attached to the machine, and when it was at last found necessary to sound the alarm the fire had gained such strength that they were darting from the tower windows. The upper story or spool was at the time occupied by sixty persons, and the first intimation they received of the danger was a cloud of dense blinding smoke that swept up the stairs and forced them to seek safety in the northern section of the building. A young girl name Katie Smith states that her first announcement of impending danger was received by the girls from the other end of the room rushing to her shrieking and crying. Many of them were so terrified that their cries were terrific. One man made his exit to the roof by means of a scuttle, and with a rope lowered himself over the roof to the ground in safety. When he reached *terra firma* he stated that a man who was just behind him had fallen back. Many of the girls became unconscious from fear ere the fire reached them, and although the number of lost at this time is unknown, it cannot but be great. Some leaped from the windows, preferring to be crushed and maimed than burned. The heartrending sights that met the eyes on all sides were agonising. The wailing of mothers, brothers and sisters over the dead was terrible to hear.

The following is the list of the killed and wounded, which is as correct as could be made at present. It is verified in every particular by the police reports and those compiled by the mill authorities, the only authentic sources of information.

KILLED.

Honora Coffee, Catherine Correll, Margaret Dillon, 19 years old, the body was taken to New Bedford for burial; Albert Fernaly, Gertrude Gray, Mary Healy, Margaret Harrington, Margaret Heally, Ellen J. Hunter, Thomas Keivany, Mary Lasonda, Bridget Murphy, Kate Murphy, Jas. Newton, Fred. Porter, Anna Smith, James Smith, James Turner, Victoria Warner.

Total killed, 20.

REPORTED MISSING BY THE POLICE.

Michael Devine, Catharine Healy, Ellen Healy.

Total missing, 3.

These names are not on the mill books.

WOUNDED.

Mary Borden, (will recover); Julia Coffee, (recovery doubtful); Mary Burns, (will recover); Anna Daley, (doubtful); Thomas Gibson, (slightly injured); Annie Healey, (doubtful); Ellen Healy, (doubtful); Kate Harrington, (will recover); Johannah Healy (doubtful); Ellen Jonas (recovery probable); Isabella Keith (doubtful); Edson Keith (will recover); Bridget Lanergan (will recover); Julia Mahoney (fatal); James Masen (doubtful); Isabella Moorehead (will recover); Nancy Mullen (will recover); Annie O'Brien (recovery probable); Delia Porter (probable.)

The following six will recover:—Joseph Ramsbottom, Mary Rigley, Katie Smith, Hannah Stafford, Annie Sullivan, Katie Solivan.

Margaret Sullivan (doubtful), Hannah Tawney (fatal), Margaret Towney (will recover), Bertha Woodhull (will recover), Wm. Vincombe (will recover).

OTHER THAN MILL HANDS INJURED.

A. J. Biddicomb and A. Cobley, while assisting the mill (will recover).

The following firemen were injured:—Wm. Clark, John Greenatch, Peter Quinn, Wm. Brockhurst.

The total number wounded, 36; fatally, 2; recovery doubtful, 13; will recover, 21.

BRAIN WORRY.—Many of us pray to be delivered from sudden death, and do we not *worry* ourselves into it? And if we do can we not help it? "Men do not really die of Heart Disease as often as it is supposed, but of Apoplexy, or Congestion of the Lungs, so they do not die of brain work, but BRAIN WORRY. Scott died of it, Southney, Swift, Horace Greeley, and probably Thackeray."—*London Times.* As brain worry induces premature dissolution by its depressing influence upon the general nervous health, by eating the brain faster than the waste is repaired, and as the means of sustaining and increasing nervous health is no longer impossible; those who suffer the debilitating influence of mental anguish or extreme mental fatigue, need only resort to the preparation of Hypophosphites invented by Mr. Fellows, as that will conduct the subject safely over the rapids of despair, and create in him strength to grapple with every difficulty. This is no idle assertion but an established fact. 3671

CHRONIC SPLENITIS.—Physician's report of a remarkable case. Gagetown, N. B., July 22, 1868. Mr. James I. Fellows, Chemist. Dear Sir: Allow me to bear testimony in favor of your Compound Syrup of Hypophosphites. I have used it myself for Tuberculosis with marked benefit, and have given it to a great number of my patients, with the same results as I experienced from its use. The most marked was a case which was under my care in March last. This was a patient who had been under treatment nine monts with no beneficial results. When I first saw him he was so feeble that he could not sit up long enough to have his heart and lungs examined. He had a severe Cough, Dyspnœa, Palpitation of the Heart, Impaired Digestion, and consequent general maciation. I put him under treatment, prescribed your Compound Syrup of Hypophosphites, and after using four botetles he was able to attend to his farm, and is now perfectly well. In March he was given up by four physicians respectively; in May he assisted in ploughing eighteen acres of land, and had run up in flesh from 136 to 148 pounds weight. I send you this for the purpose of your making what use you please of it, and wish you all success in your labor for the benefit of suffering humanity. Strongly recommending the use of your Compound Syrup of Hypophosphites to all who suffer in any way from disease or weakness of the Lungs, Bronchial Tubes, or general debility. Believe me, your obedient serva-

NEW CARPETS.

etc.

POND'S EXTRACT

THEY —ARE— DYING —BY— INCHES!

ARTERIAL blood contains the elements of Vitality and Nutrition, which is emptied into the capillary system and, after supplying the required nourishment, is sucked up by the minute branches of the venous system and carried back to the lungs for vital recuperation. By reason of much that is wrong in living and medical treatment, this stream of blood flowing through the body is not always pure or free from inflammatory particles, which may pass off by insensible perspiration through the skin or with the waste matter through the intestines, but cold or wet may stop their outward escape, and the internal drainage may become inactive, when the corrupt particles are apt to coagulate, causing pustules, scalp eruptions or running sores, bronchitis &c. They may locate about a nerve, causing neuralgia, and by attaching themselves to the arterial tubes and veins, large or small, and inflaming them by their corrosive influence, cause those intensely painful sensations called Rheumatism. Nature struggles to drench out or dislodge if possible these corrosive particles, and the parts become very red from the congestion or pressure of blood therein. This is called Inflammatory Rheumatism or Rheumatic Gout. If nature [illegible] not succeed in washing out these acremonious atoms she withdraws the undue supply of blood from such parts, ceases to contend, and performs circulation as best she can; however, the passage of the blood through the affected channels still continues painful. This is Chronic Rheumatism, which may exist without its usual antecedant the Acute kind.

The above only true theory points out the correct treatment of this and other distressing maladies. Dissolve these corrupt particles that have lodged in the afflicted parts, so that in the circulation they may be carried off externally or internally, and having thus removed the cause the effect ceases.

The experiment of twenty years in the London Hospital, England, has demonstrated to the Medical Faculty of Europe, that the only medicine having control over this class of diseases, is the

DIAMOND RHEUMATIC CURE!

It is the result of a lifetime of scientific study and is now for the first time offered to the Canadian public, prepared by a careful, experienced and conscientious physician, in obedience to the desire of numberless friends in the profession, in the trade and among the people. Every bottle is warranted to contain the full strength of the medicine in its highest state of purity and development, and is superior to any medicine ever compounded for this terrible complaint.

A BLESSING TO THE POLICE.

MONTREAL, 18th June, 1864.

DEVINS & BOLTON:

GENTLEMEN,—Having been one of the many martyrs of rheumatism that I meet on my every day rounds, I was induced to try the celebrated DIAMOND RHEUMATIC CURE. I had suffered the last five or six weeks the most terrible acute pains across my loins and back, so severe indeed that I could hardly walk with the help of a stick. I commenced the Diamond Remedy—following the directions carefully. Relief came immediately with the first bottle, improved rapidly with the second, completely cured and freed from pain after finishing my fifth small bottle. You are at perfect liberty either to refer to me privately or publicly, as I feel very thankful for the relief, and sympathise with my fellow sufferers from rheumatism.

Yours respectfully,
J. B. CARDINAL,
Sanitary Police Officer,
51 Labelle street.

In simple cases, sometimes one or two doses suffice. In the most chronic cases it is sure to give way by the use of two or three bottles. By this efficient and simple remedy hundreds of dollars are saved to those who can least afford to throw it away, as surely it is by the purchase of useless prescriptions.

This medicine is for sale at all Druggists throughout Canada. If it happens that your Druggist has not got it in stock, ask him to send for it to

NORTHRUP & LYMAN,
Agents for the Province of Ontario,
Scott street, Toronto.
Or to DEVINS & BOLTON,
Notre Dame street, Montreal,
General Agents for the Province of Quebec.
Price $1 per bottle. Large Bottles $2.

May 1st, 1874.

THE SIMPLEST, CHEAPEST, AND BEST

Marking Apparatus in the World

For Marking COTTON, SILK, WOOLLEN, and LINEN, is

PAYSON'S INDELIBLE INK,

Used with a Common Pen without a preparation.

This ink flows perfectly; will write as easily on the finest muslin as ink on paper. It does not dry up, and retains its virtues longer than any other ink known. It will not injure the finest fabric. Payson's ink has endured the test of forty years, and is now the most popular ink in existence and is unrivalled for uniformity, of quality, and durability. It will mark more neatly, quickly and indelibly than any other apparatus. It requires NO PREPARATION of the fabric.

Price, 37 cts. per Bottle.

Sold by all Druggists, Stationers, and Fancy-Goods Dealers.

Sept. 14.

J. BERMINGHAM,
Auctioneer.

Sept. 16th, 1874.

SPECIAL ANNOUNCEMENT IN REAL ESTATE,

(By J. Bermingham.)

A Great Bargain—Lot No. 56, corner of Preston and Spruce streets, opposite post office, Rochesterville, with a good two story Brick House thereon, nearly new, with all the necessary out offices and a never failing spring, to be sold very cheap and on very easy terms. Come and inquire price, it will astonish you, it will be sold before two weeks, some one will get a big bargain from
J. BERMINGHAM.

West ½ of Lot 27, south Rideau street, with a most comfortable Brick House thereon, rented for $200 per annum, has to be sold for half its value within fourteen days. It would cost nearly double as much to build the house now, as is wanted for house and ground. Such a bargain was never offered before in this city, some one should secure it at once. Apply to
J. BERMINGHAM.

Lots 37, South Maria, and 27 North Gloucester streets, 66 x 99 each, to be sold very cheap, and on very easy terms, a small sum only required down, balance in ten annual payments. There is a big speculation in this. Who will come first and purchase? One thousand dollars can be made on it before long. Apply to
J. BERMINGHAM.

A Lot 54 x 99, about 100 yards from Cumming's Bridge, outside City limits, thereby avoiding city taxation, very cheap, only $5 down, balance as may be agreed on. Apply at once to
J. BERMINGHAM,
York Street.

PLUMBING, GAS & STEAM FITTING SHOP,

No. 54 SUSSEX-ST., OTTAWA.

THE undersigned beg to inform the public that they have opened a shop at No. 54 Sussex-St., where they will be prepared to execute all work in Plumbing, Gas and Steam Fitting, intrusted to their care, at the shortest notice. Being first-class workmen, and having a large experience, all parties can rely upon the quality of our work. We are prepared to give our customers the benefit of all new improvements in the lines referred to. All work warranted for one year.

MASON & Co.

Aug. 28, 1874.

IMPORTANT TO LADIES OF FASHION

DRESSMAKING BEING THE ORDER OF THE TIMES.

J. W. RYAN

Has much pleasure in informing his numerous Lady customers and others that MADAME OLLIER, the celebrated Cutter and Fitter of Ladies' Garments, has arrived from her New York and Boston trip, and re-engaged with him to superintend his Dressmaking Department,

No. 234 WELLINGTON STREET

It will be remembered that Madame Ollier came direct from Boston last March to make arrangements with him, but was subsequently induced, by large offers for her valuable services, to go into an old established firm in Centre Town; but finding that she had made a change for the worse, again engaged with him. Madame Ollier's attainments in the art of Scientific Measurements enables her to ensure a perfect fit without putting her customers to the inconvenience of removing a single garment.

Bargains to be had at the Old Stand, 15 RIDEAU-ST. TRY ONCE.

Sept. 9, 1874.

GRAND CLEARING SALE

—OF—

BANKRUPT STOCK.

A large assortment of Boots and Shoes of every variety and style. Slippers, Moccasins, Buckskin Mitts, &c. Country friends are invited to inspect. A most suitable assortment.

JOS. NEELIN,
[Late Preston & McLaughlin],
an 1, 12 Rideau-st., Ottawa.

BERKELEY, Sept. 1869.—Gentlemen, I feel it a duty I owe to you to express my gratitude for the great benefit I have derived by taking "Norton's Camomile Pills." I applied to your agent, Mr. Bell, Berkeley, for the above named Pills, for wind in the stomach, from which I suffered excruciating pain for a length of time, having tried nearly every remedy prescribed, but without deriving any benefit at all. After taking two bottles of your valuable pills I was quite restored to my usual state of health. Please give this publicity for the benefit of those who may thus be afflicted.—I am, Sir, yours truly, HENRY ALLPASS.—To the Proprietors of NORTON'S CAMOMILE PILLS.

T. E. MOORE

Respectfully informs his friends and the public generally that he will shortly open his

New Establishment No. 72 Sparks Street.

which will be fitted on the most improved principle comprising Ladies' Hair Dressing Rooms with separate entrances, a spacious Gentleman's Hair Dressing and Shaving Rooms with

HOT AND COLD BATHS

attached. He will also have an efficient staff to attend to the

SEPARATE DEPARTMENTS

and trusts by giving his best attention to the management, to merit a continuous support and recommendation.

Electric Oil Thomas' Excelsior Eclectric! — Worth Ten Times in Weight in Gold.

Pain cannot stay where it is used. It is the cheapest medicine ever made. One bottle has cured bronchitis. Fifty cents worth has cured an old standing cough. It positively cures Catarrh, Asthma and Croup. Fifty cents worth has cured crick in the back, and the same quantity lame back of eight years' standing. The following are extracts from a few of the many letters that have been received from different parts of Canada, which, we think, should be sufficient to satisfy the most skeptical. J. Collard, of Sparts, Ontario, writes 'send me 6 dozen Dr. Thomas' Electric Oil, have sold all I had from you and want more now; its cures are truly wonderful.' William Maguire, of Franklin, writes, 'I have sold all the agent left, it acts like a charm—it was slow at first, but takes spendidly now." H. Cole, of Iona, writes, "Please forward 6 dozen Thomas' Electric Oil, I am nearly run out: nothing equals it. It is highly recommended by those who have used it." J. Bedford, Thamesville, writes—"Send at once a further supply of Electric Oil, I have only one bottle left. I never saw anything sell so well, and give such general satisfaction." J. Thompson, Woodford, writes—"Send me some more Electric Oil. I have sold entirely out. Nothing takes like it." Miller & Reed, Ulverton, P.Q., writes—"The Electric Oil is getting a great reputation here, and is daily called for. Send us a further supply without delay." Lemoyne, Gibb & Co., Buckingham, P. O., write—"Send us one gros Electric Oil. We find it to take well.

Sold by all medicine dealers. Price 5 cents.

S. N. THOMAS, Phelps, N. Y.
and NORTHROP & LYMAN, Toronto, Ontario, Sole Agents for the Dominion.

NOTE—*Electric*—Selected and Electrized

JOB MOSES' FEMALE PILLS.

This well known medicine is no imposition but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, they contain nothing hurtful to the constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics and Whites, those pills will effect a cure when all other means have failed; and although a powerful remedy, do not contain iron calomel, antimony or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully reserved.

For full particulars, obtain free, of the agent a pamphlet, or refer to advertisement.

JOB MOSES, NEW YORK, SOLE PROPRIETOR.

$1.00 and 12½ cents for postage, enclosed to Northop & Lyman, Toronto, Ont., general agents for the Dominion, will insure a bottle, containing over 50 pills return mail.

For sale by all druggists. 25

DR. S. JACOBS, ON APHONIA, OR LOSS OF VOICE.—Orange Street, St. John, N. B., 1869.—Mr. Fellows—Sir: I am bound to award the palm of merit to the preparation of Hypophosphites discovered by you. I had occasion to use it myself in a case of Aphonia, which would not yield to regular treatment, and am happy to say it proved to be all that you claimed for it, having acted with expedition and entire satisfaction. I feel called upon to publish the fact, that the profession may avail themselves of a remedy in your "Compound Syrup of Hypophosphites.' Yours, very truly, S. Jacobs. 3665

VINEGAR BITTERS

PURELY VEGETABLE FREE FROM ALCOHOL
DR. WALKER'S CALIFORNIA
EUREKA
VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

March 17, 1874. 2518-12m

The New York Tribune.

THE CONSOLIDATION OF ITALY! so long fragmentary and impotent, into one powerful State, with Rome as its capital the humiliation of France through a series of crushing defeats, ending with the siege and capitulation of her proud and gay metropolis; the expulsion of the Bourbons from the Spanish throne, and the substitution for them of a scion of the most liberal among royal houses; the virtual absorption of the kingdoms of Saxony, Wurtemburg, Bavaria, with Baden, Hesse, the Hanse Towns, &c., under the headship of Prussia, into the triumphant and powerful empire of Germany; and the arming of Russia to re-assert her preponderance in the councils of Europe, or to prosecute her often postponed but never relinquished designs on the great city founded by Constantine, and the vast but decaying and anarchical dominion of the Sultan, all combine to invest with profound interest the evereh nging phases of our tidings from the Old World. The *Tribune*, through trusted correspondents stationed at all points in Europe where great movements are in progress or imminent aims to present a complete and instructive panorama of events on that continent, and to mirror the prolonged struggle between middle age Feudalism and Ecclesiasticism on the one hand and Nineteenth-Century scepticism and secularism on the other. Recognising a Divine Providence in all that proceeds and is, it looks hopefully on the great conflict as destined (like our own recent convulsion) to evolve from strife, disaster, and seeming chaos, a fairer and happier future for the toiling masses of mankind.

In our own country, a war upon corruption and rascality in office has been inaugurated in our city, whereby the government of our State has been revolutionised through an initial triumph of Reform which surpasses the most sanguine anticipations. It is morally certain that the movement thus inaugurated cannot, in its progress, be circumscribed to any locality or any party, but that its purifying influence is destined to be felt in every part of the Union, rebuking venality, exposing robbery, wresting power from politicians by trade, and confiding it in those worthiest and fittest to wield it. To this beneficent and vitally needed reform, the *Tribune* will devote its best energies, regardless of personal interests or party predilections, esteeming the choice of honest and faithful men to office as of all New Departures the most essential and auspicious.

TERMS OF THE TRIBUNE.

DAILY TRIBUNE, Mail Subscribers, $10 per annum.

SEMI-WEEKLY TRIBUNE, Mail Subscribers, $4 per annum. Five copies or over, $3 each; an extra copy will be sent for every club of ten sent for at one time; or, if preferred, a copy of "Recollection a Busy Life," by Mr Greeley.

KEATING PERSIANS INSECT DESTROYING POWDERS.

This Powder is quite harmless to animals, but unrivalled in destroying Fleas, Bugs, Emmet Flies, Cockroaches, Beetles, Gnats, Mosquitoes Moths in Furs, and every other species of insects in all stages of metamorphosis. Sold in packets tins, and bottles of various sizes.

CAUTION.—The public are requested to observe that all the above preparations bear the Trade Mark as herein shown. Sold by all Chemists and Druggists.

DR. DE JONGH'S LIGHT BROWN COD LIVER OIL. The distinctive character of which have gained for Dr. DE JONGH'S Oil so much celebrity, the entire confidence of the most eminent members of the Medical Profession, and notwithstanding the active and unscrupulous opposition of many interested dealers, an unprecedented amount of public patronage may be thus concisely enumerated:—

I.—Its genuineness, purity, and uniform strength are ascertained and guaranteed.

II.—It contains all the active and essential principles that therapeutic experience has found to be the most effective in the operation of the remedy.

III.—It is palatable, easily taken, and creates no nausea.

IV.—It is borne with facility by the most delicate stomach and improves the functions of digestion and assimilation.

V.—Its medicinal properties and remedial action have been found to be immeasurably greater than those of any other kind of Cod Liver Oil.

VI.—From the unequalled rapidity of its curative effects, it is infinitely more economical than any which is offered, even at the lowest price.

CONSUMPTION AND DISEASES OF THE CHEST.

The extraordinary virtues of Dr. DE JONGH'S Light Brown Cod Liver Oil in Pulmonary Consumption may now be considered as fully established. No remedy so rapidly restores the exhausted strength, improves the nutritive functions or produces a more marked and favorable influence on the local malady.

The following high testimony to the efficacy of Dr. DE JONGH'S COD LIVER OIL in Consumption is afforded by ALLEN G. CHATTAWAY, Esq., M.R.C.S., L.S.A., of Leominster:—

"Having for some years extensively used Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL, both in public and private practice, I have no hesitation in stating its effects are very far superior to those of any other Cod Liver Oil. Nearly four years since, two cases of confirmed Consumption were placed under my care. In both, the lungs were a mass of tubercular deposit, and every possible sound to be heard in phthisis was present. The sole remedy employed was Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL; and now the patients are strong and fat; the diseased (abnormal) sounds nearly inaudible; and in the one case (male), hunting, fishing, and shooting, are freely indulged in, the patient expressing himself quite capable of undergoing as much fatigue as any of his fellow sportsmen."

GENERAL DEBILITY AND EMACIATION.

In cases of prostration and emaciation, where the vital forces are reduced, and where life appears to be even at its lowest ebb, the restorative powers of Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL are remarkably manifested. By its administration the natural appetite is revived, and the functions of digestion and assimilation are improved, reanimated, and regulated; and, when its use has been steadily preserved in, its peculiar tonic and nutritive properties have entirely restored health and strength to the most feeble and deteriorated constitutions.

The actual benefit derived is thus described by ROWLAND DALTON, Esq., M.R.C.S., L.S.A., District Medical Officer at Bury St. Edmunds:—

"In giving my opinion of DR. DE JONGH'S LIGHT BROWN COD LIVER OIL, I have no hesitation in saying that I have not the slightest confidence in any other kind. The effects of Dr. DE JONGH'S OIL are sure and most remarkable, especially in that broken down state of health and strength which usually precedes and favors tubercular deposit; and I never recommend any other sort. The Oil I have had from you was for my own use, and it has certainly been the only means of saving my life on two occasions, and even now, when I feel 'out of condition,' I take it, and like it, unmixed with anything, as being the most agreeable way. I could wish that Dr. DE JONGH'S OIL would come into general use, and entirely supersede the Pale and other worthless preparations."

SELECT MEDICAL OPINIONS.

From innumerable medical and scientific opinions of the highest character in commendation of DR. DE JONGH'S LIGHT BROWN COD LIVER OIL, the following are selected:—

Sir Henry Marsh, Bart., M.D., Physician in Ordinary to the Queen in Ireland.

"I consider Dr. De Jongh's Light Brown Cod Liver Oil to be a very pure Oil, not likely to create disgust, and a therapeutic agent of great value."

Dr. David Smith, F.R.S., Medical Officer to the Poor Law Board of Great Britain.

"We think it a great advantage that there is one kind of Cod Liver Oil which is universally admitted to be genuine—the Light Brown Oil supplied by Dr. De Jongh. It has long been our practice, when prescribing the Oil, to recommend this kind, since, amidst so much variety and uncertainty, we have confidence in its genuineness." (Extract from "Consumption. its early and Remediable Stages.")

Dr. Barlow, F.R.S., Sen Physician to Guy's Hosp.

"I have frequently recommended persons consulting me to make use of Dr. De Jongh's Cod Liver Oil. I have been well satisfied with its effects, and believe it be a very pure Oil, well fitted for those cases in in which the use that substance is indicated."

Dr. Lawrence, Physician to H.R.H. the Duke of Saxe-Coburg and Gotha.

I invariably prescribe Dr. De Jongh's Cod Liver Oil in preference to any other, feeling assured that I am recommending a genuine article and not a manufactured compound in which the efficacy of this invaluable medicine is destroyed."

Sir Joseph Olliffe, M.D., Physician to the British Embassy at Paris.

"I have frequently prescribed Dr. De Jongh's Light Brown Cod Liver Oil, and I have every reason to be satisfied with its beneficial and salutary effects."

Lankester, F.R.S., Coroner for Central Middlesex.

"I consider that the purity of this Oil is secured in its preparation by the personal attention of so good a Chemist and intelligent a Physician as Dr. De Jongh, who has also written the best Medical Treatise on the Oil with which I am acquainted. Hence, I deem the Cod Liver Oil sold under his guarantee to be preferable to any other kind as regards genuineness and medical efficacy."

THE ROYAL READERS.

A NEW SERIES OF ILLUSTRATED ENGLISH READING-BOOKS.

From Mr. M. Patterson, Rector of the Free Church Training School; Moray House, Edinburgh.

"Thanks for the Specimen of your new Reading Books and Sheets. . . . They are admirable in every particular. Nothing, in my opinion, would more contribute to the improvement of Education than the wide circulation of these books, and the intelligent handling of them."

From A. Montgomerie, LL.D., Principal of Ladies' College Glasgow.

"I have examined very carefully the 'Printing,' and Nos. I., II., and III. of the *Royal Readers*, and have no hesitation in saying that they are, in my opinion, incomparably the best English Reading-Books that have ever been published. The adaptation of the means to the end in view is perfect.

From T. Morrison, M.A., Rector of the Free Church Normal School, Glasgow.

"I have very carefully examined the *Royal Readers*. The plan is excellent, and the execution, if I may say so, even better. They are out of sight the best series of Reading-books published and should very speedily be widely used. The Illustrations constitutes an admirable features and add much to the value of the *Readers*

PINE LANDS.

OVER 900,000,000 FEET, well located mainly on the rivers leading into Lake Michigan. The numerous streams and lakes surrounded with pine timber along the line west of Reed City, offer the best of locations for mills, where logs can be held safely free of expense and free from the annoyance of Boom Companies. The railroad direct to East Saginaw and Toledo offers the best source of supplies, and never failing market for Lumber Shingles, etc., which may be delivered anywhere on the line.

FIFTH AND LAST CONCERT

In aid of the

PUBLIC LIBRARY OF KENTUCKY.

DAY FIXED AND A FULL DRAWING ASSURED,

—ON—

MONDAY, 30th NOVEMBER, 1874.

LAST CHANCE FOR

An Easy Fortune.

A postponement of the Fifth Concert of the Public Library of Kentucky has been so generally anticipated, and is so manifestly for the interest of all concerned, that it must meet the approval of all. The day is now absolutely fixed, and there will be no variation from the programme now announced. A sufficient number of tickets had been sold to have enabled us to have had a large drawing on the 31st July, but a short postponement was considered preferable to a partial drawing. Let it be borne in mind that

THE FIFTH GIFT CONCERT

Is the last which will ever be given under this charter and by the present managment,

That it will positively and unequivocally take place as announced, on

MONDAY, 30TH NOVEMBER,

That the music will be the best the country affords, and that

20,000 CASH GIFTS,

AGGREGATING

$2,500,000

Will be distributed by lot among the ticket-holders.

CLARKE'S
WORLD FAMED BLOOD MIXTURE

Trade Mark—"BLOOD MIXTURE."

The Great Blood Purifier and Restorer

For cleansing and clearing the blood from all impurities, cannot be too highly recommended.

For Scrofula, Scurvy, Skin Diseases and sores of all kinds it is a never-failing and permanent cure.

It cures old sores,
Cures ulcerated sores on the neck,
Cures ulcerated sore legs,
Cures blackheads, or pimples on the face,
Cures scurvy sores,
Cures cancerous ulcers,
Cures blood and skin diseases,
Cures glandular swellings,
Clears the blood from all impure matter,
From whatever cause arising.

As this mixture is pleasant to the taste, and warranted free from anything injurious to the most delicate constitution of either sex, the proprietor solicits sufferers to give it a trial to test its value.

Thousands of testimonials from all parts.

Sold in bottles 2s 3d each, and in cases, containing six times the quantity, 11s each—sufficient to effect a permanent cure in the great majority of long-standing cases, by all chemists and patent medicine vendors throughout the world.

Caution.

GENUINE PANCREATIN
PANREATIC EMULSION.

The efficacy of these Medicines in the treatment of Indigestion, Bronchitis Pulmonary Catarrh, Consumption, Wast ing, &c., &c., depending entirely upon their purity and strength, Messrs SAVORY & MOORE caution the against imitations of them w forth as possessing the ran and proper ties of the true preparations, but which are in reality either pounds, ointments or pomades, without trace of the Pancreatic principle and tirely unfit and useless as These imitations are calculated to serious disappointment and to affect the reputation which the Pancreatine and Pancreatic have acquired. It is therefore portant that purchasers examine on the bottles for the names and Mark

"SAVORY & MOORE."

The Original and only Manufac Chemists to the Queen, H.R.H. Prince of Wales, H.I.M. Napole the Third, His Highness the Khedive of Egypt, &c.,

143 NEW BOND STREET, LOND

Extract from an Analytical Report a Foreign Specimen of a so-called ration of Pancreatine.

"This compound resembled ment or Pomade in appearance sistency, and was flavored with Almond or Prussic Acid. It was alkaline, indicating free alkali, ing upon the fat, produced the nifying result; the whole forming lar moist mass of fat, soap, glycerine water. This ointment was physically chemically different from the true creatic Emulsion which I have also ined, and which, besides being Pancreatic juice, has the delicate appearance and consistency of cream, is palatable and readily taken.

PROVINCE OF ONTARIO

PARLIAMENTARY NOTICE.

LEGISLATIVE ASSEMBLY OF ONTARIO,
Toronto, 14th September, 1874.

49. No Petition for any Private Bill is received by the House after the first three weeks of each Session; nor may any Private Bill be presented to the House after the first four weeks of each Session.

51. All applications for Private Bills, properly the subject of legislation by the Legislative Assembly of Ontario within the purview of "The British North America Act, 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road, or Telegraph Line; the construction or improvement of a Harbour, Canal, Lock, Dam, or Slide, or other like work; the granting of a right of Ferry; the incorporation of any particular Trade or Calling, or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community; or for making any amendment of a like nature to any former Act,—shall require a Notice, clearly and distinctly specifying the nature and object of the application, to be published as follows, viz:—

A Notice inserted in the *Ontario Gazette*, and in one newspaper published in the County, or Union of Counties affected, or if there be no paper published therein, then in a newspaper in the next nearest County in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition.

For further particulars see *Ontario Gazette*.

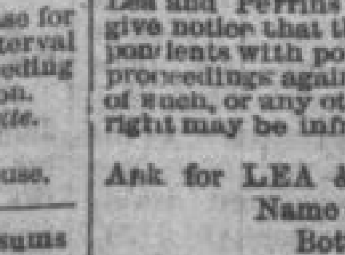
LEA & PERRINS
CELEBRATED
WORCESTERSHIRE SAUCE.
DECLARED BY CONNOISSEURS
TO BE
THE ONLY GOOD SAUCE.



CAUTION AGAINST FRAUD
The success of this most delicious and unrivalled Condiment having caused certain dealers to apply the name of "Worcestershire Sauce" to their own inferior compounds, the Public is hereby informed that the only way to secure the genuine is to
ASK FOR LEA AND PERRINS' SAUCE,
and to see that their names are upon the *wrapper labels, stopper, and bottle.*
Some of the foreign markets having been supplied with a spurious Worcestershire Sauce, upon the wrapper and labels of which the names of Lea and Perrins have been forged, L. and P. give notice that they have furnished their correspondents with power of attorney to take instant proceedings against *Manufacturers* and *Vendors* of such, or any other imitations by which their right may be infringed.
Ask for LEA & PERRINS' Sauce, and see Name on Wrapper, Label, Bottle, and Stopper.
Wholesale and for Export by the Proprietors Worcester; Crosse and Blackwell, London, &c. &c. and by Grocers and Oilmen universally.

Trade Mark.

Public Library Building, Louisville, K y
Correspondents may retain from their remittance sufficient to pay postage or express charges. All tickets, or parts of tickets, orders of me, will be sent in a registered letter or by express (pre-paid), so that I can guarantee their safe arrival.
[*From the Louisville Courier-Journal.*]
In answer to correspondents from a distance we take pleasure in saying that Col. H. M. McCarty has been connected with the Public Library from its inception, and is a duly authorized agent for the sale of tickets in the Library Gift Concerts.

WEST MIDDLESEX.

Glencoe Demonstration—Great Speech by Hon. Mr. Fraser.

The Reform Demonstration held at Glencoe on Tuesday, of which a condensed report appeared in the following day's *Globe*, was chiefly remarkable for two circumstances—the delivery of a most comprehensive defence of the course of the Ontario Government and their management of public affairs by the Commissioner of Public Works and the announcement of his return to the Reform ranks by Mr. John Hawkins, a leading Roman Catholic of Brantford, who has been estranged from his old friends since 1867, and opposed Mr. Hardy in the contest for South Brant last year.

On the arrival of the procession at Mr. Thompson's grove shortly before three o'clock, Mr. W. W. Watterworth, M.P.P., took the chair in the absence of Mr. Charles Murray, and expressed his pleasure to see so many distinguished gentlemen present on the occasion.

Mr. G. W. Ross, M.P., made a few brief remarks, in which he referred to the evidence which had been given in West Middlesex of the progress of Reform principles in the Riding since 1871, when it had elected Mr. Mackenzie, who paved the way for the subsequent triumphs. In 1872 he was himself elected, in the fall of that year Mr. Watterworth was returned, and at the last election he (Mr. Ross) was re-elected by acclamation. He believed the gentlemen whose intention to hold a meeting in that place on the following Friday, (Messrs. Rykert and Lauder), was announced by a bill on a neighbouring tree, would find that the backbone of Toryism was broken in West Middlesex, and he had no doubt that when the next election came round, the constituency would again show their Reform friends throughout Ontario their determination to sustain good government. He expressed his pleasure to see so many well-known and able politicians present, and had no doubt they would all be thoroughly impressed with the fact that the best interests of Canada were identified with the principles which the Reform party had advocated for so many years.

The Band then performed a selection of music.

The Chairman read letters of apology for unavoidable absence from Hon. E. Blake, and Mr. J. S. Smith, M.P.P.

Hon. C. F. Fraser then came forward and was received with loud cheers. He said he had been thinking what an admirable fellow Mr. Ross would be in the eyes of those who were to be there next Friday, if he only called himself a member of the party of "Union and Progress," or a "Liberal Conservative," or even if he but went so far as to call himself a "Baldwin Reformer." (Laughter.) He had also thought what admirable fellows those gentlemen would consider the present Grit party of Ontario if they called themselves by names similar to those by which they designated themselves. (Hear, hear.) If they considered that, no matter what the Liberal Government in Ontario were to do, no matter how meritorious might be their actions or how honestly they might look after the interests of the Province, there was still a large minority in the Province who would determinedly find fault with them unless in simple fact they chose to call themselves by the political names of that minority, they would realize how much of the opposition to them to-day had no honest or solid foundation. (Cheers.) A mere change of names would be sure to make matters all right, if in addition these opponents of the Government could get back to their twenty years' enjoyment of the loaves and fishes. (Hear, hear, and laughter.) These two things, after all, made up in the main the platform on which the Government was opposed by the Tory party in this Province. If those corruptionists, Mowat, McKellar, Crooks, Pardee, and Fraser would but clothe themselves in Tory feathers and open the public crib to the hungry ones in the Tory ranks, not a word would be said in condemnation of the Government; but the *Mail* would tell its readers every day: "See how admirably these gentlemen manage the affairs of this Province; see how public spirited they are; how liberally they distribute the public money amongst you for public improvements." Instead of condemnation they would hear nothing but praise and laudation; and instead of the wailings and bemoanings to which they were now entertained they would have songs of triumph. There were a few, however, who would perhaps not be satisfied with so simple a thing as changing titles, or with the distributing to the party at large whatever benefits from patronage might be at the disposal of the Government. Among the malcontents there surely would be Messrs. Rykert and Lauder, because these gentlemen want to hold the baskets from which the loaves and fishes were distributed—laughter—and that was why they were so pertinaciously distributing themselves over the Province, and telling the people what they pretended were facts about the present Government. He had read a good many speeches delivered lately—more, perhaps, by Mr. Rykert than by any other member of the Opposition in Ontario. He had had the pleasure of going over his figures, and trying to make up his mind how it was that he was trying to make the people believe that those things which he alleged against the Government had any foundation in truth or fact. He (Mr. Rykert) said they were simply a party of professions, and when they were in Opposition they argued and urged one doctrine and another which, when they came into power they abandoned. Among other instances, not to take up too much time, it was stated that they had been opposed to coalitions and to Sandfield Macdonald's railway aid policy, and had violated their professions in both instances. He could quite understand Mr. Rykert's position if he had changed his mind and thought that political matters to-day were to be dealt with differently from the time he and his friends were in power. If a man being convinced that he was wrong abandoned a certain principle, but found that his friend who formerly held the principle to which he was converted had changed to the opposite side, he could understand his condemning him and telling the people that he ought not to have their confidence because they were not doing right. But Mr. Rykert was seeking to condemn them for what he thought right. He said—"When we were in power we formed a coalition, we were in favour of aid to railways, and so on and we were doing what was right; then you were opposing us, and now you are doing the very things you condemned us for, and although it is right to do those things, I say the people of this Province ought not to give you their confidence for doing what is right in itself, but wrong for you as Liberals to do." He (Mr. Fraser) was only putting it in this form for argument's sake, as he was going to show that they were carrying out in power what they had advocated in Opposition. But what would they think for instance of Mr. Ross if he told them not to believe him (Mr. Fraser) if he found he had become a total abstainer, because at some former time he had defended moderate drinking? (Laughter.) But he proposed to show them that, taking the two subjects to which he had referred as samples, the Reform party had not done what they were accused of doing. First came the question of Coalitions. He had with him a copy of the resolution passed at the Reform Convention of 1868 on this subject. It was as follows: "That the coalition of opposing political parties for ordinary administrative purposes invariably results in the abandonment of principle by one or both parties to the compact, the lowering of public morality, a lavish public expenditure, and widespread corruption, and no Government will be satisfactory to the people of Upper Canada which is formed and maintained by coalition of public men holding opposite political opinions." The very corner stone of that resolution was in the words 'a coalition of public men holding opposite political opinions.' Let them test the Reform party of Ontario to-day by that resolution. Their opponents said that the fact of Mr. Scott being taken into the Government made it a coalition, Mr. Scott, as they alleged being a life-long Tory. A few days before Mr. Scott joined the Blake Government, Mr. Sandfield Macdonald had, in proposing him for the chair, told the House that he was a most honourable, high-minded man, well fitted to become the first Commoner of the Province, but when Mr. Scott joined himself with Mr. Blake, against whom none could say anything which was reproachful, he became the worst of men in the eyes of his *quondam* friends, one in whom no one ought to have confidence—a man who was actually dishonest, and prepared to plunder the public purse in order to satisfy his own ends and those of his private friends. What did these people tell us at the time of confederation? Was it not that we were starting out with a new slate, that there was nothing any longer to divide political parties, that new parties might be formed, new leaders chosen and old leaders abandoned, that we were all to form one political happy family? This was the cry which these gentlemen then raised and kept up as long as John A. Macdonald had his Coalition at Ottawa and John Sandfield Macdonald his Coalition in Ontario. It was dished up in all kinds of shapes to make it palatable to the people of this Province. Let them test Mr. Scott by that. If every one was at liberty to form new alliances why should a different rule exist for Mr. Scott? They said, however, that Mr. Scott voted for the Macdonald Government during the whole of that first Parliament, and was, therefore, a Tory, and the new Government was a Coalition. Now Mr. Lauder had often said that he never gave a Tory vote in his life, and yet all these votes which Mr. Scott gave were the same as those Mr. Lauder gave, and not only so, but they had heard Mr. Sandfield Macdonald and his organs declare that not only was the Government not a Tory Government, but the majority of its members were good sound Liberals. He (Mr Fraser) did not believe Mr. Sandfield Macdonald ever was a Tory. It was true he got into very bad company, and it was not the first time a good man had fallen among thieves. (Hear, hear, and laughter.) But down to the day of his death he always denied that he was a Tory. Putting their own test fairly, then, if they could not call Mr. Sandfield Macdonald a Tory neither could they call Mr. Scott a Tory simply because of supporting him. This was looking at it from their opponent's standpoint. But let them look at it from Mr. Scott's own standpoint. When he went back to his constituents in 1871 he told them he was not going to be returned as a pledged supporter of Mr. Sandfield Macdonald, but intended to return to Toronto an independent member. In other words, if he had been considered a Tory before, he was no longer to be so considered. This, let them bear in mind, was before the election, before it was known that the Reform party would be successful, and long before Mr. Scott could have had any notion that he or anyone from the Reform side would be called upon to enter a new Government, because they all heard it declared in 1871 that Mr. Sandfield Macdonald would return to the House with a larger majority than before. Mr. Scott was therefore at liberty either to oppose or to support, the Government. Mr. Sandfield Macdonald chose to nominate him as Speaker, but simply because it was known that if he were not nominated by the party he would have been proposed by the other side, and Mr. Macdonald did not want to be defeated on the first vote, to which a sort of prestige always attached. Mr. Scott held out no inducement to Mr. Sandfield Macdonald to believe that he would be a supporter of his. Then Mr. Blake being called upon to form a Government, he asked Mr. Scott to join him. Mr. Scott had over and over again asserted that at the time he held the same political views as Mr. Blake, and he (Mr. Fraser) therefore asserted that there was no word of that resolution which was contravened in the formation of the Ontario Government. (Cheers.) Of course their opponents did not say that the present Government of Ontario was a Coalition, but they still asserted that Mr. Scott, after remaining two years in the Government with the most thorough Grits, carrying the most thoroughly Grit measures, and being as good a Grit as any in or out of the Government, when he went to Ottawa was still a Tory. [Laughter.] Some men might think that public men never did and never ought to change their opinions, but he should be very sorry to say that they wanted no converts, but only the old dyed-in-the-wool fellows. [Laughter]. Nor would Mr. Rykert or Mr. Lauder on Friday next say anything of the kind either. They would say they wanted the Reformers to be converted and to join them to purge the public affairs of the Province. Did any one pretend to say that it was logical or sensible for a public man to declare that he would never change his opinions? He had once heard a public man say that, but he did not think he would ever say so again. (A voice—Is he dead? No, he was living, but living in penitence and sorrow. (Laughter.) He had said he would vote with his party right or wrong, but then he was one of your dyed-in-the-wool Tories. (Laughter.) When a public man conscientiously believed himself to be wrong, he was in duty bound to change, and the man who did not was a moral coward, and not worthy of confidence either in public or private. In Mr. Scott's case there was no coalition of men with opposite political opinions, but on the contrary a union of men with precisely the same political opinions, and so no sacrifice of principle was made on either side. (Cheers.) There was another matter which their opponents also dragged up, and apparently at the first blush they made a case of it. Only at the first blush, however, because no one who had read at the time the discussion on the Railway Aid question, and now heard the statements made—that Mr. Blake in Opposition urged one thing and condemned Sandfield Macdonald's policy in reference to aid to railways, and when he came into power not only adopted Sandfield Macdonald's acts, but went beyond them, thereby stultifying himself and his friends—could be led astray by such a statement. The public man who made the assertion on a public platform must be either a knave or a fool. It was said, however, that when Sandfield Macdonald proposed in the last session of the first Parliament of Ontario to set aside a million and a half to aid railways, Mr. Blake opposed the measure. He (Mr. Fraser) denied the assertion, and was prepared to prove the contrary from the records of the House. Mr. Blake said—"You are proposing to take a million and a half out of the surplus to aid railways; we say that is but a half-hearted scheme; why don't you come down and propose to deal with the surplus altogether, giving to those counties that will derive no benefit from the railway aid scheme their share of it at once? You have been in power four years, and ought to have matured a scheme in that time." Mr. Blake nowhere said railways ought not to be aided, and he would read his resolution to show what he really did say. They must judge Mr. Blake by his resolution, and not by the garbled statements of Mr. Rykert or Mr. Lauder, or any one else. (Hear, hear.) It was a very easy thing for a man without any responsibility to get up and make statements without any truth in them, and it was therefore very easy for these gentlemen to do so, but it was very different for a responsible Minister of the Crown to make untrue statements. A man who on a public platform told them what he knew to be untrue, was quite as bad as the man who put his hand into one's pockets to pilfer their purses. [Cheers]. There was a sad want of morality in both cases. Mr Blake's resolution was in these words:—"This House feels bound to express its conviction that the country will have just ground for dissatisfaction unless some plan is adopted whereby, while making all just and necessary provision in aid of railways and other public improvements of provincial interest in the thinly settled and unprovided districts, a large part of the available surplus should be apportioned according to population, and expended in such a way as each of the counties, cities, and separate towns shall as to its own allotment designate in aid of railways or other permanent public improvements affecting the localities, or towards the redemption of municipal obligations already contracted for such purposes, due precaution being taken for the proper application of the money, and provision being made that the allotment to any municipality indebted to the Municipal Loan Fund should be applied on equitable terms towards the satisfaction of what may be found due by the municipality on an adjustment of the Municipal Loan Fund indebtedness." He (Mr. Blake) wanted the House not only to set apart a sufficient sum to aid railways and other public improvements, but he wanted it in addition to aid the older counties, and to have a fair and equitable distribution of the surplus. (Cheers.) In doing that he did not oppose aid to railways, but acted as a man who had the ambition of being a statesman in his Province, and sought to lead public affairs as they ought to be led, and saw that the proper way was to distribute as much of the surplus as possible at once? Mr. Blake failed to get that resolution passed, and then he further opposed Mr. Sandfield Macdonald's scheme, because he said it was a cardinal principle of responsible Government, that before a Government should take into its hands any sum of the people's money, the people's representatives should have the means of knowing to what particular work it was to be devoted.

The Ottawa Times

TUESDAY, SEPTEMBER 22, 1874.

Hon. Mr. Macdonald, Postmaster General, left for Bowmanville, en route to Toronto, yesterday morning. Hon. Messrs. Mackenzie and Smith left for Toronto last evening, and Hon. Mr. Fournier, for Quebec.

According to private advices from Melbourne, it is the prevailing opinion there that should the petitioners succeed in unseating the Hon. Mr. Aylmer, it will only have the effect of making secure his re-election with a large majority.

Colonel Kingsmill, of Toronto, is stopping at the Russell House. We understand that he is about to publish "Life at St. Helena during the Exile of Napoleon." As the Colonel served in the 66th, one of the regiments stationed there during that memorable period, he will no doubt produce an interesting volume.

THE ARNOLDI INVESTIGATION.

Mr. Langton, Mr. Dickinson, and Mr. Wm. Smith, who were appointed to investigate the charges brought in the newspapers against Mr. Arnoldi, Mechanical Engineer, Public Works Department, and at whose request the Minister of Public Works granted an investigation, have presented their report, together with the evidence. It is evident from the testimony that strong prejudice existed on the part of the witnesses both for and against Mr. Arnoldi, and a good deal of what was testified to has therefore to be taken with a considerable degree of qualification. The charges were three: First, that Mr. Arnoldi had constructed in the public shops the machinery for a steam yacht. Second, that he had falsified the accounts. Third, that he had got access during improper hours to the Minister's room, for the purpose, as alleged, of acquiring a knowledge of the contents of certain papers. There was no proof whatever to substantiate the second and third allegations. There appeared to be some ground for the first charge; but, as may be supposed, where feeling is manifested, it was very much exaggerated. Mr. Arnoldi had put a toy engine, of a quarter-horse power, into a small boat. The engine was not much larger than a sewing machine. The greater part of the work on it was done out of doors, and that performed in the shops was but trifling, and most of that at his own expense, and as he states in pursuance of experiments pertaining to his position as Mechanical Engineer, the whole cost of which he claims should have fallen on the Government. Still, the gentlemen to whom the investigation was entrusted very properly point out the danger arising from allowing private works to be done in the public shops, and the effect will be to prevent an abuse which, small as it seems to have been in this particular case, might lead, if allowed, to serious consequences.

"BE JUST."

Such is the heading of an article which appeared in the Manitoba *Gazette*, received here yesterday. Now, it is almost unnecessary to promise that while the *Gazette* professes to be neutral, and while it carries out its professions with great faithfulness as a rule, yet it is impossible not to see that it leans very favourably towards the Opposition on the whole. We doubt very much, indeed, whether the majority of those who we accustomed to peruse the Tory papers of these Eastern Provinces, do not regard it as sound in the Conservative faith, seeing the frequency with which its articles picking holes in the Government policy find their way into the columns of the Opposition press. When we say this much, we say what is not unjust to the *Gazette*, since it is impossible for the conductor of a newspaper, however fair he may endeavour to be, not to show how his fur lies now and again; and at the same time we have said enough to show that it is far from likely that we shall ever find the *Gazette* defending any act of the Government or their friends, which without undue stretching might form the basis of an adverse criticism. Not very long ago the *Mail*, with that recklessness of truth and defiance of fairdealing which usually characterizes it, published a statement charging the acting Agent of Dominion Lands at Fort Garry with a violation of etiquette—about which, of course, the kid-gloved party are always very particular—and business courtesy, in so far as it was alleged he had never replied to several important communications addressed to him, and had failed to acknowlege the receipt of a registered letter. Now, as to the first part of the charge, and altogether apart from its truth or falsehood, the conductor of a newspaper should be the last to give his *imprimatur* to an attack upon any public official for remissness in replying to correspondence. We have not the slightest hesitation in saying that no man ever addressed a letter to the Editor of the *Mail* who did not think he was writing about something of supreme importance, and yet how many of this same class has the impersonal "we" of the leading Tory organ had to sacrifice daily upon the altar of limbo—a sacrifice which we are told amounts to positive want of etiquette and business courtesy. No man ever occupied any public position for even the space of two days who will not be ready to acknowledge not only the uselessness but the impossibility of replying to all the communications which are showered upon him daily. He and he alone ought to be the judge, as the newspaper editor actually is, of the importance of the epistles addressed to him, and we should require to know something regarding the subject dealt with before we could in any case feel justified in disapproving of his judgment. Of the insinuation contained in the statement regarding the registered letter, we take a somewhat different view, although of course we insist that a journalist ought to be perfectly satisfied that it was justified by the actual facts before he allowed the newpaper under his control to become the means of its publication. It is very true that there is no direct charge contained in the statement, but there is a mean, cowardly wickness and maliciousness about the suggestion it makes that is far more injurious than straightforward accusation. The subject, however, needs but little discussion, for the *Gazette* disposes of it summarily and completely. It asserts without the least hesitation that the charges are entirely unfounded, and says it is in a position to state that no letters had been received by the Acting Agent from Toronto since July last, and that all correspondence addressed to him previous to that time had been duly acknowledged. The *Gazette* indignantly inquires why such false statements should be made regarding a gentleman whom it declares to be courteous and prompt in public life, and unassuming in private circles—one who has earned for himself the respect of every body with whom he has had to deal. Of course the character of the Tory organ is not sufficiently known in Winnipeg, else we should have been surprised at the astonishment of the *Gazette*. Now, however, that its eyes have been opened to the fallacy of the charges made against parties within its own cognisance, we trust it will take the lesson home, and be somewhat more sparing of the trust it has been accustomed to put in statements emanating from the same quarter, and affecting men whose reputations are equally pure as that of the Dominion Lands Agent at Fort Garry, and of infinitely more value to the country. The *Gazette* admits that outside of the Province there are, in all probability, those who will give the libellous paragraph of the *Mail* some measure of credence, but it assures us that nobody in Manitoba does, for every one there agrees that the very manner in which the charge is made stamps it as a falsehood, used for political purposes. But then, if our Winnipeg contemporary only knew it, this is just the character of all the *Mail's* slanders—and heaven knows there have been enough of them within the short period of its existence; and it may be interesting as well as instructive to our western contemporary to know that, according to the testimony of the Managing Director of the *Mail*, it must stop publication the moment it ceases to "stab somebody under the fifth rib every morning." To place any amount of credit in the allegations of a journal whose avowed policy is to traduce and slander the personal and political reputation of its opponents—for there is no falsehood or injury in the calendar which does not fitly come under the miserable category of "stabbing under the fifth rib"—would scarcely be in accordance with that British sense of fair play about which we hear so much, but which receives so little illustration in practice. The *Gazette*, however, is in a fair way to repent of any sins of that nature of which it may have been guilty in the past. We may add that it summarily dismisses the inuendo thrown out with regard to the registered letter, which it fitly declares to be too malicious to deserve notice, and too contemptible to merit even a denial.

Then the *Mail* has told the public that the Land Office in Winnipeg has been made a "refuge for the destitute" by the present Government, and that there are sixteen clerks engaged in it to do the work of five. Now, the charge would in any case come with questionable grace from the organ of a party whose representatives in a moribund Government spent the last hours of their official existence — lengthened out that existence, too, by the usual tedious procedure possible in Parliamentary proceedings, with their base purposes in view—in appointing friends to every conceivable office, and inventing offices for those who could not be otherwise provided for. But according to the *Gazette* the whole statement, to use a plain but expressive Saxon word, is an unmitigated lie in its every particular, since there are just six clerks in the whole department. And then comes the unkindest cut of all, for after having thus disposed of the legs upon which the charge was supposed to stand, our lively Winnipeg contemporary proceeds to tell us that the "Dominion Lands Office cannot be more a 'refuge for the destitute,' "under the present Government than was "the case with the Dominion Police under "the old *regime*."

Then the *Mail* told the astonished world of Torydom that a son of Mr. Trow, M. P. for South Perth had been provided for in this Land office, at a "good fat salary." Had he been the son of a Tory, of course there would have been no harm done—a fact which receives daily endorsation in connection with matters passing nearer home. Well, we cannot better meet this assertion of the *Mail's* about fat jobs, and so on, than by quoting the paragraph from the *Gazette* dealing with the subject *verbatim et literatim*. We trust that after the quietus thus given to its lying stories, at least about things in Manitoba, the Tories will hold their peace henceforth and forever. This is what the *Gazette* says:—

"The complaint is also made that a son of Mr. Trow, M.P., has been taken into the office. Did the old Government give their little offices other than after the same fashion, *i.e.*, to the friends of their supporters? As to any of the clerks being provided for 'at a fat salary,' we have only to say that the salary given, two dollars and a half per day, rather inclines to be 'lean' than 'fat,' when it is considered that the same salary is given at Ottawa, where the necessaries of life cost less than one-half what they do here. Ordinary labourers get just as good pay, so that we cannot congratulate the gentleman alluded to as being more fortunate than other people in being provided for at ordinary workmen's wages. We would suggest to our contemporary the *Mail* that there are many other political abuses for it to attack for which the present Government are responsible, and that it will not aid the cause which it advocates by attacking subordinates under the cloak of political causes or of private letters which are of doubtful character."

CITY AND VICINITY

STEAMSHIP ARRIVAL.—The Allan s.s. 'Circassian' arrived at Quebec at 10.30 p.m. on Sunday. The mails for this city are due here to-day.

PERSONAL.—Mr. and Mrs. Edward Griffin have returned from the seaside, having spent a pleasant time for the last few weeks at Cape Elizabeth, near Portland.

The wonderful cheap sale at T. E. Moore's continues with unabated success, and many are gaining very costly goods for the small sum of 50cts. To-night will be a great time for handsome watches.

T. E. Moore begs to apologize to his many lady patrons for the inconvenience occasioned them by his cheap sale, at the same time to inform them that his new establishment is nearly complete, when he will entirely devote his time to their wants.

He has just received invoices of fine goods from the best markets in Europe, which are now to hand by the steamship 'Sarmatian,' which he will submit for their inspection and which with all other goods he will sell at such a price that cannot be undersold. T. E. MOORE.

TOOK THEIR DEPARTURE.—The detachment of the A Battery, brought down from Kingston in command of Lieutenant Peters, and consisting of 25 rank and file, and who acted as markers at the recent Dominion Rifle meeting, left for home by yesterday morning's train.

BOUND FOR TORONTO.—The civic deputation destined for the Provincial Exhibition leave by this morning's train for the West. The Hon Mr. Skead, Mr. E. Jenkins, M. P., of England, Mr. McKay Wright, M. P., Mr. A. S. Woodburn, and a number of other gentlemen will leave by the same train.

ANOTHER GIRDER UP.—The last girder spanning the canal in connection with the improvements of the Sappers' Bridge has been successfuly hoisted to its place. The work on the bridge will now progress rapidly, and its completion may be looked for within another month.

THE BELL CHRISTENING.—The church bell of the Roman Catholic Church recently built at Cyrville, was not christened on Sunday as expected. The inclement state of the weather necessitated its postponement until next Sunday. A good number of people who went out felt sorely disappointed that the ceremony was not proceeded with.

NEW CHURCH BELL.—The Rev. Fathers Stenson and Collins have procured a bell weighing 5,000 pounds from a celebrated Troy foundry, for St. Patrick's Church in this city. It is estimated to cost nearly $2,000, and will shortly arrive in the city, when it will be placed in the temporary tower at present being prepared for its reception.

ACCIDENT.—A young man named Kegan, in the employ of Mr. W. Champness, Sparks street, accidentally fell a few days ago from a vehicle which he was driving, and received serious injury to one of his knee joints. Regan is now under the care of Dr. Corbett, and is progressing favourably.

ARRIVALS AT THE RUSSEL HOUSE.—H F McLachlin, Arnprior; J H Burwash, Arnprior; A S Bicknell, W F Turner, London, England; A Pope, Quebec; John C More, J C Hatton, William Robertson, Montreal; John McClelland, Parry Sound; M K Dickinson, Manotick; Allan Grant, Fitzroy.

SIGNS OF PROGRESS.—York street gives evident signs of progress, as buildings are rearing their stately forms in every direction. The scene of the late extensive fire, has been entirely re-built and around the Market Square some fine brick buildings are being erected. On the south side new and extensive improvements are also being effected. Already the street presents a much improved appearance.

CONSECRATION SERVICES.—The Rev. Father Duhamel, the recently appointed Bishop of the Roman Catholic Diocese of Ottawa, will be duly consecrated in the Notre Dame Cathedral, Sussex street, on the 28th day of October next. The ceremony will doubtless be a very imposing one, as most of the Literary, Religious and Benevolent Societies, in connection with the diocese will take part in it, and extend their congratulations to the new Bishop.

A NEW LEAD.—How many times does 50 go into 250 000? It goes 5000 times. Well, that is a good per cent., even for California. Will the best "lead" ever struck pay as much? Certainly not. But there are strong probabilities that an investment of fifty dollars made in the last Grand Gift Concert, in aid of the Public Library of Kentucky will pay that per cent. to somebody. Why not to one of us? And then we have only to wait to the 30th of November for the result.

GRADING COMMENCED.—The grading of Wellington street has been commenced at last. Operations began yesterday in front of this office, where a number of men and carts were employed taking away the surplus material necessary to a reduction of the street to a proper grade. This process of excavation will be continued in an easterly direction till Elgin street is reached. It will greatly enhance the appearance of Wellington street when completed, and a much finer view of Rideau street will then be obtained.

ROW ON CLARENCE STREET.—Last night a disgraceful row occurred in a tavern on Clarence Street, among a number of individuals whom it is feared were imbibing rather freely. Glasses, &c., were thrown about indiscriminately, one of which struck a young man engaged in the melee, inflicting a severe scalp wound, and splitting his ear in two. He was taken by a Police Constable to Dr. Corbett who dressed his wounds. The participants, three or four in number, were all arrested and will be brought up before the Police Magistrate this morning for examination.

ALMOST A FIRE.—On Sunday evening a large box of bills and posters of some value caught fire, at Mr. Champness' Hotel, and if it had not luckily been discovered in time the entire hotel would have been destroyed. It is supposed that the bills were purposely set on fire by some malicious person. They were the property of Mr. Lindley, and are totally destroyed.

RINK MUSIC HALL.—Last evening "Led Astray" was the *piece de resistance*, and in fact the title was very applicable in the instance of one gentleman, which fact we are, however, sorry to chronicle. Mr. E. H. Brink made his re-appearance after a long absence, and we cannot but regret to note that he seemed somewhat under a temporary cloud. For an actor of talent we feel sorry that he should not display more energy, but doubt not that he will remedy this to morrow evening, when he appears in his best impersonation "Claude Melnotte," in the 'Lady of Lyons.' He has plenty of friends in Ottawa who feel willing to give him a helping hand and encourage a really good legitimte artist. But he must not risk his reputation too lightly. Mr. Lindley worked like a Hercules in his endeavours to keep the peice working, and the audience backed his endeavours nobly. Miss Webster also did her best to make the most of her part, as also Mr. Greyson and the rest of the *dramatis personae*. It is to be hoped that a good house will be at the Rink to-morrow, and take the opportunity of seeing a good play like the 'Lady of Lyons' well performed.

OTTAWA CHORAL UNION.—An adjourned meeting of gentlemen interested in the formation of a Choral Union in the city, was held last night in Gowan's Opera House. On motion of Mr. Blackmore, Mr. Slater was called to the chair, and Mr. Cunningham Stewart was requested to act as Secretary. The Chairman briefly remarked, that as he had only come to the meeting as a spectator, and to give his countenance to the movement, he was not in a position to offer any remarks pertinent to the subject. He thought that a society of the kind was very desirable, and should be carried through. The Secretary then read the circular issued to a limited number of gentlemen in the city, calling the meeting together for the purpose of organizing a Choral Union, and signed by himself and Mr. Thomas Kirby, as Secretaries *pro tem*. He also read the minutes of last meeting, which were confirmed. The Secretary also stated that in accordance with resolutions passed at the last meeting, Hon. R. W. Scott had been communicated with, and had kindly consented to become Honorary President of the Union. He also read a communication from several gentlemen in the city, approving of the object of the Society, and promising their co-operation and assistance in furthering the interests of the Society. The present meeting, the Secretary said, was an adjourned one to hear the report of the Provisional Committee. Mr. Blackmore then read the Committee's report, which recommended among other things, weekly practices, two public concerts during the winter months and the engagement for the first concert, of the services of several professional vocalists. It also recommended the procuring of a suitable hall for the practices and suggested the Temperance Hall, on Rideau street, or if it could be procured, the room leased by the Reform Association in Bangs' Block. Mr. Mills had been communicated with and had accepted the position of Conductor of the Society. The total expenses for the season, would amount to be about $488. The subscription list for members would be for males $3, proposed to be reduced to $2, and for females $1. Gentlemen composing the Orchestra, and professional vocalists would be admitted free. On motion of Mr. Alex. Robertson, seconded by Mr. Carriere, the reported was adopted. The meeting then proceeded to consider the rules, which were adopted with a few slight modifications. The meeting adjourned to meet again on Thursday evening next.

Huron and Quebec Railway.

A PUBLIC MEETING.

The Scheme Approved.

A meeting of many influential citizens was held in the City Hall yesterday afternoon, to take into consideration the question of the proposed Huron and Quebec Railway.

Amongst those present we observed the Hon. J. Skead, His Worship the Mayor, J. M. Currier, M. P., Judge Lyon, E. McGillivray, R. Nagle and other leading citizens, also Mr. Fowler who has charge of the proposed railway scheme.

On motion of Mr. McGillivray, seconded by the Hon. Mr. Skead, His Worship the Mayor was called to the chair and Ald. Robertson requested to act as Secretary.

His Worship after taking the chair stated the object for which the meeting was called. He said it would be remembered that a scheme somewhat analagous to the present railway scheme was some years ago placed before the citizens by Mr. Hubertus, and was aided to the extent of voting a sum to prosecute the survey and had the enterprise been pushed forward, would doubtless have been further aided. He would call upon Mr. Fowler to address the meeting.

Mr. Fowler explained at some length the proposed scheme, setting forth its advantages to the City of Ottawa in particular, and to all the portions of Ontario through which it was to pass in general. He explained how the original charter had lapsed owing to the expiration of time, and stated that a new charter had been obtained for a line to extend from Goderich to Ottawa *via* Toronto, intersecting a number of other lines that would act as feeders to the proposed line. He had been assured by Sir Hugh Allan and other leading railway men, that if he took an interest in the new enterprise and did what he could to procure bonuses, they would assist in the promotion of the Huron and Quebec Railway scheme. He next read a series of letters shewing the interest manifested both West and East in the project, from which he concluded that with the assistance of Central Canada the success of the scheme was assured. He next recapitulated on the number of subsidies he had already obtained, amounting in the aggregate to $862,000. Until a sufficient guarantee had been obtained in the way of subsidies or bonuses, capitalists would not hereafter invest in railway schemes, as it was not a very paying stock without such auxiliary means. The country through which these railways passed reaped all the benefit, and there should be no hesitation, in according liberal bonuses to such enterprises. Ottawa, he said, was deeply interested in the present scheme, and he thought a bonus of $250,000 was nothing for a city so populous and wealthy. He said it would place the capital in direct communication with the West, and as a consequence the tariff on all kinds of freight would be reduced at least one-half, which would prove a great boon to the city. All municipalities that had subsidized railways had been more than repaid for such outlay. He might state that he would not undertake the project at all until he was assured financially of its success. He explained that railways running from the city in an easterly direction would be of little use without corresponding extensions in a westerly direction. Toronto had given millions of dollars in aid of railways and was yet prepared to continue such subsidies, as every such subsidy added to the material prosperity of that city. The same might be said of Chicago. That magnificent city owed all its greatness to the liberal way in which railway enterprises were encouraged. He purposed asking the County of Carleton for a bonus of $125,000, which sum he trusted would be cheerfully given. He had noticed with pleasure the extraordinary strides being made in the way of progress in the city, and he hoped by a due encouragement of the proposed railway scheme, that a fresh impetus would be given to that prosperity. (Cheers.)

Mr. McGillivray had come to listen and was much pleased to have been given so much information on the railway systems of Canada as had been given by Mr. Fowler. He was astonished to find Sir Hugh Allan throw cold water on the scheme. He was afraid the city could not aid the proposed enterprise to the extent of $250,000. They must creep before they walked, and he therefore thought by the time the railways now engaging the attention of the ratepayers were completed, it would be ample time to aid the new scheme. The city had already been taxed for over a million of dollars for local improvements and a further strain had to be made on the assessment in the same direction, and he therefore deemed it inadvisable to recommend any further oppression on the ratepayers at the present juncture. The enterprise had not yet received that encouragement from other municipalities, that would warrant Ottawa in giving so large an amount. He thought it would be inexpedient to ask the Corporation to saddle the City with any further indebtedness. He regretted that the city was not in a financial position to encourage so laudable an enterprise. He thought, however, if workshops were located in the city that a bonus to a reasonable extent might be given with advantage to the city.

Mr. Currier was somewhat surprised at the tone of the last speaker's remarks. He was of a different opinion as to grants to railways. He thought that any place giving such grants were getting their own money back and more with it. All knew that the Grand Trunk had more than it could do, and if the present scheme were not encouraged it would necessitate the laying of another track on the Grand Trunk. Public opinion had before expressed itself favourably to the Hubertus scheme, and he did not think there would be any serious opposition to a much better scheme. He, as a ratepayer, would do his utmost to promote to a successful issue, the proposed Huron and Quebec Railway.

The Hon. Mr Skead thought there was an apathy shown in railway matters that was to be regretted. He had listened with pleasure to the scheme as propounded by Mr Fowler, but he thought advantage should be taken of the Canada Central, already built from Carleton Place. He was prepared to recommend that some assistance should be given the proposed road. He would therefore move, seconded by Mr. Currier, that after hearing the explanations of Mr. Fowler respecting the construction of the Huron and Quebec Railway from the city of Toronto, direct to Carleton Place, or through Perth, Franktown, or Richmond, to connect with the railways going east to Montreal and Quebec, this meeting is of the opinion that it will be of great benefit to the city of Ottawa, and the whole Province, and worthy of liberal aid from the municipalites along the line, and from both Local and Dominion Governments, and the city of Ottawa.

Judge Lyon, P. Le Sueur, and other gentlemen followed in support of the resolution, after which it was put to the meeting and carried unanimously.

After passing a vote of thanks to Mr. Fowler the meeting adjourned.

City Council.

A regular meeting of the City Council was held last night, His Worship the Mayor in the chair. Present—Ald. Bangs, Pratt, David, Bronson, Birkett, Christie, Rowe, Robertson, Rocque, McDougal, O'Connor, Groulx, Waller, Heney, and Durocher.

PETITIONS, &C.

A number of petitions and accounts were received and referred to their respective committees.

A communication was received from the Public Works Department, acknowledging the receipt of a memorial from the Corporation, asking the use of the Major's Hill for a public park, and granting its use on the following conditions:

The city authorities to have the use, during the pleasure of the Dominion Government, for the purpose of a Public Park of the public property known as Major's Hill, in the City of Ottawa, between the private road proposed to be open along the rear line of the lots of land fronting on the west side of Sussex street, the continuation of St. Patrick street, leading to the mill at Sterling's wharf the brow of the hill and the line of the canal lands, except such portions of Major's Hill as may already be in the occupation of or owned by third parties, on the conditions following:

That the city authorities shall take charge of the property, and shall protect the trees and shrubbery thereon, shall put it in order as a Public Park, make roads, place seats, plant trees, erect fences and maintain the same during the subsistence of this lease, and otherwise improve or ornament the property according to a general plan to be submitted by the City authorities and approved of by the Minister of Public Works of Canada, keeping a caretaker on the grounds at all times, and should the same or any portion thereof be required, at any time, for public purposes, by the Dominion Government, the City authorities shall give up possession thereof, without any claim for compensation for improvements.

The Department of Public Works of Canada reserve the the right of tipping earth and excavated material from the Parliament grounds in any holes or waste places on any part of Major's Hill at any time, and for that purpose to transport or cast the same over the grounds upon railway tracks and otherwise.

CITY HALL CONTRACT.

A letter having been read from His Worship the Mayor, setting forth as reasons for the City Hall contract not being signed, that Messrs. Johnston and Reid refused to remove the old City Hall, stating that it was not included in their contract.

Ald. Waller moved a resolution to the effect that the removal was an extra, and that instructions be given for its removal at a cost not to exceed $1,000.

A hot discussion followed and several amendments were moved, having a tendency to re-open the question of the City Hall contract.

An amendment to send for Mr. Horsey, the architect, to explain the difficulty was carried.

After Mr. Horsey's arrival a series of questions were put to him, but the import of his answers were to the effect that the removal of the old City Hall must be considered an extra.

The resolution of Mr. Waller was accordingly carried.

FINANCE REPORT.

The report of the Finance Committee was next presented, recommending the payment of the following amounts:—

MAIN SEWER CONTRACT—

Rowe & Co. as per progress estimate No. 2. .... $5,478 00

Miscellaneous 476 07

BY WARD MARKET EXTENSION—

Hugh Masson, six months interest on $4,400..$176 00

J. B. Lewis' estate...... 176 00 $352 00

FIRE DEPARTMENT—

Payment of salaries "Conquerer" Company......... 210 00

$6,516 07

The Committee recommended that the balance of the appropriation for the Collegiate Institute be placed to the credit of the institute, and that His Worship the Mayor be authorized to sign a cheque for the same.

On motion of Ald. Waller the report was received and adopted.

REPORT OF MARKET COMMITTEE.

Ald. Bangs presented the 4th report of the Market Committee.

It authorized the employment of Mr. James Mather, architect, to prepare plans for the erection of a new market house on the site lately purchased by the Corporation adjoining the Wellington Ward square, cost of said building not to exceed $20,000, the balance over and above $12,000 already voted to be raised by way of mortgage on the property.

It also recommended that His Worship the Mayor be authorized to sign cheques and all necessary papers relating to the purchase of 15 feet in width of land required for the widening of William street, at a cost of $6,120. The negotiations of purchase to be carried on by the Mayor in accordance with the terms of the report.

The Committee also recommended that His Worship the Mayor be empowered to complete the purchase of the land required for the opening of the new street between Clarence and Murray streets in accordance with the Report; said purchase not to exceed the sum of $5,500.

It also asked that the Committee be empowered to negotiate and purchase five lots of land for the extension of the Wellington Ward Market, said lots consisting of West half of Lot No. 11, corner of Sally and Queen Streets, Lots 9 and 10 on the South side of Queen Street, and Lots 9 and 10 and half of 11 on the North side of Albert Street. The whole cost not to exceed the sum of $8,500; and when the negotiation of purchase will be completed, His Worship the Mayor be authorized to sign all necessary papers and the cheques required for the completion of the purchase after having been submitted to the city Solicitor for his examination and approval.

Ald. Bangs moved the adoption of the Report.

Ald. Birkett took exception to the irregularity in presenting the report as it was only signed by three of the Committee, and it had been hawked around for two of even that number to sign it to-night.

The rule having been suspended the report was admitted.

Ald. McDougal then moved an amendment expunging the last clause of the report.

This amendment was adopted after a somewhat long and protracted debate.

NEW ARBITRATOR.

Mr. O'Gara having resigned his position as Arbitrater in the matter of acquiring certain properties for the proposed extension of the By-Ward Market, Ald. Robertson moved the first reading of a By-Law appointing a new Arbitrator in his place.

The blank in the By-Law having been filled with the name of George Stockand, builder, Ald. Robertson moved the second and third reading of the By-Law, which was carried, and the By-Law adopted.

After some further business of a routine character, the Council adjourned.

Police Court.

Before M. O'Gara, P.M.
MONDAY, Sept. 21.

Tim Coghlin, for being drunk and disorderly, was relieved of $5 and costs.

Amable Dorin, arraigned on a similar charge was find $2 and costs.

Nathan Stoughton was arrested by Detective Hamilton for insulting ladies on Rideau street on Saturday night. The Magistrate has given warning to such offenders hereafter, by inflicting a fine of $20 or three weeks in gaol.

John Sweeney, brought up on a charge of being drunk and disorderly, was remanded until this morning.

John Kennedy, up also on a Bacchanalian charge, was discharged, the evidence being insufficient to convict.

Joseph Brokenshir, arraigned on a charge of stealing a watch and chain, was remanded till this morning.

Archibald Keyes, charged with keeping a ferocious dog, was discharged on payment of costs.

HAVE YOUR CLOTHING MARKED.—In a life time it will save you many dollars and afford much gratification. Parson's Indelible Ink is indispensible for this purpose, it needs no preparation, it will not injure the finest fabric and can be used with a common pen. 3677.

INFLAMATION OF THE LUNGS.—Clifton, N. B., 17th February, 1873. Sir: In behalf of my family, I wish to acknowledge a debt of gratitude I owe Mr. James I. Fellows. My daughter had been ill with inflammation of the Lungs, had raised large quantities of blood and purulent matter, attended with every symptom of Consumption. After obtaining the attention of two eminent physicians, who afforded her no relief, she was persuaded to try Fellows' Syrup of Hypophosphites. Upon taking two bottles we had every reason to believe she would be cured. Her physicians were surprised to find her improvement so rapid, and advised her to continue its use, which she did until her complete recovery. Two years have elapsed, during which time she has neither taken nor required any medicine, enjoying good health, and urges all who are afflicted with any Lung or Chest trouble to use the Hypophosphites without fail. My wife, also having been in bad health for some time, and having had Typhoid Fever in December last, which left her much prostrated, was advised by the physicians to use this remedy to build her up. Before taking half a bottle she found herself much benefited, and still continues to use it. I believe, under kind Providence, Fellows' Compound Syrup of Hypophosphites has been the means of restoring both my wife and daughter, and I hope the afflicted will avail themselves of its use, for although it is widely used. I think its value is not appreciated. Yours truly, JOSEPH A. EVANS. 3677

OWNERS OF HORSES REJOICING.—And why not? and who knows but that their horses are rejoicing as well; who can prove the contrary? But their owners are rejoicing because of the astonishing and almost miraculous effects on their horses of "Darley's Condition Powders and Arabian Heave Remedy." Some were lean and poor having no appetite, others would devour their food ravenously, yet derive no benefit from it; some were hide-bound, with rough and shaggy hair; others had severe colds and coughs; many had the heaves and other complaints peculiar to horses; on all it operated as a charm, the disease or complaint was speedily removed, the appetite and digestive organs corrected, skin softened, and a sleek and shining appearance given to the coat all without any danger to, or preventing the horse being used.—Remember the name, and see that the signature of Hurd & Co. is on the package.—Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealer 1m.

BRAIN WORRY.—Many of us pray to be delivered from sudden death, and do we not worry ourselves into it? And if we do can we not help it? "Men do not really die of Heart Disease as often as it is supposed, but of Apoplexy, or Congestion of the Lungs, so they do not die of brain work, but BRAIN WORRY. Scott died of it, Southey, Swift, Horace Greeley, and probably Thackeray."—*London Times*. As brain worry induces premature dissolution by its depressing influence upon the general nervous health, by eating the brain faster than the waste is repaired, and as the means of sustaining and increasing nervous health is no longer impossible; those who suffer the debilitating influence of mental anguish or extreme mental fatigue, need only resort to the preparation of Hypophosphites invented by Mr. Fellows, as that will conduct the subject safely over the rapids of despair, and create in him strength to grapple with every difficulty. This is no idle assertion but an established fact. 3671

BY TELEGRAPH

MONTREAL.

MONTREAL, Sept. 21.

The First General Conference under the auspices of the Dominion Evangelical Alliance is to be held in this city during the first week of October.

It is reported that arrangements have been made for the construction of the Huron and Quebec Railway from Ottawa westward. All the municipalities between Ottawa and Peterboro that are interested in its construction, will be asked for bonuses.

There is some talk of the Corporation purchasing the large steam roller belonging to the Provincial Government, which has been lately used to roll the newly macadamized streets. Should this roller not be purchased, it is probable that a new one of a similar design, but several tons heavier, will be obtained.

Henry Ward Beecher is to deliver an address at the Vermont Agricultural Society's Fair, at St. Johnsbury, on Tuesday. The South Eastern Counties Railway are issuing tickets at a reduced rate.

The trial of the contested election case for Chambly County, M. Benoit, petitioner, and Alderman Jodoin, respondent, will open by appointment next Tuesday morning in the Court House.

The stock market continues dull and rather weak.

Montreal 193½, closing at ¼ to ½.

Royal Canadian 97½, closing at 7 to ¼.

Montreal Telegraph 200½, closing at ½ to ¾.

Union Navigation Co., 90, closing at 92½ for sellers.

QUEBEC.

The New Cabinet—Resignation—Marriage.

QUEBEC, Sept. 21.

The new Provincial Cabinet will, it is understood, be sworn in to-morrow, and will be composed as follows: Hon C. B. DeBoucherville, Premier and Provincial Secretary; Hon. H. G. Malhiot, M.P.P. for Trois Rivieres, Attorney General; Hon. J. G. Robertson, Treasurer; Hon. P. Garneau, M.P.P. for the County of Quebec, Commissioner of Public Works; Hon. Felix Lemaire, M. L. C. for Milles Isles, Speaker of the Legislative Council; Hon. A. R. Angers, M. P. P. for Montmorenci, Solicitor General; Hon. Mr. Church, Commissioner of Crown Lands.

The Rev. B. McGauvran has resigned the Rectorship of St. Patrick's Church, and is to be succeeded by Father Burke, of the Redemptorist Order, who will be assisted by three others of the brethren.

The Anglican Cathedral was crowded this morning to witness the marriage of Captain Bennet, of the London Line steamship, Quebec, to Miss Pope, daughter of Col. Pope, of Quebec.

Mr. McGreevy is getting into difficulties with his sub-contractors on the North Shore Road.

TORONTO.

TORONTO, Sept. 21.

Twenty-one marriages, thirteen deaths, and twenty-seven births, were registered at the office of the City Clerk, for the week ending the 19th inst.

Five acres of land in Carleton Village, were sold by auction last Saturday by Messrs. F. W. Coate & Co., and realized $750, the purchaser being Mr. John Cape.

An Englishman named Thomas Shaw died suddenly at Annand's hotel, Adelaide street, yesterday morning. Deceased came to this city from Whitby about a year ago.

The days for the trials of the following petitions have been fixed as follows:

Prince Edward—At the Court House in Picton, on the 14th of October.

Niagara—At the Town of Niagara on the 8th of October.

South Huron—At the Court House in Goderich, on the 20th of October.

East Northumberland—At the Court House in Cobourg, on the 27th of October.

Centre Wellington—At the Court House in Guelph, on the 3rd of November.

Kingston—At the Court House in Kingston, on the 17th of November.

Halton—At the Court House in Milton, on the 8th of December.

East Middlesex—At the Court House in London, on the 15th December.

The Provincial Exhibition, which opens to-day, will not show such a large quantity of stock as on previous occasions, but the quality will be more choice. The show of machinery will be much larger. A police station has been built on the ground, and order will be maintained by a force of thirteen city and thirteen county constables. The sale of no liquor will be permitted on the ground.

NIAGARA.

Extraordinary Suicide.

CLIFTON, Sept, 20.

The neighborhood of the Falls has been in a state of commotion since two o'clock yesterday afternoon, when a rumor was circulated that a visitor from Brantford had committed suicide by deliberately walking over the Falls just above Table Rock. The circumstances under which this painful occurrence took place, are told as follows:—Between one and two p.m. there arrived at the Canadian side of the Suspension Bridge, by the Canada Southern road, a stranger, now described as a man of about five feet eight inches in height, of light complexion and sandy coloured hair, who, on alighting inquired the charge for a cab thence to the Falls and back. After some of that sparring which is inseparable from negotiations attending cab-hire, one Christopher Flannigan offered to drive him to the Table Rock and back for two dollars. "How much if you leave me there?" inquired the stranger. "A dollar," replied the cabman, and the bargain was struck. Nothing particular in his fare's demeanour attracted Flannigan's attention during the drive, except that he remembers he knelt on the front seat of the carriage, looking about him freely at the Falls and objects of interest that were passed. He also asked his charioteer whether bodies going over the Falls were ever found afterwards, to which Jehu answered oracularly, "Some are, I guess, and some isn't." When they reached the Museum he bid the carriage halt, and he and the driver went in for a glass of beer. Here, too, he paid the dollar, and handed Flannigan a letter to post, which was addressed to a Mr. Robertson, a banker at Brantford, an act which he supplemented by giving the driver also his own address, which was Robert Salmond, Mohawk Institute, Brantford. Proceeding then leisurely, as any other visitor might do, to the large piece of square timber overhanging the precipice, and around which but a thin stream of water runs, he stepped into the current, and almost immediately making a false step slipped on to his knees, but immediately regained an erect attitude, and walked on till carried off his feet by the increasing volume of water; and then as if it were a chip on the tide his body shot over into the abyss below. It took but a few seconds for all this to occur and on observing what had happened, Mr. Saul Davis at once sent his men down under the comparatively thin sheet of water there, to see if any traces of the body were to be found on the ledge of rocks; but their search was fruitless. The next thing done was to telegraph to Mr. Robertson news of what had occurred, and ask for instructions respecting the letter. The answer received was to the effect that the letter was to be at once posted, and the question was asked if the unfortunate man's wife had been with him at the time. And at the moment of writing, this is all that is known here of the tragedy and its history. Opinions differ as to the use which the letters might have been put to, without any infringement of the laws of privacy and sanctity of a seal. That the letter would have afforded a clue to the cause of the suicide is probable; but whether any end of justice would have been served thereby, cannot be decided until more is known of the wretched man's history, who so deliberately sought a watery grave, without a word or exclamation to warn those about him of his awful intention.

LONDON.

Mass Meeting.

LONDON, Sept. 21.

A mass meeting of Conservatives was held on Saturday afternoon to bring out a candidate for the representation of East Middlesex in the Local Legislature. Mr. Richard Tooley, the present member, was renominated against Mr. Jas Evans, who has been three times defeated.

NEWCASTLE.

The First Barley.

NEWCASTLE, Sept 19.

The 'Ariadne' loaded to-day for Oswego the first cargo of barley from this port, owned by J. P. Lovekin. The sample is good, being very dry and bright.

YESTERDAY'S DESPATCHES

ENGLAND.

Frederick Dockray.

LONDON, Sept. 21.—Frederick Dockray, the American who was arrested in Cuba by the Spanish authorities and after detention there some for time sent to Spain, has reached Santander. He has been landed, and it is said he is cruelly incarcerated.

FRANCE.

Deceased.

PARIS, Sept. 21.—Victoria Sejour, the French Dramatic Author is dead.

DENMARK.

An Explanation Wanted.

COPENHAGEN, Sept 21.—The Government of Denmark has directed its Envoy at Berlin to ask explanations from the German Government in regard to the expulsion of Danish subjects from Schleswig.

UNITED STATES.

S. S. Arrivals.

NEW YORK, Sept. 21.—Arrived S. S. "Nevada" and "Erin" from Liverpool and "America" from Bremen.

Aid for Cubans.

Carlos De Varno a Cuban patriot now residing in Paris, has given $20,000 to the agents of the Cuban Republic in this city to help to carry on the war against Spain. The sole condition of the gift is that the money shall be employed in sending help to the Cuban army within a reasonable time.

Destructive Fire.

CINCINNATI, Sept. 21.—A destructive fire at Carralton, N. Y., yesterday destroyed half of the most valuable block in Centre Town. The principal sufferers are Thurman Martin, Broker, and Hamilton Smith. The loss is not stated.

Incendiary Fire.

Latest advices report the burning of the Marietta and Cincinnati Railway Machine shops at Parkersburg, Va., yesterday together with the Round House and blacksmith shop. The loss will not be less than $120 000. The fire was the work of an incendiary.

MID-NIGHT DESPATCHES

ENGLAND.

Safety of the ss. "Tagus."

LONDON, Sept. 21.—The ss. 'Tagus' which sailed from New York for Constantinople and Taganrog, and was reported by the ss. 'Brownscheig' as having been spoken in a damaged condition, has arrived at Queenstown. Her decks were swept away and she was otherwise injured.

FRANCE.

Appointment.

PARIS, Sept. 21.—The French Consul and Vice-Consul at New-York have been appointed Commissioners of France to the exhibition at Philadelphia.

AUSTRIA.

New Spanish Minister.

VIENNA, Sept. 21—The newly appointed Spanish Minister has presented his credentials to the Emperor of Austria.

UNITED STATES.

The Irish Rifle Team.

NEW YORK, Sept. 21.—The Lord Mayor of Dublin and the Irish team will be given an excursion by the city authorities on Thursday and a public reception at the City Hall. The representative men of Brooklyn have tendered them a public dinner.

The Treaty of Washington.

WASHINGTON, Sept. 21.—Mr. Watson, British *Charge d'Affaires*, and Mr. Howard, the Agent appointed by the British Government, called at the State Department to-day and were paid $1,929,819 in gold, less 2½ per cent allowed for expenses, being the amount awarded to the British claimants under the Treaty of Washington 1873.

Brigham Young Ill.

SALT LAKE CITY, Sept. 21.—Brigham Young is sick, and considerable uneasiness is felt in town to-day in regard to his condition. It is reported that some astrologer predicted that he would die on Dec. 7th next.

The Hot Springs Stage Robbers.

LITTLE ROCK, Ark., Sept. 21.—The party in pursuit of the Hot Springs stage robbers corralled them in the mountains, and sent back for reinforcements. Parties who saw the robbers just before they left the road say their horses were completely used up and could not go further. A party of recruits left Hot Springs at midnight last night for the scene of action, and it is probable that the robbers have all been captured and killed by this time.

The Southern Emeute.

WASHINGTON, Sept. 21.—The following despatch has been received at the War Department, from General Emery:—

NEW ORLEANS, Sept. 20.

Yesterday the State authorities replaced the temporary police force by the regular police force of the city. It was feared that this change might cause some disturbance, and the troops were posted in various parts of the city. The night passed quietly, and I think this may be taken as evidence that the surrender was complete and in good faith.

Convention of I. O. O. F.

ATLANTA, Sept. 21.—The annual Convention of the Grand Lodge of the United States I. O. O. F, is being held in this city. The reports of the Grand Officers show the Order to be in a flourishing condition throughout the general jurisdiction including the British Dominions, Sandwich Island, Australia and South America.

CENTRAL AMERICA.

Serious Riot and Bloodshed.

ASPINWALL, Sept. 12.—A serious riot, attended with bloodshed, took place this afternoon between Italians in the employ of the Pacific Mail Steamship Co., and the troops on duty here. It appears that one of the soldiers, unarmed, was on the wharf and was chased off by some of the Italians, who threw stones at him. On arriving at his quarters he reported the case, when an officer and six men were sent at once to the wharf to arrest those who had made the assault. On reaching the gate one of the Italians fired two pistol shots at the troops, without any result, when a volley was fired in return, which mortally wounded one of the Italians, and seriously wounded a Jamaica negro. The excitement is intense, and additional troops have been sent for to keep the peace.

Indian Warfare—Desperate Fighting.

CHICAGO, Sept. 21.—General Sheridan furnishes the following from official despatches: Col. Miles in a despatch, dated the 5th instant, 75 miles south of Red River, advised General Pope that he should fall back for supplies. His despatch received by General Sheridan to-day is dated from his camp on the Wichita River, 14th instant, at Fort Dodge, leaving there on the 17th instant. He says, I find that after leaving the Canadian River, Major Lyman, commanding the escort to the supply train, was attacked by from 300 to 400 Indians on the morning of the 9th. The Indians charged the train several times, and made every effort to capture it, fighting so determinedly as to detain it for several days. The fight was very close, and the train was completely surrounded. On the third day the Indians abandoned the attack, retreating southwest. From all the information I can get since my arrival here, I believe they formed no part of the body we drove off Staked Plain, and are believed to have been led by Santona and Big Tree. During the fight Lieut. Lewis, of the 5th Infantry, was severely wounded in the knee. Sergt. Dearmont, of the 5th Infantry, was killed. Sergt. Single, of the 6th Cavalry, private Buck, of the 5th Infantry, and waggon master Sandford were wounded, the latter mortally. The officers intimate the number of Indians killed at 15 and of wounded many more. Private Pettijohn, of the 6th Cavalry, was killed at the camp near McEilends'. Lieut. Baldwin will have informed you of his successful encounter with the Indians while coming in as bearer of despatches. A part of the force that attacked Major Lyman attacked a party of six bearing despatches who entrenched themselves in the sand, and after a desperate fight all day in which one courier was killed and four wounded, they compelled the Indians to retire. Wherever we have fought them they have been severely punished with a slight loss on our side.

MARRIED.

On the 21st inst., at St. Bartholomew's Church, New Edinburgh, by the Rev. J. N. Higginson, M. A., Richard Nettle, Esq., of Albany, N. Y., son of R. Nettle., Esq., of the Civil Service, to Emma M. Neville, youngest daughter of O. C. Neville, of the Civil Service.

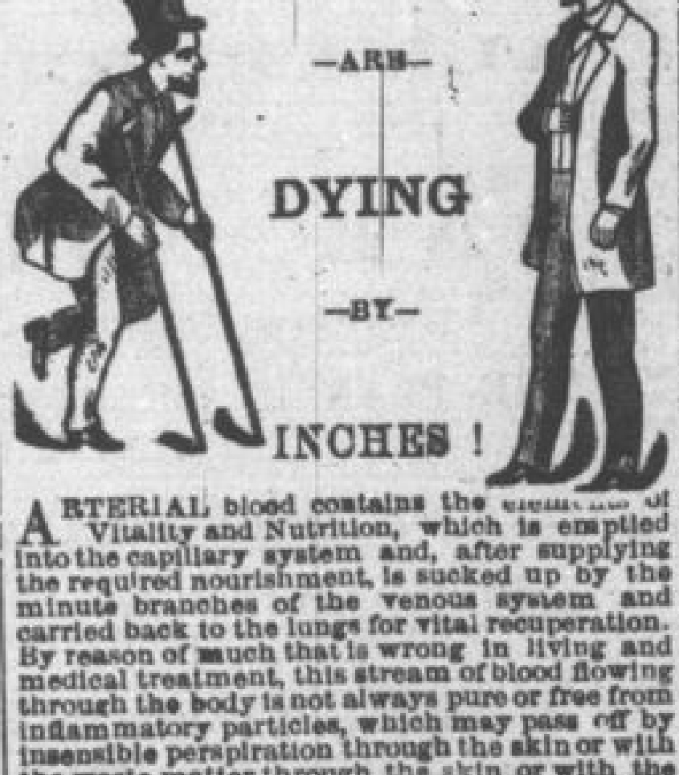
POND'S EXTRACT

CURES

Rheumatism, Scalds, Lameness,
Neuralgia, Burns, Soreness,
Sore Throat, Boils, Wounds,
Hoarseness, Ulcers, Bruises,
Headache, Piles, Sprains,
Toothache, Colic, Old Sores,
All Hemorrhages,
Diarrhœa,
etc.

POND'S EXTRACT



ARTERIAL blood contains the elements of Vitality and Nutrition, which is emptied into the capillary system and, after supplying the required nourishment, is sucked up by the minute branches of the venous system and carried back to the lungs for vital recuperation. By reason of much that is wrong in living and medical treatment, this stream of blood flowing through the body is not always pure or free from inflammatory particles, which may pass off by insensible perspiration through the skin or with the waste matter through the intestines, but cold or wet may stop their outward escape, and the internal drainage may become inactive, when the corrupt particles are apt to coagulate, causing pustules, scalp eruptions or running sores, bronchitis &c. They may locate about a nerve, causing neuralgia, and by attaching themselves to the arterial tubes and veins, large or small, and inflaming them by their corrosive influence, cause those intensely painful sensations called Rheumatism. Nature struggles to drench out or dislodge if possible these corrosive particles, and the parts become very red from the congestion or pressure of blood therein. This is called Inflammatory Rheumatism or Rheumatic Gout. If nature does not succeed in washing out these acremonious atoms she withdraws the undue supply of blood from such parts, ceases to contend, and performs circulation as best she can; however, the passage of the blood through the affected channels still continues painful. This is Chronic Rheumatism, which may exist without its usual antecedant the Acute kind.

The above only true theory points out the correct treatment of this and other distressing maladies. Dissolve these corrupt particles that have lodged in the afflicted parts, so that in the circulation they may be carried off externally or internally, and having thus removed the cause the effect ceases.

The experiment of twenty years in the London Hospital, England, has demonstrated to the Medical Faculty of Europe, that the only medicine having control over this class of diseases, is the

DIAMOND RHEUMATIC CURE!

It is the result of a lifetime of scientific study and is now for the first time offered to the Canadian public, prepared by a careful, experienced and conscientious physician, in obedience to the desire of numberless friends in the profession, in the trade and among the people. Every bottle is warranted to contain the full strength of the medicine in its highest state of purity and development, and is superior to any medicine ever compounded for this terrible complaint.

A BLESSING TO THE POLICE.

MONTREAL, 15th June, 1864.

DEVINS & BOLTON:

GENTLEMEN,—Having been one of the many martyrs of rheumatism that I meet on my every day rounds, I was induced to try the celebrated DIAMOND RHEUMATIC CURE. I had suffered the last five or six weeks the most terrible acute pains across my loins and back, so severe indeed that I could hardly walk with the help of a stick. I commenced the Diamond Remedy—following the directions carefully. Relief came immediately with the first bottle, improved rapidly with the second, completely cured and freed from pain after finishing my fifth small bottle. You are at perfect liberty either to refer to me privately or publicly, as I feel very thankful for the relief, and sympathize with my fellow sufferers from rheumatism.

Yours respectfully,
J. B. CARDINAL,
Sanitary Police Officer,
51 Labelle street.

In simple cases, sometimes one or two doses suffice. In the most chronic cases it is sure to give way by the use of two or three bottles. By this efficient and simple remedy hundreds of dollars are saved to those who can least afford to throw it away, as surely it is by the purchase of useless prescriptions.

This medicine is for sale at all Druggists throughout Canada. If it happens that your Druggist has not got it in stock, ask him to send or it to

NORTHRUP & LYMAN,
Agents for the Province of Ontario,
Scott street, Toronto,
Or to DEVINS & BOLTON,
Notre Dame street, Montreal,
General Agents for the Province of Quebec.
Price $1 per bottle. Large Bottles $2.
May 14, 1874.

THE SIMPLEST, CHEAPEST, AND BEST

Marking Apparatus in the World
For Marking COTTON, SILK,
WOOLLEN, and LINEN, is

PAYSON'S INDELIBLE INK,

Used with a Common Pen without a preparation.

This ink flows perfectly: will write as easily on the finest muslin as ink on paper. It does not dry up, and retains its virtues longer than any other ink known. It will not injure the finest fabric. Payson's ink has endured the test of forty years, and is now the most popular ink in existence and is unrivalled for uniformity, of quality, and durability. It will mark more neatly, quickly and indelibly than any other apparatus. It requires NO PREPARATION of the fabric.

Price, 37 cts. per Bottle.
Sold by all Druggists, Stationers, and Fancy-Goods Dealers.
Sept. 14.

J. BERMINGHAM,
Auctioneer.

Sept. 16th, 1874.

SPECIAL ANNOUNCEMENT IN REAL ESTATE.

(By J. Bermingham.)

A Great Bargain—Lot No. 56, corner of Preston and Spruce streets, opposite post office, Rochesterville, with a good two story Brick House thereon, nearly new, with all the necessary out offices and a never failing spring, to be sold very cheap and on very easy terms. Come and inquire price, it will astonish you, it will be sold before two weeks, some one will get a big bargain from

J. BERMINGHAM.

West ½ of Lot 27, south Rideau street, with a most comfortable Brick House thereon, rented for $200 per annum, has to be sold for half its value within fourteen days. It would cost nearly double as much to build the house now, as is wanted for house and ground. Such a bargain was never offered before in this city, some one should secure it at once. Apply to

J. BERMINGHAM.

Lots 37, South Maria, and 37 North Gloucester streets, 66 x 99 each, to be sold very cheap, and on very easy terms, a small sum only required down, balance in ten annual payments. There is a big speculation in this. Who will come first and purchase? One thousand dollars can be made on it before long. Apply to

J. BERMINGHAM.

A Lot 64 x 99, about 100 yards from Cumming's Bridge, outside City limits, thereby avoiding city taxation, very cheap, only $5 down, balance as may be agreed on. Apply at once to

J. BERMINGHAM,
York Street.

PLUMBING, GAS & STEAM FITTING SHOP,

No. 54 SUSSEX-ST., OTTAWA.

THE undersigned beg to inform the public that they have opened a shop at No. 54 Sussex-St., where they will be prepared to execute all work in Plumbing, Gas and Steam Fitting, intrusted to their care, at the shortest notice. Being first-class workmen and having a large experience, all parties can rely upon the quality of our work. We are prepared to give our customers the benefit of all new improvements in the lines referred to. All work warranted for one year.

MASON & Co.

Aug. 28, 1874.

IMPORTANT TO LADIES OF FASHION

DRESSMAKING BEING THE ORDER OF THE TIMES.

J. W. RYAN

Has much pleasure in informing his numerous Lady customers and others that MADAME OLLIER, the celebrated Cutter and Fitter of Ladies' Garments, has arrived from her New York and Boston trip, and re-engaged with him to superintend his Dressmaking Department,

No. 234 WELLINGTON STREET

It will be remembered that Madame Ollier came direct from Boston last March to make arrangements with him, but was subsequently induced, by large offers for her valuable services, to go into an old established firm in Centre Town; but finding that she had made a change for the worse, again engaged with him. Madame Ollier's attainments in the art of Scientific Measurements enables her to ensure a perfect fit without putting her customers to the inconvenience of removing a single garment.

Bargains to be had at the Old Stand, 13 RIDEAU-ST. TRY ONCE.

Sept. 9, 1874.

A large assortment of Boots and Shoes of every variety and style, Slippers, Moccasins, Buckskin Mitts, &c. Country friends are invited to inspect. A most suitable assortment.

JOS. NEELIN,
[Late Preston & McLaughlin],
no. 12 Rideau-st., Ottawa.

BERKELEY, Sept. 1869.—Gentlemen, I feel it a duty I owe to you to express my gratitude for the great benefit I have derived by taking "Norton's Camomile Pills." I applied to your agent, Mr. Bell, Berkeley, for the above named Pills, for wind in the stomach, from which I suffered excruciating pain for a length of time, having tried nearly every remedy prescribed, but without deriving any benefit at all. After taking two bottles of your valuable pills I was quite restored to my usual state of health. Please give this publicity for the benefit of those who may thus be afflicted.—I am, Sir, yours truly, HENRY ALLPASS.—To the Proprietors of Norton's Camomile Pills.

T. E. MOORE

Respectfully informs his friends and the public generally that he will shortly open his

New Establishment No. 72 Sparks Street.

which will be fitted on the most improved principle comprising Ladies' Hair Dressing Rooms with separate entrances, a spacious Gentleman's Hair Dressing and Shaving Rooms with

Ottawa, Aug. 18, 1874.

PROVINCE OF ONTARIO

PARLIAMENTARY NOTICE.

LEGISLATIVE ASSEMBLY OF ONTARIO,
Toronto, 14th September, 1874.

49. No Petition for any Private Bill is received by the House after the first three weeks of each Session; nor may any Private Bill be presented to the House after the first four weeks of each Session.

51. All applications for Private Bills, properly the subject of legislation by the Legislative Assembly of Ontario within the purview of "The British North America Act, 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road, or Telegraph Line; the construction or improvement of a Harbour, Canal, Lock, Dam, or Slide, or other like work; the granting of a right of Ferry; the incorporation of any particular Trade or Calling, or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community; or for making any amendment of a like nature to any former act,—shall require a Notice, clearly and distinctly specifying the nature and object of the application, to be published as follows, viz:—

A Notice inserted in the *Ontario Gazette*, and in one newspaper published in the County, or Union of Counties affected, or if there be no paper published therein, then in a newspaper in the next nearest County in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition.

For further particulars see *Ontario Gazette*.

CHARLES TODD GILLMOR,
Clerk of the House.

GRAND TRUNK RAILWAY COMPY OF CANADA.

Notice to Contractors.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Examining Warehouse, Toronto," will be received at this Office until MONDAY the 5th day of October next, for the erection and completion of the above building. Plans and Specifications can be seen at the office of William Irving, Esq., Architect, Yonge Street, Toronto.

Contractors are notified that Tenders will not be considered unless made strictly in accordance with the printed forms,—and in the case of firms—except there are attached the actual signatures, the nature of the occupation and place of residence of each member of the same.

For the due fulfilment of the Contract, satisfactory security will be required on real estate, or by deposit of money, public or municipal securities, or bank stocks, to an amount of *five per cent* on the bulk sum of the Contract.

To the Tender must be attached the actual signatures of two responsible and solvent persons, residents of the Dominion, willing to become sureties for the carrying out of these conditions, as well as the due performance of the works embraced in the contract.

This Department does not, however, bind itself to accept the lowest or any Tender.

By order,
F. BRAUN,
Secretary.

Department of Public Works,
Ottawa, 15th September, 1874.

NOTICE TO CONTRACTORS.

Sealed Tenders addressed to the undersigned, and endorsed "Tender for Firewood," will be received at this office until Thursday, the 1st day of October next, at noon, for the supply of Firewood for the use of the Public Buildings, Ottawa, according to the specification to be seen at this office.

The Department will not be bound to accept the lowest or any Tender.

By order,
F. BRAUN,
Secretary.

Department of Public Works,
Ottawa, Sept. 14, 1874.

Travellers' Guide

Below we publish a directory, made up for the benefit of our citizens, and strangers who may visit the Capital. It is important to all travellers to have, within easy reach, information as to the arrival and departure of the various trains and stages for all places, East, West and South. The public can depend upon the correctness of this table:

St Lawrence & Ottawa Railway.

Leave. 45 a.m., 10.45 a.m., 2.00 p.m., 9.30 p.m.
Arrives. 30 a.m., 7.40 a.m., 3.50 p.m., 7.00 p.m.

Canada Central Railway.

Leaves 10.15 a.m., 5.20 p.m.
Arrives, 12.55 p.m., 8.00 p.m.

Ottawa River Navigation Company.

Steamer *Peerless* leaves at 7.30 a.m.
Steamer *Queen Victoria* leaves at 5 p.m.

Saturday afternoon trips—Steamer *Queen Victoria* leaves at 4 p.m. for L'Orignal, &c. [See advt.]

Union Forwarding Company.

Steamer *Jessie Cassels* leaves Aylmer at 7.30 a.m.

Stages.

Aylmer Stages leave the Union, Daniels, and the Russell House every morning at 8 a.m.

Gatineau Stage leaves the Post Office at 6 p.m.

Electric Oil Thomas' Excelsior Eclectric Oil — Worth Ten Times in Weight in Gold.

Pain cannot stay where it is used. It is the cheapest medicine ever made. One bottle has cured bronchitis. Fifty cents worth has cured an old standing cough. It positively cures Catarrh, Asthma and Croup. Fifty cents worth has cured crick in the back, and the same quantity lame back of eight years' standing. The following are extracts from a few of the many letters that have been received from different parts of Canada, which, we think, should be sufficient to satisfy the most skeptical. J. Collard, of Sparta, Ontario, writes 'send me 6 dozen Dr. Thomas' Electric Oil, have sold all I had from you and want more now; its cures are truly wonderful.' William Maguire, of Franklin, writes, 'I have sold all the agent left, it acts like a charm—it was slow at first, but takes splendidly now.' H. Cole, of Ionia, writes, "Please forward 6 dozen Thomas' Electric Oil, I am nearly run out: nothing equals it. It is highly recommended by those who have used it." J. Bedford, Thamesville, writes —"Send at once a further supply of Electric Oil, I have only one bottle left. I never saw anything sell so well, and give such general satisfaction." J. Thompson, Woodford, writes—"Send me some more Electric Oil. I have sold entirely out. Nothing takes like it." Miller & Reed, Ulverton, P.Q., write—"The Electric Oil is getting a great reputation here, and is daily called for. Send us a further supply without delay." Lemoyne, Gibb & Co., Buckingham, P. O., write—"Send us one gross Electric Oil. We find it to take well.

Sold by all medicine dealers. Price 5 cents.

S. N. THOMAS, Phelps, N. Y.
and NORTHROP & LYMAN, Toronto, Ontario, Sole Agents for the Dominion.

NOTE—*Electric*—Selected and Electrized

JOB MOSES' FEMALE PILLS,

This well known medicine is no imposition but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, they contain nothing hurtful to the constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics and Whites, these pills will effect a cure when all other means have failed; and although a powerful remedy, do not contain iron calomel, antimony or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully reserved.

For full particulars, obtain free, of the agent a pamphlet, or refer to advertisement.

JOB MOSES, NEW YORK, SOLE PROPRIETOR.

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will insure a bottle, containing over 50 pills return mail.

For sale by all druggists. 25

DR S JACOBS, ON APHONIA, OR LOSS OF VOICE.—Orange Street, St John, N. B., 1869 – Mr. Fellows—Sir: I am bound to award the palm of merit to the preparation of Hypophosphites discovered by you. I had occasion to use it myself in a case of Aphonia, which would not yield to regular treatment, and am happy to say it proved to be all that you claimed for it, having acted with expedition and entire satisfaction. I feel called upon to publish the fact, that the profession may avail themselves of a remedy in your "Compound Syrup of Hypophosphites." Yours, very truly, S. Jacobs. 3555

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked. "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

March 17, 1874. 2518-12m

The New York Tribune.

THE CONSOLIDATION OF ITALY! so long fragmentary and impotent, into one powerful State, with Rome as its capital the humiliation of France through a series of crushing defeats, ending with the siege and capitulation of her proud and gay metropolis; the expulsion of the Bourbons from the Spanish throne, and the substitution for them of a scion of the most liberal among royal houses; the virtual absorption of the kingdoms of Saxony, Wurtemburg, Bavaria, with Baden, Hesse, the Hanse Towns, &c., under the headship of Prussia, into the triumphant and powerful empire of Germany; and the arming of Russia to re-assert her preponderance in the councils of Europe, or to prosecute her often postponed but never relinquished designs on the great city founded by Constantine, and the vast but decaying and anarchical dominion of the Sultan, all combine to invest with profound interest the ever changing phases of our tidings from the Old World. The *Tribune*, through trusted correspondents stationed at all points in Europe where great movements are in progress or imminent aims to present a complete and instructive panorama of events on that continent, and to mirror the prolonged struggle between middle age Feudalism and Ecclesiasticism on the one hand and Nineteenth-Century scepticism and secularism on the other. Recognising a Divine Providence in all that proceeds and is, it looks hopefully on the great conflict as destined (like our own recent convulsion) to evolve from strife, disaster, and seeming chaos, a fairer and happier future for the toiling masses of mankind.

In our own country, a war upon corruption and rascality in office has been inaugurated in our city, whereby the government of our State has been revolutionised through an initial triumph of Reform which surpasses the most sanguine anticipations. It is morally certain that the movement thus inaugurated cannot, in its progress, be circumscribed to any locality or any party, but that its purifying influence is destined to be felt in every part of the Union, rebuking venality, exposing robbery, wresting power from politicians by trade, and confiding it in those worthiest and fittest to wield it. To this beneficent and vitally needed reform, the *Tribune* will devote its best energies, regardless of personal interests or party predilections, esteeming the choice of honest and faithful men to office as of all New Departures the most essential and auspicious.

TERMS OF THE TRIBUNE.

DAILY TRIBUNE, Mail Subscribers, $10 per annum.

SEMI-WEEKLY TRIBUNE, Mail Subscribers, $4 per annum. Five copies or over, $3 each; an extra copy will be sent for every club of ten sent for at one time; or, if preferred, a copy of "Recollection a Busy Life," by Mr Greeley.

KEATING PERSIANS INSECT DESTROYING POWDERS.

This Powder is quite harmless to animals, but unrivalled in destroying Fleas, Bugs, Emmet Flies, Cockroaches, Beetles, Gnats, Mosquitoes Moths in Furs, and every other species of insect in all stages of metamorphosis. Sold in packet tins, and bottles of various sizes.

CAUTION.—The public are requested to observe that all the above preparations bear the Trade Mark as herein shown. Sold by all Chemists and Druggists.

DR. DE JONGH'S LIGHT BROWN COD LIVER OIL. The distinctive characteristics which have gained for Dr. DE JONGH'S Oil so much celebrity, the entire confidence of the most eminent members of the Medical Profession, and notwithstanding the active and unscrupulous opposition of many interested dealers, an unprecedented amount of public patronage may be thus concisely enumerated:—

I.—Its genuineness, purity, and uniform strength are ascertained and guaranteed.

II.—It contains all the active and essential principles that therapeutic experience has found to be the most effective in the operation of the remedy.

III.—It is palatable, easily taken, and creates no nausea.

IV.—It is borne with facility by the most delicate stomach and improves the functions of digestion and assimilation.

V.—Its medicinal properties and remedial action have been found to be immeasurably greater than those of any other kind of Cod Liver Oil.

VI.—From the unequalled rapidity of its curative effects, it is infinitely more economical than any which is offered, even at the lowest price.

CONSUMPTION AND DISEASES OF THE CHEST.

The extraordinary virtues of Dr. DE JONGH'S Light Brown Cod Liver Oil in Pulmonary Consumption may now be considered as fully established. No remedy so rapidly restores the exhausted strength, improves the nutritive functions or produces a more marked and favorable influence on the local malady.

The following high testimony to the efficacy of Dr. DE JONGH'S COD LIVER OIL in Consumption is afforded by ALLEN G. CHATTAWAY, Esq., M.R.C.S., L.S.A., of Leominster:—

"Having for some years extensively used Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL, both in public and private practice, I have no hesitation in stating its effects are very far superior to those of any other Cod Liver Oil. Nearly four years since, two cases of confirmed Consumption were placed under my care. In both, the lungs were a mass of tubercular deposit, and every possible sound to be heard in phthisis was present. The sole remedy employed was Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL; and now the patients are strong and fat; the diseased (abnormal) sounds nearly inaudible; and in the one case (male), hunting, fishing, and shooting, are freely indulged in, the patient expressing himself quite capable of undergoing as much fatigue as any of his fellow sportsmen."

GENERAL DEBILITY AND EMACIATION.

In cases of prostration and emaciation, where the vital forces are reduced, and where life appears to be even at its lowest ebb, the restorative powers of Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL are remarkably manifested. By its administration the natural appetite is revived, and the functions of digestion and assimilation are improved, reanimated, and regulated; and, when its use has been steadily preserved in, its peculiar tonic and nutritive properties have entirely restored health and strength to the most feeble and deteriorated constitutions.

The actual benefit derived is thus described by ROWLAND DALTON, Esq., M.R.C.S., L.S.A., District Medical Officer at Bury St. Edmunds:—

"In giving my opinion of Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL, I have no hesitation in saying that I have not the slightest confidence in any other kind. The effects of Dr. DE JONGH'S OIL are sure and most remarkable, especially in that broken down state of health and strength which usually precedes and favors tubercular deposit; and I never recommend any other sort. The Oil I have had from you was for my own use, and it has certainly been the only means of saving my life on two occasions, and even now, when I feel 'out of condition,' I take it, and like it, unmixed with anything, as being the most agreeable way. I could wish that Dr. DE JONGH'S OIL would come into general use, and entirely supersede the Pale and other worthless preparations."

SELECT MEDICAL OPINIONS.

From innumerable medical and scientific opinions of the highest character in commendation of Dr DE JONGH'S LIGHT BROWN COD LIVER OIL, the following are selected:—

Sir Henry Marsh, Bart., M.D., Physician in Ordinary to the Queen in Ireland.

"I consider Dr. De Jongh's Light Brown Cod Liver Oil to be a very pure Oil, not likely to create disgust, and a therapeutic agent of great value."

Dr. David Smith, F.R.S., Medical Officer to the Poor Law Board of Great Britain.

"We think it a great advantage that there is one kind of Cod Liver Oil which is universally admitted to be genuine—the Light Brown Oil supplied by Dr. De Jongh. It has long been our practice, when prescribing the Oil, to recommend this kind, since, amidst so much variety and uncertainty, we have confidence in its genuineness." (Extract from "Consumption: its early and Remediable Stages.")

Dr. Barlow, F.R.S., Sen Physician to Guy's Hosp.

"I have frequently recommended persons consulting me to make use of Dr. De Jongh's Cod Liver Oil. I have been well satisfied with its effects, and believe it to be a very pure Oil, well fitted for those cases in which the use of that substance is indicated."

Dr. Lawrence, Physician to H.R.H. the Duke of Saxe-Coburg and Gotha.

I invariably prescribe Dr. De Jongh's Cod Liver Oil in preference to any other, feeling assured that I am recommending a genuine article and not a manufactured compound in which the efficacy of this invaluable medicine is destroyed."

Sir Joseph Olliffe, M.D., Physician to the British Embassy at Paris.

"I have frequently prescribed Dr. De Jongh's Light Brown Cod Liver Oil, and I have every reason to be satisfied with its beneficial and salutary effects."

Lankester, F.R.S., Coroner for Central Middlesex.

"I consider that the purity of this Oil is secured in its preparation by the personal attention of so good a Chemist and intelligent a Physician as Dr. De Jongh, who has also written the best Medical Treatise on the Oil with which I am acquainted. Hence, I deem the Cod Liver Oil sold under his guarantee to be preferable to any other kind as regards genuineness and medical efficacy."

THE ROYAL READERS,

A NEW SERIES OF ILLUSTRATED ENGLISH READING-BOOKS.

From Mr. M. Patterson, Rector of the Free Church Training School; Moray House, Edinburgh.

"Thanks for the Specimen of your new Reading Books and Sheets. . . . They are admirable in every particular. Nothing, in my opinion, would more contribute to the improvement of Education than the wide circulation of these books, and the intelligent handling of them."

From A. Montgomerie, L.L.D., Principal of Ladies' College Glasgow.

"I have examined very carefully the 'Printing,' and Nos. I., II., and III. of the *Royal Readers*, and have no hesitation in saying that they are, in my opinion, incomparably the best English Reading-Books that have ever been published. The adaptation of the means to the end in view is perfect."

From T. Morrison, M.A., Rector of the Free Church Normal School, Glasgow.

"I have very carefully examined the *Royal Readers*. The plan is excellent, and the execution, if I may say so, even better. They are out of sight the best series of Reading-books published and should very speedily be widely used. The Illustrations constitutes an admirable features and add much to the value of the *Readers*

PINE LANDS.

OVER 900,000,000 FEET, well located mainly on the rivers leading into Lake Michigan. The numerous streams and lakes surrounded with pine timber along the line west of Reed City, offer the best of locations for mills, where logs can be held safely free of expense, and free from the annoyance of Boom Companies. The railroad direct to East Saginaw and Toledo offers the best source of supplies, and never failing market for Lumber Shingles, etc., which may be delivered anywhere on the line.

POSTPONEMENT.

FIFTH AND LAST CONCERT

In aid of the

PUBLIC LIBRARY OF KENTUCKY.

DAY FIXED AND A FULL DRAWING ASSURED,

—ON—

MONDAY, 30th NOVEMBER, 1874.

LAST CHANCE FOR

An Easy Fortune.

A postponement of the Fifth Concert of the Public Library of Kentucky has been so generally anticipated, and is so manifestly for the interest of all concerned, that it must meet the approval of all. The day is now absolutely fixed, and there will be no variation from the programme now announced. A sufficient number of tickets had been sold to have enabled us to have had a large drawing on the 31st July, but a short postponement was considered preferable to a partial drawing. Let it be borne in mind that

THE FIFTH GIFT CONCERT

Is the last which will ever be given under this charter and by the present management,

That it will positively and unequivocally take place as announced, on

MONDAY, 30TH NOVEMBER,

That the music will be the best the country affords, and that

CLARKE'S

WORLD FAMED BLOOD MIXTURE

Trade Mark—"BLOOD MIXTURE."

The Great Blood Purifier and Restorer

For cleansing and clearing the blood from all impurities, cannot be too highly recommended.

For Scrofula, Scurvy, Skin Diseases and sores of all kinds it is a never-failing and permanent cure.

It cures old sores,
Cures ulcerated sores on the neck,
Cures ulcerated sore legs,
Cures blackheads, or pimples on the face,
Cures scurvy sores,
Cures cancerous ulcers,
Cures blood and skin diseases,
Cures glandular swellings,
Clears the blood from all impure matter,
From whatever cause arising.

As this mixture is pleasant to the taste, and warranted free from anything injurious to the most delicate constitution of either sex, the proprietor solicits sufferers to give it a trial to test its value.

Thousands of testimonials from all parts.

Sold in bottles 2s 3d each, and in cases, containing six times the quantity, 11s each—sufficient to effect a permanent cure in the great majority of long-standing cases, by all chemists and patent medicine vendors throughout the world.

Caution.

GENUINE PANCREATINE

PANREATIC EMULSION.

The efficacy of these Medicines in the treatment of Indigestion, Bronchitis, Pulmonary Catarrh, Consumption, Wasting, &c., &c., depending entirely upon their purity and strength, Messrs SAVORY & MOORE caution the public against imitations of them which are put forth as possessing the remedial properties of the true preparations, but which are in reality either saponaceous compounds, ointments or pomades, without a trace of the Pancreatic principle and entirely unfit and useless as medicines. These imitations are calculated to produce serious disappointment and to affect the reputation which the genuine Pancreatine and Pancreatic Emulsion have acquired. It is therefore highly important that purchasers examine the labels on the bottles for the names and Trade Mark

"SAVORY & MOORE,"

The Original and only Manufacturers, Chemists to the Queen, H.R.H. the Prince of Wales, H.I.M. Napoleon the Third, His Highness the Khedive of Egypt, &c.

143 NEW BOND STREET, LONDON.

Extract from an Analytical Report on a Foreign Specimen of a so-called Preparation of Pancreatine.

"This compound resembled an Ointment or Pomade in appearance and consistency, and was flavored with Essence of Almond or Prussic Acid. It was slightly alkaline, indicating free alkali, which acting upon the fat, produced the saponifying result; the whole forming a granular moist mass of fat, soap, glycerine and water. This ointment was physically and chemically different from the true Pancreatic Emulsion which I have also examined, and which, besides being true Pancreatic juice, has the delicate appearance and consistency of cream, is palatable and readily taken."

LEA & PERRINS
CELEBRATED
WORCESTERSHIRE SAUCE.
DECLARED BY CONNOISSEURS
TO BE
THE ONLY GOOD SAUCE.
CAUTION AGAINST FRAUD
The success of this most delicious and unrivalled Condiment having caused certain dealers to apply the name of "Worcestershire Sauce" to their own inferior compounds, the Public is hereby informed that the only way to secure the genuine is to
ASK FOR LEA AND PERRINS' SAUCE,
and to see that their names are upon the *wrapper labels, stopper, and bottle*.
Some of the foreign markets having been supplied with a spurious Worcestershire Sauce, upon the wrapper and labels of which the names of Lea and Perrins have been forged, L. and P. give notice that they have furnished their correspondents with power of attorney to take instant proceedings against *Manufacturers* and *Vendors* of such, or any other imitations by which their right may be infringed.
Ask for LEA & PERRINS' Sauce, and see Name on Wrapper, Label, Bottle, and Stopper.
Wholesale and for Export by the Proprietors Worcester; Crosse and Blackwell, London, &c. &c. and by Grocers and Oilmen universally.

PROVINCE OF ONTARIO
PARLIAMENTARY NOTICE.
LEGISLATIVE ASSEMBLY OF ONTARIO,
Toronto, 14th September, 1874.

49. No Petition for any Private Bill is received by the House after the first three weeks of each Session; nor may any Private Bill be presented to the House after the first four weeks of each Session.

51. All applications for Private Bills, properly the subject of legislation by the Legislative Assembly of Ontario within the purview of "The British North America Act, 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road, or Telegraph Line; the construction or improvement of a Harbour, Canal, Lock, Dam, or Slide, or other like work; the granting of a right of Ferry; the incorporation of any particular Trade or Calling, or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community; or for making any amendment of a like nature to any former Act,—shall require a Notice, clearly and distinctly specifying the nature and object of the application, to be published as follows, viz:—

A Notice inserted in the *Ontario Gazette*, and in one newspaper published in the County, or Union of Counties affected, or if their be no paper published therein, then in a newspaper in the next nearest County in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition.

For further particulars see *Ontario Gazette*.
CHARLES TODD GILLMOR,
3671-tf Clerk of the House.

Notice to Contractors.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Examining Warehouse, Toronto," will be received at this Office until MONDAY the 5th day of October next, at noon, for the erection and completion of the above building. Plans and Specifications can be seen at the office of William Irving, Esq., Architect, Yonge Street, Toronto.

Contractors are notified that Tenders will not be considered unless made strictly in accordance with the printed forms,—and in the case of firms—except there are attached the actual signature and the nature of the occupation and place of residence of each member of the same.

For the due fulfilment of the Contract, satisfactory security will be required on real estate or by deposit of money, public or municipal securities, or bank stocks, to an amount of *five per cent* on the bulk sum of the Contract.

To the Tender must be attached the actual signatures of two responsible and solvent persons residents of the Dominion, willing to become sureties for the carrying out of these conditions as well as the due performance of the works embraced in the contract.

This Department does not, however, bind itself to accept the lowest or any Tender.

By order,
F. BRAUN,
Secretary.
Department of Public Works,
Ottawa, 15th September, 1874.

NOTICE TO CONTRACTORS.

Sealed Tenders addressed to the undersigned, and endorsed "Tender for Firewood," will be received at this office until Thursday, the 1st day of October next, at noon, for the supply of Firewood for the use of the Public Buildings, Ottawa, according to the specification to be seen at this office, where forms of Tender can also be obtained.

The Department will not be bound to accept the lowest or any Tender.

By order,
F. BRAUN,
Secretary.
Department of Public Works,
Ottawa, Sept. 14, 1874. 3674-6

Evan's Cottage, Sparks St
Ottawa, Sept. 3, 1874.

WEST MIDDLESEX.

Glencoe Demonstration—Great Speech by Hon. Mr. Fraser.

Continued from our last.

If the appropriation were for public buildings, they wanted to know what they were and where they were to be situated. If for railways, they wanted to know what they were, and what road was to be aided before the money was gone. In that also he was defeated, and then he said, "If you won't do that, at least, before you give the money away, let the Orders in Council be published in the *Ontario Gazette*." Mr. Sandfield Macdonald's answer in effect was—"We are an honest Government, and therefore we will honestly distribute this million and a half in aid of railways, and the people will be satisfied." Mr. Blake answered they were not dealing with the honesty or dishonesty of the Government, but a principle which should bind all Governments whether honest or dishonest, and all Premiers, whether righteous or unrighteous. So of course, as they could not get the Government to submit their approbations to Parliament, the Opposition had to oppose the scheme. The railway aid resolution was, however, carried by a large majority, and the Province, so far as it could through its representatives, ratified the proposal to give that million and a half in aid of railways. If Mr. Blake had actually refused to assent to the giving of a dollar to railways, yet, as the pledged faith of the country had been given by that legislation, it was Mr. Blake's bounden duty when he assumed the reins of power to see that the will of the country was carried out whether he liked it or not. But when they remembered that he had never been opposed to giving aid to railways, and was statesman enough to see that it was not enought to aid those just then projected, but that others to be projected would require aid as well, they would understand why, finding that the sum voted had been already more or less directly or indirectly pledged, he asked for $400,000 more and $100,000 a year for twenty years to come. He (Mr. Fraser) considered that that was excellent legislation, and that nothing was more likely to promote the prosperity of Ontario than the course then adopted. If one thing more than another would keep them advancing with rapid strides, it was the aid which they had been giving to railways, for to his mind it was the system of railways spreading like a net work over the Eastern and Western States that had so wonderfully increased the prosperity of the neighbouring Republic. He thought he had now satisfied them that there was nothing in the allegation that the Reform party advocated one thing when in Opposition and another when in power in reference to these two matters, and so it was with regard to all the other cries of inconsistency which were raised against them. [Cheers.] But their opponents said, 'Well, you are a corrupt set of fellows any way. You are squandering the people's money and increasing the expenditure from year to year, while the Sandfield Macdonald Government saved the people's money, and left you three millions and a half when they went out of office.' It was the bounden duty of every man discussing public affairs to give the people the truth. He had gone over a few of the speeches of the leaders of the Opposition as reported in the *Mail*, in which paper it was rather more than suspected that they wrote one another up [laughter], and he was going to give his hearers a few figures to show the foundationless character of the statements which were made in these speeches. These gentlemen had held a meeting the previous night in Toronto. They were going to have a grand Convention, and when they had laid their plans they they fancied there would not be a shadow left of the Grits in Ontario, but they forgot that, as Bobby Burns said,

> "The best laid schemes of mice and men
> Gang aft agley."

No one would accuse Mr. M. C. Cameron of trying to mislead people, but nevertheless he found that at this meeting that gentleman had made some extraordinary statements. He and his friends had talked last session of sitting "till the sunny days of August," to prevent him (Mr. Fraser) getting on the Public Accounts Committee, and whenever Mr. Cameron made a speech he did not forget the grievance of his (Mr. Fraser's) being allowed to go on that committee instead of his chief, Mr. Mowat, whose time was fully taken up, and who was chairman of two other committees, and desired to substantiate another member of the Government for himself. Mr. Cameron was reported in that morning's *Mail* to have said, "Those present would be aware that there was a Public Accounts Committee held last session, and they would also remember that it was usual for committees of the House to be mainly composed of the friends of the Government. He thought that custom was pernicious rather than beneficial to the interests of the people." Why did not Mr. Cameron see to that when he was a member of the Government? All the time John A. and John S. had been in power all the Standing Committees had been invariably composed in that way, whether in Old Canada, the Dominion Parliament, or the Legislature of Ontario. Mr. Cameron went on—"The people's representatives in the Government should be ready to show the people's representatives not in the Government that they had been doing everything in a fair and above-board manner. They should say, 'There is the item expenditure, and there is the receipt. Whether we stand or fall we want everything investigated; we don't wish to fill the Committee with bigoted partisans in order that they may shelter us.'" Unfortunately, that was not the way the Government of Ontario acted with the great power at its back. His audience would be aware that in the Public Accounts Committee last year the Government majority was stronger than any other Committee. As it was discovered that the latter was not characterized by enough delay, a motion was made in the House by the Government to the effect that some one should be placed on the Committee who would keep the investigations from being proceeded with too rapidly. What did they think of that statement by the leader of the Opposition—"That a motion was made to the effect that some one should be placed on the Committee who would keep the investigations from being proceeded with too rapidly?" Did they imagine that any man who led a Government would be foolish enough to make a motion of that kind? But Mr. Cameron continues: "Mr. Fraser was immediately appointed—(the House was so easy and agreeable)—and he took good care that very little should be discovered. They might like to know how he managed that. They would be aware that the Committee could only sit for a few hours in the morning, and during that time it had to go through the whole expenditure of the year, which amounted to $2,500,000. Well, the time at the disposal of the Committee being so short, they could not search into the various items, and besides this, obstacles were thrown in their way when they asked for information, the result being that a satisfactory investigation could not be made." He (Mr. Fraser) could tell them how the proceedings of that Committee were delayed. These gentlemen of the Opposition, after all their searching, found that the only article they could fasten upon was a fence (laughter), and they straddled that fence to their heart's content. (Renewed laughter.) They produced witness after witness in the endeavor to prove that Mr. McKellar must have been an outrageous scoundrel in building that fence. (Laughter). The Government, as a matter of course, did not remain quiet and allow these gentlemen to bring only their own witnesses. No, the Government brought forward the foremost men in Toronto in their trades, and they put their prices upon the work, and they could find in the public records the whole investigation, and a full justification of the Government. The Opposition members of the Committee were the whole cause of delay. They endeavored to find something on which they could fasten, and failed most ingloriously in doing it. But what he wished particularly to call their attention to was Mr. Cameron's statement that there should not be political partizans on these Committees. He supposed it would be all right if those Committees were composed of Tories such as Mr. Rykert, Mr. Lauder, Mr. Boultbee and Mr. Cameron. Of course they would not be partizans! (Laughter.) If there were any doubt they would be sure to give it in favor of the Government. Did they not always pursue that course? Mr. Rykert was reported in the *Mail* of the 20th of August to have said at the Burford meeting.—"Moreover, those new in office had every year exceeded their appropriations. In 1870 Sandfield Macdonald asked for $120,970, and expended $104,900; in 1871 he got $122,000, and expended $114,000, thereby keeping within his appropriations; but the moment Reformers set to work they exceeded their appropriations every year." He (Mr. Fraser) said it was a deliberate misstatement to say that Sandfield Macdonald never exceeded his appropriations. Mr. Rykert did not say to what items he referred, whether to Civil Government, Legislation, Immigration, or anything else, but he (Mr. Fraser) had looked them up and found that they referred to Civil Government. Mr. Rykert's object was to make the people believe that the present Government alone had exceeded their appropriations, and were to be condemned because they were violating a well-understood principle of responsible Government, that no money should be expended upon any particular work unless it was first voted, or in some manner assented to, by the people's representatives in the House. This was a well-understood principle, but at times an excess of expenditure was necessary. In making the comparison Mr. Rykert was misquoting the Public Accounts. Besides, he lumped together all the items under the head of Civil Government, and said the total appropriation had been exceeded by the present Government. It would be just as logical to have lumped together the whole expenditures of last year, and have said that the present Government had not exceeded the total appropriation, as to lump only the departments together after Mr. Rykert's fashion. The true way was to take each particular item of appropriation as shown by the journals, and show the sum over or under expenditure upon it. Now, suppose they had a public building for which $100,000 was appropriated, and they discovered when it was about being concluded that it would require $5,000 or $6,000 more, who would say it was really a violation of the principle just mentioned to expend that amount? Or, suppose $50,000 was voted for Civil Government and they required a little more, were they to stop the distribution of the statutes, for instance, till the next year? What absurd folly it was to make a principle of that kind a cast iron rule, never, under any circumstances, to be set aside. Suppose they took $100,000 for the law courts, and $10,000 or $15,000 more were required, it was always taken by Governments. He did not condemn Sandfield Macdonald for exceeding his appropriations when he did, but he condemned the man who deliberately misquoted the Public Accounts in order to make an unfavorable comparison with the present Government. If they turned to pages 53 and 54 of the Public Accounts of 1868, they would find that Sandfield Macdonald exceeded his appropriations by only $6,506. In 1869 (pages 105, 106, and 109 of the Public Accounts) he exceeded his appropriations by $50.426, in which there was an excess on legislation alone of $47,000, and on immigration of $15,300. And yet Mr. Rykert said it was only when the Reformers came into power that the appropriations were exceeded. He did not think, however, that Mr. Rykert would have the audacity to say that John A. never exceeded his appropriations. In 1870 (pages 112 and 113 Public Accounts) the total excess over appropriations was $48,469, that on the London Asylum being nearly $20,000. In 1871, the last year of Mr. Macdonald's Government, the excess (pages 130, 131, and 132 Public Accounts) amounted to $22,990. At the Clifford meeting, too, Mr. Boultbee was reported to have said:—"The annual expenditure had increased from about $1,800,000 under Sandfield Macdonald's Government to about $2.700,000 under the present men." That was a very reckless misstatement, but not so bad as Mr. Rykert's, who, at the Burford meeting, said, as reported in the *Mail*—"The first year the Reformers took office (1872) they spent $1,947.956; in 1873, $2 560.212; and in 1874, $2,833,206." Now that was a more reckless statement than Mr. Boultbee's. He would say deliberately, and with a full strength of the word, he used, that a more gross misstatement was never made by a man professing to have the affairs of the country at his finger tips. The actual expenditure of any year was always less than the appropriations. Every year that Sandfield Macdonald was in power he spent less than he took by way of appropriation at the commencement of the year, and every year that the present Government had been in power they had done the same thing. They had saved an average of about half a million dollars on every year's appropriations; and yet, in face of this fact, in making their comparisons between 1871 and 1874, Mr. Rykert and Mr. Boultbee took as the actual expenditure for this year every single dollar of the estimates, and told the people of this Province what they knew would not turn out to be the case—that the expenditure would be the whole appropriation, and even more, for Mr. Rykert put into the amount $100,000, being the annual sum which was appropriated three years ago for aid to railways. What did they think of public men who discussed public affairs in that style? If he calculated in the same way he would take Sandfield Macdonalds expenditure for 1871, and add to it the million and a half he took for aid to railways. They might take even the amount which the present Government were distributing among the municipalities, and claim that to be a part of the year's expenses. Mr. Rykert not only added that $100,000 to the estimates for 1874, the expenditure of which was not yet completed, and no doubt would leave a saving of at least half a million of dollars, but he deliberately added a like sum of $100,000 to every year's expenditure since the Reformers came into power—1872 and 1873—in order to swell up the figures. The entire Supply Bill of 1875, if every dollar were expended, only amounted to $2,672.295. So Mr. Rykert's figures should have been for 1872 not $1,947,000, but $1,847 000, for 1873 not $2,560 000 but $2 360,000, and in regard to 1873 he should not have said the expenditure amounted to the whole of the estimates, when every one knew it was always largely within the amount appropriated. The assertion of both of these gentlemen amounted to this, that the Government were largely increasing the expenditure of the Province that between 1871 and 1874 the increase had been so large and so rapid that the Government deserved condemnation for it.

To be Continued.

HAVE YOUR CLOTHING MARKED.—In a life time it will save you many dollars and afford much gratification. Parson's Indelible Ink is indispensible for this purpose, it needs no preparation, it will not injure the finest fabric and can be used with a common pen. 8677.

The Ottawa Times

WEDNESDAY, SEPTEMBER 23, 1874.

We understand that Hon. William Macdougall, C. B., has left England for Canada.

The marriage of the daughter of Hon. Letellier de St. Just to Mr. Edward O'Connor of this city takes place at Riviere Ouelle to-day.

Yesterday being the thirtieth anniversary of the entrance of Mr. G. F. Baillairge, C.E. of the Public Works Department, into the public service, he was waited upon at his residence by a number of friends and presented with a handsome testimonial, consisting of a silver ice pitcher.

Mr. Richard Tooley, the sitting member, has been nominated by the Tory convention for re-election to the Local Legislature for East Middlesex. Mr. James Evans will again oppose him in the Reform interest, and there is every probability that Mr. Tooley, who is a poor representative at best, will be beaten.

Counsel for respondent in the Addington contested election trial, on Monday, fyled affidavits acknowledging corrupt practices on behalf of supporters, but denying personal corruption. Counsel for appellant accepted the plea on behalf of his client, and the judge accordingly declared the election void. We learn that Mr. Shibley was immediately nominated by the Reform party for re-election, and has already issued his address to the electors, of the county.

We learn with great regret that Mr. William Thornton Urquhart, Clerk of the Northwest Council, is dead. Mr. Urquhart belonged to a Scotch family, and has been in Canada for some eight or nine years. He was successively editor of the Hamilton *Spectator*, Montreal *Daily News*, and afterwards of THE TIMES. It was while acting in the latter capacity that he was appointed Clerk of the Northwest Council. He was an author and poet of some note, and an able and painstaking editor. He was appointed Deputy-Governor of Manitoba for settling half-breed claims in 1873.

The nomination of the Kingston Tories for the forthcoming contest for the Local Legislature has been a-begging for some weeks, and has been refused in turn by Dr. Strange—the great "dismissed" of the Penetentiary,—Mr. Henry Cunningham, Mr. John McIntyre, and numerous others. Now they have succeeded in getting Ald. Drennan, at one time Mayor of the city, to consent to sacrifice himself. The Kingston Reformers seem well pleased with the nomination, and look upon Mr. Drennan as just as easy to beat as any one who could be named. Mr. Robinson would be re-elected against any opponent.

"We are glad," says a Tory organ, "to "learn that Mr. Bannerman has accepted "the nomination of the Liberal Conserv- "ative party in South Renfrew, in opposi- "tion to Mr. Lorn McDougall." So are we. It is curious to find such a general agreement of opinions on a subject of this nature. But everybody seems pleased. We confess there are few better candidates in the ranks of the the party in South Renfrew than Mr. Bannerman—few, we mean, who can poll fewer votes, or whose seat, were there the slightest chance of his winning one, would more certainly go the way of all the rest.

In confirmation of the practicability and wisdom of the policy of the Minister of Pubic Works in utilizing the water stretches of the North west, pending the construction of all rail communication across the continent, intelligence has just been received of a most satisfactory nature. The Hudson Bay Company's new steamer 'North-ote,' 150 feet keel, has ascended at low water from the Grand Rapids, at the mouth of the Saskatchewan, to Carleton in twelve days. From Carleton there is, during the season, no impediment of any kind at any time to navigation for a considerable distance beyond Edmonton. It is thus made clear that the Saskatchewan is navigable for almost its entire length.

The Very Reverend Edmond Langevin, Vicar-General of the Diocese of Rimouski, whose writings have not been the least interesting of recent contributions to Canadian historical literature, has prepared a *Life of Francois de Laval de Montmorency, first Bishop of Quebec*, which will be given to the public within a few days. We have been permitted to examine the advance sheets of this work, and can speak in terms of unqualified praise both of its literary merits and typographical appearance. A fine portrait of the great Canadian prelate, that adorns the front part of the book, and an appendix containing forty one of his and other letters relating to the Diocese, as well as historical notes on the Chapter of the Quebec Cathedral, will add greatly to the value of Mr. Langevin's undertaking, which coming as it does on the eve of the great religious anniversary in the "Ancient Capital," makes the work of additional interest at the present juncture. The Lovell Printing and Publishing Company are the publishers.

The London Board of Trade some time ago met and condemned the proposed Reciprocity Treaty with the United States. Of course, everybody knew they would. But thereby hangs a tale. The Tories of London, having been able to gain control of the Board, recently black-balled every Reformer proposed as a member, and such of the members as were themselves of the same political faith as the gentlemen thus insulted, immediately withdrew from all connection with the corporation. Seeing that the Tories have thus the whole institution to themselves, who could expect them to do other than condemn the Reciprocity Treaty?

CABINET CHANGES.

The announcement of the resignation of the Hon. Mr. Ross, Minister of Militia, is premature. We are authorized to state, however, that the hon. gentleman contemplates tendering his resignation at an early day. We believe we are correct in stating that he has positively declined to accept the Collectorship of Customs at Halifax, and that he will continue to represent upon the floor of the House of Commons as a private member the County of Victoria, which has so frequently returned him as its member, and in various ways expressed its confidence in him as a public man. Of course as Mr. Ross has not yet tendered his resignation, and it has therefore not been considered by his colleagues, any statements regarding a probable successor are mere speculations.

THE PREMIER OF BRITISH COLUMBIA.

We notice from a recent number of the Glasgow *Herald* that the Hon. G. A. Walkem, the Premier of British Columbia, had been paying a visit to Greenock, and during his stay he made a minute examination of the Garvel Graving Dock, with which he seemed to be very much pleased. The *Herald* further announces that Messrs. Kinniple & Morris, of Glasgow, have been selected as engineers for the projected Esquimalt Graving Dock. It adds that all the recent improvements which have been made on the Greenock docks, and which have made them so attractive and added so largely to their usefulness, will be adopted in the construction of that to be built at Esquimalt. As they have proved not only so useful but so economical in Greenock, it is safe to say that similar results may be expected on the Pacific coast. The Greenock patented "caisson," which is the first of its kind and is somewhat remarkable in its way, will also be used in the Esquimalt dock.

ANOTHER LIBEL.

The Hon. L. S. Huntington has entered an action in the Montreal Courts against the *Gazette*, to the amount of $100,000, for libel, on account of a scurrilous personal attack made upon him in that journal in connection with the Canadian Copper and Sulphur Pyrites Company, who are defendants in certain law suits pending. It is a remarkable incident that Mr. G. A. Drummond, a *protege* of the *Gazette*, a friend of Mr. Tom Waites' and a quondam Conservative candidate for Montreal-West, is one of the directors of the said company, a responsible party to the suit brought against it, and yet his name has never been mentioned by the *Gazette* in connection with what it has been pleased to term "wicked frauds." The *Gazette*, having acquired a cheap reputation for impersonality in journalism has of late been trading on it somewhat too extensively, as it may yet learn to its cost. The latest exhibition of its indecency has been the ungentlemanly manner in which it has retailed garbled accounts of private conversations occuring between the Hon. Senator Penny and Mr. Bulmer, one of the directors of the Arts Association—conversations which neither Mr. Penny nor Mr. Bulmer ever intended should have been made public property.

CITY AND VICINITY

Large lot (7,500) of Stove Pipes. Inducements will be given to parties wishing a quantity for cash only, at C. P. Dorion, 81 and 83 Sparks Street, Ottawa. 3679

SOCIAL.—The Congregation of Bank Street Presbyterian Church inaugurated the Social season last night by a very successful fruit festival.

ARRIVAL OF THE PRUSSIAN.—The s. s. 'Prussian' from Liverpool arrived at Father Point *via* Halifax and St. John. 18th Sept., at 11:20 a.m., bringing 7 cabin and 49 steerage passengers.

CONVALESCENT.—Mr. James Reilly, driver of the 'Conqueror' steam fire engine, who has been seriously indisposed for several days past, is now convalescent, and has resumed his duties at the Station

Just arrived and now for sale at great reduction, having bought at a very low prices the following goods: Stoves of all kinds, japanned, planished and plain Tinware, Lamps and Coal-Oil, Cutlery, Axes, Nails of all sizes at C. P. Dorion, 81 and 83 Sparks street, Ottawa. 3679

STREET CROSSING.—The street crossing at the corner of Elgin and Maria Streets is in a disgraceful condition. The mud is ankle deep. This is always a bad locality during the muddy season, and this fact being known the Board of Works should strive to remedy the grievance.

MORE RIFLE MATCHES.—The Metropolitan Rifle Association commence their Shooting matches to-morrow (Thursday) morning. A good meeting is anticipated On the conclusion of this match the G. G. F. Guards will hold their usual annual Rifle Tournament. They expect to begin on Saturday morning.

THE HOSE TOWER.—The contractor for the erection of the new hose tower on the George Street Fire Station, is pushing forward the work, so that another ten days or a fortnight will see the structure completed. The tower does not present a very handsome appearance, but it will no doubt answer the purpose for which it was built.

For Bunnell's Patent Washer, Shorey & Co.'s Royal Canadian Wringer, Polygonal Turning, Furnaces, Stoves and Stove Pipes, fitted up in a workmanlike manner, go to C. P. Dorion. Also on hand and for sale very cheap 7,500 Stove Pipes of all kinds at our well known townsman, C. P. Dorion, 81 and 83 Spark Street, Ottawa, Ont. 3679

REFORM ASSOCIATION.—The Executive Committee of the Reform Association meets this evening at 7:30 o'clock in the Reform Hall, Bang's Block, opposite the Russell House. As business of importance is to engage the attention of the Committee, it is to be hoped every member of the Executive will be present.

QUERY.—What is the reason that Dufferin Bridge is left without lights to guide foot passengers and vehicles passing across the structure? At the present time it is positively dangerous to cross the bridge of a dark night, made doubly so by the break-neck speed at which carriages &c., are driven by reckless men and thoughtless lads.

LEVEL THE ROAD.—The Corporation would confer a great boon on the travelling public by levelling the street at the eastern approach to the Sappers and Dufferin Bridges, and removing the loose stones which are strewn about. They are a source of much inconvenience and annoyance to pedestrians, especially when darkness sets in.

REMIT ON UNION.—The question of Presbyterian Union comes before the congregation of the Bank Street Canada Presbyterian Church this evening. This will be the last of the churches of that denomination that has to consider the Remit on Union in this city, and from present indications it would seem that it will be adopted unanimously.

CHURCH LITERARY SOCIETY.—The young men in connection with Bank Street Presbyterian Church meet to-morrow evening in that edifice to take such measures as may be deemed necessary to form a Young Men's Literary Society in connection with that Church. The project is one that cannot but commend itself to the young men of the Congregation.

ARRIVALS AT THE RUSSELL HOUSE.—J Livesey, Nova Scotia; John Fulton P. A. Bulmer, Montreal; J W Langton, Halifax; Alex Fraser, Westmeath; Henry A Fowler, and Regnald W Fowler, England; M Goitchins and wife, J H Thorpe, New York; James Maclaren, Buckingham; M R Bingham, Hamilton; J R Foley, Edinburgh; D A Lajoie, Montreal.

THE GUARDS' BAND.—The band of the G. G. F. Guards will play a choice programme of music on Parliament Square this (Wednesday) evening at 7.30 p.m. The time is fixed somewhat earlier than usual, owing to the rather unfavorable state of the weather. Mr. Carter seems determined to cater for the public amusement as long as it is at all possible to play in the open air. This generosity of his merits something more than the mere gratitude of the citizens.

AN IMPORTANT AUCTION SALE.—The attention of our readers is called to an advertisement in another column of an extensive and important Auction Sale of Household effects, horses, carriages, sleighs and a variety of other articles. Mr. Rowe his received instructions from Dr. Sweetland to dispose of the above articles at the dwelling adjoining Mr. Charles Magee's residence on Albert Street. The sale will begin to-day at one o'clock p. m., at the above place. This is a splendid opportunity for any desirous of receiving good bargains.

DOMINION ATLAS.—The advance sheets of Walker & Miles' Atlas of Canada were shown us yesterday. This work is being published under the distinguished patronage of His Excellency the Governor General and subscribed to by the members of the Government as well as the leading business men throughout the Dominion, will, no doubt receive the support it deserves from the citizens of Ottawa. It will fill a corner in every library and supply a want long felt by all classes of the community. Messrs. Mara & Maingy, Elgin Street, have been appointed general agents for Central Canada.

GONE TO TORONTO.—The Civic Deputation, together with some other seventy-five of our most prominent citizens, left yesterday to attend the Provincial Exhibition now being held in Toronto. The pressure on the Grand Trunk to supply passenger cars is very great. The trains for the last couple of days have been very much crowded, and in consequence very uncomfortable to the passengers. This, however, is a usual thing on the occasion of the great Fair and is therefore borne with every degree of patience.

CHANGE OF GUAGE.—The Eastern section of the Grand Trunk Railway will undergo the change from a broad to a narrow guage between Friday and Monday next, the 26th and 28th of September. The last through broad guage trains on the Montreal and Portland, Richmond and Quebec, and Quebec and Riviere-du-Loup Districts, will run on Friday. Saturday the change will be effected throughout the entire route, and on Monday, the 28th inst., through trains on the narrow guage principle, and in accordance with the new time tables will commence running. As will be remembered the Western districts were changed a year ago.

RINK MUSIC HALL.—Last evening owing to continued indisposition Mr. E. H. Brink did not appear. In lieu of "Lady of Lyons" was presented "The Gypsy's Vengeance" which, considering all things, was very creditably given, and deservedly applauded. In cases of emergency Lindley is a show himself. He struggles against evrey obstacle like all as carries the world of comedy on his own shoulders. To-night the management announces the engagement of the "McMillan Family" three artistes of unusual merit and great dramatic excellence who appear in the play 'Ingomar.' Mr. Lindley will also introduce his vocal burlesque "The Mulligan Guards," Mr. McMillan as "Ingomar" has the reputation of being the finest that has ever appeared in Chicago and Cincinnati and we expect that these artists will draw a good house.

FALL IMPORTATIONS.—N. Faulkner, Sign of the Maple Leaf, Sussex street, will offer for sale from Tuesday, 22nd inst., 500 Ladies' Waterproof Mantles, 40 per cent below cost. Large stock of Ladies' Underclothing, to be sold without reserve. 100 pieces Hoyle's prints at 13 cents; 100 pieces Ashton prints, at 12½ cents; 100 pieces Wincey, worth 17 cents for 13 cents; 100 pieces Wincey, worth 20 cents for 17½ cents; 100 pieces Wincey, worth 27½ cents for 23 cents; 200 pieces home-made flannel, worth 55 cents for 45 cents; 50 dozen Men's grey woollen drawers and shirts, worth $1 for 80 cents; 50 dozen Men's flesh-coloured drawers and shirts, worth $1.25 for $1.00 A complete assortment of Dry Goods and Millinery on hand, selling at a small advance over cost, owing to the scarcity of money. A call is respectfully solicited, and an inspection of the stock before purchasing elsewhere. Remember the place, Sign of the Maple Leaf. 3679.

Police Court.

Before M. O'Gara, P M.

TUESDAY, Sept. 22.

There was a regular field day yesterday at the Police Court. The Magistrate had his hands full.

Martin Breen was arraigned as one who participated in a drunken fight on Clarence street on Monday night. He was fined $5 and costs.

Charles Merchant, another victim of the Clarence street row was mulcted in $10 and costs or go to gaol for a week.

John Merchant who was also in the scuffle was relieved of $8 and costs.

William Merchant was lucky enough to get discharged.

Philip Boyle arrested for being drunk was fined $2 and costs.

John Laplante, a disturber of the peace on Murray street, was asked to contribute $3 and costs to the City Exchequer.

George McCullough arrested for drunken and disorderly conduct, was fined $5 and costs or be committed for a week. He went to *durance vile*.

J. Morence, arraigned on a similar charge was asked to pay $3 and costs. In default he went to *limbo* for three days.

John Sweeney remanded from the previous day, was discharged on a promise of sobriety in the future.

Wm. Lowe charged with the larceny of $10 from Joseph Dimbleby, was remanded till this morning.

Alphonse Emo, arraigned for the larceny of a rifle, was also remanded till this morning.

THE DAILY TIMES can be procured every morning for 15 cents per week. The "Weekly" Friday morning's, in time for English Mail, at E. A. Perry's Elgin St.; Battle Bros., Rideau St., and Russell House; Lacy, Bridge St., Chaudiere; L'Echo Office, Hull; St Lawrence & Ottawa, and Canada Central Railway Stations.

THE UNITED WESLEYAN CONFERENCE.

SECOND DAY.

TORONTO, Sept. 17, 1874.

Conference opened with devotional exercises after which yesterday's minutes were read and confirmed.

Judge Deacon, from the Committee on Rules of Order, submitted a report which, with slight amendment, was received and ordered to be printed. The following is the report:—

STANDING RULES OF ORDER OF THE GENERAL CONFERENCE OF THE UNITED WESLEYAN METHODIST CHURCH OF CANADA.

1. The President shall take the chair at the hour to which the Conference may stand adjourned, and cause the same to be opened by the reading of the Scriptures, singing, and prayer, and shall then cause the journals to be read and approved; and the business of the Conference shall proceed in the following order:—

2 The reports first of the standing, and then of the special committees.

3. Resolutions and other business of which notice had been previously given; provided always, that each call severally shall have been completed before either preceding one shall be repeated; and the Secretary shall, immediately after the reading of the journal, announce the order of the day.

4. The President shall decide all questions of order, subject to an appeal to Conference; but in case of such appeal the question shall be taken without debate.

5 In case two or more members rise at the same time, the President shall decide which has the floor, and shall announce if required, the name and the Conference to which he belongs; and no member shall remain standing during a debate, except the member addressing the President.

6 No member shall be interrupted while speaking, except by the President to call him to order when he departs from the question, or uses personalities or disrespectful language, but any member may call the attention of the President to the subject when he deems the subject out of order.

7 All motions or resolutions shall be submitted in writing by the proposer.

8. When a motion is made, or a resolution moved or seconded, or a report is presented and is read by the Secretary or stated by the President, it shall be deemed in possession of the Conference, but any motion or resolution may be withdrawn by the mover at any time prior to amendment or decision.

9. All motions to postpone or lay on the table shall be taken without debate.

10. No new motion or resolution shall be entertained until the one under consideration has been disposed of, which may be done by adoption or rejection, unless one of the following motions should intervene, which shall have precedence in the order in which they are here placed:—Indefinite postponement, laying on the table, reference to a Committee, postponement to a given time, substitute, or amendment. A substitute or amendment may be amended.

11. When any member is about to speak in debate, or to deliver any matter to the Conference, he shall rise and address the President.

12. No person shall speak more than once on the same question, nor longer than 15 minutes, without leave of the Conference, except the mover, who shall have the right of a general reply.

13. When any motion or resolution has been acted upon by the Conference, it shall be in order for any member who voted with the majority to move a reconsideration, provided he shall have given notice of such at a previous session; but a motion to reconsider a non-debatable motion shall be decided without debate.

14. No member shall leave the conference before its close without leave being first obtained.

15. No member shall be allowed to vote on any question who is not within the bar when such question is put by the President, except by leave of the Conference.

16. Every member who is within the bar at the time the question is put shall give his vote, unless the conference shall, for special reasons, excuse him.

17. It shall be in order for any member to call for the ayes and nays on any question before the Conference, and on which a vote has been taken.

The President introduced the Rev. Gervase Smith, M.A, representative from the British Conference; and his travelling companion (also a member of the English Conference), the Rev. Wm. H. Cornforth, and the Rev. Dr. Sargent, of the General Conference of the M. E. Church in the United States, who severally and briefly addressed the Conference, and by invitation took their seats on the platform.

Rev. Dr. Green moved, and R. Wilkes, M. P., seconded the following resolutions: Whereas, the Wesleyan Methodist Church in Canada, the Wesleyan Methodist Church in Eastern British America, and the Methodist New Connexion Church of Canada have mutually agreed to unite in one body, under the style and title of "The Wesleyan Methodist Church of Canada," and whereas these Churches have cordially agreed upon sundry articles constituting the basis of said union, and have elected representatives, both ministerial and lay, under the said basis, to constitute this General Conference for the purpose therein provided:

Therefore resolved: By the delegates of those bodies here assembled, that we now proceed to prepare a book of discipline for the government of the said united Church:

Resolved, secondly. That the articles of the basis of said Union, together with the official documents, authorising this Union and the assembling of this Conference, be handed to the Secretary, to be entered in due form in the journals of this General Conference.

On motion, the aforesaid resolution was referred to the following committee to report thereon: Revds. Dr. Pickard, Dr. Jeffers, Dr. Ryerson, Dr. Green, J. A. Williams, Dr. Douglas, and Judge Wilmot, Judge Deacon, Hon. Mr. Shannon, and R. Wilkes, M. P.

Rev. Mr. Blackstock moved, and Rev. Jas. Gray seconded, the following resolution:—That a Committee on Nominations shall be appointed, said Committee to consist of one minister and one layman from each of the annual Conferences, to be chosen by ballot by the delegation of said annual Conference: That it shall be the duty of said Nominating Committee to consider and report upon the following subjects, namely:—What Committees are necessary or expedient; the number and composition of each of such Committees; and the persons of whom they shall severally be composed.

The Nominating Committee to whom the above resolutions were referred—said Committee having been chosen by their respective Conferences—are: Revds. Dr. Rice, G. Milligan, H. Pope, E. Harper, D. Savage, and Hon. J. J. Rogerson, D. Allison, LL.D., John Macdonald, R. Wilkes, M.P., and James Scarff, Esq.

The Conference adjourned till 9 o'clock to-morrow morning, the President pronouncing the benediction.

From the minutes of the several Conferences the following statistics showing the numerical strength of the individual and also of the United Conferences are gathered: The ministerial staff in the New Connexion is 91, in Eastern British America 277, and in Canada Conference 701. The number of communicants in the New Connexion is 7,587, in the Eastern 20,950, and in the Canadian Conference 73,701, making a total ministerial agency of 1,069, and a membership of 102,238 in the newly organized General Conference.

THIRD DAY.

The Conference was opened with the usual religious services, after which the minutes were read and approved.

On motion, Judge Wilmot read the following report from the Committee on the federation and organization of the several Conferences into one General Conference:—

Whereas, the Conference of the Wesleyan Methodist Church in Canada, the Conference of the Wesleyan Church in Eastern British America, and the Conference of the Methodist New Connexion Church of Canada have respectively agreed to a basis of union, as already published; and whereas such basis of union was duly submitted by the Canada Conference and by the Eastern Conference respectively for the approval of the British Conference; and the British Conference, upon due deliberation, did consent to such union; and whereas the Conference of the Methodist New Connexion Church of Canada did submit such basis of union for the approval of the British Conference of the Methodist New Connexion, and such Conference did, upon due deliberation, agree to such union; and whereas the said respective Conferences are now here represented by their delegates, in pursuance of such agreement for union; therefore resolved, that this General Conference do now proceed to deliberate upon and adopt all such measures as may best conduce to the interests and good government of the United Wesleyan Methodist Church of Canada, and to the advancement of the Redeemer's Kingdom.

On the question being taken for the adoption of said report, it was carried unanimously.

Dr. Allison submitted report number one from the Committe on Nominations, which was received, the Committee obtaining leave to sit again.

Rev. Dr. Wood moved, and Rev. Dr. Douglas seconded the following resolution, which was unanimously adopted:—"From the long-continued, faithful, and eminent services rendered to the Wesleyan Conference in Canada by the Rev. John Ryerson, and learning that he is now in the City of Toronto, this General Conference would have pleasure in welcoming him as often as the state of his health would justify his attendance at its sessions, and to receive the benefits of his matured and large experience."

Rev. Mr. Lathern gave notice that he would move the following resolution:—"That a Special Committee be appointed, in which each Annual Conference shall be represented, to consider the question of our Hymn Book, in regard to such revision as may be deemed desirable to meet the growing necessities of Christian worship; and also in relation to its publication for the purpose of securing to Canadian Methodism the profits upon its sales."

On motion, the Rev. S Rose was appointed Treasurer of the General Conference Expenses Fund.

Judge Wilmot gave notice that at a suitable time he would move the following:

"Resolved, That a committee be appointed to enquire into and report upon the advisability of preparing and publishing a tune book for the general use of the connexion."

The Rev. John Ryerson was introduced to the Conference, and thanked his brethren for the honour they conferred on him by inviting him to a seat among them. He touchingly referred to Drs. Wood and Douglas, the mover and seconder of the resolution, offering remarks on the fact that he had had the privilege of having both of them as colleagues in the earlier part of the work. He stated that he was the only living minister who was at the organization of the first Conference in 1824. He rejoiced at the growing prosperity which everywhere furnished proof of the presence and blessing of God among them. When he commenced his ministry in 1820, there were only 23 chapels belonging to the connexion, and he had preached in every one of them; now, how multiplied and how beautiful are the sanctuaries of our Zion.

> "These temples of his grace,
> How beautiful they stand,
> The honour of our native place,
> And bulwarks of our land.

He looked forward to better and brighter days, when he would meet those who have already gone before, and those who are now journeying heavenward. He prayed that the shadow of the Almighty might be over us, and that the annointing of the Holy Ghost might fall upon us, fitting us for greater and larger usefulness here and for the fellowships and friendships of heaven.

Dr. Allison read the recommendation of the Nomination Committee, on church property, which was received. He also submitted the recommendation of the Committee on the examination of probationers for the ministry, which was adopted.

He submitted the recommendation on the itinerancy and ministerial support, which was received.

He submitted the recommendation on the adjustment of matters between the Wesleyan and New Connexion Conferences, where the two bodies have churches in the same localities, and where one church and one minister will meet the necessities of the case.—The recommenda- was received.

The recommendation of the Committee to appoint a Committee whose duties will consist in harmonizing the position and claims of the Canadian and New Connexion ministers, on the Superannuation Fund, as affecting both parties, was received.

It was ordered that the quorum of all committees under twenty be nine, and over twenty, ten members.

The Committee asked leave to sit again.

On motion, the Committee on Nominations was instructed to recommend a Committee who shall be specially charged with the investigation and settlement of all Conference expenses.

Judge Deacon gave notice that on the morrow he would move for the appointment of a small Committee to procure a seal for the use of the General Conference.

The Conference adjourned shortly after 4 o'clock, to meet at 9 on the morrow.

WELCOME MEETING.

In the evening what was most appropriately named a Welcome Meeting was held in the Metropolitan Church. The proceedings were opened by a tea dispensation of such a character that the half dozen large tables in the school-room were kept continuously occupied for nearly two hours During this time, of course, the church was filling also, so that by the time 8 o'clock had arrived it was pretty well filled.

Precisely at 8 o'clock the literary part of the evening's entertainment commenced by the Rev. Mr. Potts, pastor of the church, giving out the hymn—"See how great a flame of fire." There was a powerful choir, whose singing was excellent. The organ accompaniments were played by Mr. Torrington in a perfect style.

FOURTH DAY.

The Conference met at 9 o'clock, and after devotional services the minutes of the previous session were read and confirmed.

A call was made from the chair for reports from Committees, when Dr. Allison submitted the following from the Nomination Committee:—

On church extension, 13 names.

On the re-adjustment of the children's fund, 21 names.

On the contingent fund, 17 names.

On the spiritual state of the Church, 22 names.

On Conference expenses, a finance committee of five members.

The Conference accepted all the nominations, and the several committees will report from time to time the result of their findings.

It was announced from the chair that the Hon. Senator Ferrier, from Montreal, was so far recovered from his recent attack of sickness as to be able to report himself in his place in Conference.

DAY OF THANKSGIVING.

The question of fixing a day, to be observed by the Methodist Church throughout the Dominion, of thanksgiving to Almighty God for a bountiful harvest, and also for our many national blessings, elicited friendly discussion; during which it was stated that the Episcopalian Synod had lately fixed on Friday, the sixteenth day of October next; and that it would be desirable, as far as possible, to fall in with that date. It was stated, somewhat in opposition to this view, that, after a day had been selected and announced for Thanksgiving purposes last year, departure had been made from it, at so late a period that the Wesleyans were unable to acquiesce in the new arrangement. Some of the delegates from Nova Scotia and New Brunswick stated that their Provincial Legislatures annually fixed a day of thanksgiving, and that any arrangement this Conference would make might unintentionally conflict with their arrangements.

On motion, a committee of five was appointed to adopt such measures as they deemed desirable for securing unanimity on the matter, and to report to Conference their recommendation.

The Rev Bishop Peck was introduced to the Conference, and invited to take a seat on the platform. The venerable prelate, on rising, said he accepted with profound gratification an introduction into this Conference, and a seat among his brethern, that he might learn from them their mode of conducting business.

Rev. Dr. Jeffers gave notice of motion that he would, on a future day, move that this Conference elect a Vice-President, who, in case of the sickness or death, or other cause of disability of the present President, would assume the office and perform the work now devolving on the President.

On motion, the matter was referred to the Committee on the Revision of Discipline.

Rev. A. Sutherland presented two memorials, from the Trustee Board, and from the official quarterly meeting of one of the Montreal circuits, asking the Conference to extend the period of a minister's stay on a circuit—under certain conditions—from three to five, or even six years. As other circuits are understood to make similar application, the matter was referred, on motion, to the Committee on Itinerancy, who will, at a subsequent stage, report to Conference.

Rev. John Wakefield moved for the appointment of a Committee on Temperance, which was referred to the Committee having charge of cognate subjects.

Rev. C. S. Eby moved that the state of Methodism among the German population, including German theological literature, be referred to the Missionary Committee, which was carried.

Rev. J. A Williams moved for a Committee on Sabbath observance. Carried.

Hon. Mr. Shannon moved that this Conference appoint an evening next week for the purpose of holding a public missionary meeting, and at which the delegates may have an opportunity of submitting information concerning the missionary operations of the Church in more distant fields of labour. On motion, it was referred to the Missionary Committee.

On motion, it was ordered that the Secretary of Conference be requested to have a copy of the "Order of Proceedings" for each day placed in such public position that the delegates may have access to it.

An animated discussion took place on the necessity of publishing a new Hymn Book, adding selections to and omitting hymns from the present edition as the compilers may deem requisite.

The thought was forcibly and clearly thrown out by some of the speakers that it would now be a fitting time to compile a hymn book adapted to the wants and wishes of the entire Methodist body throughout the world. Others expressed their conviction that such an object could not be attained, at least during the next four years. The matter is held over for future consideration.

On nomination, Judge Wilmot, Judge Deacon, and John Macdonald, Esq., were appointed the committee to procure a Conference Seal, with suitable device engraven thereon.

An overture was made by a committee who had spent a considerable period during the past four years in compiling a new tune book adapted to Wesleyan hymnology, to meet the Conference for the purpose of testing the character of the work, and afterwards presenting it to the Connexion. It was agreed that next Friday evening be observed for that purpose.

Several committees were appointed to meet during the afternoon, and the Conference adjourned at 12 o'clock, to meet on Monday morning.

THE BRYDGES' TESTIMONIAL.

Its Presentation.

From the Witness.

On Friday at half-past twelve the presentation of the Brydges' testimonial took place in the Mechanics' Hall, in the presence and on behalf of a very large assemblage of bankers, merchants and other prominent citizens of Montreal.

Andrew Allan, Esq., occupied the chair, and on the platform were C. J. Brydges, Esq., Hon. Henry Starnes, J. Molson, Esq., T. White, Esq, Sir A. T. Galt and F. Wolferstan Thomas, Esq., Secretary of the Executive Committee who read its report. It had not undertaken a personal canvass, but relied on the spontaneous action of the community to express its esteem for the recipient of the testimonial. The Committee, after all expenses had been paid, were happy to present Mr. Brydges, on behalf of the subscribers, a bond on the city for $10,000, together with a casket costing $400. He also read addresses to Mr. Brydges, in which it was stated that a large number of the citizens of Montreal desired to mark their estimation of his public services and private worth, by presenting him with some suitable mark of their esteem, and requested his acceptance of the accompanying casket, with its contents, together with a list of the subscribers. Reference was also made to his services to the commerce of Canada in connection with his management of the Grand Trunk Railway during the last twelve years; also to his services as a citizen in good and useful works. The address which concluded with the expression of good wishes towards Mr. Brydges and his family was signed on behalf of the subscribers by Andrew Allan, Chairman, and F. Wolferstan Thomas, Treasurer.

Hon. Henry Starnes then presented Mr. Brydges, on behalf of a number of his Quebec friends, with $1,000, and prefaced the presentation with some happy remarks.

Mr. Brydges, who was received with loud applause, said he could assure them it was with feelings of embarrassment that he attempted to find words of gratitude, not only to return thanks for the presentation of such a magnificent testimonial, but also for the cordial terms of the accompanying address. He was quite aware that in conducting the affairs of the Grand Trunk Railway, he had been obliged to do many things which had not met with the approval of his fellow citizens; but it was not always possible to look at all questions through precisely the same spectacles. The public prints of the city as well as country could bear witness to its having been his fortune to break many a lance with some of them in the endeavor to protect what he conceived to be the rights of the Company. He briefly referred to the condition of the road in 1862, when he assumed charge. Its condition then was anything but satisfactory; its finances were in a bad state, and it was involved in exhausting litigation with the bodies interested in its securities, and was not able to pay its employees promptly. Its physical condition was also of a character to embarass those conducting its operations; facilities in the shape of rolling stock were inadequate to the demands made upon it, and in fact in 1861 and 1862, its gross receipts were insufficient to meet the working expenses. He could rejoice in handing it over to be able to say that this condition of things was entirely reversed. Its financial condition was now satisfactory; its credit was restored; its wages, accounts and bills were regularly paid; a system of improvement was nearly completed; the rolling stock was able to meet all demands upon it, and its earnings, over and above expenses, were now £400 000 per annum. He felt gratified in leaving it in such a condition, and referred to the complimentary manner in which the performance of his duties as a citizen had been alluded to in the address. He concluded by saying that the recollection of the day's proceedings would ever be embalmed in his memory.

The gentlemen present then dispersed.

The testimonial fund amounted to $10,931.50 There were about 206 subscribers.

A NEW LEAD.—How many times does 50 go into 250,000? It goes 5000 times. Well, that is a good per cent., even for California. Will the best "lead" ever struck pay as much? Certainly not. But there are strong probabilities that an investment of fifty dollars made in the last Grand Gift Concert, in aid of the Public Library of Kentucky will pay that per cent. to somebody. Why not to one of us? And then we have only to wait to the 30th of November for the result.

BIRTH.

In this city, on the 21st inst., the wife of F. J. Lewis of a daughter.

MARRIED.

At No. 40 Union Street, Dundee, Scotland, on the 4th inst., Charles Eager, F.R.H.S, and of the Civil Service, Ottawa, Canada, to Betsy Miller Brown, widow of William Paterson, Dundee.

Distinguished Visitors—Appointment Large Issue—Gun Accident—The New Opera House.

TORONTO, Sept. 22.

Premier Mackenzie is expected to arrive in the city to-day.

All the hotels are crowded to excess, owing to the combined attraction in the city this week. Amongst those staying here are Major Walker of London; J. C. Rykert, M.P.; M. A. Thompson, President of Canada Southern; Wm. Cook, English champion billiard player; Geo. W. Moore, of Burgess' Christy's Minstrels of London, England; Hon. J. Skead, Hon. David Christy.

Thos. Nixon, of this city, has been appointed to purchase and supply the stores for the mounted police in the Northwest. His station will be at Winnipeg.

A painful accident occurred yesterday to Geo. Galt, second son of Justice Galt, a young man of about twenty years of age. He was at the Island yesterday afternoon shooting ducks, and a brother sportsman near, shot at a bird which was in a direct line with Galt, and he received the complete charge in his body. One of the shots entered his eye, and it is feared he will lose his sight.

The opening of Mrs. Morrison's Opera House last night was a great success. Every available spot in the house was occupied, and amongst those present were several who came from Ottawa, London, Hamilton, and other parts of the Dominion. The "School for Scandal" was played with a strong cast. Mrs. Morrison as "Lady Teazle," and Ben Rogers as "Sir Peter."

MONTREAL.

Cargo of Lumber Burned—250,000 Feet of Timber Destroyed—Thanksgiving.

MONTREAL, Sept. 22.

About eleven o'clock last night the steam barge 'Carleton,' the property of Captain Carleton, laden with about a quarter million feet of lumber, belonging to Hon. James Skead, of Ottawa, took fire, nearly opposite the Long Wharf, and was soon a mass of flames.

Enough steerage way was held on the vessel to run her close to Molson's Wharf, when the crew, nine in number, managed to get on shore.

The vessel then drifted down the St. Mary's current, as far as Boucherville, when she sunk.

The cook, a Mrs. Scott, was badly burned about the arms, while rescuing her son, about eight years old.

The barge is valued at about $11,000 without cargo. The fire originated near the boiler.

Thursday, October 15th, is the day set apart by the Church of England in this Diocese, as a day of general thanksgiving.

Rev. J. B. Stevenson, L L B, of Reading, England, was yesterday installed as joint pastor of Zion Church.

Flour dull and unchanged. Prices generally nominal. Spring extra quoted at $5 25 to 5 40, Superior extra $6 to 6 10. Strong bakers' $6 50. Sales—250 barrels Spring extra, city brands at $5 32½; 20 Western a $5 25; 50 superior extra at $6 15; 50 extra at $5 90.

QUEBEC.

The New Ministry—Swearing in of the Cabinet—Important Arrivals.

QUEBEC, Sept. 22.

The new Ministers were sworn in this morning at 11 o'clock, as follows:

Hon. M. DeBoucherville, Premier and Secretary.

Mr. Malhiot, Minister of Crown Lands and leader of the Assembly.

Dr. Church, Attorney-General.

M. Angers, Solicitor-General.

M. Garneau, Minister of Public Works.

M. Lemaire, President of the Council.

Hon. Mr. Robertson, Treasurer.

The Right Hon. W. E. Forster, M. P., Minister of Education in Mr. Gladstone's Cabinet, arrived in town by the 'Circassian' to-day.

The Right Honourable Lord Claud Hamilton, M. P., Lieutenant-Colonel Dowling, of the British army, Dr. Tasse, and the Rev. Dr. O'Connor, of Ottawa, are among the late distinguished arrivals in town.

NAPANEE.

Controverted Election—The Member for Addington Unseated—Shibley to Stand Again.

NAPANEE, Sept. 22.

The election court opened yesterday for the trial of the Addington controverted election case. Mr. Bethune who appeared for S. Shibley, the respondent, said that he was prepared to admit the statements in the petition charging corrupt practices and bribery, if the charge of personal bribery were withdrawn. Mr. Walkem, for the petitioners, assented to this, and the election was declared void, the respondent to pay costs.

Immediately after a Reform meeting was held, at which Shibley was nominated to contest the election.

St. JOHN, N. B.

Brown-Morris Race.

ST. JOHN, N B., Sept. 21.

The boat race between Brown and Morris, to come off on the Kennebeccasis on the 25th, is creating great interest in rowing circles. Brown is the favourite, but Morris has many backers among Americans, who are daily arriving. Both men are in training and exercising over the course every day.

YESTERDAY'S DESPATCHES

ENGLAND.

The Operatives Strike.

LONDON, Sept. 22.—Work has been resumed in the mills at Bolton pending the result of arbitration. A settlement is expected about the end of October. At a meeting of the co-operative board at Manchester, it was resolved to invite Wendell Philips to the annual co-operative Congress in London.

Steamship Arrivals.

LIVERPOOL, Sept 22.—The steamships 'City of Paris' and 'Austrian,' from New York, have arrived.

RUSSIA.

Mennonites Emigration.

PETERSBURG, Sept. 22.—The Russian Government on account of the extensive emigration of Mennonites has undertaken to except the members of that sect from actual military service, but still holds them liable to do duty as attendants. The Mennonites of Volga will probably all consent to remain under these condition.

DENMARK.

A Denial.

COPENHAGEN, Sept. 22.—The *Post* positively denies that the Danes have been ejected from Schleswig-Holstein.

UNITED STATES.

Steamship Arrivals.

NEW YORK, Sept. 22.—The steamships 'America,' from Bremen, and 'Glamorgan,' from Cardiff, have arrived.

Supposed Murder by Indians.

WASHINGTON, Sept. 22.—Indian Agent Miles reports from the Cheyenne Agency that on the night of the 7th inst., during a rain storm, 100 head of cattle were stampeded, 40 of which were recovered. Two herders, C. M. Monaghan and Ed. O'Leary, went in search of the remainder, and not returning, search was made and their dead bodies found at a point on Canadian River, with indications that they were murdered by Indians.

Chicago Aroused at Last.

CHICAGO, Sept. 22.—The City Council to-night passed an amended law which not only prohibits the erection of wooden buildings within the city limits, but prescribes a heavy penalty for any violation of the law. The ordinance as at first passed, after the great fire of July last, fixed no penalty for a violation of its provisions.

Anniversary Services.

SPRINGFIELD, Ill., Sept. 21.—On October 15th, the occasion of the annual union of the Army of Tennessee, a statue of Abraham Lincoln will be unveiled in this city. The public generally are invited to attend.

Fare on Steamships.

NEW YORK, Sept. 22.—Another secret conference of the English trans-Atlantic steamship agents was held yesterday. The object of the conference was to raise and equalize the rates of passage, and to do away with superfluous offices for the sale of tickets in this city.

'The City of Guatamala.'

The local board of the United States Steamboat Inspectors have informed the Pacific Mail S. S. Co., that they will make an investigation into the causes of the disaster to the steamer 'City of Guatamala,' which went ashore recently on Watkins Island.

MID-NIGHT DESPATCHES

ENGLAND.

The Weather and Crops.

LONDON, Sept. 22.—The *Mark Lane Express* says the fine summer like weather of the past week was favourable for potatoes, though rain would have been more acceptable for other roots.

S. S. Arrival.

The S. S. "France" has arrived out.

The Reciprocity Treaty.

The Newcastle Chamber of Commerce has adopted resolutions condemning the Canadian Reciprocity Treaty as prejudicial to British industry.

English Elections.

Mr. Holland, a Conservative, has been returned to Parliament from Milhurst.

Mr. Arnold, proprietor of the London *Echo* will contest Northampton in the Liberal interest.

GERMANY.

The Schleswig-Holstein Difficulty.

BERLIN, Sept. 22—The *National Gazette* says that while the expulsion of the Danes from Schleswig was a legal measure, it was only adopted in a few isolated cases. The *Gazette* says that the relations between Germany and Denmark are friendly.

FRANCE.

Russia and German Confederation.

PARIS, Sept. 22.—French newspapers publish St. Petersburg advices confirming the report of Bismarck's overtures to King Christian of Denmark looking to co-operation of that country in the German Confederation. A correspondent says Russia is greatly irritated at the attempt and will never permit Germany to hold the key of the Baltic Sea. The same papers say that the opposition of Russia to the German policy in Spain is due to this cause.

SPAIN.

The Carlist War.

MADRID, Sept. 22.—Gen. Laserna has revictualled Pampeluna.

SWITZERLAND.

Postal Congress.

BERNE, Sept. 22.—The American delegates to the International Postal Congress have arrived.

UNITED STATES.

Return of Pleasure Seekers.

NEW YORK, Sept. 22.—Large numbers of people are arriving home from the White Mountains and other eastern summer resorts. The Str. Rhode Island of the Storington Line brought nearly 1000 passengers this morning.

Fatal Boiler Explosion.

PORTLAND, Me., 22.—An engine attached to the gravel train on the Portland and Ogdensburg Railway, exploded when near Stradwater bridge, killing the engineer, Alex. Smith, and severely injuring three other men who were on the engine at the time.

Fatal Railway Collision.

TRENTON, N. Y. 22.—A collision occured on the Belvidere and Delaware Railway three miles below Philipsburg, N.Y., this afternoon, killing one and wounding six or eight others. Mr. Myer from Harrisburg was killed and the messenger and engineer were slightly wounded.

The Turf.

SAN FRANCISCO, Sept. 22.—'Joe Daniels' won the $10,000 running race at Sacramento yesterday, against 'Nell Flaherty.' Time, 1:45, 1:47, 1:47¼, 1:47½. It is thought the great $5,000 trotting race between 'Occidental' and 'Sam Purdy' will be declared off.

S. S. Arrivals.

Arrived, s.s. 'Gaelic' and 'Algiers' from Liverpool.

The 'River Belle.'

The steamer 'River Belle,' recently burnt, has been raised and will probably be taken to Providence to be re built.

Republican Nominations.

A special from Utica, where the Republican State Convention will be held to-morrow, leaves little doubt of the renomination of Governor Dix and Lieut. Governor Robinson.

CUBA.

A Rumor Without Foundation.

NEW YORK, Sept. 22.—A letter from Havana, under date of September 15th, says that the *Graphic* account by Captain Ariasa, of the battle of Yarayabo, in which Gen. Calixte Garcia was taken prisoner and 36 insurgents killed, without a single one to the Spaniards, seems to be purely imagination on the part of the fertile brain of the Spanish Captain.

A Truce Agreed Upon.

Letters from Santiago de Cuba and Manseillor state that a truce of ten days had been agreed upon between the Spanish Commissioner of the district, Gen. Morin, and Gen. Calixte Garcia, for the adjustment of certain questions, and Garcia and his conference appointed the place of meeting. It became known to some Spaniards, among them Captain Ariasas, and the latter, being unable to resist the prospect of promotion, obtained permission from his superior to take one hundred men and attempt the capture of Garcia, in which he succeeded. Gen Garcia's mother resides here, and calling upon Captain General Concha she obtained permission to telegraph to President Serrano, asking him to spare her son's life.

Attempted Assassination.

An attempt was made to shoot Captain General Concha one evening last week at his summer residence. Three shots were fired at him and his residence is always guarded by volunteers and some of them are suspected of the attempt on his life. The matter has been hushed up as far as possible.

Another Loan.

It is reported that the Government intends to make another forced loan of $1,500,000 from the Banks within ten days.

Base Ball.

PHILADELPHIA, Sept. 22.—At a match today between the Chicago and Philadelphia Base Ball Clubs, the game was won by the former—'Chicago's' 7; 'Philadelphia's' 6

Suspension.

NEW YORK, Sept. 22.—The suspension of ~. Ludmann & Co., extensively engaged in the importation of sugar, was announced to-day.

Alleged Bank Defaulter.

Samuel A. Briggs, of Chicago, is said to be a defaulter in $100,000 from the bank of which he is Vice-President and cashier. He was arrested here and will be taken to Chicago.

Suspicious Case.

NIAGARA FALLS, Sept. 22.—The body found in the whirlpool on Sunday, although too much decomposed for identification, is thought to be the corpse of a painter named Vedder, of Drummondville, Ontario who disappeared two weeks ago. Being a simple minded man, some roughs from the same place, at the instigation of one Mrs. Upper, whose daughter Vedder wished to marry, subjected him to physical abuse, for which he lodged a complaint with the Mayor of Clifton. Subsequently three of the rowdies, named McLevel, Cross, and Fannegan enticed him under the pretence of getting him a job on Navy Island, and probably threw him into the river above the Falls. They have left the vicinity and the officers are in search of them.

A Flat Contradiction.

MONTGOMERY, Ala, Sept. 22—W. B. Jones, U. S. Commissioner at Demopolis, and Republican candidate for Probate Judge, Marengo County, publishes a card denying the stories of violence in that neighborhood. Not a man has been killed nor a single outrage committed on account of political feeling and free speeches, and Republican opinions can be indulged in anywhere. The best feeling prevails between colored Republicans and the Democrats.

Beacon Park Races.

BOSTON, Sept. 22.—The Races at Beacon Park opened to-day for a purse of $5 000 for stallions that never beat 2.26: $1.250 to second horse; $750 to third; $500 to fourth horse. The race was won by 'Membrino Gift'; "Phil Sheridan" second; Parkes "Abdallah" third. Time 2:26½. 2:25½ and 2:25½.

Destructive Fire.

ST. PAUL, Minn., Sept. 22.—The Headquarters Hotel at Fargo, belonging to the Northern Pacific Railway Company was burnt this morning together with the Railway, Telegraph and Express Offices. Loss about $45,000; partly insured. It was the finest hotel north or west of St, Paul.

POND'S EXTRACT
CURES

Rheumatism, Scalds, Lameness,
Neuralgia, Burns, Soreness,
Sore Throat, Boils, Wounds,
Hoarseness, Ulcers, Bruises,
Headache, Piles, Sprains,
Toothache, Colic, Old Sores,
All Hemorrhages,
Diarrhœa,
etc.

POND'S EXTRACT

THEY —ARE— DYING —BY— INCHES!

ARTERIAL blood contains the elements of Vitality and Nutrition, which is emptied into the capillary system and, after supplying the required nourishment, is sucked up by the minute branches of the venous system and carried back to the lungs for vital recuperation. By reason of much that is wrong in living and medical treatment, this stream of blood flowing through the body is not always pure or free from inflammatory particles, which may pass off by insensible perspiration through the skin or with the waste matter through the intestines, but cold or wet may stop their outward escape, and the internal drainage may become inactive, when the corrupt particles are apt to coagulate, causing pestules, scalp eruptions or running sores, bronchitis &c. They may locate about a nerve, causing neuralgia, and by attaching themselves to the arterial tubes and veins, large or small, and inflaming them by their corrosive influence, cause those intensely painful sensations called Rheumatism. Nature struggles to drench out or dislodge if possible these corrosive particles, and the parts become very red from the congestion or pressure of blood therein. This is called Inflammatoro Rheumatism or Rheumatic Gout, If nature does not succeed in washing out these acremonious atoms she withdraws the undue supply of blood from such parts, ceases to contend, and performs circulation as best she can; however, the passage of the blood through the affected channels still continues painful. This is Chronic Rheumatism, which may exist without its usual antecedant the Acute kind.

The above only true theory points out the correct treatment of this and other distressing maladies. Dissolve these corrupt particles that have lodged in the afflicted parts, so that in the circulation they may be carried off externally or internally, and having thus removed the cause the effect ceases.

The experiment of twenty years in the London Hospital, England, has demonstrated to the Medical Faculty of Europe, that the only medicine having control over this class of diseases, is the

DIAMOND
RHEUMATIC
CURE!

It is the result of a lifetime of scientific study and is now for the first time offered to the Canadian public, prepared by a careful, experienced and conscientious physician, in obedience to the desire of numberless friends in the profession, in the trade and among the people. Every bottle is warranted to contain the full strength of the medicine in its highest state of purity and development, and is superior to any medicine ever compounded for this terrible complaint.

A BLESSING TO THE POLICE.

MONTREAL, 18th June, 1864.

DEVINS & BOLTON:

GENTLEMEN,—Having been one of the many martyrs of rheumatism that I meet on my every day rounds. I was induced to try the celebrated DIAMOND RHEUMATIC CURE. I had suffered the last five or six weeks the most terrible acute pains across my loins and back, so severe indeed that I could hardly walk with the help of a stick. I commenced the Diamond Remedy—following the directions carefully. Relief came immediately with the first bottle, improved rapidly with the second, completely cured and freed from pain after finishing my fifth small bottle. You are at perfect liberty either to refer to me privately or publicly, as I feel very thankful for the relief, and sympathize with my fellow sufferers from rheumatism.

Yours respectfully,
J. B. CARDINAL,
Sanitary Police Officer,
51 Labelle street.

In simple cases, sometimes one or two doses suffice. In the most chronic cases it is sure to give way by the use of two or three bottles. By this efficient and simple remedy hundreds of dollars are saved to those who can least afford to throw it away, as surely it is by the purchase of useless prescriptions.

This medicine is for sale at all Druggists throughout Canada. If it happens that your Druggist has not got it in stock, ask him to send or it to

NORTHRUP & LYMAN,
Agents for the Province of Ontario,
Scott street, Toronto,
Or to DEVINS & BOLTON,
Notre Dame street, Montreal,
General Agents for the Province of Quebec.
Price $1 per bottle. Large Bottles $2.

May 1st, 1874.

THE SIMPLEST, CHEAPEST, AND BEST

Marking Apparatus in the World
For Marking COTTON, SILK, WOOLLEN, and LINEN, is

PAYSON'S INDELIBLE INK,

Used with a Common Pen without a preparation.

This ink flows perfectly: will write as easily on the finest muslin as ink on paper. It does not dry up, and retains its virtues longer than any other ink known. It will not injure the finest fabric. Payson's Ink has endured the test of forty years, and is now the most popular ink in existence and is unrivalled for uniformity, of quality, and durability. It will mark more neatly, quickly and indelibly than any other apparatus. It requires NO PREPARATION of the fabric.

Price. 37 cts. per Bottle.

Sold by all Druggists, Stationers, and Fancy-Goods Dealers.

Sept. 14.

SPECIAL ANNOUNCEMENT IN REAL ESTATE,

(By J. Bermingham.)

A Great Bargain—Lot No. 56, corner of Preston and Spruce streets, opposite post office, Rochesterville, with a good two story Brick House thereon, nearly new, with all the necessary out offices and a never failing spring, to be sold very cheap and on very easy terms. Come and inquire price, it will astonish you, it will be sold before two weeks, some one will get a big bargain from

J. BERMINGHAM.

West ½ of Lot 27, south Rideau street, with a most comfortable Brick House thereon, rented for $30 per annum, has to be sold for half its value within fourteen days. It would cost nearly double as much to build the house now, as is wanted for house and ground. Such a bargain was never offered before in this city, some one should secure it at once. Apply to

J. BERMINGHAM.

Lots 37, South Maria, and 37 North Gloucester streets, 66 x 99 each, to be sold very cheap, and on very easy terms, a small sum only required down, balance in ten annual payments. There is a big speculation in this. Who will come first and purchase? One thousand dollars can be made on it before long. Apply to

J. BERMINGHAM.

A Lot 54 x 99, about 100 yards from Cumming's Bridge, outside City limits, thereby avoiding city taxation, very cheap, only $5 down, balance as may be agreed on. Apply at once to

J. BERMINGHAM,
York Street.

DRESSMAKING BEING THE ORDER OF THE TIMES.

J. W. RYAN

Has much pleasure in informing his numerous Lady customers and others that MADAME OLLIER, the celebrated Cutter and Fitter of Ladies' Garments, has arrived from her New York and Boston trip, and re-engaged with him to superintend his Dressmaking Department,

No. 234 WELLINGTON STREET

It will be remembered that Madame Ollier came direct from Boston last March to make arrangements with him, but was subsequently induced, by large offers for her valuable services, to go into an old established firm in Centre Town; but finding that she had made a change for the worse, again engaged with him. Madame Ollier's attainments in the art of Scientific Measurements enables her to ensure a perfect fit without putting her customers to the inconvenience of removing a single garment.

Bargains to be had at the Old Stand, 18 RIDEAU-ST. TRY ONCE.

JOS. NEELIN,
[Late Preston & McLaughlin],
an., 12 Rideau-st., Ottawa.

BERKELEY, Sept. 1868.—Gentlemen, I feel it a duty I owe to you to express my gratitude for the great benefit I have derived by taking "Norton's Camomile Pills." I applied to your agent, Mr. Bell, Berkeley, for the above named Pills, for wind in the stomach, from which I suffered excruciating pain for a length of time, having tried nearly every remedy prescribed, but without deriving any benefit at all. After taking two bottles of your valuable pills I was quite restored to my usual state of health. Please give this publicity for the benefit of those who may thus be afflicted.—I am, Sir, yours truly, HENRY ALLPASS.—To the Proprietors of NORTON'S CAMOMILE PILLS.

T. E. MOORE

Respectfully informs his friends and the public generally that he will shortly open his

New Establishment No. 72 Sparks Street.

which will be fitted on the most improved principle comprising Ladies' Hair Dressing Rooms with separate entrances, a spacious Gentleman's Hair Dressing and Shaving Rooms with

HOT AND COLD BATHS

attached. He will also have an efficient staff to attend to the

SEPARATE DEPARTMENTS

and trusts by giving his best attention to the management, to merit a continuous support and recommendation.

NOTICE TO CONTRACTORS.

Sealed Tenders addressed to the undersigned, and endorsed "Tender for Firewood," will be received at this office until Thursday, the 1st day of October next, at noon, for the supply of Firewood for the use of the Public Buildings, Ottawa, according to the specification to be seen at this office, where forms of Tender can also be obtained.

The Department will not be bound to accept the lowest or any Tender.

By order,
F. BRAUN,
Secretary.

Department of Public Works,
Ottawa, Sept. 14, 1874. 5874-6

Notice to Contractors.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Examining Warehouse, Toronto," will be received at this Office until MONDAY the 5th day of October next, at noon, for the erection and completion of the above building. Plans and Specifications can be seen at the office of William Irving, Esq., Architect, Yonge Street, Toronto.

Contractors are notified that Tenders will not be considered unless made strictly in accordance with the printed forms,—and in the case of firms—except there are attached the actual signature and the nature of the occupation and place of residence of each member of the same.

For the due fulfilment of the Contract, satisfactory security will be required on real estate or by deposit of money, public or municipal securities, or bank stocks, to an amount of *five per cent* on the bulk sum of the Contract.

To the Tender must be attached the actual signatures of two responsible and solvent persons residents of the Dominion, willing to become sureties for the carrying out of these conditions as well as the due performance of the works embraced in the contract.

This Department does not, however, bind itself to accept the lowest or any Tender.

By order,
F. BRAUN,
Secretary.

Department of Public Works,
Ottawa, 16th September, 1874.

PROVINCE OF ONTARIO

PARLIAMENTARY NOTICE.
LEGISLATIVE ASSEMBLY OF ONTARIO,
Toronto, 14th September, 1874.

49. No Petition for any Private Bill is received by the House after the first three weeks of each Session; nor may any Private Bill be presented to the House after the first four weeks of each Session.

51. All applications for Private Bills, properly the subject of legislation by the Legislative Assembly of Ontario within the purview of "The British North America Act, 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road, or Telegraph Line; the construction or improvement of a Harbour, Canal, Lock, Dam, or Slide, or other like work; the granting of a right of Ferry; the incorporation of any particular Trade or Calling, or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community; or for making any amendment of a like nature to any former Act,—shall require a Notice, clearly and distinctly specifying the nature and object of the application, to be published as follows, viz:—

A Notice inserted in the *Ontario Gazette*, and in one newspaper published in the County, or Union of Counties affected, or if there be no paper published therein, then in a newspaper in the next nearest County in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition.

For further particulars see *Ontario Gazette*.

CHARLES TODD GILLMOR,
Clerk of the House.

LEA & PERRINS

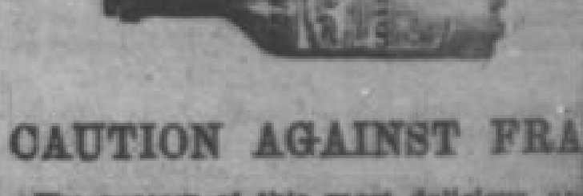
CELEBRATED

WORCESTERSHIRE SAUCE,

DECLARED BY CONNOISSEURS

TO BE

THE ONLY GOOD SAUCE.



CAUTION AGAINST FRAUD

The success of this most delicious and unrivalled Condiment having caused certain dealers to apply the name of "Worcestershire Sauce" to their own inferior compounds, the Public is hereby informed that the only way to secure the genuine is to

ASK FOR LEA AND PERRINS' SAUCE,

and to see that their names are upon the wrapper labels, stopper, and bottle.

Some of the foreign markets having been supplied with a spurious Worcestershire Sauce, upon the wrapper and labels of which the names of Lea and Perrins have been forged, L. and P. give notice that they have furnished their correspondents with power of attorney to take instant proceedings against *Manufacturers* and *Vendors* of such, or any other immitations by which their right may be infringed.

Ask for LEA & PERRINS' Sauce, and see Name on Wrapper, Label, Bottle, and Stopper.

Wholesale and for Export by the Proprietors Worcester; Crosse and Blackwell, London, &c. &c. and by Grocers and Oilmen universally.

Travellers' Guide

Below we publish a directory, made up for the benefit of our citizens, and strangers who may visit the Capital. It is important to all travellers to have, within easy reach, information as to the arrival and departure of the various trains and stages for all places, East, West and South. The public can depend upon the correctness of this table:

St Lawrence & Ottawa Railway.

Leave. 45 a.m., 10.45 a.m., 2.00 p.m. 9.30 p.m.
Arrives, .30 a.m., 7.45 a.m., 3.50 p.m., 7.00 p.m.

Canada Central Railway.

Leaves 10.15 a.m., 5.20 p.m
Arrives, 12.55 p.m., 8.00 p.m.

Ottawa River Navigation Company.

Steamer *Peerless* leaves at 7.30 a.m.
Steamer *Queen Victoria* leaves at 5 p.m.

Saturday afternoon trips—Steamer *Queen Victoria* leaves at 4 p.m., for L'Orignal, &c. [See advt.]

Union Forwarding Company.

Steamer *Jessie Cassels* leaves Aylmer at 7.30 a.m.

Stages.

Aylmer Stages leave the Union, Daniels, and the Russell House every morning at 6 a.m.

Gatineau Stage leaves the Post Office at 6 p.m.

Richmond Stage leaves the Post Office at 1.30 p.m.

British Mails.

Via New York, close every Saturday, Monday and Tuesday, at 8 p.m.

Per Canadian Line, close every Friday at 12.05 p.m.

☞ A supplementary bag for Canadian Steamer will be closed at 1.25 p.m., in which only unregistered letters can be sent.

Electric Oil Thomas' Excelsior Eclectric — Worth Ten Times in Weight in Gold.

Pain cannot stay where it is used. It is the cheapest medicine ever made. One bottle has cured bronchitis. Fifty cents worth has cured an old standing cough. It positively cures Catarrh, Asthma and Croup. Fifty cents worth has cured crick in the back, and the same quantity lame back of eight years' standing. The following are extracts from a few of the many letters that have been received from different parts of Canada, which, we think, should be sufficient to satisfy the most skeptical. J. Cottard, of Sparta, Ontario, writes 'send me 6 dozen Dr. Thomas' Electric Oil, have sold all I had from you and want more now; its cures are truly wonderful.' William Maguire, of Franklin, writes, 'I have sold all the agent left, it acts like a charm—it was slow at first, but takes splendidly now." H. Cole, of Iona, writes. "Please forward 6 dozen Thomas' Electric Oil, I am nearly run out: nothing equals it. It is highly recommended by those who have used it." J. Bedford, Thamesville, writes —"Send at once a further supply of Electric Oil, I have only one bottle left. I never saw anything sell so well, and give such general satisfaction." J. Thompson, Woodford, writes—"Send me some more Electric Oil. I have sold entirely out. Nothing takes like it." Miller & Reed, Ulverton, P.Q., writes—"This Electric Oil is getting a great reputation here, and is daily called for. Send us a further supply without delay." Lemoyne, Gibb & Co., Buckingham, P. O., write—"Send us one gross Electric Oil. We find it to take well."

Sold by all medicine dealers. Price 5 cents.

S. N. THOMAS, Phelps, N. Y.
and NORTHROP & LYMAN, Toronto, Ontario, Sole Agents for the Dominion.

NOTE—*Electric*—Selected and Electrized

JOB MOSES' FEMALE PILLS.

This well known medicine is no imposition but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, they contain nothing hurtful to the constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics and Whites, these pills will effect a cure when all other means have failed; and although a powerful remedy, do not contain iron calomel, antimony or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully reserved.

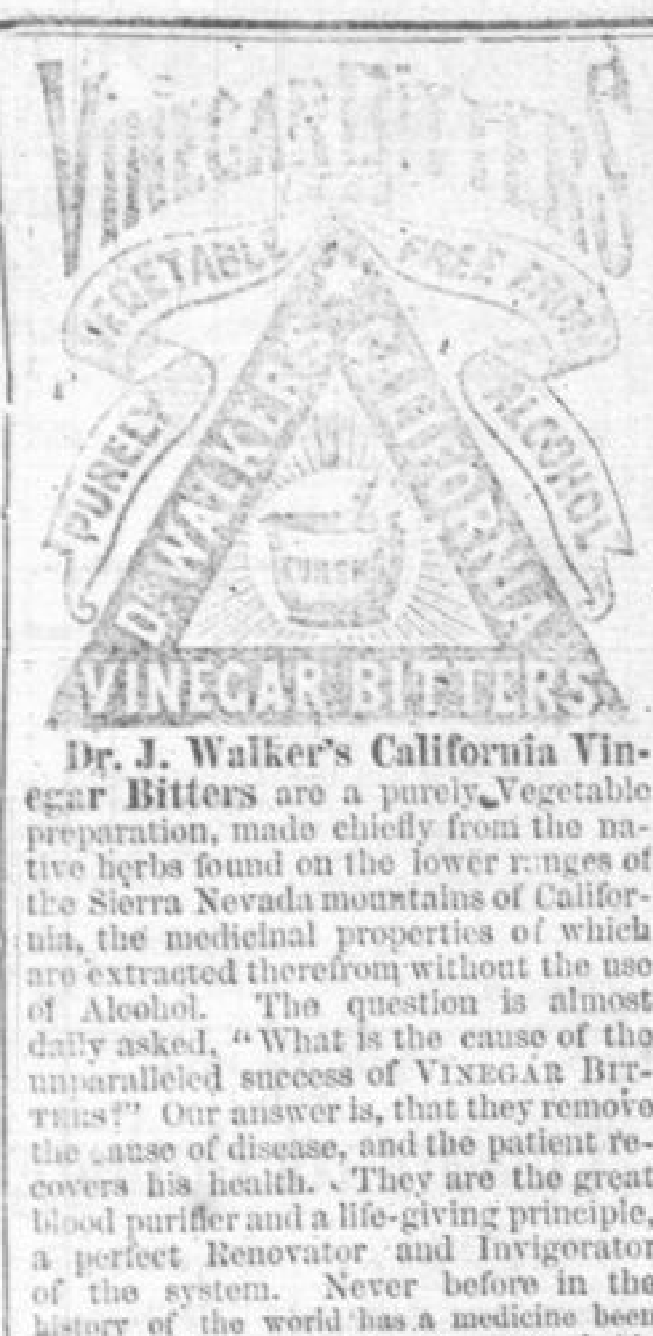
For full particulars, obtain free, of the agent a pamphlet, or refer to advertisement.

JOB MOSES, NEW YORK, SOLE PROPRIETOR.

$1.00 and 12½ cents for postage, enclosed to Northop & Lyman, Toronto, Ont., general agents for the Dominion, will insure a bottle, containing over 50 pills return mail.

For sale by all druggists 25

DR S JACOBS, ON APHONIA, OR LOSS OF VOICE.—Orange Street, St John, N. B., 1869 – Mr. Fellows—Sir: I am bound to award the palm of merit to the preparation of Hypophosphites discovered by you. I had occasion to use it myself in a case of Aphonia, which would not yield to regular treatment, and am happy to say it proved to be all that you claimed for it, having acted with expedition and entire satisfaction. I feel called upon to publish the fact, that the profession may avail themselves of a remedy in your "Compound Syrup of Hypophosphites.' Yours, very truly, S. Jacobs. 3665



Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

March 17, 1874. 2513-12m

The New York Tribune.

THE CONSOLIDATION OF ITALY! so long fragmentary and impotent, into one powerful State, with Rome as its capital the humiliation of France through a series of crushing defeats, ending with the siege and capitulation of her proud and gay metropolis; the expulsion of the Bourbons from the Spanish throne, and the substitution for them of a scion of the most liberal among royal houses; the virtual absorption of the kingdoms of Saxony, Wurtemburg, Bavaria, with Baden, Hesse, the Hanse Towns, &c., under the headship of Prussia, into the triumphant and powerful empire of Germany; and the arming of Russia to re-assert her preponderance in the councils of Europe, or to prosecute her often postponed but never relinquished designs on the great city founded by Constantine, and the vast but decaying and anarchical dominion of the Sultan, all combine to invest with profound interest the everchanging phases of our tidings from the Old World. The *Tribune*, through trusted correspondents stationed at all points in Europe where great movements are in progress or imminent aims to present a complete and instructive panorama of events on that continent, and to mirror the prolonged struggle between middle age Feudalism and Ecclesiasticism on the one hand and Nineteenth-Century scepticism and secularism on the other. Recognising a Divine Providence in all that proceeds and is, it looks hopefully on the great conflict as destined (like our own recent convulsion) to evolve from strife, disaster, and seeming chaos, a fairer and happier future for the toiling masses of mankind.

In our own country, a war upon corruption and rascality in office has been inaugurated in our city, whereby the government of our State has been revolutionised through an initial triumph of Reform which surpasses the most sanguine anticipations. It is morally certain that the movement thus inaugurated cannot, in its progress, be circumscribed to any locality or any party, but that its purifying influence is destined to be felt in every part of the Union, rebuking venality, exposing robbery, wresting power from politicians by trade, and confiding it in those worthiest and fittest to wield it. To this beneficent and vitally needed reform, the *Tribune* will devote its best energies, regardless of personal interests or party predilections, esteeming the choice of honest and faithful men to office as of all New Departures the most essential and auspicious.

TERMS OF THE TRIBUNE.

DAILY TRIBUNE, Mail Subscribers, $10 per annum.

SEMI-WEEKLY TRIBUNE, Mail Subscribers, $4 per annum. Five copies or over, $3 each; an extra copy will be sent for every club of ten sent for at one time; or, if preferred, a copy of "Recollection a Busy Life," by Mr Greeley.

KEATING PERSIANS INSECT DESTROYING POWDERS.

This Powder is quite harmless to animals, but unrivalled in destroying Fleas, Bugs, Emmet Flies, Cockroaches, Beetles, Gnats, Mosquitoe Moths in Furs, and every other species of insect in all stages of metamorphosis. Sold in packet tins, and bottles of various sizes.

CAUTION.—The public are requested to observe that all the above preparations bear the Trade Mark as herein shown. Sold by all Chemists and Druggists.

DR. DE JONGH'S LIGHT BROWN COD LIVER OIL.

The distinctive character which have gained for DR. DE JONGH'S OIL so much celebrity, the entire confidence of the most eminent members of the Medical Profession, and notwithstanding the active and unscrupulous opposition of many interested dealers, an unprecedented amount of public patronage may be thus concisely enumerated:—

I.—Its genuineness, purity, and uniform strength are ascertained and guaranteed.

II.—It contains all the active and essential principles that therapeutic experience has found to be the most effective in the operation of the remedy.

III.—It is palatable, easily taken, and creates no nausea.

IV.—It is borne with facility by the most delicate stomach and improves the functions of digestion and assimilation.

V.—Its medicinal properties and remedial action have been found to be immeasurably greater than those of any other kind of Cod Liver Oil.

VI.—From the unequalled rapidity of its curative effects, it is infinitely more economical than any which is offered, even at the lowest price.

CONSUMPTION AND DISEASES OF THE CHEST.

The extraordinary virtues of Dr. DE JONGH'S Light Brown Cod Liver Oil in Pulmonary Consumption may now be considered as fully established. No remedy so rapidly restores the exhausted strength, improves the nutritive functions or produces a more marked and favorable influence on the local malady.

The following high testimony to the efficacy of Dr. DE JONGH'S COD LIVER OIL in Consumption is afforded by ALLEN G. CHATTAWAY, Esq., M.R.C.S., L.S.A., of Leominster:—

"Having for some years extensively used Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL, both in public and private practice, I have no hesitation in stating its effects are very far superior to those of any other Cod Liver Oil. Nearly four years since, two cases of confirmed Consumption were placed under my care. In both, the lungs were a mass of tubercular deposit, and every possible sound to be heard in phthisis was present. The sole remedy employed was Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL; and now the patients are strong and fat; the diseased (abnormal) sounds nearly inaudible; and in the one case (male), hunting, fishing, and shooting, are freely indulged in, the patient expressing himself quite capable of undergoing as much fatigue as any of his fellow sportsmen."

GENERAL DEBILITY AND EMACIATION.

In cases of prostration and emaciation, where the vital forces are reduced, and where life appears to be even at its lowest ebb, the restorative powers of Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL are remarkably manifested. By its administration the natural appetite is revived, and the functions of digestion and assimilation are improved, reanimated, and regulated; and, when its use has been steadily preserved in, its peculiar tonic and nutritive properties have entirely restored health and strength to the most feeble and deteriorated constitutions.

The actual benefit derived is thus described by ROWLAND DALTON, Esq., M.R.C.S., L.S.A., District Medical Officer at Bury St. Edmunds:—

"In giving my opinion of Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL, I have no hesitation in saying that I have not the slightest confidence in any other kind. The effects of Dr. DE JONGH'S OIL are sure and most remarkable, especially in that broken down state of health and strength which usually precedes and favors tubercular deposit; and I never recommend any other sort. The Oil I have had from you was for my own use, and it has certainly been the only means of saving my life on two occasions, and even now, when I feel 'out of condition,' I take it, and like it, unmixed with anything, as being the most agreeable way. I could wish that Dr. DE JONGH'S OIL would come into general use, and entirely supersede the Pale and other worthless preparations."

SELECT MEDICAL OPINIONS.

From innumerable medical and scientific opinions of the highest character in commendation of Dr DE JONGH'S LIGHT BROWN COD LIVER OIL, the following are selected:—

Sir Henry Marsh, Bart., M.D., Physician in Ordinary to the Queen in Ireland.

"I consider Dr. De Jongh's Light Brown Cod Liver Oil to be a very pure Oil, not likely to create disgust, and a therapeutic agent of great value."

Dr. David Smith, F.R.S., Medical Officer to the Poor Law Board of Great Britain.

"We think it a great advantage that there is one kind of Cod Liver Oil which is universally admitted to be genuine—the Light Brown Oil supplied by Dr. De Jongh. It has long been our practice, when prescribing the Oil, to recommend this kind, since, amidst so much variety and uncertainty, we have confidence in its genuineness." (Extract from "Consumption: its Early and Remediable Stages.")

Dr. Barlow, F.R.S., Sen. Physician to Guy's Hospital.

"I have frequently recommended persons consulting me to make use of Dr. De Jongh's Cod Liver Oil. I have been well satisfied with its effects, and believe it be a very pure Oil, well fitted for those cases in in which the use that substance is indicated."

Dr. Lawrence, Physician to H.R.H. the Duke of Saxe-Coburg and Gotha.

I invariably prescribe Dr. De Jongh's Cod Liver Oil in preference to any other, feeling assured that I am recommending a genuine article and not a manufactured compound in which the efficacy of this invaluable medicine is destroyed."

Sir Joseph Olliffe, M.D., Physician to the British Embassy at Paris.

"I have frequently prescribed Dr. De Jongh's Light Brown Cod Liver Oil, and I have every reason to be satisfied with its beneficial and salutary effects."

Lankester, F.R.S., Coroner for Central Middlesex.

"I consider that the purity of this Oil is secured in its preparation by the personal attention of so good a Chemist and intelligent a Physician as Dr. De Jongh, who has also written the best Medical Treatise on the Oil with which I am acquainted. Hence, I deem the Cod Liver Oil sold under his guarantee to be preferable to any other kind as regards genuineness and medical efficacy."

THE ROYAL READERS.

A NEW SERIES OF ILLUSTRATED ENGLISH READING-BOOKS.

From Mr. M. Patterson, Rector of the Free Church Training School; Moray House, Edinburgh.

"Thanks for the Specimen of your new Reading Books and Sheets. . . . They are admirable in every particular. Nothing, in my opinion, would more contribute to the improvement of Education than the wide circulation of these books, and the intelligent handling of them."

From A. Montgomerie, L.L.D., Principal of Ladies' College Glasgow.

"I have examined very carefully the 'Printing,' and Nos. I., II., and III. of the *Royal Readers*, and have no hesitation in saying that they are, in my opinion, incomparably the best English Reading-Books that have ever been published. The adaptation of the means to the end in view is perfect."

From T. Morrison, M.A., Rector of the Free Church Normal School, Glasgow.

"I have very carefully examined the *Royal Readers*. The plan is excellent, and the execution, if I may say so, even better. They are out of sight the best series of Reading-books published and should very speedily be widely used. The Illustrations constitutes an admirable features and add much to the value of the *Readers*

PINE LANDS.

OVER 900,000,000 FEET, well located mainly on the rivers leading into Lake Michigan. The numerous streams and lakes surrounded with pine timber along the line west of Reed City, offer the best of locations for mills, where logs can be held safely free of expense and free from the annoyance of Boom Companies. The railroad direct to East Saginaw and Toledo offers the best source of supplies, and never failing market for Lumber Shingles, etc., which may be delivered anywhere on the line.

FIFTH AND LAST CONCERT

In aid of the

PUBLIC LIBRARY OF KENTUCKY.

DAY FIXED AND A FULL DRAWING ASSURED,

—ON—

MONDAY, 30th NOVEMBER, 1874.

LAST CHANCE FOR

An Easy Fortune.

A postponement of the Fifth Concert of the Public Library of Kentucky has been so generally anticipated, and is so manifestly for the interest of all concerned, that it must meet the approval of all. The day is now absolutely fixed, and there will be no variation from the programme now announced. A sufficient number of tickets had been sold to have warranted us to have had a large drawing on the 31st of July, but a short postponement was considered preferable to a partial drawing. Let it be borne in mind that

THE FIFTH GIFT CONCERT

Is the last which will ever be given under this charter and by the present management,

That it will positively and unequivocally take place as announced, on

MONDAY, 30TH NOVEMBER,

That the music will be the best the country affords, and that

20,000 CASH GIFTS,

AGGREGATING

$2,500,000

Will be distributed by lot among the ticket-holders.

CLARKE'S WORLD FAMED BLOOD MIXTURE

Trade Mark—"BLOOD MIXTURE."

The Great Blood Purifier and Restorer

For cleansing and clearing the blood from all impurities, cannot be too highly recommended

For Scrofula, Scurvy, Skin Diseases and sores of all kinds it is a never-failing and permanent cure.

It cures old sores,
Cures ulcerated sores on the neck,
Cures ulcerated sore legs,
Cures blackheads, or pimples on the face,
Cures scurvy sores,
Cures cancerous ulcers,
Cures blood and skin diseases,
Cures glandular swellings,
Clears the blood from all impure matter,
From whatever cause arising.

As this mixture is pleasant to the taste, and warranted free from anything injurious to the most delicate constitution of either sex, the proprietor solicits sufferers to give it a trial to test its value.

Thousands of testimonials from all parts.

Sold in bottles 2s 3d each, and in cases, containing six times the quantity, 11s each—sufficient to effect a permanent cure in the great majority of long-standing cases, by all chemists and patent medicine vendors throughout the world.

Sole Proprietor, F. J. CLARKE, Chemist,

Extract from a Letter

NORTON'S PILLS

Dated 15th May, 1872, from an old inhabitant of Horningsham, near Warminster, Wilts: "I must also beg to say that your Pills are an excellent medicine for me, and I certainly do enjoy good health, sound sleep and a good appetite; this is owing to taking your Pills. I am 78 years old. Remaining, gentlemen, yours very respectfully, L. S."

To the Proprietors of
Norton's Camomile Pills, London.

[pril 2, 1874.]

Caution.

GENUINE PANCREATINE PANCREATIC EMULSION.

The efficacy of these Medicines in the treatment of Indigestion, Bronchitis, Pulmonary Catarrh, Consumption, Wasting, &c., &c., depending entirely upon their purity and strength, Messrs. SAVORY & MOORE caution the public against imitations of them which are put forth as possessing the medicinal properties of the true preparations, but which are in reality either saponaceous compounds, ointments or pomades, without a trace of the Pancreatic principle and entirely unfit and useless as medicines. These imitations are calculated to produce serious disappointment and to injuriously affect the reputation which the genuine Pancreatine and Pancreatic Emulsion have acquired. It is therefore highly important that purchasers examine the labels on the bottles for the names and Trade Mark

"SAVORY & MOORE,"
The Original and only Manufacturers,
Chemists to the Queen, H.R.H. the Prince of Wales, H.I.M. Napoleon the Third, His Highness the Khedive of Egypt, &c.,
143 NEW BOND STREET, LONDON.

Extract from an Analytical Report upon a Foreign Specimen of a so-called Preparation of Pancreatine.

"This compound resembled an Ointment or Pomade in appearance and consistency, and was flavored with Essence of Almond or Prussic Acid. It was strongly alkaline, indicating free alkali, which, acting upon the fat, produced the usual saponifying result; the whole forming a granular moist mass of fat, soap, glycerine and water. This ointment was physically and chemically different from the true Pancreatic Emulsion which I have also examined, and which, besides being rich in Pancreatic juice, has the delicate aroma, appearance and consistency of fresh cream, is palatable and readily taken."

Wholesale Agents for Canada.
Messrs. LYMAN, CLARE & CO., 382 St. Paul Street, MONTREAL.
Messrs. LYMAN BROTHERS & CO., 157 King Street, Toronto.
February 28th. 1873.

To the Queen and Royal Family; To H. R. H. the Prince of Wales [Special Appointment]; and to several Eastern Potentates, Foreign Governments and Railway Companies, established 1749.

J. W. BENSON,

WATCH AND CLOCK MAKER, GOLDSMITH, SILVERSMITH, AND ARTISTIC METAL WORKER,

Prize Medallist of the London, Dublin and Paris Exhibitions.

Maker to the Chronograph, by which the Derby and all other Races and great events in the day are timed.

Manufactory and City House—58 and 60 Ludgate Hill.

West End Establishments—25 Old Bond Street, and 99 Westbourne Grove, London.

MERCHANTS, SHIPPERS and WHOLESALE BUYERS are specially invited, before sending their orders elsewhere, to obtain from the manufactory the Illustrated Catalogue of Watches, Clocks, Chains, Jewellery and Electro-Plate, which are sent post free, as the terms are the discounts liberal, but a selection can be made from the largest stock in the world.

Orders can be sent direct to the manufactory Ludgate Hill, or through merchant agents in England.

WATCHES	CLOCKS
Of all kinds, from 2 to 200 Gns.	Of all kinds, for the
Lever, Vertical, Horizontal, Duplex, Chronometer, Chronograph, Keyless, Centre Seconds Repeaters, Indian, &c.	Church, Turret, Carriage, Dining and Drawing rooms, Hall, Shop, Library, &c.

English Ormolu Clocks, designed by English artists, and manufactured by J. W. Benson, exceed in beauty those manufactured abroad. They can only be obtained at this establishment.

FINE ART BRONZES AND CLOCK ORNAMENTS, of the newest designs, from Continental ateliers of the highest reputation, moderate prices.

Artistic Gold Jewellery, of the richest and most exquisite designs, with Monograms, Crests, Devices, Enamelled in Colours, after designs by the most accomplished artists in the profession, Metals, Brooches, Bracelets, Necklaces, Lockets, Rings, and all kinds of Jewellery, as supplied to members of the Court, and other distinguished personages.

Presentation Plate.—Testimonials of all sorts, Racing Cups, and Jewelled and Gold Boxes, as provided by Mr. Benson for the Corporation of London and other public bodies, to enclose documents conveying the Freedom of the City to the Prince of Wales, Duke of Edinburgh, &c., &c.

Silver and Electro-plate in the most fashions, and of the most durable make. In Electro-plate it is necessary to secure the materials and a sufficient coating of silver to resist daily wear and tear satisfactorily, which is really cheap at any price, nor worth buying.

Watches and Clocks repaired by skilled workmen. Old Silver, Jewellery, Watches, &c. exchanged. Merchants, Shippers and Clubs supplied.

Watches, Clocks, Jewellery and Plate sent to all parts of the world.

Jan. 17 1874.

OTTAWA STEAM Carriage and Sleigh FACTORY,

RIDEAU STREET, OTTAWA

W. Stockdale & Co
PROPRIETORS.

At this establishment will be found on hand, or made to order the latest and most approved styles of

Coaches, Carriages, Omnibuses, ROCKAWAYS, BUGGIES AND SLEIGHS

Which in point of finish and durability are not surpassed in any market.

☞ All work warranted for one year and all kinds of repairing carefully and promptly done.

A very large amount of new and improved machinery has lately been added and as the whole is driven by steam power (the only establishment so supplied in this section of country), we are in a position to produce work more promptly and cheaper than any one else.

The proprietors are practical workmen give personal supervision to all work.

Ottawa, March 25, 1872.

WEST MIDDLESEX.

Glencoe Demonstration—Great Speech by Hon. Mr. Fraser.

Continued from our last.

He (Mr. Fraser) desired to point out to them that the expenditure every year from the time Sanfield Macdonald took office had been on the increase. At page 135 of the Public Accounts of 1871 they would find that in 1868 the expenditure was $1,183 852; in 1869 $1,444 608; in 1870 $1,580,663; and in 1871, $1,816,886, being an increase between 1868 and 1871 of $663 034. In 1872, the first year of the present Government, the expenditure, as shown at page 151 of the Public Accounts of 1872, was $1,847,956, an excess over 1871 of only $31,070. In 1873 (page 159 Public Accounts) the expenditure was $2,460,212, an excess over 1872 of $612,256. The estimates for 1874—not the expenditure—including $60,000 for services and accounts of 1873, amounted to $2,672,296, and if a fair average deduction were made for the probable saving on the whole estimates of the year, the actual expenditure for 1874 would be somewhere in the neighbourhood of $2,150,000, or on the whole about $300,000 more than that of 1871. So that every year from the time we went into Confederation the expenditure had been increasing, and the estimates had also been increasing. The estimates for 1868 (page 54) amounted to $1,352,677; the amount expended $1,182,388, and unexpended $170,289. In 1869 the appropriations (page 108) were $1,623,514, the expenditure $1,444,608, and the saving on the whole amount $347,902, or allowing for the amount paid that year for the Municipalities Fund, $179,306. In 1870 (page 114) the appropriations reached $1,900 577, of which $1,580,663 was expended, and $319,914 saved. In 1871 (page 133) the appropriations were $2,581,560, the expenditure $1,816,866, and the saving $764,694. In 1872, the first year of the new Government, the appropriations, as shown at page 149 of the Public Accounts, were $2,312,633, or more than $250,000 less than Sandfield Macdonald asked in 1871. The expenditure was $1,847,956, and the saving on the whole year $464,677, or nearly half a million. That was the year in which the expenditure was only $30,000 more than Sandfield's in 1871. In 1873 (page 157) appropriations were $2,914,061, and the expenditure $2,460,212, showing a saving of again about half a million—$483,849. The Supply Bill of 1874 amounted as he had already said, to $2,672,296, and he was safe in stating that they would save at least half a million of money on it, and if from the whole Supply Bill of 1874 was deducted what was paid for services of 1873, the aggregate would be within a few thousand dollars of what Sandfield Macdonald asked in 1871. The appropriations in 1871 amounted to $2,581,560, and all that was asked in 1874 was $2,672,296, of which nearly $60,000 consisted of items properly chargeable to 1873. Thus the expenditure had from the first been gradually increasing, and the present Government had not been the foremost to increase it. The estimates had also been increasing in the same way, and these gentlemen should have said that both were increasing just as in Sandfield Macdonald's time. At the St. Thomas meeting, Mr. Rykert as reported in the *Mail* of the 5th August, said with regard to legislation:—"In 1871 the expenditure was only $93,177; in 1872, $99,559; in 1873, $120,400." The curious would find that the true figures of the actual expenditure for 1871 (page thirty-three of the Public Accounts) was $94,177, and he (Mr. Fraser) explained that the item for 1872 included $10,000 expended on the library, no expenditure of a similar kind having taken place in 1871. In reference to the item on Legislation for 1873, they had what he ventured to say Mr. Rykert said nothing about and what his friends said nothing about—they had to increase the expenditure because each member of the House was paid an additional $150 of indemnity money and sessional allowance, and these gentlemen who were drawing these comparisons had each been annually jingling in his pocket $150 of that money and saying nothing about it. Each of them, except Mr. Cameron, had signed a round-robin to the Government asking that the indemnity, and, consequently, the expenditure, should be so increased. That alone amounted to $12,300, and another addition to the expenditure under that head for than year was on account of printing, stationery, and distributing the statutes, which in 1873 cost $27,800, as against $13,250 in 1871, or more than twice as much. He alleged that it was right to increase the sessional allowance, which before was too small, and he did not hide the fact from the people, as those gentlemen did while they were receiving the benefit. At the St. Thomas meeting Mr. Rykert was also reported to have said:—"In the Crown Lands Department Mr. Sandfield Macdonald spent $99,290, and obtained a revenue of $676,193. In 1872 the Grits spent $161,000, and obtained a revenue of $900,000. Last year they spent $175,000, and realized only $619,000, or in other words, double the expenditure realized less than in 1871. The salaries of the Crown Lands Department cost in two years of Coalition $52,377, and in two years of Grit rule $102,600." That statement was simply bristling with untruths. It was true that Mr. Sandfield Macdonald only realized a revenue of $676,193 in the last year of his Administration, but it was quite untrue that the revenue of the year following only amounted to $900,000. It amounted to $1,166,407. In 1873, instead of being only $619,000 from the Crown Lands Department, it amounted to $889,104. The three items from which this revenue was derived for these three years were Crown Lands, woods and forests, and mines, and would be found in the opening statement of the Public Accounts for each of those years. So with regard to the salaries. Mr. Rykert stated that "The salaries of the Crown Lands Department cost in two years of Coalition $52,377, and in two years of Grit rule, $104,600." He would give the salaries year by year to 1873. The Crown Lands' salaries amounted in 1868 to $38,119, in 1869 to $34,872, in 1870 to $30,273, in 1871 to $29,884. For these four years the items would be found in the comparative statement at the end of the Public Accounts for 1871. By turning to the comparative statement of the Public Accounts of 1874 and 1873 it would be found that the salaries for these years were—in 1872 $32,563, and in 1873 $38,430. He need scarcely defy any one to verify Mr. Rykert's figures from these statements. (Cheers.) What did they think of a man who tried to condemn the Government, not upon truthful statements of fact, but upon broad misstatements of fact. The whole departmental expenses properly chargeable to salaries, and taking all the departments together, had been as follows:—1868, $81 316; 1869, $73 5[illegible]; 1870, $81,231; 1871, $85,512; 1872, $88,727; 1873, $99,332. These amounts for each year included the salaries of the Auditor, &c., and Inspector of Prisons, &c., but in the amounts for 1872 and 1873 were included for the first time, chargeable as salaries against the Public Works Department, a total sum of $5,302, being the salaries paid to the architectural draughtsman, engineering draughtsman, assistant draughtsman, first, second, and third clerks, and carpenter, the salaries of all which were in Sandfield's time chargeable to the different works of the Province and nowhere appeared as salaries, so that for fair comparison the aggregate for 1872 ought to be $83,425—actually less than that of 1871—and for 1873, with all the increase of salaries added, only $94,030, or only an increase on the whole of $8,518, it was charged against the Government that they had increased almost every salary of the subordinates in these departments, but it could not be charged them they had done what Mr. Rykert had never condemned in the case of Sir John Macdonald's Government—increased their own salaries. (Cheers.) The only result of the discussion last year upon the question of salaries was that before the session closed the Opposition were endeavoring to get the Government to make further additions to the expenditure by other increases. (Laughter.) It was only fair to say that Mr. Cameron supported the increases, and voted for every one of them except in the case of the Inspector of Prisons, and so did Mr. Richards. The Government had the support of every member of Sandfield Macdonald's Government who was in the House, but these gentlemen—Mr. Rykert and Mr. Lauder—were above following their leaders. He thought that it was unnecessary to add that the salaries which they wanted the Government to increase were those of very particular political friends of theirs who they thought ought to have just a little more. (Laughter.) Then there was the item of law costs. Mr. Lauder had made a charge in reference to this in the House. He (Mr. Fraser) had corrected them there, but he found Mr. Lauder was repeating the same charge. He believed it was at the Clifford meeting that he made these old misstatements. The real figures were these:—In 1869 the amount of law costs was $11,861; in 1870, if they made up the items as Mr. Lauder made them up for 1872 and 1873, the amount correctly chargeable to law costs would be $25,430, $16,120 of that being in connection with the costs of the arbitration between the Province of Ontario and the Province of Quebec, for which Mr. Lauder's figures for 1872 contained similar charges. In 1871, the costs actually incurred, though partly paid in 1872 by the new Government, were $18,116; in 1872 the costs incurred by the Reform Government amounted to only $12,606, and in 1873 to $11,359. (Hear, hear.) And still Mr. Lauder continued to state that they expended $18,265 in 1872, and to make up that item charged against them what they paid for expenses incurred by Sandfield with reference to the arbitration and the Law Reform Commission, which in his (Mr. Fraser's) amount for 1871 he had added as part of Mr. Macdonald's expenditure. At the Burford meeting, also, Mr. Rykert was reported in the *Mail* in this way: "Here the speaker alluded to the great expense, or the great amounts that were charged by the officials, in visiting the institutions in Brantford and Belleville, and other places—$300 for a wine supper, &c. Thousands of dollors were spent by them and charged to account of 'scrubbing and dusting.' That's the way the money goes.' (Laughter.) The facts about that matter were simply these:—During the season of 1873 Mr. McKellar, who then had charge of these institutions, thought fit to invite the members of the Legislature to go down to Belleville. Every member of the House was invited. Mr. Phillips, who looked after the refreshment room in the House, was the man who went to supply what was considered necessary in the shape of refreshments. Every member of the House knew that Mr. Philips was also the housekeeper of the central building, that devoted to the Legislature alone. He was allowed certain monthly amounts for cleaning the rooms and keeping the whole place in order, and also for certain other matters, such as the board of the telegraph operators who were kept in the building during the session for the convenience of members. No work was asked in the Public Accounts Committee whether anything had been paid for refreshments or not. Mr. Phillips' account for 1873 might be found at page 103 of the Public Accounts, where, under Legislation Contingencies, the proper head, was this item—'Thomas Phillips' office cleaning, &c., $626.' Mr. Rykert knew, as every one else knew, that in that item would be found whatever might have been paid for the refreshments, and so he sent for the account and found in it that, out of the whole sum paid for the year to Mr. Phillips' by the Government the amount of $50, all told, was that paid for the refreshments furnished to all the members who went on that trip to Belleville. (Laughter.) Mr. Rykert said the Government were trying to hide that item. What were they trying to hide? Did not every one know that the refreshments were furnished at the public expense, that Mr. Phillips had been paid for them, and that in his name in the Public Accounts would be found the item which included this amount? (Cheers.) Mr. Rykert now said that they had paid $300 for a wine supper! He (Mr. Fraser) did not think he could characterize that statement in terms as strong as it deserved. There was no wine supper. (Cheers.) There was nothing but the refreshments supplied on the trip. Mr. Rykert also said, "They spent thousands of dollars, and charged them to the account of scrubbing and dusting." No such charges were incurred, and no such item appeared in the Public Accounts. (Cheers.) The item as printed was, "office cleaning, &c." These accounts were not made up by any member of the Government, but by the clerks in the office, who put them in the form usually followed and never complained of—and that was the whole explanation. (Cheers.) Was it not a contemptible Opposition which had to come down to statements of that kind? (Hear, hear.)

To be Continued.

A SEARCHING INVESTIGATION.—The Halifax *Chronicle* says:—No matter what the constitution of the incoming Quebec Ministry, whether it be Conservative or Liberal, it is necessary that a searching investigation into the conduct of those drummed out of office to the tune of the "Rogue's March" should be made, and the truth or falsehood of many more charges of corruption, besides that of the Tanneries job, rendered plain. If the culprits are guilty they should be promptly expelled from the Local Legislature, and if possible, subjected to other pains and penalties. The mere acceptance by the Lieutenant Governor of the Ministers' resignation of their portfolios is a bagatelle if they are nevertheless permitted to sit in the Legislature, and, with all their crimes upon their heads, encouraged to strut the political stage as patriots in future.

INFLAMATION OF THE LUNGS.—Clifton, N. B., 17th February, 1873. Sir: In behalf of my family, I wish to acknowledge a debt of gratitude I owe Mr. James I. Fellows. My daughter had been ill with inflammation of the Lungs, had raised large quantities of blood and purulent matter, attended with every symptom of Consumption. After obtaining the attention of two eminent physicians, who afforded her no relief, she was persuaded to try Fellows Syrup of Hypophosphites. Upon taking two bottles we had every reason to believe she would be cured. Her physicians were surprised to find her improvement so rapid, and advised her to continue its use, which she did until a complete recovery. Two years have elapsed, during which time she has neither taken nor required any medicine, enjoying good health, and urges all who are afflicted with any Lung or Chest trouble to use the Hypophosphites without fail. My wife, also having been in bad health for some time, and having had Typhoid Fever in December last, which left her much prostrated, was advised by the physicians to use this remedy to build her up. Before taking half a bottle she found herself much benefited, and still continues to use it. I believe under kind Providence, Fellows' Compound Syrup of Hypophosphites has been the means of restoring both my wife and daughter, and I hope the afflicted will avail themselves of its use, for although it is widely used, I think its value is not appreciated. Yours truly, JOSEPH A. EVANS. 3677

The Ottawa Times

THURSDAY, SEPTEMBER 24, 1874.

The first sod of the Pembina branch of the Pacific Railway was turned last Saturday.

The abolition of the French language in the Legislature and laws of Manitoba is said to be the principle plank in the platform of the party known as the "Canadian," in view of the coming election.

THE CONSERVATIVE LEADERSHIP.

The Kingston election trial comes off about the middle of next month, and of course the result is a foregone conclusion. It will be somewhat humiliating to have the leader of the Conservative party unseated for bribery and corruption, but there is little doubt that the Fates—fickle jades—have so decreed it. When the root is rotten, it would be the greatest foolishness imaginable to expect other than that the tree which grows from it is tainted with the fatality throughout, and when the chieftain of a political party—whose name is the only relic of their past glory around which the few followers that are left him can cling—is certain to be unseated for corrupt practices, it would be surprising indeed if even these few who remain to him did not hang down their heads in shame at the very anticipation. Such is the condition of the Conservative party of this Dominion in the meantime. That leader who, by means frequently not very honourable nor very creditable, kept the star of Conservatism in the ascendant for a long series of years, but who at last sent it down to the bottom of the horizon, is at last likely to be declared to have been sent to Parliament by means which are not honourable, by means which the very law he claims credit for having placed upon the statute book of Canada declares to be illegal, by a [illegible] which a more perfect and better framed measure which has since been enacted asserts to be criminal and punishable. It is true that Sir John Macdonald has hung, as he will ever continue to hang while he retains any connection with them, like a millstone about the neck of the Conservative party ever since his disgraceful Pacific Railway transactions. The depth of degradation into which he sank at that time in his frantic endeavours to retain his hold of the reins of power—endeavours which came only too near being successful, only too near consummating the moral and political ruin of this young country, only too near making the very name of Canada a synonym for corruption, moral depravity, and political debasement—and into which a moiety of his followers in the House and country were, willingly or unwillingly, dragged after him, was so very great that it is admitted by all that neither he nor his compatriots could ever be rescued from it. The loyalty which elevated—if it can properly be called an elevation—the chief author of the Pacific Scandal to the leadership of the party he had already led into destruction was surely a mistaken one, for he had deliberately brought them to their desperate condition, playing traitor not only to the confidence they had placed in him, but also to the dearest interests of the country. From a partizan point of view, no member of the Liberal party could have seriously regretted this—had the same all-absorbing selfishness predominated in the ranks of the Liberals which is the distinguishing feature of the true-blue Tory, they would have all rejoiced in the fact; but, as it is, the disorganization and chaos which prevail in the Opposition camp positively unfit them, either individually or collectively, for the performance of those duties which our system of Government and a Parliament elected under the British Constitution expect and require of them—a state of matters which every true Liberal heartily regrets. We admit, of course, the difficulty in which the small Conservative contingent which survived to tell the tale after the late general election, found themselves placed at the meeting of Parliament. It was with them a simple choice between two alternatives—political degradation, with all its bitterness, or the blackness and darkness of complete extinction as a political organization. It was with them, either Sir John or nothing. There was no one left in the party who was able to take his place, and yet a refusal to accept the resignation, which, with so much apparent magnanimity he was reported to have tendered, involved consequences perhaps more deplorable in the end than temporary dismemberment—consequences which would extend into the far future, which would blacken the page of history upon which the record was written, which would poison with their leprous impurity every life-drop which flowed in the veins of the organization in the time to come, and dwarf, if not completely paralyze, every effort which might be made to regain the lost political status. It must be with an overwhelming sense of pity mingled with disgust that any one, [illegible] desperate [illegible] placed themselves, must regard the choice. In dismemberment, if there was no hope for the present, there was at least some for the future. The coming time would have brought forth new issues upon which to divide, new lines of antagonism, and new if not better men to lead. Perhaps the record of the young organization would have been easy to write, and perhaps there would have been no war-cries of the dim past around which to rally the faint-hearted; but, what would be equally important, there would be no legacy of guilt to weigh them down, no mark upon their brow which would cause them to blush beneath the scrutiny of honest men, no memory of Pacific Scandals nor the filthy gold with which their predecessors enriched themselves to haunt their every vision and invest their every public act with suspicion and distrust. The Conservative party, however, chose to shoulder the Pacific Scandal and its author, and of course they have so far had to suffer the disastrous consequences.

It is now said that they are to get rid of the chief actor in the Pacific matter in a way which will not involve his formal deposition, although it will of necessity bring still further disgrace and humiliation upon the remnants of the party. The process by which this will be accomplished is said to be this: The seat at Kingston being declared vacant, as it is sure to be—if something worse, indeed, does not happen—Sir John Macdonald will, upon some satisfactory or unsatisfactory plea, retire from public life—disappear from the scene for ever. But who is going to take his place—there's the rub? We look in vain to Parliament to supply the place. Dr. Tupper has long been declared impracticable, and—but the list suddenly ends at this point. Rumour, with her many tongues, has of late been busy asking who is to be the coming man, and in response there have arisen, as if out of the earth, not one, but two live candidates. There was recently a political pic-nic in Dundas County, at which Mr. Thomas White, of Montreal—*prima facie* Tom, as his friends call him—was the leading and indeed the only star. Well, Mr. White is one of the coming men in his own estimation, at any rate, and, although it may be a surprise to many to hear it, he is spoken of by some of his admirers as the probable successor of Sir John Macdonald. Well, from Sir John—the Right Hon. Sir John, K.C.M.G., &c., &c., &c.,—to plain Mr. Tom White is a great descent in every way you can look at it; but the thing might be worse, we confess. Mr. White's rival is said to be a Mr. Thomas C. Patterson, whose physog. frequently figures in *Grip's* caricatures, and who appears there in the character of a jockey. From this we infer that Mr. Patterson is a "sporting cuss." No doubt he would have many claims upon the gentleman's party the party of kid-gloves, *eau-de-cologne*, stiff starch fronts, cuffs, collars, &c. He is also said to be managing director of the Toronto *Mail*—the tailor's organ, as it has been appropriately dubbed—which would of course be an additional recommendation. Between the two Toms—the *prima facie* and the horsey—of course there is plenty room for a choice.

THE UNITED WESLEYAN CONFERENCE.

FIFTH DAY.

TORONTO, Sept. 21.

In the United Wesleyan Conference today, the Committee on Discipline recommended that the Twenty-one Articles on religion be inserted in the first part of the Book of Discipline.

The Nominating Committee recommended the appointment of four additional committees.

A memorial was received from Owen Sound in reference to the mutual adjournment of route in cases where Wesleyans and New Connexion circuits exist in the same locality. Referred to Committee.

Bishop Peck delivered his farewell address, official duties calling him hence.

Dr Sargant read a letter from Dr. Summers, whom he designated the Archbishop of the M. E. Church, South, requesting him to act as the representative of the Church South, and offered an eloquent address descriptive of the state of Methodism in the South.

In reply a motion was passed appointing a committee to frame an address to the Church South.

In the afternoon session, on the report of the Committee on Discipline, it was resolved, after a long discussion, that the next Quadrennial Conference commence on the first Wednesday of September, 1878, and the first business be to elect a President, Vice President and Secretary, with two assistants.

It was resolved that the missionary meeting should be held in the Metropolitan Church, Thursday evening next. Judge Wilmot is to preside.

The Committee on Discipline were directed to consider the propriety of instituting a Committee of Appeals.

The Conference next proceeded to elect a Vice President, and on the second ballot Rev. G. Douglas, LL. D., was elected by a large majority.

Rev. G. Young, just arrived from Manitoba, was introduced.

A notice of motion, relating to the reading of sermons in the pulpit, was given by Rev. H. F. Bland.

SIXTH DAY.

TORONTO, Sept. 22.

The Conference re-assembled at nine o'clock, Dr. Ryerson in the chair.

Rev Dr. Stewart reported for the Committee on the Course of study. It was ordered to be printed for future consideration.

Rev. J. C. Slater submitted a resolution from Sarnia, recommending that on Dependent Circuits, the amounts payable by trustees as interest on parsonage debts, shall be regarded as rent, and taken into consideration by the several Connexional Funds Committees.

Dr. Rice moved that the answer to the address of the General Conference of the Methodist Episcopal Church of the United States to the General Conference at Hamilton, be referred to the Committee on Correspondence.

Rev. F. Berry moved that the General Conference be recommended to fix the minimum salary of married Ministers at eight hundred dollars.

Rev. C. Fish presented two memorials from Peterborough and Millbrook respectively, asking an extension of the ministerial term of service.

Rev. Wm. Scott read a memorial from the Toronto Metropolitan Church, asking that the ministerial term of service be extended to five years.

The memorial of the Montreal District Meeting, recommending the establishment of a book concern and religious newspaper in Montreal, was referred to the Committee on Publishing.

Dr. Douglass introduced to the Conference Rev. Mr. Gallagher, of the Reformed Episcopal Church, who addressed the Conference.

This afternoon, after the usual religious exercises, Mr. Borland brought up the report of a Special Committee appointed to consider a memorial upon grievances alleged by Dr Aylsworth. These were dismissed as formally settled.

Rev. John A Williams, from the Committee on Discipline, submitted a further report.

A considerable discussion arose on the election to the Presidency of the annual Conference of the same person oftener than once in four years.

The Hon. James Ferrier defended the [illegible] Conference [illegible] principle was adopted by the general Conference.

Rev. J. H. Robinson, representative of the British New Connexion Conference, was introduced, and addressed the Conference.

The Constitution of the Stationing Committee was under discussion, but was laid over at near the time of adjournment.

Dr. Douglass moved that the Conference hold but one sitting each day, from nine to half-past twelve, and the times of meeting of Committees were arranged.

CITY AND VICINITY

CITY HALL CONTRACT.—The contract for the new City Hall will to-day be signed by Messrs. Johnson & Reid, carpenters, thus finally closing this important document.

GUARDS' BAND.—This fine band again afforded a treat to our citizens last night in Parliament square by discoursing a well selected programme.

ARTILLERY BAND.—The fine band of the Garrison Artillery played some stirring airs at the corner of Elgin and Sparks streets last night previous to going to the theatrical performance in the Rink Music Hall.

ENGLISH MAIL.—An English mail will close at the city Post Office to-morrow [Friday] at 12.05 o'clock, p.m., destined for the steamship 'Sarmatian,' which sails from Quebec for Liverpool on Saturday. A supplementary bag will close at 1.25 p.m., for the same destination.

The choicest selections of dress goods in the city, at Maclaren & Chalmers.

RUSSELL FAIR.—The usual Annual Exhibition of the County of Russell will be held at the Village of Metcalfe, on Tuesday next, the 29th inst., and will continue for two days. This Show is generally a success, and from what can be gleaned from those interested, it promises to be a successful one this year.

IMPORTS.—The following imports for Ottawa, appear in the Manifest of the Steamship "Circassian," just arrived at Montreal from Liverpool:—Garland, Mutchmore, & Co., 11 pkgs; Magee & Russell, 3 pkgs; T. Hunton, Son & Larmonth, 1 pkg; Militia Department, 14 pkgs; Thos. Beament & Co., 2 pkgs; J. Metcalfe, 5 pkgs.

Just arrived and now for sale at great reduction, having bought at a very low prices the following goods: Stoves of all kinds, japanned, planished and plain Tinware, Lamps and Coal Oil, Cutlery, Axes, Nails of all sizes at C. P. Dorion, 81 and 83 Sparks street, Ottawa. 3679

THE DAILY TIMES can be procured every morning for 15 cents per week. The "Weekly" Friday morning's, in time for English Mail, at E. A. Perry's Elgin St.; Battle Bros., Rideau St., and Russell House; Lacy, Bridge St., Chaudiere; L'Echo Office, Hull; St. Lawrence & Ottawa, and Canada Central Railway Stations.

OTTAWA & GLOUCESTER ROAD COMPANY.—At a meeting of the Ottawa and Gloucester Road Company held yesterday afternoon in Mr. Clemow's office, fourteen tenders were received for the construction of a branch macadamized road from Billings' Bridge alongside the Rideau river for three and a half miles. The tender of Mr. O'Leary was accepted, with Messrs. Kelly and Kennedy as sureites.

T. E. MOORE opens his new establishment at 74 Sparks street. Every one should attend his cheap sale the next three days, as he will positively close them on Saturday. T. E. MOORE. 2680

QUEEN FIRE ENGINE.—This elegant hand engine has been entirely overhauled prior to her departure for Buckingham Village. She will be shipped to-day for her destination by one of the steamers of the Ottawa River Navigation Company. This engine has done infinite service in the city of Ottawa in her day, and it is to be hoped Buckingham may have a like experience but a less extensive one with their new engine.

GOWAN'S OPERA HOUSE.—Gowan's new Opera House on Albert street is being pushed on vigorously towards completion. The seating, gallery, stage and other internal arrangements are almost finished. The lathers are also at work like nailers and expect to give way to the plasterers in a few days. The brick veneering has been commenced and will be completed in about another fortnight. This enterprise on the part of Mr. Gowan is soon likely to be consummated, and will no doubt be duly appreciated by the citizens of Ottawa.

The ladies are delighted at getting the latest styles in dress goods at such low prices at Maclaren & Chalmers.

ARRIVALS AT THE RUSSELL HOUSE.—Jas Lear, Wm. MacMaster, jr., W B Edgerton, Montreal; J Allen, Toronto; Rev H Habett, Chaplain of H M Forces, Chelsea, Eng.; A B Galt, Toronto; Alex Leitch, jr., Bryson; John Bell, Peter White, jr., Pembroke; C Summerman, Utica; Chas Mohr and Miss Mohr, Mohrsville; F G Fotheringham, Boston, Wm Bennett, jr., Liverpool; C Tetu, Quebec; Crawford Lindsay, Quebec; Mrs. W H O'Dell, Mr. O'Dell and Miss O'Dell, W H O'Dell, Mr. Chapleau, wife and child, Montreal.

Every one who has 50 cents to spend should take it to T. E. Moore's Novelty Cheap Sale, 72 Sparks street. He will offer cheaper bargains the next three days than ever. 2680

ORDER YOUR COAL OIL.—Mr. C. S. Shaw who is so popularly known in connection with the coal oil trade is about to inaugurate a novel but very satisfactory mode for its distribution to those who may favor him with their orders. He purposes having two vans, one for Upper and the other for Lower town, to go from house to house and supply oil in just such quantities as customers may desire it. The idea is a happy one and will be a great convenience to those who have frequently to tramp all over town to seek for light. The public will duly appreciate this action on the part of Mr. Shaw, whose efforts at all times seems to be the consultation of public convenience no matter at what sacrifice to to himself. The new project will be watched with intense interest. Look out for the coal oil man.

RINK MUSIC HALL.—Last evening Mr. McMillan appeared to great advantage as "Ingomar, the Barbarian." He is an actor of great merit, possessing natural fire and elocutionary power and although suffering somewhat from hoarseness declaimed with energy and effect. Miss Webster's "Parthenia," is the most beautiful performance she has given, her artlessness, graceful bearing, correct costuming and admirable elocution, putting in the shade the efforts of many of the stars who have appeared here. She is always good, never hesitates, and moreover is *text perfect du excellence* we wish others would endeavour to attain. To-night Mr. E. H. Brink promises to appear and in addition Mr McMillan appears in the pantomime role of the "Dumb Man of Manchester," as played by him at the Olympic Theatre, London, and Messrs. Wayfield and others will appear.

Police Court.

Before M. O'Gara, P M.

WEDNESDAY, Sept. 23.

R. Curry arraigned on a charge of drunkenness was fined $2 and costs.

David Plante charged with using abusive language to one Mary Ann O'Hara, was fined $5 and costs.

Mrs Gravelle was up on a charge of using insulting language to Sophia Duke, a neighbor. She was relieved of $5 and costs for her indiscreet behavior.

Joseph Brokenshir, remanded from the previous day for the larceny of a watch, was next called. The prisoner was discharged, the affair turning out to be the result of a spree.

Alphonse Emo, also up on remand, was discharged for lack of evidence.

James Ellis, up for abusive language, was fined $8 and costs.

Wm Lowe, the bank clerk was next called on a charge of receiving $10 from Joseph Dimbleby, of Rideau street, under false pretences. Mr. Dimbleby declining to prosecute he was discharged. He was re-arrested on another charge and remanded till this morning.

A LAMENTABLE TRAGEDY.

Two Men Hurled Into Eternity.

A THIRD NARROWLY ESCAPES.

CORONER'S INQUEST.

Yesterday afternoon, about half-past four o'clock, one of the most lamentable tragedies that it has been our lot to chronicle for some time, took place at the new wing being erected in connection with the Union House, in the City Hall Square. It would seem that five men were working on a scaffold at the base of the fourth story of the above structure, when by some unaccountable means the scaffolding gave way and precipitated two men a distance of 60 feet to the pavement below. One young man named Storr, aged about twenty years, and a painter by trade, fell upon his head, fracturing the skull in such a fearful manner as to produce instantaneous death. Another named Henry Marlingly, and a carpenter by trade, was at the same time hurled headlong to the sidewalk, and his neck broken, so that he only survived his injuries a few minutes. A third party also named Storr, was being precipitated with the others, but in the act of falling he grasped a projecting copingstone, to which he clung with great tenacity until rescued by a rope dropped from the top of the building by the two men who escaped. The accident was observed by chief Young, of the Fire Brigade, and two other gentlemen who were in his office at the time, and also by Constable Pinard of the Police force. The Chief and his friends immediately they saw the man suspended by the hands, rushed for an extension ladder, but ere they reached the scene he was saved, as before described. The young man, Storr, was on the eve of completing his apprenticeship as a painter. His parents feel the bereavment, and sorely mourn his untimely end. Mr. Marlingly was a journeyman carpenter to trade, and had only been a few weeks in the country. He leaves a wife and family, who greatly deplore the loss of their only hope in life, and one upon whom they were entirely dependent for subsistence.

There was intense excitement for a time and a gloom cast over the entire community when the details of the terrible tragedy became known. The City Hall Square was soon densely crowded by an eager throng who gazed intently either at the building from which they had fallen or at the ghastly corpses stretched before them in death. The bodies were, however, after the arrival of Coroner Corbett removed by his order to the Central Fire Station to await the empanelling of a jury. A chill of horror ran through the assembled multitude as they contemplated the fearful nature of the accident that hurled two fellow-creatures into eternity without the least note of warning. The friends of the deceased have the sympathy of many who have already evinced an interest on their behalf. No evidence was elicited to assign a cause for the fearful accident, but the presumption is that the scaffold had been in some way tampered with and its strength seriously impaired

CORONER'S INQUEST.

Coroner Corbett being sent for soon arrived, and ordered Sergeant O'Keefe of the police force to place the bodies in the Central Fire Station to await the action of a jury to be summoned for an investigation as to the cause of death.

The following jurors were empannelled by Sergt. O'Keefe, by order of the Coroner, and the inquest agreed to be held in the Police Court Room:

Andrew Percy, Foreman.

Wm. Addison,	Thos. Keough,
A Reddick,	John Bennett,
N Bureau,	Geo. Luce,
John Cameron,	E. Harvey,
Thos. Robinson,	A. E. Gendreau.
D. McCraskey,	John Craig.

The jury having been sworn, the Coroner directed Drs. Lynn and St. Jean, M P, to accompany the jury for the purpose of examining the bodies of the deceased.

At this stage, Coroner VanCortlandt entered the room armed with a law book, and firmly protested against Dr. Corbett going on with the inquest, as he had taken the initiatory steps towards holding one.

Dr. Corbett paid no attention to the remarks of Dr. VanCortlandt, and the inquest was proceeded with.

Wm. Young, Chief of the Fire Brigade, was sworn. He deposed as follows: Was sitting in his office underneath the Police Court with Dr. Telford and Mr. Gilbert. Heard a crash when Dr. Telford said there was a man killed. Looked out at the door which was open at the time. Saw a man tumbling down among a lot of scaffolding from the base of the fourth storey of the new addition to the Union House. Ran across the City Hall Square and returned for ladders to rescue a man who was hanging from the base of the fourth storey by his hands. Before he was reached, a rope was flung to him by which he was saved. Went to the platform on Elgin street, saw one man dead and the other dying. Was told the man who was dead was a painter named Storr, in the employ of Mr. Howe. He believed he came to his death by the fall.

Mr. Gilbert being sworn, corroborated the testimony of Mr. Young.

Drs. Lynn and St. Jean being sworn said that they had examined the body of Truman Storr, and found the skull fractured in several places—injuries in our opinion sufficient to be the immediate cause of death.

Policeman Pinard was next sworn. He deposed:—Was standing at the door of the Police Station when I heard a crash. Saw two men and some scaffolding falling from the third storey of the new addition to the Union House. Went over and found Truman Storr dead. Dr. St. Jean was present and in attendance on the other man who was not yet dead

Robert Bugg was next sworn. He deposed:—He built the scaffold about a month ago. Worked on it for the last two weeks. Was on it the time the two men fell. Put the rope out to save the man who hung on the corner stone. There were five men on the scaffold at the time. The scaffold gave way by something breaking. The scaffold was built for carpenters to work from. Thought the scaffold capable of bearing the number of men upon it or he would not have ventured upon it. The part of the scaffold he was on did not fall. No previous mishap occurred to the scaffold.

The jury gave a verdict to the effect that Trumaun Storr met his death by the accidental falling of a scaffold, in use for the erection of a new wing to the Union House.

The jury having disposed of the case of Storr, the Coroner gave, by their permission, an order for the restoration of the body to the relatives. Mr. Howe, his employer, who seemed much affected at the death of the young man, who had but a few days to complete his articles of apprenticeship, removed the remains in his own express to the residence of the parents of the deceased.

The jury were again sworn to investigate into the cause of the death of Henry Merlingly, who met with his death at the same time as Truman Storr.

Robert Reid, master carpenter, was first sworn. He deposed to the scaffold being made as strong as it possibly could be. It was built by Mr. Bugg, who had been several years in the Royal Navy. He was selected for that reason, being experienced in the making of scaffolds. It was braced and in every way firmly secured. The timbers in the scaffolding that gave way were perfectly sound.

Robert Bugg was again called, but he had no further testimony to add to what he had previously given.

Drs. St. Jean and Lynn being sworn, deposed:—That they examined the body of Henry Marlingly, and found a dislocation and fracture of the first cervical Vertebræ, and deemed it sufficient in their opinion to be the immediate cause of death.

No further evidence was taken, the jury deeming it unnecessary.

The jury, after a short deliberation, brought in a similar verdict to that of the previous case.

An order was then given by the Coroner to restore the body of the deceased to his friends.

The jury were then discharged.

BRITISH COLUMBIA NEWS.

We are in receipt of British Columbia exchanges up to 2nd September, from which we extract the following items:—

VICTORIA.

(From the Standard.)

THE HARBOR IMPROVEMENT.—The dredging of Victoria harbor is being prosecuted with a result satisfactory to the engineer in charge, and the spit is being removed piecemeal, although it is found a somewhat tough job. What has hitherto been considered a sand drift forming a sand bar, general in these parts, is now proved beyond doubt to consist of a conglomerate of sand and gravel very closely united and hard to penetrate. It forms, in fact, a part of the natural bed of the harbor. Good judgment and care are requisite in applying the dredge to its removal. The little tug for towing purposes has been tested during the breezes of the past few days and is found fitted for her work, although most persons considered her too light and not possessing sufficient power to take loaded barges into the straits during a wind. A great deal of economy is practiced this season in the prosecution of the harbor improvements.

PACIFIC COAST POTATOES.—A correspondent writes: The ship 'Tocquin,' Captain Thorn (formerly a lieutenant in the U.S. Navy, and who took part in the war with Tripoli), was sent to the Columbia River by John J. Astor, where she arrived in June, 1811, and founded Astoria. Among her cargo was some potatoes that were preserved while passing through the torrid zone by being put into a linen sack and tied to the main mast of the ship. On their arrival the potatoes were planted, and thrived luxuriantly, from which over 30 kinds of potatoes were produced. For over 40 years no other potatoes were brought into the country. Larger and better potatoes I have never seen than those on the Pacific Coast.

AN INDIAN REPORTED SHOT.—A settler in town from one of the islands in the Gulf of Georgia reports that the Indian, a bad character, who had been had up for examination a few months since on a charge of having shot Annandale was discovered by a Fort Rupert Indian a short time ago in the act of skinning two head of cattle which he had just shot, the property of one of the farmers on the island. The Fort Rupert was invited to the camp of the other, since which time he has not been seen. There are good grounds for believing that the Fort Rupert has been shot by the other, and the settlers are anticipating a raid from the Indians of the tribe of the murdered man to take vengeance for the deed.

From the Colonist.

ACCIDENT.—On Monday afternoon, Mr. John Heal, of Lake District, started from his farm to drive a pair of horses attached to a waggon loaded with cordwood to town, he sitting on the wood. Some little distance beyond his farm, in descending a steep hill, the load slipped forward on the horses, carrying him with it. The horses broke into a run and are supposed to have dragged him fifty yards, as the wood was found scattered along the road for that distance. When picked up he was quite insensible, and remained so for three hours afterwards, and is semi-conscious now. Dr. Davie was sent for and found that Mr. Heal's skull is fractured on the right side. His left leg below the knee is crushed; it is supposed that the wheel passed over it, and his body is much bruised. Dr. Davie says that, considering the gravity of the injuries, the patient was in a wonderfully good state last evening; but it is impossible to express any opinion as to the probable result. Mr. Heal is a very old and much respected resident and has a large family dependent upon him.

ACCIDENT.—While a thrashing machine was in full operation at Mr. George Dean's, an Indian lad of thirteen summers, who appears to have been there for his own amusement, had both legs so badly crushed that amputation will have to be performed, should reaction set in and the boy be able to stand it. He lies at the Royal Hospital.

LOWER FRASER.

From the Mainland Guardian.

A meeting was held at the office of Mayor Dickinson, New Westminster, on Monday for the purpose of promoting the objects of the Protestant Orphanage at Victoria. The result was the appointment of a committee composed of Messrs. Homer, Ellard, Dickinson, Major and the Rev. Messrs. Jamieson and Russ. It was decided to take up semi-annual subscriptions.

The *Guardian* learns that $600 has been granted for the repairs to the Custom House in New Westminster and that an appropriation has been recommended for a Custom House at Burrard Inlet.

Capt. Cooper is up with the steamer 'Etta White,' repairing and re-setting the buoys at Frasermouth.

The settlement on the South Arm is making very decided progress.

The *Guardian's* Lillooet correspondent writing on Aug. 23, says:—

"The weather for the last few days has been favorable for harvesting, and farmers are taking advantage of it and securing that portion of their crops which is ripe; there will be a good average crop. I hear there is an epidemic among the cattle on the wagon road, similar to the epizootic among horses; men riding round found numbers of steers dead. I have heard of none about here. Times, dull."

MINING INTELLIGENCE.

From the Sentinel.

CONKLIN GULCH.—The Ferguson co. washed up 82 oz. last week, and 90 oz. up to Friday, working one shift. The Ontario co. will have about 40 oz. this week; expect to take out big pay next week.

The Cora co. have not bottomed their shaft yet, but have struck a pay stratum which looks well. The White Pine co's. ground looks favourable, and will yield about 4 oz. to the set. Ottawa co. have struck a hill channel; wash and water very heavy.

LIGHTNING CREEK.—Spruce co. washed up 130 oz. last week, and 24 oz. on Wednesday. Point co. had 106 oz. last week; have been moving their pumps last week. Van Winkle co. since starting this season have cleaned up splendidly; last week they took out 290 oz., and on Wednesday 139 oz. Victoria co., owing to the late heavy rains and consequent height of water in the creek, have made very little progress in lowering the water; should the present fine weather continue they will soon make good headway against it. Vancouver co. took out 145 oz. last week, a great deal more than expected on account of the nature of the work done. No change in the Vulcan and Costello since last report.

ANTLER CREEK.—Nason co. have been putting in a new pump this week, and will be at work again in the face on Monday. Tindal and Bir have started in to prospect the lower end of the McBean bench.

HARVEY CREEK.—The Minnehaha Co (Rankin & Turley) had 40 ounces last week, one pick working. The Cummings Co, will commence washing next week; have sunk a new shaft at the upper end of the old works, and have ground in sight that will pay 3 ounces to the set.

KEITHLEY CREEK.—The unexpected freshet of last week did considerable damage to the claims on Keithley, sweeping away wing dam, &c. The White Grouse Co., had also a narrow escape from being filled up.—*Sentinel 22nd.*

FROM OKANAGAN.—Mining is carried on at Cherry Creek; there are five white men and five Chinamen; they average about $5 per day to the hand. The gold is largely mixed with silver, and assays only $14 to the ounce. The surrounding country is very fine and living cheap, so that $2 per day is equal to $10 anywhere else. Mining can be carried on till December.

The farmers were a little retarded in their operations by a week's rain, a rather unusual thing in that section. The bridge across the Spellmacheen is in process of building, this will connect Okanagan with the head of navigation on the Shuswap Lake. Harper purchased a band of cattle at Okanagan lately; he paid about 5 cents per lb. on foot.

Senator Bureau on the Treaty.

From Le National.

A numerously attended meeting of the electors of the De Lorimier Senatorial Division was held on Sunday afternoon, the 13th inst., at the village of Sherrington, for the purpose of listening to explanations as to the advantages of the proposed Reciprocity Treaty with the United States. Not less than two thousand persons of the County of Napierville, St. Jean, and other parts of the Division composed the assemblage, which included the most influential men of the different localities—those who form and give an impetus to public opinion. Dr. Lafontaine, M.P.P., was called to the chair and Mr. Amable Patenaude of St. Edouard, acted as Secretary.

The Chairman proceeded to explain the object of the meeting. He said that the question of our commercial relations with other countries being to us of the highest importance we ought not to hesitate to take into consideration the projected reciprocity treaty between Canada and the United States. Our neighbours offered us the only market available for our products, and our agricultural population must of necessity find great advantages from a renewal of reciprocity relations. Manufacturers of course would have their say, and would fully represent their own interests, but it was very certain that the treaty would turn out to the advantage of the great mass of the population.

Hon. Senator J. O. Bureau expressed his satisfaction and pleasure at meeting such a large assemblage of those whom he represented in the Senate. Their evident eagerness to study the reciprocity question proved that the farmers understood their own interests and that they remembered the happy results of the treaty of '54. He explained the circumstances which brought the present reciprocity negotiations on the *tapis*, and showed that it was necessary before going into its merits to revert to the Washington Treaty. During the war in the United States, England having from negligence permitted her subjects to infringe the neutrality laws, inflicted severe loss upon our American neighbours. The *Alabama* and other privateers of the Southern States constructed in the ship yards of England ruined the merchant marine of United States in the interests of the South and of rebellion. There naturally resulted negotiations between the two Powers, and both parties resolved to submit their difficulties to arbitration; hence the Treaty of Washington, which referred the whole question to the tribunal of arbitration which sat at Geneva. This tribunal fixed upon fifteen millions as the amount which England ought to pay for the direct injuries and losses caused to the United States. But our neighbours, also demanded compensation for indirect damages. To meet that demand the Treaty of Washington ceded forever to the United States the free navigation of the St. Lawrence and its canals, and the liberty of fishing in our waters for a term of twelve years. In return we had ceded to us forever the navigation of three little unknown Rivers on the Pacific, as also the right of using for twelve years the unproductive fisheries of the Americans and the free navigation of Lake Michigan. Our fisheries being more important than those of the United States, it was decided that a new commission should establish the amount to be allowed us in compensation. That commission not having been named, and great uncertainty prevailing as to the amount which might fall to us the Mackenzie Cabinet on attaining to power became of opinion that the best compensation would be the ratification of a new treaty of reciprocity with the United States. When we compared the certain advantages and those calculated in advance which the reciprocity treaty would insure to us for twenty-one years, with our slender chances of realising a large amount as compensation for our fisheries, one could not hesitate to approve of the line of conduct pursued by the Government. From '54 to '65 we had enjoyed a period of relative prosperity, our farmers had open to them for the productions of their fields a market of forty millions of people, and that without being subject to any prohibitory duty. Corn and animals passed the frontier to be sold at high profits, and what had been the result of the change that had taken place to the opposite? Now these products were taxed as follows:—Animals of all kinds, 20 per cent., and the cost to Canada's exporters in 1871-72 under this head was 2,483,322 dollars; agricultural products, at 20 per cent, 2,655,712 dollars. The tariff in detail was as follows:—Barley per bushel of 48 lbs., 15 cents; buckwheat, 10 per cent.; butter, 4 cents per pound; Indian corn, per bushel, 10 cents; flax seed, per bushel of 56 lbs., 20 cents; flax seed oil, per gallon, 10 cents; hay, 20 per cent; oats, per bushel of 32 lbs., 10 cents; prepared meat, 35 per cents.; dried peas, 10 per cent; peas for seed, 10 per cent; potatoes, per bushel, 15 cents; wheat, 20 per cent; cheese, 20 per cent. For the fiscal year 1872-73 we exported of animals and their products to the value of 12,416,613 dollars, and of farm produce to the amount of 13,378,562 dollars; in all, 25,795,175 dollars. Upon this amount, at an average of 20 per cent., our exporters had had to pay in duties the sum of 5,159,035 dollars. The very size of this amount demonstrated the obstacles experienced in the movement of our products. With free admission to the markets of the United States, much higher prices would have been obtained, and our farmers would have derived incalculable benefits. We all remember how, during the last year in which the Reciprocity Treaty of 1854 was in force, farmers sold at our railway stations and at our markets barley at rates as high as $1.55 per bushel, peas at $1.30, and oats at 75 cents. Since that time barley had not reached a price high enough to sufficiently remunerate the farmer for the trouble of production, and the movement of almost all agricultural products had consequently been slow and inactive. As to the United States, they would derive equally important advantages from the Treaty, and yet without crushing any of our interests. The memorandum submitted by the Hon. George Brown and Sir Edward Thornton furnished the proofs of these facts. Our neighbours across the line each year bought from Canada much less than they sold to us. Our statistics proved that in 1872-3 our exportations of all kinds to the United States rose to 45,544,655 dollars, and our importations of all kinds to 47,735,678 dollars, thus leaving a considerable balance in favor of the United States. The Commissioner of the American Treasury spoke thus on the subject of the repeal of the old Treaty:—"It has quintupled our trade with the Provinces, given an impulse to public improvements, and utilized the new canals, railways and other highways of commerce." It was clearly proven that all advantages were reciprocally enjoyed by both countries. We were told sometimes that the Treaty would impose upon us heavy outlays for the enlargement of the canals, but these were themselves indispensable improvements to carry out which actually devolved upon the present Government, an Order in Council, which he could cite in proof, having been passed voting more than nine million dollars, or about 9,240,000 dollars by the Macdonald Administration to the enlargement of the Welland Canal. For several years the project had been set before the public, with the intent that it might soon be realized. Some manufacturers—partizans actuated by a narrow and petty policy—abhorred the Treaty, and would lead us to a system of absolute protection. Those gentlemen forgot that it was necessary before manufacturing to find purchasers. Without the market offered us by the Americans, we should soon inundate the country with the products of our industry, and the development of our manufactures would be paralised. We ought not, either to forget that the United States were protectionists, and that the competition of other countries was not to be apprehended in their markets. If we produced with moderation, with the price of labour higher in the United States than in this country, would not the American buy from us on the other side as soon as upon this side, while our products would be protected by American tariffs against European competition. With larger views manufacturers would understand that the contemplated Treaty could not materially hurt their interests, as well as that the Government could not model its tariff and financial and commercial policy, so as to protect a single class in society without regard to the interests of the mass of the population. Mr. Bureau finished his speech by thanking the audience for the attention given to his remarks, and expressing a hope that the agricultural class would profit by the occasion to secure prosperity in future.

Mr. Coupal, M.P., for Napierville, while confessing that he had not sufficiently studied the details of the proposed Treaty to pronounce emphatically and finally upon them, expressed his general concurrence in the views of Mr. Bureau, and pointed out to the farmers the advantage which must necessarily accrue in the shape of higher prices from the new proposition for reciprocity. He contended that the advantages in the shape of an extended market to the manufacturer were equally great in their way. If the Treaty were not as favourable as we could desire, that was due to circumstances not under our control. He then promised to study the details of the Treaty, and communicate to the electors at a future meeting his views upon the subject.

The Chairman then submitted the following motion to the meeting, which had been previously moved by Mr. Dominique Monette, of St. Michel-Archange, seconded by Mr. Louis Martin, of Napierville, two of the most important agriculturists in the Lorimier Division—the former at the recent election being a partisan of Mr. Goyer, the defeated candidate, and the latter a supporter of Mr. Coupal:—"That this meeting approves of the steps taken by the Federal Government to conclude a Treaty of Reciprocity with the United States on a just and equitable basis for the two countries." The meeting having signified its approval of the motion, Dr. Lafontaine asked if any one voted in the negative, and the crowd replied loudly "no, no." The motion was then declared carried unanimously.

HAVE YOUR CLOTHING MARKED.—In a life time it will save you many dollars and afford much gratification. Parson's Indelible Ink is indispensable for this purpose; it needs no preparation, it will not injure the finest fabric and can be used with a common pen. 3677.

For Bunnell's Patent Washer Stovey & Co.'s Royal Canadian Wringer, Polygonal Turning Furnaces, Stoves and Stove Pipes, fitted up in a workmanlike manner, go to C. P. Dorion. Also on hand and for sale very cheap 7,500 Stove Pipes of all kinds at our well known townsman, C. P. Dorion, 81 and 83 Spark Street, Ottawa, Ont. 3679

OWNERS OF HORSES REJOICING.—And why not? and who knows but their horses are rejoicing as well; who can prove the contrary? But their owners are rejoicing because of the astonishing and almost miraculous effects on their horses of "Darley's Condition Powders and Arabian Heave Remedy." Some were lean and poorly, having no appetite, others would devour their food ravenously, yet derive no benefit from it; some were hide-bound, with rough and shaggy hair; others had severe colds and coughs; some had the heaves and other complaints peculiar to horses; in all it operated as a charm, the disease or complaint was speedily removed, the appetite and digestive organs corrected, skin softened, and a sleek and shining appearance given to the coat all without any danger to, or preventing the horse being used.—Remember the name, and see that the signature of Hurd & Co. is on the package.—Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealers.

FALL IMPORTATIONS.—N. Faulkner, sign of the Maple Leaf, Sussex street, will offer for sale from Tuesday, 22nd inst., 500 Ladies' Waterproof Mantles, 40 per cent below cost. BY TELEGRAPH

TORONTO.

Grange Meeting.

TORONTO, Sept. 23.

The new and popular order, Patrons of Husbandry, commenced their deliberations yesterday in the Agricultural Hall, Queen street.

The delegates wore badges with a neat and appropriate design representing rural scenery. Great curiosity was manifested to know how the order was represented, and what the prospects were of its becoming a permanent institution.

The representatives were good specimens of Canadian farmers, neatly and plainly attired, social and intelligent. A goodly number of ladies, wives and daughters of the representatives, took part in the proceedings.

The ladies wore chastely designed regalias, and aprons of pure white, edged with crimson lace. The gentlemen wore regalias and aprons of dark orange.

The meeting was one of great importance, considering the discussion of separation from the United States was one of the principal questions that was likely to arise.

The meeting was formally opened by Worthy Bro. Hill, Master Dominion Grange. Nothing of importance was done beyond appointing committees and a slight discussion on the election of officers.

MONTREAL.

Stock Markets.

MONTREAL, Sept. 23.

The stock market remains firm at yesterday's quotations with very little doing. Montreal, 193½, closing at 193½ to 193¾. Molson's [ex-dividend] 111, closing at 110 to 110½. Merchant's 119½, closing at 119 to 119½.

HALIFAX.

Marine Intelligence—Exports of British Silver—Fire.

HALIFAX, Sept. 22.

Captain Woods, of the brigantine 'Florence,' arrived to-day from Demerara, reports that she experienced a hurricane on the 4th inst., and lost her main topmast. On the 9th she fell in with the schooner 'Milita,' Captain Holmes Israel, of Hillsboro, New Brunswick, six hands all told, from Annapolis with a cargo of lumber for Port au Prince; at 7 a.m. on the 6th of September the latter encountered the hurricane in latitude 33, longitude 67.10, and was dismasted, deck swept of deck load, boats, and galley, and cabin filled with water. The crew were transferred to the 'Florence' and brought here. On the 10th the 'Florence,' when on the edge of the Gulf stream, passed a brigantine on her beam ends with no sign of life on board. Her sides were painted black with iron work, bulwarks and yards, white. She was coppered.

The brigantine 'Adelaide' Capt. Porter, from bridgewater, for Barbadoes, with lumber, put into Liverpool, N. S., on the 16th, dismasted, and with the loss of her deck load.

The steamer 'Falmouth, from Portland, did not arrive owing to fog until near twelve o'clock last night. She left again at 4 p. m. to-day.

The steamer 'Nova Scotian,' for Newfoundland and Liverpool, left at noon to day. She took $12,140 in British silver, shipped by the Bank of Montreal.

The general store of Kenny & Maguire, at Pirate Harbour, Strait of Canso, was burned last night, and the stock destroyed. The latter was insured for $1,800 in the Provincial Insurance Company of Canada.

COLLINGWOOD.

For Lake Superior—Sudden Death.

COLLINGWOOD, Sept. 22.

The steamer Cumberland left at seven o'clock p. m. for Lake Superior with an average number of passengers and a fair amount of freight. She will call at all ports on the upper lakes, including Nipigon and the Black Bay Mines. Among the passengers are Mr. Smith, Inspector of Lighthouses, who is on a tour along the North Shore of Lake Superior and Nipigon Bay, to make arrangements for lighting up that region so long required; also Mr. Church, of Church's Landing, who is returning from Ottawa, having been there with reference to the deepening of the Neebish Channel in the Sault River.

A private telegram from the Sault announce the sudden death on Sunday last at that place of Mr. J. Swinburne, purser of the steamer Seymour. The deceased was widely known and greatly respected by a large circle of friends here and at different points along the lakes. Much sympathy is felt for his family in their bereavement.

KINGSTON.

A Take In—A Soldier Decorated—Price of Barley—Corner Loafers Local Politics.

KINGSTON, Sept. 23.

There is general disgust among Kingston people and others who attended the sports at Alexandria Bay at the hollow sells perpetrated.

A fire this morning was put out without much damage at Mr. Halligan's, Montreal Road

Master Gunner Creeman, of A Battery, was to-day presented on parade with a medal from the Imperial authorities for long service and good conduct.

Barley sells here at 87 cents per bushel.

The police are looking after street corner and church door loiterers.

There is some political excitement here over the nominations for the city and county for the Local House.

YESTERDAY'S DESPATCHES

ENGLAND.

Don Carlos and the Throne of France.

LONDON, Sept. 23.—A despatch from Carlist sources denies the truth of the report that Don Carlos has been recognized by four branches of the Bourbon family as heir presumptive to the throne of France.

Imperial Visit.

The Empress of Russia is expected to arrive in England on October 5th, on a visit to her daughter, the Duchess of Edinburgh.

S. S. Arrivals.

LIVERPOOL, Sept. 23.—Arrived, s.s. 'Java' from New York and 'Indiana' from Philadelphia.

FRANCE.

The Elections.

PARIS, Sept. 23.—The elections to fill vacancies in the National Assembly have been ordered for October 18th. The excitement over the approaching election for Council-General of Corsica causes much disorder. The authorities have been obliged to interfere to prevent a collision between the supporters of Prince Napoleon and M. Petrie, opposing Bonaparte candidates.

Obit.

DeBeaumont, the geologist, is dead.

UNITED STATES.

The Southern Troubles.

NEW ORLEANS, Sept 23.—A New Orleans special states that the reported determination of Kellogg to arrest and try the leaders of the late riots under the state laws has caused great excitement, and it is believed that any attempt to carry out such a determination will result in bloodshed and armed resistance. The army officers oppose such proceedings, as bad faith towards the surrendered party. The threatened search of private houses for missing State arms will be resisted, unless the search be made by the United States officials.

S. S. Arrival.

NEW YORK, Sept. 23.—Arrived, s.s. 'Pomerania' from Hamburg.

The Weather.

NEW YORK, Sept. 23.—The weather is fine but cool, there was a slight frost last night.

Beecher.

ST. JOHNSBURG, Vt., Sept. 23.—A despatch says Beecher made a speech at a fair here yesterday and was cordially received. He returned to Twin Mountain after the address.

The Elections.
